(602) 542-5381 • FAX: (602) 542-0868

Matthew Gress  
Director

January 14, 2019

The Honorable Douglas A. Ducey, Governor of Arizona, and Honorable Members of the Arizona State Legislature:

#### FEDERAL FUNDS TRENDS

The revenue and expenditure data and estimates of state agencies indicate that federal funding decreased in fiscal year 2018. However, state agencies expect increases for the second year in a row in fiscal years 2019 and 2020.

Figure 1 displays the trend in federal funds received by state agencies since fiscal year 1996 and the percentage change in receipts from year to year.

#### FEDERAL FUNDS OUTLOOK

The \$13.1 billion reported for FY 2018 represents a 6.8% decrease from the \$14.2 billion reported in FY 2017.

Health and Welfare will continue to dominate federal revenues to the State. As Figure 2 demonstrates, Health and Welfare constitutes 80% or \$10.5 billion of the total amount received by the State from the Federal Government in fiscal year 2018. Unless

Figure 1  
Federal Funding Trend Including Estimates for FY 2019 and FY 2020

changes are made by the Federal Government, this is expected to continue. The next primary component of federal funds, Education, is expected to grow at a moderate pace in fiscal year 2019. The Protection and Safety area is also expected to grow. All other programs are expecting to continue near present funding levels.

The information contained in this document is compiled from data provided by state agencies through the normal budget process. Thirty-seven state agencies reported federal revenue or expenditures for fiscal year 2018 and estimates for fiscal years 2019 and 2020. The information was submitted to OSPB in September 2018. Specific questions on the reported information or requests for updated forecasts should be directed to the reporting agency. Specific grant information is available for review at individual state agencies and at the Governor's Office of Strategic Planning and Budgeting.

Sincerely,  
Matthew Gress  
Director

<b>State Energy Program</b>	<b>81.041</b>	<b>Department of Energy</b>	200007	581.7	759.1	580.0	.6

The program provides financial and technical assistance to State governments to create and implement a variety of energy efficiency and conservation projects in order to provide leadership to maximize the benefits of energy efficiency and renewable energy through communications and outreach activities, technology deployment, and accessing new partnerships and resources across the geographic panorama of the United States and its territories. The program's objectives are:

- \* To reduce fossil fuel emissions created as a result of activities within the jurisdictions of eligible entities;
- \* To reduce the total energy use of the eligible entities; and
- \* To improve energy efficiency in the transportation, building, and other sectors.

<b>Highway Planning and Construction</b>	<b>20.205</b>	<b>Department of Transportation</b>	630000	128.8	135.0	135.0	.6

Federal-aid Highway Program: To assist State transportation agencies in the planning and development of an integrated, interconnected transportation system important to interstate commerce and travel by constructing and rehabilitating the National Highway System (NHS), including the Eisenhower Interstate System; for transportation improvements to many other public roads; to provide aid for the repair of Federal-aid highways following disasters; to foster safe highway design; to replace or rehabilitate deficient or obsolete bridges; and to provide for other special purposes. This program also provides for the improvement of roads in Puerto Rico, Guam, the U.S. Virgin Islands, American Samoa, and the Commonwealth of the Northern Mariana Islands. The Federal Lands Transportation Program (FLTP) provides assistance to the Federal Land Management Agencies (FLMAs) for Federally-owned roads and trails. It provides transportation engineering services and funding for planning, design, construction, and rehabilitation of the highways and bridges providing access to and on federally owned lands. The Federal Lands Highway organization also provides training, technology, deployment, engineering services, and products to other customers.

<u>Performance Measures</u> <div> <div>2018</div> <div>2019</div> <div>2020</div> </div>							
Collect and deliver end-user data from Broadband Providers. Performance Measure will be completed in the following steps: 1. Collect end-user data from Broadband Providers in semi-annual installments, per FCC requirements and Arizona State Broadband map requirements. 2. Transform collected data into Geo-coded points. 3. Deliver GEO-coded data-sets to the FCC, semi-annually, per requirements. 4. Deliver GEO-coded data-sets incrementally to mapping template at the Arizona State Land Department. 5. Publish via AZ Broadband Map web-site and other demand reporting outputs, maps and related GIS information.  Create a State Broadband Strategic Plan and conduct ongoing Policy and Best Practice analysis. Performance Measure will be completed in the following steps: 1. Organize the Arizona Broadband Development Council (ABDC) under the Arizona Strategic Enterprise Technology Office (ASET) within the Arizona Department of Administration (ADOA). 2. Create a State Broadband Strategic Plan. 3. Conduct ongoing Policy and Best Practice analysis. 4. Organize and/or support Regional Broadband Planning (by Political Subdivisions and Regional Economic Development Councils). 5. Align Arizona with the National Broadband Plan via Broadband best practices, policies, and technology reporting.

To assist institutions and organizations, to establish, expand, and improve research, demonstration, education and information dissemination activities; acquired immunodeficiency syndrome (AIDS), biologics, blood and blood products, therapeutics, vaccines and allergenic projects; drug hazards, human and veterinary drugs, clinical trials on drugs and devices for orphan products development; nutrition, sanitation and microbiological hazards; medical devices and diagnostic products, radiation emitting devices and materials; food safety and food additives. These programs are supported directly or indirectly by the following Centers and Offices: Center for Biologics Evaluation and Research (CBER); Center for Drug Evaluation and Research (CDER); Center for Devices and Radiological Health (CDRH); Center for Veterinary Medicine (CVM), Center for Food Safety and Applied Nutrition (CFSAN), National Center for Toxicological Research (NCTR), the Office of Orphan Products Development (OPD), the Center for Tobacco Products (CTP), and Office of Regulatory Affairs (ORA), and the Office of the Commissioner (OC). Small Business Innovation Research (SBIR) Programs: to stimulate technological innovation; to encourage the role of small business to meet Federal research and development needs; to increase private sector commercialization of innovations derived from Federal research and development; and to foster and encourage participation by minority and disadvantaged persons in technological innovation. Funding support for scientific conferences that are relevant to the FDA scientific mission and public health are also available.

The Federal Seed Program prevents mislabeled seed from moving in interstate commerce by providing for random sampling of seeds to insure accurate labeling of seed characteristics. The Plant Variety Protection Program offers legal protection to developers of new varieties of plants which reproduce by providing the equivalent of a patent to the plant's developer. The Research and Promotion Programs provide for the collection of an assessment for each commodity covered by statutes to enable the commodity industries to carry out research and promotion activities. It is the responsibility of the Agricultural Marketing Service to assure responsible use of these assessments in meeting the research and promotion objective. The Dairy and Tobacco Adjustment Act authorized the establishment of a National dairy promotion research and nutrition education program. To eliminate deceptive, unfair and fraudulent trade practices in the processing and marketing of food and agricultural products; provide assistance to those striving to achieve this objective. The Pesticide Data Program works with participating States to collect and analyze data on pesticide use and residue levels for selected commodities in the nation's food supply. This program provides statistically based data to Federal agencies for use in making policy decisions for regulatory and educational purposes.

<b>Performance Partnership Grants</b>	<b>66.605</b>	<b>Environmental Protection Agency</b>	AHA17003	384.2	527.1	514.0	.6

Improving EPA's partnership with the States and Tribes is critical to accelerating environmental outcomes. Performance Partnership Grants (PPGs) are the cornerstone of the National Environmental Performance Partnership System (NEPPS) -- EPA's strategy to strengthen partnerships and build a results-based management system. PPGs are innovative grant delivery tools that allow States and Tribes to combine up to 18 eligible State and Tribal Assistance Grants (STAG) grants into a single grant with a single budget. PPGs can reduce administrative transaction costs, provide the flexibility to direct resources toward the highest priority environmental problems, and support cross-media approaches and initiatives. EPA's overarching goal is to optimize the leveraging power of PPGs to focus strategically on the joint priorities of EPA, States and Tribes. PPGs do not include any funding in addition to the state and tribal assistance grants provided under other statutory authorities.

Funding Priority - Fiscal Year 2013: Many state environmental agencies are experiencing severe budget cuts and will be challenged to maintain core programs. In this climate, EPA's regional offices will give priority to flexibility and opportunities to work collaboratively with States and Tribes. The Agency will continue to focus on our ongoing goals for the PPG program, which are: (1) strengthen partnerships between EPA, the States, Tribes, and interstate agencies through joint planning and priority setting to deploy resources more effectively; (2) provide States, Tribes, and interstate agencies with the flexibility to direct resources where they are needed most to address environmental and public health priorities; (3) link program activities more effectively with environmental and public health goals and environmental outcomes; (4) foster implementation of innovative approaches such as pollution prevention, ecosystem management, and community-based environmental protection strategies; and (5) provide savings by streamlining administrative requirements.

<b>Emergency Management Performance Grants</b>	<b>97.042</b>	<b>Department of Homeland Security</b>	AHA18003	92.6	365.0	165.8	.6

The EMPG Program provides resources to assist state, local, tribal and territorial governments in preparing for all hazards, as authorized by the Robert T. Stafford Disaster Relief and Emergency Assistance Act, as amended (42 U.S.C. 5121 et seq.). Title VI of the Stafford Act authorizes FEMA to make grants for the purpose of providing a system of emergency preparedness for the protection of life and property in the United States from hazards and to vest responsibility for emergency preparedness jointly in the federal government and the states and their political subdivisions. The intent of the FY 2012 EMPG is to provide grant funding to assist state emergency management agencies in obtaining the resources required to support the National Preparedness Goal's (NPG's) associated mission areas and core capabilities. The federal government, through the EMPG Program, provides necessary direction, coordination, and guidance, and provides necessary assistance, as authorized in this title so that a comprehensive emergency preparedness system exists for all hazards.

The FY 2013 EMPG Program plays an important role in the implementation of the National Preparedness System (NPS) by supporting the building, sustainment, and delivery of core capabilities essential to achieving the National Preparedness Goal (NPG) of a secure and resilient Nation. Delivering core capabilities requires the combined effort of the whole community, rather than the exclusive effort of any single organization or level of government. The FY 2013 EMPG Program's allowable costs support efforts to build and sustain core capabilities across the Prevention, Protection, Mitigation, Response, and Recovery mission areas.

Examples of tangible outcomes from the EMPG Program include building and sustaining core capabilities through:

- Building and sustaining core capabilities
- Completion of the Threat and Hazard Identification and Risk Assessment (THIRA) process
- Strengthening governance integration
- Approved emergency plans
- Development and maintenance of multi-year Training and Exercise Plans (TEPs)
- Targeted training and verification of personnel capability
- Whole community approach to security and emergency management.

<b>ACA - State Innovation Models: Funding for Model Design and Model Testing Assistance</b>	<b>93.624</b>	<b>Department of Health and Human Services</b>	<b>1G1CMS33138 5-01-02</b>	0.0	0.0	0.0	, 2, 6, 8, 15

The Center for Medicare and Medicaid Innovation (Innovation Center) announces the second round of funding for the State Innovation Models (SIM) program. SIM is based on the premise that state innovation with broad stakeholder input and engagement, including multi-payer models, will accelerate delivery system transformation to provide better care at lower costs. SIM is focused on public and private sector collaboration to transform the state's delivery system. SIM provides financial and technical support to states to test the ability of state governments to use their regulatory and policy levers to accelerate health transformation. In Round 1, CMS partnered with 6 Model Test states to implement state-wide health transformation strategies and 19 Model Design states to develop and refine State Healthcare Innovation Plans to guide future implementation efforts.

Drawing on lessons from the funding opportunity released in Round 1, State Innovation Models: Funding for Model Design and Testing Assistance (CMS-1G1-12-001) (Round 1 FOA), Round 2 of SIM specifies additional parameters that CMS believes correlate with successful state-wide health transformation. These parameters are described in this Funding Announcement in the form of requirements for Round 2 applications. CMS will fund up to 12 Model Test states with approximately \$20-100 million grants per state, with funding based in part on the size of the state population and the scope of the transformation proposal. Additionally, CMS will provide up to \$3 million per state for up to 15 Model Design cooperative agreements to design new State Health System Innovation Plans or enhance existing plans developed in Round 1. All Round 1 Model Design states must apply for Round 2 of SIM. The Round 1 FOA indicated that states receiving Round 1 Model Design awards must submit a Model Testing proposal for the Round 2 FOA. CMS is amending that requirement to submit a testing proposal in Round 2, so that a Model Design state may either apply for a Model Test award or may apply for a second Model Design award in order to enhance their State Health System Innovation Plan for future testing.

<u>Performance Measures</u>	<u>2018</u>	<u>2019</u>	<u>2020</u>
Submit a State Innovation Plan by the conclusion of this grant.			
The State of Arizona will have completed and submitted a State Innovation Plan at the conclusion of this Grant.

Substance Abuse and Mental Health Service Administration (SAMHSA) was reauthorized by the Children's Health Action of 2000, Public law 106-310. Under this reauthorization, SAMHSA was given the authority to address priority substance abuse treatment, prevention and mental health needs of regional and national significance through assistance (grants and cooperative agreements) to States, political subdivisions of States, Indian tribes and tribal organizations, and other public or nonprofit private entities. Under these sections, CSAT, CMHS and CSAP seek to expand the availability of effective substance abuse treatment and recovery services available to Americans to improve the lives of those affected by alcohol and drug additions, and to reduce the impact of alcohol and drug abuse on individuals, families, communities and societies and to address priority mental health needs of regional and national significance and assist children in dealing with violence and traumatic events through by funding grant and cooperative agreement projects. Grants and cooperative agreements may be for (1) knowledge and development and application projects for treatment and rehabilitation and the conduct or support of evaluations of such projects; (2) training and technical assistance; (3) targeted capacity response programs (4) systems change grants including statewide family network grants and client-oriented and consumer run self-help activities and (5) programs to foster health and development of children; (6) coordination and integration of primary care services into publicly-funded community mental health centers and other community-based behavioral health settings funded under Affordable Care Act (ACA).

<u>Performance Measures</u>	<u>2018</u>	<u>2019</u>	<u>2020</u>
Arts Education for Arizona Schools and Communities	65.700	66.500	65.900
This component of our federal grant is measured by the following criteria:			
1) Various Arts Education programs the Commission delivers to the field: how many events are provided, how many attendees per event, geographic diversity per event, feedback from attendees and presenters.			
2) Number of Arts Learning grants given to Arizona schools and organizations: how many grants were applied for and awarded, what programs are being funded with these grants (determined through the initial grant application and the final grant report).			
Poetry Out Loud Events and Competition	20.000	17.500	17.500
The Poetry Out Loud component of our federal grant is measured in several ways:			
1) Qualitative: feedback from participating school teachers, teaching artists/coaches, competition judges, and regional partners.			
2) Quantitative: how many Arizona schools participated, how many students participated.

<b>Edward Byrne Memorial Justice Assistance Grant Program</b>	<b>16.738</b>	<b>Department of Justice</b>	FAB30048	669.6	680.0	620.2	.1, 6
JAG funds support all components of the criminal justice system from multijurisdictional drug and gang task forces to crime prevention and domestic violence programs, courts, corrections, treatment, and justice information sharing initiatives. JAG funded projects may address crime through the provision of services directly to individuals and/or communities and by improving the effectiveness and efficiency of criminal justice systems, processes, and procedures.							
<u>Performance Measures</u>		<u>2018</u>	<u>2019</u>	<u>2020</u>			
To deprive Arizona drug/money laundering criminals of their profits.		2,395	2,472	2,200			
This is measured by the number of cases "incidents" reported in high impact areas for which many criminal enterprises have been interrupted. These numbers are calculated from reports produced from Legal Files by the number of discrete defendants identified as the total number of personal (individual), and seized real and personal property defendants.

<p>To coordinate Federal missing and exploited children activities and to support research, training, technical assistance, and demonstration programs to enhance the overall response to missing children and their families. Establish and maintain a national resource center and clearinghouse dedicated to missing and exploited children issues that: (1) provides a toll-free hotline where citizens can report investigative leads and parents and other interested individuals can receive information concerning missing children; (2) provides technical assistance to parents, law enforcement, and other professionals working on missing and exploited children cases; (3) promotes information sharing and provides technical assistance by networking with regional nonprofit organizations, State missing children clearinghouses, and law enforcement agencies; (4) develops publications that contain practical, timely information; and (5) provides information regarding programs offering free or low-cost transportation services that assist in reuniting children with their families. On a periodic basis, as funding is designated by Congress for this purpose, conduct national incidence studies to determine the type and extent of missing children in America. Support law enforcement demonstration programs (e.g., the Internet Crimes Against Children Task Force Program) to enhance the investigative response to missing and exploited children cases. Support research to broaden understanding of a wide range of missing and exploited children issues (e.g., abduction homicide investigation solvability factors), to inform training and technical assistance efforts and to identify promising practices and programs for replication. Develop training programs for law enforcement, child protective services, medical personnel, and prosecutors to enhance coordination and effectiveness of missing and exploited children investigations and to enhance the overall system response. Identify service gaps and develop programs to meet specialized needs of parents or guardians of children who are reported missing.</p>

To reach members of the Deaf and Hard of Hearing Community in Arizona through the AGO Website.	N/A	N/A	N/A
It is the goal of the Davison of Civil Rights Sections to reach members of the Deaf and Hard of Hearing community in Arizona. We will develop a video on the AGO website giving them information on their civil rights, as well as how to file a civil rights complaint. Although we won't be able to measure the number of individuals who view the videos, the Sections may see an increase in case activity with the Deaf and Hard of Hearing community filing complaints.

<b>Promoting Safe and Stable Families</b>	<b>93.556</b>	<b>Department of Health and Human Services</b>	935560	467.4	514.2	456.9	.6

To prevent the unnecessary separation of children from their families, improve the quality of care and services to children and their families, and ensure permanency for children by reuniting them with their parents, by adoption or by another permanent living arrangement. This is accomplished through issuance of grants to State child welfare agencies and eligible Indian Tribes to serve families at risk or in crisis, including provision of the following services: reunification and adoption services, preplacement/preventive services, follow-up services after return of a child from foster care, respite care, services designed to improve parenting skills; and infant safe haven programs; to fund community-based family support services that promote the safety and well-being of children and families, to afford children a safe, stable and supportive family environment, to strengthen parental relationships and promote healthy marriages, and otherwise to enhance child development; time-limited family reunification services to facilitate the reunification of the child safely and appropriately within a timely fashion; and adoption promotion and support services designed to encourage more adoptions out of the foster care system, when adoption, promotes the best interests of the child. In addition, a portion of funds also is reserved for a separate formula grant for States and territories to support monthly caseworker visits with children who are in foster care. A small proportion of appropriated funds are reserved for research, evaluation and technical assistance, which may be awarded competitively through contracts or discretionary grants.

<u>Performance Measures</u>	<u>2018</u>	<u>2019</u>	<u>2020</u>
Number of Healthy Families program participants	4,466	4330	4,500

The Title IV-E Foster Care program helps States, Indian Tribes, Tribal organizations and Tribal consortia (Tribes) to provide safe and stable out-of-home care for children under the jurisdiction of the State or Tribal child welfare agency until the children are returned home safely, placed with adoptive families, or placed in other planned arrangements for permanency. The program provides funds to assist with the costs of foster care maintenance for eligible children; administrative costs to manage the program; and training for public agency staff, foster parents and certain private agency staff. In addition, \$3 million is reserved for technical assistance and plan development/implementation grants to eligible Tribes, beginning in fiscal year 09.

<b>Second Chance Act Prisoner Reentry Initiative</b>	<b>16.812</b>	<b>Department of Justice</b>	<b>DCA16011</b>	166.1	210.7	210.0	.6

The Second Chance Act Programs are designed to help communities develop and implement comprehensive and collaborative strategies that address the challenges posed by offender reentry and recidivism reduction.

The Second Chance Act is a commonsense response to the increasing number of people who are released from prison and jail and returning to communities. There are currently 2.5 million people serving time in our federal and state prisons, and millions of people cycling through local jails every year. Ninety-five percent of all prisoners incarcerated today will eventually be released and will return to communities. Of those serving a sentence in state or federal prisons, approximately 750,000 will be released each year. The Second Chance Act will help ensure the transition people make from prison or jail to the community is safe and successful.

The State Criminal Alien Assistance Program (SCAAP) is a payment program designed to provide federal assistance to states and localities that incur costs for incarcerating undocumented criminal aliens who are being held as a result of state and/or local convictions. The Bureau of Justice Assistance (BJA) administers this program in conjunction with the Department of Homeland Security's (DHS) Immigration and Customs Enforcement (ICE), and U.S. Citizenship and Immigration Services branches.

Enacted in 1984, the Victims of Crime Act (VOCA) is the central source of federal financial support for direct services to victim of crime. VOCA is administered at the federal level through the U.S. Department of Justice, Office for Victims of Crime which annually awards a grant to each state, the District of Columbia and U.S. Territories to support victim assistance services for victims and survivors of domestic violence, sexual assault, child abuse, drunk driving, homicide, and other crimes. Each state has a designated VOCA assistance agency to administer VOCA grants. Those state agencies in turn, subgrant to organizations that provide direct services to victims of crime. While minimal federal requirements must be met, each state is given great discretion in awarding specific subgrants.

<u>Performance Measures</u>	<u>2018</u>	<u>2019</u>	<u>2020</u>

Enacted in 1984, the Victims of Crime Act (VOCA) is the central source of federal financial support for direct services to victim of crime. VOCA is administered at the federal level through the U.S. Department of Justice, Office for Victims of Crime which annually awards a grant to each state, the District of Columbia and U.S. Territories to support victim assistance services for victims and survivors of domestic violence, sexual assault, child abuse, drunk driving, homicide, and other crimes. Each state has a designated VOCA assistance agency to administer VOCA grants. Those state agencies in turn, subgrant to organizations that provide direct services to victims of crime. While minimal federal requirements must be met, each state is given great discretion in awarding specific subgrants.

<b>Grant/Project and Description</b>	<b>CFDA</b>	<b>Grantor</b>	<b>AFIS ID</b>	<b>2018 Received</b>	<b>2019 Est. Rev.</b>	<b>2020 Est. Rev.</b>	<b>Footnote(s)</b>
<b>NICS Act Record Improvement Program</b>	<b>16.813</b>	<b>Department of Justice</b>	<b>JCA14002</b>	0.0	0.0	0.0	, 2, 4, 6

To improve the FBI's National Instant Criminal Background Check System (NICS) by providing assistance to states to improve the completeness, automation and transmittal to state and federal systems the records utilized by the NICS. Such records include criminal history records, records of felony convictions, warrants, records of protective orders, convictions for misdemeanor involving domestic violence and stalking, records of mental health adjudications, and others, which may disqualify an individual from possessing or receiving a firearm under federal law. Helping states to automate these records will also reduce delays for law-abiding gun purchasers.

The NICS Improvement Act amends the Brady Handgun Violence Prevention Act of 1993 ("the Brady Act") (Public Law 103-159), under which the Attorney General established NICS. The Brady Act requires Federal Firearms Licensees (FFLs) to contact the NICS before transferring a firearm to an unlicensed person for information on whether the proposed transferee is prohibited from receiving or possessing a firearm under state or federal law. The NICS Improvement Act was enacted in the wake of the April 2007 shooting tragedy at Virginia Tech. The Virginia Tech shooter was able to purchase firearms from an FFL because information about his prohibiting mental health history was not available to the NICS and the system was therefore unable to deny the transfer of the firearms used in the shootings.

The Act seeks to address the gap in information available to NICS about such prohibiting mental health adjudications and commitments and other prohibiting backgrounds. Filling these information gaps will better enable the system to operate as intended to keep guns out of the hands of persons prohibited by federal or state law from receiving or possessing firearms.

The Act authorized two grant programs to assist states in providing certain information to the NICS, and prescribes grant penalties for non-compliance with the Act's record completeness goals. Pursuant to the Act, there are certain conditions, described below, that a state must satisfy in advance of receiving grants under the Act. The NICS Improvement Act has provisions that require states to meet specified goals for completeness of the records submitted to the Attorney General on individuals prohibited by federal law from possessing firearms. The records covered include automated information needed by the NICS to identify felony convictions, felony indictments, fugitives from justice, drug arrests and convictions, prohibiting mental health adjudications and commitments, domestic violence protection orders, and misdemeanor crimes of domestic violence.

The Act provides for a number of incentives for states to meet the goals it sets for greater record completeness. First, the Act allows states to obtain a waiver, beginning in 2011, of the state matching requirement under the National Criminal

<b>Grant/Project and Description</b>	<b>CFDA</b>	<b>Grantor</b>	<b>AFIS ID</b>	<b>2018 Received</b>	<b>2019 Est. Rev.</b>	<b>2020 Est. Rev.</b>	<b>Footnote(s)</b>
<b>NICS Act Record Improvement Program</b>	<b>16.813</b>	<b>Department of Justice</b>	<b>JCA15009</b>	0.0	0.0	0.0	, 2, 4, 6

To improve the FBI's National Instant Criminal Background Check System (NICS) by providing assistance to states to improve the completeness, automation and transmittal to state and federal systems the records utilized by the NICS. Such records include criminal history records, records of felony convictions, warrants, records of protective orders, convictions for misdemeanor involving domestic violence and stalking, records of mental health adjudications, and others, which may disqualify an individual from possessing or receiving a firearm under federal law. Helping states to automate these records will also reduce delays for law-abiding gun purchasers.

The NICS Improvement Act amends the Brady Handgun Violence Prevention Act of 1993 ("the Brady Act") (Public Law 103-159), under which the Attorney General established NICS. The Brady Act requires Federal Firearms Licensees (FFLs) to contact the NICS before transferring a firearm to an unlicensed person for information on whether the proposed transferee is prohibited from receiving or possessing a firearm under state or federal law. The NICS Improvement Act was enacted in the wake of the April 2007 shooting tragedy at Virginia Tech. The Virginia Tech shooter was able to purchase firearms from an FFL because information about his prohibiting mental health history was not available to the NICS and the system was therefore unable to deny the transfer of the firearms used in the shootings.

The Act seeks to address the gap in information available to NICS about such prohibiting mental health adjudications and commitments and other prohibiting backgrounds. Filling these information gaps will better enable the system to operate as intended to keep guns out of the hands of persons prohibited by federal or state law from receiving or possessing firearms.

The Act authorized two grant programs to assist states in providing certain information to the NICS, and prescribes grant penalties for non-compliance with the Act's record completeness goals. Pursuant to the Act, there are certain conditions, described below, that a state must satisfy in advance of receiving grants under the Act. The NICS Improvement Act has provisions that require states to meet specified goals for completeness of the records submitted to the Attorney General on individuals prohibited by federal law from possessing firearms. The records covered include automated information needed by the NICS to identify felony convictions, felony indictments, fugitives from justice, drug arrests and convictions, prohibiting mental health adjudications and commitments, domestic violence protection orders, and misdemeanor crimes of domestic violence.

The Act provides for a number of incentives for states to meet the goals it sets for greater record completeness. First, the Act allows states to obtain a waiver, beginning in 2011, of the state matching requirement under the National Criminal

<b>Grant/Project and Description</b>	<b>CFDA</b>	<b>Grantor</b>	<b>AFIS ID</b>	<b>2018 Received</b>	<b>2019 Est. Rev.</b>	<b>2020 Est. Rev.</b>	<b>Footnote(s)</b>
<b>NICS Act Record Improvement Program</b>	<b>16.813</b>	<b>Department of Justice</b>	<b>JCA16004</b>	0.0	0.0	0.0	, 2, 4, 6

To improve the FBI's National Instant Criminal Background Check System (NICS) by providing assistance to states to improve the completeness, automation and transmittal to state and federal systems the records utilized by the NICS. Such records include criminal history records, records of felony convictions, warrants, records of protective orders, convictions for misdemeanor involving domestic violence and stalking, records of mental health adjudications, and others, which may disqualify an individual from possessing or receiving a firearm under federal law. Helping states to automate these records will also reduce delays for law-abiding gun purchasers.

The NICS Improvement Act amends the Brady Handgun Violence Prevention Act of 1993 ("the Brady Act") (Public Law 103-159), under which the Attorney General established NICS. The Brady Act requires Federal Firearms Licensees (FFLs) to contact the NICS before transferring a firearm to an unlicensed person for information on whether the proposed transferee is prohibited from receiving or possessing a firearm under state or federal law. The NICS Improvement Act was enacted in the wake of the April 2007 shooting tragedy at Virginia Tech. The Virginia Tech shooter was able to purchase firearms from an FFL because information about his prohibiting mental health history was not available to the NICS and the system was therefore unable to deny the transfer of the firearms used in the shootings.

The Act seeks to address the gap in information available to NICS about such prohibiting mental health adjudications and commitments and other prohibiting backgrounds. Filling these information gaps will better enable the system to operate as intended to keep guns out of the hands of persons prohibited by federal or state law from receiving or possessing firearms.

The Act authorized two grant programs to assist states in providing certain information to the NICS, and prescribes grant penalties for non-compliance with the Act's record completeness goals. Pursuant to the Act, there are certain conditions, described below, that a state must satisfy in advance of receiving grants under the Act. The NICS Improvement Act has provisions that require states to meet specified goals for completeness of the records submitted to the Attorney General on individuals prohibited by federal law from possessing firearms. The records covered include automated information needed by the NICS to identify felony convictions, felony indictments, fugitives from justice, drug arrests and convictions, prohibiting mental health adjudications and commitments, domestic violence protection orders, and misdemeanor crimes of domestic violence.

The Act provides for a number of incentives for states to meet the goals it sets for greater record completeness. First, the Act allows states to obtain a waiver, beginning in 2011, of the state matching requirement under the National Criminal

<b>Grant/Project and Description</b>	<b>CFDA</b>	<b>Grantor</b>	<b>AFIS ID</b>	<b>2018 Received</b>	<b>2019 Est. Rev.</b>	<b>2020 Est. Rev.</b>	<b>Footnote(s)</b>
<b>Postconviction Testing of DNA Evidence to Exonerate the Innocent</b>	<b>16.820</b>	<b>Department of Justice</b>	<b>JCA17007</b>	509.2	0.0	0.0	.2, 6

This program offers assistance to States to help defray the costs associated with postconviction DNA testing of cases of violent felony offenses where actual innocence might be demonstrated. Specifically, funding may be used to review postconviction cases of violent felony offenses (as defined by State law), and to locate and analyze biological evidence samples associated with these cases. Where a strong justification is provided, a small percentage of Federal award funds (not to exceed 15 percent) may be used for permissible case identification activities. For the purposes of this program —

- Case identification means performing outreach and/or initial screening activities, other than “case review” as defined below, designed to identify postconviction cases of violent felony offenses (as defined by State law) where DNA analysis might demonstrate actual innocence. Permissible outreach and initial screening mechanisms are face-to-face meetings, closed-circuit television meetings, eligibility letters/questionnaires/applications, telephone calls, and computerized searches of state court records.
- Case review means review of files or documentation of postconviction cases of violent felony offenses (as defined by State law) by appropriate persons (e.g., prosecutors, public defenders, law enforcement personnel, and medical examiners) to determine whether biological evidence exists that might, through DNA analysis, demonstrate the actual innocence of the person previously convicted.
- Locate evidence means seeking to locate, following a case review, biological evidence that, through DNA analysis, might demonstrate actual innocence, through activities such as the searching of files, storage facilities, and evidence rooms.
- DNA analysis of biological evidence includes the handling, screening, and DNA analysis of biological evidence located in connection with a case review.

States receiving Postconviction DNA Testing Assistance funds are expected to--

1. Review appropriate postconviction cases to identify those in which DNA testing could prove the actual innocence of a person convicted of a violent felony offense(s) as defined by State law.
2. Locate biological evidence associated with such postconviction cases.
3. Perform DNA analysis of appropriate biological evidence.

<p>The goal of this program is to identify the wrongfully convicted in Arizona whose conviction may have resulted from erroneous hair analysis testimony. The objectives include: (1) identify cases where a suspect was identified through hair microscopy analysis and determine whether the suspect was convicted by a jury or pled guilty, (2) determine whether any errors related to hair microscopy comparison were made in testimony at the defendant's trial and/or plea proceedings and document those errors, (3) contact prosecutors, victims, defendants and/or defense counsel in cases where errors were made, and (4) pursue DNA testing on the hair evidence where hair is probative of innocence or guilt by first making efforts to locate the hair evidence and then submitting the hair to a laboratory for DNA analysis.</p>

<b>Improving Teacher Quality State Grants</b>	<b>84.367</b>	<b>Department of Education</b>	350715	34.9	24.8	24.8	.2, 6

To provide grants to State educational agencies (SEAs), local educational agencies (LEAs), State agencies for higher education (SAHEs) and, though SAHEs, to eligible partnerships in order to increase student academic achievement through such strategies as improving teacher and principal quality and increasing the number of highly qualified teachers in the classroom.

<u>Performance Measures</u>	<u>2018</u>	<u>2019</u>	<u>2020</u>
Increasing student academic achievement through strategies such as improving teacher and principal quality, and holding local educational agencies and schools accountable for improvements in student academic achievement.			
The purpose of these funds is to increase student academic achievement through strategies such as improving teacher and principal quality and increasing the number of highly qualified teachers in the classroom and highly qualified principals and assistant principals in schools and to hold local educational agencies and schools accountable for improvements in student academic achievement.			
These funds may be used for high quality professional development in order for teachers to have the skill and knowledge to help their students become successful in meeting the State academic standards. They may also be used to help teachers become highly qualified especially in hard to fill content areas.			
Successful outcomes include all teachers considered highly qualified in the content area in which they are teaching and students meeting the state standards as measured by the state academic assessments.

<b>Maternal and Child Health Federal Consolidated Programs</b>	<b>93.110</b>	<b>Department of Health and Human Services</b>	000008	0.0	0.0	0.0	. 2, 4, 6

To carry out special maternal and child health (MCH) projects of regional and national significance; to conduct training and research; to conduct genetic disease testing, counseling, and information development and dissemination programs; for grants relating to hemophilia without regard to age; and for the screening of newborns for sickle cell anemia, and other genetic disorders. and to support comprehensive hemophilia diagnostic and treatment centers. These grants are funded with a set-aside from the MCH Block grant program. SPRANS grants are funded with 15 percent of the Block Grant appropriation of up to \$600 million. When the appropriation exceeds \$600 million, 12.75 percent of the amount over \$600 million is set aside for the Community Integrated Service Systems grants. 15 percent of the balance remaining over \$600 million is also for SPRANS. The CISS program is to develop and expand the following: (1) Home visitation; (2) increased participation of obstetricians and pediatricians; (3) integrated service delivery systems; (4) maternal and child health centers for women and infants, under the direction of a not-for-profit hospital; (5) services for rural populations; and (6) community-based services for children with special health care needs in order to enhance or develop an integrated services system. In FY 2008 Congress first funded the Combating Autism Act program, which is for early detection, education and intervention activities on autism and other developmental disorders.

First funded in 2004, the Heritable Disorders Program is established to improve the ability of States to provide newborn and child screening for heritable disorders and affect the lives of all of the nation's infants and children. Newborn and child screening occur at intervals across the life span of every child. Newborn screening universally provides early identification and follow-up for treatment of infants affected by certain genetic, metabolic, hormonal and/or functional conditions. It is expected that newborn and child screening will expand as the capacity to screen for genetic and congenital conditions expands.

First funded in 2009, the Congenital Conditions program is established to provide information and support services to women and their families that have received a diagnosis for Down Syndrome, Spina Bifida, Dwarfism and other prenatally or postnatally diagnosed conditions.

<u>Performance Measures</u>	<u>2018</u>	<u>2019</u>	<u>2020</u>
For children zero to age five continue to promote/improve/increase health and access to a medical home, early childhood education, mental health, family support and parent education.			
Deliver on scope of work outlined in agreement.

The Maternal, Infant, and Early Childhood Home Visiting Program is designed : (1) to strengthen and improve the programs and activities carried out under Title V; (2) to improve coordination of services for at risk communities; and (3) to identify and provide comprehensive services to improve outcomes for families who reside in at risk communities. Voluntary evidence-based home visiting is the primary strategy to deliver services. A nurse, social worker, parent educator, or other paraprofessional regularly visits an expectant mother or father, new parent, or primary caregiver of a young child from birth to kindergarten entry to support and strengthen the parent-child relationship to improve the health, development and well-being for the child and family.

<b>Child Care and Development Block Grant</b>	<b>93.575</b>	<b>Department of Health and Human Services</b>	CDA18001	202.2	300.0	0.0	. 1, 2, 6

The Child Care and Development Block Grant (CCDBG or Discretionary Funds) is a part of the Child Care and Development Fund (CCDF) program, along with the Child Care Mandatory and Matching Funds (see CFDA 93.596). The CCDBG provides grants to States, Territories, Tribes, and tribal organizations serving federally-recognized tribes (public institutions of higher education and hospitals are not eligible applicants) for child care assistance for low-income families. The goals are to: (1) allow each State maximum flexibility in developing child care programs and policies that best suit the needs of children and parents within such State; (2) promote parental choice to empower working parents to make their own decisions on the child care that best suits their family's needs; (3) encourage States to provide consumer education information to help parents make informed choices about child care; (4) assist States to provide child care to parents trying to achieve independence from public assistance; and (5) assist States in implementing the health, safety, licensing, and registration standards established in State regulations. Current priorities include: making systemic investments in quality child care to promote child development and health and safety; and creating a system that is child focused, family friendly, and fair to providers.

<u>Performance Measures</u>	<u>2018</u>	<u>2019</u>	<u>2020</u>
To Support the building of a comprehensive, high quality early childhood development system	126.5	134.6	130.2

To provide Federal financial aid to State agencies for costs incurred to operate the Supplemental Nutrition Assistance Program (SNAP).

SNAP Nutrition Education Grant Program funds support the Nutrition Education and Obesity Prevention Grant Program, which was established by Section 241 of the Healthy, Hunger-Free Kids Act of 2010.

SNAP Employment and Training (E&T) funds provide grants to States to provide E&T education to assist SNAP participants in finding work. An E&T program may consist of many different types of components, including but not limited to: independent job search; job search training and support; workfare; educational programs to improve employability; work experience or training to improve employability; other employment oriented activities (e.g., job placement, supported work experience, WIA services); and self-employment training.

The American Recovery and Reinvestment Act of 2009 (ARRA) is intended to preserve and create jobs and promote economic recovery; assist those most impacted by the recession; provide investments needed to increase economic efficiency by spurring technological advances in science and health; and invest in transportation, environmental protection, and other infrastructure that will provide long-term economic benefits.

The ARRA makes \$750,000,000 available for a program of competitive grants for worker training and placement in high growth and emerging industry sectors.

<b>Grant/Project and Description</b>	<b>CFDA</b>	<b>Grantor</b>	<b>AFIS ID</b>	<b>2018 Received</b>	<b>2019 Est. Rev.</b>	<b>2020 Est. Rev.</b>	<b>Footnote(s)</b>
<b>Workforce Investment Act (WIA) National Emergency Grants</b>	<b>17.277</b>	<b>Department of Labor</b>	172770	44.8	752.7	0.0	.2, 6

The purpose of the National Emergency Grant program is to temporarily expand service capacity at the state and local levels by providing time-limited funding assistance in response to significant dislocation events. Significant events are those that create a sudden need for assistance that cannot reasonably be expected to be accommodated within the on-going operations of the formula-funded Dislocated Worker program, including the discretionary resources reserved at the state level.

<u>Performance Measures</u>	<u>2018</u>	<u>2019</u>	<u>2020</u>

To provide grants to States to assist them to implement and maintain a Statewide, comprehensive, coordinated, multidisciplinary, interagency system to make available early intervention services to infants and toddlers with disabilities and their families.

<u>Performance Measures</u>	<u>2018</u>	<u>2019</u>	<u>2020</u>
Individualized Family Service Plan (IFSP) completion timeliness	95.4%	96.9%	95.0%
The United States Department of Education, Office of Special Education Programs (USDOE/OSEP) oversees the implementation of Part C of the Individuals with Disabilities Education Act (IDEA), which governs the Arizona Early Intervention Program. IDEA requires states to determine eligibility and complete the initial Individualized Family Service Plan (IFSP) within forty-five days of referral. These two measures indicate how quickly AzeIP is able to respond to families, determine eligibility for children and their families, develop a plan that outlines the intended outcomes and the early intervention services that will be provided.

<b>Grant/Project and Description</b>	<b>CFDA</b>	<b>Grantor</b>	<b>AFIS ID</b>	<b>2018 Received</b>	<b>2019 Est. Rev.</b>	<b>2020 Est. Rev.</b>	<b>Footnote(s)</b>
<b>Special Programs for the Aging Title III, Part B Grants for Supportive Services and Senior Centers</b>	<b>93.044</b>	<b>Department of Health and Human Services</b>	930440	9,603.8	10,388.2	10,388.2	.6

To encourage State Agencies on Aging and Area Agencies on Aging to concentrate resources to develop and implement comprehensive and coordinated community-based systems of service for older individuals via Statewide planning, and area planning and provision of supportive services, including multipurpose senior centers. The objective of these services and centers is to maximize the informal support provided to older Americans to enable them to remain in their homes and communities. Providing transportation services, in-home services, and other support services, this program insures that elders receive the services they need to remain independent.

<u>Performance Measures</u>	<u>2018</u>	<u>2019</u>	<u>2020</u>
Percent of survey respondents indicating provision of home-and community-based services avoided premature institutionalization (biennial survey)	N/A	N/A	N/A
The grant is used to measure client satisfaction. The survey is conducted every other year.			

<b>Special Programs for the Aging Title III, Part C Nutrition Services</b>	<b>93.045</b>	<b>Department of Health and Human Services</b>	930450A	7,136.0	9,444.2	9,444.2	.6

ADRCs are designed to serve as “visible and trusted” sources where people can turn to for objective information on their long-term services and support options and their Medicare benefits. These programs also provide “one-on-one” counseling and advice to help consumers, including private pay individuals, to fully understand how available options relate to their particular needs, as well as streamlined access to all publicly supported long-term services and support programs. Funding under this Program will help states further develop and strengthen their statewide systems of person-centered information, counseling and access. Through this grant program, states and local aging and disability programs will receive funds to provide outreach and assistance to Medicare beneficiaries on their Medicare benefits including prevention; use additional funds through a competitive process, to provide Options Counseling on health and long term care through ADRCs; use additional funds through a competitive process in existing Money Follows the Person states for Nursing Home Transitions and Diversions; and finally, AoA and CMS will be funding states, through a competitive process, to strengthen the role of ADRCs in the implementation of Evidence-Based Care Transition models that integrate the medical and social service systems to help older individuals and those with disabilities remain in their own homes and communities after a hospital, rehabilitation or skilled nursing facility visit and avoid unnecessary readmission.

(A) to serve as visible and trusted sources of information on the full range of long-term care options that are available in the community, including both institutional and home and community-based care;

(B) to provide personalized and consumer friendly assistance to empower people to make informed decisions about their care options;

(C ) to provide coordinated and streamlined access to all publicly supported long-term care options so that consumers can obtain the care they need through a single intake, assessment and eligibility determination process;

(D) to help people to plan ahead for their future long-term care needs; and

(E) to assist, in coordination with the State Health Insurance Assistance Program, Medicare beneficiaries in understanding and accessing the Prescription Drug Coverage and prevention health benefits available under the Medicare Modernization Act”.

<u>Performance Measures</u>	<u>2018</u>	<u>2019</u>	<u>2020</u>
Number of Options Counseling sites			
Grant is used to expand and strengthen existing ADRC programs by implementing Options Counseling in at least one ADRC site. This grant began in fiscal year 2011 and ends fiscal year 2014.

<b>Grant/Project and Description</b>	<b>CFDA</b>	<b>Grantor</b>	<b>AFIS ID</b>	<b>2018 Received</b>	<b>2019 Est. Rev.</b>	<b>2020 Est. Rev.</b>	<b>Footnote(s)</b>
<b>Low-Income Home Energy Assistance</b>	<b>93.568</b>	<b>Department of Health and Human Services</b>	935680	21,582.2	26,747.4	26,747.4	.6

To make Low Income Home Energy Assistance Program (LIHEAP) grants available to States and other jurisdictions to assist eligible households to meet the costs of home energy. Supplemental Leveraging Incentive Funds may be awarded to reward States and other jurisdictions that provide additional benefits and services to LIHEAP-eligible households beyond what could be provided with Federal funds. Up to 25 percent of the leveraging incentive funds may be set aside for LIHEAP grantees that provide services through community-based nonprofit organizations to help LIHEAP-eligible households reduce their energy vulnerability under the Residential Energy Assistance Challenge Program (REACH). Training and Technical Assistance: To provide training and technical assistance to States and other jurisdictions administering the LIHEAP block grant program.

<u>Performance Measures</u>	<u>2018</u>	<u>2019</u>	<u>2020</u>
Number of households receiving financial assistance for paying home energy bills	29,683	32,007	32,100
This grant is used to assist low-income households in maintaining basic utility services through the Community Action Agencies (CAAs). Despite the reduction to expenditures from FY 2013 to FY 2014, the number of households served is expected to remain the same, however the benefit paid on behalf of each household will be reduced to reflect the decreased grant award.			
Number of safe and affordable housing units in the community preserved or improved through construction, weatherization, or rehabilitation achieved by Community Action Agencies	444	507	515
This grant is used to provide weatherization and other services intended to improve the conditions in which low-income individuals live and lower the overall energy burden of low-income families.

<b>Child Care Mandatory and Matching Funds of the Child Care and Development Fund</b>	<b>93.596</b>	<b>Department of Health and Human Services</b>	935960	183,890.4	183,890.4	183,890.4	

The Child Care Mandatory and Matching Funds are a part of the Child Care and Development Fund (CCDF) program, along with the Child Care and Development Block Grant (CCDBG) or Discretionary Funds (see CFDA 93.575). The Child Care Mandatory and Matching Funds provide grants to States, Tribes, and tribal organizations for child care assistance for low-income families. The goals are to: (1) allow each State maximum flexibility in developing child care programs and policies that best suit the needs of children and parents within such State; (2) promote parental choice to empower working parents to make their own decisions on the child care that best suits their family's needs; (3) encourage States to provide consumer education information to help parents make informed choices about child care; (4) assist States to provide child care to parents trying to achieve independence from public assistance; and (5) assist States in implementing the health, safety, licensing, and registration standards established in State regulations. Current priorities include: making systemic investments in quality child care to promote child development and health and safety; and creating a system that is child focused, family friendly, and fair to providers.

<u>Performance Measures</u>	<u>2018</u>	<u>2019</u>	<u>2020</u>
Percentage of Children in Quality Care	33.0%	37.0%	45.0%
This performance measure tracks the percentage of DES & DCS children that are served by a Quality First (3, 4, and 5 Star) or nationally accredited provider.

<b>Charter Schools</b>	<b>84.282</b>	<b>Department of Education</b>	<b>CHARTER15</b>	4,913.0	3,825.3	5,333.3	.6

The program supports the planning, development, and initial implementation, and replication of charter schools and the dissemination of information on charter schools. Charter schools increase educational options for parents and students and, in exchange for stricter academic accountability, are exempt from many statutory and regulatory requirements.

<u>Performance Measures</u>	<u>2018</u>	<u>2019</u>	<u>2020</u>
Number of academic, governance, and financial monitoring	56	30	20

<b>Grant/Project and Description</b>	<b>CFDA</b>	<b>Grantor</b>	<b>AFIS ID</b>	<b>2018 Received</b>	<b>2019 Est. Rev.</b>	<b>2020 Est. Rev.</b>	<b>Footnote(s)</b>
<b>Professional Standards for School Nutrition Employees</b>	<b>10.547</b>	<b>Department of Agriculture</b>	<b>CNPPROFSTD S15</b>	31.8	0.0	0.0	.2, 6

The Healthy Hunger-Free Kids Act (HHFKA) of 2010, Section 306, directed the United States Department of Agriculture to establish minimum national professional standards for all school nutrition employees who manage and operate the National School Lunch and School Breakfast Programs. These new standards will ensure that school nutrition personnel have the training and tools they need to plan, purchase and prepare safe, nutritious and enjoyable school meals. The rule institutes minimum hiring standards for the selection of State and local school nutrition program directors; and requires all personnel in these programs to complete annual continuing education/training. The standards are effective July 1, 2015. The principal benefit of this rule is to ensure that key school nutrition personnel are meeting minimum professional standards in order to adequately perform the duties and responsibilities of their positions.

The purpose of this Request for Applications (RFA) is to:

- Provide awards, on a competitive basis, to State agencies administering National School Lunch Program (NSLP) and School Breakfast Program (SBP), to develop and implement trainings to support the Professional Standards rule,
- Describe which entities are eligible to apply for grant funds,
- Describe the requirements for submitting a successful application, and
- Describe how applications will be reviewed and selected.

To help ensure that limited English proficient (LEP) children, including immigrant children and youth, attain English proficiency and meet the same challenging State academic content and student academic achievement standards as all children are expected to meet.

<u>Performance Measures</u>	<u>2018</u>	<u>2019</u>	<u>2020</u>
Conduct collaborative, targeted technical assistance	42	36	35
Conduct collaborative, targeted technical assistance sessions with at least 15 LEAs in the monitoring process to assist with compliance with state and federal guidelines.			
*The technical assistance provided has been effective and has therefore yielded fewer LEAs in corrective action for the 2016-2017 school year. Since there are less LEAs to serve, our Actual and Estimates may decline.			
% of students reclassified as Fluent English Proficient	16	16	18
Percent of students reclassified as Fluent English Proficient (FEP). AZELLA assessment significantly revised in 2013; prior comparisons no longer applicable.			
*The reclassification rate will not be available until the Accountability section has all the data necessary to calculate.			
**Due to a significant change in the AZELLA cut scores, the actual reclassification rate in FY2017 declined sharply.			
Therefore, the FY2018 Estimate had to be revised

To ensure compliance with State and Federal statutes and regulations along with other contractual obligations			
<p>* Monitoring activities for FY18 are on track to be completed by September 30, 2018. Reported performance measures lag from prior years at the time of reporting due to a shift in the timeline to complete monitoring activities for the FY18 Title I project term (July 1, 2017 – September 30, 2018) to after July 1, 2018. This shift was made to accommodate opening the FY19 Title I LEA grant application process on March 1, 2018, with the goal to review and approve FY19 applications by July 1, 2018. This shift allowed LEAs to draw down funds, if approved, on July 1, for the first time.</p>

<p>* Monitoring activities for FY18 are on track to be completed by September 30, 2018. Reported performance measures lag from prior years at the time of reporting due to a shift in the timeline to complete monitoring activities for the FY18 Title I project term (July 1, 2017 – September 30, 2018) to after July 1, 2018. This shift was made to accommodate opening the FY19 Title I LEA grant application process on March 1, 2018, with the goal to review and approve FY19 applications by July 1, 2018. This shift allowed LEAs to draw down funds, if approved, on July 1, for the first time.</p>

<b>Safe and Drug-Free Schools and Communities_National Programs</b>	<b>84.184</b>	<b>Department of Education</b>	SAFE14	177.8	8.8	0.0	.6

To enhance the Nation's efforts to prevent the illegal use of drugs and violence among, and promote safety and discipline for, students at all educational levels; and to support programs to reduce alcohol abuse among secondary school students.

<u>Performance Measures</u>	<u>2018</u>	<u>2019</u>	<u>2020</u>
External customer overall satisfaction rating on School Safety and Prevention	N/A*	66**	75**
External customer overall satisfaction rating on School Safety.			
* External Customer Service Survey was not conducted for FY2017.			
** Estimates reflect percentage of respondents to the survey. The objective for 2018 was changed last year to state "Initiate external customer service satisfactory survey to establish baseline rating for School Safety Program". The values for the customer service survey provided for 2018, were based on responses ranging from "strongly disagree to strongly agree" to the question "ADE provides the appropriate assistance and support you need to implement the School Safety Program". There was no initial estimate provided last year for 2018, as this year is a baseline year.

<b>Summer Food Service Program for Children</b>	<b>10.559</b>	<b>Department of Agriculture</b>	SFADM17	37.1	0.0	0.0	.6

To assist States, through grants-in-aid and other means, to conduct nonprofit food service programs for children. This program operates in partnership with the United States Department of Agriculture (USDA), State agencies, and local organizations to provide free meals to eligible children during the summer months and at other approved times, when school is not in session.

In addition there are discretionary grant initiatives supporting this program. The methods being tested through these demonstrations are: extending length of operation, additional funding for enrichment activities, meal delivery, weekend food backpacks, Supplemental Nutrition Assistance Program (SNAP) electronic benefit delivery system, and Special Supplemental Nutrition Program for Women, Infants and Children (WIC) electronic benefit delivery system.

<b>Summer Food Service Program for Children</b>	<b>10.559</b>	<b>Department of Agriculture</b>	SFSPON18	16.3	289.0	0.0	.2, 6

To assist States, through grants-in-aid and other means, to conduct nonprofit food service programs for children. This program operates in partnership with the United States Department of Agriculture (USDA), State agencies, and local organizations to provide free meals to eligible children during the summer months and at other approved times, when school is not in session.

In addition there are discretionary grant initiatives supporting this program. The methods being tested through these demonstrations are: extending length of operation, additional funding for enrichment activities, meal delivery, weekend food backpacks, Supplemental Nutrition Assistance Program (SNAP) electronic benefit delivery system, and Special Supplemental Nutrition Program for Women, Infants and Children (WIC) electronic benefit delivery system.

<b>Team Nutrition Grants</b>	<b>10.574</b>	<b>Department of Agriculture</b>	TEAMNUT17	259.1	156.0	17.3	.6

Team Nutrition Training Grants for Healthy School Meals have been identified in USDA's national Strategic Plan for Training and Technical Assistance as one of the anchor delivery systems for supporting the implementation of USDA's nutrition requirements and the Dietary Guidelines for Americans in Child Nutrition programs. Team Nutrition's (TN) goal is to improve children's lifelong eating and physical activity habits by using the principles of the Dietary Guidelines for Americans and the USDA Food Guidance System.

TN Training Grants offer funding to State agencies to establish or enhance sustainable infrastructures for implementing TN's three behavior-focused strategies: (1) provide training and technical assistance to child nutrition food service professionals to enable them to prepare and serve nutritious meals that appeal to students; (2) promote nutrition curriculum and education in schools through multiple communication channels (i.e., food services initiatives, classroom activities, school wide events, home activities, community programs and events, and media events and coverage) to reinforce positive nutrition messages and encourage students to make healthy food and physical activity choices as part of a healthy lifestyle; and (3) build school and community support for creating healthy school environments that are conducive to healthy eating and physical activity.

The HealthierUS School Challenge (HUSSC) is a voluntary certification initiative established to recognize those schools participating in the National School Lunch Program that have created healthier school environments through promotion of nutrition and physical activity.

<p>*Monitoring activities for FY18 are on track to be completed by September 30, 2018. Reported performance measures lag from prior years at the time of reporting due to a shift in the timeline to complete monitoring activities for the FY18 Title I project term (July 1, 2017 – September 30, 2018) to after July 1, 2018. This shift was made to accommodate opening the FY19 Title I LEA grant application process on March 1, 2018, with the goal to review and approve FY19 applications by July 1, 2018. This shift allowed LEAs to draw down funds, if approved, on July 1, for the first time.</p>

<b>Hazard Mitigation Grant</b>	<b>97.039</b>	<b>Department of Homeland Security</b>	1888DRAZP00 00005	273.8	0.0	0.0	.2, 6

To provide funding support to states, Indian tribal governments, territories, communities, and other eligible applicants to implement mitigation planning and hazard mitigation measures that are cost effective and which substantially reduce the risk of future damage, hardship, loss or suffering in any area affected by a major disaster. This program also conforms to the definitions of the term "Mitigation" as defined in the National Preparedness Goal (NPG), in that this program supports those capabilities that are necessary to reduce loss of life and property by lessening the impact of disasters. Mitigation capabilities include, but are not limited to, community-wide risk reduction projects; efforts to improve the resilience of critical infrastructure and key resource lifelines; risk reduction for specific vulnerabilities from natural hazards; and initiatives to reduce future risks after a disaster has occurred.

<u>Performance Measures</u>	<u>2018</u>	<u>2019</u>	<u>2020</u>
Allocate funds to priority mitigation projects as identified in FEMA approved state and local "All-Hazard Mitigation Plans".	N/A	20 days	N/A
The purpose of the HMGP is to create the opportunity to take critical mitigation measures by providing a funding source in the immediate post-disaster atmosphere, when recognition of potential hazards is often highest.

<b>Pre-Disaster Mitigation</b>	<b>97.047</b>	<b>Department of Homeland Security</b>	972047	140.9	0.0	0.0	.2, 6

Funding under PDM for FY14 is uncertain at this time. FEMA will open an application period for the program once funds are appropriated in the FY 2014 DHS Appropriation Bill. If funds are appropriated, FEMA will post a notice of funding availability via grants.gov and open an application period at that time.

The objective of the program is to provide funding support to states, Indian tribal governments, territories, communities, and public colleges and universities for pre-disaster mitigation planning and projects primarily addressing natural hazards. This program promotes implementation of activities designed to reduce injuries, loss of life, and damage and destruction to property from natural hazards which is consistent with DHS QHSR Goal 5.1, "Mitigate Hazards".

<u>Performance Measures</u>	<u>2018</u>	<u>2019</u>	<u>2020</u>
Reimburse jurisdictions for project costs within 60 days of receipt of documented eligible expenditures.	14 days	45 days	N/A
THE PDM Grant Program is a nationwide competitive grant program that was created to assist states, local and tribal governments to implement cost-effective hazard mitigation activities before disasters occur. Funds awarded are project specific.

<b>Grant/Project and Description</b>	<b>CFDA</b>	<b>Grantor</b>	<b>AFIS ID</b>	<b>2018 Received</b>	<b>2019 Est. Rev.</b>	<b>2020 Est. Rev.</b>	<b>Footnote(s)</b>
<b>Homeland Security Grant Program</b>	<b>97.067</b>	<b>Department of Homeland Security</b>	973067	0.0	0.0	0.0	. 2, 6, 8

FY 2012 HSGP and THSGP provide grant funding to assist state and local governments in obtaining the resources required to support the National Preparedness Goal's (NPG's) associated mission areas and core capabilities. FY 2012 THSGP provides funding directly to eligible tribes to help strengthen the nation against risks associated with potential terrorist attacks. The FY 2012 HSGP is comprised of three interconnected grant programs:

- State Homeland Security Program (SHSP): SHSP supports the implementation of State Homeland Security Strategies to address the identified planning, organization, equipment, training, and exercise needs to prevent, protect against, mitigate, respond to, and recover from acts of terrorism and other catastrophic events.
- Urban Areas Security Initiative (UASI): The UASI program addresses the unique planning, organization, equipment, training, and exercise needs of high-threat, high-density Urban Areas, and assists them in building an enhanced and sustainable capacity to prevent, protect against, mitigate, respond to, and recover from acts of terrorism.
- Operation Stonegarden (OPSG): OPSG supports enhanced cooperation and coordination among local, tribal, territorial, State, and Federal law enforcement agencies in a joint mission to secure the United States' borders along routes of ingress from international borders to include travel corridors in States bordering Mexico and Canada, as well as States and territories with international water borders.

All three programs are founded on risk-driven, capabilities-based strategic plans. These strategic plans outline capability requirements and inform how available funding may be applied to manage risk. For these plans to be effective, government officials and elected leaders, working with the whole community, must consider how to sustain current capability levels and address potential shortfalls to prevent, protect, mitigate, respond to, and recover from disasters.

The FY 2013 HSGP plays an important role in the implementation of the National Preparedness System (NPS) by supporting the building, sustainment, and delivery of core capabilities essential to achieving the National Preparedness Goal (NPG) of a secure and resilient Nation. Delivering core capabilities requires the combined effort of the whole community, rather than the exclusive effort of any single organization or level of government. The FY 2013 HSGP's allowable costs support efforts to build and sustain core capabilities across the Prevention, Protection, Mitigation, Response, and Recovery mission areas by setting the following priorities and objectives:

Priority One: Implementation of the NPS and a Whole Community Approach to Homeland Security and Emergency Management

**State of Arizona**  
**Federal Operating Budget Detail**  
**(Dollars in Thousands)**

**Agency:** Department of Emergency and Military Affairs

<b>Grant/Project and Description</b>	<b>CFDA</b>	<b>Grantor</b>	<b>AFIS ID</b>	<b>2018 Received</b>	<b>2019 Est. Rev.</b>	<b>2020 Est. Rev.</b>	<b>Footnote(s)</b>
<b>Homeland Security Grant Program</b>	<b>97.067</b>	<b>Department of Homeland Security</b>	973067	0.0	0.0	0.0	. 2, 6, 8

- Objective One: Completion of the THIRA process in alignment with National Preparedness System guidance to identify the resources required to deliver core capabilities.
- Objective Two: Conduct risk driven, capabilities-based planning through whole community councils and working groups.
- Objective Three: Organization – Typing of equipment, and credentialing and training of personnel.
- Objective Four: Sustaining Capabilities.

Priority Two: Building and Sustaining Law Enforcement Terrorism Prevention Capabilities

- Objective One: Nationwide Suspicious Activity Reporting Initiative (NSI)

Priority Three: Maturation and Enhancement of State and Major Urban Area Fusion Centers

- Objective One: Baseline Capabilities.
- Objective Two: Analytic Capabilities.

The Department of Homeland Security Appropriations Act, 2013 (Public Law 113-6) authorized additional funding allocated at the discretion of the Secretary of the Department Homeland Security, to support appropriated programs in FY 2013. DHS has augmented the SHSP and UASI grant programs in FY 2013 by allocating an additional \$163.4 million to support the following priority areas:

Priority Four: Innovation and Sustained Support for the National Campaign for Preparedness

- Objective One: Foster individual and community preparedness and resilience by identifying needs; mobilizing partners; and creating innovative and effective solutions that can be grown, sustained, and replicated.

Priority Five: Improve Immediate Emergency Victim Care at Mass Casualty Events

- Objective One: Improve emergency care to victims of mass casualty events, including mass shootings.
- Objective Two: Improve community first aid training.

Minimum funding amounts are not prescribed by the Department for these priorities; however grantees are expected to support state, local, and regional efforts in achieving the desired outcomes of one or more of these priorities.

Funding under PDM for FY14 is uncertain at this time. FEMA will open an application period for the program once funds are appropriated in the FY 2014 DHS Appropriation Bill. If funds are appropriated, FEMA will post a notice of funding availability via grants.gov and open an application period at that time.

The objective of the program is to provide funding support to states, Indian tribal governments, territories, communities, and public colleges and universities for pre-disaster mitigation planning and projects primarily addressing natural hazards. This program promotes implementation of activities designed to reduce injuries, loss of life, and damage and destruction to property from natural hazards which is consistent with DHS QHSR Goal 5.1, "Mitigate Hazards".

<u>Performance Measures</u>	<u>2018</u>	<u>2019</u>	<u>2020</u>

The EMPG Program provides resources to assist state, local, tribal and territorial governments in preparing for all hazards, as authorized by the Robert T. Stafford Disaster Relief and Emergency Assistance Act, as amended (42 U.S.C. 5121 et seq.). Title VI of the Stafford Act authorizes FEMA to make grants for the purpose of providing a system of emergency preparedness for the protection of life and property in the United States from hazards and to vest responsibility for emergency preparedness jointly in the federal government and the states and their political subdivisions. The intent of the FY 2012 EMPG is to provide grant funding to assist state emergency management agencies in obtaining the resources required to support the National Preparedness Goal's (NPG's) associated mission areas and core capabilities. The federal government, through the EMPG Program, provides necessary direction, coordination, and guidance, and provides necessary assistance, as authorized in this title so that a comprehensive emergency preparedness system exists for all hazards.

The FY 2013 EMPG Program plays an important role in the implementation of the National Preparedness System (NPS) by supporting the building, sustainment, and delivery of core capabilities essential to achieving the National Preparedness Goal (NPG) of a secure and resilient Nation. Delivering core capabilities requires the combined effort of the whole community, rather than the exclusive effort of any single organization or level of government. The FY 2013 EMPG Program's allowable costs support efforts to build and sustain core capabilities across the Prevention, Protection, Mitigation, Response, and Recovery mission areas.

Examples of tangible outcomes from the EMPG Program include building and sustaining core capabilities through:

- Building and sustaining core capabilities
- Completion of the Threat and Hazard Identification and Risk Assessment (THIRA) process
- Strengthening governance integration
- Approved emergency plans
- Development and maintenance of multi-year Training and Exercise Plans (TEPs)
- Targeted training and verification of personnel capability
- Whole community approach to security and emergency management.

<b>Homeland Security Grant Program</b>	<b>97.067</b>	<b>Department of Homeland Security</b>	SHSGP150602	185.8	1.6	0.0	. 1, 2, 6

FY 2012 HSGP and THSGP provide grant funding to assist state and local governments in obtaining the resources required to support the National Preparedness Goal's (NPG's) associated mission areas and core capabilities. FY 2012 THSGP provides funding directly to eligible tribes to help strengthen the nation against risks associated with potential terrorist attacks. The FY 2012 HSGP is comprised of three interconnected grant programs:

- State Homeland Security Program (SHSP): SHSP supports the implementation of State Homeland Security Strategies to address the identified planning, organization, equipment, training, and exercise needs to prevent, protect against, mitigate, respond to, and recover from acts of terrorism and other catastrophic events.
- Urban Areas Security Initiative (UASI): The UASI program addresses the unique planning, organization, equipment, training, and exercise needs of high-threat, high-density Urban Areas, and assists them in building an enhanced and sustainable capacity to prevent, protect against, mitigate, respond to, and recover from acts of terrorism.
- Operation Stonegarden (OPSG): OPSG supports enhanced cooperation and coordination among local, tribal, territorial, State, and Federal law enforcement agencies in a joint mission to secure the United States' borders along routes of ingress from international borders to include travel corridors in States bordering Mexico and Canada, as well as States and territories with international water borders.

All three programs are founded on risk-driven, capabilities-based strategic plans. These strategic plans outline capability requirements and inform how available funding may be applied to manage risk. For these plans to be effective, government officials and elected leaders, working with the whole community, must consider how to sustain current capability levels and address potential shortfalls to prevent, protect, mitigate, respond to, and recover from disasters.

The FY 2013 HSGP plays an important role in the implementation of the National Preparedness System (NPS) by supporting the building, sustainment, and delivery of core capabilities essential to achieving the National Preparedness Goal (NPG) of a secure and resilient Nation. Delivering core capabilities requires the combined effort of the whole community, rather than the exclusive effort of any single organization or level of government. The FY 2013 HSGP's allowable costs support efforts to build and sustain core capabilities across the Prevention, Protection, Mitigation, Response, and Recovery mission areas by setting the following priorities and objectives:

Priority One: Implementation of the NPS and a Whole Community Approach to Homeland Security and Emergency Management

<b>Homeland Security Grant Program</b>	<b>97.067</b>	<b>Department of Homeland Security</b>	SHSGP150602	185.8	1.6	0.0	. 1, 2, 6

- Objective One: Completion of the THIRA process in alignment with National Preparedness System guidance to identify the resources required to deliver core capabilities.
- Objective Two: Conduct risk driven, capabilities-based planning through whole community councils and working groups.
- Objective Three: Organization – Typing of equipment, and credentialing and training of personnel.
- Objective Four: Sustaining Capabilities.

Priority Two: Building and Sustaining Law Enforcement Terrorism Prevention Capabilities

- Objective One: Nationwide Suspicious Activity Reporting Initiative (NSI)

Priority Three: Maturation and Enhancement of State and Major Urban Area Fusion Centers

- Objective One: Baseline Capabilities.
- Objective Two: Analytic Capabilities.

The Department of Homeland Security Appropriations Act, 2013 (Public Law 113-6) authorized additional funding allocated at the discretion of the Secretary of the Department Homeland Security, to support appropriated programs in FY 2013. DHS has augmented the SHSP and UASI grant programs in FY 2013 by allocating an additional \$163.4 million to support the following priority areas:

Priority Four: Innovation and Sustained Support for the National Campaign for Preparedness

- Objective One: Foster individual and community preparedness and resilience by identifying needs; mobilizing partners; and creating innovative and effective solutions that can be grown, sustained, and replicated.

Priority Five: Improve Immediate Emergency Victim Care at Mass Casualty Events

- Objective One: Improve emergency care to victims of mass casualty events, including mass shootings.
- Objective Two: Improve community first aid training.

Minimum funding amounts are not prescribed by the Department for these priorities; however grantees are expected to support state, local, and regional efforts in achieving the desired outcomes of one or more of these priorities.

<b>Homeland Security Grant Program</b>	<b>97.067</b>	<b>Department of Homeland Security</b>	SHSGP160602	207.7	299.6	0.0	. 1, 2, 6

FY 2012 HSGP and THSGP provide grant funding to assist state and local governments in obtaining the resources required to support the National Preparedness Goal's (NPG's) associated mission areas and core capabilities. FY 2012 THSGP provides funding directly to eligible tribes to help strengthen the nation against risks associated with potential terrorist attacks. The FY 2012 HSGP is comprised of three interconnected grant programs:

- State Homeland Security Program (SHSP): SHSP supports the implementation of State Homeland Security Strategies to address the identified planning, organization, equipment, training, and exercise needs to prevent, protect against, mitigate, respond to, and recover from acts of terrorism and other catastrophic events.
- Urban Areas Security Initiative (UASI): The UASI program addresses the unique planning, organization, equipment, training, and exercise needs of high-threat, high-density Urban Areas, and assists them in building an enhanced and sustainable capacity to prevent, protect against, mitigate, respond to, and recover from acts of terrorism.
- Operation Stonegarden (OPSG): OPSG supports enhanced cooperation and coordination among local, tribal, territorial, State, and Federal law enforcement agencies in a joint mission to secure the United States' borders along routes of ingress from international borders to include travel corridors in States bordering Mexico and Canada, as well as States and territories with international water borders.

All three programs are founded on risk-driven, capabilities-based strategic plans. These strategic plans outline capability requirements and inform how available funding may be applied to manage risk. For these plans to be effective, government officials and elected leaders, working with the whole community, must consider how to sustain current capability levels and address potential shortfalls to prevent, protect, mitigate, respond to, and recover from disasters.

The FY 2013 HSGP plays an important role in the implementation of the National Preparedness System (NPS) by supporting the building, sustainment, and delivery of core capabilities essential to achieving the National Preparedness Goal (NPG) of a secure and resilient Nation. Delivering core capabilities requires the combined effort of the whole community, rather than the exclusive effort of any single organization or level of government. The FY 2013 HSGP's allowable costs support efforts to build and sustain core capabilities across the Prevention, Protection, Mitigation, Response, and Recovery mission areas by setting the following priorities and objectives:

Priority One: Implementation of the NPS and a Whole Community Approach to Homeland Security and Emergency Management

<p>Provide funding for the States through cooperative agreements to support the operations and maintenance of Army National Guard (ARNG) and Air National Guard (ANG) facilities and provide authorized service support activities to National Guard units and personnel through assistance awards listed below.a. ARNG Real Property O&amp;M Projects (RPOMA) - provide support for authorized facilities for leases, real property services, real property maintenance, and O &amp; M minor construction projects. b. ARNG Environmental Programs Resources Management - for services provided to accomplish environmental actions such as Environmental Compliance/Corrective Projects, Environmental and Program Management. c. ARNG Security Guard Activities – for security services provided at authorized facilities. d. ARNG Electronic Security System Installation - services to maintain Joint Services Interior Intrusion Detection Systems (J-SIIDS), Commercial Intrusion Detection Systems (CIDS), Exterior Instruction Detection Systems and Closed Circuit Television (CCTV) used for security surveillance and associated on site and off site remote monitoring equipment at authorized facilities. e. ARNG Telecommunications - services provided for installation telecommunication activities. f. ARNG Aviation Training Base Operation – services provided for Air Traffic Control (ATC), Airport Agreements management and Aircraft Rescue Fire Fighting (AFF). g. ARNG Sustainable Range Program - services provided for range operations, range maintenance, leases, rentals and equipment at authorized ranges and training lands. h. ARNG Full Time Dining Facility Operations - services provided for Food Service Operations at authorized ARNG training sites. i. Office of the Chief - Administrative Services Activities - services provided for printing and duplication, mail distribution and records management services. j. ARNG Surface Petroleum – support services provided for ARNG surface vehicle and equipment fuel. k. ARNG Aviation Reimbursable Maintenance Operations - support provided for aviation reimbursable maintenance operations to include the maintenance, fabrication, and/or repair of aircraft, aircraft subassemblies, and systems. l. ARNG Distributed Learning Program- services provided for the operation and management of linked Distance Learning centers using information technology (audio/video telecommunications) to train National Guard personnel. m. ARNG Anti-Terrorism Program Manager Activities- services provided in support of security and anti-terrorism prevention measures in State ARNG facilities. n. ANG Facilities Operations &amp; Maintenance (FOMA) Activities - services provided at authorized facilities for leases, real property operations, real property maintenance and repair, and O &amp; M minor construction costs. o, ANG Environmental Program Management- services provided to accomplish environmental compliance/corrective projects, environmental services, program management, hazardous waste management, environmental planning activities and natural resources actions. p. ANG Security Guard - services in rendering security guard activities at authorized facilities.</p>

<u>Grant/Project and Description</u>	<u>CFDA</u>	<u>Grantor</u>	<u>AFIS ID</u>	<u>2018 Received</u>	<u>2019 Est. Rev.</u>	<u>2020 Est. Rev.</u>	<u>Footnote(s)</u>
<b>Water Pollution Control State, Interstate, and Tribal Program Support</b>	<b>66.419</b>	<b>Environmental Protection Agency</b>	106WP5	60.5	39.8	39.8	.6

To assist States (including territories, the District of Columbia, and Indian Tribes qualified under CWA Section 518(e)), and interstate agencies in establishing and maintaining adequate measures for prevention and control of surface and ground water pollution from both point and nonpoint sources.

Funding Priority - Fiscal Year 2013: States and Tribes will continue to focus on fulfilling their basic responsibilities under the CWA and, based upon a shared understanding with EPA of the environmental progress expected, will identify program activities that will best support attaining targeted environmental improvements. State priority efforts will include: (1) implementing monitoring strategies and the statistically-valid surveys to determine water quality status and trends; (2) fostering a watershed approach, including total maximum daily loads (TMDLs) and watershed plans designed to meet water quality standards; and (3) implementing concentrated animal feeding operations (CAFOs) and storm water permitting programs. States and Tribes will work toward adoption of nutrient criteria for fresh water for state water quality standards. States NPDES Programs will support EPA in: (1) developing and strengthening systems to ensure the integrity of the program; (2) achieving and measuring environmental results; and (3) incorporating efficiencies in permitting program operations. Water quality programs will also target actions to strengthen permitting and enforcement efforts. States will also conduct source water protection actions to protect both ground water and surface waters used for drinking water. Tribes will continue to conduct watershed assessments and will maintain and improve their capacity to implement water quality programs through monitoring, assessments, planning, data management and standards development.

<u>Performance Measures</u>	<u>2018</u>	<u>2019</u>	<u>2020</u>
Substantial adherence to grant work plan.	Yes		Yes

Substantial adherence to grant work plan			Yes

**State of Arizona**  
**Federal Operating Budget Detail**  
**(Dollars in Thousands)**

**Agency:** Department of Environmental Quality

<b>Grant/Project and Description</b>	<b>CFDA</b>	<b>Grantor</b>	<b>AFIS ID</b>	<b>2018 Received</b>	<b>2019 Est. Rev.</b>	<b>2020 Est. Rev.</b>	<b>Footnote(s)</b>
<b>Air Pollution Control Program Support</b>	<b>66.001</b>	<b>Environmental Protection Agency</b>	APC	4,542.3	0.0	0.0	.6

The objectives of the §105 program are to assist State, Tribal, Municipal, Intermunicipal, and Interstate agencies in planning, developing, establishing, improving, and maintaining adequate programs for the continuing prevention and control of air pollution and/or in the implementation of national primary and secondary air quality standards.

Projects should also focus on addressing environmental justice (EJ) concerns in communities. EJ is the fair treatment and meaningful involvement of all people regardless of race, color, national origin, or income with respect to the development, implementation, and enforcement of environmental laws, regulations, and policies.

Funding Priority - Fiscal Year 2013: By nature, much of the work occurring in FY 2012, including the implementation of mobile, area and stationary source pollution controls, will continue into FY 2013. However, several new developments will alter the priorities for the program across the country in FY 2013 - the response to the revised national ambient air quality standards (NAAQS) for ozone, lead, fine particulates (PM2.5), nitrogen dioxide (NO2), CO and sulfur dioxide (SO2). Recipients will continue to review air quality reports and take appropriate actions dealing with new violating areas with any of the NAAQS; submit re-designation requests including maintenance plans for areas with clean air quality data as appropriate; work with local area stakeholders to support innovative and local initiatives; continue to implement 1997 8-hr ozone NAAQS by submitting State Implementation Plans (SIPs); begin SIP planning for attaining the 2008 8-hr ozone NAAQS standards; and submitting any outstanding ozone SIP elements (including prior commitments). Although not required to do so, recipients may also choose to prepare recommendations on designations for the revised 2012 PM2.5 NAAQS. For PM2.5, recipients will submit any outstanding PM2.5 SIP elements as needed and implement PM2.5 plans designed to attain the 1997 and 2006 NAAQS. states will work with local agencies to implement woodstove change-out programs in areas where change-outs could significantly reduce ambient particle concentrations. Areas may also explore feasibility of changing out existing outdoor wood-fired boilers to significantly reduce PM2.5 concentrations. Recipients will also work on monitoring and SIP planning to attain the Lead (Pb) NAAQS. As in FY 2012, for ambient monitoring, all state/local primary quality assurance organizations operate monitors and submit NAAQS pollutant data, Photochemical Assessment Monitoring Stations (PAMS), and quality assurance (QA) data to AQS directly or indirectly through another organization according to schedule in 40 CFR Part 58. Data must also meet quality assurance requirements according to Appendix A to 40 CFR Part 58. These organizations will also submit their required annual (monitoring) network plans by July 1, 2013. They must also certify their 2011 NAAQS pollutant data in AQS and provide supporting documentation by May 1, 2013 (state/local only, unless tribal work plan requirement). Additionally, monitoring organizations will report real

**State of Arizona**

**Agency:** Department of Environmental Quality

<b>Grant/Project and Description</b>	<b>CFDA</b>	<b>Grantor</b>	<b>AFIS ID</b>	<b>2018 Received</b>	<b>2019 Est. Rev.</b>	<b>2020 Est. Rev.</b>	<b>Footnote(s)</b>
<b>Air Pollution Control Program Support</b>	<b>66.001</b>	<b>Environmental Protection Agency</b>	APC	4,542.3	0.0	0.0	.6

time ozone and PM2.5 data to the AirNOW system for cities required to report the Air Quality Index (AQI) (state/local only). Air quality reporting, including particle pollution forecasting, will be expanded to additional cities. States affected by CAIR continue to contribute a portion of their grant funds to support a centrally-administered emissions budget and trading program as part of their PM and NOx State Implementation Plans. For regional haze, states and other stakeholders will continue to work with EPA on issues related to submitted regional haze SIPs and will continue to implement Best Available Retrofit Technology (BART) requirements. As in FY 2012, funds for air toxics purposes are provided to: operate existing air toxics monitoring networks operated by state, tribal, and local agencies in order to better characterize air toxics risks and assess the effectiveness of control strategies. Recipients will collect data for the annual integrated emissions inventory; implement delegated or approved section 112, 111(d) and 129 standards, as appropriate, for major sources and area sources; implement delegated residual risk standards; and work with communities to develop and implement local air toxics programs that address outdoor, indoor, and mobile sources with emphasis on areas with potential environmental justice concerns. State and local air pollution control agencies work with EPA to operate the national fine particulate (PM2.5) monitoring network to accurately assess and characterize the nature and extent of fine particulates (PM2.5) across the country. This assessment is necessary to determine the air quality status of an area in relation to the national PM2.5 ambient air quality standard. At least three years of quality-assured data are required in order to determine an area's attainment status. The air quality status of an area will determine the nature and complexity of its attainment plan, its associated control strategies, and its implementation schedule. The immediate goals of this multi-year program are: appropriate spatial characterization of PM2.5 NAAQS; public reporting of PM2.5 in the Air Quality Index; characterization of PM2.5 chemical speciation data for long term trends; development and accountability of emission control programs and tracking of regional haze, and limited support of health studies; implementation of NCore CO, SO2, NO2/NOy trace-level monitoring to support characterization of PM precursors; assessment of PM2.5 data quality; and procurement and testing of PM2.5 filters. Grant funds are used to provide support to eligible state and local air agencies for continued operation of high value federal reference method (FRM) and speciation monitoring sites; additional investments in PM2.5 mass and speciation continuous monitoring and associated data management systems for timely reporting of high quality data; and continued investments in precursor gas analyzers, data analyses, and quality assurance activities that will support better understanding of particle formation.

<b>Leaking Underground Storage Tank Trust Fund Corrective Action Program</b>	<b>66.805</b>	<b>Environmental Protection Agency</b>	LUST	1,358.5	1,446.1	1,446.1	.6

To support State (including Territories that are included in the definition of 'State' in the Solid Waste Disposal Act) and Tribal corrective action programs that address releases from underground storage tanks.

Funding Priorities - Fiscal Year 2013: Assistance agreements to states and Tribes will support activities in making progress in cleaning up petroleum leaks by initiating and completing cleanups, and reducing the backlog of sites not yet cleaned up. In FY 2013, not less than 80 percent of LUST cleanup appropriated funds will be provided to states to carry out the LUST cleanup program. High priority tasks include better site characterization efforts, remedy selection review, other technical assistance and management, oversight and enforcement activities at unaddressed LUST sites.

The LUST program received funding in the FY 2009 American Recovery and Reinvestment Act (ARRA) of 2009. All of these funds were obligated; however, \$9.2 million was returned by one state and subsequently rescinded by Congress. The ARRA funds were outlayed through mid-FY 2013. Additional details can be found at <http://www.epa.gov/recovery/> and <http://www.recovery.gov/Pages/default.aspx>.

<u>Performance Measures</u>	<u>2018</u>	<u>2019</u>	<u>2020</u>
Substantial adherence to grant work plan

<b>Grant/Project and Description</b>	<b>CFDA</b>	<b>Grantor</b>	<b>AFIS ID</b>	<b>2018 Received</b>	<b>2019 Est. Rev.</b>	<b>2020 Est. Rev.</b>	<b>Footnote(s)</b>
<b>Surveys, Studies, Research, Investigations, Demonstrations, and Special Purpose Activities Relating to the Clean Air Act</b>	<b>66.034</b>	<b>Environmental Protection Agency</b>	NATTS	58.1	53.8	53.8	.6

To support Surveys, Studies, Research, Investigations, Demonstrations and Special Purpose assistance relating to the causes, effects (including health and welfare effects), extent, prevention, and control of air pollution to include such topics as air quality, acid deposition, climate change, global programs, indoor environments, radiation, mobile source technology and community-driven approaches to transportation and emissions reduction.

Projects should also focus on addressing environmental justice (EJ) concerns in communities. EJ is the fair treatment and meaningful involvement of all people regardless of race, color, national origin, or income with respect to the development, implementation, and enforcement of environmental laws, regulations, and policies.

(1) Indoor Environments. Activities will support surveys, studies, research, training, outreach, education, investigations or demonstrations performed by organizations that lead to effective outreach strategies to educate key audiences about indoor air pollutants, their associated health risks and encourage effective mitigation and control strategies. Currently, the Program focuses on several critical aspects of indoor air quality that pose significant risks to public health, and in particular, to children and other disproportionately impacted segments of society. Program focus includes, but is not limited to, reducing the exposure of children and others with asthma to indoor triggers that worsen their condition; promoting the adoption of operation and maintenance practices in schools, homes and other buildings throughout the nation to reduce the harmful effects of poor indoor air quality on the health of the public, students and staff; promoting voluntary radon testing by homeowners to identify elevated levels and fix them when they are found; as well as working with homebuilders to incorporate radon resistant construction features into new homes; and encouraging adult smokers to protect their children from the adverse health effects of environmental exposure to secondhand smoke by making a conscious decision to smoke outside and keep their homes and cars smokefree.

(2) Radiation. Activities support technical, outreach, and educational projects relating to environmental radiation. Activities also support the national environmental radiation monitoring program. This program prepares for and responds to incidents involving nuclear or radiological material, oversees the safe disposal of radioactive waste, maintains two laboratories that perform radiological sampling and analyses, and provides standards for protecting human health and the environment from radioactive material. Program focus includes, but is not limited, to the following activities: performance testing and evaluation, development of analytical procedures, purchasing of radiation laboratory equipment and support and enhancement of radiological laboratory capability and capacity across the nation to reduce the gap in analyzing

(3) Community-Scale Air Toxics Ambient Monitoring (CSATAM). The CSATAM Grant Program results in two-year projects designed to assist state, local and tribal communities in identifying and profiling air toxics sources, characterizing the degree and extent of local air toxics problems and tracking progress of air toxics reduction activities in specific local areas without reliance on often uncertain estimates of emissions and air dispersion models. Further, projects typically allow the recipient state, local and tribal air pollution control agencies to establish or enhance hazardous air pollutant monitoring networks, thus providing long term capability to investigate and assess specific local air quality scenarios of concern. The program will continue working with grant recipients that received funding in previous years.

(4) Mobile Sources Technologies. Projects encompass studies and investigations utilizing state-of-the-art experimental techniques in advanced engine development technology, including hydraulic hybrid drive-trains, to optimize fuel economy, reduce exhaust emissions (including PM and NOx) and improve performance. In addition, projects may support studies identifying barriers to technological innovation, analyzing innovative strategies for overcoming these barriers, encouraging the development and adoption of new vehicle and fuel technologies for the control of emissions.

(5) Heavy Duty Truck Fuel Consumption and Emissions Reductions. This program studies and analyzes fuel consumption and emissions reductions associated with the use of innovative technologies for heavy duty diesel trucks. Projects involve truck fleets that operate under varying conditions in order to evaluate the effectiveness of the various technologies.

(6) National Internet-based On-Board Diagnostic (OBD) Information Exchange. This program supports activities that maintain, update and improve the Internet-based information clearinghouse to facilitate accurate and timely exchange of technical information related to on-board diagnostic (OBD) between state inspection/maintenance programs, the automotive industry and the general public.

(7) Integrated Assessment of Transportation-Related Policies on Greenhouse Gases, Land Use Change, and Other Economy-Wide Impacts (Integrated Assessment). This program is designed to improve the public data underlying well-established integrated assessment models used to analyze both climate change impacts and the linkages between renewable fuels and climate change. Additionally, projects are intended to further the public's understanding of the interaction of the

economic, energy, and environmental impacts of increased renewable fuel usage in the U.S. transportation sector using a robust modeling framework.							

(8) Climate Change. The Climate Change Division (CCD) supports activities relating to improving economic, technical and programmatic understanding of climate change. CCD supports technical, outreach, and education projects regarding climate change impacts, mitigation and adaptation options in order for private and public sectors may more effectively and comprehensively address their climate goals. Additionally, CCD supports projects that break down market barriers that may limit investment in technologies that reduce methane and non-CO2 greenhouse gases; address the technical issues surrounding sequestration and carbon storage; address collection and analyses of economic data relating to climate change; and the Global Methane Initiative (GMI) that support climate technology transfer in developing and transition countries. The Global Methane Initiative is an international public-private initiative that advances cost effective, near-term methane recovery and use as a clean energy source in four sectors: agriculture, coal mines, landfills, and oil and gas systems. GMI projects reduce greenhouse gas emissions in the near term and provide a number of important environmental and economic co-benefits. Co-benefits include stimulating local economic growth, creating new sources of affordable alternative energy, improving local air and water quality with associated public health benefits and increasing industrial worker safety. CCD also supports the Greenhouse Gas Reporting program that will help facilities that participate in voluntary, state-based and federal GHG reporting programs better understand the requirements of voluntary and state GHG reporting programs in comparison to the federal rule, and identify options for how data collected through state and federal reporting requirements may be used to inform state GHG programs and facility-level efforts to identify emissions-reduction opportunities. Climate Economics Program objective is to advance the field of climate economic and integrated assessment modeling through a regular series of studies on GHG emissions and approaches to mitigating emissions and climate impacts. Climate Science Impacts objectives include leveraging studies which focus on climate impacts on environmental justice issues and tribal communities, and inform adaptation policy development and planning for tribal and environmental justice communities.

(9) Climate Protection Partnerships. EPA funds Global Climate Change programs which are voluntary government/industry partnership programs designed to capitalize on the opportunities that consumers, businesses, and organizations have for making sound investments in efficient equipment, policies and practices. The Global Climate Change program will manage a number of efforts to remove barriers in the marketplace and to deploy technology faster in the residential, commercial, and industrial sectors of the economy. Our programs work by overcoming widely

acknowledged barriers to energy efficiency: lack of clear, reliable information on technology opportunities; lack of awareness of energy efficient products and services; lack of financing options to turn lifecycle energy savings into initial cost savings for consumers; and low incentives to manufacturers for efficiency research and development. In addition, our Global Climate Change programs will provide technical assistance, training, information exchange and other forms of cooperation to enhance the capabilities of governments and other stakeholders to protect human health and the environment regionally and globally.							

(10) Near-road Nitrogen Dioxide (NO2) Monitoring. In accordance with the final NO2 National Ambient Air Quality Standards (NAAQS), state and local air pollution control agencies (grantees) are required to establish near-road monitoring stations to ensure the collection of data necessary for determining compliance with the standard as well as to protect human health and the environment. Grantees will purchase capital equipment and work with local Department of Transportation agencies to ensure unique siting criteria are met in the establishment of the new monitoring stations.

<u>Performance Measures</u>	<u>2018</u>	<u>2019</u>	<u>2020</u>
Substantial adherence to grant work plan			
ADEQ will measure progress against the work plan deliverables in each grant/federal fund. The fiscal year 2015 grant work plan outputs were related to the operation of an air quality monitoring network for certain chemical constituents, and are not mutually exclusive deliverables. ADEQ has developed a full suite of individual and measurable grant deliverables for the US Environmental Protection Agency 103 and 105 grants (Clean Air Act, Sections 103 and 105) for fiscal year 2016.			

**State of Arizona**  
**Federal Operating Budget Detail**  
**(Dollars in Thousands)**

**Agency:** Department of Environmental Quality

<b>Grant/Project and Description</b>	<b>CFDA</b>	<b>Grantor</b>	<b>AFIS ID</b>	<b>2018 Received</b>	<b>2019 Est. Rev.</b>	<b>2020 Est. Rev.</b>	<b>Footnote(s)</b>
<b>Environmental Information Exchange Network Grant Program and Related Assistance</b>	<b>66.608</b>	<b>Environmental Protection Agency</b>	NIEN15	278.3	101.0	101.0	.2, 6

EPA, states, territories, and tribes are working together to develop the National Environmental Information Exchange Network, a secure, Internet- and standards-based way to support electronic data reporting, sharing, and integration of both regulatory and non-regulatory environmental data. States, tribes and territories exchanging data with each other or with EPA should make the Exchange Network (EN) and the Agency's connection to it, the Central Data Exchange (CDX), the standard way they exchange data and should phase out any legacy methods they have been using. More information on the Exchange Network is available at [www.exchangenetwork.net](http://www.exchangenetwork.net). The EN Grant Program provides funding to states, territories, tribes, and inter-tribal consortia to develop the information technology and information management capabilities they need to actively participate in the Exchange Network. This program supports the exchange of data; mentoring, planning and training activities; and collaborative work within the Exchange Network. This grant program may also be used to fund the standardization, exchange and integration of geospatial information to address environmental, natural resource, and human-health challenges.

Funding Priority - Fiscal Year 2013: STAG (competitive): Projects supported by the FY 2013 EN Grant Program, which are funded through EPA's STAG account, must address at least one priority activity from one of the following tiers: Tier 1- activities that lead to the creation of services that make subsets of data available as XML or JSON. This should include the REpresentational State Transfer (REST)-based services that conform to the EN REST Standard (completed at the end of 2012) or EN SOAP services. Specific areas of focus for publishing proposals include: 1. Supporting mobile and desktop applications and publishing/accessing environmental information sources; 2. Integrating with web applications; 3. Publishing data to publicly accessible web pages; and 4. Developing a high-level Dashboard for program managers and Agency executives. Phase 2 Flows. New flows that advance Phase 2 Network priorities. Possible flows include: 1. Air Facility System (AFS); 2. Safe Drinking Water Information System (SDWIS) Compliance data; 3. Electronic Notice of Intent (eNOI) flow to Integrated Compliance Information System - National Pollutant Discharge Elimination System (ICIS-NPDES); Use of the EN for Virtual Sharing (especially cross-state, cross-tribal, or state-tribal) of data, including institutional controls at contamination sites, data on cleanup sites, data sets of national significance to tribes (e.g., open dumps), UST data, and data that support environmental management of multi-state or regional airsheds, watersheds, and water bodies of priority concern (e.g., Great Lakes, Chesapeake Bay). Virtual Node Implementation Support for States, Tribes, and Territories: 1. Support transitioning from nodes to virtual nodes; 2. Create data publishing services and new data flows on virtual nodes; 3. Support virtual node related security analyses and plans; Shared CROMERR Services and Components; Design systems to utilize new EPA web services that provide CROMERR compliant functionality (e.g.,

**Agency:** Department of Environmental Quality

<b>Grant/Project and Description</b>	<b>CFDA</b>	<b>Grantor</b>	<b>AFIS ID</b>	<b>2018 Received</b>	<b>2019 Est. Rev.</b>	<b>2020 Est. Rev.</b>	<b>Footnote(s)</b>
<b>Environmental Information Exchange Network Grant Program and Related Assistance</b> electronic signature), minimizing redundant development by partners and streamlining Technical Review Committee (TRC) application reviews/approvals. Examples of specific potential projects related to these broad topics include the following: 1. Collaborative Opportunity: A partnership proposal that includes joint state and/or tribal efforts to develop an application that uses EN web services (e.g., solicit services) to enable a user to query databases for information related to remediation sites (e.g., underground storage tanks, hazardous waste sites) such as institutional controls, displaying and accessing site data through a spatial view, presenting data in tabular format, and enabling users to download data in a variety of formats. To power this application, the partners would need to define and/or implement schemas and EN web services to make the data available to the application; Collaborative Opportunity: A partnership proposal that builds an eReporting system integrating one or more EPA web services that provide CROMERR compliant functionality (e.g., electronic signature). In order for this proposal to be eligible for funding, applicants must commit to flowing the reported data to EPA using the EN, thus providing a complete end-to-end electronic reporting solution for environmental data; Geo-enabled Field Data Collection Tool: Development and sharing of source code for a field data collection tool for emergency response, inspection, compliance verification, or other activities. The tool will use GIS visualization and integrated GPS, allow updates to be made in the field, and then flow data back to back-end systems via the EN. This project will utilize key strengths of the EN program by enabling the flow of secure data, in near real-time, to multiple locations. The project could include developing EN standards and services which could plug into other tools such as Scribe for emergency response or other existing applications used in field deployment. The grantee can utilize EPA's FRS web service, that will provide sub-facility data and their locations from multiple media programs, as well as submitting to other systems as appropriate. In addition, EPA will enable the data service to filter data by specific source(s), such as real-time emergency response data, or a subset of data from a specific state. The grantee can also collaborate with EPA to develop additional FRS web services as necessary. To ensure close collaboration between EPA and state, tribal, and territorial partners, any assistance agreements to develop this tool will be awarded as cooperative agreements. Tier 2!!Phase 1-10 Priority Flows: Additional funding for completing 10 priority flows: 1. implementation by an EN partner (or partners) of one of the 10 flows that they currently have not completed; 2. Addition of entirely new modules to existing data flows. For example, adding an entire class of UIC reporting, adding a new RCRAInfo module, or adding a new data family under ICIS-NPDES. Operations and maintenance of flows is not an eligible activity for funding; Development and deployment of CROMERR upgrades to an existing electronic reporting system, described in a CROMERR application previously approved by EPA, to bring it into compliance with the regulatory standards. Collaborative Opportunity: Partnership to develop multi-program CROMERR application for states that currently do not have an enterprise-wide approach; application should seek to leverage solutions	<b>66.608</b>	<b>Environmental Protection Agency</b>	NIEN15	278.3	101.0	101.0	.2, 6

<b>Grant/Project and Description</b>	<b>CFDA</b>	<b>Grantor</b>	<b>AFIS ID</b>	<b>2018 Received</b>	<b>2019 Est. Rev.</b>	<b>2020 Est. Rev.</b>	<b>Footnote(s)</b>
<b>Environmental Information Exchange Network Grant Program and Related Assistance</b> implemented by other states already approved by EPA. Collaborative Tribal Opportunity: Tribal governments and inter-tribal consortia are eligible to apply for EN grants to build tribal capacity that will result in enhancing environmental programs on tribal lands and the ability to share environmental data electronically with EN partners. Collaborative tribal capacity building proposals must include multiple tribes and identify tribes with existing capacity that can serve as mentors. Collaborative tribal capacity proposals must identify specific outputs and outcomes that result in the increased ability to share environmental information/data electronically with EPA and/or other EN partners (e.g., developing a back-end database for a priority data system). Tier 3 -- Phase 1-10 Priority Flows: Funds for partners already flowing one or more of the 10 priority flows, that will upgrade one or more of these data flows by: 1. Adding historical data; 2. Adding new data elements; 3. Changing processes; 4. Modifying XML schema; 5. Adding new parameters; and 6. Creating geo-enabled data. Development and deployment of other innovative data exchanges (e.g., emergency response, open dump, surface coal mining data integration and reporting, support for sustainable development through sharing data related to transit, zoning/master plan, building permits and LEED buildings and infrastructure initiatives such as water quality laboratory data reporting) that are applicable to multiple partners. Updating large national data sets: Schema development effort that will enable states to flow data through the EN to update large national datasets that fall under Appendix E of OMB Circular A-16: 'Coordination of Geographic Information and Related Spatial Data Activities.' These datasets can include: the National Hydrography Dataset (NHD), National Watershed Boundary dataset, National Wetland Inventory Dataset, National Elevation Dataset, Geographic Names Dataset, and other datasets.  STAG (associated program support): EN governance, support for shared services, technical assistance to EN partners, hosting EN national meetings.  EPM (competitive): expanding tribal participation in the EN outreach to federally recognized tribes through hosting the national tribal users meeting: design and maintenance of a website and publication of a regular newsletter: support tribal participation on EN governance groups: promote collaboration, mentoring and information sharing among tribal stakeholders: through development of a mentoring program.	<b>66.608</b>	<b>Environmental Protection Agency</b>	NIEN15	278.3	101.0	101.0	.2, 6

<b>Nonpoint Source Implementation Grants</b>	<b>66.460</b>	<b>Environmental Protection Agency</b>	NPS28	0.0	487.5	487.5	. 2, 3, 6

To assist States, the District of Columbia, American Samoa, Guam, Northern Marianas, Puerto Rico, Virgin Islands (hereinafter referred to as States), and qualified Indian Tribes and intertribal consortia in implementing EPA-approved Section 319 nonpoint source management programs. Funding Priority - Fiscal Year 2013: EPA's funding priority is to award grants that promote the development and implementation of watershed-based plans, focusing on watersheds with water quality impairments caused by nonpoint sources, which result in improved water quality in impaired waters. These watershed plans are a mechanism to coordinate monitoring and planning on a watershed basis and will build a foundation for effective implementation actions using federal and other funding. Nonpoint Source implementation projects include best management practice (BMP) installation for animal wastes, sediment, pesticide and fertilizer control, a variety of other structural and non-structural practices, watershed planning, monitoring, watershed coordinators, technology demonstration, and a variety of education/outreach programs, among others.

<u>Performance Measures</u>	<u>2018</u>	<u>2019</u>	<u>2020</u>
Substantial adherence to grant work plan.

<b>Pollution Prevention Grants Program</b>	<b>66.708</b>	<b>Environmental Protection Agency</b>	P2	33.7	0.0	0.0	.6

This CFDA announcement applies to the Pollution Prevention (P2) and the Pollution Prevention Information Network (PPIN) grant programs.

Both programs were enacted under the Pollution Prevention Act of 1990. The P2 grant program funds grants/cooperative agreements that implement pollution prevention technical assistance services and/or training for businesses. The PPIN grant program funds grants/cooperative agreements through a national network of Pollution Prevention Resource Exchange (P2Rx) Centers. The Centers work to deliver pollution prevention information, resources and tools to state technical assistance providers, businesses and industry sectors. Under both grant programs, EPA is authorized to support projects that utilize pollution prevention techniques to reduce and/or eliminate pollution from air, water and/or land.

Funding Priority - Fiscal Year 2013:

1. To help businesses adopt P2 techniques into their day-to-day operations as a means for reducing or eliminating harmful pollutants from entering the air, water or land;
2. To encourage education and training in P2/source reduction techniques and applications; and
3. Support P2 information sharing among State, local technical assistance programs and businesses.

<u>Performance Measures</u>	<u>2018</u>	<u>2019</u>	<u>2020</u>

Grant/Project and Description	CFDA	Grantor	AFIS ID	2018 Received	2019 Est. Rev.	2020 Est. Rev.	Footnote(s)
<b>Surveys, Studies, Research, Investigations, Demonstrations, and Special Purpose Activities Relating to the Clean Air Act</b>	<b>66.034</b>	<b>Environmental Protection Agency</b>	PM2.5	252.7	224.0	224.0	.6

To support Surveys, Studies, Research, Investigations, Demonstrations and Special Purpose assistance relating to the causes, effects (including health and welfare effects), extent, prevention, and control of air pollution to include such topics as air quality, acid deposition, climate change, global programs, indoor environments, radiation, mobile source technology and community-driven approaches to transportation and emissions reduction.

Projects should also focus on addressing environmental justice (EJ) concerns in communities. EJ is the fair treatment and meaningful involvement of all people regardless of race, color, national origin, or income with respect to the development, implementation, and enforcement of environmental laws, regulations, and policies.

(1) Indoor Environments. Activities will support surveys, studies, research, training, outreach, education, investigations or demonstrations performed by organizations that lead to effective outreach strategies to educate key audiences about indoor air pollutants, their associated health risks and encourage effective mitigation and control strategies. Currently, the Program focuses on several critical aspects of indoor air quality that pose significant risks to public health, and in particular, to children and other disproportionately impacted segments of society. Program focus includes, but is not limited to, reducing the exposure of children and others with asthma to indoor triggers that worsen their condition; promoting the adoption of operation and maintenance practices in schools, homes and other buildings throughout the nation to reduce the harmful effects of poor indoor air quality on the health of the public, students and staff; promoting voluntary radon testing by homeowners to identify elevated levels and fix them when they are found; as well as working with homebuilders to incorporate radon resistant construction features into new homes; and encouraging adult smokers to protect their children from the adverse health effects of environmental exposure to secondhand smoke by making a conscious decision to smoke outside and keep their homes and cars smokefree.

(2) Radiation. Activities support technical, outreach, and educational projects relating to environmental radiation. Activities also support the national environmental radiation monitoring program. This program prepares for and responds to incidents involving nuclear or radiological material, oversees the safe disposal of radioactive waste, maintains two laboratories that perform radiological sampling and analyses, and provides standards for protecting human health and the environment from radioactive material. Program focus includes, but is not limited, to the following activities: performance testing and evaluation, development of analytical procedures, purchasing of radiation laboratory equipment and support and enhancement of radiological laboratory capability and capacity across the nation to reduce the gap in analyzing

<b>Surveys, Studies, Research, Investigations, Demonstrations, and Special Purpose Activities Relating to the Clean Air Act</b> environmental samples following a significant national radiological incident.	<b>66.034</b>	<b>Environmental Protection Agency</b>	PM2.5	252.7	224.0	224.0	.6

(3) Community-Scale Air Toxics Ambient Monitoring (CSATAM). The CSATAM Grant Program results in two-year projects designed to assist state, local and tribal communities in identifying and profiling air toxics sources, characterizing the degree and extent of local air toxics problems and tracking progress of air toxics reduction activities in specific local areas without reliance on often uncertain estimates of emissions and air dispersion models. Further, projects typically allow the recipient state, local and tribal air pollution control agencies to establish or enhance hazardous air pollutant monitoring networks, thus providing long term capability to investigate and assess specific local air quality scenarios of concern. The program will continue working with grant recipients that received funding in previous years.

(4) Mobile Sources Technologies. Projects encompass studies and investigations utilizing state-of-the-art experimental techniques in advanced engine development technology, including hydraulic hybrid drive-trains, to optimize fuel economy, reduce exhaust emissions (including PM and NOx) and improve performance. In addition, projects may support studies identifying barriers to technological innovation, analyzing innovative strategies for overcoming these barriers, encouraging the development and adoption of new vehicle and fuel technologies for the control of emissions.

(5) Heavy Duty Truck Fuel Consumption and Emissions Reductions. This program studies and analyzes fuel consumption and emissions reductions associated with the use of innovative technologies for heavy duty diesel trucks. Projects involve truck fleets that operate under varying conditions in order to evaluate the effectiveness of the various technologies.

(6) National Internet-based On-Board Diagnostic (OBD) Information Exchange. This program supports activities that maintain, update and improve the Internet-based information clearinghouse to facilitate accurate and timely exchange of technical information related to on-board diagnostic (OBD) between state inspection/maintenance programs, the automotive industry and the general public.

(7) Integrated Assessment of Transportation-Related Policies on Greenhouse Gases, Land Use Change, and Other Economy-Wide Impacts (Integrated Assessment). This program is designed to improve the public data underlying well-established integrated assessment models used to analyze both climate change impacts and the linkages between renewable fuels and climate change. Additionally, projects are intended to further the public's understanding of the interaction of the

<b>Surveys, Studies, Research, Investigations, Demonstrations, and Special Purpose Activities Relating to the Clean Air Act</b>	<b>66.034</b>	<b>Environmental Protection Agency</b>	PM2.5	252.7	224.0	224.0	.6
economic, energy, and environmental impacts of increased renewable fuel usage in the U.S. transportation sector using a robust modeling framework.							

(8) Climate Change. The Climate Change Division (CCD) supports activities relating to improving economic, technical and programmatic understanding of climate change. CCD supports technical, outreach, and education projects regarding climate change impacts, mitigation and adaptation options in order for private and public sectors may more effectively and comprehensively address their climate goals. Additionally, CCD supports projects that break down market barriers that may limit investment in technologies that reduce methane and non-CO2 greenhouse gases; address the technical issues surrounding sequestration and carbon storage; address collection and analyses of economic data relating to climate change; and the Global Methane Initiative (GMI) that support climate technology transfer in developing and transition countries. The Global Methane Initiative is an international public-private initiative that advances cost effective, near-term methane recovery and use as a clean energy source in four sectors: agriculture, coal mines, landfills, and oil and gas systems. GMI projects reduce greenhouse gas emissions in the near term and provide a number of important environmental and economic co-benefits. Co-benefits include stimulating local economic growth, creating new sources of affordable alternative energy, improving local air and water quality with associated public health benefits and increasing industrial worker safety. CCD also supports the Greenhouse Gas Reporting program that will help facilities that participate in voluntary, state-based and federal GHG reporting programs better understand the requirements of voluntary and state GHG reporting programs in comparison to the federal rule, and identify options for how data collected through state and federal reporting requirements may be used to inform state GHG programs and facility-level efforts to identify emissions-reduction opportunities. Climate Economics Program objective is to advance the field of climate economic and integrated assessment modeling through a regular series of studies on GHG emissions and approaches to mitigating emissions and climate impacts. Climate Science Impacts objectives include leveraging studies which focus on climate impacts on environmental justice issues and tribal communities, and inform adaptation policy development and planning for tribal and environmental justice communities.

(9) Climate Protection Partnerships. EPA funds Global Climate Change programs which are voluntary government/industry partnership programs designed to capitalize on the opportunities that consumers, businesses, and organizations have for making sound investments in efficient equipment, policies and practices. The Global Climate Change program will manage a number of efforts to remove barriers in the marketplace and to deploy technology faster in the residential, commercial, and industrial sectors of the economy. Our programs work by overcoming widely

<b>Surveys, Studies, Research, Investigations, Demonstrations, and Special Purpose Activities Relating to the Clean Air Act</b> acknowledged barriers to energy efficiency: lack of clear, reliable information on technology opportunities; lack of awareness of energy efficient products and services; lack of financing options to turn lifecycle energy savings into initial cost savings for consumers; and low incentives to manufacturers for efficiency research and development. In addition, our Global Climate Change programs will provide technical assistance, training, information exchange and other forms of cooperation to enhance the capabilities of governments and other stakeholders to protect human health and the environment regionally and globally.	66.034	Environmental Protection Agency	PM2.5	252.7	224.0	224.0	.6

(10) Near-road Nitrogen Dioxide (NO2) Monitoring. In accordance with the final NO2 National Ambient Air Quality Standards (NAAQS), state and local air pollution control agencies (grantees) are required to establish near-road monitoring stations to ensure the collection of data necessary for determining compliance with the standard as well as to protect human health and the environment. Grantees will purchase capital equipment and work with local Department of Transportation agencies to ensure unique siting criteria are met in the establishment of the new monitoring stations.

<u>Performance Measures</u>	<u>2018</u>	<u>2019</u>	<u>2020</u>
Substantial adherence to grant work plan ADEQ will measure progress against the work plan deliverables in each grant/federal fund. The fiscal year 2015 grant work plan outputs were related to the operation of an air quality monitoring network for certain chemical constituents, and are not mutually exclusive deliverables. ADEQ has developed a full suite of individual and measurable grant deliverables for the US Environmental Protection Agency 103 and 105 grants (Clean Air Act, Sections 103 and 105) for fiscal year 2016.

<b>Grant/Project and Description</b>	<b>CFDA</b>	<b>Grantor</b>	<b>AFIS ID</b>	<b>2018 Received</b>	<b>2019 Est. Rev.</b>	<b>2020 Est. Rev.</b>	<b>Footnote(s)</b>
<b>Performance Partnership Grants</b>	<b>66.605</b>	<b>Environmental Protection Agency</b>	PPG	4,927.6	0.0	0.0	.6

Improving EPA's partnership with the States and Tribes is critical to accelerating environmental outcomes. Performance Partnership Grants (PPGs) are the cornerstone of the National Environmental Performance Partnership System (NEPPS) -- EPA's strategy to strengthen partnerships and build a results-based management system. PPGs are innovative grant delivery tools that allow States and Tribes to combine up to 18 eligible State and Tribal Assistance Grants (STAG) grants into a single grant with a single budget. PPGs can reduce administrative transaction costs, provide the flexibility to direct resources toward the highest priority environmental problems, and support cross-media approaches and initiatives. EPA's overarching goal is to optimize the leveraging power of PPGs to focus strategically on the joint priorities of EPA, States and Tribes. PPGs do not include any funding in addition to the state and tribal assistance grants provided under other statutory authorities.

Funding Priority - Fiscal Year 2013: Many state environmental agencies are experiencing severe budget cuts and will be challenged to maintain core programs. In this climate, EPA's regional offices will give priority to flexibility and opportunities to work collaboratively with States and Tribes. The Agency will continue to focus on our ongoing goals for the PPG program, which are: (1) strengthen partnerships between EPA, the States, Tribes, and interstate agencies through joint planning and priority setting to deploy resources more effectively; (2) provide States, Tribes, and interstate agencies with the flexibility to direct resources where they are needed most to address environmental and public health priorities; (3) link program activities more effectively with environmental and public health goals and environmental outcomes; (4) foster implementation of innovative approaches such as pollution prevention, ecosystem management, and community-based environmental protection strategies; and (5) provide savings by streamlining administrative requirements.

<b>State and Tribal Response Program Grants</b>	<b>66.817</b>	<b>Environmental Protection Agency</b>	SRG	669.1	0.0	0.0	.6

EPA's CERCLA Section 128(a) grant program funds activities that establish or enhance state and tribal response program capacity, capitalize revolving loan funds (RLFs), and support insurance mechanisms. The goal of this funding is to provide financial support to establish and enhance the four elements of an effective state or tribal response program as specified in CERCLA Section 128 and to ensure that states and tribes maintain a public record of sites included in their programs.

Funding Priority - Fiscal Year 2013: In FY 2013, funding will be prioritized as follows: (1) Funding for program development activities to establish or enhance the four elements of a state or tribal response program and to enable states and tribes to comply with the public record requirement, including activities related to institutional controls. (States and tribes that have established one or more of the four elements will not be prejudiced in funding distributions if their work plan includes activities that enhance the four elements. States with Voluntary Cleanup Program Memorandum of Agreement will not be prejudiced in funding distributions if their work plan does not include tasks related to establishing or enhancing the four elements.) (2) Funding for program development activities to enhance the response program or the cleanup capacity of a state or tribal response program. (3) Funding for site-specific activities at eligible brownfields sites. (4) Funding for environmental insurance mechanisms. (5) Funding to capitalize brownfields cleanup RLFs.

<u>Performance Measures</u>	<u>2018</u>	<u>2019</u>	<u>2020</u>
Substantial adherence to grant work plan			

**State of Arizona**  
**Federal Operating Budget Detail**  
**(Dollars in Thousands)**

**Agency:** Department of Environmental Quality

<b>Grant/Project and Description</b>	<b>CFDA</b>	<b>Grantor</b>	<b>AFIS ID</b>	<b>2018 Received</b>	<b>2019 Est. Rev.</b>	<b>2020 Est. Rev.</b>	<b>Footnote(s)</b>
<b>Underground Storage Tank Prevention, Detection and Compliance Program</b>	<b>66.804</b>	<b>Environmental Protection Agency</b>	UST	453.6	617.8	617.8	.6

To assist States, Territories, Tribes and/or Intertribal Consortia (LUST Prevention only for Tribes and/or Intertribal Consortia) that meet the requirements at 40 CFR 35.504 in the development and implementation of underground storage tank (UST) programs and for leak prevention, compliance and other activities authorized by the Energy Policy Act (EPA) of 2005, Public Law 105-276, and EPA's annual appropriations acts.

Funding Priority - Fiscal Year 2013: Assistance agreements to states under Section 2007 of the Solid Waste and Disposal Act will support core program underground storage tank (UST) activities, implement their leak prevention and detection programs, as well as the 2005 Energy Policy Act (EPA) leak prevention activities. High priority tasks include providing financial assistance to states for: 1) approving specific technologies to detect leaks from tank systems; 2) ensuring that tank owners and operators are complying with notification and other requirements; 3) ensuring equipment compatibility; 4) conducting UST inspections; 5) implementing operator training; 6) prohibiting delivery for non-complying facilities; 7) seeking state program approval to operate the UST program in lieu of the Federal program; and 8) requiring secondary containment or financial responsibility for tank manufacturers and installers.

LUST Prevention assistance agreements to states and tribes, and/or intertribal consortia for activities authorized by EPA will support states with inspections and other release prevention and compliance assurance activities for Federally-regulated UST systems, as well as for enforcement activities related to release prevention. A main cause of releases is the lack of proper operation and maintenance of UST systems, which is why the EPA proposed revisions to the UST regulations in FY 2012 that address these and other important issues. Any changes that result from a final rule will require subsequent state adoption, applicable updates to state regulations, and updates to state program approval.

For tribes, the LUST Prevention assistance agreements will assist with all aspects of the Tribal programs, e.g., inspection capacity. High priority tasks include providing financial assistance to states and tribes for: 1) inspecting UST facilities to complete the three-year inspection requirement; 2) developing inspection capacity for Tribes; 3) assisting states in adopting measures (e.g., delivery prohibition, secondary containment, operator training, etc.), as required by EPA and EPA's grant guidelines; 4) enforcement activities related to release prevention; 5) development of leak prevention regulations and other program infrastructure; 6) helping tribes develop the capacity to administer UST programs, such as providing funding to support training for Tribal staff and educating owners and operators in Indian Country about UST requirements. These activities are geared toward bringing all UST systems into compliance with release detection and release prevention

<b>Capitalization Grants for Clean Water State Revolving Funds</b>	<b>66.458</b>	<b>Environmental Protection Agency</b>	4000115	192.0	0.0	0.0	.2, 6

To create State Revolving Funds (SRFs) through a program of capitalization grants to States which will provide a long term source of State financing for construction of waste water treatment facilities and implementation of other water quality management activities. Funding Priority - Fiscal Year 2013: Capitalization grants are available to each State for the purpose of establishing a Clean Water SRF for providing assistance for: (1) construction of publicly owned waste water treatment works; (2) implementing nonpoint source management activities included in State Plans developed pursuant to Section 319; and (3) developing and implementing an estuary comprehensive conservation and management plan under Section 320. The capitalization grant is deposited in the State's SRF, which is used to provide loans and other types of financial assistance, to local communities and intermunicipal and interstate agencies. Up to 4 percent of the grant amounts may be used by the States for the cost of administering the SRF. States determine priorities for funding within their State in accordance with the CWA. Similar to the American Recovery and Reinvestment Act (Recovery Act) of 2009, a portion of the FY 2013 funding must be used to provide additional subsidy in the form of grants, principal forgiveness or negative interest loans and a portion of funding must, also, be targeted toward green infrastructure, water and energy efficiency, and environmentally innovative projects. The program supports the Agency's strategic goal of ensuring Clean and Safe Water.

<u>Performance Measures</u>	<u>2018</u>	<u>2019</u>	<u>2020</u>
Number of weeks to process a loan	1.5	1.5	na
The number of weeks to process a loan is measured from the Board approval to the date draft loan documents go to the borrower. This grant should be completely spent in FY 17.

<b>Grant/Project and Description</b>	<b>CFDA</b>	<b>Grantor</b>	<b>AFIS ID</b>	<b>2018 Received</b>	<b>2019 Est. Rev.</b>	<b>2020 Est. Rev.</b>	<b>Footnote(s)</b>
<b>Forest Products Lab: Technology Marketing Unit (TMU)</b>	<b>10.674</b>	<b>Department of Agriculture</b>	FOA15011	0.0	0.0	0.0	.2, 4

Provide direct technical assistance to Forest Service and state foresters regarding new and emerging clean technologies to effectively manage forests and extend the most efficient and effective economic opportunities to forest landowners. The Technology Marketing Unit staff provides expertise in science-based management decisions concerning forest products utilization, biofuels production, and woody biomass utilization that uses material removed for ecosystem management goals. Program may include: (1) development of potential new products; (2) projects that showcase innovative uses for small diameter and low-valued hardwoods and softwoods; (3) reducing the challenge to economic and market barriers to the use of the material (4) provide seed money and gap funding for demonstration projects and (5) facilitate the creation/expansion of harvesting/processing/transporting enterprises around wildland urban interface areas threatened by catastrophic wildfires.

<u>Performance Measures</u>	<u>2018</u>	<u>2019</u>	<u>2020</u>
Outreach Program			
Program funds to be used for ongoing outreach to support wood products industry.

------------------------------	---------------	--------------------------------------	----------	-----	-----	-----	-------

To effectively protect and conserve environmentally important forest areas threatened by conversion to nonforest uses, through conservation easements or fee simple purchase. The Forest Legacy Program (FLP) is a voluntary private land conservation partnership between the Forest Service, participating States, land trusts, private landowners, and others. The Program works with State partners and operates on a willing seller and willing buyer basis and is completely nonregulatory in its approach. No eminent domain authority or adverse condemnation is authorized for this Program.

<u>Performance Measures</u>	<u>2018</u>	<u>2019</u>	<u>2020</u>
Maintain Outreach Program			
Program funds to be used for ongoing outreach to identify potential project areas and to work with partner organizations on development of proposals. (measure: maintain outreach program.)

<b>Forest Products Lab: Technology Marketing Unit (TMU)</b>	<b>10.674</b>	<b>Department of Agriculture</b>	FOA16007	0.0	0.0	0.0	.2,4

Provide direct technical assistance to Forest Service and state foresters regarding new and emerging clean technologies to effectively manage forests and extend the most efficient and effective economic opportunities to forest landowners. The Technology Marketing Unit staff provides expertise in science-based management decisions concerning forest products utilization, biofuels production, and woody biomass utilization that uses material removed for ecosystem management goals. Program may include: (1) development of potential new products; (2) projects that showcase innovative uses for small diameter and low-valued hardwoods and softwoods; (3) reducing the challenge to economic and market barriers to the use of the material (4) provide seed money and gap funding for demonstration projects and (5) facilitate the creation/expansion of harvesting/processing/transporting enterprises around wildland urban interface areas threatened by catastrophic wildfires.

<b>Hazard Mitigation Grant</b>	<b>97.039</b>	<b>Department of Homeland Security</b>	FOA17004	0.0	0.0	0.0	.2,4

To provide funding support to states, Indian tribal governments, territories, communities, and other eligible applicants to implement mitigation planning and hazard mitigation measures that are cost effective and which substantially reduce the risk of future damage, hardship, loss or suffering in any area affected by a major disaster. This program also conforms to the definitions of the term “Mitigation” as defined in the National Preparedness Goal (NPG), in that this program supports those capabilities that are necessary to reduce loss of life and property by lessening the impact of disasters. Mitigation capabilities include, but are not limited to, community-wide risk reduction projects; efforts to improve the resilience of critical infrastructure and key resource lifelines; risk reduction for specific vulnerabilities from natural hazards; and initiatives to reduce future risks after a disaster has occurred.

To effectively protect and conserve environmentally important forest areas threatened by conversion to nonforest uses, through conservation easements or fee simple purchase. The Forest Legacy Program (FLP) is a voluntary private land conservation partnership between the Forest Service, participating States, land trusts, private landowners, and others. The Program works with State partners and operates on a willing seller and willing buyer basis and is completely nonregulatory in its approach. No eminent domain authority or adverse condemnation is authorized for this Program.

This program funds the development and implementation of projects for the benefit of fish and wildlife and their habitats, including species that are not hunted or fished. Priority is placed on projects that benefit species of greatest conservation concern.

<u>Performance Measures</u>	<u>2018</u>	<u>2019</u>	<u>2020</u>
Annual Report	1	CLOSED	CLOSED
Indication of what the dollars will be used for: Funding will be provided to partner states in the field testing of an oral plague vaccine for prairie dogs. If successful the Department would be able to stabilize populations level and recover endangered species like the black-footed ferret and keep other species from being listed under the Endangered Species Act.			
What is the outcome: If proven to be an effective vaccine, the vaccine could be used to manage plague outbreaks reducing the possibility of human exposure.			
How does one measure success: It is anticipated to take nearly 3 years to complete the process to field test an oral vaccine for plague in prairie dogs; Year 2 would be an evaluation of data January 2014 and a simultaneous implementation of 2nd year of field trial May-October 2014. Year 3 would include an evaluation of data in January 2015 with initiating 3rd year of field trials May-October 2015. The final report completed by December 2016.

<b>Endangered Species Conservation – Recovery Implementation Funds</b>	<b>15.657</b>	<b>Department of the Interior</b>	AZES1R	4.4	2.4	0.0	. 2, 6												
To provide federal financial assistance to secure endangered or threatened species information, undertake restoration actions that will lead to delisting of a species; help prevent extinction of a species, or aid in the recovery of species. The purpose of the Endangered Species Act is to provide a means by which the ecosystems upon which endangered and threatened species depend may be conserved, to provide a program for the conservation of these species, and to take appropriate steps to achieve the purposes of treaties and conventions set forth in the law.

<b>Fish, Wildlife and Plant Conservation Resource Management</b>	<b>15.231</b>	<b>Department of the Interior</b>	C005586	13.8	3.0	0.0	.2, 6

To manage fish, wildlife and plant conservation resources on the public lands administered by the Bureau of Land Management. This will help restore and protect lands containing noteworthy resource values for regionally significant species of management concern or wetland and riparian areas; restore and protect crucial habitat through vegetation treatments, installation of wildlife friendly fences, and creating fish passages or barriers to protect aquatic species. Restoration of wildlife habitat to restore and protect sage grouse, desert tortoise, and other upland habitats for special species as well as riparian habitat for endangered or special status fish and aquatic species. For Recovery Act funded projects, in addition to the program objectives above, section 3 of the Act states the following objectives: to preserve and create jobs and promote economic recovery; to assist those most impacted by the recession; to provide investments needed to increase economic efficiency by spurring technological advances in science and health; to invest in transportation, environmental protection, and other infrastructure that will provide long-term economic benefits; and to stabilize State and local governments budgets, in order to minimize and avoid reductions in essential services and counterproductive state and local tax increases.

<b>National Fish and Wildlife Foundation</b>	<b>10.683</b>	<b>Department of Agriculture</b>	C006647	11.8	38.2	0.0	. 2, 6, 7, 8

Created by Congress in 1984, National Fish and Wildlife Foundation (NFWF) directs public conservation dollars to the most pressing environmental needs and matches those investments with private funds. The Foundation's method is simple and effective to work with a full complement of individuals, foundations, government agencies, nonprofits, and corporations to identify and fund the Nation's most intractable conservation challenges.

<b>Fish, Wildlife and Plant Conservation Resource Management</b>	<b>15.231</b>	<b>Department of the Interior</b>	C050094	47.9	71.3	0.0	.2, 6

To manage fish, wildlife and plant conservation resources on the public lands administered by the Bureau of Land Management. This will help restore and protect lands containing noteworthy resource values for regionally significant species of management concern or wetland and riparian areas; restore and protect crucial habitat through vegetation treatments, installation of wildlife friendly fences, and creating fish passages or barriers to protect aquatic species. Restoration of wildlife habitat to restore and protect sage grouse, desert tortoise, and other upland habitats for special species as well as riparian habitat for endangered or special status fish and aquatic species. For Recovery Act funded projects, in addition to the program objectives above, section 3 of the Act states the following objectives: to preserve and create jobs and promote economic recovery; to assist those most impacted by the recession; to provide investments needed to increase economic efficiency by spurring technological advances in science and health; to invest in transportation, environmental protection, and other infrastructure that will provide long-term economic benefits; and to stabilize State and local governments budgets, in order to minimize and avoid reductions in essential services and counterproductive state and local tax increases.

<b>Highway Planning and Construction</b>	<b>20.205</b>	<b>Department of Transportation</b>	C050126	(0.4)	0.0	0.0	.2, 6

Federal-aid Highway Program: To assist State transportation agencies in the planning and development of an integrated, interconnected transportation system important to interstate commerce and travel by constructing and rehabilitating the National Highway System (NHS), including the Eisenhower Interstate System; for transportation improvements to many other public roads; to provide aid for the repair of Federal-aid highways following disasters; to foster safe highway design; to replace or rehabilitate deficient or obsolete bridges; and to provide for other special purposes. This program also provides for the improvement of roads in Puerto Rico, Guam, the U.S. Virgin Islands, American Samoa, and the Commonwealth of the Northern Mariana Islands. The Federal Lands Transportation Program (FLTP) provides assistance to the Federal Land Management Agencies (FLMAs) for Federally-owned roads and trails. It provides transportation engineering services and funding for planning, design, construction, and rehabilitation of the highways and bridges providing access to and on federally owned lands. The Federal Lands Highway organization also provides training, technology, deployment, engineering services, and products to other customers.

To provide financial assistance, through grants or cooperative agreements as a partnership to reduce or remove pollutants in the environment for the protection of human health, water and air resources; to restore damaged or degraded watersheds; and to respond to changing climate. Objectives are implemented through core programs such as: the Abandoned Mine Land program which addresses physical safety hazards and water quality through restoration of abandoned hardrock mines; the Hazard Management and Resource Restoration, also known as Hazmat program, which remediates sites impacted by hazardous materials and illegal activities, coordinates emergency response actions, and ensures the Bureau of Land Management facilities and operations comply with applicable environmental regulations; and the Soil, Water and Air (SWA) program which develops guidance for land use plans and plan implementation. The Soil, Water, and Air program also assures that fundamental resources are inventoried and assessed, managed, and monitored to support appropriate management response to public land conditions. For Recovery and Reinvestment Act funded projects additional objectives include: To preserve and create jobs and promote economic recovery; to assist those most impacted by the recession; to provide investments needed to increase economic efficiency by spurring technological advances in science and health; to invest in transportation, environmental protection, and other infrastructure that will provide long-term economic benefits; and to stabilize State and local government budgets, in order to minimize and avoid reductions in essential services and counterproductive state and local tax increases.

<b>Highway Planning and Construction</b>	<b>20.205</b>	<b>Department of Transportation</b>	C050212	100.0	0.0	0.0	.2, 6

Federal-aid Highway Program: To assist State transportation agencies in the planning and development of an integrated, interconnected transportation system important to interstate commerce and travel by constructing and rehabilitating the National Highway System (NHS), including the Eisenhower Interstate System; for transportation improvements to many other public roads; to provide aid for the repair of Federal-aid highways following disasters; to foster safe highway design; to replace or rehabilitate deficient or obsolete bridges; and to provide for other special purposes. This program also provides for the improvement of roads in Puerto Rico, Guam, the U.S. Virgin Islands, American Samoa, and the Commonwealth of the Northern Mariana Islands. The Federal Lands Transportation Program (FLTP) provides assistance to the Federal Land Management Agencies (FLMAs) for Federally-owned roads and trails. It provides transportation engineering services and funding for planning, design, construction, and rehabilitation of the highways and bridges providing access to and on federally owned lands. The Federal Lands Highway organization also provides training, technology, deployment, engineering services, and products to other customers.

<b>Fish, Wildlife and Plant Conservation Resource Management</b>	<b>15.231</b>	<b>Department of the Interior</b>	C050221	0.5	50.1	0.0	. 2, 6, 7

To manage fish, wildlife and plant conservation resources on the public lands administered by the Bureau of Land Management. This will help restore and protect lands containing noteworthy resource values for regionally significant species of management concern or wetland and riparian areas; restore and protect crucial habitat through vegetation treatments, installation of wildlife friendly fences, and creating fish passages or barriers to protect aquatic species. Restoration of wildlife habitat to restore and protect sage grouse, desert tortoise, and other upland habitats for special species as well as riparian habitat for endangered or special status fish and aquatic species. For Recovery Act funded projects, in addition to the program objectives above, section 3 of the Act states the following objectives: to preserve and create jobs and promote economic recovery; to assist those most impacted by the recession; to provide investments needed to increase economic efficiency by spurring technological advances in science and health; to invest in transportation, environmental protection, and other infrastructure that will provide long-term economic benefits; and to stabilize State and local governments budgets, in order to minimize and avoid reductions in essential services and counterproductive state and local tax increases.

<b>Highway Planning and Construction</b>	<b>20.205</b>	<b>Department of Transportation</b>	C050224	95.8	97.6	0.0	.2, 6

Federal-aid Highway Program: To assist State transportation agencies in the planning and development of an integrated, interconnected transportation system important to interstate commerce and travel by constructing and rehabilitating the National Highway System (NHS), including the Eisenhower Interstate System; for transportation improvements to many other public roads; to provide aid for the repair of Federal-aid highways following disasters; to foster safe highway design; to replace or rehabilitate deficient or obsolete bridges; and to provide for other special purposes. This program also provides for the improvement of roads in Puerto Rico, Guam, the U.S. Virgin Islands, American Samoa, and the Commonwealth of the Northern Mariana Islands. The Federal Lands Transportation Program (FLTP) provides assistance to the Federal Land Management Agencies (FLMAs) for Federally-owned roads and trails. It provides transportation engineering services and funding for planning, design, construction, and rehabilitation of the highways and bridges providing access to and on federally owned lands. The Federal Lands Highway organization also provides training, technology, deployment, engineering services, and products to other customers.

Promotes agricultural production, forest management, and environmental quality as compatible national goals and optimizes environmental benefits on eligible land with farmers, ranchers, and non-industrial private forest land owners. It is a voluntary program using partnerships with local, State, Tribal and Federal agencies, producer associations, and nonprofit organizations to provide flexible technical and financial assistance to install and maintain conservation practices include those related to organic production, that sustain food and fiber production. The purpose of this program is achieved through the implementation of structural, vegetative, and land management practices on eligible land. This program is funded through the Commodity Credit Corporation (CCC). NRCS provides overall program administration and management.

<b>Nonpoint Source Implementation Grants</b>	<b>66.460</b>	<b>Environmental Protection Agency</b>	C050242	95.0	100.3	0.0	. 2, 6

To assist States, the District of Columbia, American Samoa, Guam, Northern Marianas, Puerto Rico, Virgin Islands (hereinafter referred to as States), and qualified Indian Tribes and intertribal consortia in implementing EPA-approved Section 319 nonpoint source management programs. Funding Priority - Fiscal Year 2013: EPA's funding priority is to award grants that promote the development and implementation of watershed-based plans, focusing on watersheds with water quality impairments caused by nonpoint sources, which result in improved water quality in impaired waters. These watershed plans are a mechanism to coordinate monitoring and planning on a watershed basis and will build a foundation for effective implementation actions using federal and other funding. Nonpoint Source implementation projects include best management practice (BMP) installation for animal wastes, sediment, pesticide and fertilizer control, a variety of other structural and non-structural practices, watershed planning, monitoring, watershed coordinators, technology demonstration, and a variety of education/outreach programs, among others.

<b>Natural Resource Stewardship</b>	<b>15.944</b>	<b>Department of the Interior</b>	C050246	0.0	26.1	0.0	, 2, 4, 6, 11

As a steward of the Nation's natural and cultural heritage, the primary responsibility of the NPS is to preserve and protect park resources and values. The NPS actively manages and conducts research on natural resources in the national park system to meet its statutory responsibility to preserve these resources unimpaired for future generations.

The Natural Resource Stewardship program is the principle means through which the NPS evaluates and improves the health of watersheds, landscapes, and marine and coastal resources, sustains biological communities on the lands and waters in parks, and actively endeavors to improve the resiliency of these natural resources and adapt them to the effects of climate change.

The National Park Service (NPS) conducts natural resource stewardship largely at the park level, utilizing park personnel and contractor or cooperative support. To carry out and further this stewardship responsibility, the Service implements programs that encompass a broad range of research, operational, and educational activities. The NPS inventories, evaluates, documents, preserves, protects, monitors, maintains, and interprets the natural resources at 392 park units, 21 trails and 58 wild and scenic rivers. NPS stewardship helps to perpetuate resources and allows for their continued appreciation, understanding, and enjoyment.

To provide federal financial assistance to secure endangered or threatened species information, undertake restoration actions that will lead to delisting of a species; help prevent extinction of a species, or aid in the recovery of species. The purpose of the Endangered Species Act is to provide a means by which the ecosystems upon which endangered and threatened species depend may be conserved, to provide a program for the conservation of these species, and to take appropriate steps to achieve the purposes of treaties and conventions set forth in the law.

<b>Legacy Resource Management Program</b>	<b>12.632</b>	<b>Department of Defense</b>	C050271	0.0	59.4	0.0	, 2, 4, 6, 11

The purpose of the DoD Legacy Program is to provide funding to help manage and sustain DoD land in the United States. Legacy is tasked with funding high priority national and regional natural and cultural resources projects that support military readiness; enhance conservation objectives; and help DOD fulfill the guiding principles of stewardship, leadership, and partnership. Legacy funds projects that go beyond federal regulatory and statutory compliance requirements to protect and manage approximately 28 million acres of DoD land.

<b>Fish, Wildlife and Plant Conservation Resource Management</b>	<b>15.231</b>	<b>Department of the Interior</b>	C050272	4.2	135.9	0.0	.2, 6

To manage fish, wildlife and plant conservation resources on the public lands administered by the Bureau of Land Management. This will help restore and protect lands containing noteworthy resource values for regionally significant species of management concern or wetland and riparian areas; restore and protect crucial habitat through vegetation treatments, installation of wildlife friendly fences, and creating fish passages or barriers to protect aquatic species. Restoration of wildlife habitat to restore and protect sage grouse, desert tortoise, and other upland habitats for special species as well as riparian habitat for endangered or special status fish and aquatic species. For Recovery Act funded projects, in addition to the program objectives above, section 3 of the Act states the following objectives: to preserve and create jobs and promote economic recovery; to assist those most impacted by the recession; to provide investments needed to increase economic efficiency by spurring technological advances in science and health; to invest in transportation, environmental protection, and other infrastructure that will provide long-term economic benefits; and to stabilize State and local governments budgets, in order to minimize and avoid reductions in essential services and counterproductive state and local tax increases.

<b>Cooperative Research and Training Programs – Resources of the National Park System</b>	<b>15.945</b>	<b>Department of the Interior</b>	C050289	43.0	12.3	0.0	.2, 6
<p>To develop adequate, coordinated cooperative research, offer training programs and/or develop information products and to create, through cooperative agreements, cooperative study units to conduct multidisciplinary research to provide a solid science basis for the management of the National Park System or the larger region of which parks are a part as necessary to form the basis of sound park management. To establish cooperative study units to conduct multi-disciplinary research and develop integrated information products on the resources of the National Park System, or the larger region of which parks are a part. The establishment of a comprehensive network of such college and university based cooperative study units as will provide full geographic and topical coverage for research on the resources contained in units of the National Park System and their larger regions. (16 USC 5933). To more effectively achieve the mission of the National Park Service; to enhance management and protection of national park resources by providing clear authority and direction for the conduct of scientific study in the National Park System and to use the information gathered for management purposes; to ensure appropriate documentation of resource conditions in the National Park System; to encourage others to use the National Park System for study to the benefit of park management as well as broader scientific value; to encourage the publication and dissemination of information derived from studies in the National Park System. The objectives of the units' (cooperative ecosystem study units) are to: Provide resource managers with high-quality scientific research, technical assistance, and education; provide resource managers with solid natural resource information; deliver research and technical assistance that is timely, relevant to resource managers, and needed to develop and implement sound adaptive management approaches; ensure the independence and objectivity of research; create and maintain effective partnerships among federal agencies and universities to share resources and expertise; take full advantage of university resources while benefiting faculty and students; provide research, technical assistance, and educational functions within the context of cultural, social, biological, and physical sciences; enhance the ability of Federal natural and cultural resource managers to generate, acquire, synthesize, act upon, and articulate to the public sound research and scientific information; encourage professional development of federal scientists and enhance their ability to manage federal science resources efficiently.</p>

To provide financial assistance, through grants or cooperative agreements, to public or private organizations for the improvement of fish and wildlife habitats associated with water systems or water supplies affected by Bureau of Reclamation projects.

**FOR RECOVERY ACT:**

For ARRA funded projects and in addition to the program objectives above, the section 3 of the ARRA states the following objectives:

- (1)To preserve and create jobs and promote economic recovery.
- (2)To assist those most impacted by the recession.
- (3)To provide investments needed to increase economic efficiency by spurring technological advances in science and health.
- (4)To invest in transportation, environmental protection, and other infrastructure that will provide long-term economic benefits.
- (5)To stabilize State and local government budgets, in order to minimize and avoid reductions in essential services and counterproductive state and local tax increases.

Federal-aid Highway Program: To assist State transportation agencies in the planning and development of an integrated, interconnected transportation system important to interstate commerce and travel by constructing and rehabilitating the National Highway System (NHS), including the Eisenhower Interstate System; for transportation improvements to many other public roads; to provide aid for the repair of Federal-aid highways following disasters; to foster safe highway design; to replace or rehabilitate deficient or obsolete bridges; and to provide for other special purposes. This program also provides for the improvement of roads in Puerto Rico, Guam, the U.S. Virgin Islands, American Samoa, and the Commonwealth of the Northern Mariana Islands. The Federal Lands Transportation Program (FLTP) provides assistance to the Federal Land Management Agencies (FLMAs) for Federally-owned roads and trails. It provides transportation engineering services and funding for planning, design, construction, and rehabilitation of the highways and bridges providing access to and on federally owned lands. The Federal Lands Highway organization also provides training, technology, deployment, engineering services, and products to other customers.

Federal-aid Highway Program: To assist State transportation agencies in the planning and development of an integrated, interconnected transportation system important to interstate commerce and travel by constructing and rehabilitating the National Highway System (NHS), including the Eisenhower Interstate System; for transportation improvements to many other public roads; to provide aid for the repair of Federal-aid highways following disasters; to foster safe highway design; to replace or rehabilitate deficient or obsolete bridges; and to provide for other special purposes. This program also provides for the improvement of roads in Puerto Rico, Guam, the U.S. Virgin Islands, American Samoa, and the Commonwealth of the Northern Mariana Islands. The Federal Lands Transportation Program (FLTP) provides assistance to the Federal Land Management Agencies (FLMAs) for Federally-owned roads and trails. It provides transportation engineering services and funding for planning, design, construction, and rehabilitation of the highways and bridges providing access to and on federally owned lands. The Federal Lands Highway organization also provides training, technology, deployment, engineering services, and products to other customers.

The purpose of the DoD Legacy Program is to provide funding to help manage and sustain DoD land in the United States. Legacy is tasked with funding high priority national and regional natural and cultural resources projects that support military readiness; enhance conservation objectives; and help DOD fulfill the guiding principles of stewardship, leadership, and partnership. Legacy funds projects that go beyond federal regulatory and statutory compliance requirements to protect and manage approximately 28 million acres of DoD land.

<b>Grant/Project and Description</b>	<b>CFDA</b>	<b>Grantor</b>	<b>AFIS ID</b>	<b>2018 Received</b>	<b>2019 Est. Rev.</b>	<b>2020 Est. Rev.</b>	<b>Footnote(s)</b>
<b>Epidemiology and Laboratory Capacity for Infectious Diseases (ELC)</b>	<b>93.323</b>	<b>Department of Health and Human Services</b>	<b>HSA14026</b>	<b>2,332.5</b>	<b>2,477.1</b>	<b>2,477.1</b>	<b>.6</b>

The purpose of this program is to protect the public health and safety of the American people by enhancing the capacity of public health agencies to effectively detect, respond, prevent and control known and emerging (or re-emerging) infectious diseases. This is accomplished by providing financial and technical resources to (1) strengthen epidemiologic capacity; (2) enhance laboratory capacity; (3) improve information systems; and (4) enhance collaboration among epidemiology, laboratory, and information systems components of public health departments.

<u>Performance Measures</u>	<u>2018</u>	<u>2019</u>	<u>2020</u>
Percentage of funding utilized in the budget period (Funding Utilization Ratio)	80%	62%	62%
The funding utilization ratio is used to measure the administrative efficiency of the grant. The ratio compares the percentage of grant expenditure and encumbrance as of the fiscal year end with the percentage of budget period elapsed by the end of fiscal year.			

<b>Grants to States for Loan Repayment Program</b>	<b>93.165</b>	<b>Department of Health and Human Services</b>	<b>HSA15023</b>	<b>213.1</b>	<b>208.5</b>	<b>208.5</b>	<b>.2, 6</b>
--	---------------	--	-----------------	--------------	--------------	--------------	--------------

To increase the availability of primary health care in health professional shortage areas (HPSAs) by assisting States in operating programs for the repayment of educational loans of health professionals in return for their practice in HPSAs.

<u>Performance Measures</u>	<u>2018</u>	<u>2019</u>	<u>2020</u>
Percentage of funding utilized in the budget period (Funding Utilization Ratio)	98%	104%	104%
The funding utilization ratio is used to measure the administrative efficiency of the grant. The ratio compares the percentage of grant expenditure and encumbrance as of the fiscal year end with the percentage of budget period elapsed by the end of fiscal year.

<b>Grant/Project and Description</b>	<b>CFDA</b>	<b>Grantor</b>	<b>AFIS ID</b>	<b>2018 Received</b>	<b>2019 Est. Rev.</b>	<b>2020 Est. Rev.</b>	<b>Footnote(s)</b>
<b>WIC Grants To States (WGS)</b>	<b>10.578</b>	<b>Department of Agriculture</b>	HSA15056	2,457.0	611.0	0.0	.2, 6

To provide grants to WIC State agencies to plan, design and implement WIC electronic benefit transfer (EBT) systems so that Program benefits can be provided electronically. To provide grants to WIC State agencies to fund, implement, and evaluate innovative technology projects that improve WIC services. To provide grants to WIC State agencies to plan, design, implement, enhance or transfer management information (MIS) systems. Please note the following grant activities:

1. WIC EBT Amendments (non-competitive). Grant funds for WIC EBT amendments are provided to WIC State agencies to support on-going EBT planning or implementation projects. These projects were originally funded through a competitive process using WIC technology or American Recovery and Reinvestment Act funds. Many WIC State agencies received only partial funding in their original grant award and amendments provide the additional funds needed to ensure all activities are completed and projects are successful.
2. WIC EBT Implementation (non-competitive). Implementation grant funds are provided to WIC State agencies to enhance and modify current management information systems to support EBT, conduct cost evaluations, and develop retailer management plans.
3. WIC State Agency Model (SAM) Amendments (non-competitive). Grant funds for WIC SAM amendments are provided to support WIC State agencies that are either part of the original SAM consortia, or those that need additional funding to complete implementation of a SAM transfer system. These funds are used by WIC State agencies for implementation completion as well as system enhancements through the SAM user group process.
4. WIC EBT Planning Grants (non-competitive). EBT Planning grants funds are provided to WIC State agencies to assess the feasibility of EBT for their State, as well as to perform a cost analysis to verify EBT affordability. The planning process is a WIC requirement prior to EBT implementation and looks at WIC Information System capabilities, retailer capabilities, and baseline paper cost compared to EBT operational cost within the State to better prepare for the challenges of EBT implementation. WIC State agencies must analyze both on-line and off-line EBT technologies to assess the most cost-effective solution.
5. WIC Technical Innovation Grants (competitive). WIC Technical Innovation grant funds are provided to WIC State agencies for the development of standardized reporting, retailer certification test scripts, and development of a web-based Internet system that will allow WIC participants to access grocer's websites, select WIC approved foods and purchase them with their EBT card from the convenience of their homes.
6. WIC SAM Transfers Grants (non-competitive). SAM Transfer grant funds are provided to WIC State agencies that have completed their planning activities, and have an approved Alternatives Analysis document that justifies a SAM as their choice of system transfer. Funds are used for implementation activities.

<b>Grant/Project and Description</b>	<b>CFDA</b>	<b>Grantor</b>	<b>AFIS ID</b>	<b>2018 Received</b>	<b>2019 Est. Rev.</b>	<b>2020 Est. Rev.</b>	<b>Footnote(s)</b>
<b>WIC Grants To States (WGS)</b>	<b>10.578</b>	<b>Department of Agriculture</b>	HSA15056	2,457.0	611.0	0.0	.2, 6

7. WIC MIS Amendments (non-competitive). Grant funds for WIC MIS amendments are provided to support WIC State agencies that have already received grant funding for their MIS projects. This includes planning for and transferring of an existing system, or developing a new system.

8. WIC MIS Implementation (non-competitive). WIC MIS Implementation grant funds are provided to WIC State agencies that are implementing a new MIS, or are upgrading/enhancing their current MIS. Activities included are design and development, testing, training and data conversion.

9. WIC MIS Planning (non-competitive). WIC MIS Planning grant funds are provided to WIC State agencies to assess their current system, complete a feasibility study and cost analysis as well as prepare a Request for Proposal for an implementation contractor.

To provide grants to WIC State agencies that improve and/or enhance nutrition services of the WIC program. WIC awards State agencies the following grants:

1. WIC Breastfeeding Peer Counseling Funds (discretionary). WIC Breastfeeding Peer Counseling Funds are intended to enable State agencies to implement or maintain effective breastfeeding peer counselor programs. Combining peer counseling with the on-going breastfeeding promotion efforts in WIC agencies has the potential to significantly impact breastfeeding rates among WIC participants. The Food and Nutrition Service's long-range vision is to institutionalize peer counseling as a core service in WIC.

2. WIC Special Projects Grants (discretionary). WIC Special Projects Grants are awarded to state agencies for special State projects of regional or national significance to improve the services of the program. Current projects focused on FNS' Revitalizing Quality Nutrition Services (RQNS) in WIC initiatives. The goal is to improve and strengthen the effectiveness of WIC nutrition services. Full grants are awarded to States to evaluate ongoing initiatives aimed at improving these services. Full Project grants and WIC Concept Papers grants are awarded to States under the WIC Special Project Funds.

<u>Performance Measures</u>	<u>2018</u>	<u>2019</u>	<u>2020</u>
Percentage of funding utilized in the budget period (Funding Utilization Ratio)	151%	82%	100%
The funding utilization ratio is used to measure the administrative efficiency of the grant. The ratio compares the percentage of grant expenditure and encumbrance as of the fiscal year end with the percentage of budget period elapsed by the end of fiscal year.

<b>Environmental Public Health and Emergency Response</b>	<b>93.070</b>	<b>Department of Health and Human Services</b>	<b>HSA15063</b>	(0.2)	0.0	0.0	. <sup>2</sup>

To bring public health and epidemiologic principles together to identify, clarify, and reduce the impact of complex environmental threats, including terrorist threats and natural disasters, on populations, domestic and foreign. These programs and activities focus on safeguarding the health of people from environmental threats; providing leadership in the use of environmental health sciences-including environmental epidemiology, environmental sanitation, and laboratory sciences-to protect public health; and responding to issues and sharing solutions to environmental health problems worldwide. To accomplish the above, the CDC: (1) conducts surveillance and investigations that increase the knowledge about the relation between human health and environmental threats; (2) uses this knowledge to develop national public health programs and policies to prevent or control public health problems; (3) plans, prepares, and responds to emergencies, including terrorist threats, technologic accidents, and natural disasters; (4) provides direct service delivery to partners engaged in environmental health services such as food, safety, rodent control, water quality, and sanitation; (5) develops and applies laboratory science to prevent disease and death caused by exposure to environmental chemicals and to improve the diagnosis, treatment, and prevention of selected chronic diseases; (6) conducts Biomonitoring to assess individual human exposure to environmental chemicals by measuring them in human specimens (e.g. blood and urine); and, (7) conducts activities on emerging environmental threats such as climate change and the built environment.

<b>WIC Grants To States (WGS)</b>	<b>10.578</b>	<b>Department of Agriculture</b>	<b>HSA15086</b>	65.6	21.1	0.0	.2, 6

To provide grants to WIC State agencies to plan, design and implement WIC electronic benefit transfer (EBT) systems so that Program benefits can be provided electronically. To provide grants to WIC State agencies to fund, implement, and evaluate innovative technology projects that improve WIC services. To provide grants to WIC State agencies to plan, design, implement, enhance or transfer management information (MIS) systems. Please note the following grant activities:

1. WIC EBT Amendments (non-competitive). Grant funds for WIC EBT amendments are provided to WIC State agencies to support on-going EBT planning or implementation projects. These projects were originally funded through a competitive process using WIC technology or American Recovery and Reinvestment Act funds. Many WIC State agencies received only partial funding in their original grant award and amendments provide the additional funds needed to ensure all activities are completed and projects are successful.
2. WIC EBT Implementation (non-competitive). Implementation grant funds are provided to WIC State agencies to enhance and modify current management information systems to support EBT, conduct cost evaluations, and develop retailer management plans.
3. WIC State Agency Model (SAM) Amendments (non-competitive). Grant funds for WIC SAM amendments are provided to support WIC State agencies that are either part of the original SAM consortia, or those that need additional funding to complete implementation of a SAM transfer system. These funds are used by WIC State agencies for implementation completion as well as system enhancements through the SAM user group process.
4. WIC EBT Planning Grants (non-competitive). EBT Planning grants funds are provided to WIC State agencies to assess the feasibility of EBT for their State, as well as to perform a cost analysis to verify EBT affordability. The planning process is a WIC requirement prior to EBT implementation and looks at WIC Information System capabilities, retailer capabilities, and baseline paper cost compared to EBT operational cost within the State to better prepare for the challenges of EBT implementation. WIC State agencies must analyze both on-line and off-line EBT technologies to assess the most cost-effective solution.
5. WIC Technical Innovation Grants (competitive). WIC Technical Innovation grant funds are provided to WIC State agencies for the development of standardized reporting, retailer certification test scripts, and development of a web-based Internet system that will allow WIC participants to access grocer's websites, select WIC approved foods and purchase them with their EBT card from the convenience of their homes.
6. WIC SAM Transfers Grants (non-competitive). SAM Transfer grant funds are provided to WIC State agencies that have completed their planning activities, and have an approved Alternatives Analysis document that justifies a SAM as their choice of system transfer. Funds are used for implementation activities.

7. WIC MIS Amendments (non-competitive). Grant funds for WIC MIS amendments are provided to support WIC State agencies that have already received grant funding for their MIS projects. This includes planning for and transferring of an existing system, or developing a new system.

8. WIC MIS Implementation (non-competitive). WIC MIS Implementation grant funds are provided to WIC State agencies that are implementing a new MIS, or are upgrading/enhancing their current MIS. Activities included are design and development, testing, training and data conversion.

9. WIC MIS Planning (non-competitive). WIC MIS Planning grant funds are provided to WIC State agencies to assess their current system, complete a feasibility study and cost analysis as well as prepare a Request for Proposal for an implementation contractor.

To provide grants to WIC State agencies that improve and/or enhance nutrition services of the WIC program. WIC awards State agencies the following grants:

1. WIC Breastfeeding Peer Counseling Funds (discretionary). WIC Breastfeeding Peer Counseling Funds are intended to enable State agencies to implement or maintain effective breastfeeding peer counselor programs. Combining peer counseling with the on-going breastfeeding promotion efforts in WIC agencies has the potential to significantly impact breastfeeding rates among WIC participants. The Food and Nutrition Service's long-range vision is to institutionalize peer counseling as a core service in WIC.

2. WIC Special Projects Grants (discretionary). WIC Special Projects Grants are awarded to state agencies for special State projects of regional or national significance to improve the services of the program. Current projects focused on FNS' Revitalizing Quality Nutrition Services (RQNS) in WIC initiatives. The goal is to improve and strengthen the effectiveness of WIC nutrition services. Full grants are awarded to States to evaluate ongoing initiatives aimed at improving these services. Full Project grants and WIC Concept Papers grants are awarded to States under the WIC Special Project Funds.

<b>Centers for Disease Control and Prevention_Investigations and Technical Assistance</b>	<b>93.283</b>	<b>Department of Health and Human Services</b>	HSA15503	4.0	0.0	0.0	. 2, 6, 8
<p>To assist State and local health authorities and other health related organizations in controlling communicable diseases, chronic diseases and disorders, and other preventable health conditions. Investigations and evaluation of all methods of controlling or preventing disease and disability are carried out by providing epidemic aid, surveillance, technical assistance, consultation, and program support; and by providing leadership and coordination of joint national, State, and local efforts. STEPS- To enable communities to reduce the burden of chronic disease, including: preventing diabetes among populations with pre-diabetes; increasing the likelihood that persons with undiagnosed diabetes are diagnosed; reducing complications of diabetes; preventing overweight and obesity; reducing overweight and obesity; and reducing the complications of asthma. STEPS will achieve these outcomes by improving nutrition; increasing physical activity; preventing tobacco use and exposure, targeting adults who are diabetic or who live with persons with asthma; increasing tobacco cessation, targeting adults who are diabetic or who live with persons with asthma; increasing use of appropriate health care services; improving the quality of care; and increasing effective self-management of chronic diseases and associated risk factors. REACH - REACH U.S. supports community coalitions that design, implement, evaluate, and disseminate community-driven strategies to eliminate health disparities Racial and ethnic groups targeted include: African American/Black, American Indian/Alaska Native, Asian, Native Hawaiian/Other Pacific Islander, and Hispanic/Latino. Health priority areas include: breast and cervical cancer; cardiovascular disease; diabetes mellitus; adult/older adult immunization, hepatitis B, and/or tuberculosis; asthma; and infant mortality.</p> <p>Vulnerable Populations: The purpose of this program is to reduce morbidity, premature mortality, and eliminate health disparities associated with diabetes. This will be done by funding organizations to mobilize community partners and assist them to effectively plan, develop,implement, and evaluate community-based interventions to reduce the risk factors that influence the disproportionate burden of diabetes in vulnerable populations borne by many communities in regions across the country.</p>

This program supports state programs for reducing the loss to follow-up of infants who have not passed a physiologic newborn hearing screening examination prior to discharge from the newborn nursery. Although more than 95% of newborns are screened for hearing loss in the first few days of life, nationally about 20-40% of infants for whom further assessment is indicated cannot be documented as having appropriate follow-up. This funding opportunity is to initiate new activities to significantly reduce this loss to follow-up. Support is also provided to one national technical resource center.

Grant/Project and Description	CFDA	Grantor	AFIS ID	2018 Received	2019 Est. Rev.	2020 Est. Rev.	Footnote(s)
<b>Capacity Building Assistance to Strengthen Public Health Immunization Infrastructure and Performance – financed in part by the Prevention and Public Health Fund (PPHF-2012)</b>	<b>93.733</b>	<b>Department of Health and Human Services</b>	HSA15541	(0.7)	0.0	0.0	.2, 6

This program will improve the efficiency, effectiveness, and/or quality of immunization practices by strengthening the immunization information technology infrastructure, building capacity for public health department insurance billing, and expanding immunization delivery partnerships so that more children, adolescents, and adults are protected against vaccine-preventable diseases. The specific objectives may include but are not limited to:

1. Develop strategic plans for billing for immunization services in health department clinics;
2. Enhance interoperability between electronic health records (EHRs) and Immunization Information Systems (IIS) and reception of HL7 standard messages in IIS;
3. Develop a vaccine ordering module in an immunization information system that interfaces with CDC's VTrckS vaccine ordering and management system;
4. Vaccine barcode improvement to improve the system functions to capture data from 2-D barcodes on vaccine vials and syringes as well as improve data capture from the Vaccine Information Statements;
5. Improve vaccine management, storage and handling at provider and grantee level;
6. Use immunization information systems to improve adolescent vaccination coverage;
7. Conduct hepatitis B vaccination pilot to reduce the incidence of acute hepatitis B infection among adults through targeted hepatitis B vaccination of adults who present for medical care in high risk settings or who have behaviors that increase their risk of hepatitis B virus (HBV) infection;
8. Conduct school vaccination assessment evaluation to implement substantial improvements in the quality of kindergarten coverage and exemption data collected at state and local levels while building state and local area capacity;
9. Use immunization information systems to conduct small area analysis of vaccination coverage.

<b>The Affordable Care Act: Building Epidemiology, Laboratory, and Health Information Systems Capacity in the Epidemiology and Laboratory Capacity for Infectious Disease (ELC) and Emerging Infections Program (EIP) Cooperative Agreements;PPHF</b>	<b>93.521</b>	<b>Department of Health and Human Services</b>	HSA15558	479.9	41.3	0.0	.6

The Prevention and Public Health Fund (Title IV, Section 4002) was established under the Patient Protection and Affordable Care Act to provide for expanded and sustained national investment in prevention and public health programs to improve health and help restrain the rate of growth in private and public sector health care costs. The Epidemiology and Laboratory Capacity for Infectious Diseases (ELC) and Emerging Infections Program (EIP) cooperative agreements were formed in 1995 as key components of CDC's national strategy to address and reduce emerging infectious disease (EID) threats. The programs play a critical role in strengthening national infectious disease infrastructure by serving as collaborative platforms for state and local health departments, CDC programs, and academic and various other public health partners to improve the ability to detect and respond to EIDs and other public health threats. Specifically, the programs build epidemiology, laboratory, and information systems capacity, integrate epidemiology and laboratory practice, implement active surveillance, and conduct targeted research aimed at improving methods and informing national surveillance and response activities. Overall, additional funds from multiple sources including PPHF will allow ELC and EIP partner agencies to substantially address gaps in EID epidemiology and laboratory capacity (e.g. number and training level of epi and lab staff, efficient/functional information systems, etc).

<u>Performance Measures</u>	<u>2018</u>	<u>2019</u>	<u>2020</u>
Percentage of funding utilized in the budget period (Funding Utilization Ratio)	114%	94%	94%
The funding utilization ratio is used to measure the administrative efficiency of the grant. The ratio compares the percentage of grant expenditure and encumbrance as of the fiscal year end with the percentage of budget period elapsed by the end of fiscal year.

<b>State Vital Statistics Improvement Program</b>	<b>93.066</b>	<b>Department of Health and Human Services</b>	HSA15613	282.6	244.4	244.4	. <sup>2</sup>

To improve the timeliness, quality and sustainability of the de-centralized vital statistics system by adopting nationally-developed, consensus standards and guidelines; by actively working with states to re-engineer their state-owned and operated systems using these standards/guidelines; and by improving the efficiency of business operations of state vital statistics programs. Working collaboratively between State and Federal agencies, the goal is to facilitate the development and implementation of re-engineered systems in all 57 registration areas. These will be systems that can: (1) provide quality and timely data for public health surveillance and medical research; (2) meet citizen needs for legal copies of their birth and death records, including providing paper copies of records to citizens for their immediate legal or personal use, and at citizens' request, transferring records electronically to local, State or Federal agencies to satisfy an agency's need for a record; meet Federal agencies' needs for record verification and authentication; (3) result in comparable vital registration/statistics systems in each state; (4) use national standards and guidelines, including the 2003 revision of the U.S. Standard Certificates of Birth and Death and the Report of Fetal Death, the ICD-10 classification system, the FIPS geographic coding scheme, and the standard HL-7 vital events messaging; (5) support national security and privacy requirements; (6) integrate or harmonize easily with other public health systems such as Public Health Information Network (PHIN), immunization registries, and newborn screening, and (7) use Internet technology.

<b>Maternal and Child Health Federal Consolidated Programs</b>	<b>93.110</b>	<b>Department of Health and Human Services</b>	HSA15632	53.0	0.0	0.0	.6

To carry out special maternal and child health (MCH) projects of regional and national significance; to conduct training and research; to conduct genetic disease testing, counseling, and information development and dissemination programs; for grants relating to hemophilia without regard to age; and for the screening of newborns for sickle cell anemia, and other genetic disorders. and to support comprehensive hemophilia diagnostic and treatment centers. These grants are funded with a set-aside from the MCH Block grant program. SPRANS grants are funded with 15 percent of the Block Grant appropriation of up to \$600 million. When the appropriation exceeds \$600 million, 12.75 percent of the amount over \$600 million is set aside for the Community Integrated Service Systems grants. 15 percent of the balance remaining over \$600 million is also for SPRANS. The CISS program is to develop and expand the following: (1) Home visitation; (2) increased participation of obstetricians and pediatricians; (3) integrated service delivery systems; (4) maternal and child health centers for women and infants, under the direction of a not-for-profit hospital; (5) services for rural populations; and (6) community-based services for children with special health care needs in order to enhance or develop an integrated services system. In FY 2008 Congress first funded the Combating Autism Act program, which is for early detection, education and intervention activities on autism and other developmental disorders.

First funded in 2004, the Heritable Disorders Program is established to improve the ability of States to provide newborn and child screening for heritable disorders and affect the lives of all of the nation's infants and children. Newborn and child screening occur at intervals across the life span of every child. Newborn screening universally provides early identification and follow-up for treatment of infants affected by certain genetic, metabolic, hormonal and/or functional conditions. It is expected that newborn and child screening will expand as the capacity to screen for genetic and congenital conditions expands.

First funded in 2009, the Congenital Conditions program is established to provide information and support services to women and their families that have received a diagnosis for Down Syndrome, Spina Bifida, Dwarfism and other prenatally or postnatally diagnosed conditions.

<b>State Public Health Approaches for Ensuring Quitline Capacity – Funded in part by 2012 Prevention and Public Health Funds (PPHF-2012)</b>	<b>93.735</b>	<b>Department of Health and Human Services</b>	<b>HSA15657</b>	<b>0.0</b>	<b>0.0</b>	<b>0.0</b>	<b>.2, 6</b>

As part of the overall effort to reduce the burden of chronic diseases and chronic disease risk factors, the Centers for Disease Control and Prevention (CDC), National Center for Chronic Disease Prevention and Health Promotion (NCCDPHP), Office on Smoking and Health (OSH) announces the opportunity to apply for funds to ensure and support state quitline capacity, in order to respond to upcoming federal initiatives such as the National Tobacco Education Campaign. <http://www.cdc.gov/tobacco>. This program addresses the “Healthy People 2020” focus area of tobacco use and the goal of reducing illness, disability, and death related to tobacco use and secondhand smoke exposure. Preventing tobacco use and helping tobacco users quit can improve the health and quality of life for Americans of all ages. People who stop smoking greatly reduce their risk of disease and premature death. Benefits are greater for people who stop at earlier ages, but quitting tobacco use is beneficial at any age. This FOA will be a new, 2-year cooperative agreement for all states and territories that currently have a quitline. Funds will be used for the following:

- Address the anticipated increase in calls
- Expand capacity and eligibility to ensure all callers receive some form of assistance
- Increase efficiencies of quitline operations, such as demonstrating how they will connect to or incorporate an interactive voice recording system (IVR) at the state or federal level
- Incorporate technological enhancements to provide additional forms of assistance to callers who want to quit
- Expand paid and earned media to promote the quitline and increase quit attempts
- Develop and/or implement private/public partnerships or other strategies to sustain quitline capacity.

To assist State and local health agencies in carrying out tuberculosis (TB) control activities designed to prevent transmission of infection and disease. Financial assistance is provided to TB programs to ensure that the program needs for the core TB prevention and control activities are met: finding all cases of active tuberculosis and ensuring completion of therapy; finding and screening persons who have had contact with TB patients, evaluating them for TB infection and disease, and ensuring completion of appropriate treatment, and conducting TB surveillance and TB public health laboratory activities that are essential to addressing these priorities. Each of these core activities (completion of therapy, contact investigation, TB surveillance, and TB laboratory activities) is essential to effective TB prevention and control, and they are mutually reinforcing. Thus, they constitute a 'package' of core activities. These are the highest priority TB prevention and control activities and should be carried out by all State and local TB prevention and control programs.

<b>Grant/Project and Description</b>	<b>CFDA</b>	<b>Grantor</b>	<b>AFIS ID</b>	<b>2018 Received</b>	<b>2019 Est. Rev.</b>	<b>2020 Est. Rev.</b>	<b>Footnote(s)</b>
<b>State Vital Statistics Improvement Program</b>	<b>93.066</b>	<b>Department of Health and Human Services</b>	<b>HSA15712</b>	<b>596.2</b>	<b>14.6</b>	<b>14.6</b>	<b>.2, 6</b>

To improve the timeliness, quality and sustainability of the de-centralized vital statistics system by adopting nationally-developed, consensus standards and guidelines; by actively working with states to re-engineer their state-owned and operated systems using these standards/guidelines; and by improving the efficiency of business operations of state vital statistics programs. Working collaboratively between State and Federal agencies, the goal is to facilitate the development and implementation of re-engineered systems in all 57 registration areas. These will be systems that can: (1) provide quality and timely data for public health surveillance and medical research; (2) meet citizen needs for legal copies of their birth and death records, including providing paper copies of records to citizens for their immediate legal or personal use, and at citizens' request, transferring records electronically to local, State or Federal agencies to satisfy an agency's need for a record; meet Federal agencies' needs for record verification and authentication; (3) result in comparable vital registration/statistics systems in each state; (4) use national standards and guidelines, including the 2003 revision of the U.S. Standard Certificates of Birth and Death and the Report of Fetal Death, the ICD-10 classification system, the FIPS geographic coding scheme, and the standard HL-7 vital events messaging; (5) support national security and privacy requirements; (6) integrate or harmonize easily with other public health systems such as Public Health Information Network (PHIN), immunization registries, and newborn screening, and (7) use Internet technology.

<u>Performance Measures</u>	<u>2018</u>	<u>2019</u>	<u>2020</u>

Program activities under this funding will allow for CDC to partner with multiple organizations to benefit individuals by substantially reducing viral hepatitis transmission, identifying those that are acutely and chronically infected, and linking infected individuals with treatment if appropriate. Specifically, the program activities may include but are not limited to:

1. Increasing the proportion of persons living with HCV and HBV who are aware of their infection and referred for prevention and clinical care services.
2. Expanding and improving efforts to develop and disseminate viral hepatitis training and educational materials targeting the public and private sector health care professionals to build capacity to assess, test and medically manage populations at risk for chronic HCV and HBV infection.
3. Supporting state and local health departments and other organizations in linking HCV infected persons to community health centers, clinics serving injection drug users, and other health organizations seeing individuals potentially infected with chronic viral hepatitis.
4. Additional support will be provided for program monitoring, evaluation, capacity building, and technical assistance, along with support for acute and chronic viral hepatitis surveillance.

<b>Domestic Ebola Supplement to the Epidemiology and Laboratory Capacity for Infectious Diseases (ELC).</b>	<b>93.815</b>	<b>Department of Health and Human Services</b>	<b>HSA16009</b>	<b>395.8</b>	<b>296.7</b>	<b>0.0</b>	<b>.2, 6</b>
---	---------------	--	-----------------	--------------	--------------	------------	--------------

This ELC Competing Supplement addresses priority domestic capacity building around Ebola and other emerging and highly-infectious diseases. The Competing Supplement (1) provides additional resources to accelerate ELC activities around infection control assessment and response, laboratory safety, and global migration, border interventions, and migrant health; and (2) aligns with ELC's existing purpose which is to protect the public health and safety of the American people by enhancing the capacity of public health agencies to effectively detect, respond, prevent and control known and emerging (or re-emerging) infectious diseases. This is accomplished by providing financial and technical resources to (1) strengthen epidemiologic capacity; (2) enhance laboratory capacity; (3) improve information systems; and (4) enhance collaboration among epidemiology, laboratory, and information systems components of public health departments.

This cooperative agreement program addresses tobacco use and secondhand smoke exposure in the United States and supports four National Tobacco Control Program goals to (1) Prevent initiation of tobacco use among youth and young adults; (2) Eliminate exposure to secondhand smoke; (3) Promote quitting among adults and youth; and (4) Identify and eliminate tobacco related disparities. Achievement of these goals will reduce chronic disease morbidity, mortality, and disability related to tobacco use and secondhand smoke exposure. This cooperative agreement program relates to Healthy People 2020 objectives in the topic area of Tobacco Use. In addition, this cooperative agreement program supports the Government Performance Results Modernization Act Long-term Objective 4.6: Reduce Death and Disability Due to Tobacco and the following measures: Tobacco Measure: 4.6 - Reduce death and disability due to tobacco use; 4.6.2 - Reduce per capita cigarette consumption in the U.S. per adult age 18+; 4.6.3 - Reduce the proportion of adults (age 18 and over) who are current cigarette smokers; 4.6.4 – Increase the proportion of the U.S. population covered by comprehensive state and/or local laws making workplaces, restaurants, and bars 100% smoke free (no smoking allowed, no exceptions); 4.6.5 - Reduce the proportion of adolescents (grade 9-12) who are current cigarette smokers. Furthermore, this cooperative agreement program supports national public health priorities and strategic plans including: (1) Centers for Disease Control’s Winnable Battles; (2) Department of Health and Human Service’s Ending the Tobacco Epidemic and Strategic Plan; (3) National Prevention Council’s National Prevention Strategy; (4) Institute of Medicine’s, Ending the Tobacco Problem; and (5) numerous Surgeon General Reports.

<u>Performance Measures</u>	<u>2018</u>	<u>2019</u>	<u>2020</u>
Percentage of funding utilized in the budget period (Funding Utilization Ratio)	103%	109%	109%

To assist State and local health authorities and other health related organizations in controlling communicable diseases, chronic diseases and disorders, and other preventable health conditions. Investigations and evaluation of all methods of controlling or preventing disease and disability are carried out by providing epidemic aid, surveillance, technical assistance, consultation, and program support; and by providing leadership and coordination of joint national, State, and local efforts. STEPS- To enable communities to reduce the burden of chronic disease, including: preventing diabetes among populations with pre-diabetes; increasing the likelihood that persons with undiagnosed diabetes are diagnosed; reducing complications of diabetes; preventing overweight and obesity; reducing overweight and obesity; and reducing the complications of asthma. STEPS will achieve these outcomes by improving nutrition; increasing physical activity; preventing tobacco use and exposure, targeting adults who are diabetic or who live with persons with asthma; increasing tobacco cessation, targeting adults who are diabetic or who live with persons with asthma; increasing use of appropriate health care services; improving the quality of care; and increasing effective self-management of chronic diseases and associated risk factors. REACH - REACH U.S. supports community coalitions that design, implement, evaluate, and disseminate community-driven strategies to eliminate health disparities Racial and ethnic groups targeted include: African American/Black, American Indian/Alaska Native, Asian, Native Hawaiian/Other Pacific Islander, and Hispanic/Latino. Health priority areas include: breast and cervical cancer; cardiovascular disease; diabetes mellitus; adult/older adult immunization, hepatitis B, and/or tuberculosis; asthma; and infant mortality.

Vulnerable Populations: The purpose of this program is to reduce morbidity, premature mortality, and eliminate health disparities associated with diabetes. This will be done by funding organizations to mobilize community partners and assist them to effectively plan, develop, implement, and evaluate community-based interventions to reduce the risk factors that influence the disproportionate burden of diabetes in vulnerable populations borne by many communities in regions across the country.

Grant/Project and Description	CFDA	Grantor	AFIS ID	2018 Received	2019 Est. Rev.	2020 Est. Rev.	Footnote(s)
<b>Capacity Building Assistance to Strengthen Public Health Immunization Infrastructure and Performance – financed in part by the Prevention and Public Health Fund (PPHF-2012)</b>	<b>93.733</b>	<b>Department of Health and Human Services</b>	<b>HSA16046</b>	121.0	0.0	0.0	.2, 6

This program will improve the efficiency, effectiveness, and/or quality of immunization practices by strengthening the immunization information technology infrastructure, building capacity for public health department insurance billing, and expanding immunization delivery partnerships so that more children, adolescents, and adults are protected against vaccine-preventable diseases. The specific objectives may include but are not limited to:

1. Develop strategic plans for billing for immunization services in health department clinics;
2. Enhance interoperability between electronic health records (EHRs) and Immunization Information Systems (IIS) and reception of HL7 standard messages in IIS;
3. Develop a vaccine ordering module in an immunization information system that interfaces with CDC's VTrckS vaccine ordering and management system;
4. Vaccine barcode improvement to improve the system functions to capture data from 2-D barcodes on vaccine vials and syringes as well as improve data capture from the Vaccine Information Statements;
5. Improve vaccine management, storage and handling at provider and grantee level;
6. Use immunization information systems to improve adolescent vaccination coverage;
7. Conduct hepatitis B vaccination pilot to reduce the incidence of acute hepatitis B infection among adults through targeted hepatitis B vaccination of adults who present for medical care in high risk settings or who have behaviors that increase their risk of hepatitis B virus (HBV) infection;
8. Conduct school vaccination assessment evaluation to implement substantial improvements in the quality of kindergarten coverage and exemption data collected at state and local levels while building state and local area capacity;
9. Use immunization information systems to conduct small area analysis of vaccination coverage.

<b>Environmental Public Health and Emergency Response</b>	<b>93.070</b>	<b>Department of Health and Human Services</b>	HSA16047	110.0	110.6	110.6	.6

To bring public health and epidemiologic principles together to identify, clarify, and reduce the impact of complex environmental threats, including terrorist threats and natural disasters, on populations, domestic and foreign. These programs and activities focus on safeguarding the health of people from environmental threats; providing leadership in the use of environmental health sciences-including environmental epidemiology, environmental sanitation, and laboratory sciences-to protect public health; and responding to issues and sharing solutions to environmental health problems worldwide. To accomplish the above, the CDC: (1) conducts surveillance and investigations that increase the knowledge about the relation between human health and environmental threats; (2) uses this knowledge to develop national public health programs and policies to prevent or control public health problems; (3) plans, prepares, and responds to emergencies, including terrorist threats, technologic accidents, and natural disasters; (4) provides direct service delivery to partners engaged in environmental health services such as food, safety, rodent control, water quality, and sanitation; (5) develops and applies laboratory science to prevent disease and death caused by exposure to environmental chemicals and to improve the diagnosis, treatment, and prevention of selected chronic diseases; (6) conducts Biomonitoring to assess individual human exposure to environmental chemicals by measuring them in human specimens (e.g. blood and urine); and, (7) conducts activities on emerging environmental threats such as climate change and the built environment.

To work with State health agencies, universities, and public and private nonprofit organizations in planning, implementing coordinating or evaluating programs, research or surveillance activities related to improved birth outcomes, prevention of birth defects, and the improvement of infant and child health and developmental outcomes. To provide a national, State or local focus for the prevention of conditions of persons with birth defects; to employ epidemiological methods to set priorities, build capacity and direct health promotion interventions for persons with birth defects; to expand public health training opportunities through fellowships to introduce geneticists, epidemiologists, and clinicians to public health practice through education, training and career-enhancing experiences. To enhance surveillance and research for birth defects; to prevent congenital heart defects and other major birth defects associated with medication use during pregnancy; to advance neural tube defect prevention; and enhance the quality and usefulness of newborn screening data and programs.

<u>Performance Measures</u>	<u>2018</u>	<u>2019</u>	<u>2020</u>
Percentage of funding utilized in the budget period (Funding Utilization Ratio)	80%	85%	85%
The funding utilization ratio is used to measure the administrative efficiency of the grant. The ratio compares the percentage of grant expenditure and encumbrance as of the fiscal year end with the percentage of budget period elapsed by the end of fiscal year.			

<b>Sexual Assault Services Formula Program</b>	<b>16.017</b>	<b>Department of Justice</b>	<b>HSA16064</b>	<b>83.0</b>	<b>0.0</b>	<b>0.0</b>	<b>.2, 6</b>
To increase intervention, advocacy, accompaniment, support services, and related assistance for adult, youth, and child victims of sexual assault; family and household members of such victims; and those collaterally affected by the victimization, except for the perpetrator of such victimization.							

<u>Performance Measures</u>	<u>2018</u>	<u>2019</u>	<u>2020</u>

To assist State and local health authorities and other health related organizations in controlling communicable diseases, chronic diseases and disorders, and other preventable health conditions. Investigations and evaluation of all methods of controlling or preventing disease and disability are carried out by providing epidemic aid, surveillance, technical assistance, consultation, and program support; and by providing leadership and coordination of joint national, State, and local efforts. STEPS- To enable communities to reduce the burden of chronic disease, including: preventing diabetes among populations with pre-diabetes; increasing the likelihood that persons with undiagnosed diabetes are diagnosed; reducing complications of diabetes; preventing overweight and obesity; reducing overweight and obesity; and reducing the complications of asthma. STEPS will achieve these outcomes by improving nutrition; increasing physical activity; preventing tobacco use and exposure, targeting adults who are diabetic or who live with persons with asthma; increasing tobacco cessation, targeting adults who are diabetic or who live with persons with asthma; increasing use of appropriate health care services; improving the quality of care; and increasing effective self-management of chronic diseases and associated risk factors. REACH - REACH U.S. supports community coalitions that design, implement, evaluate, and disseminate community-driven strategies to eliminate health disparities Racial and ethnic groups targeted include: African American/Black, American Indian/Alaska Native, Asian, Native Hawaiian/Other Pacific Islander, and Hispanic/Latino. Health priority areas include: breast and cervical cancer; cardiovascular disease; diabetes mellitus; adult/older adult immunization, hepatitis B, and/or tuberculosis; asthma; and infant mortality.

Vulnerable Populations: The purpose of this program is to reduce morbidity, premature mortality, and eliminate health disparities associated with diabetes. This will be done by funding organizations to mobilize community partners and assist them to effectively plan, develop, implement, and evaluate community-based interventions to reduce the risk factors that influence the disproportionate burden of diabetes in vulnerable populations borne by many communities in regions across the country.

<b>PPHF 2012 - Prevention and Public Health Fund (Affordable Care Act) - Capacity Building Assistance to Strengthen Public Health Immunization Infrastructure and Performance financed in part by 2012 Prevention and Public Health Funds</b>	<b>93.539</b>	<b>Department of Health and Human Services</b>	<b>HSA16090</b>	<b>4,111.2</b>	<b>4,577.7</b>	<b>4,577.7</b>	<b>. 6, 8</b>

Program activities under this funding will support efforts to transition immunization programs supported by Section 317 funding to the healthcare environment being transformed by the Affordable Care Act (ACA). Section 317 grantees manage the public health force that implements and supports immunization practices in the public and private sectors. Additionally, the importance of monitoring the effectiveness and impact of vaccines is critical for maintaining an immunization program that is scientifically and programmatically sound. The specific objectives may include but are not limited to: 1. Enhance interoperability between electronic health records and immunization information systems and reception of Health Level 7 (HL7) standard messages into IIS. 2. Develop a vaccine ordering module in an immunization information system that interfaces with CDC's VTrckS vaccine ordering and management system. 3. Develop and/or implement strategic plans for billing for immunization services in health department clinics to enable programs to increase program revenue, reach additional populations, provide recommended vaccines that are not currently offered, and address under-vaccinated populations. 4. Plan and implement adult immunization programs to improve adult immunization rates by establishing collaborations with employers and pharmacies and other healthcare entities to expand adult vaccination activities. 5. Enhance the sustainability of school-located vaccination (SLV) to make SLV programs successful, efficient, and sustainable through new technologies and innovative systems and third-party payer billing to recover program costs. 6. Increase Human Papillomavirus (HPV) vaccination coverage rates among adolescents.

<b>State Vital Statistics Improvement Program</b>	<b>93.066</b>	<b>Department of Health and Human Services</b>	HSA16093	87.9	62.5	62.5	. <sup>2</sup>

To improve the timeliness, quality and sustainability of the de-centralized vital statistics system by adopting nationally-developed, consensus standards and guidelines; by actively working with states to re-engineer their state-owned and operated systems using these standards/guidelines; and by improving the efficiency of business operations of state vital statistics programs. Working collaboratively between State and Federal agencies, the goal is to facilitate the development and implementation of re-engineered systems in all 57 registration areas. These will be systems that can: (1) provide quality and timely data for public health surveillance and medical research; (2) meet citizen needs for legal copies of their birth and death records, including providing paper copies of records to citizens for their immediate legal or personal use, and at citizens' request, transferring records electronically to local, State or Federal agencies to satisfy an agency's need for a record; meet Federal agencies' needs for record verification and authentication; (3) result in comparable vital registration/statistics systems in each state; (4) use national standards and guidelines, including the 2003 revision of the U.S. Standard Certificates of Birth and Death and the Report of Fetal Death, the ICD-10 classification system, the FIPS geographic coding scheme, and the standard HL-7 vital events messaging; (5) support national security and privacy requirements; (6) integrate or harmonize easily with other public health systems such as Public Health Information Network (PHIN), immunization registries, and newborn screening, and (7) use Internet technology.

To work with State health agencies and other public and private nonprofit organizations in planning, developing, integrating, coordinating, or evaluating programs to prevent and control chronic diseases; assist in monitoring the major behavioral risks associated with the 10 leading causes of premature death and disability in the United States including cardiovascular diseases; and, establish new chronic disease prevention programs like Racial and Ethnic Approaches to Community Health (REACH), State Nutrition, Physical Activity and Obesity Programs (NPAO)

DP08-819/DP13-1317: Purpose - The purpose of the program is to 1) support community use of traditional foods and sustainable ecological approaches for diabetes prevention and health promotion in American Indian and Alaska Native communities; and 2) engage communities in identifying and sharing the stories of healthy traditional ways of eating, being active, and communicating health information and support for diabetes prevention and wellness.

CDC-RFA-DP13-1305, State Public Health Actions to Prevent and Control Diabetes, Heart Disease, Obesity and Associated Risk Factors and Promote School Health, supports statewide implementation of cross-cutting approaches to promote health and prevent and control chronic diseases and their risk factors. Four chronic disease prevention programs (Diabetes; Heart Disease and Stroke Prevention; Nutrition, Physical Activity, and Obesity; and School Health) are included in this FOA. State Health Departments are funded under this FOA to address the following goals:

Short/Intermediate Term Goals:

- Improve state, community, worksite, school, and early childhood environments to promote and reinforce healthful behaviors across the lifespan related to diabetes, cardiovascular health, physical activity, healthful foods and beverages, obesity, and breastfeeding;
- Improve effective delivery and use of quality clinical and other preventive services aimed at preventing and managing diabetes and hypertension; and
- Increase community-clinical linkages to support prevention, self-management, and control of diabetes, hypertension, and obesity.

Long Term Goals:

- Improved prevention and control of hypertension
- Improved prevention and control of diabetes
- Improved prevention and control of overweight and obesity

<b>Assistance Programs for Chronic Disease Prevention and Control</b>	<b>93.945</b>	<b>Department of Health and Human Services</b>	HSA16104	1,233.1	1,234.8	1,234.8	.6

The FOA has two components: 1) A basic non-competitive component to support health promotion, epidemiology, and surveillance activities and targeted strategies that will result in measurable impacts to address school health, nutrition and physical activity risk factors, obesity, diabetes, and heart disease and stroke prevention in all 50 states and the District of Columbia. These efforts will be supported by core public health activities such as partnership engagement, workforce development, guidance and support for programmatic efforts, strategic communication, surveillance and epidemiology, and evaluation; and 2) A competitive enhanced component to build on and extend the activities supported with basic funding to achieve even greater reach and impact. Thirty-two states were funded under the enhanced Component to implement evidence and practice-based interventions to improve physical activity and nutrition, reduce obesity, and prevent and control diabetes, heart disease, and stroke with a focus on high blood pressure. The enhanced component includes implementation of evidence-based strategies that are more extensive and wider-reaching than those implemented in the basic component. States funded for this enhanced component must implement interventions at scale in order to reach large segments of the population in the state (e.g., through school districts, early care and education (ECEs), worksites, and state and local governmental agencies) and in partnership with organizations that may or may not have worked with state departments of health in the past (e.g., large employers, public housing, the education sector, health insurers, and large health systems).

<u>Performance Measures</u>	<u>2018</u>	<u>2019</u>	<u>2020</u>
Percentage of funding utilized in the budget period (Funding Utilization Ratio)	104%	126%	100%

<b>Grant/Project and Description</b>	<b>CFDA</b>	<b>Grantor</b>	<b>AFIS ID</b>	<b>2018 Received</b>	<b>2019 Est. Rev.</b>	<b>2020 Est. Rev.</b>	<b>Footnote(s)</b>
<b>Public Health Emergency Preparedness</b>	<b>93.069</b>	<b>Department of Health and Human Services</b>	<b>HSA16106</b>	3,151.6	0.0	0.0	.2, 6

The PHEP program is a critical source of funding, guidance, and technical assistance for state, territorial, and local public health departments. Preparedness activities funded by the PHEP program are targeted specifically for the development of emergency-ready public health departments that are flexible and adaptable. These efforts support the National Response Framework (NRF), which guides how the nation responds to all types of hazards including infectious disease outbreaks; natural disasters; biological, chemical, and radiological incidents; and explosions.

To help public health departments with their strategic planning, CDC identified 15 public health preparedness capabilities to serve as national public health preparedness standards. State and local jurisdictions can use CDC's Public Health Preparedness Capabilities: National Standards for State and Local Planning to better organize their work and identify the capabilities they have the resources to build or sustain. These standards help ensure that federal preparedness funds are directed to priority areas within individual jurisdictions.

The 2012 PHEP program is currently funded via a joint cooperative agreement award and aligned with the Hospital Preparedness Program (HPP). PHEP program guidance assists the 62 PHEP awardees in demonstrating measurable and sustainable progress toward achieving the 15 public health preparedness capabilities and other activities that promote safer and more resilient communities.

<u>Performance Measures</u>	<u>2018</u>	<u>2019</u>	<u>2020</u>
Percentage of funding utilized in the budget period (Funding Utilization Ratio)	101%	59%	N/A
The funding utilization ratio is used to measure the administrative efficiency of the grant. The ratio compares the percentage of grant expenditure and encumbrance as of the fiscal year end with the percentage of budget period elapsed by the end of fiscal year.			
The calculated performance measure is over 100% because Pass Thru and/or Professional and Outside Services have already been encumbered through the execution of a completed contract, ISA or IGA, and are included in the total expenditures to date.

To bring public health and epidemiologic principles together to identify, clarify, and reduce the impact of complex environmental threats, including terrorist threats and natural disasters, on populations, domestic and foreign. These programs and activities focus on safeguarding the health of people from environmental threats; providing leadership in the use of environmental health sciences-including environmental epidemiology, environmental sanitation, and laboratory sciences-to protect public health; and responding to issues and sharing solutions to environmental health problems worldwide. To accomplish the above, the CDC: (1) conducts surveillance and investigations that increase the knowledge about the relation between human health and environmental threats; (2) uses this knowledge to develop national public health programs and policies to prevent or control public health problems; (3) plans, prepares, and responds to emergencies, including terrorist threats, technologic accidents, and natural disasters; (4) provides direct service delivery to partners engaged in environmental health services such as food, safety, rodent control, water quality, and sanitation; (5) develops and applies laboratory science to prevent disease and death caused by exposure to environmental chemicals and to improve the diagnosis, treatment, and prevention of selected chronic diseases; (6) conducts Biomonitoring to assess individual human exposure to environmental chemicals by measuring them in human specimens (e.g. blood and urine); and, (7) conducts activities on emerging environmental threats such as climate change and the built environment.

<b>WIC Grants To States (WGS)</b>	<b>10.578</b>	<b>Department of Agriculture</b>	HSA17003	48.4	0.0	0.0	.2, 6

To provide grants to WIC State agencies to plan, design and implement WIC electronic benefit transfer (EBT) systems so that Program benefits can be provided electronically. To provide grants to WIC State agencies to fund, implement, and evaluate innovative technology projects that improve WIC services. To provide grants to WIC State agencies to plan, design, implement, enhance or transfer management information (MIS) systems. Please note the following grant activities:

1. WIC EBT Amendments (non-competitive). Grant funds for WIC EBT amendments are provided to WIC State agencies to support on-going EBT planning or implementation projects. These projects were originally funded through a competitive process using WIC technology or American Recovery and Reinvestment Act funds. Many WIC State agencies received only partial funding in their original grant award and amendments provide the additional funds needed to ensure all activities are completed and projects are successful.
2. WIC EBT Implementation (non-competitive). Implementation grant funds are provided to WIC State agencies to enhance and modify current management information systems to support EBT, conduct cost evaluations, and develop retailer management plans.
3. WIC State Agency Model (SAM) Amendments (non-competitive). Grant funds for WIC SAM amendments are provided to support WIC State agencies that are either part of the original SAM consortia, or those that need additional funding to complete implementation of a SAM transfer system. These funds are used by WIC State agencies for implementation completion as well as system enhancements through the SAM user group process.
4. WIC EBT Planning Grants (non-competitive). EBT Planning grants funds are provided to WIC State agencies to assess the feasibility of EBT for their State, as well as to perform a cost analysis to verify EBT affordability. The planning process is a WIC requirement prior to EBT implementation and looks at WIC Information System capabilities, retailer capabilities, and baseline paper cost compared to EBT operational cost within the State to better prepare for the challenges of EBT implementation. WIC State agencies must analyze both on-line and off-line EBT technologies to assess the most cost-effective solution.
5. WIC Technical Innovation Grants (competitive). WIC Technical Innovation grant funds are provided to WIC State agencies for the development of standardized reporting, retailer certification test scripts, and development of a web-based Internet system that will allow WIC participants to access grocer's websites, select WIC approved foods and purchase them with their EBT card from the convenience of their homes.
6. WIC SAM Transfers Grants (non-competitive). SAM Transfer grant funds are provided to WIC State agencies that have completed their planning activities, and have an approved Alternatives Analysis document that justifies a SAM as their choice of system transfer. Funds are used for implementation activities.

7. WIC MIS Amendments (non-competitive). Grant funds for WIC MIS amendments are provided to support WIC State agencies that have already received grant funding for their MIS projects. This includes planning for and transferring of an existing system, or developing a new system.

8. WIC MIS Implementation (non-competitive). WIC MIS Implementation grant funds are provided to WIC State agencies that are implementing a new MIS, or are upgrading/enhancing their current MIS. Activities included are design and development, testing, training and data conversion.

9. WIC MIS Planning (non-competitive). WIC MIS Planning grant funds are provided to WIC State agencies to assess their current system, complete a feasibility study and cost analysis as well as prepare a Request for Proposal for an implementation contractor.

To provide grants to WIC State agencies that improve and/or enhance nutrition services of the WIC program. WIC awards State agencies the following grants:

1. WIC Breastfeeding Peer Counseling Funds (discretionary). WIC Breastfeeding Peer Counseling Funds are intended to enable State agencies to implement or maintain effective breastfeeding peer counselor programs. Combining peer counseling with the on-going breastfeeding promotion efforts in WIC agencies has the potential to significantly impact breastfeeding rates among WIC participants. The Food and Nutrition Service's long-range vision is to institutionalize peer counseling as a core service in WIC.

2. WIC Special Projects Grants (discretionary). WIC Special Projects Grants are awarded to state agencies for special State projects of regional or national significance to improve the services of the program. Current projects focused on FNS' Revitalizing Quality Nutrition Services (RQNS) in WIC initiatives. The goal is to improve and strengthen the effectiveness of WIC nutrition services. Full grants are awarded to States to evaluate ongoing initiatives aimed at improving these services. Full Project grants and WIC Concept Papers grants are awarded to States under the WIC Special Project Funds.

<b>Adult Viral Hepatitis Prevention and Control</b>	<b>93.270</b>	<b>Department of Health and Human Services</b>	HSA17008	98.2	98.9	98.9	.6

Program activities under this funding will allow for CDC to partner with multiple organizations to benefit individuals by substantially reducing viral hepatitis transmission, identifying those that are acutely and chronically infected, and linking infected individuals with treatment if appropriate. Specifically, the program activities may include but are not limited to:

1. Increasing the proportion of persons living with HCV and HBV who are aware of their infection and referred for prevention and clinical care services.
2. Expanding and improving efforts to develop and disseminate viral hepatitis training and educational materials targeting the public and private sector health care professionals to build capacity to assess, test and medically manage populations at risk for chronic HCV and HBV infection.
3. Supporting state and local health departments and other organizations in linking HCV infected persons to community health centers, clinics serving injection drug users, and other health organizations seeing individuals potentially infected with chronic viral hepatitis.
4. Additional support will be provided for program monitoring, evaluation, capacity building, and technical assistance, along with support for acute and chronic viral hepatitis surveillance.

<u>Performance Measures</u>	<u>2018</u>	<u>2019</u>	<u>2020</u>
Percentage of funding utilized in the budget period (Funding Utilization Ratio)	64%	73%	73%

<u>Grant/Project and Description</u>	<u>CFDA</u>	<u>Grantor</u>	<u>AFIS ID</u>	<u>2018 Received</u>	<u>2019 Est. Rev.</u>	<u>2020 Est. Rev.</u>	<u>Footnote(s)</u>
<b>PPHF-2012: Health Care Surveillance/Health Statistics – Surveillance Program Announcement: Behavioral Risk Factor Surveillance System Financed in Part by 2012 Prevention and Public Health Funds (PPHF-2012)</b>	<b>93.745</b>	<b>Department of Health and Human Services</b>	<b>HSA17011</b>	<b>72.5</b>	<b>72.9</b>	<b>72.9</b>	

The purpose of this program is to provide assistance to State and Territorial Health Departments to maintain and expand:

- 1) Specific health surveillance using telephone and multi-mode survey methodology for the behaviors of the general population that contribute to the occurrences and prevention of chronic diseases, injuries, and other public health threats;
- 2) The collection, analysis, and dissemination of BRFSS data to State and Territorial Health Department Categorical Programs for their use in assessing trends, directing program planning, evaluating program priorities, developing policy, and targeting relevant population groups.

Specifically, this program will:

- A. Add six questions specifically on health care access and use to the 2013 Behavioral Risk Factor Surveillance System (BRFSS) survey to measure the effect of ACA on the population;
- B. Increase the BRFSS landline sample size to restore the number of completed interviews achieved to 2011 levels. BRFSS programs should develop plans for increasing their sample size of their 2013 surveys which will increase the number of completed interviews achieved which will increase the precision of estimates in small areas and sub-populations;
- C. Increase the proportion of cell phone interviews completed on the 2013 BRFSS survey to maintain coverage and validity – achieving at least a 25% completed interview rate by cell phone mode.

This ELC Competing Supplement addresses priority domestic capacity building around Ebola and other emerging and highly-infectious diseases. The Competing Supplement (1) provides additional resources to accelerate ELC activities around infection control assessment and response, laboratory safety, and global migration, border interventions, and migrant health; and (2) aligns with ELC's existing purpose which is to protect the public health and safety of the American people by enhancing the capacity of public health agencies to effectively detect, respond, prevent and control known and emerging (or re-emerging) infectious diseases. This is accomplished by providing financial and technical resources to (1) strengthen epidemiologic capacity; (2) enhance laboratory capacity; (3) improve information systems; and (4) enhance collaboration among epidemiology, laboratory, and information systems components of public health departments.

The purpose of this program is to protect the public health and safety of the American people by enhancing the capacity of public health agencies to effectively detect, respond, prevent and control known and emerging (or re-emerging) infectious diseases. This is accomplished by providing financial and technical resources to (1) strengthen epidemiologic capacity; (2) enhance laboratory capacity; (3) improve information systems; and (4) enhance collaboration among epidemiology, laboratory, and information systems components of public health departments.

<u>Performance Measures</u>	<u>2018</u>	<u>2019</u>	<u>2020</u>
Percentage of funding utilized in the budget period (Funding Utilization Ratio)	27%	84%	84%
The funding utilization ratio is used to measure the administrative efficiency of the grant. The ratio compares the percentage of grant expenditure and encumbrance as of the fiscal year end with the percentage of budget period elapsed by the end of fiscal year.			

<b>Hospital Preparedness Program (HPP) and Public Health Emergency Preparedness (PHEP) Aligned Cooperative Agreements</b>	<b>93.074</b>	<b>Department of Health and Human Services</b>	HSA17033	300.0	0.0	0.0	.2, 6
---	---------------	--	----------	-------	-----	-----	-------

The purpose of the 2012-2017 HPP-PHEP aligned programs cooperative agreement is to provide resources that support state, local, territorial, and tribal public health departments and healthcare systems/organizations in demonstrating measurable and sustainable progress toward achieving public health and healthcare emergency preparedness capabilities that promote prepared and resilient communities. [NOTE: For additional detailed information on the HPP program, please see CFDA 93.889. For additional detailed information on the PHEP program, please see CFDA 93.069].

<u>Performance Measures</u>	<u>2018</u>	<u>2019</u>	<u>2020</u>
Percentage of funding utilized in the budget period (Funding Utilization Ratio)	71%	58%	58%
The funding utilization ratio is used to measure the administrative efficiency of the grant. The ratio compares the percentage of grant expenditure and encumbrance as of the fiscal year end with the percentage of budget period elapsed by the end of fiscal year.

<b>Environmental Public Health and Emergency Response</b>	<b>93.070</b>	<b>Department of Health and Human Services</b>	HSA17049	372.2	418.9	418.9	.6

To bring public health and epidemiologic principles together to identify, clarify, and reduce the impact of complex environmental threats, including terrorist threats and natural disasters, on populations, domestic and foreign. These programs and activities focus on safeguarding the health of people from environmental threats; providing leadership in the use of environmental health sciences-including environmental epidemiology, environmental sanitation, and laboratory sciences-to protect public health; and responding to issues and sharing solutions to environmental health problems worldwide. To accomplish the above, the CDC: (1) conducts surveillance and investigations that increase the knowledge about the relation between human health and environmental threats; (2) uses this knowledge to develop national public health programs and policies to prevent or control public health problems; (3) plans, prepares, and responds to emergencies, including terrorist threats, technologic accidents, and natural disasters; (4) provides direct service delivery to partners engaged in environmental health services such as food, safety, rodent control, water quality, and sanitation; (5) develops and applies laboratory science to prevent disease and death caused by exposure to environmental chemicals and to improve the diagnosis, treatment, and prevention of selected chronic diseases; (6) conducts Biomonitoring to assess individual human exposure to environmental chemicals by measuring them in human specimens (e.g. blood and urine); and, (7) conducts activities on emerging environmental threats such as climate change and the built environment.

<u>Performance Measures</u>	<u>2018</u>	<u>2019</u>	<u>2020</u>

To provide low-income pregnant, breastfeeding and postpartum women, infants, and children to age five who have been determined to be at nutritional risk, supplemental nutritious foods, nutrition education, and referrals to health and social services at no cost. WIC also promotes breastfeeding as the feeding method of choice for infants, provides substance abuse education and promotes immunization and other aspects of healthy living.

The Food and Nutrition Service (FNS) makes funds available to participating State health agencies and Indian Tribal Organizations (ITOs) that, in turn, distribute the funds to participating local agencies. State and local agencies use WIC funds to pay the costs of specified supplemental foods provided to WIC participants, and to pay for specified nutrition services and administration (NSA) costs, including the cost of nutrition assessments, blood tests for anemia, nutrition education, breastfeeding promotion and health care referrals.

<b>WIC Grants To States (WGS)</b>	<b>10.578</b>	<b>Department of Agriculture</b>	<b>HSA18010</b>	15.6	33.2	16.6	.2, 6

To provide grants to WIC State agencies to plan, design and implement WIC electronic benefit transfer (EBT) systems so that Program benefits can be provided electronically. To provide grants to WIC State agencies to fund, implement, and evaluate innovative technology projects that improve WIC services. To provide grants to WIC State agencies to plan, design, implement, enhance or transfer management information (MIS) systems. Please note the following grant activities:

1. WIC EBT Amendments (non-competitive). Grant funds for WIC EBT amendments are provided to WIC State agencies to support on-going EBT planning or implementation projects. These projects were originally funded through a competitive process using WIC technology or American Recovery and Reinvestment Act funds. Many WIC State agencies received only partial funding in their original grant award and amendments provide the additional funds needed to ensure all activities are completed and projects are successful.
2. WIC EBT Implementation (non-competitive). Implementation grant funds are provided to WIC State agencies to enhance and modify current management information systems to support EBT, conduct cost evaluations, and develop retailer management plans.
3. WIC State Agency Model (SAM) Amendments (non-competitive). Grant funds for WIC SAM amendments are provided to support WIC State agencies that are either part of the original SAM consortia, or those that need additional funding to complete implementation of a SAM transfer system. These funds are used by WIC State agencies for implementation completion as well as system enhancements through the SAM user group process.
4. WIC EBT Planning Grants (non-competitive). EBT Planning grants funds are provided to WIC State agencies to assess the feasibility of EBT for their State, as well as to perform a cost analysis to verify EBT affordability. The planning process is a WIC requirement prior to EBT implementation and looks at WIC Information System capabilities, retailer capabilities, and baseline paper cost compared to EBT operational cost within the State to better prepare for the challenges of EBT implementation. WIC State agencies must analyze both on-line and off-line EBT technologies to assess the most cost-effective solution.
5. WIC Technical Innovation Grants (competitive). WIC Technical Innovation grant funds are provided to WIC State agencies for the development of standardized reporting, retailer certification test scripts, and development of a web-based Internet system that will allow WIC participants to access grocer's websites, select WIC approved foods and purchase them with their EBT card from the convenience of their homes.
6. WIC SAM Transfers Grants (non-competitive). SAM Transfer grant funds are provided to WIC State agencies that have completed their planning activities, and have an approved Alternatives Analysis document that justifies a SAM as their choice of system transfer. Funds are used for implementation activities.

7. WIC MIS Amendments (non-competitive). Grant funds for WIC MIS amendments are provided to support WIC State agencies that have already received grant funding for their MIS projects. This includes planning for and transferring of an existing system, or developing a new system.

8. WIC MIS Implementation (non-competitive). WIC MIS Implementation grant funds are provided to WIC State agencies that are implementing a new MIS, or are upgrading/enhancing their current MIS. Activities included are design and development, testing, training and data conversion.

9. WIC MIS Planning (non-competitive). WIC MIS Planning grant funds are provided to WIC State agencies to assess their current system, complete a feasibility study and cost analysis as well as prepare a Request for Proposal for an implementation contractor.

To provide grants to WIC State agencies that improve and/or enhance nutrition services of the WIC program. WIC awards State agencies the following grants:

1. WIC Breastfeeding Peer Counseling Funds (discretionary). WIC Breastfeeding Peer Counseling Funds are intended to enable State agencies to implement or maintain effective breastfeeding peer counselor programs. Combining peer counseling with the on-going breastfeeding promotion efforts in WIC agencies has the potential to significantly impact breastfeeding rates among WIC participants. The Food and Nutrition Service's long-range vision is to institutionalize peer counseling as a core service in WIC.

2. WIC Special Projects Grants (discretionary). WIC Special Projects Grants are awarded to state agencies for special State projects of regional or national significance to improve the services of the program. Current projects focused on FNS' Revitalizing Quality Nutrition Services (RQNS) in WIC initiatives. The goal is to improve and strengthen the effectiveness of WIC nutrition services. Full grants are awarded to States to evaluate ongoing initiatives aimed at improving these services. Full Project grants and WIC Concept Papers grants are awarded to States under the WIC Special Project Funds.

<u>Performance Measures</u>	<u>2018</u>	<u>2019</u>	<u>2020</u>

Substance Abuse and Mental Health Service Administration (SAMHSA) was reauthorized by the Children's Health Action of 2000, Public law 106-310. Under this reauthorization, SAMHSA was given the authority to address priority substance abuse treatment, prevention and mental health needs of regional and national significance through assistance (grants and cooperative agreements) to States, political subdivisions of States, Indian tribes and tribal organizations, and other public or nonprofit private entities. Under these sections, CSAT, CMHS and CSAP seek to expand the availability of effective substance abuse treatment and recovery services available to Americans to improve the lives of those affected by alcohol and drug additions, and to reduce the impact of alcohol and drug abuse on individuals, families, communities and societies and to address priority mental health needs of regional and national significance and assist children in dealing with violence and traumatic events through by funding grant and cooperative agreement projects. Grants and cooperative agreements may be for (1) knowledge and development and application projects for treatment and rehabilitation and the conduct or support of evaluations of such projects; (2) training and technical assistance; (3) targeted capacity response programs (4) systems change grants including statewide family network grants and client-oriented and consumer run self-help activities and (5) programs to foster health and development of children; (6) coordination and integration of primary care services into publicly-funded community mental health centers and other community-based behavioral health settings funded under Affordable Care Act (ACA).

<b>Grant/Project and Description</b>	<b>CFDA</b>	<b>Grantor</b>	<b>AFIS ID</b>	<b>2018 Received</b>	<b>2019 Est. Rev.</b>	<b>2020 Est. Rev.</b>	<b>Footnote(s)</b>
<b>Homeland Security Biowatch Program</b>	<b>97.091</b>	<b>Department of Homeland Security</b>	HSA18014	81.3	95.7	95.7	. <sup>2</sup>

The BioWatch Program is a Federally managed, locally operated early warning system that is designed to detect the intentional release of select aerosolized biological agents. The BioWatch Program's mission is to deploy, sustain, and maintain a national 24x7x365 operational ability to detect, and respond to a bioterrorist event in metropolitan areas across the country. The DHS Office of Health Affairs (OHA) administers the BioWatch program and is currently engaged in advanced development, test, evaluation and operations to improve sampling technologies, collection procedures, sample analysis, and develop and implement a next generation BioWatch system.

The Biowatch Program and PPD-8 share the following elements.

- First, in accordance with the National Preparedness Goal , the Biowatch program provides a comprehensive strategy for countering biological terrorism.
- Next, following the National Preparedness System and the BioWatch Program is a federally managed, locally operated early warning operational capability designed to enhance national preparedness. The program provides an early warning system that detects the release of a select biological agent that may pose a danger to the public health in select jurisdictions.
- Biowatch, in accordance with the National Planning Frameworks and Federal Interagency Operational Plans, acts as an early warning system which enhances the security of jurisdictions by providing the needed time to execute their comprehensive concept of operations plans to counter biological terrorism. In addition, the BioWatch Program provides advice and guidance to jurisdictions to develop biological preparedness programs that properly addresses the needed mitigation plans that reduces the negative impacts to a biological attack.

The Biowatch Program is a critical part of an ongoing national effort to build and sustain preparedness which helps the United States maintain momentum through targeted jurisdictional planning that highlights preventative actions necessary to allow for a proper and timely response and begin the process to recovery from a biological agent release. To provide funding and/or property for the conduct of operations and other related activities intended to identify, counter, or respond to biological and chemical threats.

<b>Maternal and Child Health Federal Consolidated Programs</b>	<b>93.110</b>	<b>Department of Health and Human Services</b>	<b>HSA18018</b>	<b>7,504.2</b>	<b>7,530.1</b>	<b>7,530.1</b>	<b>.6</b>

To carry out special maternal and child health (MCH) projects of regional and national significance; to conduct training and research; to conduct genetic disease testing, counseling, and information development and dissemination programs; for grants relating to hemophilia without regard to age; and for the screening of newborns for sickle cell anemia, and other genetic disorders. and to support comprehensive hemophilia diagnostic and treatment centers. These grants are funded with a set-aside from the MCH Block grant program. SPRANS grants are funded with 15 percent of the Block Grant appropriation of up to \$600 million. When the appropriation exceeds \$600 million, 12.75 percent of the amount over \$600 million is set aside for the Community Integrated Service Systems grants. 15 percent of the balance remaining over \$600 million is also for SPRANS. The CISS program is to develop and expand the following: (1) Home visitation; (2) increased participation of obstetricians and pediatricians; (3) integrated service delivery systems; (4) maternal and child health centers for women and infants, under the direction of a not-for-profit hospital; (5) services for rural populations; and (6) community-based services for children with special health care needs in order to enhance or develop an integrated services system. In FY 2008 Congress first funded the Combating Autism Act program, which is for early detection, education and intervention activities on autism and other developmental disorders.

First funded in 2004, the Heritable Disorders Program is established to improve the ability of States to provide newborn and child screening for heritable disorders and affect the lives of all of the nation's infants and children. Newborn and child screening occur at intervals across the life span of every child. Newborn screening universally provides early identification and follow-up for treatment of infants affected by certain genetic, metabolic, hormonal and/or functional conditions. It is expected that newborn and child screening will expand as the capacity to screen for genetic and congenital conditions expands.

First funded in 2009, the Congenital Conditions program is established to provide information and support services to women and their families that have received a diagnosis for Down Syndrome, Spina Bifida, Dwarfism and other prenatally or postnatally diagnosed conditions.

To provide grants to WIC State agencies to plan, design and implement WIC electronic benefit transfer (EBT) systems so that Program benefits can be provided electronically. To provide grants to WIC State agencies to fund, implement, and evaluate innovative technology projects that improve WIC services. To provide grants to WIC State agencies to plan, design, implement, enhance or transfer management information (MIS) systems. Please note the following grant activities:

1. WIC EBT Amendments (non-competitive). Grant funds for WIC EBT amendments are provided to WIC State agencies to support on-going EBT planning or implementation projects. These projects were originally funded through a competitive process using WIC technology or American Recovery and Reinvestment Act funds. Many WIC State agencies received only partial funding in their original grant award and amendments provide the additional funds needed to ensure all activities are completed and projects are successful.
2. WIC EBT Implementation (non-competitive). Implementation grant funds are provided to WIC State agencies to enhance and modify current management information systems to support EBT, conduct cost evaluations, and develop retailer management plans.
3. WIC State Agency Model (SAM) Amendments (non-competitive). Grant funds for WIC SAM amendments are provided to support WIC State agencies that are either part of the original SAM consortia, or those that need additional funding to complete implementation of a SAM transfer system. These funds are used by WIC State agencies for implementation completion as well as system enhancements through the SAM user group process.
4. WIC EBT Planning Grants (non-competitive). EBT Planning grants funds are provided to WIC State agencies to assess the feasibility of EBT for their State, as well as to perform a cost analysis to verify EBT affordability. The planning process is a WIC requirement prior to EBT implementation and looks at WIC Information System capabilities, retailer capabilities, and baseline paper cost compared to EBT operational cost within the State to better prepare for the challenges of EBT implementation. WIC State agencies must analyze both on-line and off-line EBT technologies to assess the most cost-effective solution.
5. WIC Technical Innovation Grants (competitive). WIC Technical Innovation grant funds are provided to WIC State agencies for the development of standardized reporting, retailer certification test scripts, and development of a web-based Internet system that will allow WIC participants to access grocer's websites, select WIC approved foods and purchase them with their EBT card from the convenience of their homes.
6. WIC SAM Transfers Grants (non-competitive). SAM Transfer grant funds are provided to WIC State agencies that have completed their planning activities, and have an approved Alternatives Analysis document that justifies a SAM as their choice of system transfer. Funds are used for implementation activities.

7. WIC MIS Amendments (non-competitive). Grant funds for WIC MIS amendments are provided to support WIC State agencies that have already received grant funding for their MIS projects. This includes planning for and transferring of an existing system, or developing a new system.

8. WIC MIS Implementation (non-competitive). WIC MIS Implementation grant funds are provided to WIC State agencies that are implementing a new MIS, or are upgrading/enhancing their current MIS. Activities included are design and development, testing, training and data conversion.

9. WIC MIS Planning (non-competitive). WIC MIS Planning grant funds are provided to WIC State agencies to assess their current system, complete a feasibility study and cost analysis as well as prepare a Request for Proposal for an implementation contractor.

To provide grants to WIC State agencies that improve and/or enhance nutrition services of the WIC program. WIC awards State agencies the following grants:

1. WIC Breastfeeding Peer Counseling Funds (discretionary). WIC Breastfeeding Peer Counseling Funds are intended to enable State agencies to implement or maintain effective breastfeeding peer counselor programs. Combining peer counseling with the on-going breastfeeding promotion efforts in WIC agencies has the potential to significantly impact breastfeeding rates among WIC participants. The Food and Nutrition Service's long-range vision is to institutionalize peer counseling as a core service in WIC.

2. WIC Special Projects Grants (discretionary). WIC Special Projects Grants are awarded to state agencies for special State projects of regional or national significance to improve the services of the program. Current projects focused on FNS' Revitalizing Quality Nutrition Services (RQNS) in WIC initiatives. The goal is to improve and strengthen the effectiveness of WIC nutrition services. Full grants are awarded to States to evaluate ongoing initiatives aimed at improving these services. Full Project grants and WIC Concept Papers grants are awarded to States under the WIC Special Project Funds.

<u>Performance Measures</u>	<u>2018</u>	<u>2019</u>	<u>2020</u>

<b>Special Supplemental Nutrition Program for Women, Infants, and Children</b>	<b>10.557</b>	<b>Department of Agriculture</b>	WICRBATE	38,498.9	37,190.9	37,190.9	· <sup>2</sup>

To provide low-income pregnant, breastfeeding and postpartum women, infants, and children to age five who have been determined to be at nutritional risk, supplemental nutritious foods, nutrition education, and referrals to health and social services at no cost. WIC also promotes breastfeeding as the feeding method of choice for infants, provides substance abuse education and promotes immunization and other aspects of healthy living.

The Food and Nutrition Service (FNS) makes funds available to participating State health agencies and Indian Tribal Organizations (ITOs) that, in turn, distribute the funds to participating local agencies. State and local agencies use WIC funds to pay the costs of specified supplemental foods provided to WIC participants, and to pay for specified nutrition services and administration (NSA) costs, including the cost of nutrition assessments, blood tests for anemia, nutrition education, breastfeeding promotion and health care referrals.

<b>Homeland Security Grant Program</b>	<b>97.067</b>	<b>Department of Homeland Security</b>	150001	2,619.8	1,328.1	0.0	.2, 6

FY 2012 HSGP and THSGP provide grant funding to assist state and local governments in obtaining the resources required to support the National Preparedness Goal's (NPG's) associated mission areas and core capabilities. FY 2012 THSGP provides funding directly to eligible tribes to help strengthen the nation against risks associated with potential terrorist attacks. The FY 2012 HSGP is comprised of three interconnected grant programs:

- State Homeland Security Program (SHSP): SHSP supports the implementation of State Homeland Security Strategies to address the identified planning, organization, equipment, training, and exercise needs to prevent, protect against, mitigate, respond to, and recover from acts of terrorism and other catastrophic events.
- Urban Areas Security Initiative (UASI): The UASI program addresses the unique planning, organization, equipment, training, and exercise needs of high-threat, high-density Urban Areas, and assists them in building an enhanced and sustainable capacity to prevent, protect against, mitigate, respond to, and recover from acts of terrorism.
- Operation Stonegarden (OPSG): OPSG supports enhanced cooperation and coordination among local, tribal, territorial, State, and Federal law enforcement agencies in a joint mission to secure the United States' borders along routes of ingress from international borders to include travel corridors in States bordering Mexico and Canada, as well as States and territories with international water borders.

All three programs are founded on risk-driven, capabilities-based strategic plans. These strategic plans outline capability requirements and inform how available funding may be applied to manage risk. For these plans to be effective, government officials and elected leaders, working with the whole community, must consider how to sustain current capability levels and address potential shortfalls to prevent, protect, mitigate, respond to, and recover from disasters.

The FY 2013 HSGP plays an important role in the implementation of the National Preparedness System (NPS) by supporting the building, sustainment, and delivery of core capabilities essential to achieving the National Preparedness Goal (NPG) of a secure and resilient Nation. Delivering core capabilities requires the combined effort of the whole community, rather than the exclusive effort of any single organization or level of government. The FY 2013 HSGP's allowable costs support efforts to build and sustain core capabilities across the Prevention, Protection, Mitigation, Response, and Recovery mission areas by setting the following priorities and objectives:

Priority One: Implementation of the NPS and a Whole Community Approach to Homeland Security and Emergency Management

**State of Arizona**  
**Federal Operating Budget Detail**  
**(Dollars in Thousands)**

**Agency: Department of Homeland Security**

<b>Grant/Project and Description</b>	<b>CFDA</b>	<b>Grantor</b>	<b>AFIS ID</b>	<b>2018 Received</b>	<b>2019 Est. Rev.</b>	<b>2020 Est. Rev.</b>	<b>Footnote(s)</b>
<b>Homeland Security Grant Program</b>	<b>97.067</b>	<b>Department of Homeland Security</b>	150001	2,619.8	1,328.1	0.0	.2, 6

- Objective One: Completion of the THIRA process in alignment with National Preparedness System guidance to identify the resources required to deliver core capabilities.
- Objective Two: Conduct risk driven, capabilities-based planning through whole community councils and working groups.
- Objective Three: Organization – Typing of equipment, and credentialing and training of personnel.
- Objective Four: Sustaining Capabilities.

Priority Two: Building and Sustaining Law Enforcement Terrorism Prevention Capabilities

- Objective One: Nationwide Suspicious Activity Reporting Initiative (NSI)

Priority Three: Maturation and Enhancement of State and Major Urban Area Fusion Centers

- Objective One: Baseline Capabilities.
- Objective Two: Analytic Capabilities.

The Department of Homeland Security Appropriations Act, 2013 (Public Law 113-6) authorized additional funding allocated at the discretion of the Secretary of the Department Homeland Security, to support appropriated programs in FY 2013. DHS has augmented the SHSP and UASI grant programs in FY 2013 by allocating an additional \$163.4 million to support the following priority areas:

Priority Four: Innovation and Sustained Support for the National Campaign for Preparedness

- Objective One: Foster individual and community preparedness and resilience by identifying needs; mobilizing partners; and creating innovative and effective solutions that can be grown, sustained, and replicated.

Priority Five: Improve Immediate Emergency Victim Care at Mass Casualty Events

- Objective One: Improve emergency care to victims of mass casualty events, including mass shootings.
- Objective Two: Improve community first aid training.

Minimum funding amounts are not prescribed by the Department for these priorities; however grantees are expected to support state, local, and regional efforts in achieving the desired outcomes of one or more of these priorities.

<b>Non-Profit Security Program</b>	<b>97.008</b>	<b>Department of Homeland Security</b>	160005	278.1	6.0	0.0	.2, 6

The FY 2013 NSGP provides \$10,000,000 in funding support for target hardening and other physical security enhancements and activities to nonprofit organizations that are at high risk of terrorist attack and located within one of the specific UASI-eligible Urban Areas. While this funding is provided specifically to high-risk nonprofit organizations under The Department of Homeland Security Appropriations Act, 2013 (Public Law 113-6), the program seeks to integrate nonprofit preparedness activities with broader State and local preparedness efforts. It is also designed to promote coordination and collaboration in emergency preparedness activities among public and private community representatives, as well as State and local government agencies.

The FY 2013 NSGP plays an important role in the implementation of the National Preparedness System (NPS) by supporting the development and sustainment of core capabilities. Core capabilities are essential for the execution of each of the five mission areas outlined in the National Preparedness Goal (NPG). Delivering core capabilities requires the combined effort of the whole community, rather than the exclusive effort of any single organization or level of government. The FY 2013 NSGP's allowable costs support efforts to build and sustain core capabilities across the Prevention, Protection, Mitigation, Response, and Recovery mission areas.

Examples of tangible outcomes from the FY 2013 NSGP include strengthening emergency management capabilities through:

- Building and sustaining core capabilities
- Strengthening governance integration
- Whole community approach to security and emergency management.

<b>Homeland Security Grant Program</b>	<b>97.067</b>	<b>Department of Homeland Security</b>	180001	0.0	6,041.6	12,083.2	. 2, 3, 6

FY 2012 HSGP and THSGP provide grant funding to assist state and local governments in obtaining the resources required to support the National Preparedness Goal's (NPG's) associated mission areas and core capabilities. FY 2012 THSGP provides funding directly to eligible tribes to help strengthen the nation against risks associated with potential terrorist attacks. The FY 2012 HSGP is comprised of three interconnected grant programs:

- State Homeland Security Program (SHSP): SHSP supports the implementation of State Homeland Security Strategies to address the identified planning, organization, equipment, training, and exercise needs to prevent, protect against, mitigate, respond to, and recover from acts of terrorism and other catastrophic events.
- Urban Areas Security Initiative (UASI): The UASI program addresses the unique planning, organization, equipment, training, and exercise needs of high-threat, high-density Urban Areas, and assists them in building an enhanced and sustainable capacity to prevent, protect against, mitigate, respond to, and recover from acts of terrorism.
- Operation Stonegarden (OPSG): OPSG supports enhanced cooperation and coordination among local, tribal, territorial, State, and Federal law enforcement agencies in a joint mission to secure the United States' borders along routes of ingress from international borders to include travel corridors in States bordering Mexico and Canada, as well as States and territories with international water borders.

All three programs are founded on risk-driven, capabilities-based strategic plans. These strategic plans outline capability requirements and inform how available funding may be applied to manage risk. For these plans to be effective, government officials and elected leaders, working with the whole community, must consider how to sustain current capability levels and address potential shortfalls to prevent, protect, mitigate, respond to, and recover from disasters.

The FY 2013 HSGP plays an important role in the implementation of the National Preparedness System (NPS) by supporting the building, sustainment, and delivery of core capabilities essential to achieving the National Preparedness Goal (NPG) of a secure and resilient Nation. Delivering core capabilities requires the combined effort of the whole community, rather than the exclusive effort of any single organization or level of government. The FY 2013 HSGP's allowable costs support efforts to build and sustain core capabilities across the Prevention, Protection, Mitigation, Response, and Recovery mission areas by setting the following priorities and objectives:

Priority One: Implementation of the NPS and a Whole Community Approach to Homeland Security and Emergency Management

**State of Arizona**  
**Federal Operating Budget Detail**  
**(Dollars in Thousands)**

**Agency: Department of Homeland Security**

<b>Grant/Project and Description</b>	<b>CFDA</b>	<b>Grantor</b>	<b>AFIS ID</b>	<b>2018 Received</b>	<b>2019 Est. Rev.</b>	<b>2020 Est. Rev.</b>	<b>Footnote(s)</b>
<b>Homeland Security Grant Program</b>	<b>97.067</b>	<b>Department of Homeland Security</b>	180001	0.0	6,041.6	12,083.2	. 2, 3, 6

- Objective One: Completion of the THIRA process in alignment with National Preparedness System guidance to identify the resources required to deliver core capabilities.
- Objective Two: Conduct risk driven, capabilities-based planning through whole community councils and working groups.
- Objective Three: Organization – Typing of equipment, and credentialing and training of personnel.
- Objective Four: Sustaining Capabilities.

Priority Two: Building and Sustaining Law Enforcement Terrorism Prevention Capabilities

- Objective One: Nationwide Suspicious Activity Reporting Initiative (NSI)

Priority Three: Maturation and Enhancement of State and Major Urban Area Fusion Centers

- Objective One: Baseline Capabilities.
- Objective Two: Analytic Capabilities.

The Department of Homeland Security Appropriations Act, 2013 (Public Law 113-6) authorized additional funding allocated at the discretion of the Secretary of the Department Homeland Security, to support appropriated programs in FY 2013. DHS has augmented the SHSP and UASI grant programs in FY 2013 by allocating an additional \$163.4 million to support the following priority areas:

Priority Four: Innovation and Sustained Support for the National Campaign for Preparedness

- Objective One: Foster individual and community preparedness and resilience by identifying needs; mobilizing partners; and creating innovative and effective solutions that can be grown, sustained, and replicated.

Priority Five: Improve Immediate Emergency Victim Care at Mass Casualty Events

- Objective One: Improve emergency care to victims of mass casualty events, including mass shootings.
- Objective Two: Improve community first aid training.

Minimum funding amounts are not prescribed by the Department for these priorities; however grantees are expected to support state, local, and regional efforts in achieving the desired outcomes of one or more of these priorities.

<b>Grant/Project and Description</b>	<b>CFDA</b>	<b>Grantor</b>	<b>AFIS ID</b>	<b>2018 Received</b>	<b>2019 Est. Rev.</b>	<b>2020 Est. Rev.</b>	<b>Footnote(s)</b>
<b>Non-Profit Security Program</b>	<b>97.008</b>	<b>Department of Homeland Security</b>	180005	0.0	175.0	525.0	. 2, 3, 6

The FY 2013 NSGP provides \$10,000,000 in funding support for target hardening and other physical security enhancements and activities to nonprofit organizations that are at high risk of terrorist attack and located within one of the specific UASI-eligible Urban Areas. While this funding is provided specifically to high-risk nonprofit organizations under The Department of Homeland Security Appropriations Act, 2013 (Public Law 113-6), the program seeks to integrate nonprofit preparedness activities with broader State and local preparedness efforts. It is also designed to promote coordination and collaboration in emergency preparedness activities among public and private community representatives, as well as State and local government agencies.

The FY 2013 NSGP plays an important role in the implementation of the National Preparedness System (NPS) by supporting the development and sustainment of core capabilities. Core capabilities are essential for the execution of each of the five mission areas outlined in the National Preparedness Goal (NPG). Delivering core capabilities requires the combined effort of the whole community, rather than the exclusive effort of any single organization or level of government. The FY 2013 NSGP's allowable costs support efforts to build and sustain core capabilities across the Prevention, Protection, Mitigation, Response, and Recovery mission areas.

Examples of tangible outcomes from the FY 2013 NSGP include strengthening emergency management capabilities through:

- Building and sustaining core capabilities
- Strengthening governance integration
- Whole community approach to security and emergency management.

<b>Home Investment Partnerships Program</b>	<b>14.239</b>	<b>Department of Housing and Urban Development</b>	633097	4,404.3	5,052.4	4,601.9	

To expand the supply of affordable housing, particularly rental housing, for low and very low income Americans; to strengthen the abilities of State and local governments to design and implement strategies for achieving adequate supplies of decent, affordable housing; and to extend and strengthen partnerships among all levels of government and the private sector, including for-profit and nonprofit organizations, in the production and operation of affordable housing.

<u>Performance Measures</u>	<u>2018</u>	<u>2019</u>	<u>2020</u>
Total amount of funds committed to assist homeowners and/or homebuyers.	3,672.9		2,000.0
A portion of the State's HOME allocation will be utilized to provide Owner-Occupied Housing Rehabilitation programs for very low-income households in Arizona. Programs primarily focus on addressing deteriorating housing stock owned by elderly homeowners.			
Total dollars committed to new construction or acquisition and/or rehabilitation of new affordable rental units.	1,000.1		1,000.1
Total dollars committed to or expected to be committed to new construction or acquisition and/or rehabilitation of new affordable rental units.			

**State of Arizona**  
**Federal Operating Budget Detail**  
**(Dollars in Thousands)**

**Agency: Department of Housing**

<u>Grant/Project and Description</u>	<u>CFDA</u>	<u>Grantor</u>	<u>AFIS ID</u>	<u>2018 Received</u>	<u>2019 Est. Rev.</u>	<u>2020 Est. Rev.</u>	<u>Footnote(s)</u>
<b>Section 8 Housing Choice Vouchers</b>	<b>14.871</b>	<b>Department of Housing and Urban Development</b>	777094	1,305.1	1,540.3	1,586.6	.6

To aid very low income families in obtaining decent, safe, and sanitary rental housing. For Fair Share Vouchers and Welfare-to-Work Vouchers, Public Housing Agencies (PHA) must meet certain selection criteria. For Welfare-to-Work rental vouchers, families must also meet special welfare-to-work criteria. HUD regulations merged the former Section 8 Rental Voucher program (14.855) with the former Section 8 Certificate program (14.857). Section 502 of the Public Housing Reform Act states that a purpose of the legislation is 'consolidating the voucher and certificate programs for rental assistance under Section 8 of the United States Housing Act of 1937 (the 'USHA') into a single market-driven program that will assist in making tenant-based rental assistance more successful at helping low-income families obtain affordable housing and will increase housing choice for low-income families'.

<u>Performance Measures</u>	<u>2018</u>	<u>2019</u>	<u>2020</u>
Number of low-income households assisted with monthly rental subsidies.	212		236
Number of low-income households (typically below 30 percent of the area median income) assisted with monthly rental subsidy assistance payments. Typically households pay 30 percent of their total household income towards rent payments, with the subsidy payment paying the different between the market rent and the assisted household's contribution, allowing very low-income households to have funding available for other critical needs such as food, medicine and other ongoing needs.			
Dollar amounts provided as rental subsidies to low-income renters.	1,187.1		1,377.3
Dollar amounts provided as rental subsidies to low-income renters assisted with monthly rental subsidies, making their housing more affordable.

<b>Grant/Project and Description</b>	<b>CFDA</b>	<b>Grantor</b>	<b>AFIS ID</b>	<b>2018 Received</b>	<b>2019 Est. Rev.</b>	<b>2020 Est. Rev.</b>	<b>Footnote(s)</b>
<b>State Court Improvement Program</b>	<b>93.586</b>	<b>Department of Health and Human Services</b>	003437	561.1	215.8	215.8	.6

The program provides three grant opportunities to State courts to improve court efficiency and the quality of legal representation; a basic grant for assessment work; a grant for data collection and analysis; and a grant to increase training of court personnel, including cross training with agency staff. The program provides State courts flexibility to design assessments which identify barriers to timely and effective decision-making, highlight practices which are not fully successful, examine areas they find to be in need of correction or added attention, and then implement reforms which address the State courts specific needs. State courts are required to collaborate with the State child welfare agency and Tribes in this work. The Child and Family Services Improvement and Innovation Act (P.L. 112-34) of 2011, reauthorized all three Court Improvement Program (CIP) grants through fiscal year (FY) 2016. The Act added provisions encouraging State courts to promote the use of concurrent planning and increases and improve engagement of the entire family in court processes relating to child welfare, family preservation, family reunification and adoption. The Act also allocated one million dollars to establish a Tribal Court Improvement Program.

<u>Performance Measures</u>	<u>2018</u>	<u>2019</u>	<u>2020</u>
Percent of Petitions in which a Permanent Plan was Initiated within 12 months of the initial date	90%	84%	87%
Goal is to reduce the time frame from removal to permanency.			
Pursuant to ARS 8-862(A)(3), the court is to hold this hearing within 12 months of the child's removal from the home. The court determines the most appropriate permanent plan at this hearing. Since some courts hold more than one type of hearing at the same calendared time (e.g.. Review and Permanency), tracking initiation date of the permanent plan is more reliable in determining whether the Permanency Hearing is being held within the 12 month window.

Enacted in 1984, the Victims of Crime Act (VOCA) is the central source of federal financial support for direct services to victim of crime. VOCA is administered at the federal level through the U.S. Department of Justice, Office for Victims of Crime which annually awards a grant to each state, the District of Columbia and U.S. Territories to support victim assistance services for victims and survivors of domestic violence, sexual assault, child abuse, drunk driving, homicide, and other crimes. Each state has a designated VOCA assistance agency to administer VOCA grants. Those state agencies in turn, subgrant to organizations that provide direct services to victims of crime. While minimal federal requirements must be met, each state is given great discretion in awarding specific subgrants.

<b>NICS Act Record Improvement Program</b>	<b>16.813</b>	<b>Department of Justice</b>	<b>034252</b>	82.0	240.8	0.0	.2, 6

To improve the FBI's National Instant Criminal Background Check System (NICS) by providing assistance to states to improve the completeness, automation and transmittal to state and federal systems the records utilized by the NICS. Such records include criminal history records, records of felony convictions, warrants, records of protective orders, convictions for misdemeanor involving domestic violence and stalking, records of mental health adjudications, and others, which may disqualify an individual from possessing or receiving a firearm under federal law. Helping states to automate these records will also reduce delays for law-abiding gun purchasers.

The NICS Improvement Act amends the Brady Handgun Violence Prevention Act of 1993 ("the Brady Act") (Public Law 103-159), under which the Attorney General established NICS. The Brady Act requires Federal Firearms Licensees (FFLs) to contact the NICS before transferring a firearm to an unlicensed person for information on whether the proposed transferee is prohibited from receiving or possessing a firearm under state or federal law. The NICS Improvement Act was enacted in the wake of the April 2007 shooting tragedy at Virginia Tech. The Virginia Tech shooter was able to purchase firearms from an FFL because information about his prohibiting mental health history was not available to the NICS and the system was therefore unable to deny the transfer of the firearms used in the shootings.

The Act seeks to address the gap in information available to NICS about such prohibiting mental health adjudications and commitments and other prohibiting backgrounds. Filling these information gaps will better enable the system to operate as intended to keep guns out of the hands of persons prohibited by federal or state law from receiving or possessing firearms.

The Act authorized two grant programs to assist states in providing certain information to the NICS, and prescribes grant penalties for non-compliance with the Act's record completeness goals. Pursuant to the Act, there are certain conditions, described below, that a state must satisfy in advance of receiving grants under the Act. The NICS Improvement Act has provisions that require states to meet specified goals for completeness of the records submitted to the Attorney General on individuals prohibited by federal law from possessing firearms. The records covered include automated information needed by the NICS to identify felony convictions, felony indictments, fugitives from justice, drug arrests and convictions, prohibiting mental health adjudications and commitments, domestic violence protection orders, and misdemeanor crimes of domestic violence.

The Act provides for a number of incentives for states to meet the goals it sets for greater record completeness. First, the Act allows states to obtain a waiver, beginning in 2011, of the state matching requirement under the National Criminal

History Improvement Program (NCHIP) grant program, if a state provides at least 90 percent of its records identifying persons in specified prohibited categories. Second, the Act authorizes grant programs described herein, which, pursuant to the Act, are being administered consistent with NCHIP, for state executive and judicial agencies to establish and upgrade information automation and identification technologies for timely submission of final criminal record dispositions and other information relevant to NICS checks. Finally, the Act provides for discretionary and mandatory Byrne Justice Assistance Grant (JAG) program grant penalties, beginning 3 years after enactment, for non-compliance with specified record completeness requirements within certain timeframes: after 3 years, 3 percent may be withheld in the case of less than 50 percent completeness; after 5 years, 4 percent may be withheld in the case of less than 70 percent completeness; and after 10 years, 5 percent shall be withheld in the case of less than 90 percent completeness (although the mandatory reduction can be waived if there is substantial evidence of the state making a reasonable effort to comply).

<b>AmeriCorps</b>	<b>94.006</b>	<b>Corporation for National and Community Service</b>	034253	103.9	294.2	132.4	.2, 6

For more than fifteen years, the Corporation for National and Community Service—through its Senior Corps, AmeriCorps, and Learn and Serve America programs—has mobilized a new generation of engaged citizens. This year, more than 1.8 million individuals of all ages and backgrounds will serve through these programs. They will help thousands of national and community non-profit organizations, faith-based groups, schools, and local agencies meet local needs in education, the environment, health, veterans, economic opportunity, and other critical areas.

AmeriCorps grants are awarded to eligible organizations that identify an unmet need in their community that will be addressed by AmeriCorps members that the organization recruits, trains, and manages. An AmeriCorps member is an individual who is enrolled in an approved national service position and engages in community service. Members may receive a living allowance and other benefits while serving. Upon successful completion of their service, members receive an education award from the National Service Trust.

AmeriCorps grant funding is distributed to Governor-appointed State Commissions and multi-state grantees. State Commissions award subgrants to organizations in their states, and the multi-state grantees work through operating sites in more than one state. These organizations recruit AmeriCorps members to respond to local needs.

Additional funding opportunities are available to existing AmeriCorps Programs under the American Recovery and Reinvestment Act (Recovery Act) funds to utilize service and volunteerism to stimulate the economy and meet the needs of those negatively impacted by the current economic crisis. Through AmeriCorps Recovery grants, individuals currently unemployed will gain work experience and valuable skills, and nonprofit organizations and communities negatively affected by the economic crisis will gain critical human resources. Eligible activities include providing job counseling and skills training to the unemployed, constructing or rehabilitating housing, assisting nonprofits facing increased need and decreased resources, recruiting volunteers, making housing resource referrals for and providing legal services to those experiencing eviction or foreclosure, connecting children and families to health care, and allowing after-school centers that have lost funding to stay open.

--	---------------	------------------------------	--------	-----	-------	-------	-----------------------

The Second Chance Act Programs are designed to help communities develop and implement comprehensive and collaborative strategies that address the challenges posed by offender reentry and recidivism reduction.

The Second Chance Act is a commonsense response to the increasing number of people who are released from prison and jail and returning to communities. There are currently 2.5 million people serving time in our federal and state prisons, and millions of people cycling through local jails every year. Ninety-five percent of all prisoners incarcerated today will eventually be released and will return to communities. Of those serving a sentence in state or federal prisons, approximately 750,000 will be released each year. The Second Chance Act will help ensure the transition people make from prison or jail to the community is safe and successful.

<b>Crime Victim Assistance</b>	<b>16.575</b>	<b>Department of Justice</b>	DJA18010	24.0	46.0	46.0	.2, 6												
Enacted in 1984, the Victims of Crime Act (VOCA) is the central source of federal financial support for direct services to victim of crime. VOCA is administered at the federal level through the U.S. Department of Justice, Office for Victims of Crime which annually awards a grant to each state, the District of Columbia and U.S. Territories to support victim assistance services for victims and survivors of domestic violence, sexual assault, child abuse, drunk driving, homicide, and other crimes. Each state has a designated VOCA assistance agency to administer VOCA grants. Those state agencies in turn, subgrant to organizations that provide direct services to victims of crime. While minimal federal requirements must be met, each state is given great discretion in awarding specific subgrants.

Federal-aid Highway Program: To assist State transportation agencies in the planning and development of an integrated, interconnected transportation system important to interstate commerce and travel by constructing and rehabilitating the National Highway System (NHS), including the Eisenhower Interstate System; for transportation improvements to many other public roads; to provide aid for the repair of Federal-aid highways following disasters; to foster safe highway design; to replace or rehabilitate deficient or obsolete bridges; and to provide for other special purposes. This program also provides for the improvement of roads in Puerto Rico, Guam, the U.S. Virgin Islands, American Samoa, and the Commonwealth of the Northern Mariana Islands. The Federal Lands Transportation Program (FLTP) provides assistance to the Federal Land Management Agencies (FLMAs) for Federally-owned roads and trails. It provides transportation engineering services and funding for planning, design, construction, and rehabilitation of the highways and bridges providing access to and on federally owned lands. The Federal Lands Highway organization also provides training, technology, deployment, engineering services, and products to other customers.

<b>Environmental Quality and Protection Resource Management</b>	<b>15.236</b>	<b>Department of the Interior</b>	MIA15002	62.7	145.0	0.0	.2, 6

To provide financial assistance, through grants or cooperative agreements as a partnership to reduce or remove pollutants in the environment for the protection of human health, water and air resources; to restore damaged or degraded watersheds; and to respond to changing climate. Objectives are implemented through core programs such as: the Abandoned Mine Land program which addresses physical safety hazards and water quality through restoration of abandoned hardrock mines; the Hazard Management and Resource Restoration, also known as Hazmat program, which remediates sites impacted by hazardous materials and illegal activities, coordinates emergency response actions, and ensures the Bureau of Land Management facilities and operations comply with applicable environmental regulations; and the Soil, Water and Air (SWA) program which develops guidance for land use plans and plan implementation. The Soil, Water, and Air program also assures that fundamental resources are inventoried and assessed, managed, and monitored to support appropriate management response to public land conditions. For Recovery and Reinvestment Act funded projects additional objectives include: To preserve and create jobs and promote economic recovery; to assist those most impacted by the recession; to provide investments needed to increase economic efficiency by spurring technological advances in science and health; to invest in transportation, environmental protection, and other infrastructure that will provide long-term economic benefits; and to stabilize State and local government budgets, in order to minimize and avoid reductions in essential services and counterproductive state and local tax increases.

<u>Performance Measures</u>	<u>2018</u>	<u>2019</u>	<u>2020</u>
Conduct a review of the BLM administered real estate in the State of Arizona to locate the mitigate abandoned mines features.	265	293	100
1. Document the location of abandoned mines on and adjacent to BLM administered lands;			
2. Document the features and conduct a hazard analysis;			
3. Mitigate unsecured abandoned mine features;			
4. Determine mining claimants and issue notices of violation of unsecured features on abandoned BLM land.

Federal-aid Highway Program: To assist State transportation agencies in the planning and development of an integrated, interconnected transportation system important to interstate commerce and travel by constructing and rehabilitating the National Highway System (NHS), including the Eisenhower Interstate System; for transportation improvements to many other public roads; to provide aid for the repair of Federal-aid highways following disasters; to foster safe highway design; to replace or rehabilitate deficient or obsolete bridges; and to provide for other special purposes. This program also provides for the improvement of roads in Puerto Rico, Guam, the U.S. Virgin Islands, American Samoa, and the Commonwealth of the Northern Mariana Islands. The Federal Lands Transportation Program (FLTP) provides assistance to the Federal Land Management Agencies (FLMAs) for Federally-owned roads and trails. It provides transportation engineering services and funding for planning, design, construction, and rehabilitation of the highways and bridges providing access to and on federally owned lands. The Federal Lands Highway organization also provides training, technology, deployment, engineering services, and products to other customers.

<b>Homeland Security Grant Program</b>	<b>97.067</b>	<b>Department of Homeland Security</b>	617000	0.0	0.0	0.0	.2, 6

FY 2012 HSGP and THSGP provide grant funding to assist state and local governments in obtaining the resources required to support the National Preparedness Goal's (NPG's) associated mission areas and core capabilities. FY 2012 THSGP provides funding directly to eligible tribes to help strengthen the nation against risks associated with potential terrorist attacks. The FY 2012 HSGP is comprised of three interconnected grant programs:

- State Homeland Security Program (SHSP): SHSP supports the implementation of State Homeland Security Strategies to address the identified planning, organization, equipment, training, and exercise needs to prevent, protect against, mitigate, respond to, and recover from acts of terrorism and other catastrophic events.
- Urban Areas Security Initiative (UASI): The UASI program addresses the unique planning, organization, equipment, training, and exercise needs of high-threat, high-density Urban Areas, and assists them in building an enhanced and sustainable capacity to prevent, protect against, mitigate, respond to, and recover from acts of terrorism.
- Operation Stonegarden (OPSG): OPSG supports enhanced cooperation and coordination among local, tribal, territorial, State, and Federal law enforcement agencies in a joint mission to secure the United States' borders along routes of ingress from international borders to include travel corridors in States bordering Mexico and Canada, as well as States and territories with international water borders.

All three programs are founded on risk-driven, capabilities-based strategic plans. These strategic plans outline capability requirements and inform how available funding may be applied to manage risk. For these plans to be effective, government officials and elected leaders, working with the whole community, must consider how to sustain current capability levels and address potential shortfalls to prevent, protect, mitigate, respond to, and recover from disasters.

The FY 2013 HSGP plays an important role in the implementation of the National Preparedness System (NPS) by supporting the building, sustainment, and delivery of core capabilities essential to achieving the National Preparedness Goal (NPG) of a secure and resilient Nation. Delivering core capabilities requires the combined effort of the whole community, rather than the exclusive effort of any single organization or level of government. The FY 2013 HSGP's allowable costs support efforts to build and sustain core capabilities across the Prevention, Protection, Mitigation, Response, and Recovery mission areas by setting the following priorities and objectives:

Priority One: Implementation of the NPS and a Whole Community Approach to Homeland Security and Emergency Management

**State of Arizona**  
**Federal Operating Budget Detail**  
**(Dollars in Thousands)**

**Agency: Department of Public Safety**

<b>Grant/Project and Description</b>	<b>CFDA</b>	<b>Grantor</b>	<b>AFIS ID</b>	<b>2018 Received</b>	<b>2019 Est. Rev.</b>	<b>2020 Est. Rev.</b>	<b>Footnote(s)</b>
<b>Homeland Security Grant Program</b>	<b>97.067</b>	<b>Department of Homeland Security</b>	617000	0.0	0.0	0.0	.2, 6

- Objective One: Completion of the THIRA process in alignment with National Preparedness System guidance to identify the resources required to deliver core capabilities.
- Objective Two: Conduct risk driven, capabilities-based planning through whole community councils and working groups.
- Objective Three: Organization – Typing of equipment, and credentialing and training of personnel.
- Objective Four: Sustaining Capabilities.

Priority Two: Building and Sustaining Law Enforcement Terrorism Prevention Capabilities

- Objective One: Nationwide Suspicious Activity Reporting Initiative (NSI)

Priority Three: Maturation and Enhancement of State and Major Urban Area Fusion Centers

- Objective One: Baseline Capabilities.
- Objective Two: Analytic Capabilities.

The Department of Homeland Security Appropriations Act, 2013 (Public Law 113-6) authorized additional funding allocated at the discretion of the Secretary of the Department Homeland Security, to support appropriated programs in FY 2013. DHS has augmented the SHSP and UASI grant programs in FY 2013 by allocating an additional \$163.4 million to support the following priority areas:

Priority Four: Innovation and Sustained Support for the National Campaign for Preparedness

- Objective One: Foster individual and community preparedness and resilience by identifying needs; mobilizing partners; and creating innovative and effective solutions that can be grown, sustained, and replicated.

Priority Five: Improve Immediate Emergency Victim Care at Mass Casualty Events

- Objective One: Improve emergency care to victims of mass casualty events, including mass shootings.
- Objective Two: Improve community first aid training.

Minimum funding amounts are not prescribed by the Department for these priorities; however grantees are expected to support state, local, and regional efforts in achieving the desired outcomes of one or more of these priorities.

- Urban Areas Security Initiative (UASI): The UASI program addresses the unique planning, organization, equipment, training, and exercise needs of high-threat, high-density Urban Areas, and assists them in building an enhanced and sustainable capacity to prevent, protect against, mitigate, respond to, and recover from acts of terrorism.
- Operation Stonegarden (OPSG): OPSG supports enhanced cooperation and coordination among local, tribal, territorial, State, and Federal law enforcement agencies in a joint mission to secure the United States' borders along routes of ingress from international borders to include travel corridors in States bordering Mexico and Canada, as well as States and territories with international water borders.

All three programs are founded on risk-driven, capabilities-based strategic plans. These strategic plans outline capability requirements and inform how available funding may be applied to manage risk. For these plans to be effective, government officials and elected leaders, working with the whole community, must consider how to sustain current capability levels and address potential shortfalls to prevent, protect, mitigate, respond to, and recover from disasters.

The FY 2013 HSGP plays an important role in the implementation of the National Preparedness System (NPS) by supporting the building, sustainment, and delivery of core capabilities essential to achieving the National Preparedness Goal (NPG) of a secure and resilient Nation. Delivering core capabilities requires the combined effort of the whole community, rather than the exclusive effort of any single organization or level of government. The FY 2013 HSGP's allowable costs support efforts to build and sustain core capabilities across the Prevention, Protection, Mitigation, Response, and Recovery mission areas by setting the following priorities and objectives:

Priority One: Implementation of the NPS and a Whole Community Approach to Homeland Security and Emergency Management

**State of Arizona**  
**Federal Operating Budget Detail**  
**(Dollars in Thousands)**

**Agency:** Department of Public Safety

<b>Grant/Project and Description</b>	<b>CFDA</b>	<b>Grantor</b>	<b>AFIS ID</b>	<b>2018 Received</b>	<b>2019 Est. Rev.</b>	<b>2020 Est. Rev.</b>	<b>Footnote(s)</b>
<b>Homeland Security Grant Program</b>	<b>97.067</b>	<b>Department of Homeland Security</b>	617100	0.0	0.0	0.0	.2, 6

- Objective One: Completion of the THIRA process in alignment with National Preparedness System guidance to identify the resources required to deliver core capabilities.
- Objective Two: Conduct risk driven, capabilities-based planning through whole community councils and working groups.
- Objective Three: Organization – Typing of equipment, and credentialing and training of personnel.
- Objective Four: Sustaining Capabilities.

Priority Two: Building and Sustaining Law Enforcement Terrorism Prevention Capabilities

- Objective One: Nationwide Suspicious Activity Reporting Initiative (NSI)

Priority Three: Maturation and Enhancement of State and Major Urban Area Fusion Centers

- Objective One: Baseline Capabilities.
- Objective Two: Analytic Capabilities.

The Department of Homeland Security Appropriations Act, 2013 (Public Law 113-6) authorized additional funding allocated at the discretion of the Secretary of the Department Homeland Security, to support appropriated programs in FY 2013. DHS has augmented the SHSP and UASI grant programs in FY 2013 by allocating an additional \$163.4 million to support the following priority areas:

Priority Four: Innovation and Sustained Support for the National Campaign for Preparedness

- Objective One: Foster individual and community preparedness and resilience by identifying needs; mobilizing partners; and creating innovative and effective solutions that can be grown, sustained, and replicated.

Priority Five: Improve Immediate Emergency Victim Care at Mass Casualty Events

- Objective One: Improve emergency care to victims of mass casualty events, including mass shootings.
- Objective Two: Improve community first aid training.

Minimum funding amounts are not prescribed by the Department for these priorities; however grantees are expected to support state, local, and regional efforts in achieving the desired outcomes of one or more of these priorities.

<p>Federal-aid Highway Program: To assist State transportation agencies in the planning and development of an integrated, interconnected transportation system important to interstate commerce and travel by constructing and rehabilitating the National Highway System (NHS), including the Eisenhower Interstate System; for transportation improvements to many other public roads; to provide aid for the repair of Federal-aid highways following disasters; to foster safe highway design; to replace or rehabilitate deficient or obsolete bridges; and to provide for other special purposes. This program also provides for the improvement of roads in Puerto Rico, Guam, the U.S. Virgin Islands, American Samoa, and the Commonwealth of the Northern Mariana Islands. The Federal Lands Transportation Program (FLTP) provides assistance to the Federal Land Management Agencies (FLMAs) for Federally-owned roads and trails. It provides transportation engineering services and funding for planning, design, construction, and rehabilitation of the highways and bridges providing access to and on federally owned lands. The Federal Lands Highway organization also provides training, technology, deployment, engineering services, and products to other customers.</p>

Federal-aid Highway Program: To assist State transportation agencies in the planning and development of an integrated, interconnected transportation system important to interstate commerce and travel by constructing and rehabilitating the National Highway System (NHS), including the Eisenhower Interstate System; for transportation improvements to many other public roads; to provide aid for the repair of Federal-aid highways following disasters; to foster safe highway design; to replace or rehabilitate deficient or obsolete bridges; and to provide for other special purposes. This program also provides for the improvement of roads in Puerto Rico, Guam, the U.S. Virgin Islands, American Samoa, and the Commonwealth of the Northern Mariana Islands. The Federal Lands Transportation Program (FLTP) provides assistance to the Federal Land Management Agencies (FLMAs) for Federally-owned roads and trails. It provides transportation engineering services and funding for planning, design, construction, and rehabilitation of the highways and bridges providing access to and on federally owned lands. The Federal Lands Highway organization also provides training, technology, deployment, engineering services, and products to other customers.

<u>Performance Measures</u>	<u>2018</u>	<u>2019</u>	<u>2020</u>
Enhance traffic enforcement		1,138	940
Reduce the number of fatal and injury traffic collisions through enhanced speed, DUI and aggressive driving enforcement.

<b>Homeland Security Grant Program</b>	<b>97.067</b>	<b>Department of Homeland Security</b>	624100	190.7	0.0	0.0	.2, 6

FY 2012 HSGP and THSGP provide grant funding to assist state and local governments in obtaining the resources required to support the National Preparedness Goal's (NPG's) associated mission areas and core capabilities. FY 2012 THSGP provides funding directly to eligible tribes to help strengthen the nation against risks associated with potential terrorist attacks. The FY 2012 HSGP is comprised of three interconnected grant programs:

- State Homeland Security Program (SHSP): SHSP supports the implementation of State Homeland Security Strategies to address the identified planning, organization, equipment, training, and exercise needs to prevent, protect against, mitigate, respond to, and recover from acts of terrorism and other catastrophic events.
- Urban Areas Security Initiative (UASI): The UASI program addresses the unique planning, organization, equipment, training, and exercise needs of high-threat, high-density Urban Areas, and assists them in building an enhanced and sustainable capacity to prevent, protect against, mitigate, respond to, and recover from acts of terrorism.
- Operation Stonegarden (OPSG): OPSG supports enhanced cooperation and coordination among local, tribal, territorial, State, and Federal law enforcement agencies in a joint mission to secure the United States' borders along routes of ingress from international borders to include travel corridors in States bordering Mexico and Canada, as well as States and territories with international water borders.

All three programs are founded on risk-driven, capabilities-based strategic plans. These strategic plans outline capability requirements and inform how available funding may be applied to manage risk. For these plans to be effective, government officials and elected leaders, working with the whole community, must consider how to sustain current capability levels and address potential shortfalls to prevent, protect, mitigate, respond to, and recover from disasters.

The FY 2013 HSGP plays an important role in the implementation of the National Preparedness System (NPS) by supporting the building, sustainment, and delivery of core capabilities essential to achieving the National Preparedness Goal (NPG) of a secure and resilient Nation. Delivering core capabilities requires the combined effort of the whole community, rather than the exclusive effort of any single organization or level of government. The FY 2013 HSGP's allowable costs support efforts to build and sustain core capabilities across the Prevention, Protection, Mitigation, Response, and Recovery mission areas by setting the following priorities and objectives:

Priority One: Implementation of the NPS and a Whole Community Approach to Homeland Security and Emergency Management

**State of Arizona**  
**Federal Operating Budget Detail**  
**(Dollars in Thousands)**

**Agency: Department of Public Safety**

<b>Grant/Project and Description</b>	<b>CFDA</b>	<b>Grantor</b>	<b>AFIS ID</b>	<b>2018 Received</b>	<b>2019 Est. Rev.</b>	<b>2020 Est. Rev.</b>	<b>Footnote(s)</b>
<b>Homeland Security Grant Program</b>	<b>97.067</b>	<b>Department of Homeland Security</b>	624100	190.7	0.0	0.0	.2, 6

- Objective One: Completion of the THIRA process in alignment with National Preparedness System guidance to identify the resources required to deliver core capabilities.
- Objective Two: Conduct risk driven, capabilities-based planning through whole community councils and working groups.
- Objective Three: Organization – Typing of equipment, and credentialing and training of personnel.
- Objective Four: Sustaining Capabilities.

Priority Two: Building and Sustaining Law Enforcement Terrorism Prevention Capabilities

- Objective One: Nationwide Suspicious Activity Reporting Initiative (NSI)

Priority Three: Maturation and Enhancement of State and Major Urban Area Fusion Centers

- Objective One: Baseline Capabilities.
- Objective Two: Analytic Capabilities.

The Department of Homeland Security Appropriations Act, 2013 (Public Law 113-6) authorized additional funding allocated at the discretion of the Secretary of the Department Homeland Security, to support appropriated programs in FY 2013. DHS has augmented the SHSP and UASI grant programs in FY 2013 by allocating an additional \$163.4 million to support the following priority areas:

Priority Four: Innovation and Sustained Support for the National Campaign for Preparedness

- Objective One: Foster individual and community preparedness and resilience by identifying needs; mobilizing partners; and creating innovative and effective solutions that can be grown, sustained, and replicated.

Priority Five: Improve Immediate Emergency Victim Care at Mass Casualty Events

- Objective One: Improve emergency care to victims of mass casualty events, including mass shootings.
- Objective Two: Improve community first aid training.

Minimum funding amounts are not prescribed by the Department for these priorities; however grantees are expected to support state, local, and regional efforts in achieving the desired outcomes of one or more of these priorities.

The Federal Motor Carrier Safety Administration's objective is to ensure motor carriers operating commercial vehicles entering the United States from a foreign country are in compliance with commercial vehicle safety standards and regulations, financial responsibility regulations and registration requirements of the United States, and to ensure drivers of those vehicles are qualified and properly licenses to operate the commercial vehicle.

<u>Performance Measures</u>	<u>2018</u>	<u>2019</u>	<u>2020</u>
Conduct at least 25,000 safety inspections for the year	21,971	6,250	
Funds will pay for inspectors to conduct at least 25,000 annual inspections in the Arizona border corridor annually to decrease fatalities. Inspections will include commercial vehicles, motor vehicles, international carriers, passenger cars and Haz Mat vehicles. BEG funds have been depleted and the program absorbed by MCSAP. There will be no further activity under this grant.			

<b>Crime Victim Assistance</b>	<b>16.575</b>	<b>Department of Justice</b>	625400	12,282.8	2,607.7	0.0	.6
--------------------------------	---------------	------------------------------	--------	----------	---------	-----	----

Enacted in 1984, the Victims of Crime Act (VOCA) is the central source of federal financial support for direct services to victim of crime. VOCA is administered at the federal level through the U.S. Department of Justice, Office for Victims of Crime which annually awards a grant to each state, the District of Columbia and U.S. Territories to support victim assistance services for victims and survivors of domestic violence, sexual assault, child abuse, drunk driving, homicide, and other crimes. Each state has a designated VOCA assistance agency to administer VOCA grants. Those state agencies in turn, subgrant to organizations that provide direct services to victims of crime. While minimal federal requirements must be met, each state is given great discretion in awarding specific subgrants.

<u>Performance Measures</u>	<u>2018</u>	<u>2019</u>	<u>2020</u>
Crime Victim Assistance - Number of new victims served	180,326	104,878	20,789
The primary purpose of VOCA Assistance funds is to provide services to Arizona victims of crime. Sub-recipient agencies directly assist victims of sexual assault, survivors of homicide, victims of robbery, DUI accidents, domestic violence, physical assault and other crimes.

The MCSAP is a Federal grant program that provides financial assistance to States to reduce the number and severity of accidents and hazardous materials incidents involving commercial motor vehicles (CMV). The goal of the MCSAP is to reduce CMV-involved accidents, fatalities, and injuries through consistent, uniform, and effective CMV safety programs. Investing grant monies in appropriate safety programs will increase the likelihood that safety defects, driver deficiencies, and unsafe motor carrier practices will be detected and corrected before they become contributing factors to accidents.

<b>Grant/Project and Description</b>	<b>CFDA</b>	<b>Grantor</b>	<b>AFIS ID</b>	<b>2018 Received</b>	<b>2019 Est. Rev.</b>	<b>2020 Est. Rev.</b>	<b>Footnote(s)</b>
<b>Homeland Security Grant Program</b>	<b>97.067</b>	<b>Department of Homeland Security</b>	630200	0.0	0.0	0.0	.2, 6

FY 2012 HSGP and THSGP provide grant funding to assist state and local governments in obtaining the resources required to support the National Preparedness Goal's (NPG's) associated mission areas and core capabilities. FY 2012 THSGP provides funding directly to eligible tribes to help strengthen the nation against risks associated with potential terrorist attacks. The FY 2012 HSGP is comprised of three interconnected grant programs:

- State Homeland Security Program (SHSP): SHSP supports the implementation of State Homeland Security Strategies to address the identified planning, organization, equipment, training, and exercise needs to prevent, protect against, mitigate, respond to, and recover from acts of terrorism and other catastrophic events.
- Urban Areas Security Initiative (UASI): The UASI program addresses the unique planning, organization, equipment, training, and exercise needs of high-threat, high-density Urban Areas, and assists them in building an enhanced and sustainable capacity to prevent, protect against, mitigate, respond to, and recover from acts of terrorism.
- Operation Stonegarden (OPSG): OPSG supports enhanced cooperation and coordination among local, tribal, territorial, State, and Federal law enforcement agencies in a joint mission to secure the United States' borders along routes of ingress from international borders to include travel corridors in States bordering Mexico and Canada, as well as States and territories with international water borders.

All three programs are founded on risk-driven, capabilities-based strategic plans. These strategic plans outline capability requirements and inform how available funding may be applied to manage risk. For these plans to be effective, government officials and elected leaders, working with the whole community, must consider how to sustain current capability levels and address potential shortfalls to prevent, protect, mitigate, respond to, and recover from disasters.

The FY 2013 HSGP plays an important role in the implementation of the National Preparedness System (NPS) by supporting the building, sustainment, and delivery of core capabilities essential to achieving the National Preparedness Goal (NPG) of a secure and resilient Nation. Delivering core capabilities requires the combined effort of the whole community, rather than the exclusive effort of any single organization or level of government. The FY 2013 HSGP's allowable costs support efforts to build and sustain core capabilities across the Prevention, Protection, Mitigation, Response, and Recovery mission areas by setting the following priorities and objectives:

Priority One: Implementation of the NPS and a Whole Community Approach to Homeland Security and Emergency Management

**State of Arizona**

**(Dollars in Thousands)**

**Agency:** Department of Public Safety

<b>Grant/Project and Description</b>	<b>CFDA</b>	<b>Grantor</b>	<b>AFIS ID</b>	<b>2018 Received</b>	<b>2019 Est. Rev.</b>	<b>2020 Est. Rev.</b>	<b>Footnote(s)</b>
<b>Homeland Security Grant Program</b>	<b>97.067</b>	<b>Department of Homeland Security</b>	630200	0.0	0.0	0.0	.2, 6

- Objective One: Completion of the THIRA process in alignment with National Preparedness System guidance to identify the resources required to deliver core capabilities.
- Objective Two: Conduct risk driven, capabilities-based planning through whole community councils and working groups.
- Objective Three: Organization – Typing of equipment, and credentialing and training of personnel.
- Objective Four: Sustaining Capabilities.

Priority Two: Building and Sustaining Law Enforcement Terrorism Prevention Capabilities

- Objective One: Nationwide Suspicious Activity Reporting Initiative (NSI)

Priority Three: Maturation and Enhancement of State and Major Urban Area Fusion Centers

- Objective One: Baseline Capabilities.
- Objective Two: Analytic Capabilities.

The Department of Homeland Security Appropriations Act, 2013 (Public Law 113-6) authorized additional funding allocated at the discretion of the Secretary of the Department Homeland Security, to support appropriated programs in FY 2013. DHS has augmented the SHSP and UASI grant programs in FY 2013 by allocating an additional \$163.4 million to support the following priority areas:

Priority Four: Innovation and Sustained Support for the National Campaign for Preparedness

- Objective One: Foster individual and community preparedness and resilience by identifying needs; mobilizing partners; and creating innovative and effective solutions that can be grown, sustained, and replicated.

Priority Five: Improve Immediate Emergency Victim Care at Mass Casualty Events

- Objective One: Improve emergency care to victims of mass casualty events, including mass shootings.
- Objective Two: Improve community first aid training.

Minimum funding amounts are not prescribed by the Department for these priorities; however grantees are expected to support state, local, and regional efforts in achieving the desired outcomes of one or more of these priorities.

Priority Three: Maturation and Enhancement of State and Major Urban Area Fusion Centers

- Objective One: Baseline Capabilities.
- Objective Two: Analytic Capabilities.

The Department of Homeland Security Appropriations Act, 2013 (Public Law 113-6) authorized additional funding allocated at the discretion of the Secretary of the Department Homeland Security, to support appropriated programs in FY 2013. DHS has augmented the SHSP and UASI grant programs in FY 2013 by allocating an additional \$163.4 million to support the following priority areas:

Priority Four: Innovation and Sustained Support for the National Campaign for Preparedness

- Objective One: Foster individual and community preparedness and resilience by identifying needs; mobilizing partners; and creating innovative and effective solutions that can be grown, sustained, and replicated.

Priority Five: Improve Immediate Emergency Victim Care at Mass Casualty Events

- Objective One: Improve emergency care to victims of mass casualty events, including mass shootings.
- Objective Two: Improve community first aid training.

Minimum funding amounts are not prescribed by the Department for these priorities; however grantees are expected to support state, local, and regional efforts in achieving the desired outcomes of one or more of these priorities.

FY 2012 HSGP and THSGP provide grant funding to assist state and local governments in obtaining the resources required to support the National Preparedness Goal's (NPG's) associated mission areas and core capabilities. FY 2012 THSGP provides funding directly to eligible tribes to help strengthen the nation against risks associated with potential terrorist attacks. The FY 2012 HSGP is comprised of three interconnected grant programs:

- State Homeland Security Program (SHSP): SHSP supports the implementation of State Homeland Security Strategies to address the identified planning, organization, equipment, training, and exercise needs to prevent, protect against, mitigate, respond to, and recover from acts of terrorism and other catastrophic events.
- Urban Areas Security Initiative (UASI): The UASI program addresses the unique planning, organization, equipment, training, and exercise needs of high-threat, high-density Urban Areas, and assists them in building an enhanced and sustainable capacity to prevent, protect against, mitigate, respond to, and recover from acts of terrorism.
- Operation Stonegarden (OPSG): OPSG supports enhanced cooperation and coordination among local, tribal, territorial, State, and Federal law enforcement agencies in a joint mission to secure the United States' borders along routes of ingress from international borders to include travel corridors in States bordering Mexico and Canada, as well as States and territories with international water borders.

All three programs are founded on risk-driven, capabilities-based strategic plans. These strategic plans outline capability requirements and inform how available funding may be applied to manage risk. For these plans to be effective, government officials and elected leaders, working with the whole community, must consider how to sustain current capability levels and address potential shortfalls to prevent, protect, mitigate, respond to, and recover from disasters.

The FY 2013 HSGP plays an important role in the implementation of the National Preparedness System (NPS) by supporting the building, sustainment, and delivery of core capabilities essential to achieving the National Preparedness Goal (NPG) of a secure and resilient Nation. Delivering core capabilities requires the combined effort of the whole community, rather than the exclusive effort of any single organization or level of government. The FY 2013 HSGP's allowable costs support efforts to build and sustain core capabilities across the Prevention, Protection, Mitigation, Response, and Recovery mission areas by setting the following priorities and objectives:

Priority One: Implementation of the NPS and a Whole Community Approach to Homeland Security and Emergency Management

<b>Homeland Security Grant Program</b>	<b>97.067</b>	<b>Department of Homeland Security</b>	630480	9.6	0.0	0.0	.2, 6

FY 2012 HSGP and THSGP provide grant funding to assist state and local governments in obtaining the resources required to support the National Preparedness Goal's (NPG's) associated mission areas and core capabilities. FY 2012 THSGP provides funding directly to eligible tribes to help strengthen the nation against risks associated with potential terrorist attacks. The FY 2012 HSGP is comprised of three interconnected grant programs:

- State Homeland Security Program (SHSP): SHSP supports the implementation of State Homeland Security Strategies to address the identified planning, organization, equipment, training, and exercise needs to prevent, protect against, mitigate, respond to, and recover from acts of terrorism and other catastrophic events.
- Urban Areas Security Initiative (UASI): The UASI program addresses the unique planning, organization, equipment, training, and exercise needs of high-threat, high-density Urban Areas, and assists them in building an enhanced and sustainable capacity to prevent, protect against, mitigate, respond to, and recover from acts of terrorism.
- Operation Stonegarden (OPSG): OPSG supports enhanced cooperation and coordination among local, tribal, territorial, State, and Federal law enforcement agencies in a joint mission to secure the United States' borders along routes of ingress from international borders to include travel corridors in States bordering Mexico and Canada, as well as States and territories with international water borders.

All three programs are founded on risk-driven, capabilities-based strategic plans. These strategic plans outline capability requirements and inform how available funding may be applied to manage risk. For these plans to be effective, government officials and elected leaders, working with the whole community, must consider how to sustain current capability levels and address potential shortfalls to prevent, protect, mitigate, respond to, and recover from disasters.

The FY 2013 HSGP plays an important role in the implementation of the National Preparedness System (NPS) by supporting the building, sustainment, and delivery of core capabilities essential to achieving the National Preparedness Goal (NPG) of a secure and resilient Nation. Delivering core capabilities requires the combined effort of the whole community, rather than the exclusive effort of any single organization or level of government. The FY 2013 HSGP's allowable costs support efforts to build and sustain core capabilities across the Prevention, Protection, Mitigation, Response, and Recovery mission areas by setting the following priorities and objectives:

Priority One: Implementation of the NPS and a Whole Community Approach to Homeland Security and Emergency Management

**State of Arizona**  
**Federal Operating Budget Detail**  
**(Dollars in Thousands)**

**Agency: Department of Public Safety**

<b>Grant/Project and Description</b>	<b>CFDA</b>	<b>Grantor</b>	<b>AFIS ID</b>	<b>2018 Received</b>	<b>2019 Est. Rev.</b>	<b>2020 Est. Rev.</b>	<b>Footnote(s)</b>
<b>Homeland Security Grant Program</b>	<b>97.067</b>	<b>Department of Homeland Security</b>	630480	9.6	0.0	0.0	.2, 6

- Objective One: Completion of the THIRA process in alignment with National Preparedness System guidance to identify the resources required to deliver core capabilities.
- Objective Two: Conduct risk driven, capabilities-based planning through whole community councils and working groups.
- Objective Three: Organization – Typing of equipment, and credentialing and training of personnel.
- Objective Four: Sustaining Capabilities.

Priority Two: Building and Sustaining Law Enforcement Terrorism Prevention Capabilities

- Objective One: Nationwide Suspicious Activity Reporting Initiative (NSI)

Priority Three: Maturation and Enhancement of State and Major Urban Area Fusion Centers

- Objective One: Baseline Capabilities.
- Objective Two: Analytic Capabilities.

The Department of Homeland Security Appropriations Act, 2013 (Public Law 113-6) authorized additional funding allocated at the discretion of the Secretary of the Department Homeland Security, to support appropriated programs in FY 2013. DHS has augmented the SHSP and UASI grant programs in FY 2013 by allocating an additional \$163.4 million to support the following priority areas:

Priority Four: Innovation and Sustained Support for the National Campaign for Preparedness

- Objective One: Foster individual and community preparedness and resilience by identifying needs; mobilizing partners; and creating innovative and effective solutions that can be grown, sustained, and replicated.

Priority Five: Improve Immediate Emergency Victim Care at Mass Casualty Events

- Objective One: Improve emergency care to victims of mass casualty events, including mass shootings.
- Objective Two: Improve community first aid training.

Minimum funding amounts are not prescribed by the Department for these priorities; however grantees are expected to support state, local, and regional efforts in achieving the desired outcomes of one or more of these priorities.

<b>Grant/Project and Description</b>	<b>CFDA</b>	<b>Grantor</b>	<b>AFIS ID</b>	<b>2018 Received</b>	<b>2019 Est. Rev.</b>	<b>2020 Est. Rev.</b>	<b>Footnote(s)</b>
<b>Homeland Security Grant Program</b>	<b>97.067</b>	<b>Department of Homeland Security</b>	630503	28.5	0.0	0.0	.2, 6

- Objective One: Completion of the THIRA process in alignment with National Preparedness System guidance to identify the resources required to deliver core capabilities.
- Objective Two: Conduct risk driven, capabilities-based planning through whole community councils and working groups.
- Objective Three: Organization – Typing of equipment, and credentialing and training of personnel.
- Objective Four: Sustaining Capabilities.

Priority Two: Building and Sustaining Law Enforcement Terrorism Prevention Capabilities

- Objective One: Nationwide Suspicious Activity Reporting Initiative (NSI)

Priority Three: Maturation and Enhancement of State and Major Urban Area Fusion Centers

- Objective One: Baseline Capabilities.
- Objective Two: Analytic Capabilities.

The Department of Homeland Security Appropriations Act, 2013 (Public Law 113-6) authorized additional funding allocated at the discretion of the Secretary of the Department Homeland Security, to support appropriated programs in FY 2013. DHS has augmented the SHSP and UASI grant programs in FY 2013 by allocating an additional \$163.4 million to support the following priority areas:

Priority Four: Innovation and Sustained Support for the National Campaign for Preparedness

- Objective One: Foster individual and community preparedness and resilience by identifying needs; mobilizing partners; and creating innovative and effective solutions that can be grown, sustained, and replicated.

Priority Five: Improve Immediate Emergency Victim Care at Mass Casualty Events

- Objective One: Improve emergency care to victims of mass casualty events, including mass shootings.
- Objective Two: Improve community first aid training.

Minimum funding amounts are not prescribed by the Department for these priorities; however grantees are expected to support state, local, and regional efforts in achieving the desired outcomes of one or more of these priorities.

<b>Homeland Security Grant Program</b>	<b>97.067</b>	<b>Department of Homeland Security</b>	630504	214.6	0.0	0.0	.2, 6

FY 2012 HSGP and THSGP provide grant funding to assist state and local governments in obtaining the resources required to support the National Preparedness Goal's (NPG's) associated mission areas and core capabilities. FY 2012 THSGP provides funding directly to eligible tribes to help strengthen the nation against risks associated with potential terrorist attacks. The FY 2012 HSGP is comprised of three interconnected grant programs:

- State Homeland Security Program (SHSP): SHSP supports the implementation of State Homeland Security Strategies to address the identified planning, organization, equipment, training, and exercise needs to prevent, protect against, mitigate, respond to, and recover from acts of terrorism and other catastrophic events.
- Urban Areas Security Initiative (UASI): The UASI program addresses the unique planning, organization, equipment, training, and exercise needs of high-threat, high-density Urban Areas, and assists them in building an enhanced and sustainable capacity to prevent, protect against, mitigate, respond to, and recover from acts of terrorism.
- Operation Stonegarden (OPSG): OPSG supports enhanced cooperation and coordination among local, tribal, territorial, State, and Federal law enforcement agencies in a joint mission to secure the United States' borders along routes of ingress from international borders to include travel corridors in States bordering Mexico and Canada, as well as States and territories with international water borders.

All three programs are founded on risk-driven, capabilities-based strategic plans. These strategic plans outline capability requirements and inform how available funding may be applied to manage risk. For these plans to be effective, government officials and elected leaders, working with the whole community, must consider how to sustain current capability levels and address potential shortfalls to prevent, protect, mitigate, respond to, and recover from disasters.

The FY 2013 HSGP plays an important role in the implementation of the National Preparedness System (NPS) by supporting the building, sustainment, and delivery of core capabilities essential to achieving the National Preparedness Goal (NPG) of a secure and resilient Nation. Delivering core capabilities requires the combined effort of the whole community, rather than the exclusive effort of any single organization or level of government. The FY 2013 HSGP's allowable costs support efforts to build and sustain core capabilities across the Prevention, Protection, Mitigation, Response, and Recovery mission areas by setting the following priorities and objectives:

Priority One: Implementation of the NPS and a Whole Community Approach to Homeland Security and Emergency Management

<b>Homeland Security Grant Program</b>	<b>97.067</b>	<b>Department of Homeland Security</b>	630509	51.5	0.0	0.0	.2, 6

FY 2012 HSGP and THSGP provide grant funding to assist state and local governments in obtaining the resources required to support the National Preparedness Goal's (NPG's) associated mission areas and core capabilities. FY 2012 THSGP provides funding directly to eligible tribes to help strengthen the nation against risks associated with potential terrorist attacks. The FY 2012 HSGP is comprised of three interconnected grant programs:

- State Homeland Security Program (SHSP): SHSP supports the implementation of State Homeland Security Strategies to address the identified planning, organization, equipment, training, and exercise needs to prevent, protect against, mitigate, respond to, and recover from acts of terrorism and other catastrophic events.
- Urban Areas Security Initiative (UASI): The UASI program addresses the unique planning, organization, equipment, training, and exercise needs of high-threat, high-density Urban Areas, and assists them in building an enhanced and sustainable capacity to prevent, protect against, mitigate, respond to, and recover from acts of terrorism.
- Operation Stonegarden (OPSG): OPSG supports enhanced cooperation and coordination among local, tribal, territorial, State, and Federal law enforcement agencies in a joint mission to secure the United States' borders along routes of ingress from international borders to include travel corridors in States bordering Mexico and Canada, as well as States and territories with international water borders.

All three programs are founded on risk-driven, capabilities-based strategic plans. These strategic plans outline capability requirements and inform how available funding may be applied to manage risk. For these plans to be effective, government officials and elected leaders, working with the whole community, must consider how to sustain current capability levels and address potential shortfalls to prevent, protect, mitigate, respond to, and recover from disasters.

The FY 2013 HSGP plays an important role in the implementation of the National Preparedness System (NPS) by supporting the building, sustainment, and delivery of core capabilities essential to achieving the National Preparedness Goal (NPG) of a secure and resilient Nation. Delivering core capabilities requires the combined effort of the whole community, rather than the exclusive effort of any single organization or level of government. The FY 2013 HSGP's allowable costs support efforts to build and sustain core capabilities across the Prevention, Protection, Mitigation, Response, and Recovery mission areas by setting the following priorities and objectives:

Priority One: Implementation of the NPS and a Whole Community Approach to Homeland Security and Emergency Management

**State of Arizona**  
**Federal Operating Budget Detail**  
**(Dollars in Thousands)**

**Agency: Department of Public Safety**

<b>Grant/Project and Description</b>	<b>CFDA</b>	<b>Grantor</b>	<b>AFIS ID</b>	<b>2018 Received</b>	<b>2019 Est. Rev.</b>	<b>2020 Est. Rev.</b>	<b>Footnote(s)</b>
<b>Homeland Security Grant Program</b>	<b>97.067</b>	<b>Department of Homeland Security</b>	630509	51.5	0.0	0.0	.2, 6

- Objective One: Completion of the THIRA process in alignment with National Preparedness System guidance to identify the resources required to deliver core capabilities.
- Objective Two: Conduct risk driven, capabilities-based planning through whole community councils and working groups.
- Objective Three: Organization – Typing of equipment, and credentialing and training of personnel.
- Objective Four: Sustaining Capabilities.

Priority Two: Building and Sustaining Law Enforcement Terrorism Prevention Capabilities

- Objective One: Nationwide Suspicious Activity Reporting Initiative (NSI)

Priority Three: Maturation and Enhancement of State and Major Urban Area Fusion Centers

- Objective One: Baseline Capabilities.
- Objective Two: Analytic Capabilities.

The Department of Homeland Security Appropriations Act, 2013 (Public Law 113-6) authorized additional funding allocated at the discretion of the Secretary of the Department Homeland Security, to support appropriated programs in FY 2013. DHS has augmented the SHSP and UASI grant programs in FY 2013 by allocating an additional \$163.4 million to support the following priority areas:

Priority Four: Innovation and Sustained Support for the National Campaign for Preparedness

- Objective One: Foster individual and community preparedness and resilience by identifying needs; mobilizing partners; and creating innovative and effective solutions that can be grown, sustained, and replicated.

Priority Five: Improve Immediate Emergency Victim Care at Mass Casualty Events

- Objective One: Improve emergency care to victims of mass casualty events, including mass shootings.
- Objective Two: Improve community first aid training.

Minimum funding amounts are not prescribed by the Department for these priorities; however grantees are expected to support state, local, and regional efforts in achieving the desired outcomes of one or more of these priorities.

FY 2012 HSGP and THSGP provide grant funding to assist state and local governments in obtaining the resources required to support the National Preparedness Goal's (NPG's) associated mission areas and core capabilities. FY 2012 THSGP provides funding directly to eligible tribes to help strengthen the nation against risks associated with potential terrorist attacks. The FY 2012 HSGP is comprised of three interconnected grant programs:

- State Homeland Security Program (SHSP): SHSP supports the implementation of State Homeland Security Strategies to address the identified planning, organization, equipment, training, and exercise needs to prevent, protect against, mitigate, respond to, and recover from acts of terrorism and other catastrophic events.
- Urban Areas Security Initiative (UASI): The UASI program addresses the unique planning, organization, equipment, training, and exercise needs of high-threat, high-density Urban Areas, and assists them in building an enhanced and sustainable capacity to prevent, protect against, mitigate, respond to, and recover from acts of terrorism.
- Operation Stonegarden (OPSG): OPSG supports enhanced cooperation and coordination among local, tribal, territorial, State, and Federal law enforcement agencies in a joint mission to secure the United States' borders along routes of ingress from international borders to include travel corridors in States bordering Mexico and Canada, as well as States and territories with international water borders.

All three programs are founded on risk-driven, capabilities-based strategic plans. These strategic plans outline capability requirements and inform how available funding may be applied to manage risk. For these plans to be effective, government officials and elected leaders, working with the whole community, must consider how to sustain current capability levels and address potential shortfalls to prevent, protect, mitigate, respond to, and recover from disasters.

To coordinate Federal missing and exploited children activities and to support research, training, technical assistance, and demonstration programs to enhance the overall response to missing children and their families. Establish and maintain a national resource center and clearinghouse dedicated to missing and exploited children issues that: (1) provides a toll-free hotline where citizens can report investigative leads and parents and other interested individuals can receive information concerning missing children; (2) provides technical assistance to parents, law enforcement, and other professionals working on missing and exploited children cases; (3) promotes information sharing and provides technical assistance by networking with regional nonprofit organizations, State missing children clearinghouses, and law enforcement agencies; (4) develops publications that contain practical, timely information; and (5) provides information regarding programs offering free or low-cost transportation services that assist in reuniting children with their families. On a periodic basis, as funding is designated by Congress for this purpose, conduct national incidence studies to determine the type and extent of missing children in America. Support law enforcement demonstration programs (e.g., the Internet Crimes Against Children Task Force Program) to enhance the investigative response to missing and exploited children cases. Support research to broaden understanding of a wide range of missing and exploited children issues (e.g., abduction homicide investigation solvability factors), to inform training and technical assistance efforts and to identify promising practices and programs for replication. Develop training programs for law enforcement, child protective services, medical personnel, and prosecutors to enhance coordination and effectiveness of missing and exploited children investigations and to enhance the overall system response. Identify service gaps and develop programs to meet specialized needs of parents or guardians of children who are reported missing.

<u>Performance Measures</u>	<u>2018</u>	<u>2019</u>	<u>2020</u>
FY17 Internet Crimes Against Children (ICAC)		\$15,000	
Funding will provide training and equipment for DPS personnel to apprehend and bring to justice Internet Sexual Predators as well as Internet Child Pornographers.

<b>Grant/Project and Description</b>	<b>CFDA</b>	<b>Grantor</b>	<b>AFIS ID</b>	<b>2018 Received</b>	<b>2019 Est. Rev.</b>	<b>2020 Est. Rev.</b>	<b>Footnote(s)</b>
<b>Crime Victim Assistance</b>	<b>16.575</b>	<b>Department of Justice</b>	640100	12,221.9	34,077.8	214.7	.6
Enacted in 1984, the Victims of Crime Act (VOCA) is the central source of federal financial support for direct services to victim of crime. VOCA is administered at the federal level through the U.S. Department of Justice, Office for Victims of Crime which annually awards a grant to each state, the District of Columbia and U.S. Territories to support victim assistance services for victims and survivors of domestic violence, sexual assault, child abuse, drunk driving, homicide, and other crimes. Each state has a designated VOCA assistance agency to administer VOCA grants. Those state agencies in turn, subgrant to organizations that provide direct services to victims of crime. While minimal federal requirements must be met, each state is given great discretion in awarding specific subgrants.							

<u>Performance Measures</u>	<u>2018</u>	<u>2019</u>	<u>2020</u>
Crime Victim Assistance - Number of new victims served		112,518	314,393
The primary purpose of VOCA Assistance funds is to provide services to Arizona victims of crime. Sub-recipient agencies directly assist victims of sexual assault, survivors of homicide, victims of robbery, DUI accidents, domestic violence, physical assault and other crimes.			

<b>Paul Coverdell Forensic Sciences Improvement Grant Program</b>	<b>16.742</b>	<b>Department of Justice</b>	650001	44.5	0.0	0.0	.2, 6
To improve the quality and timeliness of forensic science and medical examiner services and/or to eliminate backlogs in the analysis of forensic evidence, including controlled substances, firearms examination, forensic pathology, latent prints, questioned documents, toxicology, and trace evidence for criminal justice purposes.							

<u>Performance Measures</u>	<u>2018</u>	<u>2019</u>	<u>2020</u>
Number of forensic personnel attending training	40	51	
Funding will be used for forensic science education and training. They will be used to assist in the training of scientific staff at all four DPS regional laboratories. Funding will provide training to newly hired forensic scientists in order for them to become proficient in examining evidence; in reaching accurate, valid conclusions, and be accepted as expert witnesses in Arizona's courts. In addition, funds will be used to allow experienced forensic scientists to maintain and/or increase their knowledge of new analytical techniques, process improvement, etc.

<b>Grant/Project and Description</b>	<b>CFDA</b>	<b>Grantor</b>	<b>AFIS ID</b>	<b>2018 Received</b>	<b>2019 Est. Rev.</b>	<b>2020 Est. Rev.</b>	<b>Footnote(s)</b>
<b>NICS Act Record Improvement Program</b>	<b>16.813</b>	<b>Department of Justice</b>	650011	154.7	0.0	0.0	.2, 6

To improve the FBI's National Instant Criminal Background Check System (NICS) by providing assistance to states to improve the completeness, automation and transmittal to state and federal systems the records utilized by the NICS. Such records include criminal history records, records of felony convictions, warrants, records of protective orders, convictions for misdemeanor involving domestic violence and stalking, records of mental health adjudications, and others, which may disqualify an individual from possessing or receiving a firearm under federal law. Helping states to automate these records will also reduce delays for law-abiding gun purchasers.

The NICS Improvement Act amends the Brady Handgun Violence Prevention Act of 1993 ("the Brady Act") (Public Law 103-159), under which the Attorney General established NICS. The Brady Act requires Federal Firearms Licensees (FFLs) to contact the NICS before transferring a firearm to an unlicensed person for information on whether the proposed transferee is prohibited from receiving or possessing a firearm under state or federal law. The NICS Improvement Act was enacted in the wake of the April 2007 shooting tragedy at Virginia Tech. The Virginia Tech shooter was able to purchase firearms from an FFL because information about his prohibiting mental health history was not available to the NICS and the system was therefore unable to deny the transfer of the firearms used in the shootings.

The Act seeks to address the gap in information available to NICS about such prohibiting mental health adjudications and commitments and other prohibiting backgrounds. Filling these information gaps will better enable the system to operate as intended to keep guns out of the hands of persons prohibited by federal or state law from receiving or possessing firearms.

The Act authorized two grant programs to assist states in providing certain information to the NICS, and prescribes grant penalties for non-compliance with the Act's record completeness goals. Pursuant to the Act, there are certain conditions, described below, that a state must satisfy in advance of receiving grants under the Act. The NICS Improvement Act has provisions that require states to meet specified goals for completeness of the records submitted to the Attorney General on individuals prohibited by federal law from possessing firearms. The records covered include automated information needed by the NICS to identify felony convictions, felony indictments, fugitives from justice, drug arrests and convictions, prohibiting mental health adjudications and commitments, domestic violence protection orders, and misdemeanor crimes of domestic violence.

The Act provides for a number of incentives for states to meet the goals it sets for greater record completeness. First, the Act allows states to obtain a waiver, beginning in 2011, of the state matching requirement under the National Criminal

History Improvement Program (NCHIP) grant program, if a state provides at least 90 percent of its records identifying persons in specified prohibited categories. Second, the Act authorizes grant programs described herein, which, pursuant to the Act, are being administered consistent with NCHIP, for state executive and judicial agencies to establish and upgrade information automation and identification technologies for timely submission of final criminal record dispositions and other information relevant to NICS checks. Finally, the Act provides for discretionary and mandatory Byrne Justice Assistance Grant (JAG) program grant penalties, beginning 3 years after enactment, for non-compliance with specified record completeness requirements within certain timeframes: after 3 years, 3 percent may be withheld in the case of less than 50 percent completeness; after 5 years, 4 percent may be withheld in the case of less than 70 percent completeness; and after 10 years, 5 percent shall be withheld in the case of less than 90 percent completeness (although the mandatory reduction can be waived if there is substantial evidence of the state making a reasonable effort to comply).							
<u>Performance Measures</u>			<u>2018</u>	<u>2019</u>	<u>2020</u>		
Criminal history records automation and correction				1,120	5,000		
To automate approximately 5,000 of the Arizona criminal history records currently not available electronically through the Arizona Computerized Criminal History Database (ACCH). The Central State Repository will use these funds to pay overtime to staff members to automate and quality control the non-automated records.

<b>National Sexual Assault Kit Initiative</b>	<b>16.833</b>	<b>Department of Justice</b>	650030	13.6	0.0	0.0	.2, 6

The Sexual Assault Kit Initiative, administered by BJA, provides funding through a competitive grant program to support multi-disciplinary community response teams engaged in the comprehensive reform of jurisdictions' approaches to sexual assault cases resulting from evidence found in previously un-submitted sexual assault kits (SAKs).

Un-submitted kits (those in in police custody that have never been submitted to a crime laboratory for testing) and untested kits (those that have been submitted to crime labs but are delayed for testing (e.g. as a result of a backlog of work in the laboratory) are separate and distinct issues. The focus of this effort is on those un-submitted kits that have never been submitted to a crime laboratory.

The goal of the SAKI is the creation of a coordinated community response that ensures just resolution to these cases whenever possible through a victim-centered approach, as well as to build jurisdictions' capacity to prevent the development of conditions that lead to high numbers of un-submitted SAKs in the future.

<u>Performance Measures</u>	<u>2018</u>	<u>2019</u>	<u>2020</u>
Number of outsourced sex assault kits		268	100
Number of backlogged sexual assault cases submitted to outsourced labs to conduct analysis.

<b>Support for Adam Walsh Act Implementation Grant Program</b>	<b>16.750</b>	<b>Department of Justice</b>	650040	65.9	0.0	0.0	.2, 6

To assist State, local, and tribal jurisdictions with developing and/or enhancing programs designed to implement requirements of the Sex Offender Registration and Notification Act (SORNA), Title I of the Adam Walsh Child Protection and Safety Act of 2006; to support other grant programs authorized by the AWA, and to provide for the maintenance and operation of the Dru Sjodin National Sex Offender Public Website (NSOPW). In summary, SORNA requires: (1) all States, the District of Columbia, the principal U.S. territories, and federally recognized American Indian tribes that are eligible under SORNA section 127 to carry out the functions of SORNA and have elected to do so to maintain a sex offender registry; and (2) sex offenders to register and maintain a current registration in each jurisdiction where the offender resides, is an employee, and is a student. SORNA also sets forth requirements for sex offender registries to include: specified required information, duration of registration, and in-person verification of sex offender identity as well as participation in the NSOPW. NSOPW links to state, territory and tribal public sex offender registries thus allowing nation-wide searches for registered sex offenders.

<u>Performance Measures</u>	<u>2018</u>	<u>2019</u>	<u>2020</u>
Offender Watch Phase II		\$65,900	
Federal funds will build a data bridge from existing Sex Offender Watch database for DPS' database. The database will allow sex offender data to be sent directly to NCIC. In addition, DPS will train all 15 counties on the database.

<b>Homeland Security Grant Program</b>	<b>97.067</b>	<b>Department of Homeland Security</b>	677220	42.0	0.0	0.0	.2, 6

FY 2012 HSGP and THSGP provide grant funding to assist state and local governments in obtaining the resources required to support the National Preparedness Goal's (NPG's) associated mission areas and core capabilities. FY 2012 THSGP provides funding directly to eligible tribes to help strengthen the nation against risks associated with potential terrorist attacks. The FY 2012 HSGP is comprised of three interconnected grant programs:

- State Homeland Security Program (SHSP): SHSP supports the implementation of State Homeland Security Strategies to address the identified planning, organization, equipment, training, and exercise needs to prevent, protect against, mitigate, respond to, and recover from acts of terrorism and other catastrophic events.
- Urban Areas Security Initiative (UASI): The UASI program addresses the unique planning, organization, equipment, training, and exercise needs of high-threat, high-density Urban Areas, and assists them in building an enhanced and sustainable capacity to prevent, protect against, mitigate, respond to, and recover from acts of terrorism.
- Operation Stonegarden (OPSG): OPSG supports enhanced cooperation and coordination among local, tribal, territorial, State, and Federal law enforcement agencies in a joint mission to secure the United States' borders along routes of ingress from international borders to include travel corridors in States bordering Mexico and Canada, as well as States and territories with international water borders.

All three programs are founded on risk-driven, capabilities-based strategic plans. These strategic plans outline capability requirements and inform how available funding may be applied to manage risk. For these plans to be effective, government officials and elected leaders, working with the whole community, must consider how to sustain current capability levels and address potential shortfalls to prevent, protect, mitigate, respond to, and recover from disasters.

The FY 2013 HSGP plays an important role in the implementation of the National Preparedness System (NPS) by supporting the building, sustainment, and delivery of core capabilities essential to achieving the National Preparedness Goal (NPG) of a secure and resilient Nation. Delivering core capabilities requires the combined effort of the whole community, rather than the exclusive effort of any single organization or level of government. The FY 2013 HSGP's allowable costs support efforts to build and sustain core capabilities across the Prevention, Protection, Mitigation, Response, and Recovery mission areas by setting the following priorities and objectives:

Priority One: Implementation of the NPS and a Whole Community Approach to Homeland Security and Emergency Management

**State of Arizona**  
**Federal Operating Budget Detail**  
**(Dollars in Thousands)**

**Agency: Department of Public Safety**

<b>Grant/Project and Description</b>	<b>CFDA</b>	<b>Grantor</b>	<b>AFIS ID</b>	<b>2018 Received</b>	<b>2019 Est. Rev.</b>	<b>2020 Est. Rev.</b>	<b>Footnote(s)</b>
<b>Homeland Security Grant Program</b>	<b>97.067</b>	<b>Department of Homeland Security</b>	677220	42.0	0.0	0.0	.2, 6

- Objective One: Completion of the THIRA process in alignment with National Preparedness System guidance to identify the resources required to deliver core capabilities.
- Objective Two: Conduct risk driven, capabilities-based planning through whole community councils and working groups.
- Objective Three: Organization – Typing of equipment, and credentialing and training of personnel.
- Objective Four: Sustaining Capabilities.

Priority Two: Building and Sustaining Law Enforcement Terrorism Prevention Capabilities

- Objective One: Nationwide Suspicious Activity Reporting Initiative (NSI)

Priority Three: Maturation and Enhancement of State and Major Urban Area Fusion Centers

- Objective One: Baseline Capabilities.
- Objective Two: Analytic Capabilities.

The Department of Homeland Security Appropriations Act, 2013 (Public Law 113-6) authorized additional funding allocated at the discretion of the Secretary of the Department Homeland Security, to support appropriated programs in FY 2013. DHS has augmented the SHSP and UASI grant programs in FY 2013 by allocating an additional \$163.4 million to support the following priority areas:

Priority Four: Innovation and Sustained Support for the National Campaign for Preparedness

- Objective One: Foster individual and community preparedness and resilience by identifying needs; mobilizing partners; and creating innovative and effective solutions that can be grown, sustained, and replicated.

Priority Five: Improve Immediate Emergency Victim Care at Mass Casualty Events

- Objective One: Improve emergency care to victims of mass casualty events, including mass shootings.
- Objective Two: Improve community first aid training.

Minimum funding amounts are not prescribed by the Department for these priorities; however grantees are expected to support state, local, and regional efforts in achieving the desired outcomes of one or more of these priorities.

<b>Grant/Project and Description</b>	<b>CFDA</b>	<b>Grantor</b>	<b>AFIS ID</b>	<b>2018 Received</b>	<b>2019 Est. Rev.</b>	<b>2020 Est. Rev.</b>	<b>Footnote(s)</b>
<b>NICS Act Record Improvement Program</b>	<b>16.813</b>	<b>Department of Justice</b>	692100	0.0	0.0	0.0	.2, 6

To improve the FBI's National Instant Criminal Background Check System (NICS) by providing assistance to states to improve the completeness, automation and transmittal to state and federal systems the records utilized by the NICS. Such records include criminal history records, records of felony convictions, warrants, records of protective orders, convictions for misdemeanor involving domestic violence and stalking, records of mental health adjudications, and others, which may disqualify an individual from possessing or receiving a firearm under federal law. Helping states to automate these records will also reduce delays for law-abiding gun purchasers.

The NICS Improvement Act amends the Brady Handgun Violence Prevention Act of 1993 ("the Brady Act") (Public Law 103-159), under which the Attorney General established NICS. The Brady Act requires Federal Firearms Licensees (FFLs) to contact the NICS before transferring a firearm to an unlicensed person for information on whether the proposed transferee is prohibited from receiving or possessing a firearm under state or federal law. The NICS Improvement Act was enacted in the wake of the April 2007 shooting tragedy at Virginia Tech. The Virginia Tech shooter was able to purchase firearms from an FFL because information about his prohibiting mental health history was not available to the NICS and the system was therefore unable to deny the transfer of the firearms used in the shootings.

The Act seeks to address the gap in information available to NICS about such prohibiting mental health adjudications and commitments and other prohibiting backgrounds. Filling these information gaps will better enable the system to operate as intended to keep guns out of the hands of persons prohibited by federal or state law from receiving or possessing firearms.

The Act authorized two grant programs to assist states in providing certain information to the NICS, and prescribes grant penalties for non-compliance with the Act's record completeness goals. Pursuant to the Act, there are certain conditions, described below, that a state must satisfy in advance of receiving grants under the Act. The NICS Improvement Act has provisions that require states to meet specified goals for completeness of the records submitted to the Attorney General on individuals prohibited by federal law from possessing firearms. The records covered include automated information needed by the NICS to identify felony convictions, felony indictments, fugitives from justice, drug arrests and convictions, prohibiting mental health adjudications and commitments, domestic violence protection orders, and misdemeanor crimes of domestic violence.

The Act provides for a number of incentives for states to meet the goals it sets for greater record completeness. First, the Act allows states to obtain a waiver, beginning in 2011, of the state matching requirement under the National Criminal

NICS Act Record Improvement Program	16.813	Department of Justice	692100	0.0	0.0	0.0	.2, 6
History Improvement Program (NCHIP) grant program, if a state provides at least 90 percent of its records identifying persons in specified prohibited categories. Second, the Act authorizes grant programs described herein, which, pursuant to the Act, are being administered consistent with NCHIP, for state executive and judicial agencies to establish and upgrade information automation and identification technologies for timely submission of final criminal record dispositions and other information relevant to NICS checks. Finally, the Act provides for discretionary and mandatory Byrne Justice Assistance Grant (JAG) program grant penalties, beginning 3 years after enactment, for non-compliance with specified record completeness requirements within certain timeframes: after 3 years, 3 percent may be withheld in the case of less than 50 percent completeness; after 5 years, 4 percent may be withheld in the case of less than 70 percent completeness; and after 10 years, 5 percent shall be withheld in the case of less than 90 percent completeness (although the mandatory reduction can be waived if there is substantial evidence of the state making a reasonable effort to comply).							
Performance Measures		2018	2019	2020			
Criminal history records automation and correction		2,301		1,120			
To automate approximately 5,000 of the Arizona criminal history records currently not available electronically through the Arizona Computerized Criminal History Database (ACCH). The Central State Repository will use these funds to pay overtime to staff members to automate and quality control the non-automated records.

<b>National Motor Carrier Safety</b>	<b>20.218</b>	<b>Department of Transportation</b>	694700	2,881.7	0.0	0.0	.2, 6

The MCSAP is a Federal grant program that provides financial assistance to States to reduce the number and severity of accidents and hazardous materials incidents involving commercial motor vehicles (CMV). The goal of the MCSAP is to reduce CMV-involved accidents, fatalities, and injuries through consistent, uniform, and effective CMV safety programs. Investing grant monies in appropriate safety programs will increase the likelihood that safety defects, driver deficiencies, and unsafe motor carrier practices will be detected and corrected before they become contributing factors to accidents.

Enacted in 1984, the Victims of Crime Act (VOCA) is the central source of federal financial support for direct services to victim of crime. VOCA is administered at the federal level through the U.S. Department of Justice, Office for Victims of Crime which annually awards a grant to each state, the District of Columbia and U.S. Territories to support victim assistance services for victims and survivors of domestic violence, sexual assault, child abuse, drunk driving, homicide, and other crimes. Each state has a designated VOCA assistance agency to administer VOCA grants. Those state agencies in turn, subgrant to organizations that provide direct services to victims of crime. While minimal federal requirements must be met, each state is given great discretion in awarding specific subgrants.

<b>Grant/Project and Description</b>	<b>CFDA</b>	<b>Grantor</b>	<b>AFIS ID</b>	<b>2018 Received</b>	<b>2019 Est. Rev.</b>	<b>2020 Est. Rev.</b>	<b>Footnote(s)</b>
<b>State Indoor Radon Grants</b>	<b>66.032</b>	<b>Environmental Protection Agency</b>	AEA17001	60.0	84.4	84.4	.6

Title III of the Toxic Substances Control Act (TSCA), the Indoor Radon Abatement Act (IRAA), Section 306, authorizes EPA to assist States and Federally Recognized Indian Tribes to develop and implement programs to assess and mitigate radon-related lung cancer risk. In FY 2013 EPA will encourage state and tribal grant recipients to work collaboratively with their (non-EPA) Federal Departments and Agencies participating in the Federal Radon Action Plan (FRAP) - [http://www.epa.gov/radon/action\\_plan.html](http://www.epa.gov/radon/action_plan.html).

Projects should also focus on addressing environmental justice (EJ) concerns in communities. EJ is the fair treatment and meaningful involvement of all people regardless of race, color, national origin, or income with respect to the development, implementation, and enforcement of environmental laws, regulations, and policies.

Funding Priority - Fiscal Year 2013: In FY 2013 the State Indoor Radon Grant (SIRG) program will continue to emphasize radon risk reduction through increased action by home buyers and sellers, homeowners, real estate professionals, radon services professionals, homebuilders, tribes, non-governmental organizations, Federal, state and local governments, and non-governmental organizations. Projects funded by SIRG should focus on achieving the following outcomes:

- Homes built to include radon-reducing features, especially in high-radon potential areas,
- Reducing radon in existing homes to below 4pCi/L through mitigation, and
- Building new schools to include radon-reducing features, and reducing radon in existing schools to below 4pCi/L.

To achieve these outcomes and increase results, the SIRG program aims to: (1) improve the effectiveness of state-local/tribal radon programs; (2) focus on high radon potential areas, especially for new home building, building code adoption, and green and healthy homes programs; (3) encourage testing and mitigation within residential property transfers; and (4) encourage SIRG recipients to be strategic in their risk reduction efforts e.g., utilizing results data and information, by institutionalizing risk reduction practices and policies, and utilizing best practices.

<b>Regional Information Sharing Systems</b>	<b>16.610</b>	<b>Department of Justice</b>	16610	0.0	0.0	0.0	.2, 6

The RISS is a nationwide program supporting local, state, federal, and tribal law enforcement combat efforts in the areas of terrorism, drug trafficking, organized criminal activity, criminal gangs, violent crime, human trafficking, and other regional criminal priorities. RISS provides secure, nationwide information and intelligence-sharing capabilities, secure, but unclassified electronic communications capabilities, investigative analysis support, specialized investigative equipment, and other investigative support services.

RISS operates in all 50 states, the District of Columbia, U.S. territories, Canada, and England. RISS is the collective effort of six regional centers. The goal is to promote officer safety, enhance the ability to identify, target, and remove criminal conspiracies and activities spanning multi-jurisdictional, multi-state, and sometime international boundaries. While the RISS centers operate independently and are tailored to support the unique needs of the region served, they also operate as a collective body to address national criminal justice issues. RISS is governed by a National Policy Group comprised of the six RISS Directors and the Chair of each regional center's board of directors. The Bureau of Justice Assistance (BJA), U.S. Department of Justice (DOJ), administers the RISS Program.

Federal-aid Highway Program: To assist State transportation agencies in the planning and development of an integrated, interconnected transportation system important to interstate commerce and travel by constructing and rehabilitating the National Highway System (NHS), including the Eisenhower Interstate System; for transportation improvements to many other public roads; to provide aid for the repair of Federal-aid highways following disasters; to foster safe highway design; to replace or rehabilitate deficient or obsolete bridges; and to provide for other special purposes. This program also provides for the improvement of roads in Puerto Rico, Guam, the U.S. Virgin Islands, American Samoa, and the Commonwealth of the Northern Mariana Islands. The Federal Lands Transportation Program (FLTP) provides assistance to the Federal Land Management Agencies (FLMAs) for Federally-owned roads and trails. It provides transportation engineering services and funding for planning, design, construction, and rehabilitation of the highways and bridges providing access to and on federally owned lands. The Federal Lands Highway organization also provides training, technology, deployment, engineering services, and products to other customers.

<b>New Freedom Program</b>	<b>20.521</b>	<b>Department of Transportation</b>	20521	34.9	34.9	34.9	.2

To provide grants to recipients for new public transportation services and public transportation alternatives beyond those required by the Americans with Disabilities Act of 1990 (42 U.S.C. 12101 et. Seq.) that assists individuals with disabilities with transportation, including transportation to and from jobs and employment support services.

The program was repealed under MAP-21. The New Freedom Program activities are now eligible under the Section 5310 Enhanced Mobility of Seniors and Individuals with Disabilities Program (20.513)

In FY 2012 the Consolidated Specialized Transportation Grant Program replaces and combines three existing grant programs for targeted populations (formerly the Elderly Individuals and Individuals with Disabilities Program, the New Freedom program, and the Job Access and Reverse Commute program). This program would continue the goals of these programs by funding alternative forms of transportation where traditional services are unavailable, inappropriate, or insufficient.

To help servicepersons readjust to civilian life after their separation from military service. Assist in the recruitment and retention of highly qualified personnel in the active and reserve components in the Armed Forces by providing education benefits.

<u>Performance Measures</u>	<u>2018</u>	<u>2019</u>	<u>2020</u>
Percent of program approvals accepted by the US Department of Veterans' Affairs	100%	100%	100%
This quality indicator is the percentage of submissions from our SAA that the VA has accepted. A submission is a packet of information regarding the proposed program (which can be from an institute of higher learning or an organization wishing to hire veterans that will qualify for On the Job Training or apprenticeship benefits). Our SAA consistently exceeds their contract target.			
The rating achieved on the State Approving Agency self-evaluation and from the Joint Peer Review Group.	Satisfactory	Satisfactory	Satisfactory
This quality performance measurement serves as the VA's report card on the SAA performance. The rating is derived from reviewing the delivery of all services by each SAA in keeping with their service contracts. Satisfactory is the highest possible rating.

<p>Substance Abuse and Mental Health Service Administration (SAMHSA) was reauthorized by the Children's Health Action of 2000, Public law 106-310. Under this reauthorization, SAMHSA was given the authority to address priority substance abuse treatment, prevention and mental health needs of regional and national significance through assistance (grants and cooperative agreements) to States, political subdivisions of States, Indian tribes and tribal organizations, and other public or nonprofit private entities. Under these sections, CSAT, CMHS and CSAP seek to expand the availability of effective substance abuse treatment and recovery services available to Americans to improve the lives of those affected by alcohol and drug additions, and to reduce the impact of alcohol and drug abuse on individuals, families, communities and societies and to address priority mental health needs of regional and national significance and assist children in dealing with violence and traumatic events through by funding grant and cooperative agreement projects. Grants and cooperative agreements may be for (1) knowledge and development and application projects for treatment and rehabilitation and the conduct or support of evaluations of such projects; (2) training and technical assistance; (3) targeted capacity response programs (4) systems change grants including statewide family network grants and client-oriented and consumer run self-help activities and (5) programs to foster health and development of children; (6) coordination and integration of primary care services into publicly-funded community mental health centers and other community-based behavioral health settings funded under Affordable Care Act (ACA).</p>

To provide, through a State grant mechanism, a means to ensure that communities participating in the National Flood Insurance Program (NFIP) are achieving flood loss reduction goals of the NFIP. CAP-SSSE funds are to be used by States to provide technical assistance to NFIP communities, to evaluate community implementation/performance of NFIP floodplain management activities, and to build State and community floodplain management expertise and capacity.

The CAP-SSSE program supports the Mitigation Mission Area Capabilities and Targets described in the National Preparedness Goal (NPG) under “Planning” and “Risk and Disaster Resilience Assessment”.

<b>Grant/Project and Description</b>	<b>CFDA</b>	<b>Grantor</b>	<b>AFIS ID</b>	<b>2018 Received</b>	<b>2019 Est. Rev.</b>	<b>2020 Est. Rev.</b>	<b>Footnote(s)</b>
<b>Cooperating Technical Partners</b>	<b>97.045</b>	<b>Department of Homeland Security</b>	TBD	0.0	0.0	78.0	.5,6

The Cooperating Technical Partners Program was developed to supplement and expand the on-going efforts of participating National Flood Insurance Program (NFIP) communities, Tribes, and States (and the agencies and organizations who support them) who perform certain functions in the flood risk analysis, flood hazard identification, flood risk communication and mitigation processes to reduce flood losses and protect life and property from the risk of future flood damage. The Cooperating Technical Partners Program seeks to: increase local involvement in, and ownership of, the development and maintenance of Flood Insurance Rate Maps (FIRMS) and risk related products produced for the NFIP; build and maintain partner capabilities; continue to increase local ownership of data and processes; and establish sound performance criteria for current Cooperating Technical Partners.

In FY 2009, FEMA transitioned from its Map Modernization (Map Mod) program to Risk MAP (Mapping, Assessment, and Planning). The vision for Risk MAP is to deliver quality data that increases public awareness of flood hazard risk and leads to action that reduces flood risk to life and property. Risk MAP builds on flood hazard data and maps produced during the Map Mod program. FEMA collaborates with a variety of stakeholders to achieve the following goals under Risk MAP:

1. Flood Hazard Data. Address gaps in flood hazard data to form a solid foundation for risk assessment, floodplain management, and actuarial soundness of the NFIP.
  2. Public Awareness/Outreach. Ensure that a measurable increase of the public's awareness and understanding of risk results in a measurable reduction of current and future vulnerability.
  3. Hazard Mitigation Planning. Lead and support States, local, and Tribal communities to effectively engage in risk-based mitigation planning resulting in sustainable actions that reduce or eliminate risks to life and property from natural hazards.
  4. Enhanced Digital Platform. Provide an enhanced digital platform that improves management of Risk MAP, stewards information produced by Risk MAP, and improves communication and sharing of risk data and related products to all levels of government and the public.
  5. Alignment and Synergies. Align Risk Analysis programs and develop synergies to enhance decision-making capabilities through effective risk communication and management.
- Information about Risk MAP (including goals, strategies, progress and success stories), can be found on FEMA's website at <http://www.fema.gov/risk-mapping-assessment-planning>.

## FOOTNOTES

- 1 Amount Available and/or Received includes pass-through monies from other State agencies.
- 2 FTE information not provided at all or not consistently provided.
- 3 Program commences in FY 2017.
- 4 No new revenue reported; expenditures were funded by carry-over balances from the previous fiscal year.
- 5 Program commences in FY 2018.
- 6 Negative amount represents revertment, administrative adjustment or transfer of carry-over monies from the previous fiscal year.
- 7 Amount Available and/or Received is projected to be spent in the ensuing fiscal year(s).
- 8 Program ends in FY 2017.
- 9 A CFDA number was not provided by the agency. The CFDA number shown was inserted by OSPB in order to identify the Federal function of the grant for use in the tables located in the Appendix.
- 10 A valid CFDA number was not provided by the agency. The CFDA number (66.AE1, 15.PR1-8, etc.) shown was inserted in order to identify the Federal function of the grant as “Other” in the tables located in the Appendix.
- 11 Federal Funds for FY 2016 expenditures are projected to be received in FY 2017.
- 12 Amount contains monies returned to the agency.

WIPP	Waste Isolation Pilot Project
WNV	West Nile Virus
WOTC	Work Opportunity Tax Credit
WSSPC	Western States Seismic Policy Council

# About the Statement of Federal Funds

---

The Statement of Federal Funds is required by A.R.S. §41-723. The Director of the Governor's Office of Strategic Planning and Budgeting (OSPB) is designated as the Federal-state Fiscal Research Officer and is required to provide to the legislature the Statement of Federal Funds each year.

Federal funds information is collected from State agencies as part of the budget data collected each year by September 1. The information is categorized by revenues and expenditures, area of government, and agency.

The Statement of Federal Funds publication is organized into three primary areas.

## SUMMARY

Summary of Federal Revenue by Area of Government - provides federal revenue received for fiscal year 2018 by area of government (e.g., General Government, Health and Welfare, Inspection and Regulation, Education, Protection and Safety, Transportation, and Natural Resources).

Summary of Federal Revenue by Agency - provides federal revenue actually received for FY 2018 and estimates for fiscal years 2019 and 2020 by area of government and agency.

Summary of Federal Expenditures by Area of Government - provides federal expenditures for fiscal year 2018 by area of government (e.g., General Government, Health and Welfare, Inspection and Regulation, Education, Protection and Safety, Transportation, and Natural Resources).

Summary of Federal Expenditures by Agency - provides federal actual expenditures for FY 2018 and estimated expenditures for fiscal years 2019 and 2020 by area of government and by agency.

Federal Funds Revenue by Function - provides federal revenue received for fiscal year 2018 and estimates for fiscal years 2019 and 2020 by function of government (e.g., Emergency Management and National Defense, Agriculture – Extension Services, Community and Regional Development, Health – Medicaid).

Federal Funds Expenditures by Function - provides federal expenditures for fiscal year 2018 and estimated expenditures for fiscal years 2019 and 2020 by function of government (e.g., Emergency Management and National Defense, Agriculture – Extension Services, Community and Regional Development, Health – Medicaid).

## STATE AGENCY OPERATING DETAIL OF FEDERAL FUNDS

Each agency section is sorted by Grant or Project in alphabetical order. The detail contains the amount of funds available and received in fiscal year 2018 plus an estimate of revenues for fiscal years 2019 and 2020. Furthermore, this section contains select object level detail for FY 2018 expenditures. Please note, fiscal year 2018 expenditures may exceed fiscal year 2015 revenues as carry-forward balances may have been available.

Estimates for future years provide an idea of whether a grant will increase or decrease in ensuing years. However, state agencies often do not know from one year to the next whether federal funds will be available. Therefore, some of the estimates for future years provided by agencies may be speculative due to the lack of reliable information.

Some of the details in the Operating Detail section include:

Grant/Project - name of the federal grant

Catalog of Federal Domestic Assistance (CFDA) - the CFDA number is a five-digit number, which identifies the federal grant; the CFDA numbers help identify the area of the federal government awarding the grant and the purpose of the grant

Grantor - The acronym or name of the federal agency that awards the grant

Description - provides information on the proposed use of the grant

The Appendix includes all of the footnotes used in the operating detail section of the publication and a list of acronyms that are used throughout the publication.
