John Arnold  
Director

March 2010

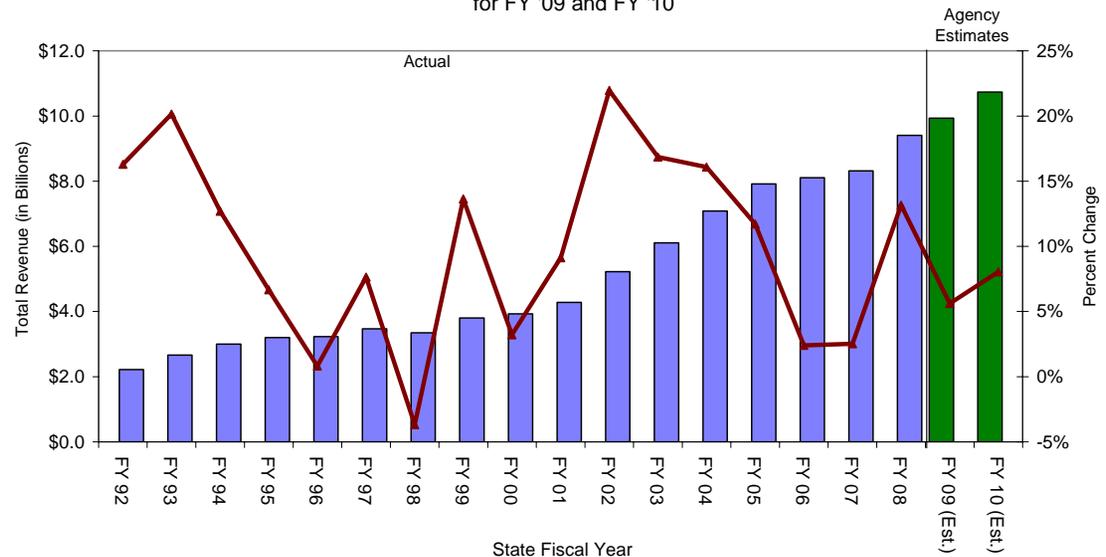

The Honorable Janice K. Brewer, Governor of Arizona  
and Honorable Members of the Arizona State Legislature:

This annual report on federal programs administered by state agencies was prepared in accordance with A.R.S. § 41-723 and covers the state fiscal year ending June 30, 2008. Forty-seven state agencies reported actual federal revenue or expenditure data for fiscal year 2008 as well as estimates for fiscal years 2009 and 2010. The data contained in the following report is compiled by agencies and submitted to OSPB. Specific questions on the reported information should be directed to the reporting agency.

**HISTORY**

Figure 1 demonstrates the trend in actual federal funds receipts by state agencies since fiscal year 1992 as well as the percentage change in receipts from year to year. It also includes agency-reported estimates for fiscal years 2009 and 2010.

Figure 1  
Federal Funding Trend Including Estimates  
for FY '09 and FY '10

## FISCAL YEAR 2008 PICTURE

The \$9.37 billion received in FY 2008 represents a significant increase over the \$8.31 billion reported for fiscal year 2007. The largest increase is accounted for by the Arizona Health Care Cost Containment System (AHCCCS) due to a \$477 million increase. This increase in receipts stems from Medicaid caseload and inflationary and capitation growth.

In FY 2008, AHCCCS caseloads and inflationary costs brought in \$192 million more for Acute Care, \$148 million for Prop 204 services, \$118 million more for Long-Term Care, and \$8.4 million in the Children's Health Insurance Program (CHIP) over FY 2007.

The agency with the second largest increase was the Arizona Department of Transportation at \$179.4 million. The increased amounts were primarily used for the Federal Highway system .

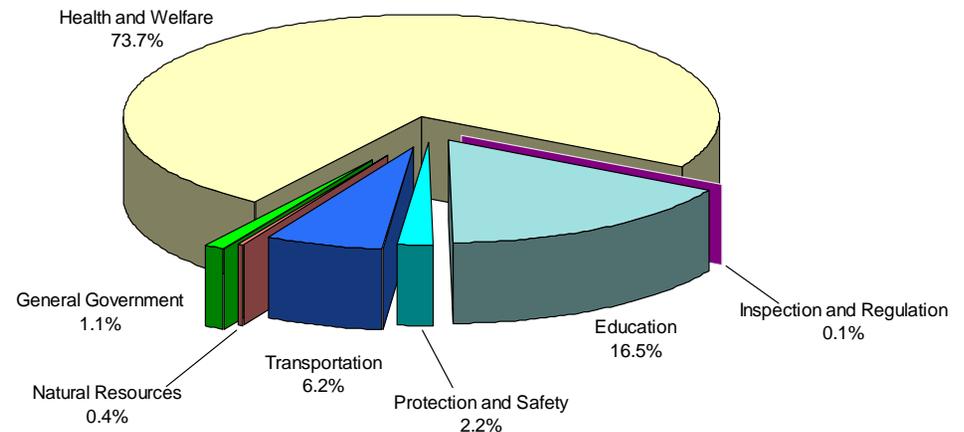

And the third largest increase was for the Arizona Department of Economic Security at \$175.5 million. The largest components of this increase can be attributed to the Food Stamp and Temporary Assistance to Needy Families programs as well as a variety of social service "safety net" programs.

As Figure 2 demonstrates, Health and Welfare constitutes 73.7% or \$6.9 billion of the total amount received by the state from the federal government in fiscal year 2008. Another two primary components of the federal funds total can be attributed to Transportation at 6.2% and Education at 16.5%.

## FUTURE OUTLOOK

The American Recovery and Reinvestment Act (Federal Stimulus Program passed in early calendar 2009) was established to push many federal dollars through the states to create and retain jobs. The next report will demonstrate how much has been accomplished and much will be accomplished through the existence of the program.

Figure 2  
FY 2008 Federal Revenues by  
Area of Government

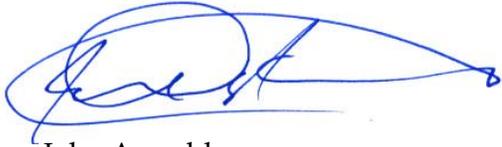

The Honorable Janice K. Brewer, Governor of Arizona  
and Honorable Members of the Arizona State Legislature  
March 2010

While the Federal Government has tightened the eligibility requirements for many entitlement programs and while there has been a slow erosion to the economy through FY 2009 and into FY 2010, the ARRA programs will significantly increase the volume of federal dollars over FY 2008. The stimulation from the federal dollars will be seen in many areas including education, public health and social services, transportation and investment in energy conservation.

The information contained in this document is compiled from data provided by state agencies through the normal budget process. It is anticipated that more detailed reporting from the data provided by state agencies will be disseminated in future years. Specific grant information is available for review at individual state agencies and at the Governor's Office of Strategic Planning and Budgeting (contact: Norm Selover at 602-542-6198).

Respectfully submitted,

A handwritten signature in blue ink, appearing to read "John Arnold", with a large, sweeping flourish extending to the right.

John Arnold  
Director

# Summary

# Building the Statement of Federal Funds

*Preparing the Statement of Federal Funds is based primarily on agency reported information*

THE STATEMENT OF FEDERAL FUNDS is required by A.R.S. §41-723. The Director of the Governor's Office of Strategic Planning and Budgeting (OSPB) is designated as the Federal-state Fiscal Research Officer and is **required** to submit to the legislature at each regular session the Statement of Federal Funds. During this past spring, the Federal CFDA website was taken down for 2 months and totally redesigned. This delay, combined with the protracted legislative sessions, has caused this report to be delayed in its publication. OSPB is taking steps to improve the timeliness of the delivery of this report in the future. The purpose of this section is to outline the process of collecting federal funds information from Arizona state agencies and how that information is organized in this publication.

## Process

The process of collecting federal funds information begins on or before June 1, when the Governor's Office of Strategic Planning and Budgeting issues instructions to guide agencies in preparing their budget requests. Agency requests must be submitted to OSPB by September 1 unless an extension is granted for up to an additional 30 days.

As a part of an agency's budget request, information on federal funds is submitted by each state agency receiving federal assistance. Once the Governor's Office of Strategic Planning and Budgeting collects the information, it is loaded into a database and categorized by revenues and expenditures, area of government, and agency. Currently, there are no reports from the federal government organized in such a fashion to allow for a data integrity process to ensure the accuracy of agency reported information. OSPB will continue to improve the reporting of this information in both content and format.

## Format

The Statement of Federal Funds publication is organized into three primary areas. It contains a Summary section, a Federal Operating Budget Detail section organized by area of government, and an Appendix.

The *SUMMARY* section contains the following three areas.

1. Federal Revenues:

- a. Summary of Federal Revenue by Area of Government—provides federal revenue received for fiscal year 2008 by area of government (e.g., General Government, Health and Welfare, Inspection and Regulation, Education, Protection and Safety, Transportation, and Natural Resources).
- b. Summary of Federal Revenue by Agency—provides federal revenue actually received for FY 2008 and estimates for fiscal years 2009 and 2010 by area of government and agency.

2. Federal Expenditures:

- a. Summary of Federal Expenditures by Area of Government—provides federal expenditures for fiscal year 2008 by area of government (e.g., General Government, Health and Welfare, Inspection and Regulation, Education, Protection and Safety, Transportation, and Natural Resources).

- b. Summary of Federal Expenditures by Agency – provides federal actual expenditures for FY 2008 and estimated expenditures for fiscal years 2009 and 2010 by area of government and by agency.
3. Federal Functions
- a. Federal Funds Revenue by Function – provides federal revenue received for fiscal year 2008 and estimates for fiscal years 2009 and 2010 by function of government (e.g., Emergency Management and National Defense, Agriculture – Extension Services, Community and Regional Development, Health – Medicaid).
  - b. Federal Funds Expenditures by Function – provides federal expenditures for fiscal year 2008 and estimated expenditures for fiscal years 2009 and 2010 by function of government (e.g., Emergency Management and National Defense, Agriculture – Extension Services, Community and Regional Development, Health – Medicaid).

The *FEDERAL OPERATING DETAIL*, which makes up the majority of the publication, is organized by agency. Each agency section is sorted by Grant/Project in alphabetical order. The detail contains actual funds available and received in fiscal year 2008 as well as estimated revenues for fiscal years 2009 and 2010. Expenditures for fiscal years 2009 and 2010 are not located in this section but can be found in the Summary of Federal Expenditures by Agency in the *SUMMARY* section. Furthermore, this section contains select object level detail for FY 2008 actual expenditures. Please note, fiscal year 2008 expenditures may exceed fiscal year 2008 revenues as carry-forward balances are spent down.

The out year estimates give an idea of whether each grant will increase or decrease in ensuing years. However, state agencies often do not know from one year to the next whether federal funds will be available. As such, some of the out year estimates provided by agencies are speculative due to the lack of reliable information.

Other details in the *FEDERAL OPERATING DETAIL* section include:

1. Grant/Project – name of the federal grant
2. Catalog of Federal Domestic Assistance (CFDA) – the CFDA number is a five-digit number, which identifies a type of federal grant. By using the CFDA numbers, the Governor’s Office of Strategic Planning and Budgeting is able to identify the area of the federal government from which each grant is awarded.
3. Grantor – The acronym or name of the federal agency that awards the grant
4. Description – provides information on the proposed use of the grant money as provided by the agencies

Finally, the *APPENDIX* includes all of the footnotes used in the operating detail section of the publication and a list of acronyms that are used throughout the publication.

<b>CMS Health &amp; Disability Partnership: Medicaid Infrastructure Grant (MIG)</b>	<b>93.768</b>	<b>CMS</b>	N/A	568.4	571.0	571.0	<sup>14</sup>

Even with many decades of services provided to encourage and support people with disabilities to achieve employment goals, only 37.4% of Arizonans with disabilities aged 18-64 are working and only 23.2% are working full time. The Ticket to Work and Work Incentives Improvement Act of 1999 (TWWIIA) established new provisions to support SSI/SSDI beneficiaries to leave disability rolls and become self-sufficient through employment. One provision of TWWIIA includes a state option to adopt a "Medicaid Buy-In" program to allow workers with disabilities to maintain eligibility for state public healthcare coverage and pay a premium for the coverage. As of August 2008, 1,086 AHCCCS-eligible individuals with work-related disabilities are currently enrolled in the program. However, there are still several specific barriers that will be addressed with this grant funding:

- 1) Train and build awareness among mental and physical health care practitioners.
- 2) Educate consumers via mass media and public relations campaigns to ensure that consumers with disabilities adopt and maintain a "can-work" attitude.
- 3) Provide comprehensive training to all of Arizona's Employment Networks contracted by the Social Security Administration to provide Ticket-to-Work program participants with the employment services to find and keep a job.

<b>CMS Medicaid Health Information Exchange (HIE) Utility Project</b>	<b>93.793</b>	<b>CMS</b>	N/A	5,232.1	5,400.0	829.6	<sup>14</sup>
<p>AHCCCS received funding to develop and implement a Health Information Exchange (HIE) and a web-based Electronic Health Record (EHR) Utility to achieve the goal of giving all Medicaid providers instant access to beneficiaries' health records via electronic connection at the point of service.</p> <p>Implementing this HIE-EHR utility will transform the AHCCCS Medicaid program and the patient care process. Providing timely patient health information at the point of service will improve the quality, efficiency and effectiveness of Arizona's Medicaid program. Real-time health information access will result in reduction of medical errors, reduction of redundant testing and procedures, better coordination of care for chronic diseases, increased preventive interventions, reduction in the inappropriate use of the emergency room, and lower administrative costs. When aggregated, these benefits will save significant state and federal taxpayer dollars (in Medicaid, SCHIP, and HIS) as well as beneficiary and provider frustration.</p>							
<b>CMS Transparency: Value Driven Decision Support Tool Box</b>	<b>93.793</b>	<b>CMS</b>	N/A	1,263.3	2,500.0	648.1	<sup>14</sup>
<p>The Deficit Reduction Act of 2005 allowed states new latitude in how they provide services through their Medicaid programs, including patient cost sharing, provider pay-for-performance and other programs which have shown success in the private sector in improving the quality of care while slowing the rate of increase of the cost of services. Seed money to allow the States to make significant changes to their Medicaid programs was provided through Medicaid Transformation Grants. The primary objective of these grants is to provide States with funding to facilitate the adoption of innovative methods to improve the effectiveness and efficiency in providing medical assistance.</p> <p>AHCCCS received funding to develop a Value Driven Decision Support Tool Box and is proposing to implement a series of technically and strategically aligned initiatives whose primary objective is to fundamentally transform how the agency transmits, receives and consumes administrative and clinical information. Benefits from these improvements will cascade throughout the entire Medicaid enterprise in the form of increased efficiencies, accuracy, timeliness, compliance, transparency and enhanced decision support capabilities that will lead to a healthier population and a more responsive Medicaid program.</p>

<b>Leadership/Folk &amp; Traditional Arts</b>	<b>45.024</b>	<b>NEA</b>	N/A	46.5	0.0	0.0	<sup>2,8</sup>

FY08 -- the final payment on this grant was received in September of 2007. Monies were used to fund grants to rural and tribal operations. The grant does not continue into FY09.

FY2006 -- the program continues to proceed forward expending approximately 12,800; the NEA extended grant through FY2007. The agency had approximately \$5,800 to carry forward into FY007 for the September grant application period.

August 2005 -- The agency has found a private sector partner provide assistant with this grant. It has been extended thru June 06 with the possibility of extending thru September 2006. This agency's Expansion Arts director manages this grant.

Prior submittal notes: Grant is to support the creation of a statewide Arizona Folk and Traditional Arts Apprenticeship Program and related costs. Grant was approved in FY03 but the Agency did not have a private sector partner to administer this Grant.

<b>One Call Grant</b>	<b>20.700</b>	<b>US DOT OPS</b>	N/A	40.5	40.0	40.0	

Provides reimbursement of expenses for the enforcement of the One Call (Blue Stake Enforcement) Program. Funding is limited to the pool of state applicants and is based on the actual prior year expenditures for program enforcement.

In FY 2008, the AZ program received less than the maximum allowed due to a reduced appropriation to the federal DOT. The Commission has conservatively continued the same revenue level going forward.

OBJECTIVES - To support the development and testing of innovative programs, services and systems of support that respond to the needs of the nations growing elderly population, to improve knowledge of the problems and needs of the elderly, to help ensure adequately trained personnel in the field of aging, and to demonstrate better ways of improving the quality of life for the elderly.

USES AND USE RESTRICTIONS - Funds may be used to: (a) demonstrate new methods and practices to improve the quality and effectiveness of programs and services; (b) to evaluate existing programs and services; © conduct applied research and analysis to improve access to and delivery of services; (d) train professionals in the field. Funds may not be used for: (a) construction and/or major rehabilitation of buildings; (b) basic research (e.g., bio-medical experiments); © continuation and/or expansion of existing services, including supportive and nutritional services such as those funded under Title III of the Older Americans Act; (d) medical care, institutional care or income maintenance; (e) projects which do not involve innovative approaches, and whose outcomes do not have the potential for national dissemination and replication; (f) equipment purchases unless the equipment is necessary to carry out a project that is otherwise fundable under Title IV.

<b>Administration on Developmental Disabilities - Basic Support and Advocacy Grants</b>	<b>93.630</b>	<b>DHHS</b>	N/A	1,176.9	1,199.1	1,199.1	

OBJECTIVES - To enable individuals with developmental disabilities to become independent, productive, integrated and included into their communities. Funding under these programs is to assist States in the development of a plan for a comprehensive and coordinated system of services and other activities to enhance the lives of individuals with developmental disabilities and their families to their maximum potential, and to support a system which protects the legal and human rights of individuals with developmental disabilities.

USES AND USE RESTRICTIONS - (1) Allotments under the basic developmental disabilities formula grant program may be used by States for priority area and other activities, including administrative costs, to build capacity, to refocus existing services, and to advocate to better meet the needs of individuals with developmental disabilities. The designated State agency in each State receives, accounts for and disburses funds, and provides for required assurances and other administrative support services on behalf of the State Developmental Disabilities Council, which carries out the priority area activity and other activities under an approved triennial State Plan. This plan and corresponding budget is developed and administered by the State Developmental Disabilities Council. Federal funds may be expended for up to half the cost of the functions of the designated State agency under this program, but may not exceed five percent of a State's allotment or \$50,000, whichever is less. (2) Allotments under the protection and advocacy program may be used to assist States in supporting a system which will have authority to pursue legal and other remedies to protect the rights of individuals with developmental disabilities within the State.

<b>Adoption Incentive Payments (Title IV-E)</b>	<b>93.603</b>	<b>DHHS</b>	N/A	2,200.0	0.0	0.0	<sup>2, 8</sup>
---	---------------	-------------	-----	---------	-----	-----	-----------------

OBJECTIVES - To provide incentives to States to increase annually the number of foster child adoptions, special needs adoptions, and older child adoptions.

USES AND USE RESTRICTIONS - A State shall not expend an amount paid to the State under this grant except to provide to children of families any activity or service (including post-adoption services) that may be provided under Part B or E of Title IV of the Social Security Act. Amounts expended by a State in accordance with the preceding sentence shall be disregarded in determining State expenditures for purposes of Federal matching payments under Sections 423, 434, and 474 of the Social Security Act.

<b>Aging &amp; Disability Resource Center</b>	<b>93.779</b>	<b>DHHS</b>	N/A	118.6	120.3	124.9	

OBJECTIVES - To support analyses, experiments, demonstrations and pilot projects in efforts to resolve major health care financing issues and to develop innovative methods for the administration of Medicare and Medicaid. These awards are in the form of research grants and cooperative agreements; Hispanic health services grants; historically black colleges and university grants. For fiscal years 2006 and 2007, the Centers for Medicare & Medicaid Services (CMS) has identified a number of areas where specific information or experience is necessary to improve program effectiveness or guide decisions anticipated in the near future. These priority areas for CMS' discretionary contracts, cooperative agreements and grants include: (1) protecting and empowering specific populations; (2) helping the uninsured and increasing access to health insurance; (3) understanding health differences and disparities--closing the gaps; (4) preventing disease, illness, and injury; (5) agency-specific priorities.

USES AND USE RESTRICTIONS - Under all authorizations, all applications must meet standards of excellence in research or evaluation design. Funds may not be used for construction or renovation of buildings. Funds authorized by Section 1115 of the Social Security Act are limited to State agencies administering the Medicaid program.

OBJECTIVES - To support the development and testing of innovative programs, services and systems of support that respond to the needs of the nations growing elderly population, to improve knowledge of the problems and needs of the elderly, to help ensure adequately trained personnel in the field of aging, and to demonstrate better ways of improving the quality of life for the elderly.

			Available	Received	Est. Rev.	Est. Rev.	
<b>Child Care and Development Fund Block Grant</b>	<b>93.596</b>	<b>DHHS</b>	N/A	115,282.1	112,988.2	111,249.8	

OBJECTIVES - To make grants to States, Tribes, and tribal organizations for child care assistance for low-income families and to: (1) allow each State maximum flexibility in developing child care programs and policies that best suit the needs of children and parents within such State; (2) promote parental choice to empower working parents to make their own decisions on the child care that best suits their family's needs; (3) encourage States to provide consumer education information to help parents make informed choices about child care; (4) assist States to provide child care to parents trying to achieve independence from public assistance; and (5) assist States in implementing the health, safety, licensing, and registration standards established in State regulations.

USES AND USE RESTRICTIONS - Subchapter IV of the Social Security Act appropriates funds (Mandatory and Matching Funds) for the purpose of providing child care assistance. Lead Agencies must use Mandatory and Matching Funds for child care services on a sliding fee scale basis, activities that improve the quality or availability of such services, and any other activity that a Lead Agency deems appropriate to realize the goals of the Child Care and Development Block Grant Act. Lead Agencies must ensure that not less than 70 percent of the total amount of Mandatory and Matching Funds are used to provide child care assistance to families who are receiving assistance under the Temporary Assistance for Needy Families program, families who are attempting through work activities to transition off of temporary assistance programs, and families who are at risk of becoming dependent on temporary assistance programs. Not more than five percent of the aggregate amount of Mandatory and Matching Funds expended by the State (fifteen percent for Tribes or tribal organizations) may be expended for administrative costs incurred by the State to carry out all of its functions and duties. The term "administrative costs" does not include the costs of providing direct services. A State shall use not less than four percent of the Mandatory and Matching funds to improve child care quality and availability including comprehensive consumer education, activities to increase parental choice, and other activities such as resource and referral services, provider grants and loans, monitoring and enforcement of requirements, training and technical assistance, and improved compensation for child care staff. Except for approved construction of child care facilities by tribal grantees, no Mandatory or Matching Funds may be used for the purchase or improvement of land, or for the purchase, construction, or permanent improvement of any building or facility (other than for minor remodeling and for upgrading of facilities to meet State and local child care standards.) No Mandatory or Matching Funds provided directly to child care providers through grants or contracts may be expended for any sectarian purpose or activity, including sectarian worship or

instruction; however, Grantees must give parents the option of receiving vouchers or certificates to allow parents the choice of faith-based or community child care providers. No Mandatory or Matching Funds may be provided for any services provided to students enrolled in grades 1 through 12 during the regular school day; for any services for which such students receive academic credit toward graduation; or for any instructional services which supplant or duplicate the academic program of any public or private school.							
<b>Child Support Enforcement (Title IV-D)</b>	<b>93.563</b>	<b>DHHS</b>	N/A	52,914.4	50,000.0	51,800.0	
OBJECTIVES - To enforce the support obligations owed by absent parents to their children, locate absent parents, establish paternity, and obtain child, spousal and medical support.							
USES AND USE RESTRICTIONS - States and some tribes provide support enforcement services directly to individuals who are receiving federally-funded Foster Care Maintenance Payments, Medicaid, Temporary Assistance to Needy Families (TANF) (or those who cease to receive TANF), and to individuals not otherwise eligible for such services. TANF, Medicaid, and certain federally-funded Foster Care applicants or recipients must have assigned support rights to the State. Non-TANF individuals other than those who cease to receive TANF and/or who provide authorization to the IV-D agency to continue support enforcement services, must have signed a written application for support enforcement services. The State must provide services to locate absent parents, establish paternity and enforce support obligations.							
<b>Child Support Enforcement Access and Visitation</b>	<b>93.597</b>	<b>DHHS</b>	N/A	73.3	73.3	73.3	<sup>2</sup>
OBJECTIVES - To enable States to create programs which support and facilitate access and visitation by non-custodial parents with their children. Activities may include mediation, counseling, education, development of parenting plans, visitation enforcement and development of guidelines for visitation and alternative custody arrangements.							
USES AND USE RESTRICTIONS - A State to which a grant is made under this section may not use the grant to supplant expenditures by the State for allowable activities, but shall use the grant to supplement such expenditures at a level at least equal to the level of such expenditures for fiscal year 1995.

<b>Child Welfare Services State Grants (Title IV-B)</b>	<b>93.645</b>	<b>DHHS</b>	N/A	7,333.5	5,590.5	5,590.5	
OBJECTIVES - To establish, extend, and strengthen child welfare services provided by State and local, and Indian Tribal public welfare agencies to enable children to remain in their own homes, or, where that is not possible, to provide alternate permanent homes for them.							
USES AND USE RESTRICTIONS - The grants may be used for: cost of personnel to provide protective services to children; licensing of, and standard-setting for private child-caring agencies and institutions; and assisting with costs of homemaker services, return of runaway children, and prevention and reunification services, among other services that meet the purpose of the grants. Funds for foster care maintenance, day care, and adoption assistance under this program are limited.							
<b>Community Based Child Abuse Prevention Grants</b>	<b>93.590</b>	<b>DHHS</b>	N/A	457.2	515.7	515.7	
OBJECTIVES - To assist States to support community-based efforts to develop, operate, expand, and enhance, and where appropriate to network, initiatives aimed at the prevention of child abuse and neglect.							
USES AND USE RESTRICTIONS - To receive funds, States must meet eligibility requirements stated in the authorizing legislation and use of funds to develop, operate, expand, and enhance community-based, prevention focused programs and activities designed to strengthen and support families to prevent child abuse and neglect. One percent is set aside for discretionary grants to migrant and tribal populations and an additional amount to fund a national resource center to provide training and technical assistance to State lead agencies.

<b>Community Services Block Grant</b>	<b>93.569</b>	<b>DHHS</b>	N/A	4,048.4	4,240.0	4,441.4	

OBJECTIVES - To provide assistance to States and local communities, working through a network of community action agencies and other neighborhood-based organizations, for the reduction of poverty, the revitalization of low-income communities, and the empowerment of low-income families and individuals in rural and urban areas to become fully self-sufficient (particularly families who are attempting to transition off a State program carried out under part A of title IV of the Social Security Act) and (1) To provide services and activities having a measurable and potential major impact on causes of poverty in the community or those areas of the community where poverty is a particularly acute problem; (2) to provide activities designed to assist low-income participants, including the elderly poor, to: (a) secure and retain meaningful employment; (b) attain an adequate education; (c) make better use of available income; (d) obtain and maintain adequate housing and a suitable living environment; (e) obtain emergency assistance through loans or grants to meet immediate and urgent individual and family needs, including health services, nutritious food, housing, and employment-related assistance; (f) remove obstacles and solve problems which block the achievement of self-sufficiency; (g) achieve greater participation in the affairs of the community; and (h) make more effective use of other related programs; (3) to provide on an emergency basis for the provision of such supplies and services, nutritious foodstuffs, and related services, as may be necessary to counteract conditions of starvation and malnutrition among the poor; and (4) to coordinate and establish linkages between governmental and other social services programs to assure the effective delivery of such services to low-income individuals.

USES AND USE RESTRICTIONS - (1) States receive block grants to ameliorate the causes of poverty in communities. The block grant approach gives the States flexibility to tailor their programs to the particular services needs in their communities. (2) States are required to use at least 90 percent of their allocations for grants to "eligible entities" as defined in the Community Services Block Grant (CSBG) Act, as amended; this includes primarily locally-based community action agencies and/or organizations that serve seasonal or migrant farm workers. (2) No more than the greater of \$55,000 or 5 percent of each State's allocation may be used for administrative expenses at the State level.

<b>Cuban/Haitian Refugee Program</b>	<b>93.576</b>	<b>DHHS</b>	N/A	141.6	152.9	165.1	<sup>2</sup>

OBJECTIVES - To improve resettlement services for refugees. Program OBJECTIVES - include: 1) Providing adequate health assessment activities for refugees; (2) decreasing the numbers of refugees on public assistance and the length of time refugees require such assistance; (3) promoting refugee community and family stability; (4) encouraging placement of refugee families in locations with good job opportunities and lower costs of living; (5) increasing service dollars in areas with good resettlement records; (6) enhancing services to disadvantaged refugee groups; services to promote older refugees access to aging services, assist low income refugees with matching funds for individual development accounts (IDA) and (7) responding to national needs which are not the purview of any particular State services program.

USES AND USE RESTRICTIONS - The discretionary grant program allocates a portion of formula social service and targeted assistance funds to conduct projects which promote refugee self-sufficiency or address their special needs. Funds may be used only for the purposes set forth in the grant award. In Fiscal Years 2004 and 2005, approximately 15 percent of social service funds not earmarked by Congress were allocated through discretionary programs; and 10 percent of Targeted Assistance program funds were also obligated.

<b>Food Stamp Benefits</b>	<b>10.551</b>	<b>USDA</b>	N/A	732,211.8	803,211.8	803,211.8	<sup>2</sup>

OBJECTIVES - To improve diets of low-income households by increasing their food purchasing ability.

USES AND USE RESTRICTIONS - Households receive food stamp benefits which vary according to household size and income. The maximum allotment is based on the USDA Thrifty Food Plan for a household's size; household allotments are reduced by 30 percent of the available income after deducting certain expenses. Food stamp benefits are issued via electronic debit cards (Electronic Benefit Transfer) and may be used in participating retail stores to buy food for home consumption. Food stamp benefits may be used by certain elderly and handicapped persons, and their spouses, for meals delivered to them in their homes by authorized meal delivery services or to purchase meals in establishments providing communal dining for the elderly. The program is available to a limited number of institutionalized persons: drug addicts and alcoholics who are participating in approved rehabilitation centers, disabled or blind persons receiving benefits under Titles I, II, X, XIV, or XVI of the Social Security Act living in certain group living arrangements, residents of shelters for battered women and children, and homeless persons living in authorized shelters.

<b>Food Stamp Employment and Training</b>	<b>10.561</b>	<b>USDA</b>	N/A	303.1	303.1	303.1	<sup>2</sup>
---	---------------	-------------	-----	-------	-------	-------	--------------

OBJECTIVES - To provide Federal financial aid to State agencies for costs incurred to operate the Food Stamp Program.

USES AND USE RESTRICTIONS - To provide Federal funding for administrative costs incurred by State and local agencies to operate the Food Stamp Program. Unless authorized by Federal legislation, outlays charged to other Federal grants or to Federal contracts may not be considered as State agency costs. Submission of claims for payments of administrative costs shall be in accordance with 7 CFR 277 of the Food Stamp Program Regulations.

<b>Foster Grandparent Program</b>	<b>94.011</b>	<b>Corporation for National and Community Service</b>	N/A	251.9	267.9	285.2	

OBJECTIVES - The Foster Grandparent Program provides grants to qualified agencies and organizations for the dual purpose of engaging persons 60 or older, with limited incomes, in volunteer service to meet critical community needs; and to provide a high quality volunteer experience that will enrich the lives of the volunteers. Program funds are used to support Foster Grandparents in providing supportive, person to person service to children with exceptional or special needs.

USES AND USE RESTRICTIONS - The grants may be used for: low-income Foster Grandparent stipends, transportation, physical examinations and meals; staff salaries and fringe benefits, staff travel, equipment, space costs, etc. An amount equal to 80 percent of the corporation for National Service's Federal share must be used for Foster Grandparent direct benefits. Assignment of Foster Grandparents to children and youth may occur in residential and non-residential facilities, including preschool establishments and to children living in their own homes. Volunteers are not to supplant hiring or displace employed workers, or impair existing contracts for service. No agency supervising volunteers shall request or receive compensation for services of the volunteers. Volunteers are not to be involved in and funds are not to be used for religious activities, labor or anti-labor organization, lobbying, or partisan or non-partisan political activities. In addition, eligible agencies or organizations may, with a Notice of Grant Award from the Corporation for National and Community Service, receive technical assistance and materials to aid in establishing and operating a non-Corporation funded Foster Grandparent Program project using state, local and private funds.

<b>FUBA Trade Benefits</b>	<b>17.245</b>	<b>DOL</b>	N/A	245.3	245.3	245.3	<sup>2</sup>

OBJECTIVES - To provide adjustment assistance to qualified workers adversely affected by foreign trade which will assist them to obtain suitable employment.

USES AND USE RESTRICTIONS - State Workforce Agencies (SWAs) serve as agents of the United States for administering the worker adjustment assistance benefit provisions of the Trade Act. SWAs, through the local offices, provide testing, counseling, and job placement services; job search and relocation assistance; training; and payment of weekly trade readjustment allowances (TRA). State unemployment compensation and extended benefits must be exhausted before TRA is paid to eligible claimants. Trade impacted workers are eligible to receive job search and relocation allowances in addition to the costs of training. They may be paid subsistence and transportation allowances to attend approved training outside the normal commuting distance of a worker's regular place of residence.

<b>Job Service</b>	<b>17.207</b>	<b>DOL</b>	N/A	11,923.2	11,923.2	11,923.2	

OBJECTIVES - To assist persons to secure employment and workforce information by providing a variety of job search assistance and information services without charge to job seekers and to employers seeking qualified individuals to fill job openings.

USES AND USE RESTRICTIONS - The Wagner-Peyser Act of 1933 established a nationwide system of public employment offices which is known as the Employment Service. Wagner-Peyser was amended by the Workforce Investment Act of 1998 making the Employment Service part of the One- Stop delivery system. The Wagner Peyser funded activities are an integral part of the One Stop delivery system that provides an integrated array of high-quality services so that workers, job seekers, and businesses can access the services they need under one roof in easy-to-reach locations, with many services also offered through self-service electronic access. These services includes assessment of skill levels, abilities and aptitudes, career guidance when appropriate, job search workshops, and referral to training as appropriate. The services offered to employers, in addition to referral of job seekers to job openings, include matching job requirements with job seeker experience, skills and other attributes, helping with special recruitment needs, assisting employers analyze hard-to-fill job orders, assisting with job restructuring and helping employers deal with layoffs. Additional services may include: 1) a nationwide computerized career information system including an automated job bank of employment vacancies and job seekers resumes, career, and workforce information, and institutions and organizations that provide training; 2) the development and distribution of state and local workforce information which allows job seekers, employers, and providers and planners of job training and economic development to obtain information pertaining to job opportunities, labor supply, labor market or workforce trends, and the market situation in particular industries. Veterans receive priority referral to jobs as well as special employment services and assistance. In addition, the system provides specialized service to individuals with disabilities, as well as, such groups as migrant and seasonal farmworkers, ex-offenders, youth, minorities, and older workers. These Wagner-Peyser-funded programs involve a federal-state partnership between the U.S. Department of Labor (DOL), Employment and Training Administration (ETA) and the state workforce agency. The federal government provides general direction, funding, and oversight. In addition the federal government partners with states to provide for a number of tools and resources such as development and maintenance of the Occupational Information Network (O\*NET), America's Labor Market Information System, and CareerOneStop ([www.careeronestop.org](http://www.careeronestop.org)), a self-service, integrated suite of workforce information Web sites that help businesses, job seekers, students, and workforce professionals find employment and career resources.

Grant/Project and Description	CFDA	Grantor	FY 2008 Amount		FY 2009	FY 2010
			Available	Received	Est. Rev.	Est. Rev. Footnote(s)
<b>Low-Income Home Energy Assistance Program</b>	<b>93.568</b>	<b>DHHS</b>	N/A	9,607.0	10,061.6	10,351.0

OBJECTIVES - Energy Assistance Block Grants: To make Low Income Home Energy Assistance Program (LIHEAP) grants available to States and other jurisdictions to assist eligible households to meet the costs of home energy. Supplemental Leveraging Incentive Funds may be awarded to reward States and other jurisdictions that provide additional benefits and services to LIHEAP-eligible households beyond what could be provided with Federal funds. Up to 25 percent of the leveraging incentive funds may be set aside for LIHEAP grantees that provide services through community-based nonprofit organizations to help LIHEAP-eligible households reduce their energy vulnerability under the Residential Energy Assistance Challenge Option Program (REACH). Training and Technical Assistance: To provide training and technical assistance to States and other jurisdictions administering the LIHEAP block grant program.

USES AND USE RESTRICTIONS - Energy Assistance Block Grants: Funds are awarded to States and other jurisdictions, which then make payments directly to an eligible low-income household or, on behalf of such household, to an energy supplier to assist in meeting the cost of home energy. Up to 10 percent of these funds may be used for State and local planning and administration. Up to 15 percent may be used for low-cost residential weatherization. Grantees may request that DHHS grant a waiver for the fiscal year that increases from 15 percent to 25 percent funds that can be allotted for residential weatherization. Depending upon specific appropriations, DHHS may allocate supplemental LIHEAP leveraging incentive funds to grantees that have acquired nonfederal leveraged resources in order to provide additional benefits and services to LIHEAP-eligible households to help them meet their home heating and cooling needs. Up to 25 percent of leveraging incentive funds may be allocated by DHHS to LIHEAP grantees that provide services through community-based nonprofit organizations to LIHEAP-eligible households to reduce their energy vulnerability, under the Residential Energy Assistance Challenge Program (REACH). Up to \$600,000,000 is authorized as emergency contingency funds to be used to meet additional needs arising from a natural disaster or other emergency. Such funds will be made available only after submission to Congress of a formal budget request for all or part of the funds by the President that designates the amount of the request as an emergency under the Balanced Budget and Emergency Deficit Control Act of 1985. Training and Technical Assistance: the Secretary has authority to set aside up to \$300,000 from each year's appropriation for training and technical assistance relating to the Low-Income Home Energy Assistance Program. These T/TA activities are accomplished through: grants, contracts, or jointly financed cooperative or interagency agreements with States, Indian tribes, tribal organizations, public agencies, or private nonprofit organizations; through interagency agreements, including with Federal agencies; or through on-site

OBJECTIVES - To support analyses, experiments, demonstrations and pilot projects in efforts to resolve major health care financing issues and to develop innovative methods for the administration of Medicare and Medicaid. These awards are in the form of research grants and cooperative agreements; Hispanic health services grants; historically black colleges and university grants. For fiscal years 2006 and 2007, the Centers for Medicare & Medicaid Services (CMS) has identified a number of areas where specific information or experience is necessary to improve program effectiveness or guide decisions anticipated in the near future. These priority areas for CMS' discretionary contracts, cooperative agreements and grants include: (1)protecting and empowering specific populations; (2) helping the uninsured and increasing access to health insurance; (3) understanding health differences and disparities--closing the gaps; (4) preventing disease, illness, and injury; (5) agency-specific priorities.

USES AND USE RESTRICTIONS - Under all authorizations, all applications must meet standards of excellence in research or evaluation design. Funds may not be used for construction or renovation of buildings. Funds authorized by Section 1115 of the Social Security Act are limited to State agencies administering the Medicaid program.

Grant/Project and Description	CFDA	Grantor	FY 2008 Amount		FY 2009	FY 2010	Footnote(s)
			Available	Received	Est. Rev.	Est. Rev.	
<b>Navigator Project</b>	<b>17.266</b>	<b>DOL</b>	N/A	513.2	513.2	513.2	

OBJECTIVES - The Work Incentive Grants (WIGs) and Disability Program Navigators (DPNs) have been established to increase the labor force participation and career advancement of persons with disabilities by effecting systemic change in the One-Stop Career Centers. These programs support the capacity of the One-Stop Career Center system to achieve integrated, seamless, and comprehensive services for people with disabilities, thereby increasing their employment, retention, and earnings. The competitive WIG Program has been reoriented from a competitive solicitation to the Disability Program Navigator (DPN) cooperative agreement, thereby assuring that the essential goals of the WIGs are achieved in the workforce investment system. The Department of Labor (DOL) and the Social Security Administration (SSA) jointly established a new position, the Disability Program Navigator (DPN), in the DOL's One-Stop Career Centers. The DPN guides the One-Stop Career Center staff in helping people with disabilities access and navigate the various programs that impact upon their ability to gain/retain employment. Complex rules surrounding entitlement programs, along with the fear of losing cash assistance and health benefits, can often discourage people with disabilities from working. Consequently, the DPN initiative was established to better inform beneficiaries and other people with disabilities about the work support programs now available at the DOL-funded One-Stop Career Centers. The major OBJECTIVES - of the DPN initiative are: 1) creating systemic change and transforming the culture of how the One-Stop Career Center system serves customers with disabilities; 2) promoting meaningful and effective access, both physical and programmatic, to the One-Stop Career Center system for all customers, including persons with disabilities; 3) creating attitudinal change about the abilities of people with disabilities to work in a variety of jobs and industries; 4) developing new/ongoing partnerships to achieve comprehensive services to people with disabilities ; 5) expanding and enhancing the workforce development system's capacity to serve customers with disabilities and employers through the implementation of effective DPN strategies and practices; and 6) increasing the number of people with disabilities served under the WIA and achieving quality employment outcomes for jobseekers with disabilities through accessing WIA Title I and Wagner-Peyser Programs.

USES AND USE RESTRICTIONS - Funds are used for establishing Disability Program Navigators in One-Stop Career Centers and improving the centers' physical and programmatic access for customers with disabilities. All proposed costs should be necessary and reasonable according to the federal guidelines set forth in the Uniform Administrative Requirements for Grants and Cooperative Agreements to state and local governments, codified at 289 CFR part 97, and must comply with the applicable OMB cost principles circulars, as identified in 29 CFR 96.27 and 29 CFR 97.22(b). Awardees must comply with the all other

<b>Older Refugee Assistance</b>	<b>93.576</b>	<b>DHHS</b>	N/A	28.8	31.1	33.6	<sup>2</sup>

OBJECTIVES - To improve resettlement services for refugees. Program OBJECTIVES - include: 1) Providing adequate health assessment activities for refugees; (2) decreasing the numbers of refugees on public assistance and the length of time refugees require such assistance; (3) promoting refugee community and family stability; (4) encouraging placement of refugee families in locations with good job opportunities and lower costs of living; (5) increasing service dollars in areas with good resettlement records; (6) enhancing services to disadvantaged refugee groups; services to promote older refugees access to aging services, assist low income refugees with matching funds for individual development accounts (IDA) and (7) responding to national needs which are not the purview of any particular State services program.

USES AND USE RESTRICTIONS - The discretionary grant program allocates a portion of formula social service and targeted assistance funds to conduct projects which promote refugee self-sufficiency or address their special needs. Funds may be used only for the purposes set forth in the grant award. In Fiscal Years 2004 and 2005, approximately 15 percent of social service funds not earmarked by Congress were allocated through discretionary programs; and 10 percent of Targeted Assistance program funds were also obligated.

<b>One Stop Labor Market Information</b>	<b>17.207</b>	<b>DOL</b>	N/A	690.8	711.5	711.5	

OBJECTIVES - To assist persons to secure employment and workforce information by providing a variety of job search assistance and information services without charge to job seekers and to employers seeking qualified individuals to fill job openings.

USES AND USE RESTRICTIONS - The Wagner-Peyser Act of 1933 established a nationwide system of public employment offices which is known as the Employment Service. Wagner-Peyser was amended by the Workforce Investment Act of 1998 making the Employment Service part of the One- Stop delivery system. The Wagner Peyser funded activities are an integral part of the One Stop delivery system that provides an integrated array of high-quality services so that workers, job seekers, and businesses can access the services they need under one roof in easy-to-reach locations, with many services also offered through self-service electronic access. These services includes assessment of skill levels, abilities and aptitudes, career guidance when appropriate, job search workshops, and referral to training as appropriate. The services offered to employers, in addition to referral of job seekers to job openings, include matching job requirements with job seeker experience, skills and other attributes, helping with special recruitment needs, assisting employers analyze hard-to-fill job orders, assisting with job restructuring and helping employers deal with layoffs. Additional services may include: 1) a nationwide computerized career information system including an automated job bank of employment vacancies and job seekers resumes, career, and workforce information, and institutions and organizations that provide training; 2) the development and distribution of state and local workforce information which allows job seekers, employers, and providers and planners of job training and economic development to obtain information pertaining to job opportunities, labor supply, labor market or workforce trends, and the market situation in particular industries. Veterans receive priority referral to jobs as well as special employment services and assistance. In addition, the system provides specialized service to individuals with disabilities, as well as, such groups as migrant and seasonal farmworkers, ex-offenders, youth, minorities, and older workers. These Wagner-Peyser-funded programs involve a federal-state partnership between the U.S. Department of Labor (DOL), Employment and Training Administration (ETA) and the state workforce agency. The federal government provides general direction, funding, and oversight. In addition the federal government partners with states to provide for a number of tools and resources such as development and maintenance of the Occupational Information Network (O\*NET), America's Labor Market Information System, and CareerOneStop ([www.careeronestop.org](http://www.careeronestop.org)), a self-service, integrated suite of workforce information Web sites that help businesses, job seekers, students, and workforce professionals find employment and career resources.

<b>Promoting Safe and Stable Families (Title IV-B Part II)</b>	<b>93.556</b>	<b>DHHS</b>	N/A	6,768.2	7,856.9	7,856.9	

OBJECTIVES - To fund family preservation that serve families at risk or in crisis, including the following services: reunification and adoption services, preplacement/preventive services, follow-up services after return of a child from foster care, respite care, services designed to improve parenting skills; and infant safe haven programs; to fund community-based family support services that promote the safety and well-being of children and families, to afford children a safe, stable and supportive family environment, to strengthen parental relationships and promote healthy marriages, and otherwise to enhance child development; to fund time-limited family reunification services to facilitate the reunification of the child safely and appropriately within a timely fashion; and to fund adoption promotion and support services designed to encourage more adoptions out of the foster care system, when adoption, promotes the best interests of the child. A small proportion of appropriated funds is reserved for research, evaluation and technical assistance, which may be awarded competitively through contracts or discretionary grants.

USES AND USE RESTRICTIONS - For Formula Grants, a significant portion of funds must be spent on each of the service categories of family preservation, family support services, time-limited family reunification services and adoption promotion and support services. State grantees must limit administrative expenditures to 10 percent of their allotment. Discretionary Grants: Grants are awarded for research, evaluation and technical assistance activities relating to family support, family preservation, time-limited family reunification and adoption promotion support.

<b>Rehabilitation Services Basic</b>	<b>84.126</b>	<b>DOE</b>	N/A	58,841.5	58,841.5	58,841.5	

OBJECTIVES - To assist States in operating comprehensive, coordinated, effective, efficient and accountable programs of vocational rehabilitation; to assess, plan, develop, and provide vocational rehabilitation services for individuals with disabilities, consistent with their strengths, resources, priorities, concerns, abilities, and capabilities so they may prepare for and engage in competitive employment.

USES AND USE RESTRICTIONS - Federal and State funds are used to cover the costs of providing vocational rehabilitation services which include: assessment, counseling, vocational and other training, job placement, reader services for the blind, interpreter services for the deaf, medical and related services and prosthetic and orthotic devices, rehabilitation technology, transportation to secure vocational rehabilitation services, maintenance during rehabilitation, and other goods and services necessary for an individual with a disability to achieve an employment outcome. Services are provided to families of disabled individuals when such services will contribute substantially to the rehabilitation of such individuals who are being provided vocational rehabilitation services. Funds can also be used to provide Vocational Rehabilitation services for the benefit of groups of individuals with disabilities including the construction and establishment of community programs.

<b>Rehabilitation Training State Vocational Rehabilitation Unit In-Service Training</b>	<b>84.265</b>	<b>DOE</b>	N/A	62.0	62.0	62.0	<sup>2</sup>
---	---------------	------------	-----	------	------	------	--------------

OBJECTIVES - This program is designed to support special projects for training State vocational rehabilitation unit personnel in program areas essential to the effective management of the unit's program of vocational rehabilitation services or in skill areas that enable staff personnel to improve their abilities to provide vocational rehabilitation services to individuals with disabilities. Projects are designed to: (1) Address recruitment and retention of qualified rehabilitation professionals; (2) provide for successful planning; (3) provide for leadership development and capacity building; and (4) provide training on the Rehabilitation Act of 1973, as amended.

USES AND USE RESTRICTIONS - Training grants may only be made to agencies designated to administer the State vocational rehabilitation program. Fifteen percent of the funds appropriated for all Rehabilitation Services Administration Training must be allocated for In-Service Training.

<b>Senior Community Services Employment Program (Title V)</b>	<b>17.235</b>	<b>DOL</b>	N/A	1,109.7	1,141.7	1,142.0	

OBJECTIVES - To provide, foster, and promote part-time work training opportunities (usually 20 hours per week) through community service activities for unemployed low-income persons who are 55 years of age and older. Other training may include classroom training, other general skills training, and other types of work experience training. To increase individual economic self-sufficiency participants are placed into unsubsidized employment.

USES AND USE RESTRICTIONS - Organizations that receive grants use the funds to create and pay for part-time community service training positions for persons age 55 and above whose income is at or below 125 percent of the poverty level. The individuals who are enrolled may be trained in work assignments at local service agencies (e.g., schools, hospitals, day care centers, park systems, etc.). A portion of the funds may be used to provide participants with classroom training and supportive services. No more than 13.5 percent of the federal share of the costs may be spent for administration. (If justified, a waiver to 15 percent may be provided by the Department of Labor.) Participants may not train in projects involving political activities, sectarian activities, nor may participants displace any employed worker or perform work which impairs existing contracts for service. Each local project is required to coordinate its activities with local WIA projects and One-Stop Career Centers and the State Office of the Aging.

<b>Social Services Block Grant</b>	<b>93.667</b>	<b>DHHS</b>	N/A	46,482.4	38,896.9	35,150.1	

OBJECTIVES - To enable each State to furnish social services best suited to the needs of the individuals residing in the State. Federal block grant funds may be used to provide services directed toward one of the following five goals specified in the law: (1) To prevent, reduce, or eliminate dependency; (2) to achieve or maintain self-sufficiency; (3) to prevent neglect, abuse, or exploitation of children and adults; (4) to prevent or reduce inappropriate institutional care; and (5) to secure admission or referral for institutional care when other forms of care are not appropriate. In addition, special funding was provided to some states in fiscal year 1995 and 1996 for supplemental SSBG grants in support comprehensive of community revitalization projects in 104 federally designated Empowerment Zones (EZs) and Enterprise Communities (ECs). The supplemental funding is called "EZ/EC SSBG." The States, through the designated localities, may use the EZ/EC SSBG funds for activities included in each locality's strategic plan for comprehensive revitalization and directed toward goals 1, 2 or 3 listed above. These funds will remain available until December 21, 2004. Information about this component of the SSBG is included below as appropriate.

USES AND USE RESTRICTIONS - Federal funds may be used by States for the proper and efficient operation of social service programs. Except for items (1) and (4) below, for which a waiver from the Secretary may be requested, Federal funds cannot be used for the following: (1) The purchase or improvement of land, or the purchase, construction, or permanent improvement of any building or other facility; (2) the provision of cash payments for costs of subsistence or the provision of room and board (other than costs of subsistence during rehabilitation, room and board provided for a short term as an integral but subordinate part of a social service, or temporary shelter provided as a protective service); (3) the payment of wages to any individual as a social service (other than payment of wages to welfare recipients employed in the provision of child day care services); (4) the provision of medical care (other than family planning services, rehabilitation services or initial detoxification of an alcoholic or drug dependent individual) unless it is an integral but subordinate part of a social service for which grants may be used; (5) social services (except services to an alcoholic or drug dependent individual or rehabilitation services) provided in and by employees of any hospital, skilled nursing facility, intermediate care facility, or prison, to any individual living in such institution; (6) the provision of any educational service which the State makes generally available to its residents without cost and without regard to their income; (7) any child day care service unless such service meets applicable standards of State and local law; (8) the provision of cash payments as a service; or (9) for payment for any item or service (other than an emergency item or service) furnished by an individual or entity during the period when such individual or

<b>Special Programs for the Aging - Elder Abuse Prevention (Title VII)</b>	<b>93.041</b>	<b>DHHS</b>	N/A	91.1	96.0	96.3	

OBJECTIVES - To support activities to develop, strengthen, and carry out programs for the prevention and treatment of elder abuse, neglect, and exploitation, including: (1) Providing for public education and outreach to identify and prevent elder abuse, neglect, and exploitation; (2) ensuring the coordination of services provided by area agencies on aging with services instituted under the State adult protection service program; (3) promoting the development of information and data systems, including elder abuse reporting systems, to quantify the extent of elder abuse, neglect, and exploitation in the State; (4) conducting analyses of State information concerning elder abuse, neglect, and exploitation and identifying unmet service, enforcement, or intervention needs; (5) conducting training for individuals, professionals, and paraprofessionals, in relevant fields on the identification, prevention, and treatment of elder abuse, neglect, and exploitation, with particular focus on prevention and enhancement of self determination and autonomy; (6) providing technical assistance to programs that provide or have the potential to provide services for victims of elder abuse, neglect, and exploitation and for family members of the victims; (7) conducting special and on going training, for individuals involved in serving victims of elder abuse, neglect, and exploitation, on the topics of self determination, individual rights, State and Federal requirements concerning confidentiality, and other topics determined by a State agency to be appropriate.

USES AND USE RESTRICTIONS - Funds are awarded to State Agencies on Aging to develop and enhance comprehensive and coordinated programs for the prevention and treatment of elder abuse, neglect, and exploitation, consistent with relevant State law and coordinated with State adult protective service activities. A State plan covering 2, 3, or 4 years, with annual revisions as necessary, must be submitted for approval to the assistant Secretary on Aging. Funds are used to develop, strengthen, and carry out activities for prevention and treatment of elder abuse, neglect and exploitation.

<b>Special Programs for the Aging - Ombudsman (Title VII)</b>	<b>93.042</b>	<b>DHHS</b>	N/A	171.3	185.6	185.9	

OBJECTIVES - The principal role of this Ombudsman Program is to investigate and resolve complaints made by or on behalf of residents of nursing homes or other long-term care facilities. Ombudsmen also promote policies and practices needed to improve the quality of care and life in long-term care facilities and educate both consumers and providers about residents' rights and good care practices.

USES AND USE RESTRICTIONS - Funds are awarded to States to develop or strengthen service systems through designated State Agencies on Aging, Area Agencies on Aging and other local entities. Funds under this Title and Chapter are included in State aging plan covering 2, 3, or 4 years, with annual revisions as necessary, submitted for approval to the Assistant Secretary for Aging. Funds are used to design and implement programs for the provision of long-term care ombudsman services for older individuals living in long-term care facilities.

<b>Special Programs for the Aging - Preventive Health (Title III-D)</b>	<b>93.043</b>	<b>DHHS</b>	N/A	314.3	323.7	323.7	<sup>2</sup>
---	---------------	-------------	-----	-------	-------	-------	--------------

OBJECTIVES - Funds are awarded to States to develop or strengthen preventive health service and health promotion systems through designated State Agencies on Aging and Area Agencies on Aging. Funds are provided for disease prevention and health promotion services including health risk assessments; routine health screening; nutrition screening; counseling and educational services for individuals and primary care givers, health promotion; physical fitness; home injury control and home safety screening; screening for the prevention of depression, and referral to psychiatric and psychological services, education on availability of benefits and appropriate use of preventive services; education on medication management; information concerning diagnosis, prevention, and treatment of neurological and organic brain dysfunction; gerontological counseling and counseling regarding social services and follow-up health services.

USES AND USE RESTRICTIONS - Funds are awarded to States to develop or strengthen preventive health service and health promotion systems through designated State Agencies on Aging and area Agencies on Aging. A State plan covering 2, 3, or 4 years, with annual revisions as necessary, must be submitted to State agencies for approval. Funds are used to design and implement programs for periodic preventive health services to be provided at senior centers or alternative sites as appropriate. The preventive health services under this part may not include services eligible for reimbursement under Medicare.

<b>Special Programs for the Aging - Supportive Services and Senior Centers (Title III-B)</b>	<b>93.044</b>	<b>DHHS</b>	N/A	8,145.0	7,207.7	6,981.2	

OBJECTIVES - To encourage State Agencies on Aging and Area Agencies on Aging to concentrate resources to develop and implement comprehensive and coordinated community-based systems of service for older individuals via Statewide planning, and area planning and provision of supportive services, including multipurpose senior centers. The objective of these services and centers is to maximize the informal support provided to older Americans to enable them to remain in their homes and communities. Providing transportation services, in-home services and caregiver support services, this program insures that elders receive the services they need to remain independent.

USES AND USE RESTRICTIONS - Funds are awarded to States to develop and strengthen comprehensive and coordinated service delivery systems through designated State Agencies on Aging and area Agencies on Aging. A State plan covering 2, 3, or 4 years, with annual amendments as necessary must be submitted for approval to the Assistant Secretary for Aging. Area Plans also cover 2, 3, or 4 years, and are to be submitted to State agencies for approval. These funds are distributed by intrastate funding formulas to area agencies in States with planning and service areas and directly to service providers in the 13 States designated as single-planning-and-service-area States. In addition to supportive nutrition services, these funds may be used to support other services including the renovation, acquisition and alteration, and construction of multipurpose senior centers.

<b>Supported Employment Services for Individuals with Severe Disabilities</b>	<b>84.187</b>	<b>DOE</b>	N/A	202.7	202.7	202.7	<sup>2</sup>

OBJECTIVES - To provide grants for time limited services leading to supported employment for individuals with the most severe disabilities to enable such individuals to achieve the employment outcome of supported employment.

USES AND USE RESTRICTIONS - Federal funds are used to: (1) complement services under Title I of this Act; (2) provide skilled job trainers who accompany the worker for intensive on-the-job training; (3) provide systematic training; (4) provide job development; (5) provide follow-up services; (6) provide regular observation or supervision at training sites; and (7) provide other services needed to support an individual in employment. Funds may not be used to provide the required extended services once an individual transitions from the time limited services provided under VI-C.

<b>Targeted Discretionary Refugee Assistance</b>	<b>93.576</b>	<b>DHHS</b>	N/A	53.8	58.1	62.7	<sup>2</sup>
--	---------------	-------------	-----	------	------	------	--------------

OBJECTIVES - To improve resettlement services for refugees. Program OBJECTIVES - include: 1) Providing adequate health assessment activities for refugees; (2) decreasing the numbers of refugees on public assistance and the length of time refugees require such assistance; (3) promoting refugee community and family stability; (4) encouraging placement of refugee families in locations with good job opportunities and lower costs of living; (5) increasing service dollars in areas with good resettlement records; (6) enhancing services to disadvantaged refugee groups; services to promote older refugees access to aging services, assist low income refugees with matching funds for individual development accounts (IDA) and (7) responding to national needs which are not the purview of any particular State services program.

USES AND USE RESTRICTIONS - The discretionary grant program allocates a portion of formula social service and targeted assistance funds to conduct projects which promote refugee self-sufficiency or address their special needs. Funds may be used only for the purposes set forth in the grant award. In Fiscal Years 2004 and 2005, approximately 15 percent of social service funds not earmarked by Congress were allocated through discretionary programs; and 10 percent of Targeted Assistance program funds were also obligated.

<b>Traumatic Brain Injury Implementation</b>	<b>93.234</b>	<b>DHHS</b>	N/A	155.5	155.5	155.5	

OBJECTIVES - FY 1997, Congress authorized Health Resources and Services Administration (HRSA), Maternal and Child Health Bureau (MCHB) to establish a program of grants to States for the purpose of carrying out demonstration projects to improve access to health and other services for individuals with TBI and their families for the assessment and treatment of traumatic brain injury (TBI). TBI Program Goals were specified as the expansion and improvement of State and local capability which, in turn, would enhance access to comprehensive and coordinated services for individuals with TBI and their families. Eligible applicants (entities who receive the grant monies) are state and territorial governments and /or a state agency that is designated as the Lead Agency for TBI within the State.

USES AND USE RESTRICTIONS - May not be used for construction projects or to support primary injury prevention initiatives, research initiatives, or the provision of direct services. Funds may be used, however, to educate the public about the causes, symptoms, and treatment of TBI. Funds may be used for contracts, but not for sub-grants.

<b>Unemployment Insurance - Grants to States</b>	<b>17.225</b>	<b>DOL</b>	N/A	31,309.3	27,900.0	27,900.0	

OBJECTIVES - To administer a program of unemployment insurance for eligible workers through Federal and State cooperation; to administer payment of trade adjustment assistance, disaster unemployment assistance, unemployment compensation for Federal employees and ex-service members.

USES AND USE RESTRICTIONS - The states have the direct responsibility for establishing and operating their own unemployment insurance programs, while the Federal Government finances the cost of administration. State unemployment insurance tax collections are used solely for the payment of benefits. Federal unemployment insurance tax collections are used to finance expenses deemed necessary for proper and efficient administration of the state unemployment insurance laws; to reimburse state funds for one-half the costs of extended benefits paid under the provisions of state laws which conform to the provisions of the Social Security Act and the Federal Unemployment Tax Act; and to make repayable advances to states when needed to pay benefit costs. Funds used for benefit payments may not be used for any program administration costs nor for training, job search, and job relocation payments. Disaster Unemployment Assistance (DUA) is paid out of funds provided by the Federal Emergency Management Agency (FEMA). Benefits for former Federal civilian employees, including postal workers, and former members of the Armed Forces are paid out of the Federal Employees Compensation Account (FECA) in the Unemployment Trust Fund, subject to reimbursement by the former employing agency.

<b>Work Opportunity Tax Credit Program</b>	<b>17.207</b>	<b>DOL</b>	N/A	329.0	329.0	329.0	

OBJECTIVES - To assist persons to secure employment and workforce information by providing a variety of job search assistance and information services without charge to job seekers and to employers seeking qualified individuals to fill job openings.

USES AND USE RESTRICTIONS - The Wagner-Peyser Act of 1933 established a nationwide system of public employment offices which is known as the Employment Service. Wagner-Peyser was amended by the Workforce Investment Act of 1998 making the Employment Service part of the One- Stop delivery system. The Wagner Peyser funded activities are an integral part of the One Stop delivery system that provides an integrated array of high-quality services so that workers, job seekers, and businesses can access the services they need under one roof in easy-to-reach locations, with many services also offered through self-service electronic access. These services includes assessment of skill levels, abilities and aptitudes, career guidance when appropriate, job search workshops, and referral to training as appropriate. The services offered to employers, in addition to referral of job seekers to job openings, include matching job requirements with job seeker experience, skills and other attributes, helping with special recruitment needs, assisting employers analyze hard-to-fill job orders, assisting with job restructuring and helping employers deal with layoffs. Additional services may include: 1) a nationwide computerized career information system including an automated job bank of employment vacancies and job seekers resumes, career, and workforce information, and institutions and organizations that provide training; 2) the development and distribution of state and local workforce information which allows job seekers, employers, and providers and planners of job training and economic development to obtain information pertaining to job opportunities, labor supply, labor market or workforce trends, and the market situation in particular industries. Veterans receive priority referral to jobs as well as special employment services and assistance. In addition, the system provides specialized service to individuals with disabilities, as well as, such groups as migrant and seasonal farmworkers, ex-offenders, youth, minorities, and older workers. These Wagner-Peyser-funded programs involve a federal-state partnership between the U.S. Department of Labor (DOL), Employment and Training Administration (ETA) and the state workforce agency. The federal government provides general direction, funding, and oversight. In addition the federal government partners with states to provide for a number of tools and resources such as development and maintenance of the Occupational Information Network (O\*NET), America's Labor Market Information System, and CareerOneStop ([www.careeronestop.org](http://www.careeronestop.org)), a self-service, integrated suite of workforce information Web sites that help businesses, job seekers, students, and workforce professionals find employment and career resources.

To assist States and localities to help move hard-to-employ welfare recipients into lasting unsubsidized jobs and achieve self sufficiency.

Adult Program - To provide workforce investment activities that increase the employment, retention and earnings of participants, and increase occupational skill attainment by the participants. This aims to improve the quality of the workforce, reduce welfare dependency, and enhance the productivity and competitiveness of the nation's economy. This program is designed to increase employment, as measured by entry into unsubsidized employment, retention in unsubsidized employment six months after entry into employment, and wage gain. For cross-cutting goals, the program intends to enhance customer satisfaction for participants and for employers. The employment goals will be measured using Unemployment Insurance Wage Records systems and customer satisfaction goals will be measured by sampling.

Youth Program - To design, with States and local communities, a revitalized, workforce investment system that will help low income youth between the ages of 14 and 21 acquire the educational and occupational skills, training and support needed to achieve academic and employment success and successfully transition to careers and productive adulthood.

Dislocated Workers Program - To provide workforce investment activities that increase the employment, retention and earnings of participants, and increase occupational skill attainment by the participants. This aims to reemploy dislocated workers, improve the quality of the workforce and enhance the productivity and competitiveness of the nation's economy. This program is designed to increase employment, as measured by entry into unsubsidized employment, retention in unsubsidized employment six months after entry into employment, and extent of recovery of prior wage levels. For cross cutting goals, the program intends to enhance customer satisfaction for participants and for employers. The employment goals will be measured using Unemployment Insurance Wage Records systems and customer satisfaction goals will be measured by sampling.

<b>Adult Education - Basic Grants to States</b>	(Continued)		N/A				
<b>Advanced Placement Incentive Program</b>	84.330	USDOE	N/A	10.7	0.0	0.0	<sup>8</sup>

The Advanced Placement Incentive Program grant is a three-year competitive grant to State education agencies, local education agencies, or national nonprofit educational entities with expertise in providing advanced placement services. The goal is to permit States to give more low-income students the opportunity to take Advanced Placement classes and participate in other challenging programs. The grant monies are for supporting the development, enhancement, or expansion of pre-Advanced Placement courses that are aligned with Advanced Placement courses in mathematics, science, English, and other core academics.

Some examples of how the grant funds can be used include: (1) professional development for teachers; (2) curriculum development; (3) books and supply purchases; and (4) activities directly related to expanding access to and participation in Advanced Placement courses and test for low-income students.

The grant monies are to be used to supplement rather than to supplant State or local funding. There is no Maintenance of Effort or match requirement for this grant.

States can administer the program or use the grant funds to award subgrants to local education agencies so they can carry out the grant activities.

The Education for Homeless Children and Youths grant is a formula grant based each State's share of Title I funds. The grant monies support an office for coordination of the education of homeless children and youths in each State. This office gathers comprehensive information about homeless children and youths and the impediments they must overcome to regularly attend school. These grant monies also help States ensure that homeless children, including preschoolers and youths, have equal access to free and appropriate public education. States are required to have an approved plan for addressing problems associated with the enrollment, attendance, and success of homeless children in school. States must make competitive subgrants to local education agencies to facilitate the enrollment, attendance, and success in school of homeless children and youths. This includes addressing problems due to transportation needs, immunization and residency requirements, lack of birth certificates and school records, and guardianship issues. The local education agencies also can use the grant funds to offer expedited evaluations of the needs of homeless children to help them enroll in school, attend regularly, and achieve success.

There is no Maintenance of Effort or match requirement for the federal grant monies.

States must distribute not less than 75 percent of their allocation in subgrants to local education agencies. States may reserve their remaining funds for State-level activities.

The Education for Homeless Children and Youths grant is a formula grant based each State's share of Title I funds. The grant monies support an office for coordination of the education of homeless children and youths in each State. This office gathers comprehensive information about homeless children and youths and the impediments they must overcome to regularly attend school. These grant monies also help States ensure that homeless children, including preschoolers and youths, have equal access to free and appropriate public education. States are required to have an approved plan for addressing problems associated with the enrollment, attendance, and success of homeless children in school. States must make competitive subgrants to local education agencies to facilitate the enrollment, attendance, and success in school of homeless children and youths. This includes addressing problems due to transportation needs, immunization and residency requirements, lack of birth certificates and school records, and guardianship issues. The local education agencies also can use the grant funds to offer expedited evaluations of the needs of homeless children to help them enroll in school, attend regularly, and achieve success.

There is no Maintenance of Effort or match requirement for the federal grant monies.

States must distribute not less than 75 percent of their allocation in subgrants to local education agencies.

<b>Even Start Family Literacy Program (Title I, Part B)</b>	<b>84.213</b>	<b>USDOE</b>	N/A	0.0	1,104.9	1,070.8	<sup>3</sup>

The Even Start Family Literacy Program grant is a Title I, Part B, formula grant to support family literacy services for low-income parents with low literacy skills or limited English proficiently and their children who are primarily birth through age seven years. The goals are to help parents improve their literacy or basic educational skills; to help parents become full partners in educating their children; and to assist children in reaching their full potential as learners. The monies support intensive, local family literacy projects that combine four core components of family literacy. The four components are early childhood education; adult basic and secondary-level education (including instruction for English language learners); parenting education; and interactive parent and child literacy activities.

Arizona begin in 1991 receiving this grant award, which has required local grant recipients to assume an increasing share of program costs each year. The increasing share of the program expenses ranged from 10 percent in the first year to 40 percent in the fourth year. Cost-sharing for years five through eight is 50 percent, and, after the eighth year, the federal Even Start share may not exceed 35 percent. The remaining cost may be provided by cash or in kind contributions and may be obtained from any source, including other federal funds under the Elementary and Secondary Education Act.

There is a Maintenance of Effort requirement for each local education agency receiving the funds. Current year spending must be no less than 90 percent of the prior year spending in order to be eligible for funding in the upcoming budget year unless a waiver is approved. In addition, States must make available non-Federal contributions in an amount that is no less than the federal funds provided under the grant.

Up to six percent of the federal grant amount may be used for State related costs. The six percent is to be split equally at three percent for administration and three percent for technical assistance for program improvement.

<b>Johnson O'Malley Grant</b>	<b>15.130</b>	<b>BIA</b>	N/A	27.2	0.0	0.0	<sup>8</sup>

The Johnson-O'Malley (JOM) Grant is a formula grant to provide funds to supplement the regular school program in order to meet specialized and unique educational needs of eligible American Indian students attending public schools. The JOM funds are used for tutoring, academic support, cultural activities, summer education programs, and after school activities. The grant monies also can be used to assist with counseling in higher education and career planning.

Schools are eligible to receive JOM funds for each student, age three years through grade 12, who is a member of, or at least one-fourth degree Indian blood from a descendent of a member of an Indian tribe. The grant monies are distributed based upon the number of eligible Indian students to be served times twenty-five percent of either the State or national average per pupil operating cost, whichever is higher. If there is a shortage of appropriated federal funds, the monies are allotted on a pro rata basis.

The grant monies are to be used to supplement rather than to supplant State or local funding. There is no match or Maintenance of Effort requirement for these funds.

The bulk of these grant monies are distributed to local education agencies for their supplemental to the regular school program. They also can be used for operational support where such support is necessary to maintain established State educational standards.

<b>Johnson O'Malley Special Budget</b>	<b>15.130</b>	<b>BIA</b>	N/A	0.0	0.0	0.0	<sup>4</sup>
<b>Learn and Serve America</b>	<b>94.004</b>	<b>CNCS</b>	N/A	0.0	334.6	334.6	<sup>3</sup>

The Learn and Serve America grant is distributed by the federal Corporation for National and Community Services created by the National Community Service Trust Act of 1993. The grant funds are for projects that use a service-learning approach to education. This service-learning approach recognizes that working with local community organizations is a way to obtain academic achievement and develop civic skills. The grant monies are to allow schools to work in partnership with local organizations to create, develop, and offer service-learning opportunities for school-age youth from age five years to 17 years. The monies also can be used for teacher training for incorporating service-learning opportunities into the classroom; program evaluation for determining a project's effectiveness; and support for service-learning coordinators.

The goal is to promote academic excellence, foster civic responsibility, and impact communities. An example of a project that have been funded under this grant include Minnesota high school students visiting the St. Louis River as part of a chemistry class to test water quality and initiate local pollution control. A second example is third graders in Indiana spending time with seniors in nursing homes for the purpose of making friends of these long- time community residents and gathering information for writing a book on local history.

There is no Maintenance of Effort requirement for these grant funds. However, the grant award requires cost sharing. The grant's share of the total cost of carrying out a funded program may not exceed 90 percent for the first program year; 80 percent for the second year; 70 percent for the third year; 50 percent for the fourth and any subsequent year.

The bulk of these federal grant monies are distributed to locals in assistance for the cost of the grant projects.

<b>National School Lunch</b>	<b>10.555</b>	<b>USDA</b>	N/A	11.0	0.0	0.0	<sup>2,8</sup>

The National School Lunch Program grant is a formula grant to assist States in providing a nutritious nonprofit lunch service for school children. These grant funds are used to reimburse participating public and nonprofit private schools, of high school grade and under, for lunches served to eligible children that meet nutritional requirements prescribed by the Secretary of Agriculture. Public and nonprofit private residential child care institutions also are eligible to participate in this grant program. All participating schools and residential child care institutions schools must agree to operate the program on a nonprofit basis for all children regardless of race, sex, color, National origin, age, or disability.

Lunch is served free to children who are determined by local school authorities to have household income levels at or below 130 percent of income eligibility guidelines adopted annually by the Secretary of Agriculture. Lunch is served at a reduced price to children from households with incomes higher than 130 percent and at or below 185 percent of the income eligibility guidelines. The maximum reduced price charged for lunch is 40 cents.

The rates of reimbursement are adjusted on an annual basis to reflect changes in the Food Away From Home series of the Consumer Price Index for all Urban Consumers. For the period July 1, 2001 through June 30, 2002, the rates of reimbursement ranged from 20 cents to 23.89 cents per lunch served, depending on the income eligibility category of the child receiving the lunch and the population level of poverty level students attending the school. These cash reimbursement amounts do not take into consideration the value of donated food commodities also distributed by the federal government for this program. The national average value of donated commodities for each lunch was 15.50 cents, for the period July 1, 2001, through June 30, 2002.

Schools that meet eligibility criteria also may be reimbursed for meal snacks served to children enrolled in after school hour care programs. The reimbursement for snacks in after school care programs range from five cents to 57 cents per snack.

This program has no Maintenance of Effort requirement. With regard to match requirements, each State must appropriate from State revenues and use, for program purposes, an amount equal to 30 percent of the federal cash assistance for school lunches that was made available to the State in the 1980-81 school year. This 30 percent match requirement is reduced for lower per capita income States. There are several ways

National School Lunch	10.555	USDA	N/A	11.0	0.0	0.0	<sup>2,8</sup>

This program has no Maintenance of Effort requirement. With regard to match requirements, each State must appropriate from State revenues and use, for program purposes, an amount equal to 30 percent of the federal cash assistance for school lunches that was made available to the State in the 1980-81 school year. This 30 percent match requirement is reduced for lower per capita income States. There are several ways that States can meet this match requirement, including tracking State-appropriated funds that school lunch operators indirectly applied to the program through transfers from their general funds to their food services funds.

All of these grant funds are distributed to the local entities providing the service.

The National School Lunch Program grant is a formula grant to assist States in providing a nutritious nonprofit lunch service for school children. These grant funds are used to reimburse participating public and nonprofit private schools, of high school grade and under, for lunches served to eligible children that meet nutritional requirements prescribed by the Secretary of Agriculture. Public and nonprofit private residential child care institutions also are eligible to participate in this grant program. All participating schools and residential child care institutions schools must agree to operate the program on a nonprofit basis for all children regardless of race, sex, color, National origin, age, or disability.

Lunch is served free to children who are determined by local school authorities to have household income levels at or below 130 percent of income eligibility guidelines adopted annually by the Secretary of Agriculture. Lunch is served at a reduced price to children from households with incomes higher than 130 percent and at or below 185 percent of the income eligibility guidelines. The maximum reduced price charged for lunch is 40 cents.

The rates of reimbursement are adjusted on an annual basis to reflect changes in the Food Away From Home series of the Consumer Price Index for all Urban Consumers. For the period July 1, 2001 through June 30, 2002, the rates of reimbursement ranged from 20 cents to 23.89 cents per lunch served, depending on the income eligibility category of the child receiving the lunch and the population level of poverty level students attending the school. These cash reimbursement amounts do not take into consideration the value of donated food commodities also distributed by the federal government for this program. The national average value of donated commodities for each lunch was 15.50 cents, for the period July 1, 2001, through

<b>National School Lunch Local Wellness Policy Grant</b>	<b>10.555</b>	<b>USDA</b>	N/A	3.1	0.0	0.0	<sup>8</sup>

To help combat childhood obesity and improve children's health, Congress passed the Child Nutrition and Special Supplemental Nutrition Program for Women, Infants, and Children (WIC) Reauthorization Act of 2004. On June 30, 2004, the President signed the legislation into law. Section 204 of the Public Law 108-265 requires every Local Educational Agency (LEA) participating in the National School Lunch Program (NSLP), School Breakfast Program (SBP) or Special Milk Program develop a local wellness policy by the start of the 2006-2007 school year.

The U.S. Congress recognizes that schools play a critical role in creating a healthy environment for the prevention of childhood obesity and for combating problems associated with poor nutrition and physical inactivity. The law places the responsibility of developing a wellness policy at the local level, so the individual needs of each LEA can be addressed.

<b>Preschool Grants for Children with Disabilities</b>	<b>84.173</b>	<b>USDOE</b>	N/A	5,378.6	0.0	0.0	

The Preschool Grants for Children with Disabilities grant is a formula grant based on the grant amount received for FY 1997, the State's population of children age three years through five years, and the State's population of three year through five year old children living in poverty. The grant monies are for special education and related services to three-year through five year old children who are eligible under State established criteria because of their development delays. The grant monies can be used for the salaries of special education teachers and the costs associated with related services personnel such as speech therapists and psychologists. The grant funds also may be used for adaptive equipment needed to allow students to access the curriculum, for screening and assessment services, and for transportation costs.

States must distribute the bulk of their grant awards to local education agencies and education service agencies. They may retain funds for State-level activities up to an amount equal to 25 percent of the amount they received for FY 1997 under the Preschool Grants program, adjusted upward each year by the lesser of the rate of increase in the State's allocation or the rate of inflation. The amount that may be used for administration is limited to 20 percent of the amount available to a State for State-level activities. The remaining five percent must be used for State-level initiatives such as in-service training in strategies appropriate for use with young children with disabilities and participation in other State-level programs for preschool children, including statewide early literacy development and enrichment programs.

There is no Maintenance of Effort or match requirement for the funds.

<b>Refugee Children School Impact</b>	<b>93.576</b>	<b>DHHS</b>	N/A	9.5	0.0	0.0	<sup>2,8</sup>

The Refugee Children School Impact grant is competitive applications grant to offset some of the costs of educating refugee children incurred by local school districts in which significant numbers of refugee children reside. Schools must use the grant to fund activities that will lead to the effective integration and education of refugee children. Some examples of how the monies may be used include: teaching better language skills through English as a Second Language instruction; providing after-school tutorials to help students understand and complete assignments; offering programs to encourage high school completion or to foster understanding among youth from diverse cultures through cultural awareness activities; and paying for bilingual/bicultural counselors.

The grant monies are to be used to supplement rather than to supplant State or local funding. There is no Maintenance of Effort or match requirement for this grant.

The bulk of these grant monies are distributed to local education agencies in assistance grants. The State of Arizona retains 15 percent of the grant funds for its administrative costs, including technical assistance.

The School Breakfast Program grant is a formula grant to assist States in providing a nutritious nonprofit breakfast service for school children. These grant funds are used to reimburse participating public and nonprofit private schools, of high school grade and under, for breakfasts served to eligible children that meet nutritional requirements prescribed by the Secretary of Agriculture. Public and nonprofit private residential child care institutions also are eligible to participate in this grant program. All participating schools must agree to serve free and reduced price meals to eligible children, and to operate the program on a nonprofit basis for all children regardless of race, sex, color, National origin, age, or disability.

Breakfast is served free to children who are determined by local school authorities to have household income levels at or below 130 percent of income eligibility guidelines adopted annually by the Secretary of Agriculture. Breakfast is served at a reduced price to children from households with incomes higher than 130 percent and at or below 185 percent of the income eligibility guidelines. The maximum reduced price charged for breakfast is 30 cents.

The rates of reimbursement are adjusted on an annual basis to reflect changes in the Food Away From Home series of the Consumer Price Index for all Urban Consumers. For the period July 1, 2004 through June 30, 2005, the rates of reimbursement ranged from 23 cents to 147 cents per breakfast served, depending on the income eligibility category of the child receiving the breakfast and the population level of poverty level students attending the school. These reimbursement amounts do not take into consideration the value of donated food commodities also distributed by the federal government for this program.

This program has no Maintenance of Effort or match requirements. All of these grant funds are distributed to the local entities providing the service.

Grant/Project and Description	CFDA	Grantor	FY 2008 Amount		FY 2009	FY 2010	Footnote(s)
			Available	Received	Est. Rev.	Est. Rev.	
<b>Special Education - Grants to States</b>	<b>84.027</b>	<b>USDOE</b>	N/A	167,830.2	0.0	0.0	

The Special Education - Grants to States is a formula grant based on the grant amount received for FY 1999, the State's population of children age three years through 21 years, and the State's population of three year through 21 year old children living in poverty. The monies are for ensuring children with disabilities through 21 years of age have available to them a free appropriate public education that provides special education and related services designed to meet their unique needs and to prepare them for further education, employment, and independent living. The grant funds can be used for salaries of teachers and other personnel; contracted services for therapy and other professional services; educational materials; professional development activities; and education-related needs and services (such as special transportation or occupational therapy).

The grant monies are to be used to supplement rather than to supplant State or local funding. There is a Maintenance of Effort requirement for the local education agencies, which requires current year expenditures be no less than the amount in the preceding year. In addition, local education agencies must show they have spent a certain minimum amount for the education of its children with disabilities before using these federal grant monies. The minimum amount that must be spent for the education of children with disabilities is computed under a statutory formula based on prior year expenditures.

States may set aside some of the federal grant monies for State-level activities. The amount is capped at five percent. In general, federal funds allowed for the administration of State and local programs do not have to be matched with State or local dollars. However, in the event the five percent of federal dollars is more than what is required for the administrative costs, the use of those excess federal funds for other purposes specified in law would have to be matched dollar for dollar by State or local dollars.

<b>Special Milk</b>	<b>10.556</b>	<b>USDA</b>	N/A	227.4	0.0	0.0	

The Special Milk Program for Children grant is a formula grant to provide subsidies to schools and institutions to encourage the consumption of fluid milk by the children served. Schools and institutions are eligible for this subsidy only if they do not participate in a meal service program authorized under the National School Lunch Act or the Child Nutrition Act of 1966.

The grant monies are for children served by eligible public and private nonprofit schools of high school grade and under, public and private nonprofit nursery schools, child-care centers, settlement houses, summer camps, and similar nonprofit institutions devoted to the care and training of children, except Job Corps Centers. The federal Child Nutrition Act was amended in 1986 to expand eligibility in the program to include children in split session kindergarten and pre-kindergarten programs in nonprofit schools and institutions when the children have no access to the federal meal service program operating in schools the children attend. All schools and child care institutions which participate must agree to operate the program on a nonprofit basis for all children without regard to race, sex, color, National origin, age or disability.

The grant monies are disbursed to States on the basis of the number of half pints of milk served to non-needy children, using a reimbursement rate specified by law. Milk served free to eligible needy children is reimbursed at the average cost of a half pint of milk. This rate is adjusted each school year to correspond to the change in the Producer Price Index for Fluid Milk Products published by the Bureau of Labor Statistics.

There is no Maintenance of Effort or match requirement for the federal funds. However, the cost of milk in excess of the federal reimbursement rates must be borne by sources within the States.

All of these federal grant funds are distributed to the local entities providing the service.

<b>State Administrative Expenses (SAE) for Child Nutrition</b>	<b>10.560</b>	<b>USDA</b>	N/A	0.0	4,050.9	4,050.9	<sup>3</sup>
--	---------------	-------------	-----	-----	---------	---------	--------------

The State Administrative Expenses for Child Nutrition grant is a formula grant to assist States in providing for its administrative expenses in supervising and giving technical assistance to local schools, school districts and institutions in their conduct of Child Nutrition Programs. These State Administrative Expense (SAE) funds must be used for purposes specified in federal law, consistent with the cost principles and constraints on allowable and unallowable costs, and indirect cost rates as prescribed in Office of Management and Budget Circular No. A-87. These SAE funds may be used, under certain conditions, for the procurement of supplies, equipment, and services.

For each fiscal year 2005 through 2007, each State receives not less than the initial allocation made to the State in Federal Fiscal Year 2004. For the National School Lunch Program, the School Breakfast Program, and the Special Milk Program, funds are allocated on the basis of an amount equal to one percent of the total funds used in the State for these programs during the second preceding year. No State receives less than \$200,000 or the amount it received in Federal Fiscal Year 1981, whichever is larger. In addition, the Secretary has discretionary authority to provide funds to States for program improvement.

There is no match requirement for these funds. However, there is a Maintenance of Effort (MOE) requirement. Any reduction of funds from State sources below the Federal Fiscal Year 1977 level will result in a withdrawal of the federal funds under this grant. As a result, General Fund monies are used for MOE.

<b>Statewide Longitudinal Data Systems</b>	<b>84.372</b>	<b>USDOE</b>	N/A	2,992.7	0.0	0.0	<sup>8</sup>
--	---------------	--------------	-----	---------	-----	-----	--------------

The Statewide Longitudinal Data System (SLDS) Grant Program, as authorized by the Educational Technical Assistance Act of 2002, Title II of the statute that created the Institute of Education Sciences (IES), is designed to aid state education agencies in developing and implementing longitudinal data systems. These systems are intended to enhance the ability of States to efficiently and accurately manage, analyze, and use education data, including individual student records. The data systems developed with funds from these grants should help States, districts, schools, and teachers make data-driven decisions to improve student learning, as well as facilitate research to increase student achievement and close achievement gaps.

<b>Summer Food Service - Meals</b>	<b>10.559</b>	<b>USDA</b>	N/A	192.1	0.0	0.0	<sup>8</sup>

The Summer Food Service grant is a formula grant to assist States, through grants-in-aid and other means, to conduct nonprofit food service programs for low-income children during the summer months and at other approved times, when schools are out of session or are closed for vacation. The grant monies are for disbursing to eligible service institutions (sponsors) which provide free meals to children in areas where at least 50 percent of the children meet the income eligibility criteria in the federal National School Lunch Program Act for free and reduced price lunches. Any service institution that conducts a regularly scheduled program for children from areas in which poor economic conditions exist is eligible to participate in the program.

Meals may be served to children age 18 years and younger, and to individuals over 18 years of age who participate in State approved school programs for persons with disabilities. The grant program generally operates during the months of May through September at site locations where regularly scheduled food services are provided for children. Sites also may participate in the program from September through May if the school is closed because of an emergency situation. Service institutions operating food programs for children on school vacation under a continuous year-round calendar may apply for participation in other months.

The grant monies are disbursed on a per meal reimbursement basis with rates adjusted annually on January 1, to reflect changes in the Food Away from Home series of the Consumer Price Index for All Urban Consumers. The service institutions received reimbursement either for actual costs or for one meal and one snack or two meals per child each day. Camps and sites primarily serving children of migrant workers may be approved to serve up to three reimbursable meals each day. Meals must meet minimum requirements of the United States Department of Agriculture.

This program has no Maintenance of Effort or match requirement. All of these grant funds are distributed to the local entities providing the service.

See the Summer Food Service – Admin Program for more details about this federal grant.

<b>Tech-Prep Education (Vocational Education)</b>	<b>84.243</b>	<b>USDOE</b>	N/A	1.3	0.0	0.0	<sup>2</sup>

The Tech-Prep Education grant is a formula grant that uses the State's population of different age categories in the prior year to apply statutory established percentages for distributing the funds. The grant funds are for developing and operating Tech-Prep education programs that consist of a planned sequence of study in a technical field beginning as early as the ninth year of school. The educational study extends through two years of postsecondary occupational education or an apprenticeship program of at least two years following the secondary school of study. The students receive an associate degree or a two-year certificate upon completing the study.

The grant monies go to States for awarding grants to the consortia of local education agencies and postsecondary education institutions that provide the services. Approved Tech-Prep programs must have seven elements: (1) an articulation agreement between secondary and postsecondary consortium participants; (2) a two-plus-two or a four-plus-two (only four-or six-year programs are authorized) design with a common core of proficiency in math, science, communication, and technology; (3) a specifically developed Tech-Prep curriculum; (4) joint in-service training of secondary and postsecondary teachers to implement the Tech-Prep curriculum effectively; (5) training of counselors to recruit students and to ensure program completion and appropriate employment; (6) equal access for special populations to the full range of Tech-Prep programs; and (7) preparatory services such as recruitment, career and personal counseling, and occupational assessment.

The grant monies are to be used to supplement rather than to supplant State or local funding. There is a Maintenance of Effort provision that requires non-federal expenditures meet or exceed prior year expenditures. There is no match requirement for the funds.

A State may elect to reserve a portion of the State's grant allocation for reasonable and necessary State administration costs, including supervision and technical assistance to eligible consortia. The amount is not set by law, but generally reasonable and necessary administrative expenses would not exceed five percent of the Tech-Prep grant. Any expenditure for State leadership activities such as curriculum development activities, professional development, or research activities is expressly prohibited under this grant. A State must fund administrative costs, from nonfederal sources, at the same or higher level each year unless the federal government makes less money available for administrative costs then the State can reduce its portion of administrative cost by the same percentage.

Grant/Project and Description	CFDA	Grantor	FY 2008 Amount		FY 2009	FY 2010	Footnote(s)
			Available	Received	Est. Rev.	Est. Rev.	
<b>Tech-Prep Education (Vocational Education)</b>	<b>84.243</b>	<b>USDOE</b>	N/A	1.3	0.0	0.0	<sup>2</sup>

The Tech-Prep Education grant is a formula grant that uses the State's population of different age categories in the prior year to apply statutory established percentages for distributing the funds. The grant funds are for developing and operating Tech-Prep education programs that consist of a planned sequence of study in a technical field beginning as early as the ninth year of school. The educational study extends through two years of postsecondary occupational education or an apprenticeship program of at least two years following the secondary school of study. The students receive an associate degree or a two-year certificate upon completing the study.

The grant monies go to States for awarding grants to the consortia of local education agencies and postsecondary education institutions that provide the services. Approved Tech-Prep programs must have seven elements: (1) an articulation agreement between secondary and postsecondary consortium participants; (2) a two-plus-two or a four-plus-two (only four- or six-year programs are authorized) design with a common core of proficiency in math, science, communication, and technology; (3) a specifically developed Tech-Prep curriculum; (4) joint in-service training of secondary and postsecondary teachers to implement the Tech-Prep curriculum effectively; (5) training of counselors to recruit students and to ensure program completion and appropriate employment; (6) equal access for special populations to the full range of Tech-Prep programs; and (7) preparatory services such as recruitment, career and personal counseling, and occupational assessment.

The grant monies are to be used to supplement rather than to supplant State or local funding. There is a Maintenance of Effort provision that requires non-federal expenditures meet or exceed prior year expenditures. There is no match requirement for the funds.

A State may elect to reserve a portion of the State's grant allocation for reasonable and necessary State administration costs, including supervision and technical assistance to eligible consortia. The amount is not set by law, but generally reasonable and necessary administrative expenses would not exceed five percent of the Tech-Prep grant. Any expenditure for State leadership activities such as curriculum development activities, professional development, or research activities is expressly prohibited under this grant. A State must fund administrative costs, from nonfederal sources, at the same or higher level each year unless the federal government makes less money available for administrative costs than the State can reduce its portion of administrative cost by the same percentage.

<b>Title I, Part C - Education of Migratory Children</b>	<b>84.011</b>	<b>USDOE</b>	N/A	35.8	0.0	0.0	<sup>8</sup>

The Title I, Part C - Education of Migratory Children grant is a formula grant based on each State's per pupil expenditure for education and counts of eligible migratory children, aged five years through 21 years, residing within the State. The purpose of the grant is to support high quality education programs for migratory children and to help ensure that migratory children who move among the States are not penalized in any manner by disparities among States in curriculum, graduation requirements, or State academic content and student academic achievement standards. Funds also ensure that migratory children not only are provided with appropriate educational services (including supportive services) that address their special needs but also that such children receive full and appropriate opportunities to meet the same challenging State academic content and student academic achievement standards that all children are expected to meet.

States use program funds to identify eligible children and provide education and support services through subcontracts with local agencies. These services include: academic instruction; remedial and compensatory instruction; English language instruction; vocational instruction; career education services; special guidance; counseling and testing services; health services; and preschool services.

The grant monies are to be used to supplement rather than to supplant State or local funding. There is no match requirement for this grant. However, there is a Maintenance of Effort requirement for each local education agency receiving the funds. Current year spending must be no less than 90 percent of the prior year spending in order to be eligible for funding in the upcoming budget year unless a waiver is approved.

The amount of spending for State administrative costs is capped at one percent of the federal grant.

<b>Title II, Part A - Improving Teacher Quality State Grants</b>	<b>84.367</b>	<b>USDOE</b>	N/A	25,219.5	0.0	0.0	

The Title II, Part A - Improving Teacher Quality State Grants is a formula grant to help schools and school districts ensure that all teachers are highly qualified to teach and principals and assistant principals are highly qualified to lead. The grant monies can be used for professionally developing teachers and principals to ensure they have the necessary knowledge and skills to prepare all students to meet challenging State academic content and student academic achievement standards. The federal grant monies also can be used to recruit, hire, and retain highly qualified teaching professionals.

There is no match requirement for the federal grant monies. However, there is a Maintenance of Effort requirement for each local education agency receiving the funds. Current year spending must be no less than 90 percent of the prior year spending in order to be eligible for funding in the upcoming budget year. In addition, the federal grant monies are to be used to supplement rather than to supplant State or local funding.

A total of 95 percent of the federal grant funds must be distributed to local education agencies. Of the remaining five percent, 2.5 percent is to be for contacts to local partners to assist in providing professional development activities and technical assistance to local education agencies. The other 2.5 percent is for State costs related to reforming certification and re-certification requirements and creating other mechanisms for developing and retaining highly qualified teachers and principals. This 2.5 percent limit on spending for State costs includes a 1.0 percent cap on the amount that can be spent for planning and administrative activities in implementing provisions of the federal grant.

The partnership portion of this grant is under its own AFIS number. See Title II, Part A - Improving Teacher Quality State Grants - Partnership for more information.

<b>Title II, Part B - Math and Science Partnerships</b>	<b>84.366</b>	<b>USDOE</b>	N/A	0.0	3,752.3	3,752.3	<sup>3</sup>

The Title II, Part B - Math and Science Partnerships grant is a formula grant to approved applicant States, with the size of individual State awards based on student population and poverty rates. No approved applicant State receives less than one half of one percent of the total appropriation. With these funds, each State is responsible for administering a competitive grant competition, in which grants are made to partnerships to improve teacher knowledge in mathematics and science. The partnerships are primarily between high-need school districts and the science, technology, engineering, and mathematics faculty in institutions of higher education. Partners are expected to develop more rigorous mathematics and science curricula that are aligned with State and local academic achievement standards. The goal is to improve the performance of students in the areas of mathematics and science by encouraging institutions of higher education to improve mathematics and science teacher education. The goal also is to be achieved by bringing mathematics and science teachers together with scientists, mathematicians, and engineers to improve their teaching skills.

There is no Maintenance of Effort or match requirement for the federal grant monies. The federal grant monies are to be used to supplement, not to supplant, funds that would otherwise be used for mathematics and science-related activities that the law authorizes. The bulk of these federal grant monies are distributed to eligible partners. The amount that may be used for administrative purposes is not limited in the federal statute, but the general limit for similar grants is five percent of the grant amount.

<b>Title II, Part C - Transition to Teaching</b>	<b>84.350</b>	<b>USDOE</b>	N/A	617.6	0.0	0.0	<sup>8</sup>
--	---------------	--------------	-----	-------	-----	-----	--------------

The Title II, Part C - Transition to Teaching grant is for supporting the recruitment and retention of highly qualified mid-career professionals, including qualified paraprofessionals and recent college graduates who have not majored in education, to teach in high-need schools and districts through the development of new or enhanced alternative routes to certification. Five-year grants are provided to State and local education agencies, or for-profit organizations, non-profit organizations, or institutions of higher education collaborating with State or local education agencies. Grantees develop and implement comprehensive approaches to train, place, and support teacher candidates whom they have recruited into their programs, which must meet relevant State certification or licensing requirements. Grantees then ensure that program participants are placed to teach in high-need schools and districts and that the candidates get the support they need to serve in these placements for at least three years.

The federal grant monies must be used to supplement, and not to supplant, State and local public funds expended for teacher recruitment and retention programs, including programs to recruit teachers through alternative routes to certification. There is no Maintenance of Effort or match requirement for these grant funds.

agencies, or for-profit organizations, non-profit organizations, or institutions of higher education collaborating with State or local education agencies. Grantees develop and implement comprehensive approaches to train, place, and support teacher candidates whom they have recruited into their programs, which must meet relevant State certification or licensing requirements. Grantees then ensure that program participants are placed to teach in high-need schools and districts and that the candidates get the support they need to serve in these placements for at least three years.

The federal grant monies must be used to supplement, and not to supplant, State and local public funds expended for teacher recruitment and retention programs, including programs to recruit teachers through alternative routes to certification. There is no Maintenance of Effort or match requirement for these grant funds.

The Title II, Part C - Transition to Teaching grant is for supporting the recruitment and retention of highly qualified mid-career professionals, including qualified paraprofessionals and recent college graduates who have not majored in education, to teach in high-need schools and districts through the development of new or enhanced alternative routes to certification. Five-year grants are provided to State and local education agencies, or for-profit organizations, non-profit organizations, or institutions of higher education collaborating with State or local education agencies. Grantees develop and implement comprehensive approaches to train, place, and support teacher candidates whom they have recruited into their programs, which must meet relevant State certification or licensing requirements. <b>Title II, Part D - Enhancing Education Through Technology</b>	<b>84.318</b>	<b>USDOE</b>	N/A	5,131.8	0.0	0.0	

The Title II, Part D - Enhancing Education through Technology grant is a formula grant allocated to a State based on its current year proportionate share of funding under Part A of Title I. The grant monies are for improving student achievement through the use of technology in elementary and secondary schools. The goal is to help all students become technologically literate by the end of the eighth grade and, through the integration of technology with both teacher training and curriculum development, establish research-based instructional methods that can be widely implemented.

Local activities include the support of continuing, sustained professional development programs and public-private partnerships. Activities also include the use of new or existing technologies to improve academic achievement, the acquisition of curricula that integrate technology and are designed to meet challenging State academic standards, the use of technology to increase parent involvement in schools, and the use of technology to collect, manage, and analyze data to enhance teaching and school improvement.

The grant monies are to be used to supplement rather than to supplant State or local funding. There is no match requirement for this grant. However, there is a Maintenance of Effort requirement for each local education agency receiving the funds. Current year spending must be no less than 90 percent of the prior year spending in order to be eligible for funding in the upcoming budget year unless a waiver is approved.

States may retain up to 5 percent of their federal grant allocations for State-level activities. The 95 percent that remains must be distributed for local activities. Of the 95 percent, one-half is to be distributed by formula to eligible local education agencies and the other one-half is to be distributed competitively to eligible local entities.

<b>Title III, Part A - English Language Acquisition State Grants</b>	<b>84.365</b>	<b>USDOE</b>	N/A	0.0	20,907.7	20,907.7	<sup>3</sup>

The Title III, Part A - English Language Acquisition grant is a formula grant that takes into account the number of immigrant and limited English proficient (LEP) students in each State. The goal is to improve the education of limited LEP children and youths by helping them to learn English. States must develop annual measurable achievement OBJECTIVES - for LEP students that measure their success in achieving English language proficiency and in meeting the same challenging State academic content and achievement standards set for other students.

Schools use the grant funds to implement and reform language instruction educational programs designed to help immigrant and LEP students achieve these standards. The approaches and methodologies used in these enhanced instructional opportunities must rely on scientifically based research.

The grant monies are to be used to supplement rather than supplant State or local funding. There is no match requirement for this grant. However, there is a Maintenance of Effort requirement for each local education agency receiving the funds. Current year spending must be no less than 90 percent of the prior year spending in order to be eligible for funding in the upcoming budget year unless a waiver is approved.

The State is allowed to set aside five percent of the federal grant funds for State-level activities. The allowable activities include professional development activities that assist personnel in meeting State and local certification and licensing requirements for teaching LEP students. The five percent also includes State planning and administration costs related to overseeing the federal grant funds and technical assistance provided to local area agencies receiving the grant funds. At least 40 percent of the 5 percent allowed for administration must be used for professional development or technical assistance activities.

<b>Title IV, Part B - 21st Century Community Learning Centers</b>	<b>84.287</b>	<b>USDOE</b>	N/A	0.0	21,228.6	21,226.8	<sup>3</sup>

The Title IV, Part B - 21st Century Community Learning Centers grant is a formula grant based on the proportion of each State's share of funds in the previous fiscal year under Part A of Title I of the Elementary and Secondary Education Act. The monies are used to support the creation of community learning centers which provide academic enrichment opportunities to students and their families during non-school hours (before or after school) or periods when school is not in session (including holidays, weekends or summer recess). The community learning center assists students in meeting State and local academic achievement standards in core academic subjects, such as reading and mathematics, by providing the students with opportunities for academic enrichment. The Centers also provide students with a broad array of other activities - such as drug and violence prevention, counseling, art, music, recreation, technology, and character education programs. Community learning centers also must serve the families of participating students, e.g., through family literacy programs.

The grant monies are to be used to supplement rather than supplant State or local funding. There is no match requirement for this grant. However, there is a Maintenance of Effort requirement for each local education agency receiving the funds. Current year spending must be no less than 90 percent of the prior year spending in order to be eligible for funding in the upcoming budget year unless a waiver is approved.

Up to five percent of a State's 21st Century federal grant allocation may be reserved by the State for the administrative and support responsibilities associated with implementing the grant program. Of the five percent, no more than two percent can be used for the administrative costs of carrying out the responsibilities under federal law, including establishing and implementing a peer review process for grant applications from local entities. The remaining three percent can be used for technical assistance to eligible and participating grantees.

<b>Title V, Part A - Innovative Programs</b>	<b>84.298</b>	<b>USDOE</b>	N/A	1,981.8	0.0	0.0	

The Title V, Part A - Innovative Programs is a formula grant based on the school-age population of each State. The grant monies are for 27 innovative assistance programs, including instructional and educational materials; technology; school improvement; school and education reform; and the education needs of at-risk and high-cost students.

The goal is to improve the quality of education for all students by supporting and implementing educational reform and school improvement initiatives that rely on scientifically based research. To achieve this goal, the grant monies can be used in a wide variety of ways. Some examples are: (1) Programs to recruit, train, and hire additional teachers so there will be more highly qualified teachers to reduce class size. (2) Professional development activities that give teachers, principals, and administrators the knowledge and skills to provide students with the opportunity to meet challenging academic content standards and student academic achievement standards. (3) Technology activities related to implementing school-based reform efforts, including professional development to assist teachers and other school personnel regarding how to use technology effectively in the classrooms. (4) Programs to improve the academic achievement of educationally disadvantaged elementary school and secondary school students, including activities to prevent students from dropping out of school. (5) Programs to improve the literacy skills of adults, especially the parents of children served by the local education agency, including adult education and family literacy programs. (6) Programs to provide for the educational needs of gifted and talented children. (7) Programs for cardiopulmonary resuscitation (CPR) training in schools. (8) Activities to promote, implement, or expand public school choice. (9) Programs to hire and support school nurses. (10) Initiatives to generate, maintain, and strengthen parental and community involvement. (11) School safety programs, including programs to implement the policy described in federal law and which may include payment of reasonable transportation costs and tuition costs for such students.

Funded programs must be: (1) tied to promoting challenging academic achievement standards; (2) used to improve student academic achievement; and (3) part of an overall education reform strategy.

The grant monies are to be used to supplement rather than to supplant State or local funding. There is no match requirement for this grant. However, there is a Maintenance of Effort requirement for each local education agency receiving the funds. 			Available	Received	Est. Rev.	Est. Rev.	
<b>Title V, Part A - Innovative Programs</b>	<b>84.298</b>	<b>USDOE</b>	N/A	1,981.8	0.0	0.0	

The grant monies are to be used to supplement rather than to supplant State or local funding. There is no match requirement for this grant. However, there is a Maintenance of Effort requirement for each local education agency receiving the funds. Current year spending must be no less than 90 percent of the prior year spending in order to be eligible for funding in the upcoming budget year unless a waiver is approved.

Spending for State administrative costs is capped at 15 percent of the grant funds.

<b>Title VI, Part A, Subpart 1 - Grants for State Assessments</b>	<b>84.369</b>	<b>USDOE</b>	N/A	0.0	0.0	0.0	<sup>4</sup>
<b>Title VI, Part A, Subpart I - Grants for State Assessments</b>	<b>84.369</b>	<b>USDOE</b>	N/A	0.0	8,207.5	0.0	<sup>3</sup>

The Title VI, Part A Subpart I - Grants for State Assessments is a formula grant based on student population counts and \$3.0 million in base funding to each State. The grant monies are for paying the costs of developing or subsequently implementing standards-based State academic assessments in reading or language arts, mathematics, and science as required under federal law. When the State has met all assessment requirements, the funds may be used to administer and continually refine and develop better State assessments and standards, including using monies for professional development activities that align with the State student academic achievement standards and assessments.

There is no Maintenance of Effort or match requirement for this federal grant.

<b>Title VI, Part B - Rural and Low-Income Schools</b>	<b>84.358</b>	<b>USDOE</b>	N/A	3.7	0.0	0.0	<sup>2</sup>

The Title VI, Part B - Rural and Low-Income Schools grant is a formula grant based on average daily student population counts. The grant monies are for financial assistance to rural districts to assist them in meeting their State's definition of adequate yearly progress toward improving student academic achievement. The local grant recipients may use the grant monies to conduct the following activities:

1. Teacher recruitment and retention, including the use of signing bonuses and other financial incentives;
2. Teacher professional development, including programs that train teachers to use technology to improve teaching and that train teachers of students with special needs;
3. Support for educational technology, including software and hardware, that meets the requirements of the federal Title II, Part D law for technology funding;
4. Parental involvement activities;
5. Activities authorized under the Safe and Drug-Free Schools and Communities State Grants program;
6. Activities authorized under the federal Title I law for improving educational methods for at-risk students; and
7. Activities authorized under the federal Title III law for language instruction for limited English proficient and immigrant students.

The grant monies are to be used to supplement rather than to supplant State or local funding. There is no match requirement for this grant. However, there is a Maintenance of Effort requirement for each local education agency receiving the funds. Current year spending must be no less than 90 percent of the prior year spending in order to be eligible for funding in the upcoming budget year unless a waiver is approved.

Spending for administrative costs is capped at five percent of the federal grant for State expenses and technical assistance to local grant recipients.

<b>Vocational Education - Basic Grants to States</b>	<b>84.048</b>	<b>USDOE</b>	N/A	6.7	0.0	0.0	<sup>8</sup>

The Vocational Education - Basic Grants to States is a formula grant that uses the State's population of different age categories in the prior year to apply statutory established percentages for distributing the funds. This grant supports State leadership activities, administration of the State plan for vocational and technical education, and subgrants to eligible recipients to improve vocational and technical education programs. To be eligible for a subgrant, an eligible recipient must operate a vocational and technical education program that meets certain requirements, including strengthening the academic, vocational, and technical skills of students participating in vocational and technical education programs, achieved by integrating core academic subjects into vocational and technical education programs through a coherent sequence of courses.

The grant monies are to be used to supplement rather than to supplant State or local funding. There is a Maintenance of Effort provision that requires non-federal expenditures meet or exceed prior year expenditures.

A minimum of 85 percent of the funds must be distributed on the basis of statutory formulae to eligible recipients. Of the remaining 15 percent, 10 percent can be used for State leadership activities such as curriculum development activities, professional development, or research activities and five percent can be used for State administration. There must be a \$1 to \$1 match for any federal dollars used for State administration. In addition, a State must fund administrative costs, from nonfederal sources, at the same or higher level each year unless the federal government makes less money available for administrative costs then the State can reduce its portion of administrative cost by the same percentage.

Agency: Department of Environmental Quality

Grant/Project and Description	CFDA	Grantor	FY 2008 Amount		FY 2009	FY 2010	Footnote(s)
			Available	Received	Est. Rev.	Est. Rev.	
<b>AD 1.1 1560 NEIEN - FY02 Exchange Network</b>	<b>66.608</b>	<b>EPA</b>	N/A	16.4	0.0	0.0	2, 6, 8
Complete development of network node and exchange facility data with U.S. EPA. Grant also includes planning for the exchange of hazardous waste and GIS data over the network.							
<b>AD 1.1 1640 U.S. Mexico Border Grant - Arizona/Sonora Education and Outreach Project</b>	<b>66.931</b>	<b>EPA</b>	N/A	2.1	0.0	0.0	2, 8
This project will develop and implement a public education and outreach project in the Arizona/Sonora border region aimed at reducing children's exposures to environmental contaminants, with particular emphasis on asthma triggers linked to environmental conditions and pesticide use at schools and child care facilities.							
<b>AD 1.1 1690 NEIEN - FY04 Exchange Network</b>	<b>66.608</b>	<b>EPA</b>	N/A	61.4	0.0	0.0	2, 6, 8
Expand network node functionality to include exchanging hazardous waste, ambient air quality, and GIS data using the node.							
<b>AD 1.1 1740 NEIEN - FY05 Exchange Network</b>	<b>66.608</b>	<b>EPA</b>	N/A	398.3	0.0	0.0	2, 6, 8
Use the National Environmental Information Exchange Network (NEIEN) to exchange children's health information related to asthma. The objectives of the grant are to 1) Share and exchange hospital admissions and ambient air quality data published as web services with the Arizona Department of Health Service and other partners. 2) Work towards developing a model for predicting adverse impacts on childhood asthma from forecast air quality monitoring data, and 3) publish asthma health warnings and alerts as web services using our network node to the public including hospitals, emergency rooms and schools.							
<b>AD 1.1 1750 NEIEN Implementation - FY05 Exchange Network</b>	<b>66.608</b>	<b>EPA</b>	N/A	22.4	0.0	0.0	2, 8
Use the agency' node to streamline the reporting of Pollution Prevention (P2) data to EPA and other states. This will further strengthen the department's pollution prevention (P2) program. The grant also supports using its network node to exchange National Emissions Inventory (NEI) data with EPA. Both data flows will require significant upgrades to AZURITE. The grant also supports using the node to exchange water quality and GIS data.

Agency: Department of Environmental Quality

Grant/Project and Description	CFDA	Grantor	FY 2008 Amount		FY 2009	FY 2010	Footnote(s)
			Available	Received	Est. Rev.	Est. Rev.	
<b>AD 1.1 1880 NEIEN - FY06 Exchange Network</b>	<b>66.608</b>	<b>EPA</b>	N/A	14.6	0.0	0.0	<sup>2, 8</sup>
Use the agency's network node to develop a comprehensive Complaints, Feedback and Notification (CFN) system for ADEQ. The CFN tracking system would enable the public to enter complaints or feedback, and regulated facilities to enter notifications. This application will allow ADEQ to respond to public feedback and complaints and track notifications more efficiently. Complaints represent an enormous opportunity for the agency to address environmental issues quickly and improve environmental conditions throughout the state. The grant also supports the exchange of GIS data for homeland security and improving how air quality compliance data is exchanged							
<b>AD 1.1 1890 AZ Environmental Performance Track Program</b>	<b>66.940</b>	<b>EPA</b>	N/A	95.1	1.0	1.0	<sup>6</sup>
Development of guidance and templates, focus on agriculture, improve permitting flexibility & reduced reporting incentives.							
<b>AD 1.1 1960 Integrated Pest Management in Schools Along the Border</b>	<b>66.931</b>	<b>BECC</b>	N/A	53.1	0.0	0.0	<sup>8</sup>
BECC grant. With the cooperation of the University of Arizona, the Arizona Sonora Children's Environmental Health Task Force will seek to integrate and expand existing efforts to implement Integrated Pest Management in schools and child care centers along the Arizona/Sonora Border.							
<b>AQ 2.1 0041 Air Pollution Control Program</b>	<b>66.001</b>	<b>EPA</b>	N/A	3,941.5	4,322.2	4,322.2	<sup>6, 13</sup>
To support air quality planning and management programs pursuant to the federal Clean Air Act: 1) state implementation plan development and management; 2) Non attainment area planning; 3) Collection and analysis of ambient air quality data; 4) Permitting of stationary sources of air pollution. The grant does not provide direct support implementation programs in the State Implementation Plan, such as the Vehicular Inspection Program, Oxygenated Fuels, or Travel Reduction. The funding was awarded based on demographics. Financial assistance is granted to agencies who are required to do transportation conformity under the Clean Air Act and the Federal Highway Administration. These amounts have been consistent for the last ten years.							
<b>AQ 2.1 0950 PM 2.5 Monitoring Network</b>	<b>66.034</b>	<b>EPA</b>	N/A	388.9	260.7	260.7	<sup>6</sup>
To develop and implement a nationwide fine particulate monitoring (PM2.5) network. The funding basis of the award was demographics.

<b>AQ 2.1 1580 CAA Special Purpose Activities - Air Toxics Trends</b>	<b>66.034</b>	<b>EPA</b>	N/A	173.3	20.6	20.6	<sup>2,6</sup>
To characterize air toxics data and determine the ambient concentrations of air toxic compounds at the Phoenix Super Site location. The funding basis of the award was demographics.							
<b>AQ 2.1 1990 Clean School Bus USA</b>	<b>66.036</b>	<b>EPA</b>	N/A	0.0	200.0	200.0	<sup>3</sup>
A grant to improve the health and well being of children in the metropolitan Phoenix non-attainment area for PM, strengthen our relationships with local school districts, and build on the success of the state funded Low Emission School Bus (LESB) program by providing diesel particulate filter emission retrofit devices to school district applicants.							
<b>WP 3.1 0070 Hazardous Waste Management Program</b>	<b>66.801</b>	<b>EPA</b>	N/A	1,552.0	1,605.3	1,605.3	
Funding is provided by EPA to ADEQ for delegation of the federal hazardous waste program. Funding levels are determined by the size of the regulated universe in Arizona as compared to other EPA Region IX states which also receive funding. The grant funds are used to support permitting, inspections and compliance, data management, and waste minimization efforts for Arizona hazardous waste generators.							
<b>WP 3.1 1490 South Phoenix Toxic Use Reduction Project</b>	<b>66.034</b>	<b>EPA</b>	N/A	167.1	0.0	0.0	<sup>2,6,8</sup>
In partnership with the community of South Phoenix, develop a multi-media reduction plan and implement cost-effective actions that will decrease the overall toxic pollutants and emissions to the air, water and soil, thereby reducing and/or eliminating potential negative health impacts of toxics to the extent possible. In concert with identifying and subsequently reducing toxics in the community, we will outreach to the public on emergency response protocols in the event of any accidental toxic releases.							
<b>WP 3.1 1650 Pollution Prevention Grant - Green Schools</b>	<b>66.708</b>	<b>EPA</b>	N/A	13.7	0.0	0.0	<sup>6,8</sup>
Funding for specific ADEQ Pollution Prevention Program projects. This grant is competed for within EPA Region IX and awards are based on potential benefits of the project. ADEQ's current grant is being used to promote a Green School program in Arizona ;to implement a High Performance School campaign; assist with individual school project implementation; provide a template for documentation of toxic use reduction; material and energy conservation; cost savings and publishing data; and case studies on the ADEQ web site.

<b>WP 3.1 1910 Mitigation and Cleanup Strategy of Solid Waste from Undocumented Migration</b>	<b>66.931</b>	<b>Border Environment Corporation</b>	N/A	70.4	0.0	0.0	6, 8
The Border Environmental Cooperation Commission in Coordination with EPA Region IX provides funding for activities that will improve the environment along the Arizona/Mexican border littered with trash and abandoned vehicles.							
<b>WP 3.1 1970 Pollution Prevention Grant - TRI Facility Outreach</b>	<b>66.708</b>	<b>EPA</b>	N/A	16.7	20.0	20.0	
Funding for specific ADEQ Pollution Prevention Program projects. Entities within EPA Region IX compete for the grant funding and awards are based on potential benefits outlined in the grant proposals. This project will identify facilities that have filed Toxic Release Inventory (TRI) forms with EPA but have not filed the required Pollution Prevention (P2) Plan with ADEQ. Notification will be given to these facilities to file plans, hold application workshops, provide technical and on-site assistance, and compile subsequent chemical reductions and resource conservation data from newly filed plans into our P2 facility database. Program will encourage these facilities to participate in the Arizona Climate Change initiative and participate in any green house gas emissions reporting system that ADEQ develops.							
<b>WP 3.3 0111 Leaking Underground Storage Tank Program</b>	<b>66.805</b>	<b>EPA</b>	N/A	910.8	1,000.0	1,000.0	6, 13
To assist the Department in the oversight of the investigation and clean-up of LUST sites performed by the responsible party pursuant to A.R.S. 49-1005; to assist in performing the investigation and clean-up of "orphan" LUST sites by the State Lead Program pursuant to A.R.S. 49-1017 and for the administration of the UST Corrective Action Section.							
<b>WP 3.3 0191 Underground Storage Tank Program</b>	<b>66.804</b>	<b>EPA</b>	N/A	534.7	640.0	640.0	6, 13
Partial funding of ADEQ's UST inspection and compliance program, focused primarily toward personnel conducting UST operational inspections and compliance; installation and closure inspections; UST notification, and financial responsibility compliance. Basis of the funding: A cooperative agreement with EPA to implement the federal UST Program in Arizona to ensure that all regulated USTs meet requirements and standards designed to prevent releases and to detect releases early when they occur.

<b>WP 3.4 0100 PASI Superfund Consolidated Cooperative Agreement</b>	<b>66.802</b>	<b>EPA</b>	N/A	52.1	50.0	50.0	
<p>The PA/SI Grant is a part of the ADEQ/EPA Superfund Consolidated Cooperative Agreement. The grant is for the Site Assessment Unit to conduct Preliminary Assessments and Site Investigations, as tasked by EPA Region IX, to identify and determine if sites in Arizona should be listed on the National Priorities List.</p>							
<b>WP 3.4 0240 MSCA Superfund Consolidated Cooperative Agreement</b>	<b>66.802</b>	<b>EPA</b>	N/A	297.2	525.9	525.9	
<p>This grant is based on site specific workplans that were negotiated by EPA and ADEQ. Its purpose is to provide U.S. EPA with hydrologic and project management support for the National Priorities List (NPL) and proposed NPL sites throughout Arizona. NPL sites include Tucson International Airport Area (TIAA) and Apache Nitrogen Products in Tucson and the Phoenix Goodyear Airport North, South Indian Bend Wash, Motorola 52nd Street and Hassayampa sites in the Phoenix area. Use of MSCA funds for activities outside the scope of the negotiated workplans must have prior approval from EPA. This grant provides pass through funds (\$2,000) to the Pima County Department of Environmental Quality for private well sampling related to TIAA. Pima County Department of Environmental Quality conducted the original well survey and sampling. They are the most appropriate entity to continue the sampling effort because of their knowledge and experience with these wells.</p>							
<b>WP 3.4 0302 Defense Environ. Restoration Pgm (DOD)</b>	<b>66.802</b>	<b>DOD</b>	N/A	398.9	1,243.0	1,243.0	<sup>6</sup>
<p>This grant is based on workplans that were negotiated by the Department of Defense and ADEQ. Its purpose is to provide oversight of environmental restoration activities at specified military installations throughout Arizona. The Phoenix and Tucson offices oversee activities at Camp Navajo, Williams Air Force Base, Yuma Proving Ground, Yuma Marine Corps Air Station, Luke Air Force Base, Davis Monthan Air Force Base, 161st Air National Guard, Barry Goldwater Range, Gila Bend Auxiliary Field, Papago Military Reservation, Fort Huachuca, the Formerly Used Defense Sites (FUDs) sites, Air Force Plant 44 and 162nd Air National Guard. Use of funds for activities outside the scope of the negotiated workplans must have prior approval from the Department of Defense.</p>

<b>WP 3.4 1520 State and Tribal Response Program</b>	<b>66.817</b>	<b>EPA</b>	N/A	1,079.9	979.8	979.8	<sup>6</sup>
<p>The purpose of this funding is to enhance and expand the Voluntary Remediation Program and to develop the Brownfields Assistance Program. Funds cannot be used for administration (including personnel time) for the Brownfields Revolving Loan Fund. Funds to be used for site specific targeted brownfields assessments are secondary to the primary administrative purpose. Time charged to this grant can not also be billed to VRP applicants for site specific activities. This is an on-going grant from EPA, and funds are distributed nationally to both states and tribes based on EPA criteria.</p>							
<b>WP 3.5 1850 West Cap Grant</b>	<b>66.802</b>	<b>EPA</b>	N/A	39.7	0.0	0.0	<sup>6, 8</sup>
<p>ADEQ entered into a State Superfund Contract (SSC) the provides an estimate of EPA and ADEQ costs for the projected duration of the long term response action (ten years) at West Cap, which is part of the Tucson Airport NPL site. EPA is providing ADEQ with a grant to cover EPA's ninety percent share of the costs (\$296,100 in year one and \$4,078,381 over ten years). This grant money can be used for activities related to remediation at the site. Grant money will be disbursed to ADEQ annually and ADEQ will provide annual accounting of these funds.</p>							
<b>WQ 4.1 0810 Performance Partnership Grant</b>	<b>66.605</b>	<b>EPA</b>	N/A	21.3	0.0	0.0	<sup>2, 8</sup>
<p>Merge Safe Drinking Water, Groundwater, Surface Water and Nonpoint Source Grants. Inspection, permits, enforcement and elimination of water pollution. Implementing a state public water system supervision program and nonpoint source program.</p>							
<b>WQ 4.1 0811 Performance Partnership Grant</b>	<b>66.605</b>	<b>EPA</b>	N/A	4,045.8	5,562.8	5,562.8	<sup>6</sup>
<p>Merge Safe Drinking Water, Groundwater, Surface Water and Nonpoint Source Grants. Funds to be used to promote inspection, permits, enforcement and elimination of water pollution. Implementing a state public water system supervision program and nonpoint source program. Fund will be used to carry out the objectives of the surface water protection programs, nonpoint source pollution control program, and the public water supply supervision program.</p>

<b>AASG and USGS Geological Interop Geoscience Information Network</b>	<b>00.000</b>	<b>National Science Foundation</b>	N/A	0.0	250.0	187.5	<sup>3, 10</sup>
INTEROP – GIN (Geosciences Information Network) AZGS is leading a coalition of the 51 state geological surveys (AASG), the U.S. Geological Survey (USGS), and other partners, which will receive funding over 3 years from NSF to start building a national distributed, interoperable data network for the geosciences.							
<b>Data Base Management - USGS</b>	<b>00.000</b>	<b>USGS</b>	N/A	16.0	65.0	52.0	<sup>6, 10</sup>
Upgrade the National Geologic Database. The USGS pays 1/2 of an FTE for one of our research geologists. This has been an on-going renewable agreement.							
<b>Earth Fissure Education</b>	<b>97.039</b>	<b>FEMA through DEMA</b>	N/A	0.0	24.6	9.0	<sup>1, 4, 6, 11</sup>
This grant is for the purpose of educating land use decision makers and public advocacy groups regarding hazards and mitigation of earth fissures (in Arizona). This project is due develop a mitigation awareness program to educate local governments, land use planners and decision makers, public advocacy groups, realtors, contractors and builders, among others, on the risk or hazard of earth fissures. Arizona Geological Survey to develop high-quality maps, pamphlets, presentations, and a video to describe earth fissures, illustrate the process by which fissures form and propagate, and discuss mitigation techniques.							
<b>National Geological and Geophysical Data Preservation 08</b>	<b>15.814</b>	<b>USGS</b>	N/A	0.0	25.0	0.0	<sup>3</sup>
AZ Geoscience Information Network and Interface to the National Data Catalogue AZGS has a wide range of data that will be catalogued and inventoried, put into digital format, placed online, and made interoperable both internally and with data sets held by other organizations in Arizona and with complementary data through the National Data Catalogue.							
<b>NSF National Geoinformatics System Web Portal</b>	<b>00.000</b>	<b>NSF to U of KS</b>	N/A	5.0	4.0	4.0	<sup>10</sup>
Developing and maintaining a web portal for geo-informatics.

<b>Post Wildfire Debris Flow Assessment</b>	<b>97.039</b>	<b>FEMA through DEMA</b>	N/A	22.4	0.0	0.0	<sup>8</sup>
Hazard Mitigation Grant: The Arizona Geological Survey will analyze post fire debris flow and propose appropriate mitigation measures. Specifically, Pine and Strawberry, Arizona, are wild land urban interface communities located within unincorporated Gila County. These two communities have been identified as high risk for threat of fire and post-fire flooding and sedimentation. AZGS will assist in addressing the issue of flooding resulting after a wild land fire and provide research necessary for Gila County to implement its Multi-Hazard Mitigation Plan.							
<b>Seismic Hazard Pre-Disaster Mitigation Plan</b>	<b>97.017</b>	<b>FEMA through DEMA</b>	N/A	0.0	307.0	96.5	<sup>3</sup>
The goal of this is to reduce or eliminate the risk to people and property from natural or human-caused hazards. It will promote hazard mitigation throughout the state and increase public awareness of Arizona's hazards and risks. Through this grant we will obtain seismic stations and monitor and analyze activity to re-assess the seismic hazards (which are under estimated) for the state and then identify areas that are particularly vulnerable. We will then release the information via public outreach to allow jurisdictions to update their FEMA approved mitigation plans, determine appropriate mitigation measures, and establish appropriate seismic building codes.							
<b>StateMap</b>	<b>15.810</b>	<b>USGS</b>	N/A	216.0	217.0	217.0

<b>Surficial Geologic Mapping in Organ Pipe National Monument, Southern Arizona</b>	<b>00.000</b>	<b>US Dept of the Interior NPS</b>	N/A	0.0	66.5	33.2	<sup>3, 6, 10</sup>
National Park Service (NPS) DO 77 and the 1997 NPS Strategic Plan, Goal In1, Natural Resource Inventories, prescribe a digital geologic map as one of twelve essential data sets for parks. To meet this goal, the Natural Resources Program Center has undertaken a Geologic Resource Inventory of 270 natural area parks. Organ Pipe National Monument is identified as one of those parks. The Geologic Resources Division administers the inventory program and is charged with providing each park with: 1.) An evaluation of park geologic resources and issues 2.) An assessment of geologic map coverage and production of digital products, and 3.) A compilation of a geologic report with basic geologic information, hazards and issues, and existing data and research relating to the park.

Arizona Sample and Data Inventory

Section 351 of the Energy Policy Act of 2005 directs the Secretary of the Interior, through the Director of the U.S. Geological Survey, "to carry out a National Geological and Geophysical Data Preservation Program". The objectives are:

1. To archive geologic, geophysical, and engineering data, maps, well logs, and samples;
2. To provide a national catalog of such archival material; and
3. To provide technical and financial assistance related to the archival material. One of the actions items in the FY2007 implementation plan is to "begin interactions with State geological surveys and other DOI agencies that maintain geological and geophysical data and samples to address their preservation and data rescue needs. As the first step in this process, the USGS is requesting that each state provide an assessment of current collection resources and data preservation needs. This information will provide a snapshot of the diversity of scientific collections held, supported, or used by state geological surveys.

<b>Abstinence Education Program</b>	<b>93.235</b>	<b>DHHS/ACF/ACYF</b>	N/A	911.9	911.9	0.0	

The Abstinence Education Program Grant provides abstinence education services to children ages 12 to 19 years (male and female), parents, and adults. Funds are awarded to local community-based organizations in Arizona through a competitive process. The grant currently provides services in five of the fifteen counties in Arizona through seven contracts with community-based agencies, a local health department, and a private counseling office. The purpose of the project is to reduce the rates of out of wedlock pregnancies, births, and Sexually Transmitted Disease (STD). The purpose also is to delay the age of first sexual intercourse through the delivery of an educational program, which stresses abstinence until marriage.

The objective is to implement a program education component, a technical assistance component, and a program monitoring and quality improvement plan component. The grant requires reports for meeting the following national performance measures/goals: (1) Lower the pregnancy rate among teenagers, especially those age 15 to 17 years old; (2) Reduce the proportion of adolescents 17 years of age and younger who have engaged in sexual intercourse; (3) Reduce the incidence of STDs among adolescents; and (4) Lower the birth rate among teenagers, especially those age 15 to 17 years.

This grant is provided through Title V, Section 510 (b) of the Social Security Act using a population-based formula. This formula grant state allocation is based upon the 2000 Census data for children in poverty. There is a required match of \$3 State for \$4 of Federal grant funds. The non-Federal match must be used solely for the activities enumerated under Section 510 and may be State dollars, local dollars, private or Foundation dollars, or in-kind support. The match was provided from State tobacco tax and tobacco settlement funds in previous years. Beginning July 1, 2004, the match requirement was passed through to the contractors on a dollar for dollar basis from in-kind or cash contributions.

There is no Maintenance of Effort requirement for this grant. The Federal funds cannot be used to supplant and must be used for the provision of services consistent with PL 104-193.

This is the same grant that was previously under AFIS Grant Number 099082 and 098023.

<b>Adult Blood Lead Epi Surveillance</b>	<b>93.197</b>	<b>DHHS/CDC</b>	N/A	21.3	3.8	0.0	<sup>2</sup>

The Adult Blood Lead Epidemiology Surveillance Grant serves the adult residents of Arizona that are victims of lead poisoning. The goal is to eliminate adult blood lead poisoning using the following objectives: (1) enhance the disease surveillance system; (2) assure screening of workers who are potentially exposed to lead and follow-up care for workers who are identified with elevated blood lead levels; (3) assure awareness and action among the general public and affected professionals in relation to preventing adult lead poisoning; (4) expand primary prevention of occupational lead poisoning in high-risk areas in collaboration with other government and community-based organizations; and (5) utilize the Arizona Occupation Lead Poisoning Targeted Screening Plan to maximize the effectiveness of the program in areas throughout the State where workers are at greatest risk for lead poisoning.

There are no match or Maintenance of Effort requirements for this grant. The monies cannot be used to supplant other funds used for adult blood lead activities.

<b>Adult Viral Hepatitis C Prevention Coordinator</b>	<b>93.283</b>		N/A	61.3	61.3	61.3	
---	---------------	--	-----	------	------	------	--

The purpose of this cooperative agreement is to improve the delivery of viral hepatitis prevention services in healthcare settings and public health programs that serve adults at risk for viral hepatitis. The primary goals of these activities are to decrease the incidence of new infections of hepatitis A virus (HAV), hepatitis B virus (HBV) and hepatitis C virus (HCV) and to decrease risks for chronic liver disease, including cirrhosis and liver cancer, in persons with chronic HBV infection or chronic HCV infection.

There is no state match or maintenance of effort.

<b>Arizona Child and Adolescent State Infrastructure Grant</b>	<b>93.243</b>	<b>DHHS/SAMHSA</b>	N/A	966.0	966.0	964.0	

Under the leadership of the Governor’s Office, the Arizona Department of Health Services and Arizona child serving agencies, propose to use grant funds to expand and sustain the activities that are taking place to further improve Arizona’s mental health and substance abuse services for children and adolescents. The goal of the grant is to increase the State’s capacity of mental and substance abuse services to children and adolescents, and expand early intervention services to the 0-5 child population, youth in transition, and enhance coordination with families. The Governors Office submitted the grant application.

There is no match or Maintenance of Effort requirement for this grant. (This grant was previously listed under the following title: Child and Adolescent Mental Health and Substance Abuse State Infrastructure Grants.)

This is the same grant that was previously under AFIS Grant Number 099094.

<b>Arizona State System Development Initiative (SSDI)</b>	<b>93.110</b>	<b>DHHS/HRSA</b>	N/A	40.0	29.9	35.3	
---	---------------	------------------	-----	------	------	------	--

The Arizona State System Development Initiative Grant facilitates the development of an integrated public health information infrastructure for children in the State of Arizona. Through this grant, Arizona improves linkages between systems of early identification and systems of early intervention to help assure that every child with a genetic or congenital condition, developmental disability, or other special health care need is identified and receives appropriate care. Eventually, these improved linkages between public and private health systems will enhance service delivery and ensure coordinated care that is community-based, culturally competent, and comprehensive.

There is no match or Maintenance of Effort requirement for this grant. (This grant was previously listed under the following title: Development of Integrated Systems for Child Health.)

<b>ATSDR - Health Consultations and Assessment</b>	<b>93.240</b>	<b>DHHS/CDC</b>	N/A	214.9	323.6	251.1	<sup>6</sup>
<p>The Agency for Toxic Substances and Disease Registry (ATSDR) - Health Consultations and Assessment cooperative agreement is used to conduct environmental health consultations and risk assessments for the communities that are exposed to environmental hazards. Exposure investigations are conducted throughout Arizona at Superfund sites when initiated by requests or complaints. The grant monies are used to conduct site-specific health assessments and health consultations in an effort to identify possible environmental public health hazards; develop health education programs for communities located near Superfund sites; initiate site-specific community involvement activities; and address specific concerns of individuals who live near Superfund sites.</p> <p>Application for the grant must be made every year. The funds are made available through a competitive application process every five years and a non-competitive process the other four years of the five-year budget cycle. The amount requested is based upon the grant guidance document and the program's needs assessment, both at the program level and at the local departments' level. The grant award is based on total funds available, planned activities listed by priority, adequate budget justification, individual State needs, and application content for this competitive grant.</p> <p>There is no match or Maintenance of Effort requirement for the grant funds; however, funding is dependent upon minimum existing infrastructures and performance towards pre-set objectives. The grant does not allow for supplanting of State funds.</p>							
<b>AZ American Indian Grant Writing Workshop</b>	<b>00.000</b>	<b>DHHS/Office of Minority Health</b>	N/A	2.5	(0.3)	0.0	<sup>8, 10</sup>

The purpose of this project is to increase the knowledge of Arizona Native American health programs in the grant writing process to secure funding resources that will ultimately increase the capacity of their health systems/programs to address their community's health disparities.

There is no state match.

<b>AZ Childhood Lead Poisoning Prevention Program</b>	<b>93.197</b>	<b>DHHS/CDC</b>	N/A	104.3	82.1	95.8	
<p>The purpose of this competitive cooperative agreement is to eliminate childhood lead poisoning. The cooperative agreement provides the impetus for the development, implementation, expansion, and evaluation of the program's childhood lead poisoning prevention activities. These activities include: A. Arizona's Childhood Lead Poisoning Elimination Plan. B. Arizona's Screening and Case Management Plans. C. Surveillance Activities. D. Primary prevention of childhood lead poisoning in high-risk areas in collaboration with other government and community-based organizations. 5. Continuation and the formation of new Strategic Partnerships.</p> <p>The cooperative agreement activities specifically relate to the following Strategic Plan goals and performance measures:            Goal 1 – To provide Arizonans with a variety of timely and effective health assessments related to releases of hazardous substances and contaminants to the environment. a. Epidemiological studies, b. Inquiries for information.            Goal 2 – To maintain a registry of children with reported blood lead levels 10 ug/dL or greater and environmental investigation in cases with levels of 20 ug/dL or greater: a. Reports in registry, b. Follow-up consultations, c. Investigations            These goals will be accomplished by the following cooperative agreement objectives: A. To reduce the burden of lead poisoning in children. B. To improve the ability of state childhood lead poisoning prevention programs' to monitor the burden of lead poison in children. C. To assure implementation of systems to control/eliminate lead sources before children are exposed.</p> <p>The state match for this grant is \$1: \$.50, meaning for every \$1 in Federal money, ADHS must match \$.50. This match is \$59,910.</p>

Grant/Project and Description	CFDA	Grantor	FY 2008 Amount		FY 2009	FY 2010	Footnote(s)
			Available	Received	Est. Rev.	Est. Rev.	
<b>Childhood Lead Poisoning Prevention and Surveillance</b>	<b>93.197</b>	<b>DHHS/CDC</b>	N/A	10.7	(0.5)	0.0	<sup>2, 8</sup>

The Arizona Childhood Lead Poisoning Prevention Program is a cooperative agreement to eliminate childhood lead poisoning. The OBJECTIVES - of the grant are to: (1) enhance the disease surveillance system; (2) assure screening of children who are potentially exposed to lead and follow-up care for children who are identified with elevated blood lead levels; (3) assure awareness and action among the general public and affected professionals in relation to preventing childhood lead poisoning; (4) expand primary prevention of childhood lead poisoning in high-risk areas in collaboration with other government and community-based organizations; and (5) utilize the Arizona Childhood Lead Poisoning Targeted Screening Plan to maximize the effectiveness of the program in areas throughout the State where children are at the greatest risk for lead poisoning.

Application for the grant must be done yearly. The funds are made available through a competitive application process every three years and a non-competitive process the other two years of the three-year budget cycle. The amount requested is based upon the grant guidance document and the program's needs assessment, both at the program level and at the local departments' level. The grant award is based on total funds available, planned activities listed by priority, adequate budget justification, individual State needs, and application content for this competitive grant. There is no match or Maintenance of Effort requirement for the grant funds; however, funding is dependent upon minimum existing infrastructures and performance towards pre-set objectives. The grant does not allow for supplanting of State funds.

The AFIS Grant Number changed in mid-FY 2004 from 098015 to 098090 for this grant.

<b>Children's Oral Healthcare Access Program Grant</b>	<b>93.110</b>	<b>DHHS/HRSA</b>	N/A	52.0	(2.8)	0.0	<sup>2, 8</sup>
--	---------------	------------------	-----	------	-------	-----	-----------------

The Children's Oral Healthcare Access Program Grant is used to expand the dental public health capacity in local communities by providing resources in the form of personnel and training for implementing already drafted strategic plans. The outcome OBJECTIVES - are as follows: (1) Increase the number of personnel with education in dental public health from five to at least ten. (2) Improve the infrastructure in at least two Arizona communities by increasing the number of staff able to implement community level interventions.

There is no match or Maintenance of Effort requirement for this grant.

<b>Chronic Disease Prevention and Health Promotion</b>	<b>93.283</b>	<b>DHHS/CDC</b>	N/A	0.0	505.0	0.0	4, 6, 11

The Chronic Disease Prevention and Health Promotion Grant consists of four components. Each of the four components is described below:

**1. Reducing the Burden of Arthritis and Other Rheumatic Conditions**

The Reducing the Burden of Arthritis and Other Rheumatic Conditions component is applicable to all ages, but targeted towards Arizona' aging population and primarily those over 65 years of age. The OBJECTIVES - for this component of the grant include: (1) expanding and strengthening active partnerships among individuals, public and private agencies, community organizations, government at all levels, Native American tribes, and local communities throughout Arizona that are concerned with reducing the impact of arthritis; (2) increasing the public awareness of arthritis in regard to its signs and symptoms, early diagnosis benefits, and practices that contribute to the prevention and the effective self-management of arthritis; (3) increasing health care providers knowledge of arthritis and management techniques to promote the development and the utilization of protocols and practices that contribute to the prevention and the effective management of arthritis; (4) increasing and improving programs, policies, and systems that are relevant to the prevention and the effective management of arthritis; and (5) increasing surveillance to promote the utilization of comprehensive, timely, and accurate data for assessing arthritis needs and developing and evaluating arthritis prevention and intervention programs and approaches.

There are no match or Maintenance of Effort requirement for this component of the grant.

**2. Nutrition, Physical Activity, and Obesity Program**

The Nutrition, Physical Activity, and Obesity Program component consists of programs that are being developed to serve local communities, worksites, schools, and healthcare communities. The OBJECTIVES - for this component of the grant include: (1) reducing the incidence of obesity and chronic diseases by developing and implementing a comprehensive statewide nutrition and physical activity plan; (2) preventing and controlling diseases related to obesity in Arizona residents by improving, maintaining, and evaluating the nutritional intake and physical activity levels of these residents; and (3) identifying and recruiting internal and external partners to work cooperatively in the development and implementation of the statewide plan for reducing the incidence of obesity and chronic diseases.

<b>Chronic Disease Prevention and Health Promotion</b>	(Continued)		N/A				

There is no match or Maintenance of Effort requirement for this component of the grant.

**3. Comprehensive State-Based Tobacco Use Prevention and Control Program**

The Comprehensive State-Based Tobacco Use Prevention and Control Program component is for building and maintaining tobacco control programs within State and territorial health departments to reduce the burden that tobacco use places on health and health care costs. These efforts are directed at social and environmental changes to reduce the prevalence and consumption of tobacco by adults and young people among all populations, eliminate exposure to second hand smoke, and identify and eliminate the disparities experienced by population groups relative to tobacco use and its effects.

The goals of this grant works synergistically with the overall goals of the Arizona Tobacco Education and Prevention Program (TEPP), which is to develop effective programs for tobacco use prevention and cessation and to promote tobacco-free environments. This grant funding works to fill in the gaps where TEPP dollars are not being spent, which includes funding for the Coalition for Tobacco Free Arizona (goal is to support and maintain the overall operation of the coalition and support four quarterly coalition meetings), and 2 to 3 TEPP positions (i.e. Rural/Ethnic Outreach Coordinator, American Indian Program Administrator, and a possible Health Educator position).

This component of the grant has a match requirement, which fluctuates each year. The match for last year's award was \$1 State to \$1 Federal Funds. The match for this year's award is \$1 State to \$4 Federal funds. There is no Maintenance of Effort requirement for this component of the grant.

**4. Behavioral Risk Factor Surveillance System**

The Arizona Behavioral Risk Factor Surveillance System (BRFSS) component is an ongoing telephone survey conducted by the Arizona Department of Health Services, Bureau of Public Health Statistics since 1983. Through a series of monthly telephone interviews, States uniformly collect data on the behaviors and conditions that place adults at risk for chronic diseases, injuries, and preventable infectious diseases that are the leading causes of morbidity and mortality in the United States.

\* (The different components of this grant were reported under different AFIS Grant Numbers during a portion of FY 2004. Those AFIS Grant Numbers were 099012, 098057, and 099029.)

<b>CISS - Early Childhood Comprehensive Systems</b>	<b>93.110</b>	<b>DHHS/HRSA</b>	N/A	29.5	251.7	102.0	<sup>2,6</sup>
---	---------------	------------------	-----	------	-------	-------	----------------

The Community Integrated Services Systems - Early Childhood Comprehensive Systems Grant is a planning grant that focuses on systems related to early childhood. The goal is to create a Statewide Early Childhood Comprehensive Systems Strategic Plan for Arizona that maximizes resources through improved integration of existing systems and services so that children 0-5 years of age will be healthy and ready to learn when they enter school. The following OBJECTIVES - will be used to attain this goal: (1) Complete an environmental scan that will identify gaps in the system and areas for improved integration and coordination; (2) Determine the vision, mission and values that will guide the plan and comprehensive system; (3) Develop the goals, OBJECTIVES - and outcomes for the comprehensive system; (4) Develop the policy recommendations that will support the implementation of the plan; and (5) Identify a set of indicators that will be used to track progress within the early childhood system.

Funds are received from the Federal Maternal and Child Health Bureau on a non-competitive basis with each State receiving \$100,000 per year for two years. These funds are then provided, through an Inter-agency Service Agreement, to the Governor's Office for Children, Youth, and Families to support the work of the School Readiness Board. There is no match or Maintenance of Effort requirement for this grant.

<b>CLIA - Clinical Laboratory Improvement Amendments</b>	<b>93.777</b>	<b>DHHS/HCFA</b>	N/A	230.9	226.1	228.4	<sup>6</sup>

The Clinical Laboratory Improvement Amendment (CLIA) program is a Federal government program that regulates all laboratories that test human specimens for the purpose of providing information for diagnosis, prevention, or treatment of any disease. The grant ensures all clinical laboratories in Arizona continue to comply with the Federal CLIA standards and requirements.

CLIA State Agencies (SA) represent the Centers for Medicare and Medicaid Services (CMS) and serve as the local interface for the clinical laboratories that are located in each State. The SA assists clinical laboratories to meet all applicable regulatory requirements through certification surveys, enforcement actions training, and consultation for correction of deficiencies. Functions include assisting laboratory facilities' in obtaining testing certificates; providing any necessary additional regulatory clarification; overseeing investigations of complaints; performing on site surveys and certification activities; and monitoring proficiency-testing results. Surveyors make presentations to the laboratory community regarding CLIA, respond to the CMS Regional Office on reporting and tracking of laboratory activity information, and write and track laboratory survey reports for regulatory compliance.

Finances for the CLIA Grant are from the payment of user fees assessed by CMS. These monies are collected and allocated by CMS to each SA in the form of a CLIA Grant. There is no match or Maintenance of Effort requirement for the grant funds.

<b>CMS Title 18 Medicare Survey and Certification</b>	<b>93.777</b>	<b>DHHS/CMS</b>	N/A	2,830.9	3,587.0	3,320.3	<sup>6</sup>
---	---------------	-----------------	-----	---------	---------	---------	--------------

The Centers for Medicare and Medicaid (CMS) Title 18 Medicare Survey and Certification Grant is used to survey and evaluate the performance of Non-Long Term Care and Long-Term Care suppliers and providers (except laboratories) for Medicare certification. The objective is a comprehensive system of licensing, monitoring, and technical assistance for home health agencies, hospices, hospitals, ambulatory surgical centers, rural health clinics, end stage renal disease centers, portable x-ray services, outpatient rehabilitation facilities, outpatient physical therapy and/or speech pathology services, and nursing care institutions.

The CMS allocates Medicare funds to each state annually. There is no match or Maintenance of Effort requirement for the grant funds.

<b>CMS Title 19 Medicaid Survey and Certification</b>	<b>93.777</b>	<b>DHHS/CMS</b>	N/A	1,408.9	1,359.2	1,390.3	

The Centers for Medicare and Medicaid Title 19 Medicaid Survey and Certification Grant is used to survey and evaluate the performance of Long-Term Care suppliers and providers for Medicaid certification. The objective is a comprehensive system of licensing, monitoring, and technical assistance for long-term care facilities.

The CMS reimburses Medicaid funds to each state annually, with the provision that States obtain the Medicaid state share of Survey and Certification funds. There is a \$1 State to \$3 Federal match, but no Maintenance of Effort requirement for the grant funds.

<b>Commodity Supplemental Food Program</b>	<b>10.565</b>	<b>USDA</b>	N/A	915.4	895.0	895.2	
--	---------------	-------------	-----	-------	-------	-------	--

The Commodity Supplemental Food Program (CSFP) provides United State Department of Agriculture commodities to improve the health and nutritional intake of low income children up to their sixth birthday and low income pregnant, breastfeeding, and postpartum women. Their family income must be 185 percent or less of the Federal Poverty Level. Adults over 60 years of age whose income is at 130 percent or less of the Federal Poverty Level also are eligible for the commodities.

A national funding formula is used for allocating the grant funds. Arizona receives its share based upon its maintenance of an assigned caseload level and the availability of growth funds. As a discretionary nutrition program, CSFP is funded annually and, if the funding is not sufficient to meet the caseload needs, eligible CSFP clients are placed on a waiting list.

Federal regulations are very specific regarding the CSFP grant, its use of administrative funds, and reporting requirements. Regardless of the size of the program, the State agency is restricted to \$30,000 for internal administrative expense. There is no match or Maintenance of Effort requirement.

<b>Community Mental Health Block Grant</b>	<b>93.358</b>	<b>DHHS/SAMHSA</b>	N/A	8,434.1	8,287.7	8,241.0	

The Community Mental Health Block Grant is used to establish or expand an organized community-based system of care for providing non-Title XIX mental health services to children with serious emotional disturbances (SED) and adults with serious mental illness (SMI). States are required to submit an application for each fiscal year the State is seeking funds. These funds are used to: (1) carry out the State plan contained in the application; (2) evaluate programs and services; and (3) conduct planning, administration, and educational activities related to the provision of services. The Block Grant is allocated 90 percent for SED children and 10 percent for SMI adults. These funds are allocated on a per capita basis to the five Regional Behavioral Health Authorities who manage service delivery on behalf of the State of Arizona through contracts with the Department of Health Services. Use of the grant for administration is capped at 5 percent.

There is no match requirement for these federal funds. However, this grant requires Maintenance of Effort (MOE) documenting that the State of Arizona has maintained expenditures for community mental health services. The expenditures cannot be less than the average level of such expenditures maintained by the State of Arizona for the two-year period preceding the fiscal year for which the State is applying for the grant. The last compiled MOE report was in April 2004 and the MOE was \$217,682,589. Funding sources for the MOE were the General Fund, Tobacco Tax monies, IGA/ISA Fund, DHS Donations Fund, and Indirect Cost Fund.

<b>Cooperative Agreements for State-Sponsored Youth Suicide Prevention and Early Intervention</b>							

Grant will provide funding to increase capacity of youth suicide prevention and early intervention programs statewide.

The grant addresses shared goals of increasing awareness of suicide and decreasing stigma for the following plans: the ADHS Strategic Plan for 2004-2008, Healthy Arizona 2010, the President's New Freedom Commission Report, and the National Strategy for Suicide Prevention. Funding will advance the implementation of Arizona's Priorities for the Reduction of Suicide (state plan).

In addition, the grant funding is specific to youth, and children are a priority population for Arizona's Governor

			<b>Available</b>	<b>Received</b>	<b>Est. Rev.</b>	<b>Est. Rev.</b>	
<b>Drug and Alcohol Services Information System</b>	<b>00.000</b>	<b>DHHS/SAMHSA</b>	N/A	71.4	(92.0)	88.2	<sup>10</sup>

The Drug and Alcohol Services Information System (DASIS) Grant was developed to comply with Section 505 of the Public Health Service Act (42 USC 290aa-4). This Act requires that the Secretary of Health and Human Services collect annual data on the number and variety of public substance abuse treatment programs and the number of individuals seeking treatment through such programs and their demographic characteristics. The data are available electronically on the Federal government website (samhsa.gov) and are made available in an annual report to Congress on the status of the national system of substance abuse treatment programs.

The Arizona Department of Health Services has participated in this national data collection activity since the late 1980s. In particular, the DASIS system supports the role of the Department as the single State agency recipient of the Substance Abuse Block Grant. Specific measurement of a client's well-being and outcome are a required component of the grant beginning in Federal Fiscal Year 2005. The contract also requires that the Department: (1) process and submit quarterly treatment episode data, including participation in annual technical assistance workshops as scheduled; (2) assist in the annual facility survey through a letter of endorsement process and an update of the facility list on-line; and (3) complete an annual questionnaire detailing how facilities are licensed and funded in Arizona.

Funds provided under a revenue contract with Synectics for Management Decisions, Inc., support administrative needs associated with processing and submitting data to the DASIS system. They also support developing internal expertise in substance abuse data collection and reporting. Funds are paid on a quarterly basis to support data processing staff, data collection, and equipment. There is no match or Maintenance of Effort requirement associated with DASIS.

<b>Electronic Death Registration Systems</b>	<b>52.242</b>	<b>SSA</b>	N/A	3.2	(21.1)	0.0	<sup>2</sup>

This grant provides funding to supplement the Vital Records Information Technology Plan. The Social Security Administration's (SSA) goal is to receive electronic death information from 90% of the states within five years. To accomplish this goal, SSA supports the development of the electronic death registry (EDR) process nationally. The funds are used to incorporate the SSA electronic verification of social security numbers that is not currently included in the Vital Records Technology Plan. In addition, funds are used to market the use of the on-line system to end users such as funeral homes, medical certifiers of cause of death, medical examiners, etc.; print all training materials for the new applications, and to conduct statewide training of end users. The results will be measured by the ability to conduct on-line verifications and by the number of partners who use the electronic death system.

There is no match or Maintenance of Effort requirement for this grant.

<b>EMSC Partnership Grants II</b>	<b>93.127</b>	<b>DHHS/HRSA</b>	N/A	118.8	114.7	117.1	
-----------------------------------	---------------	------------------	-----	-------	-------	-------	--

The overall goal of Arizona's Emergency Medical Services for Children (EMSC) Partnership Grants II project is to decrease deaths of Arizona's children by improving and expanding pediatric emergency care education systems in Arizona and making sure this pediatric focus is solidified within the Arizona Emergency Medical Services (EMS) and Trauma System. These goals are consistent with the direction of the national EMSC Five-year Plan 2001-2005 and the 2002-2005 Arizona EMS and Trauma System Plan.

The primary focus of this grant project is to increase rural pediatric education opportunities in Arizona. This focus is accomplished through a research study of knowledge acquisition and knowledge retention when the Pediatric Education for Pre-hospital Provider (PEPP) course is delivered in a distance-learning format to rural pre-hospital providers. The grant funds provide for the purchase of training equipment and other pediatric information materials for community education and injury prevention.

There is no match or Maintenance of Effort requirement for this grant. (This is the same grant that was previously under AFIS Grant Number 098061.)

<b>Enumeration at Birth - Social Security</b>	<b>93.066</b>	<b>DHHS/SSA</b>	N/A	186.6	(48.9)	208.2	

The Enumeration at Birth program enables parents to apply for social security numbers for newborns through the new birth registration process. The Department of Health Services' Office of Vital Records accumulates the birth registration information received from hospitals and sends an electronic file to the Social Security Administration (SSA) containing the data needed to assign social security numbers for newborns. The SSA processes this data and then sends a card to the child's parents, reducing the number of requests received at the local SSA field offices. The data files of Arizona births are electronically transmitted to the SSA. This service payment funding is calculated at a price per record rate.

There is no match or Maintenance of Effort requirement for the grant funds.

Federal Operating Budget Detail  
(Dollars in Thousands)**

**Agency: Department of Health Services**

<b>Grant/Project and Description</b>	<b>CFDA</b>	<b>Grantor</b>	<b>FY 2008 Amount</b>		<b>FY 2009</b>	<b>FY 2010</b>	<b>Footnote(s)</b>
			<b>Available</b>	<b>Received</b>	<b>Est. Rev.</b>	<b>Est. Rev.</b>	
<b>Epi and Lab Capacity for Infectious Diseases</b>	<b>93.283</b>	<b>DHHS/CDC</b>	N/A	1,131.2	929.6	1,029.9	<sup>6</sup>

The Epidemiology and Laboratory Capacity for Infectious Diseases Cooperative Agreement enhances the public health infrastructure to recognize and promptly address growing threats posed by emerging infectious agents that States were not adequately prepared to handle. The range of activities has expanded from a focus on foodborne diseases (surveillance and control) in the first year of the grant to surveillance and response to West Nile Virus (WNV). Activities also include surveillance and control of antimicrobial resistant infections, expansion of the surveillance for influenza, surveillance and prevention of chronic Hepatitis C and Hepatitis B, surveillance of selected diseases along the border with Mexico, and development of a data system to participate in National Electronic Disease Surveillance.

Application for the grant must be made every year. The funds are made available through a competitive application process every five years and a non-competitive process the other four years of the five-year budget cycle. The amount requested is based upon the grant guidance document and the program's needs assessment, both at the program level and at the local departments' level. The grant award is based on total funds available, planned activities listed by priority, adequate budget justification, individual State needs, and application content for this competitive grant.

Funded activities to date have emphasized the State's public health infrastructure with some funds available to agencies that provide unique services not normally rendered by health departments, i.e., animal testing for WNV and public service announcements for WNV prevention. There is no match or Maintenance of Effort requirement for the grant funds; however, funding is dependent upon minimum existing infrastructures and performance towards pre-set objectives. The grant does not allow for supplanting of State funds.

This is the same grant that was previously under AFIS Grant Number 098060.

<b>Family Violence Prevention</b>	<b>93.671</b>	<b>DHHS/ACF</b>	N/A	1,580.2	2,026.8	1,698.4	<sup>6</sup>

The Family Violence Prevention and Services Act (FVPSA) grant is used for prevention of domestic violence and domestic violence education. In Arizona, these funds are used primarily to provide services to the rural areas of the State utilizing Rural Safe Home Networks and to support the Arizona Coalition Against Domestic Violence (AzCADV). Currently, the Department of Health Services funds five Safe Homes, Verde Valley Sanctuary (children's services), the Never Again Foundation, and the AzCADV. The Rural Safe Home Networks operate domestic violence hot lines and provide domestic violence victims and their children with temporary, emergency safe shelter, peer counseling, case management, and advocacy.

FVPSA funds are distributed via a formula grant to States including Territories and Insular Areas. The States then provide local grants that must meet matching requirements of not less than 20% of the total funds provided for a project under this Act with respect to an existing program, and with respect to an entity intending to operate a new program under this Act, not less than 35%. The local share can be cash or in kind contributions.

The grant funds made available under the FVPSA program by the State cannot be used as direct payment to any victim or dependent of a victim of family violence. No income eligibility standard can be imposed on individuals receiving assistance or services supported with FVPSA funds.

Use of the grant funds for administrative cost by the Department of Health Services is capped at 5 percent. There is no Maintenance of Effort requirement for this grant. However, the grant monies cannot be used to supplant other Federal, State, and local funds expended to provide services and activities that promote the purposes of the grant.

Agency: Department of Health Services

Grant/Project and Description	CFDA	Grantor	FY 2008 Amount		FY 2009	FY 2010	Footnote(s)
			Available	Received	Est. Rev.	Est. Rev.	
<b>Farmers' Market Food Program</b>	<b>10.572</b>	<b>USDA</b>	N/A	165.5	165.5	165.5	<sup>2</sup>

The Arizona Farmers' Market Nutrition Program serves women and children participating in the Women, Infants and Children (WIC) Special Supplemental Food Program and senior clients in the Commodity Supplemental Food Program. The OBJECTIVES - of the Arizona Farmers' Market Nutrition Program are to increase fruit and vegetable consumption among low-income women, children, and seniors and to provide support to local farmers' markets. Participants are given booklets of checks that allow them to purchase \$20 of fresh, locally grown fruits and vegetables at Approved Farmers' Markets each year.

The grant funds are received and then distributed on a cost reimbursement basis to the local providers. State agencies seeking federal funding to operate a WIC Farmers' Market Nutrition Program must submit an annual plan for approval and provide a minimum match of 30 percent in state/local funds of the total program costs. The program allows up to 2 percent of the budget to be requested for market development activities and includes a 17 percent limit on administrative expenses. There is no Maintenance of Effort requirement for the grant.

Beginning in October 2004, the above mentioned 30% match requirement changes. It then is only applicable to administrative costs. The federal government also is increasing from \$20 to \$30 the vouchers that may be given for food. Each state can chose whether they want to make this voucher amount change.

<b>Food Safety and Security Monitoring (FERN)</b>	<b>93.448</b>	<b>FDA</b>	N/A	399.7	536.4	467.5	<sup>6</sup>
---	---------------	------------	-----	-------	-------	-------	--------------

This effort is part of the overall effort of the nation to be prepared for a chemical terrorism attack. State Public Health Laboratories are charged by the Federal Government with the responsibilities of analyzing clinical, environmental and food samples resulting from such an attack.

This grant is the food protection complement to the current clinical specimen focus of the CDC Public Health Emergency Preparedness Co-operative Agreement that the State PH Laboratory participates in. Activities include the analyses of foods and food products to support the Food and Drug Administration's response to a chemical terrorism attack. This will strengthen Arizona's food safety and security efforts by implementing a surveillance program of high-risk (potential, terrorist target) foods.

This will not supplant current security or surveillance programs but is designed to enhance the efforts.

<b>FSIS Food Emergency Response Network (FERN)</b>	<b>10.479</b>	<b>UDSA/FSIS</b>	N/A	346.0	798.4	326.1	

This cooperative agreement enhances the state laboratory's capability to analyze for microbiological threat agents utilizing Food Emergency Response Network (FERN) methods and improve laboratory capacities for surveillance and outbreak response. The goals of the agreement are: (1) to expand our collaboration with the FERN network, enhance capacities to perform threat agent testing and improve laboratory capacities for surveillance and outbreak response; (2) to enhance the FERN capabilities and capacity efforts through participation in multi-laboratory validation studies, Food Defense Special Projects and Food Defense Assignments, which will provide a newly established library of matrix and platforms application with FERN food defense methods, and (3) to increase collaboration with the FERN network through participation in multi-laboratory validation studies, participation in Food Defense special projects, and Food Defense assignments.

There is no state match or maintenance of effort required for this cooperative agreement

<b>Grants to States to Support Oral Health Workforce Activities</b>	<b>93.236</b>	<b>HRSA</b>	N/A	127.2	119.4	0.0	<sup>2</sup>

This grant funds activities to improve the accessibility of the oral health workforce for underserved geographic areas and populations. Affiliated Practice Dental Hygienist will provide dental care to underserved populations utilizing digital technology to enable to expand dental care provided to distant sites from dental facility.

Healthy AZ 2010: Increase the proportion of children, adults and older adults who receive dental care each year.

Reduce the proportion of children who have ever had tooth decay.

Office of Oral Health Strategic Plan: Reduce oral diseases through prevention.  
 Increase access to and utilization of quality comprehensive oral health services for  
 Arizonans.

ADHS Strategic Plan 2006-2010: Objective 1.1: Reduce the incidence and impact of chronic disease, disability, and injury.  
 Objective 1.2: Increase access to primary health care.  
 Objective 1.3: Improve health outcomes for women and children.

<b>HIV Prevention Cooperative Agreement</b>	<b>93.940</b>	<b>DHHS/CDC</b>	N/A	3,172.7	3,093.4	3,113.2	

The Human Immunodeficiency Virus (HIV) Prevention Cooperative Agreement is used to assist public health departments in decreasing the transmission of HIV by: (1) decreasing the risk of acquiring or transmitting HIV infection by delivering targeted, sustained, and evidence-based HIV prevention interventions, including prevention of perinatal HIV transmission; (2) identifying persons infected with HIV through voluntary counseling and testing, focusing particularly on populations with high rates of undiagnosed HIV infection; (3) increasing the proportion of HIV-infected people who are receiving appropriate care and treatment services; and (4) strengthening the capacity and evaluation of health department and community-based organizations that implement effective HIV prevention programs.

Application for the grant must be done yearly and funds are currently made available through a non-competitive process during the five-year budget cycle. The amount requested is based upon the grant guidance and previous funding levels that have been tied to reported AIDS cases in the State. The grant award is based on the total funds available, planned activities listed by priority, adequate budget justification, individual State needs, and application content for this competitive grant.

There is no match or Maintenance of Effort requirement for the grant funds; however, funding is contingent upon successful implementation of required activities, achievement of performance targets for program indicators, and submission of required reports. Funds may not be used to supplant State or local health department funds that are available for HIV prevention.

This is the same grant that was previously under AFIS Grant Number 099024.

Grant/Project and Description	CFDA	Grantor	FY 2008 Amount		FY 2009	FY 2010	Footnote(s)
			Available	Received	Est. Rev.	Est. Rev.	
<b>Immunization and Vaccines for Children</b>	<b>93.268</b>	<b>DHHS/CDC</b>	N/A	7,612.4	7,228.2	7,424.3	

The purpose of the Immunization and Vaccines for Children (VFC) grant is to support efforts in planning, developing, and maintaining a public health infrastructure for immunizations. The infrastructure addresses the Healthy People 2010 priority area under the Immunization and Infectious Diseases section and assures an effective national immunization system for all ages. Federal funding for immunization activities is provided through Section 317 funds for all age groups. The overall objective of the program is to reduce vaccine-preventable diseases (VPD) morbidity among persons of all ages and to support activities that focus on increasing immunization levels against VPDs.

Federal 317 and VFC operation funds are received to support activities that focus on increasing immunization levels and reducing VPD morbidity among persons of all ages. The federal operation funds are awarded as financial assistance funds on a complex formula distribution to each State. Portions of these funds are distributed to county health departments and other entities to provide direct immunization services or other key activities.

The Immunization Program also receives 317 and VFC direct assistance funds for vaccines. Vaccines are received in lieu of cash and are distributed to approximately 750 provider sites. The VFC program specifically increases access to vaccines for eligible children by supplying Federal government-purchased pediatric vaccines to public and private health care providers registered with the program. Eligible children include those 0 through 18 years of age who are not insured, Medicaid-eligible, American Indian, or Alaska Native. Children from 0 through 18 years of age also are eligible if they are underinsured with respect to reimbursement for vaccines and served by federally qualified health centers or rural health clinics.

There is no match or Maintenance of Effort requirement for this grant. The grant prohibits the use of Federal funds to supplant State and local dollars.

This is the same grant that was previously under AFIS Grant Number 099004.

			<b>Available</b>	<b>Received</b>	<b>Est. Rev.</b>	<b>Est. Rev.</b>	
<b>MCH Block Grant</b>	<b>93.994</b>	<b>DHHS/HRSA</b>	N/A	7,676.8	6,284.9	7,628.3	

The Maternal and Child Health (MCH) Services Block Grant (Title V of the Social Security Act) has operated as a Federal-State partnership since 1935 when the Social Security Act was passed. Funds are allocated to individual States to improve the health of all mothers and children. The amount a State is allocated is determined by first using the respective State's 1981 award amount for the pre-block programs that were later consolidated into this Block grant. Any grant funds that are available after this initial allocation are distributed based on the proportion of low-income children that a State bears to the total number of such children for all the States.

The major grant requirements are: (1) A statewide needs assessment conducted every five years that reviews data items to be used in the needs assessment and identifies the need for preventive and primary care services for pregnant women, mothers, infants and children and the need for family-centered care for children with special health care needs. (2) An annual plan for meeting the needs identified by the needs assessment. (3) The maintenance of a State toll-free number for parents.

Each State's health agency is responsible for administering its programs carried out with the allotments made to the State under Title V. Funds allocated to States are available for obligation and expenditure over a two-year period. States must provide \$3 for every \$4 of grant funds allocated. There are specific prohibitions, which restrict use of the grant monies from certain inpatient services, cash payments to recipients, purchase or improvement of land, or construction on land. In addition, the funds cannot be used for research or training unless these activities are done by a public or a nonprofit organization. Use of the grant for administrative cost is capped at 10 percent.

States are required to use: (1) At least 30 percent of Federal MCH Block Grant funds received for preventive and primary care services for children; and (2) At least 30 percent of Federal MCH Block Grant funds received for services for children with special health care needs. Also, States are required to maintain their level of funding for Maternal and Child Health programs from State resources at an amount at least equal to the level provided in FY 1989. The last compiled Maintenance of Effort (MOE) report was in April 2004 and the MOE was \$12,056,360. Funding sources for the MOE were from the General Fund, the EMS Operating Fund, the Newborn Screening Fund, and the Child Fatality Review Fund.

<b>Grant/Project and Description</b>	<b>CFDA</b>	<b>Grantor</b>	<b>FY 2008 Amount</b>		<b>FY 2009</b>	<b>FY 2010</b>	<b>Footnote(s)</b>
			<b>Available</b>	<b>Received</b>	<b>Est. Rev.</b>	<b>Est. Rev.</b>	
<b>National Cancer Prevention &amp; Control</b>	<b>93.283</b>	<b>DHHS/CDC</b>	N/A	2,389.3	2,590.2	2,489.1	<sup>6</sup>

The National Cancer Prevention and Control Program consist of three programs, including the National Breast and Cervical Cancer Control and Early Detection Program; the National Program of Cancer Registries; and the National Cancer Control Program. Each of the three programs is described below:

**1. National Breast and Cervical Cancer Control and Early Detection Program**

This program referred to as the Well Women Healthcheck Program provides mammograms and pap smears to uninsured or underinsured women. The objective of the program is to increase Arizona women's use of quality screenings and diagnostic assessments for follow-up, referral, and case management services. The goal is to reduce the disparities of breast and cervical morbidity and mortality in at risk women due to age, medical conditions, income, or inadequate access to medical care.

The grant monies are received and distributed on a cost reimbursement basis to the service providers. There is a match requirement of \$1 State to \$3 of Federal funds. There is no longer a Maintenance of Effort requirement for this grant. The last compiled Maintenance of Effort (MOE) report was in April 2004 and the MOE for this component was \$128,001 from the IGA/ISA Fund.

**2. National Program of Cancer Registries**

The Arizona Cancer Registry must be able to provide for the complete and timely reporting of incidence cases in Arizona, monitor the cancer burden, respond to public concern, improve planning for future health care needs, and evaluate and assist cancer prevention and control activities in providing information, such as demographics of cancer and stage of disease. The grant provides enhancement funds to assist the registry in meeting minimum standards and in improving data completeness. The monies assist in improving reporting timeliness, quality of the data reported, data usage, and electronic reporting capabilities. The expected outcome is a complete, quality cancer surveillance system that provides timely information on the incidence of cancer. The reporting facilities for the data system include physicians, hospitals, and clinics. Researchers, universities, the American Cancer Society, and the public use the data system.

The payment is automatic drawn down for this component of the grant, which requires both a matching participation and a Maintenance of Effort (MOE). The match requirement is \$1 State to \$3 of Federal funds. The MOE is whatever expenditures occurred in the first year of the grant, which was FY 1994. The

The purpose of this cooperative agreement program is to upgrade the preparedness of the Nation's Hospital and health care system to respond to bioterrorism events. Such an upgrade will allow the health care system to become more prepared to deal with non-terrorist epidemics as well as outbreaks of rare diseases. A prime focus area will be identification and implementation of bioterrorism preparedness plans and protocols for hospitals and other participating health care entities. Development of statewide models for such protocols is encouraged, as in collaboration with other states and national organizations with expertise in this subject. The Arizona Department of Health Services will coordinate the hospital bioterrorism preparedness planning process with other bioterrorism, disaster and trauma planning initiatives, and assure that all existing systems participate in the process. Advisory groups also have cross representation to assure a collaborative planning process.

There is no state match or maintenance of effort for this cooperative agreement.

<b>PATH Formula Grant</b>	<b>93.150</b>	<b>DHHS/SAMHSA</b>	N/A	970.6	970.4	970.5	
---------------------------	---------------	--------------------	-----	-------	-------	-------	--

The Projects for Assistance in Transition from Homelessness (PATH) Grant is used to provide outreach and services to persons with serious mental illness who are homeless, including those with co-occurring substance abuse problems. The PATH monies go to three Regional Behavioral Health Authority providers that serve the largest number of homeless individuals.

This grant requires non-Federal contributions of \$1 in-kind or cash contributions for each \$3 of Federal funds. Amounts provided by the Federal government, or services subsidized to any significant extent by the Federal government, may not be included as a match. Use of the grant for administrative cost is capped at 4 percent and no more than 20 percent of the grant monies can be expended for housing services.

There is a Maintenance of Effort (MOE) requirement for these grant monies. The last compiled MOE report was in April 2004 and the MOE was \$153,666 from the General Fund.

Grant/Project and Description	CFDA	Grantor	FY 2008 Amount		FY 2009	FY 2010	Footnote(s)
			Available	Received	Est. Rev.	Est. Rev.	
<b>Preventive Health Block Grant</b>	<b>93.991</b>	<b>DHHS/CDC</b>	N/A	1,186.9	1,232.9	1,211.1	<sup>6</sup>

The Preventive Health and Health Services Block Grant serves a variety of populations and any program receiving these Block Grant funds must address health status outcome OBJECTIVES - from the National Healthy People 2010. The health problems funded are determined through a priority setting process done by an Advisory Committee formed in response to this Federal Block Grant. The Department of Health Services makes the final decision, taking the committee's recommendations into account. Examples of some health problems that have received funding are sedentary lifestyles, dental caries, cardiovascular disease, and sun exposure.

Each program that is funded must have a plan that describes the health problem, the target population, the disparate population, the health status objective, the risk reduction objectives, and the annual activity objectives. All programs must have an evaluation plan and must report annually on the progress made.

The amount of Federal grant money Arizona receives is determined by a formula developed by the Centers for Disease Control in the early 1980's. It is based on the percent of Federal public health funds that Arizona received at that time. The majority of the funds are passed through the State to county health departments and community-based organizations. Use of the grant funds for administrative cost is capped at 10 percent.

There is a Maintenance of Effort (MOE) requirement for these federal Block Grant dollars. The last compiled MOE report was in April 2004 and the MOE was \$310,404. Funding sources for the MOE were the General Fund, the Tobacco Tax monies, and the Oral Health Fund.

The Primary Care Office cooperative agreement is used to identify communities and populations in the State of Arizona that are underserved for primary health care and then to develop, coordinate, and implement strategies to increase resources that improve the availability of health care services. The grant funding supports programs that are responsible for medically underserved and health professional shortage areas of the State by: (1) establishing and expanding community resources for basic health care; (2) identifying eligible sites for medical providers to serve through the National Health Service Corp and the State Loan Repayment program; and (3) supporting primary care that targets the Native American population.

This grant has no match or Maintenance of Effort requirements.

This is the same grant that was previously under AFIS Grant Number 099073 and 099016.

The Core States Injury Surveillance and Prevention Cooperative Agreement provides funding to establish a surveillance system for guiding interventions and strategies to reduce injuries in Arizona. The surveillance system is a database for tracking injury mortality and morbidity relevant to Arizona. The grant monies are used for a State Injury Surveillance and Prevention Plan in the Arizona Department of Health Services/Division of Public Health for injury prevention efforts in Arizona.

There is no match or Maintenance of Effort requirement for this grant.

This Grant was previously none as Core State Injury Surveillance and Program Development, 098063.

<b>Public Health Preparedness and Response for Bioterrorism</b>	<b>93.283</b>	<b>DHHS/CDC</b>	N/A	13,265.1	14,348.4	13,829.8	<sup>6</sup>

The Public Health Preparedness and Response for Bioterrorism Grant is used to upgrade the Arizona Department of Health Services and local health departments preparedness and response capabilities relative to bioterrorism. County and tribal jurisdictions are specific targets for the funding. The grant objective is to establish a process for strategic leadership direction and coordination of activities to ensure State and local readiness for outbreaks of infectious disease and other public health threats and emergencies.

The grant money is received on the basis of population and distributed by the State on the same basis. There are no match or Maintenance of Effort requirements for the grant monies.

Includes Old AFIS Grant 098055 for FY 08 and FY 09 with expenditures totaling \$1,420,800 each year.

The Public Health Preparedness and Response for Bioterrorism Grant is used to upgrade the Arizona Department of Health Services and local health departments preparedness and response capabilities relative to bioterrorism. <b>Public Lab Biomonitoring Plan</b>	<b>93.283</b>	<b>DHHS/CDC</b>	N/A	54.0	(85.4)	51.8	

The Public Lab Biomonitoring Plan in the State of Arizona receives funding through an Intergovernmental Agreement with the State of New Mexico. The State of New Mexico is charged with allocating the federal grant monies, which also go to four other Rocky Mountain region States (Colorado, Utah, Wyoming, and Montana). The States collaborate to plan a long-term biomonitoring initiative for assessing human exposure to environmental hazards. They also collaborate to evaluate the success of initiatives to reduce human exposure to such hazards.

The first step in this process involved the gathering of public health partners within each State to assess the priority areas of environmental risk in their State. From this prioritized list, areas were identified in which biomonitoring could be an effective tool to aid in characterizing the human exposure and assessing the effectiveness and progress of remedial measures.

The second step will be to develop a plan for implementing a regional biomonitoring project to address the prioritized list developed in step one. An inventory of existing biomonitoring capacity in each of the State's public health laboratories will be compiled, as well as, an inventory of the capacity that is needed to address the regional priority list. The consortium will seek to centralize and coordinate future laboratory components of the project so as to maximize efficiency and eliminate redundancy. In addition, selected biomonitoring projects will be conducted and laboratory testing equipment will be purchased for use.

There is no match or Maintenance of Effort requirement for the grant monies.

<b>Rape Prevention and Education Program</b>	<b>93.136</b>	<b>DHHS/CDC</b>	N/A	71.4	(0.7)	0.0	<sup>8</sup>

The Rape Prevention and Education Grant is awarded to each State and territory using a population based-formula. The primary target group in Arizona is all populations from 12 to 25 years of age. However, special attention is paid to underserved populations, such as Latino/Latina, Lesbian/Bi-Sexual/Gay/Transsexual, and Native Americans.

The grant OBJECTIVES - include: (1) reducing the incidence of sexual violence and attempted violence by providing prevention education throughout Arizona; (2) increasing public awareness on the prevention and the occurrence of sexual violence; (3) increasing the proportion of victims, perpetrators, and bystanders who utilize available services and resources; (4) providing information, resources, and technical assistance that contribute to the heightening awareness and the prevention of sexual coercion and violence; and (5) improving communication, coordination, and collaboration among the recipients of this grant money and other organizations involved in rape prevention and sexual assault services. The Arizona Department of Health Services uses a competitive bidding process to fund the community-based organizations that provide the prevention and education services.

The grant has no match or Maintenance of Effort requirements. The grant funds cannot be used to supplant State or local public funds used for the same purpose. In addition, not more than 5 percent can be used for administrative purposes and not more than 2 percent can be used for surveillance or prevalence studies.

<b>Rural Access to Emergency Devices</b>	<b>93.259</b>	<b>DHHS/HRSA</b>	N/A	129.3	78.3	103.8	<sup>2</sup>

The Rural Access to Emergency Devices Project service area consists of the entire State of Arizona and the Indian Nations within the geographical boundaries of the State. Through the grant process, rural emergency first care providers within specific zip code areas are receiving equipment and training.

The organizational structure of Arizona Regional Emergency Medical Services (EMS) Councils, Intertribal council agencies, State branches of national organizations, and State departments comprise the remainder of the core partnership and provide the structure to support systems development of the project. The Department of Health Services' Bureau of EMS has contracted with four Regional EMS Councils to facilitate the placement of the equipment and to provide the training. The Regional EMS Councils provide manageable geographical and geopolitical subdivisions for this project.

There is no match or Maintenance of Effort requirement for the grant funds.

This is the same grant that was previously under AFIS Grant Numbers 098019 and 099098.

<b>Ryan White HIV Care Grant</b>	<b>93.917</b>	<b>DHHS/HRSA</b>	N/A	15,138.9	14,585.0	14,817.7	<sup>6</sup>

The Ryan White Comprehensive Acquired Immunodeficiency Syndrome (AIDS) Resources Emergency (CARE) Act Title II Human Immunodeficiency Virus (HIV) Emergency Relief Grant is used to support a comprehensive continuum of community-based care for low-income individuals and families with HIV disease. A comprehensive continuum of care includes: primary medical care, access to drug therapies through the statewide AIDS Drug Assistance Program (ADAP) and local medication assistance programs, substance abuse treatment, supportive services that enable individuals to access and remain in primary care, and other health or support services that promote health and enhance quality of life.

Title II of the CARE Act provides formula based financial assistance to States and Territories to improve the quality, availability, and organization of health care and support services for individuals and families with HIV infection. Funds spent for care and treatment of HIV disease enable individuals to maintain their health and productivity for a longer period of time. Use of the grant funds for administrative cost is capped at 10 percent.

The grant requires Maintenance of Effort (MOE) and a \$1 State to \$2 Federal Match. Funds may only be used to provide items or services when either no other payment has been made or no other payment is reasonably expected by third party payers, including Medicaid, Medicare, other State or local entitlement programs, prepaid health plans, or private insurance. The last compiled Maintenance of Effort (MOE) report was in July 2004 and the MOE was \$16,044,720. Funding sources for the MOE were the General Fund, non-Federal and non-matched dollars from other state agencies (Arizona Health Care Cost Containment System, Department of Education, and Department of Corrections), Maricopa County funds, and private resources.

<b>Sexually Transmitted Disease Control</b>	<b>93.977</b>	<b>DHHS/CDC</b>	N/A	1,492.5	1,574.9	1,512.6	<sup>6</sup>

The Sexually Transmitted Disease (STD) Prevention Systems/Infertility Cooperative Agreement is used to assess and enhance the control of sexually transmitted diseases. These funds supplement the State's and some local jurisdictions allocations to support and enhance STD control efforts statewide. The efforts include: (1) monitoring the extent of the disease burden and its distribution through disease surveillance; (2) monitoring disease trends and effectiveness of interventions; (3) enhancing high-risk populations screening; (4) finding and evaluating cases; (5) working with community based organizations for local STD control; and (6) conducting investigations to identify persons who may have been exposed to the disease and who may benefit from evaluation and treatment.

Application for the grant must be made every year. The funds are made available through a competitive application process every five years and a non-competitive process the other four years of the five-year budget cycle. The amount requested is based upon the grant guidance document and the program's needs assessment, both at the program level and at the local departments' level. The grant award is based on total funds available, planned activities listed by priority, adequate budget justification, individual State needs, and application content for this competitive grant.

There is no match or Maintenance of Effort requirement for the grant funds; however, funding is dependent upon minimum existing infrastructures and performance towards pre-set objectives. The grant does not allow for supplanting of State funds.

<b>State Adolescent Substance Abuse Treatment Coordinaton</b>	<b>93.243</b>	<b>SAMHSA</b>	N/A	422.4	477.5	451.1	<sup>6</sup>

The State Adolescent Substance Abuse Treatment Coordination Grant provides funding to build capacity in Arizona to provide effective, accessible, and affordable substance abuse treatment for youth and their families. The purpose of this project is to create a sustainable system of care that effectively breaks the cycle of addiction in Arizona’s families through early identification, intervention and treatment for substance use disorders among youth and young adults. Arizona’s Youth Substance Abuse Treatment Coordination project will establish a single focus of responsibility within the state for expanding access and the quality and delivery of substance abuse services for the state’s high-risk population of young people age 12-24 years old and their family members.

The project will include a focus on local implementation of best and evidence-based practices in early intervention and treatment, as well as education and training of families, state agencies, provider staff and family support organizations. All infrastructure and network initiatives will be developed in consultation with family members and stakeholder systems with a emphasis on addressing the unique needs of young people within the context of their family and culture.

This is the same grant that was previously under AFIS Grant Number 099080.

<b>State Heart Disease and Stroke Prevention</b>	<b>93.283</b>	<b>DHHS/CDC</b>	N/A	144.2	169.8	156.5	<sup>6</sup>
--	---------------	-----------------	-----	-------	-------	-------	--------------

This grant funds the comprehensive cardiovascular disease program with the Office of Chronic Disease Prevention and Nutrition Services and addresses six priority areas: control of high blood pressure and cholesterol, increase knowledge of the signs and symptoms of heart disease and stroke and the importance of calling 9-1-1, improving emergency response, improving quality of heart disease and stroke care, and eliminating disparities. This program will focus on health care and worksite settings.

This grant does not have a state match or maintenance of effort.

<b>State Implementation Grant for Integrated Community Systems - CSHCN</b>	<b>93.110</b>	<b>HRSA</b>	N/A	207.7	64.6	0.0	<sup>2, 6, 8</sup>

The State Implementation Grant for Integrated Community Systems for Children with Special Health Care Needs plans, implements, and evaluates statewide community-based services for Children and Youth with Special Health Care (CSHCN) as defined by the Maternal and Child Health Bureau. The components are: early and continuous screening of children and adolescents; the development of family/professional partnerships with an emphasis on family-centered care; the development, monitoring, and evaluation of medical homes; the measurement and improvement of children with adequate health care coverage; the development and monitoring of systems to improve the ease of use of service systems; and the development of comprehensive systems of care for adolescents transitioning into adult systems.

This plan will be integrated into the Title V Block Grant and other public/private programs serving C/YSHCN. Significant attention must be directed to culturally competent systems and to the integration of services across multiple systems and agencies.

This is the same grant that was previously under AFIS Grant Number 098005.

<b>State Mental Health Data Infrastructure Grant for Quality Improvement</b>	<b>93.243</b>	<b>DHHS/SAMHSA</b>	N/A	136.7	167.7	152.2	<sup>6</sup>

The grant is a collaborative effort between the Bureau of Quality Management and Evaluation and the Clinical Director's Office within the Division of Behavioral Health Services. The grant supports the ongoing improvements in the State data infrastructure to help promote comprehensive, community-based systems of care for all children and adults who have mental illness or who are at risk of developing mental illness. The grant provides technical assistance, financial support, and technical know-how, in building internal capacity for future data compilation of performance indicators required under the Uniform Data Reporting System (URS) of the Block Grant program. The expected outcome is the increased capacity for the State to participate and comply with the Government Performance and Reporting Act and to the requirement of the Community Mental Health Block Grant program.

This grant has a dollar for dollar matching requirement of total costs provided either in cash or in-kind. Amounts provided by the Federal government, or services subsidized to any significant extent by the Federal government, may not be included as a match. There is not Maintenance of Effort requirement for these grant monies.

This is the same grant that was previously under AFIS Grant Number 099097.

<b>State Outcomes Measurement and Management System (SOMMS)</b>	<b>00.000</b>	<b>SAMHSA</b>	N/A	225.0	(345.3)	34.9	<sup>2, 10</sup>

SAMHSA’s data strategy is the collection of outcome measures for all funded services. SAMHSA has established the State Outcomes Measurement and Management System (SOMMS). This system will integrate and coordinate SAMHSA’s data collection reporting requirements to comply with the Government Performance and Results Act (GPRA), the Office of Management and Budget’s Program Assessment and Rating Tool (PART), and other Federal and agency initiatives.

This revenue contract will support two FTEs and associated costs located at the Division dedicated to technical assistance to RBHAs and providers on data reporting and use of performance measurement and NOMs data. The FTE would also work in the field, providing direct training and technical assistance to provider staff on data quality and accuracy and how to use NOMs and performance data to improve service delivery.

<b>State Partnership Grant Program to Improve Minority Health</b>	<b>00.000</b>	<b>HHS-PHS</b>	N/A	135.0	155.5	146.0	<sup>6, 10</sup>
<p>Funds are being requested to enhance the infrastructure capacity of the Arizona Center for Minority Health, and to engage in a Strategic Planning process involving internal, external stakeholders as well as community organizations.</p> <p>The newly re-established Center for Minority Health intends to act as a link between the community and ADHS in the developing and implementation of program services and policies with particular regard to vulnerable populations and cultural awareness. The newly re-established office will continue and expand on this mission. Our definition of “minority” (target population) will include not only racial and ethnic minority groups in the state of Arizona, but also the medically underserved, the uninsured and any other group vulnerable to suffer unequal treatment, health outcomes and/or disparities in access and health status because of a particular cultural, behavioral, racial, ethnic, religious or any other distinctive characteristic.</p> <p>One of the main functions of the Center will be to act as a central repository for information, data, best practices, projects, and on going initiatives around minority health within the different departments and divisions of ADHS. It will also serve as a liaison between ADHS and minority communities. For this, the CMH will create a specific website and a network directory. The CMH will link minority advocacy groups and communities with these resources, support in conducting their Needs Assessments, and aid in the identification of grants.</p> <p>The CMH will also support other ADHS department efforts to provide prevention and chronic disease management, reproductive health, and substance abuse/behavioral health services for minorities; provide culturally appropriate services; and include minorities in the emergency preparedness and response programs, etc.</p>

<b>Steps to a Healthier U.S. (Arizona)</b>	<b>93.283</b>	<b>DHHS/CDC</b>	N/A	2,725.9	3,041.9	2,902.3	<sup>6</sup>

The Steps to a Healthier Arizona Initiative is a community-based program designed to reduce the burden of diabetes, obesity, and asthma, and to address three related risk factors - inadequate dietary intake, physical inactivity, and tobacco use. The target area for this program encompasses Cochise, Santa Cruz and Yuma Counties and the Tohono O'odham Nation. Program community partners are the Cochise County Health Department, Mariposa Community Health Center, Yuma County Cooperative Extension, and Tohono O'odham Nation Department of Human Services in Sells, Arizona. Other program partners are the Arizona Department of Education and the Arizona College of Public Health.

The program OBJECTIVES - are: (1) to build upon a successful diabetes project model to incorporate obesity and asthma interventions for all populations; (2) to strengthen existing, and develop new Special Action Groups to implement relevant policy and environmental changes; (3) to provide cross-topic training and technical assistance for healthcare professionals and lay health workers at the local level; (4) to mobilize schools to implement the School Health Index for policy, environmental and curriculum changes; (5) to pilot-test the Arizona Model Healthy School Environment Policy to promote nutrition and physical activity; (6) to conduct a social marketing campaign to disseminate culturally and linguistically appropriate educational messages; (7) to coordinate State agency diabetes, obesity, and asthma programs to integrate efforts at the State and community level; and (8) to establish data surveillance and analysis systems to monitor and evaluate program outcomes and to identify health disparities.

Steps to a Healthier Arizona is a five-year project funded since Fall 2003. At least 75 percent of the funds must be distributed directly to the contractual program partners for delivering services and monitoring at the local level. This money is received and distributed on a cost reimbursement basis to the contracted partners. There is no match or Maintenance of Effort requirement for these grant monies.

<b>Substance Abuse Block Grant (SAPT)</b>	<b>93.959</b>	<b>DHHS/SAMHSA</b>	N/A	31,243.1	31,233.4	31,233.8	<sup>6</sup>

The Substance Abuse Prevention and Treatment Block Grant is used to provide services for alcohol and drug abuse treatment and prevention services in Arizona. Grant funds are acquired through an annual application process that details how the State of Arizona will expend Federal funds to support and expand capacity for treatment and prevention of substance abuse. Five Regional Behavioral Health Authorities and the Gila River Indian Community Tribal Regional Behavioral Health Authority manage service delivery on behalf of the State of Arizona through a contract with the Department of Health Services.

The Block grant funds support a variety of covered substance abuse services in both specialized addiction treatment and more generalized behavioral health settings. Special target groups mandated by the grant include: (1) priority access to treatment for pregnant women using substances and for individuals who use drugs by injection; (2) family-centered programs for women with young children, including funds specifically prioritized for services to parents of children with Child Protective Services involvement; (3) HIV early intervention services for homeless drug abusers; and (4) primary prevention services for children and families who do not require treatment. Use of the grant for administration is capped at 5 percent.

There is no dollar for dollar match requirement for these federal dollars. However, this grant requires Maintenance of Effort (MOE) documenting that the State of Arizona has maintained expenditures for substance abuse services. The expenditures cannot be less than the average level of such expenditures maintained by the State for the two-year period preceding the fiscal year for which the State is applying for the grant. The last compiled Maintenance of Effort (MOE) report was in April 2004 and the MOE was \$29,916,833. Funding sources for the MOE were the General Fund, the Substance Abuse Services Fund, the IGA/ISA Fund, and the Indirect Cost Fund.

<b>System - Based Diabetes Prevention and Control Program</b>	<b>93.988</b>	<b>DHHS/CDC</b>	N/A	257.6	102.3	0.0	

The System - Based Diabetes Prevention and Control Program is designed to serve the entire State of Arizona in reducing the burden of diabetes. The objective of the program is to establish capacity building efforts concerning diabetes prevention and control for the general public and in communities and populations who are at high risk for the disease. Along with these programs, a surveillance system is maintained for data to determine the prevalence and the incidence of diabetes in Arizona. The charge of the program also is to provide educational training for health care professionals in an effort to improve best practices and standards of care.

The grant monies are distributed through contracts and require match at \$1 State for \$5 of Federal funds. There is no Maintenance of Effort requirement for this grant. (Previously, this was the Diabetes Grant - AFIS Grant Number 099084.)

<b>Targeted Grants to Reduce Child Lead Poisoning</b>	<b>66.716</b>	<b>US EPA</b>	N/A	6.0	0.1	0.0	<sup>2, 6, 8</sup>
---	---------------	---------------	-----	-----	-----	-----	--------------------

The purpose of this grant proposal is to conduct activities to reduce the incidences of childhood lead poisoning in vulnerable populations. Activities funded will include purchasing Medtox blood lead screening kits and distributing the kits to counties, tribes, cities, Promotora groups, and community organizations to assist the Childhood Lead Poisoning Prevention Program in screening children that may not otherwise be tested. All test results are reported to the program, therefore if children with elevated levels of lead are found, they will be enrolled into the program.

The State will benefit by this focused screening by increasing the number of children screened, to screen populations that may not otherwise be tested, and assisting communities and areas that may not have the funds to provide blood lead testing. This could lead to a short-term impact of fewer lead poisoned children. The long-term impact will be lower health care and education costs. Agency benefits will include strengthening the relationship with the city and county health departments, tribes, community organizations and local Promotora groups

This grant will support the Governor's priorities with Children's Environmental Health and the CARE program as well as the Healthy Arizona 2010 plan to reduce childhood lead poisoning statewide.

			Available	Received	Est. Rev.	Est. Rev.	
<b>Tuberculosis Cooperative Agreement</b>	<b>93.116</b>	<b>DHHS/CDC</b>	N/A	1,138.1	1,263.1	1,185.4	<sup>6</sup>

The Tuberculosis (TB) Elimination and Laboratory Services Cooperative Agreement is used to strengthen the existing public health infrastructure to assess, combat, and eliminate tuberculosis nationwide. These funds supplement the State's and some local jurisdictions allocations to control tuberculosis statewide. Statewide tuberculosis control includes: (1) monitoring the extent of the disease burden and its distribution through disease surveillance; (2) finding and evaluating cases for treatment; (3) promoting directly observed therapy to enhance its completion; (4) monitoring disease trends and effectiveness of interventions; (5) providing technical assistance to local health departments and to private providers on case management and infection control; and (6) ensuring that persons exposed to TB disease are identified and evaluated for possible prophylaxis.

Application for the grant must be made every year. The funds are made available through a competitive application process every five years and a non-competitive process the other four years of the five-year budget cycle. The amount requested is based upon the grant guidance document and the program's needs assessment, both at the program level and at the local departments' level. The grant award is based on total funds available, planned activities listed by priority, adequate budget justification, individual State needs, and application content for this competitive grant.

There is no match or Maintenance of Effort requirement for the grant funds; however, funding is dependent upon minimum existing infrastructures and performance towards pre-set objectives. The grant does not allow for use of funds to purchase anti-TB drugs or to supplant State funds.

This is the same grant that was previously under AFIS Grant Number 099017.

<b>Universal Newborn Hearing Screening &amp; Intervention</b>	<b>93.251</b>	<b>DHHS/HRSA</b>	N/A	157.2	160.4	158.8	<sup>2,6</sup>
<p>Universal Newborn Hearing Screening (UNHS) has voluntarily become the standard of care in Arizona hospitals over the past four years. The grant monies serve a variety of entities and individuals, ranging from the Arizona Department of Health Services, hospitals, primary care physicians, audiologists, children with hearing loss, and babies born in Arizona.</p> <p>The goal is to have all birthing hospitals offer UNHS, using Arizona guidelines. Reaching the goal will ensure all babies receive inpatient hearing screening and return for outpatient screening if necessary. It also will ensure that children receive the appropriate diagnostic assessment by three months of age.</p> <p>Almost all of the monies received are distributed through contracts. The monies are used to provide technical assistance to hospitals; support a data system to track screenings; provide follow-up services; and educate parents, audiologists and other health care providers, and the general public on hearing screening diagnosis, treatment, and other interventions.</p> <p>There is no match or Maintenance of Effort requirement for this grant.</p>							
<b>US-Mexico Border Grant-Childhood Lead</b>	<b>66.931</b>	<b>USEPA</b>	N/A	4.5	(0.1)	0.0	<sup>2,8</sup>
<p>The purpose of this cooperative agreement is to educate people living in the Arizona/Sonora region that lead-containing pottery and folk-remedies are dangerous and should be avoided.</p> <p>This cooperative agreement is unique in that it will allow for funds to be spent in both Arizona and Mexico (62 miles on either side of the border), thus maximizing the educational component to include the fluid immigration population as well as residents on both sides of the border.</p>

<b>Vital Statistics Cooperative Program</b>	<b>93.066</b>	<b>DHHS/CDC</b>	N/A	340.4	90.4	300.0	

The Vital Statistics Cooperative Program promotes continuity of a uniform national vital statistics data set with the State of Arizona and the United States. The records of all births and deaths in Arizona are sent electronically or by microfilm to the National Center for Health Statistics. This service payment funding is calculated at a price per record rate.

There is no match or Maintenance of Effort requirement for the grant funds.

<b>WIC - Breastfeeding Peer Counseling</b>	<b>10.557</b>	<b>USDA</b>	N/A	364.6	353.6	359.2	
--	---------------	-------------	-----	-------	-------	-------	--

The Women, Infants and Children (WIC) Breastfeeding Peer Counseling Grant is used to implement an effective breastfeeding peer counselor program for women participating in the Arizona WIC Program. The OBJECTIVES - of the grant are to provide breastfeeding consultation to increase initiation rates by 5 percent and to institutionalize peer counseling as a core service in WIC.

The funds are received and distributed on a formula basis. The WIC Breastfeeding Peer Counseling Grant funds may not be used to supplant regular nutrition services and administrative funds for breastfeeding promotion and support. They cannot be counted as WIC expenditures toward the State agency's annual breastfeeding promotion and support target or its one-sixth nutrition education expenditure requirement under the WIC Special Supplemental Nutrition Program.

There is no match or Maintenance of Effort requirement for this one-time expected grant.

<b>WIC - Infrastructure</b>	<b>10.557</b>	<b>USDA</b>	N/A	173.3	76.1	104.3	

The Arizona WIC Program receives monies for various projects to improve its infrastructure. Areas of improvement include new technology for the state database, as well as being designated the lead for the WIC Participant Centered Education Project (PCE) in the Western Region of USDA. PCE is defined as an educational approach that focuses on participant's concerns and involves the participants in making decisions and solving problems. The purpose of the PCE Project is to develop a model of participant centered education for the nutrition education of WIC participants. The development of the PCE model will be accomplished by the selection of an adult education/training organization to develop, adapt and consult in the assessment of selected WIC Providers. The model developed will be used by WIC agencies within the Western Region to implement PCE. The Arizona WIC Program, as the lead agency, will be the forefront of assessing, training and implementing the skills needed by the WIC staff to meet the obesity epidemic challenge. The Arizona WIC Program will be the pilot for this project and thus be the first to benefit from the assessment. Our WIC staff would be trained to address behavior changes related to preventing childhood overweight and obesity through improved education.

There is no state match or maintenance of effort.

<b>WIC - Special Supplemental Nutrition Program (Administration)</b>	<b>10.557</b>	<b>USDA</b>	N/A	30,973.7	33,609.0	32,181.7	<sup>6</sup>

			<b>Available</b>	<b>Received</b>	<b>Est. Rev.</b>	<b>Est. Rev.</b>	
<b>WIC - Special Supplemental Nutrition Program (Food)</b>	<b>10.557</b>	<b>USDA</b>	N/A	79,120.3	77,964.6	77,790.6	<sup>2,6</sup>

The Women, Infants and Children (WIC) Special Supplemental Nutrition Program helps to improve the health and the nutritional intake of pregnant, breast-feeding, and postpartum women, infants, and children up to their fifth birthday. WIC participants get supplemental nutritious foods and nutrition education and counseling at WIC clinics. They also get screenings and then referrals to other health, welfare, and social service agencies. To be eligible for services, the family income must be no greater than 185 percent of the Federal Poverty Level.

The federal WIC program is administered by 88 WIC State agencies, through approximately 46,000 authorized retailers. WIC operates through 2,000 local agencies in 10,000 clinic sites, in 50 State health departments, 33 Indian Tribal Organizations, American Samoa, District of Columbia, Guam, Puerto Rico, and the Virgin Islands. County health departments, hospitals, mobile clinics (vans), community centers, schools, public housing sites, migrant health centers and camps, and Indian Health Services facilities are examples of where WIC services are provided.

The grant monies are distributed based on a national funding formula from an amount determined by the Federal government each year. Arizona receives its share based upon its percentage of potentially eligible participants. As a discretionary nutrition program, if the funding is not sufficient to meet the caseload needs, eligible WIC clients are placed on a waiting list. There is no match or Maintenance of Effort requirement.

In addition to this Food component (AFIS Grant Number, 099076), see the Administration component (AFIS Grant Number 099007) and the Rebate component (AFIS Grant Number 099037) for further information on this grant program.

<b>WIC - Special Supplemental Nutrition Program (Rebate Account)</b>	<b>10.557</b>	<b>USDA</b>	N/A	49,436.0	39,590.1	47,403.2	<sup>2</sup>

This is the rebate component of the Women, Infants and Children (WIC) Special Supplemental Nutrition Program where a manufacturer of baby formulas pays on average 32 percent in rebates. The Women, Infants and Children (WIC) Special Supplemental Nutrition Program distributes food vouchers for specific healthy foods and infant formulas. When a WIC participant redeems a voucher for the infant formula, the contracted infant formula manufacturer pays a rebate and the monies go back to the WIC Special Supplemental Nutrition Program to be used for purchasing food for additional eligible participants. See the WIC Special Supplemental Nutrition Program (Food) description (AFIS Number 099076) for further information.

There is no start or end date for this WIC Special Supplemental Nutrition Program rebate component.

This is a competitively secured grant that was awarded during FY2008 and made available through federal legislation in reaction to the mortgage foreclosure crisis. The funds are used to provide mortgage foreclosure mitigation counseling to homeowners in threat of foreclosure. The grantor, Neighborhood Reinvestment Corp is a congressionally chartered non-profit agency that receives federal appropriations. In FY2008 this was thought to be a one-time grant; however, as the agency works on this budget submittal the federal government has just passed legislation to provide additional funding during FY2009. As a result, ADOH will likely apply for additional competitive funds in FY2009 once the funds become available. Because of the competitive nature and not knowing whether or not ADOH will be successful in requesting additional funds, no further funds - beyond those currently awarded - are being reported on in this budget submittal.

<b>Section 8 - Housing Choice Voucher Program</b>	<b>14.871</b>	<b>HUD</b>	N/A	458.5	613.1	919.1	
---	---------------	------------	-----	-------	-------	-------	--

This ongoing program, which is renewable annually, provides rental subsidy payments to owners of privately owned rental properties on behalf of low-income renters in Yavapai County. The program also provides a small administrative fee, the balance of which can be carried forward from year to year.

<b>Section 8- Contract Administration</b>	<b>14.195</b>	<b>HUD</b>	N/A	38,697.9	40,903.5	41,721.6	<sup>2</sup>
---	---------------	------------	-----	----------	----------	----------	--------------

Provides rental subsidy payments to federally financed rental units with low-income renters. Note that HUD has clarified that all fees earned for the operation of this program should be considered "fees" and should not be classified as federal funds once earned. Thus all operating fees earned for this program, and operating costs associated with this program, are to be reported under the Housing Program Fund, which is the depository of all fees collected by the agency. Future revenues and expenditures reported for this fund will include pass through dollars only. Each dollar that passes through this fund remains in the State Treasury less than 24 hours before being transferred directly into property owners' accounts.

<b>Shelter Plus Care</b>	<b>14.238</b>	<b>HUD</b>	N/A	6,672.3	6,920.6	7,128.3	<sup>2</sup>

This competitively secured grant provides rental subsidy payments for special needs populations. Each grant is competitively secured on behalf of a particular third party agency (nonprofit or local government agency) for which ADOH serves as the intermediary for the pass-through of funds from the federal government to each subgrantee agency. Each "grant number" represents an individual Shelter Plus Care grant that was competitively awarded to a specific project. This grant provides no administrative funding to the agency. All funding received is passed through to a specific housing project. Additional grant numbers: 602046,602048,602047, 601019,600018,702050,500009,400001

<b>Election Systems Improvement Fund (HAVA)</b>	<b>90.401</b>	<b>Various</b>	N/A	1,258.6	0.0	250.0	<sup>2</sup>

The Help America Vote Act of 2002 (HAVA) is civil rights legislation to ensure voters are treated equally across the United States of America. HAVA will significantly change Arizona's state election process by replacing punch card voting systems in nine counties; adding new digital recording (touch screen) style equipment to every precinct in the state; and implementing new statewide systems to address voter registration, grievance process, and provisional balloting. The State's HAVA plan was developed in conjunction with the State HAVA Planning Committee and was adopted unanimously from the group of state officials, legislative representatives, local officials, party representatives and individuals with special interests in improving access to the disabled. Within the State Plan, Arizona encourages election accessibility for individuals with disabilities and those with alternative language considerations.

The Federal-aid Highway Program is financed from the proceeds of motor fuel and other highway related excise taxes deposited in the Federal Highway Trust Fund. Funds are distributed back to the states for the construction and improvement of urban and rural highway systems. Core programs include:

**Bridge Replacement and Rehabilitation:** Provides funding to replace or rehabilitate deficient highway bridges and to seismic retrofit bridges located on any public road.

**Congestion Mitigation and Air Quality:** Funds projects and programs in air quality nonattainment and maintenance areas for ozone, carbon monoxide and small particulate matter which reduce transportation related emissions.

**Coordinated Border Infrastructure Program:** Provides funding to improve the safe movement of motor vehicles at or across the land border between the U.S. and Canada and the land border between the U.S. and Mexico.

**Equity Bonus:** Ensures that each state receives a minimum rate of return on contributions to the Federal Highway Trust Fund.

**High Priority Projects:** Provides designated funding for specific projects identified by Congress.

**Highway Safety Improvement Program:** Provides funding for highway safety improvement projects on any public road, publicly owned bicycle, pedestrian pathway, or trail.

**Interstate Maintenance:** Provides funding for resurfacing, restoring, rehabilitating and reconstructing routes on the Interstate System. The Interstate Highway System is a separate system within the larger National Highway System.

**Metropolitan Planning Funds:** Provides funding to Metropolitan Planning Organizations (MPOs) to plan and develop metropolitan area transportation plans and transportation improvement programs.

**National Highway System:** Provides funding for construction, reconstruction, resurfacing, restoration and rehabilitation and safety improvements of the National Highway System (NHS). The National Highway

# Appendix

## FOOTNOTES

- 1 Amount Available and/or Received includes pass-through monies from other State agencies.
- 2 FTE information not provided at all or not consistently provided.
- 3 Program commences in FY 2008.
- 4 No new revenue reported, expenditures were funded by carry-over balances from the previous fiscal year.
- 5 Program commences in FY 2009.
- 6 Negative amount represents revertment or transfer of carry-over monies from the previous fiscal year.
- 7 Amount Available and/or Received is projected to be spent in the ensuing fiscal year(s).
- 8 Program ends in FY 2008.
- 9 A CFDA number was not provided by the agency. The CFDA number shown (84.999) was inserted by OSPB in order to identify the Federal function of the grant for use in the tables located in the Appendix.
- 10 A valid CFDA number was not provided by the agency. The CFDA number 00.000 shown was inserted in order to identify the Federal function of the grant as "Other" in the tables located in the Appendix.
- 11 Federal Funds for FY 2008 expenditures are projected to be received in FY 2009.
- 12 Amount contains monies returned to the agency.
- 13 This DEQ grant is funded on a reimbursable basis. Some reimbursements for FY 2007 expenditures were received in FY 2008. Additionally, some reimbursements for FY 2008 expenditures will be received during FY 2009.
- 14 FY 2008 Expenditures includes \$1,422,463,330 of pass-through funds to other state agencies. These pass-through funds have not been reported as revenues in the recipient agencies Federal fund reports.
- 15 FY 2008 Total Uses of Funds exceeded Amount Received due to Federal Funds retained from previous years.
