HISTORICAL REVENUES TO SPENDING

GENERAL FUND STRUCTURAL BALANCE

COMPARISON OF REVENUES TO SPENDING

¹Year-over-year growth compares total spending, including supplemental appropriations, to the prior year.

²Includes enhanced revenue from additional Department of Revenue auditors, collectors, and fraud prevention in FY 2019 to FY 2021.

The Executive Budget allows for General Fund spending to grow by 3.2% in FY 2019, which is less than the 3.7% forecasted inflation (2.0%) plus population growth (1.7%).

GENERAL FUND SPENDING

New FY 2018 Spending: \$ 13,653,500
New FY 2019 Spending: \$ 328,567,900

GENERAL FUND SPENDING DISTRIBUTION, FY 2009 to FY 2019

GENERAL FUND SPENDING DISTRIBUTION, FY 2009 to FY 2019 (billions)

³The amounts in the FY 2019 Executive Budget column are not equal to the sum of the FY 2018 and other FY 2019 columns because of supplements included in FY 2018 that are considered one-time spending and not necessarily carried into FY 2019. For

example, the Executive Budget includes \$4.1M in FY 2018 for the Department of Forestry and Fire Management; this amount is not continued in FY 2019.

⁴The (\$101M) in Baseline Adjustments for School Facilities Board reflect the removal of one-time funding in FY 2018 and retired debt service on construction of new schools that occurred in the 2000s.

GENERAL FUND SPENDING BREAKDOWN

KEY HIGHLIGHTS

- 80% of new Executive Initiative spending is going to K-12 Education
- \$200M above the Education baseline, including \$100M in new, permanent, and flexible per-pupil funding as part of a 5-year, \$371M restoration of Recession-era cuts

Board of Accountancy

The Arizona State Board of Accountancy consists of five Certified Public Accountants (CPAs) and two public members, all of whom are residents of the state and are appointed by the Governor. The Board also has six advisory committees consisting of 46 members appointed by the Board whose work directly supports the Board's mission. The advisory committees are Accounting and Auditing, Tax Practice, Peer Review, Certification, Continuing Professional Education, and Law Review. The Board and its committees qualify candidates for the Uniform CPA Examination, certify individuals to practice as CPAs, register accounting firms owned by CPAs, and biennially renew certificates for CPAs and registered accounting firms. The Board and its committees also receive and investigate complaints, take enforcement action against licensees for violation of statutes and regulations, monitor compliance with continuing education requirements, and review the work product of CPAs to ensure adherence to professional standards through the Board's peer review program.

FOR MORE DETAIL ABOUT EACH FUND SEE THE STATE FUNDS BOOK

The Executive Budget provides a lump-sum appropriation to the agency.

Acupuncture Board of Examiners

The Board licenses and regulates acupuncturists and certifies auricular (ear) acupuncturists for detoxification or substance abuse programs. The Board also oversees the licensing and certification of acupuncture training, continuing education programs, and visiting professors. The Board evaluates professional competency, investigates complaints, and enforces the standards of practice for the acupuncture profession. The Board regulates the educational, clinical, and clean needle technique programs approved to teach the practice of acupuncture in the State.

Agency Total	159.2	185.5	(15.9)	169.6

Major Executive Budget Initiatives and Funding

E-Licensing Ongoing Costs

The Executive Budget includes an increase in funding for the Board's share of ongoing operating costs associated with the new e-licensing system that was established in FY 2018 and is currently used by 14 agencies. The system is expected to provide a fast and efficient online experience for applicants and licensees.

The Board will begin using the e-licensing system in early 2018. The Board will pay annual licensing costs for the online platforms on which the e-licensing system is built and will share the services of a full-time system administrator at the Department of Administration.

Funding	FY 2019
Acupuncture Board of Examiners Fund	6.2
Issue Total	6.2

Relocation to 1740 West Adams

The Executive Budget includes an increase in funding for the Board's new shared services costs associated with relocating to the State-owned building at 1740 W. Adams St. in Phoenix. The funding associated with this issue does not reflect the change in State rental payments, which appears in the Statewide Adjustments section. The Board's funding issue below results in a net increase in costs. The Board will relocate by the end of January 2018.

Twenty-six boards and commissions are moving to the new location, which is designed to operate more efficiently than the agencies' previous spaces. The expected savings in rent and shared services across all 26 agencies is estimated to be \$349,500.

In an effort to consolidate services for those agencies, the new location will feature shared conference rooms and other common spaces and shared contracts for Wi-Fi services, building security, and conference room phones, costing a total of \$150,900 for all of the tenant agencies. Additionally, 21 of the agencies will share 1.0 FTE receptionist position on the first floor of the building.

In FY 2019, the Board will spend \$1,300 for shared services costs such as Wi-Fi and security, compared to 200 for any similar services at its previous location. New funding is required to cover the \$1,100 increase.

At the previous State-owned space, the agency paid \$4,600 for rent. At the new space, the agency will pay \$5,300. The change in the agency's rental payments of \$700 appears in the Statewide Adjustments section.

FOR MORE DETAIL ABOUT EACH FUND SEE THE STATE FUNDS BOOK

The Executive Budget provides a lump-sum appropriation to the agency.

Department of Administration

The Department of Administration (DOA) was established by the Arizona State Legislature in 1973 to support the operation of state government. As the administrative and business operations hub of state government, DOA provides medical and other health benefits to state employees, processes claims when employees get injured, maintains office buildings for employees to work in, purchases goods and services needed to conduct business, provides information technology and telecommunication services for employees, and much more. These centralized support services enable state agencies to focus their efforts on their own unique missions.

Major Executive Budget Initiatives and Funding

Automation Projects Appropriation Extension

The Executive Budget includes an increase in funding to extend automation project appropriation authority through FY 2019.

The increased funding will support the following projects: FY 2017 E-procurement replacement, FY 2018 ASET initiatives, FY 2018 DEQ e-licensing, FY 2018 claims processing system at ICA, FY 2018 updates to IT at Lottery, FY 2018 Microwave Backbone, FY 2018 CJIS at Public Safety, FY 2018 ELAS at Department of Education, and FY 2018 CHILDS replacement.

The State's large information technology and automation projects are inherently complex and require extensive planning. The monies appropriated to those projects are one-time appropriations, but many of the projects cannot be completed within a single fiscal year.

Funding	FY 2019
Automation Projects Fund	0.0
Issue Total	0.0

Automation Projects Fund - Revenue

The Executive Budget includes funding from the following agencies to be transferred to the Automation Projects Fund for Information Technology (IT) projects in FY 2019: Department of Administration, Office of the Attorney General, Board of Behavioral Health Examiners, Department of Child Safety, Board of Cosmetology, Department of Environmental Quality, Department of Financial Institutions, and the Department of Public Safety. These resources will be used for the IT projects described in the Large Automation Projects initiative.

The Executive Budget transfers funds from non-appropriated sources, which do not appear below, including: \$1.5 million from the Consumer Restitution and Remediation Revolving Fund at the Attorney General's Office; \$800,000 from the IGA/ISA Fund at the Department of Environmental Quality; and \$500,000 from the Receivership Revolving Fund at the Department of Financial Institutions. The Executive Budget also transfers the

\$5.0 million General Fund appropriation for the CHILDS replacement project from the Department of Child Safety's agency baseline to the Automation Projects Fund.

Funding	FY 2019
General Fund	9,460.0
Cosmetology Board Fund	450.0
Arizona Highway Patrol Fund	2,806.2
Behavioral Health Examiners Fund	450.0
Underground Storage Tank Revolving Fund	1,400.0
Permit Administration Fund	1,000.0
Public Safety Equipment Fund	1,250.0
State Web Portal Fund	3,517.0
Automation Operations Fund	5,330.0
Issue Total	25,663.2

AzNET Contract Savings

The Executive Budget includes a decrease in funding to DOA's operating budget due to a negotiated lower-cost contract for AzNET services, which include phone and internet capabilities.

Funding	FY 2019
General Fund	(45.0)
Issue Total	(45.0)

Central Services Bureau Expenditure Increase

The Executive Budget includes an increase in funding for the Central Services Bureau (CSB) to make payments on behalf of the agencies for shared services in the State-owned building at 1740 W. Adams St. in Phoenix.

By January 2018, 26 boards and commissions will occupy the newly renovated building and share such services as security and Wi-Fi. Additionally, 21 of the boards and commissions will share 1.0 FTE position to staff a service window for the public. The agencies will pay their portion of these services to CSB, which will remit payment for the services.

Funding	FY 2019
Special Services Fund	186.6
Issue Total	186.6

Efficiency Savings

The Executive Budget includes a decrease in funding as a result of efficiency savings identified by DOA. Those savings will be applied to DOA's operating budget.

Funding	FY 2019
General Fund	(500.0)
Issue Total	(500.0)

General Services Division Operating Increase

The Executive Budget includes an increase in funding for operating expenses at the General Services Division, which has experienced a variety of cost pressures in recent years.

The cost has increased for services such as landscaping, janitorial services, and general maintenance, as well as vendor contracts. For example, the transition of custodial services from inmate labor to contracted labor entailed an overall increase of \$280,000 in FY 2016 and \$300,000 in FY 2017. Elevator and HVAC maintenance

contracts have increased by \$12,000 and \$42,000, respectively, since FY 2015.

To cover these added costs, building renewal dollars have been used because the budget for facilities, operations, and maintenance in the General Services Division is insufficient. The Executive Budget would increase the General Services Division budget capacity to cover ongoing costs instead of relying on one-time building renewal monies.

Funding	FY 2019
Capital Outlay Stabilization Fund	500.0
Issue Total	500.0

Government Transformation Office Funding

The Executive Budget includes a decrease of funding for the Government Transformation Office (GTO), leaving \$500,000 available for GTO to generate better State agency performance and customer service.

GTO works with agencies to facilitate process-improvement projects. The demand for GTO services across State government has increased since FY 2016, as agencies have adopted process-improvement projects.

GTO plans to become self-sustaining by charging agencies for services rendered.

Funding	FY 2019
General Fund	(1,000.0)
State Web Portal Fund	(500.0)
Issue Total	(1,500.0)

Health Insurance Trust Fund, Agency Premiums

The Executive Budget includes an increase in one-time funding for agency premium increases to the Health Insurance Trust Fund (HITF).

HITF supports the State's self-insured medical, pharmacy, and dental insurance for State employees. Since FY 2016, claims growth has been higher than forecasted.

The agency and fund impact from this premium increase is included in the Statewide Adjustments section of the Executive Budget.

Funding	FY 2019
General Fund	0.0
Issue Total	0.0

Health Services COP Payment Fund Shift

The Executive Budget includes an increase in funding for the Department of Health Services (DHS) to pay the Certificate of Participation (COP) liability on the State-owned building located at 150 N. 18th Ave. in Phoenix and the utilities at the DHS State Health Lab.

Through FY 2018, the Capital Outlay Stabilization Fund (COSF) has borne \$1.5 million in costs; however, these buildings do not contribute to the COSF, and, thus, it is more appropriate to fund both items from the Indirect Cost Fund at DHS.

Funding	FY 2019
Capital Outlay Stabilization Fund	0.0
Issue Total	0.0

Human Resource Information System Support

The Executive Budget includes an increase in funding for the purchase of disaster-recovery hardware to safeguard the aging Human Resource Information System.

Funding	FY 2019
Personnel Division Fund	171.9
Issue Total	171.9

Large Automation Projects

The Executive Budget includes an increase in funding for new or continuing Information Technology (IT) projects. The Executive contemplates that this funding remain non-lapsing for two years (June 30, 2020) consistent with the budgetary treatment of other large-scale capital projects. See the FY 2019 Project Summary for more details.

DOA's Arizona Strategic Enterprise and Technology Office (ASET) evaluates and centrally manages nearly all changes to IT systems across state government. Automation projects, with the exception of very small projects, are funded by transferring monies from an agency where the project is located to the Automation Project Fund. Appropriations from the Automation Project Fund for each IT project are made to DOA, which tasks ASET with oversight and project management.

The FY 2018 budget included \$58.8 million from the Automation Projects Fund for the following new and continuing projects: ASET initiatives (DOA); Human Resource Information System replacement feasibility study (DOA); implementation of a statewide-licensing system (DOA); implementation e-licensing projects (Department of Environmental Quality); upgrades to the claims processing system (Industrial Commission of Arizona); updates to the IT system (Arizona State Lottery Commission); microwave backbone updates (Department of Public Safety); Criminal Justice Information System updates (Department of Public Safety); updates and maintenance to the Education Learning and Accountability System (Department of Education); upgrades to the Information Technology Infrastructure (Department of Revenue); and replacement of the Children's Information Library and Data Source (CHILDS) (Department of Child Safety).

FY 2019 IT Project Summary:

The Executive Budget removes the FY 2018 funding of \$58.8 million and includes \$28.5 million for the projects listed below. These new monies would be non-lapsing for two years.

Department of Administration:

The Executive Budget includes \$8.8 million:

- \$5.3 million to complete the relocation of the state data center from 1510 W Adams to a private facility.
- \$3.0 million to complete the replacement of the statewide e-procurement system. This project is underway with an expected completion date during FY 2019. The new system will allow for better visibility and tracking of procurement data as well as compatibility between the procurement system and the statewide accounting system, which is not currently possible.
- \$500,000 to improve state agency websites.

Office of the Attorney General:

The Executive Budget includes \$1.5 million to update the Case Management System, which tracks all phases of criminal and civil cases. The Attorney General's Office is using a system and software that is no longer supported by the vendor. The software must be upgraded, including the required licenses and annual support and maintenance of the system and software.

Board of Behavioral Health Examiners and Board of Cosmetology:

The Executive Budget includes \$900,000, equally divided, for these boards to join a multi-agency e-licensing system that was established in FY 2018 and will be used by 14 agencies. These boards are using outdated online software or paper records to manage their nearly 11,000 and 111,000 licenses, respectively. The new system is more secure than agency-developed applications and will provide a fast and efficient online experience for customers.

Department of Child Safety (DCS):

The Executive Budget includes \$9.5 million for the third of a four-year project for a new information management system (Guardian) to replace the CHILDS system. Guardian will be used to document the status, demographics, locations, and outcomes for every child in the DCS' care. DCS has already launched the mobile component of Guardian, which allows caseworkers to use a mobile tablet to take pictures, complete forms, run background checks, review and enter reports, and access other information management tools while working off-site. In FY 2019, DCS plans to complete the platform development, hosting environment, business integration, document management, technical integration, and quality management for Guardian. This amount does not include \$5.0 million from the General Fund in DCS' baseline budget that is also appropriated for the Guardian IT project.

Department of Environmental Quality (DEQ):

The Executive Budget includes \$3.2 million for the next phase of the MyDEQ project. This is the fifth phase of what is expected to be an eight-phase project. MyDEQ is an online platform intended to make it easier for industry by streamlining the permitting and compliance process. To date, 44 of DEQ's 147 services are now available online with 16 more services being added in FY 2018. Automating much of DEQ's permitting, in conjunction with other process changes, has shortened the average permit decision time from 121 days in FY 2008 to 8 days in FY 2018. The Executive Budget will add more services to the online platform, prioritized by stakeholder input. The total project cost is estimated at \$41.1 million. Through FY 2018, \$21.6 million has been appropriated for this project.

Department of Financial Institutions (DFI):

The Executive Budget includes \$500,000 for DFI to build a comprehensive enterprise software and database system to manage DFI's operations. The system will integrate DFI's document management system, and allow DFI to offer paperless options for their constituents to apply for and renew licenses, and submit and manage complaints.

Department of Public Safety (DPS):

The Executive Budget includes \$4.1 million:

- \$2.8 million for the second of a three-year project to update the Arizona Criminal Justice Information System (ACJIS). ACJIS is moving from a mainframe environment to a new open system that can utilize modern applications, databases, and languages.
- \$1.3 million for the next phase of upgrading the state microwave communication system, which consists of three loops. The southern loop was completed in FY 2011. The western loop is expected to be completed in FY 2019. There remains several years of work before the northern loop is completed. The Executive Budget would fund commercial power upgrades to the DPS Network Operations Center in Phoenix and for preventive maintenance on DPS radio towers.

Additional information for each of these projects can also be viewed within the operating budget detail of the agency affected.

Funding	FY 2019
Automation Projects Fund	(25,312.3)
Issue Total	(25,312.3)

Statewide Information Security Funding

The Executive Budget includes an increase in funding to pay for the licenses for 13 cybersecurity controls that were introduced across State government in FY 2018, as well as support other operations of the Statewide Information Security Office.

In order to cover the cost of the 13 Statewide cybersecurity controls implemented in FY 2018, the Executive Budget increases the Information Technology Fund pro rata charge from 0.2% to 0.3%. These adjustments are displayed in the Statewide Adjustments section of this publication.

Funding	FY 2019
Information Technology Fund	5,825.7
Issue Total	5,825.7

Utility Savings

The Executive Budget includes a decrease in funding for lower energy use from efficiency initiatives. These savings will be applied to DOA's Utilities Special Line Item.

Funding	FY 2019
General Fund	(625.7)
Issue Total	(625.7)

World War I Monument Repair

The Executive Budget includes an increase in one-time funding for repairs to the World War I Monument and surrounding grounds on the Capitol Mall in preparation of the centennial of the Armistice on November 11, 2018.

Funding	FY 2019
Statewide Monument and Memorial Repair Fund	25.3
Issue Total	25.3

Executive Budget Baseline Changes

Adjust Insurance Claims Related Expenditures

The Executive Budget includes an increase in funding for expected liability and workers' compensation claims against State agencies.

Each year, an independent actuary prepares a study of each agency's exposure and claims history for its property, liability, and workers' compensation insurance programs. The Executive Budget aligns the expected exposure and the amount of appropriation available to pay claims.

Funding	FY 2019
Risk Management Fund	6,207.7
Issue Total	6,207.7

Remove One-Time FY 2018 Appropriations

The Executive Budget includes a decrease for one-time FY 2018 appropriations, including county payments and the Office Grants and Federal Resources' temporary funding solution.

Funding	FY 2019
General Fund	(9,650.2)
Admin - AFIS II Collections Fund	(375.9)
Issue Total	(10,026.1)

Sale Lease-Back Payment Adjustment

The Executive Budget includes a decrease in funding to align the appropriation for the State building sale lease-back agreements with the FY 2019 payments.

Funding	FY 2019
General Fund	(3.1)
Issue Total	(3.1)

Statewide Project Management and Oversight

The Executive Budget includes an increase in funding for project management and oversight in the Arizona Strategic Enterprise Technologies Office (ASET). ASET manages and oversees information technology projects that are funded through the Automation Projects Fund.

Funding	FY 2019
Automation Operations Fund	1,500.0
Issue Total	1,500.0

Executive Budget Supplemental Changes

Federal Repayment

The Executive Budget includes a non-lapsing, FY 2018 supplemental appropriation for federal reimbursements that may be due before June 30, 2018.

Monies collected from a variety of funding sources at State agencies and used for statewide functions, such as employee health care or general liability insurance, are a key funding mechanism for the State. One funding source for those services is money from the federal government. State agencies receive federal money for use in specific ways and with detailed restrictions. Federal auditors have notified the State that some uses of federal funds in FY 2017 have been disallowed, and the State will likely be required to reimburse the disallowed costs. This reimbursement has occurred each spring for several years.

Funding	FY 2018
Risk Management Fund	15,802.5
Issue Total	15,802.5

Adjustments for risk management charges and retirement contributions for this agency are not incorporated into the totals shown here. They are listed separated with adjustments for all state agencies immediately following the Capital Projects section. Funding for these adjustments is included as part of the total Executive Budget.

Agency Budget Summary

	FY 2017 Actual	FY 2018 Exp.Plan	FY 2019 Net Change	FY 2019 Exec. Bud.
General Fund	860.5	870.9	13.3	884.2
Non-Appropriated Funds	828.1	812.6	0.0	812.6
Agency Total	1,688.6	1,683.5	13.3	1,696.8

Major Executive Budget Initiatives and Funding

Relocation to 1740 West Adams

The Executive Budget includes an increase in funding for the Office's new shared services costs associated with relocating to the State-owned building at 1740 W. Adams St. in Phoenix. The funding associated with this issue does not reflect the change in State rental payments, which appears in the Statewide Adjustments section. The Office's funding issue below results in a net decrease in costs. The Office will relocate by the end of January 2018.

Twenty-six boards and commissions are moving to the new location, which is designed to operate more efficiently than the agencies' previous spaces. The expected savings in rent and shared services across all 26 agencies is estimated to be \$349,500.

In an effort to consolidate services for those agencies, the new location will feature shared conference rooms and other common spaces and shared contracts for Wi-Fi services, building security, and conference room phones, costing a total of \$150,900 for all of the tenant agencies. Additionally, 21 of the agencies will share 1.0 FTE receptionist position on the first floor of the building.

In FY 2019, the Office will spend \$23,800 for shared services costs such as Wi-Fi and security, compared to \$10,500 for any similar services at its previous location. New funding is required to cover the \$13,300 increase.

At the previous State-owned space, the agency paid \$204,500 for rent. At the new space, the agency will pay \$144,000. The change in the agency's rental payments of \$(60,500) appears in the Statewide Adjustments section.

Funding	FY 2019
General Fund	13.3
Issue Total	13.3

Adjustments for risk management charges and retirement contributions for this agency are not incorporated into the totals shown here. They are listed separated with adjustments for all state agencies immediately following the Capital Projects section. Funding for these adjustments is included as part of the total Executive Budget.

Department of Agriculture

The Arizona Department of Agriculture, often in cooperation with federal entities, regulates facets of the agriculture industry to promote the general welfare of the agricultural community, inform consumers, and protect public health and safety. The Department conducts food quality and safety inspections of meat, dairy, vegetable, citrus, fruit, and egg products; registers, licenses and samples feed, fertilizer, seed and pesticide companies or products; regulates agricultural pesticide use; trains and certifies pesticide applicators; protects native plants; guards against the risks associated with the entry, establishment and spread of plant pests, diseases and noxious weeds; licenses produce dealers and shippers; provides education on pesticide safety and air quality; provides forensic, product quality, food safety and other agricultural laboratory analysis, identification, certification and training services; provides administrative support for the citrus, lettuce and grain commodity councils and the Agricultural Employment Relations Board; inspects, tests and licenses commercial weighing and measuring devices; and regulates pest management and pest management services.

Major Executive Budget Initiatives and Funding

Efficiency Savings

The Executive Budget includes decrease in funding as a result of efficiency savings identified by the Department in its operating budget.

Funding	FY 2019
General Fund	(766.1)
Issue Total	(766.1)

Livestock Inspectors Salary Increase

The Executive Budget includes an increase in funding for a 22% pay increase to retain Livestock Officers and Inspectors.

The work of Livestock Inspectors and Officers serves a critical role in the movement of interstate livestock commerce. Inspectors and officers are responsible for monitoring the health and ownership of livestock through on-site reviews at ranches, feedlots, dairies, exhibitions, and auction markets. They also investigate fraud and animal abuse. Officers are Police Officer Standard and Training (POST) certified and can enforce laws related to livestock when necessary.

Due in large part to below-market compensation rates, the Department faces a high level of turnover among Livestock Inspectors and Officers. In FY 2017, Inspector and Officer turnover rates were 21% and 29%, respectively.

Funding	FY 2019
General Fund	100.0
Livestock Custody Fund	20.0
Agriculture Designated/Donations Fund	80.0
Issue Total	200.0

Salt River Horse Management

The Executive Budget includes an increase in funding and 1.0 FTE liaison position to manage the Salt River horse herd.

On May 11, 2016, Governor Ducey signed Laws 2016, Chapter 136, to protect the Salt River horse herd from being harassed, injured, or killed. In order to become effective, this law directs the Department of Agriculture (DA) to enter into an intergovernmental agreement (IGA) with the United States Forest Service (USFS) to implement Chapter 136 and address any issues relating to the Salt River horse herd. On December 28, 2017 both parties agreed to an IGA regarding the management of the Salt River horses.

A provision of the agreement requests DA to employ a Salt River Horse Liaison, which will be jointly funded by the DA and the USFS. This position will serve as a liaison for DA and collaborate with community stakeholders and USFS to create and implement a management plan for the Salt River horses.

The Executive Budget provides a lump-sum appropriation to the agency with special lines.

Arizona Health Care Cost Containment System

Arizona Health Care Cost Containment System (AHCCCS), the State's Medicaid Agency, uses federal, state and county funds to provide health care coverage to the State's acute and long term care Medicaid population and low income groups. Since 1982, when it became the first statewide Medicaid managed care system in the nation, AHCCCS has operated in accordance with a federal Research and Demonstration Waiver that allows for a total managed care model of service delivery.

Unlike programs in other states, that rely solely on fee-for-service reimbursement, AHCCCS makes prospective capitation payments to contracted health plans responsible for the delivery of care. The result is a managed care system that mainstreams recipients, allows them to select their providers, and encourages quality cost-effective care and preventive services.

The AHCCCS Administration is responsible for planning, developing, implementing, and administering the health care programs for low income Arizonans. Specifically, the AHCCCS Administration provides direction and oversight of operations related to eligibility, enrollment, quality of care, contracted health plans and providers, and procurement of contracted services.

Major medical programs include acute care, long term care, and behavioral health services. The AHCCCS Administration determines eligibility for the Arizona Long Term Care System (ALTCs), Children's Health Insurance Program (KidsCare), Qualified Medicare Beneficiaries, and other Supplemental Security Income (SSI)-related Medical Assistance Only programs. Federal funding through Title XIX and Title XXI of the Social Security Act is provided to AHCCCS by the Centers for Medicare and Medicaid Services (CMS), a federal agency within the U.S. Department of Health and Human Services.

Major Executive Budget Initiatives and Funding

Transfer DD CRS funding to DES

The Executive Budget includes a decrease in AHCCCS in the General Fund and non-appropriated AHCCCS fund and commensurate increases in the Department of Economic Security budget to better integrate the delivery, management, and financing of healthcare.

Arizona's developmentally disabled (DD) children who have chronic and disabling conditions and who need the enhanced level of care provided by the Children's Rehabilitative Services (CRS) program receive their DD therapies through Department of Economic Security (DES) contractors. Their CRS and behavioral health services are provided through a contract overseen by AHCCCS. Similarly, funding for DD is budgeted in DES and CRS, and funding for behavioral health services is budgeted in AHCCCS.

As part of a statewide effort to better integrate the delivery, management, and financing of healthcare, the

Executive is transferring from AHCCCS to DES the contract management for CRS and behavioral health services for DD members, effective October 1, 2018. The Executive budget transfers from AHCCCS to DES three quarters of the FY 2019 budget for DD CRS and behavioral health services, which will require an annualization in the FY 2020 budget to move the last quarter of this funding to DES. Specifically, the Executive includes a reduction of (\$15.2 million) of General Fund in AHCCCS and a corresponding increase of the same amount in the DES budget. The Executive budget also transfers the non-appropriated federal match of (\$35,177,400) from AHCCCS to DES.

This budget will improve the coordination of member services by giving one agency (DES) both oversight and funding for all services for DD members receiving CRS services.

Funding	FY 2019
General Fund	(15,212.7)
Issue Total	(15,212.7)

AIHP Base Modification

The Executive Budget includes a decrease in funding for the administrative cost of behavioral health services for Native Americans, due to savings from the integration of behavioral and physical health care for those members.

Native Americans may choose to receive their physical health care through (a) the AHCCCS American Indian Health Program (AIHP), (b) direct fee-for-service payments to providers, or (c) an AHCCCS-contracted health plan. Their behavioral health services are provided through a Regional Behavioral Health Authority (RBHA) or, for members who meet certain criteria and choose this option, a tribal RBHA.

To further the goal of providing better member services through integrated care, AHCCCS is offering Native Americans who receive their acute care through the AIHP the option of receiving integrated behavioral and acute care through the AIHP.

RBHAs keep a 9% administrative allotment and pass through to AHCCCS an additional 2% for premium tax liability, while the AIHP would pay for the administrative costs for members' behavioral health services from its fee-for-service administration budget. The RBHA savings amount to about (\$2.5 million) in total fund, of which (\$545,300) is General Fund. Of this savings, AHCCCS would reallocate \$1 million total fund, which includes \$347,900 General Fund, for 12.0 FTE positions to administer the integrated program. The net result is a General Fund savings of (\$197,400).

Funding	FY 2019
General Fund	(197.6)
Issue Total	(197.6)

Consolidate Agency Special-Line Items

The Executive Budget consolidates the AHCCCS behavioral health services and children's rehabilitative services special line items into the AHCCCS acute special line items.

For members with complicated medical needs, the traditional delivery and funding of care in the Arizona Medicaid program has been somewhat fragmented. For example, a child with multiple disabling conditions and behavioral health needs would receive rehabilitative therapies under a contractor with the Children's Rehabilitative Services (CRS) program; acute care needs would be overseen by an AHCCCS health plan; and behavioral health would be provided through the Regional Behavioral Health Authority (RBHA) contractor.

As part of its effort to improve the coordination of care, on November 2, 2017, AHCCCS issued a request for proposal for what it terms the "AHCCCS Complete Care" (ACC) contract to provide integrated physical, behavioral, and children's rehabilitative services to its members, starting October 1, 2018. Accordingly, the Executive consolidates AHCCCS behavioral health and children's rehabilitative services special line items into the corresponding AHCCCS acute special line items.

Funding	FY 2019
General Fund	0.0
Tobacco Tax and Health Care Fund	0.0
Issue Total	0.0

Reallocate Prop 204 Protection and MSA to BHS

The Executive Budget reallocates 28% of two tobacco funds from Proposition 204 Acute Care to Proposition 204 behavioral health services.

As the Executive developed and identified its FY 2019 funding priorities, an effort was made to identify efficiencies and cost savings. In the Proposition 204 program, non-appropriated Tobacco Settlement and Prop. 204 Protection Account Tobacco Tax monies are currently used as State match in the Acute Care program. For the State match above what the tobacco funds will support, hospitals pay a per-patient-discharge assessment.

Currently, none of the tobacco funds support behavioral health services (BHS) Prop. 204 expenditures, whose State match is supported by the General Fund. In FY 2019, as BHS is 28% of total Prop. 204 State match costs, the Executive Budget reallocates 28% of the tobacco funds from Prop. 204 Acute Care to Prop. 204 BHS. Thus, the tobacco funds will pay for \$35 million of the Prop. 204 BHS State match that is currently supported by the General Fund, allowing a reduction of the same amount of General Fund appropriation.

Funding	FY 2019
General Fund	(35,154.4)
Issue Total	(35,154.4)

End Prior Quarter Coverage

The Executive Budget includes a decrease in funding for health services provider reimbursement in anticipation of a federal waiver approval.

In the wake of the Affordable Care Act, the federal government imposed on Arizona a requirement that, if a newly eligible member both received health services and was AHCCCS-eligible in the prior quarter, AHCCCS is to reimburse the health services provider, on a fee-for-service basis, for the services provided to that member in the prior quarter.

AHCCCS has submitted a waiver request to the federal government that this mandate be rescinded. The agency is confident that the federal government will approve this request, so the Executive removes the resulting savings of (\$2.5 million) General Fund from the AHCCCS budget.

Funding	FY 2019
General Fund	(2,511.3)
Issue Total	(2,511.3)

Out of Contract BHS Inpatient Facilities

The Executive Budget includes a decrease in funding for a reduction in health service provider reimbursement rates.

As the Department developed and identified its FY 2019 funding priorities, an effort was made to identify efficiencies and cost savings. In the Behavioral Health Services program, when members receive services at inpatient behavioral health facilities that do not contract with a health plan or Regional Behavioral Health Authority (RBHA), AHCCCS currently reimburses providers 100% of the fee-for-service rates. AHCCCS plans to reduce this reimbursement to 90% of the fee-for-service rate, saving (\$4.5 million) in total funds. Of this savings, (\$1 million) is General Fund.

Funding	FY 2019
General Fund	(1,001.8)
Issue Total	(1,001.8)

ADOA Data Center

The Executive Budget includes a funding shift from the Acute Care programmatic appropriation to the AHCCCS operating lump sum for ADOA data center payments.

The AHCCCS operating lump sum appropriation for data center services has been \$5.7 million total fund since FY 2003. In FY 2019, the charges against the special line item are expected to be \$19.3 million.

There are essentially two causes for this increase: First, since FY 2003 AHCCCS membership has grown from 800,000 to 1.9 million, necessitating increased data storage and use (which are the basis for the ADOA Data Center charges). Second, Arizona has complied with the Health Insurance Portability and Accountability Act (HIPAA) requirements that data be stored in two formats, effectively doubling its data storage costs.

The Executive annually transfers funds from AHCCCS programmatic line items to make this payment using, its authority in A.R.S. § 35-173. To eliminate that need in FY 2019, the Executive Budget shifts \$4,190,700 General Fund, along with the non-appropriated federal match, from the baseline programmatic appropriation to operating lump sum. This base modification represents no net increase to the agency's General Fund budget.

Funding	FY 2019
General Fund	0.0
Issue Total	0.0

Executive Budget Baseline Changes

Enrollment Growth and Fund Offsets

The Executive Budget includes an increase in funding for anticipated caseload and other fund changes in the Acute Care, Behavioral Health Services, and Arizona Long Term Care System (ALTCS) programs.

The increase in the AHCCCS General Fund appropriation is based on forecast increases in caseloads and capitation rates, as well as changes in the amounts of tobacco and prescription drug rebate funds that are available to offset the General Fund need.

The Executive anticipates changes in the acute base population of (1.3%) for June 2018 over June 2017, and 1% for June 2019 over June 2018. Funding for the acute base population receives its State match from the Tobacco Tax, Prescription Drug Rebate Fund, county funds, and General Fund.

The Executive estimates that capitation rates will increase by 1.25% in contract year 2019 over 2018 for the acute base and behavioral health services programs. The Executive does not anticipate an increase in provider rates but, based on recent history and the fact that a new five-year integrated contract will be starting in FY2019, forecasts that member utilization growth at current provider rates will only require a 1.25% increase in capitation rates. It should be noted that, in ALTCS, a 2% capitation rate increase is forecast, making provision for future increases in the State minimum wage, as mandated by Proposition 206 of 2016.

The Federal Medicaid Assistance Percentage (FMAP) regular match rate will drop slightly, from 69.89% in federal fiscal year (FFY) 2018 to 69.81% in FFY 2019.

Tobacco Tax revenues have declined in recent years, and receipts that provide the AHCCCS match have fallen from \$127.4 million in FY 2016 to \$125.8 million in FY 2017. While the appropriation is based on forecast growth to \$132.6 million in FY 2018, the Executive predicts that the recent trend of Tobacco Tax reductions will continue, dropping to \$123.8 million in FY 2018 and to \$121.8 million in FY 2019. The appropriated Tobacco Tax and Health Care Fund Medically Needy Account is the only tobacco fund that currently offsets General Fund. It is anticipated to account for (\$5.6 million) of the reduction in tobacco tax revenues and a corresponding increase in the General Fund.

The Proposition 204 program, passed in 2000 to expand eligibility to 100% of the Federal Poverty Level (FPL), receives its State match from Tobacco Tax revenues and monies received from tobacco companies as a result of the 1998 Master Settlement Agreement, which are supplemented by (a) an assessment on hospital discharges for the acute care portion of Prop. 204 and (b) the General Fund for the behavioral health services portion of Prop. 204. The only tobacco-related fund used for Prop. 204 that is subject to Legislative appropriation is the Tobacco Products Tax Fund, which is forecast to bring in (\$1.7 million) less revenue than in the FY 2018 appropriation. It should be noted that the non-appropriated tobacco Master Settlement Agreement payment is estimated to bring in \$87 million in FY 2018 and again in FY 2019, which is \$8 million more per year than was forecast in generating the FY 2018 appropriation.

Also included is funding for the KidsCare program, which provides insurance for children in families with incomes above the limit for Medicaid eligibility but below 200% of the Federal Poverty Level. KidsCare eligibility was frozen from January 1, 2010, until the lifting of the freeze on September 1, 2016, by Laws 2016, Ch. 112. As a result, KidsCare enrollment is expected to grow significantly in FY 2018 and FY 2019, hitting 42,100 by October 2018, when growth is expected to moderate to a 3% annual rate. The Affordable Care Act provides Arizona with a 100% federal match for KidsCare through September 30, 2019. This funding is received in and expended from the appropriated Children's Health Insurance Program (CHIP) Fund, which includes both member premiums and the federal match.

Funding	FY 2019
General Fund	71,013.5
Tobacco Tax and Health Care Fund	(5,584.3)
Tobacco Products Tax Fund	(1,708.8)
Children's Health Insurance Program Fund	2,260.4
Budget Neutrality Compliance Fund	132.9
Issue Total	66,113.7

Remove Prop 206 Report Funding

The Executive Budget includes a decrease in funding for removal of an FY 2018 one-time \$200,000 Prescription Drug Rebate Fund appropriation.

These funds were appropriated for contracting costs associated with the preparation of a report, due on or before February 1, 2018, on the effects of the Proposition 206 minimum wage increase on the adequacy of the AHCCCS provider network.

Funding	FY 2019
Prescription Drug Rebate Fund	(200.0)
Issue Total	(200.0)

Adjustments for risk management charges and retirement contributions for this agency are not incorporated into the totals shown here. They are listed separated with adjustments for all state agencies immediately following the Capital Projects section. Funding for these adjustments is included as part of the total Executive Budget.

The Executive Budget provides a lump-sum appropriation by program with special lines.

Commission on the Arts

Through the Arts Commission, the State of Arizona and the National Endowment for the Arts make strategic investments of public dollars to support the statewide arts and culture sector, helping Arizona communities to attract and retain skilled workers and creative businesses. This public investment leverages additional contributions from the private sector, increasing the sustainability of Arizona's arts and culture sector and promoting statewide economic growth.

The Executive recommends no appropriation for this agency.

Board of Athletic Training

The Board of Athletic Training is a regulatory board, which issues and annually renews approximately 600 licenses for the athletic training profession and continues to monitor 275 closed licenses. By law, the Board requires that each applicant meet minimum standards of education, experience, and competency. The Board also receives and investigates complaints, takes appropriate disciplinary action, and responds to inquiries from consumers as to the license status of individual athletic training professionals.

Other Appropriated Funds	110.6	120.6	3.0	123.6
Agency Total	110.6	120.6	3.0	123.6

Major Executive Budget Initiatives and Funding

E-Licensing Ongoing Costs

The Executive Budget includes an increase in funding for the Board's share of ongoing operating costs associated with the new e-licensing system that was established in FY 2018 and will be used by 14 agencies. The system is expected to provide a fast and efficient online experience for applicants and licensees.

The Board will begin using the e-licensing system in early 2018. The Board will pay annual licensing costs for the online platforms on which the e-licensing system is built and will share the services of a full-time system administrator at the Department of Administration.

Funding	FY 2019
Athletic Training Fund	6.8
Issue Total	6.8

Relocation to 1740 West Adams

The Executive Budget includes an increase in funding for the Board's new shared services costs associated with relocating to the State-owned building at 1740 W. Adams St. in Phoenix, and a decrease in funding for private rental payments. The funding associated with this issue does not reflect the increase for State rental payments, which appears in the Statewide Adjustment section. The Board's funding issue below results in a net decrease in costs. The Board will relocate by the end of January 2018.

Twenty-six boards and commissions are moving to the new location, which is designed to operate more efficiently than the agencies' previous spaces. The expected savings in rent and shared services across all 26 agencies is estimated to be \$349,500.

In an effort to consolidate services for those agencies, the new location will feature shared conference rooms and other common spaces and shared contracts for Wi-Fi services, building security, and conference room phones, costing a total of \$150,900 for all of the tenant agencies. Additionally, 21 of the agencies will share 1.0 FTE receptionist position on the first floor of the building.

In FY 2019, the Board will spend \$1,400 for shared services costs such as Wi-Fi and security, compared to \$0 for any similar services at its previous location. New funding is required to cover the \$1,400 increase.

Also, the Board will no longer be paying \$5,200 in rent to a private landlord. The Board's rent costs for the new State-owned space of \$3,300 appears in the Statewide Adjustments section.

The amount specified below includes an increase of \$1,400 for new shared services, offset by a decrease of \$(5,200) for private rental payments, yielding a net change of \$(3,800).

Funding	FY 2019
Athletic Training Fund	(3.8)
Issue Total	(3.8)

Adjustments for risk management charges and retirement contributions for this agency are not incorporated into the totals shown here. They are listed separated with adjustments for all state agencies immediately following the Capital Projects section. Funding for these adjustments is included as part of the total Executive Budget.

The Executive Budget provides a lump-sum appropriation to the agency.

Attorney General - Department of Law

The Attorney General is a constitutionally established, elected position and holds office for a four-year term. The Attorney General is the legal advisor to all state agencies, boards and commissions, except those few exempted by law. Other primary responsibilities include prosecuting and defending proceedings in which the state has an interest and rendering written opinions upon questions of law.

To fulfill these responsibilities, the Department of Law is divided into legal services and administrative operations. The legal divisions are the Child and Family Protection Division, Civil Litigation Division, Criminal Division, Solicitor General's Office, and the State Government Division. Each division is further organized into sections that specialize in a particular area of practice. Two divisions are primarily responsible for administrative operations, the Operations Division and the Communications Division.

Legal, policy, administrative and support functions are coordinated and promoted by the Executive Office.

Non-Appropriated Funds	61,563.5	68,785.9	0.0	68,785.9
Agency Total	125,734.1	141,344.0	2,931.5	144,275.5

Major Executive Budget Initiatives and Funding

Case Management IT System Upgrade & Licensing Compliance

The Executive Budget includes an increase in funding for upgrades to the Attorney General's Office (AGO) Case Management System (CMS), to expand the AGO's case capacity.

The Case Management System is critical for the AGO. It handles a wide variety of matters, including civil litigation and advice for State agency clients; civil enforcement of antitrust, civil rights, environment, and consumer protection laws; debt collection; criminal prosecution; and tracking child-prosecution cases in support of the Department of Child Safety. The civil cases are tracked from pre-filing work to satisfaction of judgment, and the criminal cases from investigation to evidence gathering and tracking, issuing arrest warrants, notifying victims, trial, sentencing, completion of sentence, and monitoring for compliance with community-supervision requirements.

The AGO uses software that is no longer supported by the vendor, and there is no maintenance agreement in place to provide assistance should the system fail. In addition, this version of the system will not be stable when AGO moves from Windows 7 to Windows 10.

Funding includes \$937,500 for infrastructure, \$290,100 for legal files support and maintenance, \$200,000 for system configuration and training, and \$61,400 for project contingency. The system will have an annual ongoing maintenance cost of \$456,300 beginning in FY 2020.

Arizona Strategic Enterprise Technology (ASET) has approved the system and is working with the AGO throughout the system-upgrade and license-compliance process.

The funding for this project appears in the Department of Administration section.

Funding	FY 2019
Consumer Restitution and Remediation Revolving Fund	1,489.0
Issue Total	1,489.0

Criminal Division Resources - Border Crimes Section

The Executive Budget includes an increase in funding for 4.0 FTE positions in the Border Crimes Section (BCS).

The new positions consist of 2.0 FTE prosecutors, 1.0 FTE paralegal, and 1.0 FTE legal secretary. Each prosecutor will handle an estimated 25-40 felony cases per year.

BCS prosecutes all cases within the Attorney General's statutory jurisdiction for southern Arizona, primarily focusing on complex white-collar and criminal enterprise crimes. During FY 2017, BCS was unable to complete 63 cases against 151 defendants because attorneys were overloaded with existing cases.

Several factors have contributed to an increased caseload for BCS and the current backlog.

County attorney offices in southern Arizona are referring more cases to BCS, particularly difficult cases involving public corruption.

Additionally, because the U.S. Attorney's Office in Tucson has dedicated more resources to immigration-related cases, many federal agencies have opted to present complex investigations to BCS for state prosecution.

Finally, the Department of Public Safety (DPS) obtained funding for 48 positions for a Border Strike Force (BSF) to combat border-related crimes in FY 2017, and DPS requested BCS's expertise to plan and prosecute cases, particularly involving drug trafficking. One notable example of interagency coordination in FY 2017 included the BCS prosecution of 69 narcotics backpackers in Pima County.

Funding	FY 2019
General Fund	481.2
Issue Total	481.2

Expanding the Consumer Protection Unit

The Executive Budget includes an increase in funding for 8.0 FTE positions to allow the Attorney General to take on additional consumer fraud cases.

The new positions consist of 5.0 FTE attorneys, 2.0 FTE paralegals, and 1.0 FTE legal secretary.

Laws 2016, Chapter 35 created the Government Accountability and Special Litigation Unit (GASL). The legislation requires the Attorney General, at the request of a Legislator, to investigate local ordinances and policies that contravene State law. No funding was provided for the AGO to carry out the new law. The AGO shifted resources from the Consumer Protection Unit in order to comply with the new legislation and to ensure that Legislator requests are investigated.

Funding	FY 2019
Consumer Protection/Fraud Revolving Fund	961.3
Issue Total	961.3

Adjustments for risk management charges and retirement contributions for this agency are not incorporated into the totals shown here. Major Executive Budget Initiatives and Funding

E-Licensing Ongoing Costs

The Executive Budget includes an increase in funding for the Board's share of ongoing operating costs associated with the new e-licensing system that was established in FY 2018 and will be used by 14 agencies. The system is expected to provide a fast and efficient online experience for applicants and licensees.

The Board will begin using the e-licensing system in early 2018. The Board will pay annual licensing costs for the online platforms on which the e-licensing system is built and will share the services of a full-time system administrator at the Department of Administration.

Funding	FY 2019
Board of Barbers Fund	41.0
Issue Total	41.0

Relocation to 1740 West Adams

The Executive Budget includes an increase in funding for the Board's new shared services costs associated with relocating to the State-owned building at 1740 W. Adams St. in Phoenix. The funding associated with this issue does not reflect the change in State rental payments, which appears in the Statewide Adjustments section. The Board's funding issue below results in a net increase in costs. The Board will relocate by the end of January 2018.

Twenty-six boards and commissions are moving to the new location, which is designed to operate more efficiently than the agencies' previous spaces. The expected savings in rent and shared services across all 26 agencies is estimated to be \$349,500.

In an effort to consolidate services for those agencies, the new location will feature shared conference rooms and other common spaces and shared contracts for Wi-Fi services, building security, and conference room phones, costing a total of \$150,900 for all of the tenant agencies. Additionally, 21 of the agencies will share 1.0 FTE receptionist position on the first floor of the building.

In FY 2019, the Board will spend \$5,300 for shared services costs such as Wi-Fi and security, compared to \$600 for any similar services at its previous location. New funding is required to cover the \$4,700 increase.

At the previous State-owned space, the agency paid \$12,500 for rent. At the new space, the agency will pay \$19,400. The change in the agency's rental payments of \$6,900 appears in the Statewide Adjustments section.

Board of Behavioral Health Examiners

The Board licenses and biennially renews licensure for approximately 10,000 behavioral health professionals, requiring these professionals to meet minimum standards of education, experience, and competency, as measured by examination. The Board also receives and investigates complaints, takes necessary disciplinary action, and responds to inquiries from consumers regarding the licensure status and complaint history of individual behavioral health professionals.

Major Executive Budget Initiatives and Funding

E-Licensing Development Costs

The Executive Budget includes an increase in funding for the Board's share of development costs to be included in the new e-licensing system that will be used by 14 boards in FY 2018. The Board will begin using the system in FY 2019. The Board is using outdated software or paper records to manage their licenses. The new system is more secure than agency-developed applications and will provide a fast and efficient online experience for customers.

The funding for this project appears in the Department of Administration section.

Funding	FY 2019
Behavioral Health Examiners Fund	0.0
Issue Total	0.0

Relocation to 1740 West Adams

The Executive Budget includes an increase in funding for the Board's new shared services costs associated with relocating to the State-owned building at 1740 W. Adams St. in Phoenix, and a decrease in funding for private rental payments. The funding associated with this issue does not reflect the increase for State rental payments, which appears in the Statewide Adjustment section. The Board's funding issue below results in a net decrease in costs. The Board will relocate by the end of January 2018.

Twenty-six boards and commissions are moving to the new location, which is designed to operate more efficiently than the agencies' previous spaces. The expected savings in rent and shared services across all 26 agencies is estimated to be \$349,500.

In an effort to consolidate services for those agencies, the new location will feature shared conference rooms and other common spaces and shared contracts for Wi-Fi services, building security, and conference room phones, costing a total of \$150,900 for all of the tenant agencies. Additionally, 21 of the agencies will share 1.0 FTE receptionist position on the first floor of the building.

In FY 2019, the Board will spend \$17,200 for shared services costs such as Wi-Fi and security, compared to \$600 for any similar services at its previous location. New funding is required to cover the \$16,600 increase.

Also, the Board will no longer be paying \$99,000 in rent to a private landlord. The Board's rent costs for the new State-owned space of \$68,300 appears in the Statewide Adjustments section.

The amount specified below includes an increase of \$16,600 for new shared services, offset by a decrease of \$(99,000) for private rental payments, yielding a net change of \$(82,400).

Board for Charter Schools

The Arizona State Board for Charter Schools sponsors and regulates charter schools. The Board oversees the academic and operational compliance of charter holders and reviews the fiscal viability of the schools. The Board also continuously reviews applications for new and replication charter schools as well as renewal applications for existing schools.

The Executive Budget provides a lump-sum appropriation to the agency.

Department of Child Safety

The Department of Child Safety (DCS) is Arizona's State-administered child welfare services agency. DCS provides child abuse and neglect investigations; child safety and risk assessments; family support, preservation, and reunification services; family foster care and kinship care services; services to promote the safety, permanence, and well-being of children with foster and adoptive families; adoption promotion and support services; and health care services for children in out-of-home care.

The Department of Child Safety's primary purpose is to protect children. To achieve this purpose, the Department shall accomplish the following in equal priority:

- Investigate reports of child abuse and neglect.
- Assess, promote and support the safety of a child in a safe and stable family or other appropriate placement.
- Work cooperatively with law enforcement regarding reports that include criminal conduct allegations.
- Without compromising child safety, coordinate services to achieve permanency on behalf of the child, strengthen the family and provide prevention, intervention and treatment for abuse and neglected children.

Agency Budget Summary

	FY 2017 Actual	FY 2018 Exp. Plan	FY 2019 Net Change	FY 2019 Exec. Bud.
General Fund	348,563.9	379,790.8	8,837.6	388,628.4
Other Appropriated Funds	463,534.3	596,151.1	24,928.6	621,079.7
Agency Total	812,098.2	975,941.9	33,766.2	1,009,708.1

Major Executive Budget Initiatives and Funding

Consolidating Special Line Items

The Executive Budget consolidates a number of Special Line Items (SLIs) into DCS' operating lump sum appropriation or combines SLIs together to improve flexibility and efficiency and maintain a coherent budget structure.

The SLIs that will be consolidated into the operating lump sum appropriation include: Records Retention, General Counsel, and Retention Pay. The Overtime SLI will be consolidated into the Caseworker SLI.

The increased efficiencies will free up \$2 million in ongoing expenditure authority.

Funding	FY 2019
General Fund	0.0
Temporary Assistance for Needy Families (TANF) Fund	0.0
DCS Expenditure Authority	(2,012.6)
Issue Total	(2,012.6)

Executive Budget Baseline Changes

Adoption Services

The Executive Budget includes an increase and shift in funding to fully fund Adoption Services for the increasing

population of adopted children. Funding will be comprised of shifting \$7 million from the Out of Home Placement SLI to Adoption Services SLI, \$8.8 million from the General Fund, and \$25.6 million in expenditure authority.

The Adoption Services program supports the DCS' efforts to provide permanent adoptive placements for children in state care. Funding for the program covers adoption home recruitment costs, expenses related to the legal process of adoption, and maintenance and special services subsidies for adoptive families.

The number of children receiving adoption subsidies is increasing as DCS successfully and safely reduces the out-of-home population and increases the number of children being adopted each year. DCS will continue to pay adoption subsidies of \$700 on average per month for each child adopted until that child reaches adulthood. In FY 2017, year-over-year caseload growth averaged 11.4%, well above the 9.6% projection in the FY 2018 Executive Budget, with 25,879 children receiving adoption subsidies at the end of the year. The adoption caseload is projected to grow by 13.5% in FY 2018 and 14.0% in FY 2019.

Funding	FY 2019
General Fund	8,837.6
DCS Expenditure Authority	25,642.4
Issue Total	34,480.0

CHILDS Replacement: Guardian

The Executive Budget transfers \$9.5 million from the General Fund to the Automation Projects Fund for replacement of DCS's child welfare data system. This amount does not include \$5 million from the General Fund in DCS's baseline budget that is also appropriated for the Guardian IT project.

To replace its archaic Children's Information Library and Data Source (CHILDS) system, the State is developing the Guardian information management system, which is expected to be completed in FY 2020. Guardian will be a secure cloud-based system that employs mobile technology to assist with key agency functions, including intake processing, case management, provider management, and financial management. DCS has completely implemented Guardian's mobile solution component, which allows caseworkers, while working off-site, to use a mobile tablet to take pictures, complete forms, run background checks, review and enter reports, and access other information management tools.

In FY 2019, DCS will complete Guardian's platform development, hosting environment, continuing business integration, document management, technical integration, and quality management.

The funding for this project appears in the Department of Administration section.

Funding	FY 2019
General Fund	0.0
Issue Total	0.0

Litigation Costs

The Executive Budget includes an increase in funding to fully fund DCS' litigation costs such as attorneys' fees, expert witness fees, and discovery costs.

Given the unpredictability of litigation timelines, these funds and any remaining funds from the FY 2018 appropriation will be made non-lapsing through FY 2020.

In FY 2017, DCS hired outside legal counsel to defend it against the class-action lawsuit B.K. v. McKay. The FY 2018 budget included a one-time funding of \$2.5 million from the Risk Management revolving fund. DCS plans to fully expend those monies by FY 2019.

Funding	FY 2019
Risk Management Fund	3,770.0
Issue Total	3,770.0

Remove One-Time FY 2018 Appropriation

The Executive Budget includes a decrease in one-time FY 2018 funding litigation costs.

Funding	FY 2019
Risk Management Fund	(2,471.2)
Issue Total	(2,471.2)

Adjustments for risk management charges and retirement contributions for this agency are not incorporated into the totals shown here. They are listed separated with adjustments for all state agencies immediately following the Capital Projects section. Funding for these adjustments is included as part of the total Executive Budget.

The Executive Budget provides a lump-sum appropriation to the agency with special lines.

Board of Chiropractic Examiners

The Board conducts examinations and evaluates applications from chiropractors seeking initial licensure, renewal of licensure, and from persons seeking participation in Board-approved preceptorship or chiropractic assistant programs. The Board investigates complaints made against chiropractors, and conducts administrative hearings as required. The Board provides information to the public concerning applicants, licensees, and regulatory actions taken.

Major Executive Budget Initiatives and Funding

Relocation to 1740 West Adams

The Executive Budget includes an increase in funding for the Board's new shared services costs associated with relocating to the State-owned building at 1740 W. Adams St. in Phoenix, and a decrease in funding for private rental payments. The funding associated with this issue does not reflect the increase for State rental payments, which appears in the Statewide Adjustment section. The Board's funding issue below results in a net decrease in costs. The Board will relocate by the end of January 2018.

Twenty-six boards and commissions are moving to the new location, which is designed to operate more efficiently than the agencies' previous spaces. The expected savings in rent and shared services across all 26 agencies is estimated to be \$349,500.

In an effort to consolidate services for those agencies, the new location will feature shared conference rooms and other common spaces and shared contracts for Wi-Fi services, building security, and conference room phones, costing a total of \$150,900 for all of the tenant agencies. Additionally, 21 of the agencies will share 1.0 FTE receptionist position on the first floor of the building.

In FY 2019, the Board will spend \$4,800 for shared services costs such as Wi-Fi and security, compared to \$1,400 for any similar services at its previous location. New funding is required to cover the \$3,400 increase.

Also, the Board will no longer be paying \$47,600 in rent to a private landlord. The Board's rent costs for the new State-owned space of \$16,300 appears in the Statewide Adjustments section.

The amount specified below includes an increase of \$3,400 for new shared services, offset by a decrease of \$(47,600) for private rental payments, yielding a net change of \$(44,200).

Citizens' Clean Elections Commission

The Citizens Clean Elections Act (Act) is a campaign finance reform measure initiated by Arizona Citizens and passed by voters in 1998. The Act provides for campaign financing for qualified candidates, enhanced campaign finance enforcement and reports for state and legislative candidates and independent expenditures. The Act also provides for voter and public education, including the sponsorship of debates and the publication of the primary and general election candidate statement pamphlets. The Act is administered and enforced by the Citizens Clean Elections Commission.

Agency Budget Summary

	FY 2017 Actual	FY 2018 Exp. Plan	FY 2019 Net Change	FY 2019 Exec. Bud.
General Fund	54,312.7	55,086.5	1,069.6	56,156.1
Agency Total	54,312.7	55,086.5	1,069.6	56,156.1

Executive Budget Baseline Changes

Equalization Aid Formula Funding

The Executive Budget includes an increase in funding for Equalization Aid to Cochise, Graham, and Navajo counties by \$441,600, \$492,900, and \$238,700, respectively.

The Equalization Aid formula established in A.R.S. § 15-1468 supports community college districts that have an insufficient property tax base compared to the minimum assessed value as described in A.R.S. § 15-1402.

Funding	FY 2019
General Fund	1,173.2
Issue Total	1,173.2

Operating State Aid Formula Funding

The Executive Budget includes a decrease in funding for Operating State Aid to community colleges.

The Operating State Aid formula established in A.R.S. § 15-1466 is based on each community college district's enrollment change from the previous year. In FY 2017, full-time equivalent student enrollment declined by (543) students, generating a reduction in Operating State Aid.

Funding	FY 2019
General Fund	(102.5)
Issue Total	(102.5)

STEM Formula Funding

The Executive Budget includes a decrease in funding for STEM and Workforce Program State Aid to community colleges.

The Science, Technology, Engineering, and Mathematics (STEM) and Workforce Program State Aid formula established in A.R.S. § 15-1464 is based on the change in each community college district's enrollment from the previous year. In FY 2017, full-time equivalent student enrollment declined by (543) students, generating a reduction in the STEM and Workforce Program State Aid.

Funding	FY 2019
General Fund	(1.1)
Issue Total	(1.1)

Adjustments for risk management charges and retirement contributions for this agency are not incorporated into the totals shown here. They are listed separated with adjustments for all state agencies immediately following the Capital Projects section. Funding for these adjustments is included as part of the total Executive Budget.

Full-Time Equivalent Student Enrollment

Agency Expenditures

(in \$1,000s)

GF

In FY 2012, there was a total operating expenditure reduction of (6.2)% allocated across the Community College system, reflected here in the reduction between General Fund expenditures in FY 2011 and FY 2012.

Corporation Commission

The Corporation Commission is composed of five elected Commissioners. Staffing is provided in nine divisions, each headed by a Division Director serving under the Commission's Executive Director, who is the Chief Executive Officer and responsible for the day-to-day operations of the divisions. The Commission's primary responsibilities are established in the State Constitution and in State Law. They include reviewing and establishing public utility rates, regulating the sale of securities, ensuring pipeline and railroad safety, and serving as the repository of corporate and LLC business entity filings in accordance with state law.

The Executive Budget provides a lump-sum appropriation to the agency with special lines.

Department of Corrections

The Department serves and protects the people of the State of Arizona by incarcerating inmates in correctional facilities and supervising conditionally released offenders in the community. During incarceration, welfare and health care services, including medical, dental, and mental health, are provided to inmates. In addition, structured programming including work, education, career training, substance abuse treatment, sex offender treatment, spiritual services, and recreation is provided to inmates to promote employability, literacy, sobriety, and accountability to crime victims and to increase the likelihood that inmates will become law-abiding citizens upon release. In the community, the Department supervises offenders released from prison to serve the remainder of their sentence on community supervision. The Department ensures the accurate release, effective re-entry, transition, and supervision of released offenders utilizing a continuum of supervision services, strategies, evidence-based programs, and meaningful incentives and sanctions. The Department also facilitates the swift return to custody of those offenders who violate conditions of supervision and who represent a serious threat to the safety of the community.

Agency Total	1,130,473.5	1,198,419.9	23,724.6	1,222,144.5

Major Executive Budget Initiatives and Funding

Private Prison Capacity Cap

The Executive Budget includes a reduction in the Private Prison SLI to account for a declining inmate population.

The Kingman and Red Rock prison complexes are operated by private prison contractors. As part of the contract for operating the prison, the State is obligated to pay for 97% of those prisons' available bed space. Leaving the remaining 3% vacant for the duration of FY 2019 will generate roughly \$2.8 million in combined savings for the Kingman and Red Rock facilities.

Funding	FY 2019
General Fund	(2,810.4)
Issue Total	(2,810.4)

Inmate Education Expansion

The Executive Budget includes an increase in funding for 9.0 FTE Correctional Education Teacher positions and 1.0 FTE Administrative Services Officer II position to expand inmate education capacity inside ADC.

A key component of meeting ADC's goal of lowering recidivism by 25% over the next 10 years is to expand programming and educational opportunities for inmates.

Many inmates are released from Arizona prisons each year without a high school diploma or a GED. During FY 2017, approximately 2,600 of the 18,964 inmates released from prison did not have a high school diploma or GED, even though they met all of the criteria to participate in correctional education in prison, simply due to a lack of class availability.

Funding	FY 2019
Inmate Store Proceeds Fund	954.1
State Charitable, Penal & Reformatory Land Earnings Fund	418.0
Issue Total	1,372.1

Substance Abuse Treatment Expansion

The Executive Budget includes an increase in funding for an additional 13.0 FTE Substance Abuse Counselor positions and 2.0 FTE Program Manager positions to expand substance abuse treatment availability for inmates.

During FY 2017, ADC released 18,964 inmates. Approximately 82%, or 15,564, of these inmates were assessed as needing substance abuse treatment. ADC treatment, contracted, and private prison staff treated and graduated 2,235 inmates from a primary treatment group. Current program resources meet only 14% of the treatment need.

In addition, offenders returning to prison due to technical violations are often directly related to substance abuse issues. In FY 2017, 48% of warrants issued by community corrections officers for technical violations were due to drug- and alcohol-related violations.

Funding	FY 2019
Transition Program Fund	540.0
Issue Total	540.0

Employment Center Expansion

The Executive Budget includes an increase in funding for 4.0 FTE Correctional Officer III positions, 1.0 FTE Employment Center Program Manager, and 4.0 FTE Department of Economic Security Employment Specialists to expand the Lewis Employment Center.

ADC operates a 100-bed Employment Center inside the Lewis Sunrise Unit and a 40-bed Employment Center inside the Perryville Piestewa Unit. The program has shown impressive results in terms of connecting inmates with post-release employment and social services.

This investment would allow the Lewis Employment Center to increase bed capacity from 100 to 275 and the Perryville Employment Center to increase bed capacity from 40 to 60.

Funding	FY 2019
Transition Program Fund	444.9
Issue Total	444.9

Executive Budget Baseline Changes

Inmate Health Care SLI Funding Adjustment

The Executive Budget includes an increase in funding to pay for higher costs of providing health care services to

inmates.

ADC contracts with Corizon for inmate health care services. The contract ends June 30, 2018. In September 2016, ADC released a request for proposal (RFP) for a new five-year contract and received responses from two companies. The RFP is still under evaluation.

Funding	FY 2019
General Fund	30,000.0
Issue Total	30,000.0

Adjustments for risk management charges and retirement contributions for this agency are not incorporated into the totals shown here. They are listed separated with adjustments for all state agencies immediately following the Capital Projects section. Funding for these adjustments is included as part of the total Executive Budget.

The Executive Budget provides a lump-sum appropriation to the agency.

Board of Cosmetology

The Board of Cosmetology issues 12 categories of licenses to salons, schools, and individuals who qualify by reciprocity or through the administration of a written and practical examination. The Board enforces regulation by routine health and safety inspections of salons and schools, investigates consumer complaints, conducts hearings, and imposes enforcement action when appropriate. The Board also establishes health and safety standards, educational and curriculum standards and oversight, and provides monthly classes on infection control and law and regulation practices for the general licensing population by registration. Furthermore, the Board offers electronic services to customers to increase efficiency and reduce the demands on full-time staff.

Major Executive Budget Initiatives and Funding

One-Time Document Scanning

The Executive Budget includes an increase in one-time funding for document scanning services as part of a broader effort to move licensing and license renewal processes online.

The digitization of records aligns with the State's initiative for agencies to conduct business electronically when circumstances allow. The Board plans to engage the State's e-licensing vendor in FY 2019 to migrate licensing data to the chosen platform. The funding will pay a contracted service to prepare the documents, scan the documents into searchable digital files, and securely dispose of the original paper copies.

Funding	FY 2019
Cosmetology Board Fund	75.0
Issue Total	75.0

E-Licensing Development Costs

The Executive Budget includes an increase in funding for the Board's share of development costs to be included in the new e-licensing system that will be used by 14 boards in FY 2018. The Board will begin using the system in FY 2019. The Board is using outdated software or paper records to manage their licenses. The new system is more secure than agency-developed applications and will provide a fast and efficient online experience for customers.

The funding for this project appears in the Department of Administration section.

Funding	FY 2019
Cosmetology Board Fund	0.0
Issue Total	0.0

Relocation to 1740 West Adams

The Executive Budget includes an increase in funding for the Board's new shared services costs associated with

relocating to the State-owned building at 1740 W. Adams St. in Phoenix, and a decrease in funding for private rental payments. The funding associated with this issue does not reflect the increase for State rental payments, which appears in the Statewide Adjustment section. The Board's funding issue below results in a net decrease in costs. The Board will relocate by the end of January 2018.

Twenty-six boards and commissions are moving to the new location, which is designed to operate more efficiently than the agencies' previous spaces. The expected savings in rent and shared services across all 26 agencies is estimated to be \$349,500.

In an effort to consolidate services for those agencies, the new location will feature shared conference rooms and other common spaces and shared contracts for Wi-Fi services, building security, and conference room phones, costing a total of \$150,900 for all of the tenant agencies. Additionally, 21 of the agencies will share 1.0 FTE receptionist position on the first floor of the building.

In FY 2019, the Board will spend \$15,000 for shared services costs such as Wi-Fi and security, compared to \$0 for any similar services at its previous location. New funding is required to cover the \$15,000 increase.

Also, the Board will no longer be paying \$126,900 in rent to a private landlord. The Board's rent costs for the new State-owned space of \$82,700 appears in the Statewide Adjustments section.

The amount specified below includes an increase of \$15,000 for new shared services, offset by a decrease of \$(126,900) for private rental payments, yielding a net change of \$(111,900).

Funding	FY 2019
Cosmetology Board Fund	(111.9)
Issue Total	(111.9)

Adjustments for risk management charges and retirement contributions for this agency are not incorporated into the totals shown here. They are listed separated with adjustments for all state agencies immediately following the Capital Projects section. Funding for these adjustments is included as part of the total Executive Budget.

The Executive Budget provides a lump-sum appropriation to the agency with special lines.

Schools for the Deaf and the Blind

The Arizona State Schools for the Deaf and Blind (ASDB) provide education and evaluation to children and youths, with a vision or hearing loss, from birth to 22 years of age. School age children are served either in one of the schools located in Tucson or Phoenix, or in their home district. The Tucson campus provides a residential program. Regional Cooperative provides infants and toddlers with vision or hearing loss, with services in their home throughout the state. ASDB also provides comprehensive evaluation services for some children referred with multiple disabilities.

Agency Total	51,724.5	53,532.8	2,070.0	55,602.8

Major Executive Budget Initiatives and Funding

Early Childhood Identification and Services

The Executive Budget includes an increase in funding for the Arizona Schools for the Deaf and Blind (ASDB) Birth to Three program, to double – from two to four – the number of monthly home visits provided to infants and toddlers.

Recent clinical studies indicate that early detection of hearing loss, followed by appropriate intervention, reduces the need for extensive services during school-age years and reduces the financial burden to the State.

The \$2.07 million in additional funding, \$470,000 of which is one-time funding, will enable ASDB to hire 21 additional early-intervention specialists necessary to achieve the 100% increase in home visits.

The Birth to Three program serves approximately 450 infants and toddlers (birth to age 3) who are deaf, hard of hearing, blind, or visually impaired. The program is staffed by certified early-intervention specialists who provide support to families in understanding their child's vision or hearing loss, as well as the potential impact of that loss on their child's development.

At its present size, the program staff is unable to conduct enough monthly visits due to the large number of children in the program and significant travel requirements. Also, the current staff is forced to prioritize visits within the nearest travel distance in order to visit the most children. This funding will enable rural children to receive the same level of visits as their urban counterparts.

Funding	FY 2019
Telecom for the Deaf Fund	2,070.0
Issue Total	2,070.0

The Executive Budget provides a lump-sum appropriation by program.

Commission for the Deaf and the Hard of Hearing

The Arizona Commission for the Deaf and the Hard of Hearing (ACDHH) acts as an information bureau for the Deaf, Hard of Hearing, Deaf Blind, and individuals with speech difficulties. The Commission works with state agencies, local government and other public and private community agencies to educate staff to better provide services to their Deaf, Hard of Hearing, and Deaf Blind consumers. ACDHH administers a telecommunications equipment distribution voucher program that loans equipment to qualified Arizona residents. The Arizona Relay Service (7-1-1), which allows equal accessibility of public telephone service, is also administered by the Commission. The relay service is required by the Federal Communications Commission. ACDHH is also mandated to license American Sign Language interpreters and certify American Sign Language teachers.

Board of Dental Examiners

The State Board of Dental Examiners examines, licenses, certifies professionals to practice in the field of dentistry, registers business entities providing dental services and permits mobile dental facilities. The Board also accepts complaints against licensees, certificate holders, business entities and mobile dental facilities, investigates allegations, and administratively adjudicates complaints. The Board regulates approximately 9,700 business entities and professionals licensed or certified to practice in the state, as well as serves all Arizona citizens who receive their professional services.

Major Executive Budget Initiatives and Funding

One-Time Document Scanning

The Executive Budget includes an increase in one-time funding for document scanning services as part of a broader effort to move licensing and license renewal processes online.

The digitization of records aligns with the state's initiative for agencies to conduct business electronically when circumstances allow. The Board plans to engage the state's e-licensing vendor in FY 2019 to migrate licensing data to the chosen platform. The funding will pay a contracted service to prepare the documents, scan the documents into searchable digital files, and securely dispose of the original paper copies.

Funding	FY 2019
Dental Board Fund	87.8
Issue Total	87.8

Relocation to 1740 West Adams

The Executive Budget includes an increase in funding for the Board's new shared services costs associated with relocating to the State-owned building at 1740 W. Adams St. in Phoenix, and a decrease in funding for private rental payments. The funding associated with this issue does not reflect the increase for State rental payments, which appears in the Statewide Adjustment section. The Board's funding issue below results in a net decrease in costs. The Board will relocate by the end of January 2018.

Twenty-six boards and commissions are moving to the new location, which is designed to operate more efficiently than the agencies' previous spaces. The expected savings in rent and shared services across all 26 agencies is estimated to be \$349,500.

In an effort to consolidate services for those agencies, the new location will feature shared conference rooms and other common spaces and shared contracts for Wi-Fi services, building security, and conference room phones, costing a total of \$150,900 for all of the tenant agencies. Additionally, 21 of the agencies will share 1.0 FTE receptionist position on the first floor of the building.

In FY 2019, the Board will spend \$11,000 for shared services costs such as Wi-Fi and security, compared to \$600

for any similar services at its previous location. New funding is required to cover the \$10,400 increase.

Also, the Board will no longer be paying \$61,500 in rent to a private landlord. The Board's rent costs for the new State-owned space of \$34,300 appears in the Statewide Adjustments section.

The amount specified below includes an increase of \$10,400 for new shared services, offset by a decrease of \$61,500 for private rental payments, yielding a net change of \$(51,100).

The Executive Budget provides a lump-sum appropriation to the agency.

Early Childhood Development and Health Board

The Arizona Early Childhood Development and Health Board is a voter approved initiative to ensure the quality and accessibility of early childhood development and health programs at the community level. Proposition 203 created the Arizona Early Childhood Development and Health Board, which provides oversight and guidance on the implementation of the Proposition. The Board is more commonly known as First Things First.

First Things First establishes Regional Partnership Councils throughout the state. Each Regional Council is funded based on the number of children ages birth to five years living in the area, as well as the number of young children whose family's incomes do not exceed 100% of the federal poverty level. Programs funded through First Things First may be conducted either by grantees in the region or directly by the Regional Partnership Council. First Things First receives revenues from an additional tax levied on tobacco products.

Department of Economic Security

The Department of Economic Security (DES or Department) is an integrated human services agency that provides critical opportunity, assistance, and care for approximately two million Arizonans. Across its 40 programs, DES employees seek to serve fellow Arizonans with integrity, humility, and kindness.

More specifically, DES works with job creators to provide employment assistance, including vocational rehabilitation for individuals with physical or mental impairment and job training for economically disadvantaged adults and youth. Eligible working parents receive child care assistance. The Department manages the Unemployment Insurance Program, including collecting taxes and providing benefits.

DES provides temporary assistance and services that support Arizonans' goals of obtaining greater self-sufficiency. DES provides children with food, health care, and parental financial support; services to individuals with disabilities; and protection for the vulnerable by investigating allegations of abuse, neglect, and exploitation. DES operates with fiscal discipline and actively identifies and prosecutes fraudulent receipt of benefits.

The Department provides safety net services to victims of domestic violence; individuals experiencing homelessness and hunger; families needing assistance with utility bills; and vulnerable adults who are victims of abuse, neglect, and exploitation. The Department assists individuals and families by determining eligibility for temporary cash assistance, nutritional assistance, Medicaid, Social Security Disability Insurance (SSDI), and Supplemental Security Income (SSI). In addition, DES provides support to newly arrived refugees.

The Department provides early intervention services for infants and toddlers with developmental delays and home and community-based services for clients with intellectual and developmental disabilities. The Department assists parents in receiving child support payments by locating absent parents, establishing paternity, establishing the legal obligation to pay, and evaluating the absent parent's ability to pay.

Major Executive Budget Initiatives and Funding

Consolidate Special Line Items

The Executive Budget consolidates a number of special line items (SLIs) into five new SLIs because the costs of administering the 19 existing SLIs exceed their benefits. The new SLIs include:

(1) Adult and Community Services SLI: Consists of the current Adult Services, Community and Emergency Services, Coordinated Homeless Services, Domestic Violence Prevention, and Coordinated Hunger Services SLIs.

(2) TANF Cash Benefits and Tribal Pass-Through SLI: Consists of the TANF Cash Benefits and Tribal Pass-Through Funding SLIs.

(3) Workforce Development Services SLI: Consists of the JOBS Program, WIOA Services, and Employment Services SLIs.

(4) Division of Developmental Disabilities (DDD) Arizona Long Term Care System (ALTCS) SLI: Consists of the DDD Operating Lump Sum (ALTCS only), Premium Tax Payment, Case Management - Title XIX, Home and Community Based Services - Title XIX, Medical Services - Title XIX, and Arizona Training Program at Coolidge SLIs.

(5) DDD State-Only SLI: Consists of the DDD Operating Lump Sum (Non-ALTCS), Case Management – State-Only, Home & Community Based Services – State-Only SLIs.

SLIs isolate funds for specific purposes and, in general, limit spending for those purposes to the amount appropriated to the SLIs. However, SLIs require additional staff time and administrative processes, including finance and budgeting departments to manually allocate staff time between the SLI budget among other operating budgets. Further, for caseload SLIs such as those in DDD necessitate numerous appropriation transfers each year to align SLI appropriation authority with expenses.

Funding	FY 2019
General Fund	0.0
Issue Total	0.0

Home and Community Based Services for the Elderly

The Executive Budget includes a shift and increase in funding to provide home and community-based services, allowing seniors to remain in their own homes for a longer period of time.

Funding will be comprised of shifting \$700,000 from the Health Services Lottery Fund to the Department's Special Administration Fund and appropriating an additional \$471,000 from the latter fund.

This program provides assistance with essential daily activities, such as bathing, dressing, and meal preparation. It also provides visiting nurses and home health aides. Supporting the elderly and their caregivers by providing respite care and home services (e.g., Meals on Wheels) provides seniors with a better quality of life, and the State avoids the high cost of placing vulnerable adults into the Arizona Long Term Care System.

Funding	FY 2019
Special Administration Fund	1,171.0
Health Services Lottery Fund	(700.0)
Issue Total	471.0

Improving Healthy Eating Options for Those in Need

The Executive Budget includes an increase in one-time funding for capital equipment, materials, and supplies to increase the capacity of Arizona's foodbank network to accept, distribute, store, and serve more farm-fresh produce.

The Association of Arizona Food Banks estimates that approximately 75% of Arizonans do not get the daily recommended amount of fruits and vegetables. The Executive is committed to furthering efforts that will improve public health outcomes for all Arizonans.

The increased capacity will include purchases to expand refrigeration capacity at foodbanks statewide, as well as refrigerated vehicles for transport. DES will manage the funds and award them to grantees through a competitive RFP process that prioritizes areas of greatest need throughout the state. This investment will enhance the health and nutrition of Arizonans in need, enable Arizona farmers to donate more of their tax-deductible produce that cannot be sold, and keep nutritious foods out of landfills.

Funding	FY 2019
General Fund	1,000.0
Issue Total	1,000.0

Integration of Children's Rehabilitative Services Costs for DD into DES DDD

The Executive Budget includes an increase in funding as part of transferring the behavioral health services component of the Children's Rehabilitative Services (CRS) program from the Arizona Health Care Cost Containment System (AHCCCS) to DES.

This funding consists of \$15.2 million from the General Fund and \$35.2 million in federal Expenditure Authority. Corresponding decreases in funding appears in the AHCCCS section.

Arizona's children who are developmentally disabled (DD) and have chronic and disabling conditions can receive an enhanced level of care from CRS. This enhanced care from CRS consists of (a) therapies specific to the DD population, (b) physical, and (c) behavioral. DES contractors provide DD therapies, whereas AHCCCS contractors provide physical and behavioral health services. Similarly, funding for DD members is budgeted in DES and AHCCCS, and funding for physical and behavioral health services is budgeted in AHCCCS.

As part of a statewide effort to better integrate the delivery, management, and financing of healthcare, the Executive Budget transfers the all contract management for CRS services for DD members to DES, effective October 1, 2018. Due to this timing, the Executive Budget transfers funding for three quarters of FY 2019 from AHCCCS to DES for DD CRS and behavioral health services. The FY 2020 Executive Budget will annualize this transfer by moving the last quarter of this funding to DES.

This proposal will improve the coordination of DD member services by giving one agency (DES) both oversight and funding for DD members receiving CRS services.

Funding	FY 2019
General Fund	15,212.7
Issue Total	15,212.7

Executive Budget Baseline Changes

DDD Caseload & Capitation Growth

The Executive Budget includes an increase in funding for projected DDD program costs increases.

The FY 2019 caseload for DDD Arizona Long Term Care System (ALTCS) members is projected to increase by 4.4%. In addition, DES anticipates a 2% increase in per-member monthly capitation payments. There is also expected to be additional state cost due to a decrease in the federal match rate.

Another component of the DDD program cost projection is the annualization of the recently enacted minimum wage law, which accounts for \$3.6 million of the total increase. The FY 2018 budget included funding for increased payments to contracted providers to cover the cost of bringing the wages paid to direct-care workers up to the new minimum wage effective in January 2018, from \$10 to \$10.50. Because the increase occurs midway through the year, only a half-year of funding is included. This amount will need to be annualized, which is estimated at \$1.6 million. In January 2019, Arizona’s minimum wage will increase by another \$0.50 per hour, to \$11, which will result in an additional cost of \$1.8 million.

Funding	FY 2019
General Fund	33,184.0
Issue Total	33,184.0

DDD Structural Shortfalls

The Executive Budget includes an increase in one-time and ongoing funding to backfill support from the Long Term Care System Fund (LTCSF) for DDD program in accordance with the FY 2018 budget.

During the Great Recession, instead of funding state-only (non-federally matched) cost increases and caseload growth within the Division of Developmental Disabilities (DDD), the Department was directed to cover increasing costs by using the Long Term Care System Fund (LTCSF) surpluses from the prior year that otherwise would have reverted to the General Fund. The FY 2018 budget included a provision that prohibits using LTCSF profit for state-only costs beginning in FY 2019, with the intent that those costs be evaluated and funded as part of the traditional budget development process.

Three areas of the state-only program are operating with structural shortfalls that the Executive Budget backfills in FY 2019: the Arizona Early Intervention Program (AzEIP), Room and Board, and Case Management.

When there are concerns of developmental delay, AzEIP provides no-charge evaluations for children up to age 3. The Department receives a federal grant to operate the program, but the grant amount falls short of the costs, which has led to a growing structural shortfall. Referrals for evaluations have increased by 8.8% since FY 2015; however, the number of children determined eligible for the program has remained flat over the same time period. The Executive has directed the Department to develop strategies to decrease the rate of unnecessary evaluations. Possible strategies include: (a) reaching out to referring individuals (e.g., parents, physicians, caregivers, etc.) to give them the education and training to more accurately determine whether an evaluation is needed; (b) studying the data to determine the sources of the majority of unnecessary referrals; and (c) developing a more robust pre-screening process before a full evaluation is performed. The Executive Budget includes a one-time \$1.9 million appropriation from the Spinal and Head Injuries Trust Fund to ensure that program costs are covered in the next fiscal year. In future years, the DES-identified efficiencies are expected to remove the need for this appropriation.

Room and board costs for DD clients are not eligible for a Medicaid match, meaning that state funding and the client's income must cover those expenses. The FY 2015 Health and Welfare Budget Reconciliation Act (Laws 2014, Chapter 167) lowered the maximum percent of income for which DD providers billed clients for room and board from 88% to 70%. The goal of reducing the billing rate was to ensure that clients had money to pay for clothing, personal care items, and incidental needs. To hold the DD providers harmless from this rate reduction, which would have lowered provider revenues by (\$6.4 million) annually, DES used LTCSF surpluses to backfill the resulting yearly gap between FY 2015 and FY 2019. For FY 2019, the Executive Budget includes \$6.4 million in ongoing funding from the General Fund to permanently resolve this shortfall.

Case management for the state-only DD population supports two types of non-federal match clients: State-Only and Targeted Case Management. First, State-Only clients meet the medical eligibility requirements for the Arizona Long Term Care System (ALTCS) but do not meet financial eligibility. The caseload ratio for these clients is 1 caseworker to 80 clients. Second, Targeted Case Management clients meet the financial eligibility requirements for ALTCS but do not (yet) have a medical diagnosis that meets eligibility requirements. The caseload ratio for these clients is 1-to-40. The Department uses the same pool of caseworkers to serve both populations, using a random selection process to allocate resources. Because the state has not funded caseload growth for these populations since the Great Recession, a structural shortfall exists. The Executive Budget includes \$2.4 million in ongoing funding from the General Fund and requires the Department to adjust the caseload ratios of the Targeted Case Management Clients to be 1-to-80, consistent with those of the State-Only population.

Funding	FY 2019
General Fund	8,800.0
Spinal and Head Injuries Trust Fund	1,900.0

Issue Total

10,700.0

Remove and Backfill One-time Funding for Adult Protective Services

The Executive Budget includes a decrease of one-time FY 2018 funding for Adult Protective Services (APS) staff.

Additional federal grant dollars awarded to the State have been identified, and will be put to use within the APS program. These dollars will replace the one-time funding of \$2 million and fully fund caseload growth. This federal funding is expected to continue into FY 2019 and beyond.

Technical Adjustments

The Executive Budget includes several technical adjustments to align organizational structure and provide additional transparency, including:

(a) a decrease in one-time FY 2018 funding from the Health Services Lottery Fund to the Domestic Violence Services Fund for prevention services at local shelters;

(b) movement of the Coordinated Hunger Program, which coordinates with various organizations at all levels of government and private-sector entities to provide food assistance to the hungry, from the Division of Benefits and Medical Eligibility to the Division of Aging and Adult Services;

(c) elimination of the Arizona Industries for the Blind SLI, which was removed from DES and converted to a private organization pursuant to Laws 2016, 2nd Regular Session, Chapter 341;

(d) increase in the Unemployment Insurance Fund to current projections based on national trends; and

(e) balancing the State and Local Agency Revenue Fund (because the fund acts as a collections clearinghouse for accounts receivable and a temporary destination for collections without sufficient identifying documentation, the assumption is that the revenue and expenditure levels will be equal, after the benefiting program for the funds is identified and the fund is reconciled).

(f) removing FY 2018 one-time appropriations for additional assistance to DDD providers for Proposition 206 costs.

The Executive Budget provides a lump-sum appropriation by program with special lines.

State Board of Education

The Arizona State Board of Education is constitutionally charged with regulating the conduct of the public school system. Statute requires the Board to exercise general supervision over and regulate the conduct of the public school system and adopt any rules and policies it deems necessary to accomplish this purpose. This general supervision and regulation includes the following: prescribing a minimum course of study and competency requirements for promotion of students from third and eighth grade as well as for graduation from high school; supervise and control the certification of persons engaged in instructional work in a school district; approve alternative teacher and administrator preparation programs; adopt proficiency exams and passing scores for those exams; adopt rules governing the methods for administering proficiency exams; impose disciplinary action on all certificate holders who are found to have engaged in immoral conduct; serve as the State Board for Vocational and Technological Education; adopt educator certification reciprocity rules; and delegate to the Superintendent of Public Instruction the execution of board policies and rules.

The Executive Budget provides a lump-sum appropriation to the agency.

Department of Education

The Arizona Department of Education (the Department) is administered by the Superintendent of Public Instruction, an elected position. The Superintendent, in conjunction with the State Board of Education, leads the state in developing and implementing educational guidelines and standards. The Superintendent supports direct services to 236 locally-governed school districts, including 14 vocational districts and 8 accommodation districts. The Superintendent, in conjunction with the State Board for Charter Schools, oversees 434 charters (as of August 2017). The Department executes the educational guidelines through evaluation, training, school improvement assistance, dissemination of information, and administration and allocation of funds. The Department also serves as the primary source for information on the status and needs of the public school system.

Major Executive Budget Initiatives and Funding

Increase Additional Assistance

The Executive Budget includes an increase in funding for Additional Assistance to district and charter schools.

The annual per-pupil funding will increase by \$100 million in FY 2019, growing each year thereafter for four years. By FY 2023, restored funding for Additional Assistance will total \$371.1 million per year. This plan will fully reverse long-standing suspensions of two portions of the State Aid formula: District Additional Assistance (DAA) and Charter Additional Assistance (CAA).

The suspension of \$371.1 million of Additional Assistance in FY 2018 will fall to \$271 million in FY 2019, \$203 million in FY 2020, \$136 million in FY 2021, \$68 million in FY 2022, and \$0 in FY 2023.

Funding	FY 2019
General Fund	100,000.0
Issue Total	100,000.0

Computer Science Pilot Program

The Executive Budget includes an increase in funding for a Computer Science Pilot Program to provide quality training to prospective computer science teachers. The funding will include a 1-to-1 private-sector match requirement.

Funding	FY 2019
General Fund	2,500.0
Issue Total	2,500.0

Fully Fund Large JTEDs

The Executive Budget includes an increase in funding to allow Joint Technical Education Districts (JTEDs) with a student count of more than 2,000 students to be funded at 100% of the statutory formula instead of 95.5%.

Additionally, the Executive Budget intends that funds transferred from the Residential Contractors' Recovery Fund be used to pay for the additional JTED funding in FY 2019 and FY 2020.

Funding	FY 2019
General Fund	2,000.0
Issue Total	2,000.0

Information Technology Project

The Executive Budget includes an increase in ongoing funding to continue support for operations and maintenance of the Arizona Education Learning Accountability System (AELAS).

The Department has historically paid for operations and maintenance out of one- time appropriations for the development of the AELAS system.

Among other functions, AELAS collects student attendance data that is used to determine State Aid payments. The funding will primarily support 41.6 FTE positions, including State employees and contractors, and will be used for ongoing hardware, software, and cloud storage costs.

Funding	FY 2019
General Fund	5,300.0
Issue Total	5,300.0

Arizona Academic Standards Requirements

The Executive Budget includes an increase in funding for 10.5 existing FTE positions at the Department that are responsible for the continuous review of all of Arizona's academic standards, including English language arts and mathematics.

In the upcoming year, those positions are critical for the technical support and professional development of the next significant review, which will focus on academic standards for social studies and science.

The positions were previously funded by a federal Race to the Top grant that ended in FY 2017.

Funding	FY 2019
General Fund	1,100.0
Issue Total	1,100.0

Mandated Statewide Assessments

The Executive Budget includes an increase in funding higher costs related to mandated State assessments.

In FY 2019, the cost of administering the AzMERIT, AZELLA, and AIMS tests will rise due to increased costs for field testing, standards setting, and incorporating new science standards and other changes, which are partially offset by savings from increased utilization of computer-based tests.

Funding	FY 2019
General Fund	1,000.0
Issue Total	1,000.0

Additional Teacher Salary Increase

The Executive Budget includes an increase in funding for the second 1.06% of the 2.12% salary increase for all teachers.

The funding began in FY 2018 to increase teacher compensation statewide and improve teacher retention. The 2.12% salary increase is in addition to any other salary adjustments that schools may fund from other sources (such as annual inflation, which is projected to be 1.79% in FY 2019).

Additionally, the Executive Budgets moves the \$68 million for the teacher salary increase into the base level by (a) increasing the base level amount by 1.16% beyond the annual inflation adjustment and (b) eliminating the special line item in the Department's budget.

Moving funding for teacher salaries into the base level will ensure that it will be inflated going forward to preserve the impact of the teacher salary increase. The initial inflation adjustment increases the base level amount from \$3,683.27 per pupil in FY 2018 to \$3,749.20 per pupil in FY 2019. Incorporating teacher salaries will further increase the base level to \$3,792.69.

Funding	FY 2019
General Fund	34,000.0
Issue Total	34,000.0

Early Literacy Funding

The Executive Budget includes an increase in funding for the Early Literacy program established in the FY 2018 budget.

The program provides support to schools in which at least 90% of students are eligible for free or reduced-price lunches, with the mission of improving reading skills, literacy, and proficiency for students in kindergarten through grade three.

In FY 2018, the program will provide \$8 million in funding to 57 school districts and charter schools.

Funding	FY 2019
General Fund	4,000.0
Issue Total	4,000.0

Executive Budget Baseline Changes

Inflation Adjustment

The Executive Budget includes an increase in funding for a 1.79% inflation adjustment in the base level amount, the transportation route-mile factor, and charter school additional assistance.

A.R.S. § 15-901.01 requires an annual increase to the base level or other components of the revenue control limit, equal to the lesser of 2% or the change in the GDP price deflator for the prior calendar year. The 1.79% inflation adjustment will produce a base level amount of \$3,749.20 per pupil in FY 2019, compared to \$3,683.27 per pupil for FY 2018.

This issue does not reflect the amount that will be added due to the Executive Budget's inclusion of teacher salaries in the base level. See the Additional Teacher Salary Increase section for more details.

Funding	FY 2019
General Fund	113,386.4

Issue Total

113,386.4

Enrollment Growth

The Executive Budget includes an increase in funding for a projected 1.25% increase in Average Daily Membership (ADM) in FY 2019: 0.4% for district schools and 5.6% for charter schools.

Enrollment growth is projected to cost \$81.7 million, based on the average cost per pupil in FY 2018, adjusted for inflation. The issue does not reflect an expected increase in the average cost per pupil in FY 2019, which is accounted for separately. See the Higher Average Cost Per Pupil section for more details.

Funding

FY 2019

General Fund

81,835.7

Issue Total

81,835.7

Higher Average Cost Per Pupil

The Executive Budget includes an increase in funding for an anticipated increase in the average cost per student in FY 2019.

The adjustment accounts for growth in student populations that require higher per-student funding and are growing at a faster rate than the overall student population.

The Executive Budget forecast in FY 2019 projects the number of charter school students will increase by 5.6%, or 10,604 students, or 8,290 more students than are accounted for in the Enrollment Growth section.

In addition, the number of students that generate additional State funding through Group B weights, due to specific disabilities or other factors, is growing faster than the overall student population. The Executive Budget forecast in FY 2019 projects that the total weighted ADM generated by Group B weights will increase by about 1,067 more than is accounted for in the Enrollment Growth section.

Funding

FY 2019

General Fund

15,600.0

Issue Total

15,600.0

Increased Permanent Fund Distributions

The Executive Budget includes a decrease from the General Fund and a commensurate increase from the Public Institution Permanent School Earnings Fund, which is expected to increase in distributions in FY 2019, offsetting General Fund requirements for Basic State Aid.

In May 2016, Arizona voters approved Proposition 123, which increased annual distributions from the Public Institution Permanent School Earnings Fund from 2.5% to 6.9% of the average of the monthly market values of the Fund over the previous five calendar years. The additional 4.4% increment that was authorized by Proposition 123 offsets General Fund requirements for Basic State Aid.

A portion of the previous 2.5% increment either (a) pays for debt service on certain School Facilities Board bonds or (b) offsets General Fund requirements for Basic State Aid, and the balance is deposited into the Classroom Site Fund.

The average of the monthly market values of the Public Institution Permanent School Earnings Fund for the five-year period that ended December 31, 2017, is projected to be greater than the average for the five-year period that ended December 31, 2016. As a result, distributions from that fund for Basic State Aid are projected to increase by \$16.5 million in FY 2019, and General Fund requirements for Basic State Aid are projected to decrease by an equivalent amount.

In addition, debt service on School Facilities Board bonds that are paid for from the Public Institution Permanent School Earnings Fund will decline by (\$24.9 million) in FY 2019, and the fund's support for Basic State Aid will increase by the same amount.

Funding	FY 2019
General Fund	(41,444.6)
Public Institution Permanent School Earnings Fund	41,444.6
Issue Total	0.0

Property Taxes from New Construction

The Executive Budget includes a decrease in funding for a 2.3% increase in Net Assessed Value (NAV) due to new construction, which will generate additional local property taxes that offset General Fund requirements for Basic State Aid.

The Executive Budget forecast in FY 2019 projects a 4.3% increase in Primary NAV: 2% growth in existing property values and 2.3% growth from new construction. The NAV increase for existing property does not affect the General Fund share of formula funding, as Truth in Taxation requires the Qualifying Tax Rate (QTR) to be adjusted each year to offset changes in existing property values. The increase in new construction is projected to decrease the General Fund obligation by (\$59.4 million), which will be partially offset by an expected \$6 million increase in State requirements for the Homeowner's Rebate on new construction.

Funding	FY 2019
General Fund	(53,473.3)
Issue Total	(53,473.3)

Remove One-Time FY 2018 Appropriations

The Executive Budget includes a decrease in one-time funding for Geographic Literacy, Rural Assistance, and a Teacher Professional Development Pilot program.

Funding	FY 2019
General Fund	(400.0)
Budget Stabilization Fund	(2,600.0)
Issue Total	(3,000.0)

Adjustments for risk management charges and retirement contributions for this agency are not incorporated into the totals shown here. They are listed separated with adjustments for all state agencies immediately following the Capital Projects section. Funding for these adjustments is included as part of the total Executive Budget.

The Executive Budget provides a lump-sum appropriation by fund with special lines.

Department of Emergency and Military Affairs

The Arizona Department of Emergency & Military Affairs (DEMA) supports the Governor's priority of protecting our communities by ensuring the Governor as Commander-in-Chief has state military forces and emergency management capability ready and able to respond at a moment's notice.

DEMA consists of the Arizona National Guard (Air, Army, and Joint Task Force), the Division of Emergency Management, and the Division of Administrative Services. DEMA provides unique military and emergency management capabilities and services to the citizens of Arizona in three distinct roles: community, state and federal.

Agency Budget Summary

	FY 2017 Actual	FY 2018 Exp. Plan	FY 2019 Net Change	FY 2019 Exec. Bud.
General Fund	9,944.3	11,238.3	870.0	12,108.3
Other Appropriated Funds	1,447.3	1,438.4	0.0	1,438.4
Non-Appropriated Funds	58,703.6	72,626.1	(17,068.2)	55,557.9
Agency Total	70,095.2	85,302.8	(16,198.2)	69,104.6

Major Executive Budget Initiatives and Funding

Efficiency Savings

The Executive Budget includes a decrease in funding as a result of efficiency savings identified by DEMA in its operating budget.

Funding	FY 2019
General Fund	(130.0)
Issue Total	(130.0)

National Guard Tuition Reimbursement

The Executive Budget includes an increase in funding for tuition benefits to assist National Guard members in attaining a postsecondary certificate or degree.

Education benefits are a strong driver in the recruitment and re-enlistment of National Guard members. According to a U.S. Department of Defense study, over 70% of new recruits nationwide reported that funding for college education was "very" or "extremely" influential in the decision to join their state's National Guard.

The State of Arizona had a tuition reimbursement program until FY 2010, when it was eliminated to help address the budget crisis. Currently, Arizona is one of only two states not to offer any sort of tuition assistance. The Executive Budget will restart that program.

The tuition reimbursement will function as a last-dollar award, allowing National Guard members to close the gap between their actual tuition costs and any other scholarships or assistance received. This program will assist at least 127 National Guard members pursuing post-secondary education at technical schools, community colleges, and universities.

Funding	FY 2019
General Fund	1,000.0
Issue Total	1,000.0

Southeast Regional Readiness Center

The Executive Budget includes an increase in funding for construction of the Southeast Regional Readiness Center in Tucson.

State funding will be comprised of \$3.7 million from the General Fund, \$1.3 million from the Military Installation Fund, and \$1 million from the Armory Fund, for a total of \$6 million. This 25% state match will draw down a 75% federal match, or \$18.1 million. The federal money has already been appropriated. Without the state match, the federal funding will expire in federal FY 2019.

Readiness Centers, formerly known as armories, function as the home base and staging areas for units in the Arizona National Guard. These facilities house soldiers during drills and provide secure storage for equipment and weapons between exercises. Also, Readiness Centers are important for National Guard soldiers' military life between deployments; many soldiers eat, sleep, attend classes, and live at their assigned Readiness Center during drills. Further, these facilities often serve as key components of community life for the areas in which they are located. For instance, during severe weather, wildfires, or other disasters, Readiness Centers are opened to the community for a safe place to gather or for firefighters to rest between shifts.

The 222nd Transportation Company, one of Arizona's Army National Guard units, is currently stationed in modular trailers. This temporary solution was the result of overcrowding at a Readiness Center in Phoenix, where too many units were vying for the same space. As the temporary trailers were never intended to be permanent, the construction materials are of poor quality, and the space is inadequate. Each transportation company is staffed by 150 soldiers who manage 60 tractors, 80 trailers with loading equipment, and two Humvees. The facility offers a total of 12,600 square feet, well short of the 61,100 square feet required by Department of the Army space standards.

Stationing soldiers in a Readiness Center that lacks adequate space and quality can adversely affect morale, retention, and readiness. Construction of a new facility will allow the 222nd Transportation Company to relocate and the modular trailers to be closed.

The funding for this issue appears in the Capital section.

Funding	FY 2019
General Fund	0.0
Issue Total	0.0

Adjustments for risk management charges and retirement contributions for this agency are not incorporated into the totals shown here. They are listed separated with adjustments for all state agencies immediately following the Capital Projects section. Funding for these adjustments is included as part of the total Executive Budget.

The Executive Budget provides a lump-sum appropriation by program with special lines.

Department of Environmental Quality

The Arizona Legislature established the Arizona Department of Environmental Quality (ADEQ) as the State's environmental regulatory agency under the Environmental Quality Act of 1986 to serve as a separate, cabinet-level agency to administer all of Arizona's environmental programs. Since then, ADEQ's enduring and vital mission is to protect and enhance public health and the environment of Arizona.

All numbers representing dollars are expressed in thousands.

Agency Budget Summary

	FY 2017 Actual	FY 2018 Exp. Plan	FY 2019 Net Change	FY 2019 Exec. Bud.
General Fund	2,823.6	2,823.6	(2,823.6)	0.0
Other Appropriated Funds	63,194.1	80,222.4	2,838.7	83,061.1
Non-Appropriated Funds	61,665.2	82,908.8	(387.5)	82,521.3
Agency Total	127,682.9	165,954.8	(372.4)	165,582.4

Major Executive Budget Initiatives and Funding

Funding for priority WQARF site cleanups

The Executive Budget includes a decrease and one-time shift in funding to other appropriated and non-appropriated funding sources for remediation of contaminated sites.

The Water Quality Assurance Revolving Fund (WQARF) program is Arizona's alternative to the U.S. Environmental Protection Agency's approach to remediation of contaminated hazardous waste sites. Through WQARF, the state maintains control over determining financial and other responsibility for site remediation. Thirty-three sites on the WQARF Program registry require remediation.

WQARF is the Department's only program that does not have a sustainable, non-General Fund funding source in place. The FY 2018 budget included \$15.5 million in funding for WQARF: \$2.8 million from the General Fund and the remainder from fees, public water system tax revenue, and fund transfers.

The Executive Budget discontinues General Fund support and shifts the cost of the program to other available sources, as identified by the Department, on a one-time basis. The Executive intends the Department will engage with stakeholders to develop a new, non-General Fund long-term funding stream that will be ready for implementation in FY 2020.

Funding	FY 2019
General Fund	(2,823.6)
DEQ Emissions Inspection Fund	(1,000.0)
Underground Storage Tank Revolving Fund	6,552.0
Recycling Fund	1,000.0
Permit Administration Fund	(3,713.3)
Issue Total	15.1

Special Line Item (SLI) Consolidation

The Executive Budget consolidates a number of special line items (SLIs) into ADEQ's operating lump sum appropriation because the cost of administering the existing SLIs exceed their current benefits and do not provide additional transparency or value.

The SLIs that will be consolidated are Emissions Contractor Payment and Safe Drinking Water.

The Emissions Contractor Payment SLI is of no practical use, as the Department is required to fully settle payments to the emissions inspection vendor regardless of the SLI appropriation. The Safe Drinking Water SLI is wholly captured within the Safe Drinking Water Program Fund and the Safe Drinking Water sub-program, making a separate SLI redundant.

Consolidating the SLIs into the operating lump sum will enable administrative staff to focus on more value-added activities and allow the Department to use its resources in the most efficient manner.

Funding	FY 2019
General Fund	0.0
Issue Total	0.0

Adjustments for risk management charges and retirement contributions for this agency are not incorporated into the totals shown here. They are listed separated with adjustments for all state agencies immediately following the Capital Projects section. Funding for these adjustments is included as part of the total Executive Budget.

The Executive Budget provides a lump-sum appropriation by fund with special lines.

Office of Economic Opportunity

Laws 2016, Chapter 372 created three new governmental entities: The Office of Economic Opportunity (OEO), the Arizona Finance Authority (AFA), and the Arizona Industrial Development Authority (AZIDA). AFA is established in OEO and the AFA board serves as the board of AZIDA. The following agency budget includes all three entities' funding, though each is an operationally unique unit.

OEO is charged with the following responsibilities: monitoring the state's tax and regulatory competitiveness to inform policy and regulatory reform efforts, serving as the State's workforce planning coordinator, providing various workforce, employment and population estimates, providing analytic support to the Arizona Commerce Authority, Arizona-Mexico Commission and the Arizona Office of Tourism in their state marketing strategies, and providing administrative support to the Arizona Finance Authority. The Office is also charged with supporting the development and implementation of the Workforce Innovation and Opportunity Act.

AFA is established in OEO and includes the Water Infrastructure Finance Authority (WIFA) and the Greater Arizona Development Authority (GADA), in addition to being the State recipient of private activity bonding authority. AFA oversees the Arizona Industrial Development Authority which is the State issuer of private activity bonds. AFA also offers homebuyer assistance programs to help first-time homebuyers.

WIFA finances the acquisition, construction, rehabilitation, and improvement of drinking water, wastewater, wastewater reclamation, and other water projects.

GADA helps lower the costs of financing for local governments and tribal entities on debt incurred for infrastructure development and construction.

AZIDA is a non-profit corporation designated as a political subdivision of the State that issues both taxable and tax-exempt bonds for commercial activities.

Governor's Office for Equal Opportunity

The Governor's Office of Equal Opportunity (GOEO) provides information and technical assistance to state agencies to ensure non-discrimination and equal opportunity access to employment, state contracts, and appointments. The GOEO assists state agencies/divisions in promoting equal opportunity in employment, appointments, and procurement practices conducted on behalf of the state.

Fund Shift

The Executive Budget includes a decrease in funding from the General Fund for GOEO. The office will instead be funded as part of the existing appropriation from the Personnel Division Fund, which currently supports the Human Resource Office in the Department of Administration. This shift better aligns the purpose of GOEO with a funding source related to state personnel.

Funding	FY 2019

The Executive Budget provides a lump-sum appropriation to the agency.

Board of Equalization

The State Board of Equalization (SBOE) is comprised of forty-one members, twenty-one appointed by the Governor, including the Chairman, and ten members from both Maricopa and Pima counties appointed by their Boards of Supervisors. The Board of Equalization's jurisdiction is primarily over locally assessed real and personal property in Maricopa and Pima counties. Under A.R.S. § 42-14001 et al, the Board's authority extends to centrally assessed property statewide. The State Board of Equalization, by statute, also can provide hearing officer services for outlying counties. Currently, the SBOE provides services to Mohave, Pinal, Santa Cruz and Yavapai counties. The Board, formerly Division I of the State Board of Tax Appeals, was created on August 1, 1995 through a consolidation of the property valuation and classification appeals process.

The Executive Budget provides a lump-sum appropriation to the agency.

Board of Executive Clemency

The Arizona Board of Executive Clemency is a five member board appointed with each member by the Governor and is statutorily empowered to make decisions regarding:

- Discretionary release of those inmates who are parole and/or home arrest eligible; (inmates whose crimes were committed on or before December 31, 1993);
- Revocation of parole (or community supervision for crimes committed on or after January 01, 1994) for offenders found to be in violation of the terms and conditions of their release;
- Absolute discharge from parole; and
- Modification of release conditions and release rescissions

The Board also makes clemency recommendations to the Governor on requests for: commutation of sentence, including death penalty sentences; reprieves in matters related to death penalty cases; and pardons.

All numbers representing dollars are expressed in thousands.

Agency Budget Summary

	FY 2017 Actual	FY 2018 Exp.Plan	FY 2019 Net Change	FY 2019 Exec. Bud.
General Fund	746.6	963.5	159.5	1,123.0
Non-Appropriated Funds	55.4	41.0	(0.1)	40.9
Agency Total	802.0	1,004.5	159.4	1,163.9

Major Executive Budget Initiatives and Funding

Hearing Officer

The Executive Budget includes an increase in funding for 0.5 FTE part-time Hearing Officer position to improve processing times on probable cause hearings.

The Hearing Officer will conduct probable cause hearings for parole and community supervision violators to determine if evidence supports holding a revocation hearing. If the probable cause hearing determines that evidence is sufficient, a separate revocation hearing would be held by the Board of Executive Clemency to determine if a violator should be returned to prison or should remain on parole or community supervision.

Federal law governs the process of parole and community supervision revocations. The two primary components of this process are a probable cause hearing and a revocation hearing. Previously, the probable cause hearing occurred at the same time as an offender's revocation hearing, meaning the full Board had to spend time for some hearings that it did not need to hear. The addition of a part-time Hearing Officer will create a more efficient use of the Board's revocation hearings.

Funding	FY 2019
General Fund	33.6
Issue Total	33.6

Board Member Pay Increase

The Executive Budget includes an increase in funding for board member pay increases, to help attract and retain qualified individuals.

Members of the Board of Executive Clemency serve in a unique and dynamic full-time position that requires them to understand and apply law, comprehend policy and procedure, and make complex decisions based on facts and testimony. Historically, the Board has faced difficulty in finding new members who are willing to work for the current level of compensation. Additionally, compared to many other states, Arizona's Board members are compensated at a lower rate than their peers.

The Executive Budget increases the pay rate by \$28,612, or 61%, for the Chairman of the Board and \$18,612, or 40%, for the four other Board members.

Funding	FY 2019
General Fund	125.9
Issue Total	125.9

Exposition & State Fair

The Arizona Exposition and State Fair (AESF) is a 96-acre entertainment facility that showcases a variety of events, including one of the preeminent state fairs in the country. The AESF, which owns the property and buildings it occupies, rents its facilities to a variety of tenants and promoters, such as the Arizona National Livestock Show and the Maricopa County Fair. The AESF provides a location to showcase industry, agriculture, education, and entertainment for the enjoyment of Arizona citizens.

Other Appropriated Funds	11,352.9	12,153.3	411.6	12,564.9
Agency Total	11,352.9	12,153.3	411.6	12,564.9

Major Executive Budget Initiatives and Funding

Prop. 206 Minimum Wage Increase

The Executive Budget includes an increase in funding for AESF to pay temporary staff at the higher minimum wage level pursuant to Proposition 206.

In November 2016, Arizona voters passed Proposition 206, which increases the State's minimum wage from \$8.05 per hour to \$12 over four years. On January 1, 2018, the minimum wage increased to \$10.50. The wage will increase again on January 1, 2019, to \$11.00.

Temporary staff for Exposition and State Fair are impacted by that law, as many of the staff earned less than \$10.50 per hour on the effective date of Proposition 206. Although those state employees are legally exempt from the minimum wage increase, this funding issue will allow AESF to compete with private employers. In FY 2018, the agency has struggled to find and keep quality employees with wages below the minimum for the rest of the state.

Funding	FY 2019
Arizona Exposition and State Fair Fund	411.6
Issue Total	411.6

Adjustments for risk management charges and retirement contributions for this agency are not incorporated into the totals shown here. The Executive Budget provides a lump-sum appropriation to the agency.

Department of Financial Institutions

The Department of Financial Institutions (DFI) licenses, supervises, and regulates state-chartered financial institutions and enterprises to ensure the safety and soundness of these financial entities, and verifies compliance with state and federal laws. DFI also investigates complaints that are filed by consumers against licensed individuals and entities and directs appropriate remedial action if the violations are substantiated.

Agency Total	6,088.3	7,577.7	(347.6)	7,230.1

Major Executive Budget Initiatives and Funding

New Mortgage Lending Examiners

The Executive Budget includes an increase in funding for 4.0 FTE examiner positions to handle the increased caseload of loan originators under DFI's jurisdiction.

DFI's Mortgage Lending Division oversees the examinations of commercial and residential mortgage brokers, bankers, and loan originators. Examiners review accounting records for borrowers and ensure that lenders are charging agreed-upon rates and crediting the accounts properly for payments.

Laws 2015, Chapter 102 permitted DFI to accept a nationally accredited loan originator test as a condition for a state license, instead of requiring each applicant to take a specific Arizona test. As a result, more loan originators applied for licenses since FY 2016. The number of institutions overseen by the Mortgage Lending Division increased from 8,660 in FY 2015 to 16,270 in FY 2017. Approximately 29% of those institutions were overdue for scheduled five-year examinations at the end of FY 2017.

The additional staff are expected to examine more than 650 institutions in FY 2019. In the absence of funding, those institutions will not be reviewed.

Funding	FY 2019
Financial Services Fund	358.3
Issue Total	358.3

New Money Services Examiner

The Executive Budget includes an increase in funding for 1.0 FTE examiner position to permit the Money Services Division to timely examine institutions under DFI's jurisdiction.

DFI's Money Services Division examines collection agencies, money transmitters, and sales finance companies. Among their other duties, examiners review trust accounts and operating accounts to ensure that licensees are properly returning money to creditors.

The Division has two examiners who oversaw 1,460 institutions in FY 2017. Approximately 37% of those institutions were overdue for scheduled examinations.

The additional staff is expected to examine at least 50 institutions in FY 2019. In the absence of funding, these institutions will not be reviewed.

Funding	FY 2019
Financial Services Fund	89.6
Issue Total	89.6

New Financial Services Examiner

The Executive Budget includes an increase in funding for 1.0 FTE examiner position to permit the Financial Services Division to timely examine institutions under DFI's jurisdiction.

DFI's Financial Services Division examines escrow agents, consumer lenders, real estate appraisers, and other financial services providers. More than 85% of licensees overseen by the Division are real estate appraisers. Examiners ensure that appraisers use proper methodology when determining property values. Examiners also review institutions to ensure that fees and interest rates are accurately charged to borrowers.

The Division oversaw more than 2,620 institutions in FY 2017. Approximately 28% of those institutions were overdue for scheduled three- to five-year examinations, increasing the risk of inaccurate appraisals and fraudulent lending activities.

The additional position is expected to examine at least 50 licensees that are scheduled for examination each year. In the absence of funding, these institutions will not be reviewed.

Funding	FY 2019
Financial Services Fund	89.6
Issue Total	89.6

Remove One-Time FY 2018 Appropriation

The Executive Budget includes a decrease in one-time FY 2018 funding for laptops and other equipment for three new Financial Institutions Division Examiners hired in FY 2018.

Funding	FY 2019
Financial Services Fund	(6.0)
Issue Total	(6.0)

Board of Appraisal Fund Repeal

The Executive Budget includes a decrease in funding to reflect the discontinuation of the Board of Appraisal Fund in accordance with Laws 2017, Chapter 334.

Chapter 334 eliminated the Board of Appraisal Fund and transferred its balance to the General Fund.

Funding	FY 2019
Board of Appraisal Fund	(815.1)
Issue Total	(815.1)

Fund Shift

The Executive Budget includes a decrease from the General Fund and a commensurate increase in the Financial Services Fund.

Funding	FY 2019
General Fund	(200.0)
Financial Services Fund	200.0
Issue Total	0.0

Attorney General ISA Reallocation

The Executive Budget includes a decrease from the Real Estate Appraisal Special Line Item and a commensurate increase in the Banking Department Revolving Fund for Attorney General interagency service agreement (ISA) costs for oversight of real estate appraisers.

The Banking Department Revolving Fund may be used for investigative proceedings or for the purposes of instituting and prosecuting civil actions.

Funding	FY 2019
General Fund	(50.0)
Banking Department Revolving Fund	50.0
Issue Total	0.0

E-Licensing System Development

The Executive Budget transfers \$500,000 from the Receivership Revolving Fund to the Automation Projects Fund to develop a comprehensive enterprise software and database system for the DFI.

DFI oversees 26 licensing categories of financial institutions and professionals operating in the state. Today, license applications, consumer complaints, and licensee examinations are submitted and managed by paper-based systems. In July 2015, the DFI implemented a comprehensive document management system that allows the Department to digitally store and search paper documents.

This funding will be used to hire outside developers to build an enterprise software and database system to manage the DFI's operations. The system will integrate the document management system and allow DFI to offer paperless options that will streamline internal operations and make it easier for DFI's constituents to apply for and renew licenses and submit and manage complaints.

Total costs of the project may exceed the appropriation, depending on the bids received from developers during the procurement process. DFI is working closely with the Arizona Strategic Enterprise Technology Office (ASET) to develop a statement of work and create a project timeline and governance structure that ensures the successful delivery of the project. The appropriation will be managed by the Arizona Department of Administration.

The funding for this project appears in the Department of Administration section.

Consolidate Special Line Item

The Executive Budget consolidates the Real Estate Appraisal Special Line Item (SLI) into the operating lump sum appropriation to allow the Department to use its regulatory resources most efficiently.

Laws 2015, Chapter 19 consolidated the State Board of Appraisal under the Department of Financial Institutions. DFI has integrated the Board of Appraisal staff under its Office of Regulatory Affairs, which regulates other financial industries. Despite the integration, Real Estate Appraisal operates under a separate SLI, which is unnecessary.

Executive Budget Supplemental Changes

Board of Appraisal Fund Repeal

The Executive Budget includes a decrease in funding to reflect the discontinuation of the Board of Appraisal Fund in accordance with Laws 2017, Chapter 334.

Chapter 334 eliminated the Board of Appraisal Fund and transferred its balance to the General Fund.

Funding	FY 2018
Board of Appraisal Fund	(730.0)
Issue Total	(730.0)

Adjustments for risk management charges and retirement contributions for this agency are not incorporated into the totals shown here. They are listed separated with adjustments for all state agencies immediately following the Capital Projects section. Funding for these adjustments is included as part of the total Executive Budget.

Department of Forestry and Fire Management

The Arizona Department of Forestry and Fire Management provides resources for the prevention and suppression of wildland fire on State Trust Land and private property located outside incorporated communities. The Department also provides services through strategic implementation of cooperative natural resource and fire assistance programs, development and support of statewide fire policies, and coordination of resources across all-lands and jurisdictions for fire prevention, urban and community forestry, forest stewardship, forest health, utilization and marketing, life safety and property conservation, and has a wide variety of grants available.

Agency Total	68,853.1	51,157.3	(1,742.5)	49,414.8

Major Executive Budget Initiatives and Funding

Operating Adjustment

The Executive Budget includes a decrease and shift in funding as a result of efficiency savings identified by the Department and a new \$800,000 interagency service agreement (ISA) that the State Land Department intends to enter with the Department of Forestry and Fire Management, thereby offsetting the latter agency's budget for fire suppression.

Funding	FY 2019
General Fund	(1,137.5)
Issue Total	(1,137.5)

Executive Budget Baseline Changes

Remove One-time FY 2018 Appropriations

The Executive Budget includes a decrease in one-time FY 2018 funding to equip the newly established post-release firefighting crews and to upgrade fire communication equipment.

Funding	FY 2019
General Fund	(605.0)
Issue Total	(605.0)

Executive Budget Supplemental Changes

Fire Expenses Supplemental Appropriation

Due to a higher-than-usual concentration of fires on State land and an increase in complex fires, suppression costs from the 2017 fire season exceeded available funding. The State incurred \$15.3 million in fire costs during the most recent fire season, which is significantly higher than the annual \$4 million budget for fire suppression.

The Executive has identified available fund sources to cover that shortfall and is pursuing accounting measures that can be used to manage cash flow in the near term. An additional \$5.5 million was made available from the Governor's Emergency Council Fund, and federal partners are paying for a portion of the fire costs, but a \$4.1 million shortfall remains.

The State depends on the partnership of local cooperators throughout Arizona that deploy crews to fight fires. These cooperators are often small rural fire districts that depend on receiving timely payment from the state to maintain positive cash flow. This funding is critical to ensuring that local cooperators receive timely payment and continue to partner with the State in fighting wildfires.

The Executive Budget provides a lump-sum appropriation by program with special lines.

Board of Funeral Directors & Embalmers

The Board of Funeral Directors and Embalmers examines and licenses individuals that provide funeral goods and services. The Board also receives complaints against licensees, investigates allegations, and administratively adjudicates complaints. The Board oversees approximately 1,700 licensees practicing in the state and serves all Arizona citizens who receive funeral goods and services.

Agency Budget Summary

	FY 2017 Actual	FY 2018 Exp. Plan	FY 2019 Net Change	FY 2019 Exec. Bud.
Other Appropriated Funds	369.7	378.2	64.9	443.1
Agency Total	369.7	378.2	64.9	443.1

Major Executive Budget Initiatives and Funding

E-Licensing Ongoing Costs

The Executive Budget includes an increase in funding for the Board's share of ongoing operating costs associated with the new e-licensing system that was established in FY 2018 and will be used by 14 agencies. The system is expected to provide a fast and efficient online experience for applicants and licensees.

The Board will begin using the e-licensing system in early 2018. The Board will pay annual licensing costs for the online platforms on which the e-licensing system is built and will share the services of a full-time system administrator at the Department of Administration.

Funding	FY 2019
Funeral Directors and Embalmers Fund	14.8
Issue Total	14.8

One-time Document Scanning

The Executive Budget includes an increase in one-time funding for document scanning services as part of a broader effort to move licensing and license renewal processes online.

The digitization of records aligns with the State's initiative for agencies to conduct business electronically when circumstances allow. The Board plans to engage the State's e-licensing vendor in FY 2019 to migrate licensing data to the chosen platform. The funding will pay a contracted service to prepare the documents, scan the documents into searchable digital files, and securely dispose of the original paper copies.

Funding	FY 2019
Funeral Directors and Embalmers Fund	75.0
Issue Total	75.0

Relocation to 1740 West Adams

The Executive Budget includes an increase in funding for the Board's new shared services costs associated with relocating to the State-owned building at 1740 W. Adams St. in Phoenix. The funding associated with this issue does not reflect the change in State rental payments, which appears in the Statewide Adjustments section. The Board's funding issue below results in a net decrease in costs. The Board will relocate by the end of January 2018.

Twenty-six boards and commissions are moving to the new location, which is designed to operate more efficiently than the agencies' previous spaces. The expected savings in rent and shared services across all 26 agencies is estimated to be \$349,500.

In an effort to consolidate services for those agencies, the new location will feature shared conference rooms and other common spaces and shared contracts for Wi-Fi services, building security, and conference room phones, costing a total of \$150,900 for all of the tenant agencies. Additionally, 21 of the agencies will share 1.0 FTE receptionist position on the first floor of the building.

In FY 2019, the Board will spend \$3,400 for shared services costs such as Wi-Fi and security, compared to \$800 for any similar services at its previous location. New funding is required to cover the \$2,600 increase.

At the previous State-owned space, the agency paid \$15,000 for rent. At the new space, the agency will pay \$11,500. The change in the agency's rental payments of \$(3,500) appears in the Statewide Adjustments section.

Funding	FY 2019
Funeral Directors and Embalmers Fund	2.6
Issue Total	2.6

Executive Budget Baseline Changes

Remove One-time E-licensing

The Executive recommends the removal of FY 2018 one-time appropriations for e-licensing costs.

Funding	FY 2019
Funeral Directors and Embalmers Fund	(27.5)
Issue Total	(27.5)

Adjustments for risk management charges and retirement contributions for this agency are not incorporated into the totals shown here. They are listed separated with adjustments for all state agencies immediately following the Capital Projects section. Funding for these adjustments is included as part of the total Executive Budget.

The Executive Budget provides a lump-sum appropriation to the agency.

Game & Fish Department

The Arizona Game and Fish Department is the state agency charged with the conservation, enhancement and restoration of Arizona's wildlife resources and habitats; the regulation and enforcement of watercraft and off-highway vehicles; and with promoting shooting sports activities. The Department manages Arizona's wildlife populations through the operation of hunting and fishing license programs, enforcement actions for the unlawful taking of game, and wildlife habitat protection and development.

Agency Total	110,216.5	120,115.4	(1,462.9)	118,652.5

Major Executive Budget Initiatives and Funding

Dam and Property Maintenance

The Executive Budget includes an increase of \$150,000 for dam maintenance and \$300,000 for property maintenance.

The Department owns and operates 37 dams that have an average age of 70 years. The funding would allow for updating the Department's real-time flood warning systems and clearing trees and brush from dam areas.

The Department also owns 60 properties totaling more than 300,000 acres. The properties are maintained by the Department for habitat and recreation values and are open to the public for outdoor recreation. The Executive Budget provides funding to repair foundation failures and make structural repairs and other necessary interior and exterior repairs.

The funding for this issue appears in the Capital section.

Funding	FY 2019
Capital Improvement Fund	0.0
Issue Total	0.0

Remove One-time Funding

The Executive Budget includes a decrease in funding for the removal of FY 2018 one-time appropriations: (\$285,000) for the treatment and containment of aquatic invasive species, (\$485,700) for nine law-enforcement officer trucks, and (\$701,000) for replacement of eight patrol boats, repair of four patrol boats, and lifejacket loaner stations.

Funding	FY 2019
Game and Fish Fund	(485.7)
Watercraft Licensing Fund	(986.0)
Issue Total	(1,471.7)

Watercraft Grant SLI Shift

The Executive Budget incorporates the Watercraft Grant special line item appropriation into the Department's lump-sum operating appropriation. There have been no expenditures from this line item since FY 2013.

Prior to FY 2011, State Parks awarded and administered Law Enforcement Boating Safety Fund (LEBSF) grants to eight county sheriffs. For FY 2011 and FY 2012, those funds were diverted to the operation of State Parks, during which time the special line appropriation was used to backfill the Law Enforcement Boating Safety grants. In FY 2013, the LEBSF grants began being distributed by the State Treasurer rather than by State Parks, making the special-line appropriation for grants unnecessary. The Department continues to have a legacy \$1 million special line appropriation for local law enforcement grants, even though the appropriation is not being expended.

Funding	FY 2019
Watercraft Licensing Fund	0.0
Issue Total	0.0

Adjustments for risk management charges and retirement contributions for this agency are not incorporated into the totals shown here. They are listed separated with adjustments for all state agencies immediately following the Capital Projects section. Funding for these adjustments is included as part of the total Executive Budget.

The Executive Budget provides a lump-sum appropriation to the agency with special lines.

Department of Gaming

The Department of Gaming is charged with the regulation of tribal gaming, pari-mutuel racing and wagering, and boxing and mixed martial arts. The Department also runs the Division of Problem Gambling which provides and supports problem gambling prevention, treatment, and education programs. The Legislature established the Arizona Department of Gaming in 1995. Tribal gaming in Arizona is governed by the Tribal-State Gaming Compacts. In 2015, the legislature consolidated the Department of Racing, which included the Boxing/MMA Commission, under the Department of Gaming.

The Executive Budget provides a lump-sum appropriation to the agency.

Department of Health Services

The Arizona Department of Health Services is a state government agency dedicated to promoting, protecting, and improving the health and wellness of individuals and communities in Arizona. In 1974 The Arizona Department of Health Services (ADHS) was created by consolidating several agencies into a single department with a variety of responsibilities. These areas included maternal and child health programs, communicable disease control, laboratory services, environmental health, behavioral health services and other programs to protect public health and safety.

Today ADHS is responsible for state-wide public health services, including the Arizona State Laboratory, epidemiology & disease control, emergency medical services/trauma, public health emergency preparedness & response, public health statistics, vital records, border health, children with special health care needs, health systems development, minority health, chronic disease prevention & nutrition, oral health, tobacco education, and women's & children's health; Arizona State Hospital, including adult civil services, adult forensic services, and the Arizona Community & Protection Treatment Center; and the licensing and certification of health care and child care facilities.

Agency Total	453,118.7	478,310.4	(13,387.8)	464,922.6

Major Executive Budget Initiatives and Funding

Arizona Radiation Regulatory Agency Transfer

The Executive Budget includes a decrease in funding to eliminate the Arizona Radiation Regulatory Agency's General Fund appropriation in FY 2019.

Laws 2017, Chapter 313 transferred the Arizona Radiation Regulatory Agency (ARRA) into the Department of Health Services on December 31, 2017. Accordingly, the following ARRA funds transfer to the Department in FY 2018: State Radiologic Technologist Certification Fund, Nuclear Emergency Management Fund, Laser Safety Fund, and Radiation Regulatory Fee Fund.

ARRA collects licensing fees from facilities and professionals working with radiological material. Approximately 62% of the licensing fees are deposited into the General Fund, while the remaining 38% is deposited into two other appropriated ARRA licensing funds: State Radiologic Technologist Certification Fund and Radiation Regulatory Fee Fund.

The Department operates a licensing program for health care institutions and child care facilities, funded through the Health Services Licenses Fund in the Department's licensing division. Ninety percent of the licensing fees collected from health care institutions and child care facilities are deposited into the Health Services Licensing Fund and 10% into the General Fund.

To align the administration of collecting and distributing fees in the Department's licensing division, the

Executive Budget deposits 90% of the fees collected through the ARRA licensing program into the Health Services Licensing Fund and 10% into the General Fund. To implement the change, which can be found in the ARRA section of this publication, the Executive Budget eliminates the appropriations for the following funds used by ARRA: General Fund, State Radiologic Technologist Certification Fund, and Radiation Regulatory Fee Fund. The Executive Budget includes an increase in the Health Services Licensing Fund to cover the loss of spending authority from those three funds.

Funding	FY 2019
Health Services Licenses Fund	1,644.3
Nuclear Emergency Management Fund	789.7
Issue Total	2,434.0

Fund Source AIDS Reporting and Surveillance SLI

The Executive Budget includes a decrease from the General Fund and a commensurate increase in the Disease Control Research Fund.

The Department's FY 2018 budget includes \$1 million General Fund for AIDS Reporting and Surveillance. The monies in this line-item are used for monitoring the incidence of AIDS in Maricopa and Pima counties as well as for providing medications under the Arizona AIDS Drug Assistance Program (ADAP).

Funding	FY 2019
General Fund	(1,000.0)
Disease Control Research Fund	1,000.0
Issue Total	0.0

Change Fund Source for State Lab Utilities

The Executive Budget includes a decrease from the Capital Outlay Stabilization Fund and a commensurate increase in the Indirect Cost Fund.

The Department is appropriated \$230,000 from the Capital Outlay Stabilization Fund (COSF) for utility expenses at 150 N. 18th Ave. in Phoenix.

Funding	FY 2019
Capital Outlay Stabilization Fund	(230.1)
DHS - Indirect Cost Fund	230.1
Issue Total	0.0

Efficiency Savings

The Executive Budget includes a decrease in funding as a result of efficiency savings identified by DHS. Those savings will be applied to DHS's operating budget.

Funding	FY 2019
General Fund	(250.0)
Issue Total	(250.0)

Executive Budget Baseline Changes

Remove One-time FY 2018 Appropriations

The Executive Budget includes a decrease in funding to remove FY 2018 one-time appropriations.

The Department's FY 2018 budget includes a one-time \$1,000,000 appropriation from the Health Care Research

Fund for Alzheimer's Research. The FY 2018 budget also includes a one-time \$500,000 appropriation from the Emergency Medical Services Operating Fund to fund a deposit into the Public Health Emergencies Fund. Lastly, the FY 2018 budget includes a one-time \$350,000 appropriation from the DHS State Hospital Land Earnings Fund for equipment at the Arizona State Hospital.

Funding	FY 2019
Health Research Fund	(1,000.0)
Emergency Medical Services Operating Fund	(500.0)
DHS State Hospital Land Earnings Fund	(320.0)
Issue Total	(1,820.0)

Adjustments for risk management charges and retirement contributions for this agency are not incorporated into the totals shown here. They are listed separated with adjustments for all state agencies immediately following the Capital Projects section. Funding for these adjustments is included as part of the total Executive Budget.

The Executive Budget provides a modified lump-sum appropriation by program with special lines.

Governor's Office of Highway Safety

The Governor's Office of Highway Safety develops the Arizona Highway Safety Plan (HSP) through annual problem identification and analysis of traffic records, citations, convictions, judicial outcome, incarcerations, assessments, screening, treatment, prevention, and surveys. The Office serves as a means for the reduction of traffic crashes, deaths, injuries, and property damage resulting from crashes on public roads by developing, promoting, and implementing effective education and enforcement programs geared towards ending preventable crashes and reducing economic costs associated with vehicle use and highway travel.

Arizona Historical Society

The Arizona Historical Society (AHS) is a membership and government supported, nonprofit, state agency. It is governed by a membership-elected board, representing each county in the state. Museums are located in Flagstaff, Tempe, Tucson, and Yuma. The Society museums maintain an extensive library and archival collections used by a diverse general audience. The Society produces the Journal of Arizona History and various historical books. The AHS Board develops the biennial budget, authorizes, and approves all expenditures. The Administrative Division provides finance, budget, personnel, and management support to each of the divisions. AHS certifies and supports 67 local historical societies in preserving and disseminating Arizona history. The Society also supports other board-approved community activities.

Agency Total	4,312.2	4,319.1	(29.5)	4,289.6

Major Executive Budget Initiatives and Funding

Grants Specialist

The Executive Budget includes an increase in funding for 0.5 FTE Grants Specialist position to pursue grants and other funding opportunities from alternative sources.

In its most recent review of AHS performance, the Auditor General recommended that the Department take steps to increase fundraising and business development. The addition of the above-referenced position will help AHS achieve that recommendation.

Funding	FY 2019
General Fund	30.0
Issue Total	30.0

Museum Attendance

Attendance numbers for FY 2011 and FY 2012 include the attendance from the Centennial Museum. Operation of the museum was changed from the Arizona Department of Mines and Mineral Resources to the Arizona Historical Society in Laws 2010, Chapter 227.

Agency Expenditures

(in \$1,000s)

\$1.7 million was appropriated in FY 2011 for the purpose of paying a one-time lease purchase balloon payment for the Papago Park Museum. In FY 2012, operations of the Centennial Museum, were transferred from the Department of Mines and Mineral Resources to the Arizona Historical Society.

Prescott Historical Society of Arizona

The Prescott Historical Society operates the Sharlot Hall Museum, which was founded in 1928 and is located on the grounds of the first territorial governor's residence and offices. The nearly four acre landscaped campus features eleven exhibit buildings, including four restored historic structures-- the territorial Governor's Mansion (1864), Fort Misery (1864), the Fremont House (1875), and the Victorian-era Bashford House (1877). The Lawler Exhibit Center (1977) hosts both permanent and changing exhibits, an historic theater, and storage of extensive historic and prehistoric objects. A large Archive Library (1993), houses several hundred thousand images and documents. In March 2013, a new facility constructed with non-State of Arizona funds was completed. In April 2014, a new admissions building, also financed entirely with privately-donated funds was added. The Bob Stump VA Medical Center hosts a branch museum which interprets the history of Fort Whipple. Public programs include the annual Folk Arts Fair, Prescott Indian Art Market, Folk Music Festival, Frontier Christmas, Western History Symposium, periodical musical and theatrical historical productions, living history interpretations in both indoor and outdoor settings, heritage gardens, lecture series, education tours, and outreach opportunities for children and adults.

Board of Homeopathic Medical Examiners

The Board of Homeopathic and Integrated Medicine Examiners regulates the practice of homeopathic medicine in Arizona. The Board reviews and examines the education, experience, and background of applicants to determine if they possess the qualifications required by law to practice homeopathic medicine and any of the subspecialties within the scope of practice. The Board conducts investigations into complaints against physicians and holds hearings, taking disciplinary action as necessary to protect the public safety. The Board also registers homeopathic medical assistants that work under the direct supervision of licensed homeopathic physicians.

Major Executive Budget Initiatives and Funding

Relocation to 1740 West Adams

The Executive Budget includes an increase in funding for the Board's new shared services costs associated with relocating to the State-owned building at 1740 W. Adams St. in Phoenix. The funding associated with this issue does not reflect the change in State rental payments, which appears in the Statewide Adjustments section. The Board's funding issue below results in a net increase in costs. The Board will relocate by the end of January 2018.

Twenty-six boards and commissions are moving to the new location, which is designed to operate more efficiently than the agencies' previous spaces. The expected savings in rent and shared services across all 26 agencies is estimated to be \$349,500.

In an effort to consolidate services for those agencies, the new location will feature shared conference rooms and other common spaces and shared contracts for Wi-Fi services, building security, and conference room phones, costing a total of \$150,900 for all of the tenant agencies. Additionally, 21 of the agencies will share 1.0 FTE receptionist position on the first floor of the building.

In FY 2019, the Board will spend \$1,300 for shared services costs such as Wi-Fi and security, compared to \$300 for any similar services at its previous location. New funding is required to cover the \$1,000 increase.

At the previous State-owned space, the agency paid \$5,000 for rent. At the new space, the agency will pay \$5,400. The change in the agency's rental payments of \$400 appears in the Statewide Adjustments section.

The Executive Budget provides a lump-sum appropriation to the agency.

Department of Housing

The Arizona Department of Housing (ADOH) provides housing and community revitalization to benefit the people of Arizona by addressing unique and changing housing needs in this state. The Department primarily administers

federal funding to promote housing and community development activities as well as provides expertise and technical assistance to address these issues. The Department works as a funding and financing pass-through agency, with community partners providing the bulk of the hands-on assistance in actually delivering the programs and resources entrusted to the agency. ADOH's partners include local governments, including counties, cities, and towns, tribal governments, public housing authorities, non-profit social service agencies, and for-profit and non-profit housing developers. The Department also regulates the manufactured housing industry.

Agency Total	108,931.5	109,985.2	4,412.4	114,397.6

Executive Budget Baseline Changes

Fund Shift

The Executive Budget includes a decrease in funding to reflect a statutory fund shift for the operations of the Manufactured Housing Division.

Laws 2017, Chapter 335 requires ADOH to deposit Division fees into the Housing Program Fund. Prior to Chapter 335, those fees were deposited into the General Fund, and the Division, in turn, received an appropriation from the General Fund.

Because the Division fees now go directly to the Housing Program Fund, which supports the Division, a General Fund support is no longer necessary.

Funding	FY 2019

The Executive Budget provides a lump-sum appropriation to the agency.

Independent Redistricting Commission

The Independent Redistricting Commission was established with the approval of Proposition 106 by voters in November 2000. The Commission has five members, four of whom are selected by the House and Senate majority and minority leadership. The final member is selected by the other four members and cannot be registered with a political party already represented on the Commission. The five-member Commission is responsible for redrawing Arizona's congressional and legislative district boundaries based on the decennial census.

The Executive Budget provides a lump-sum appropriation to the agency.

Industrial Commission of Arizona

The Industrial Commission of Arizona (ICA) was established to oversee laws protecting the life, health, safety and welfare of Arizona workers. The ICA administers the state's workers' compensation act and other employee protections such as laws related to occupational safety and health, minimum wage, unpaid wage claims, and youth employment. The ICA also provides workers' compensation benefits to claimants of uninsured employers and bankrupt self-insured employers.

The Executive Budget provides a lump-sum appropriation to the agency.

Judiciary

The Arizona Judicial Branch is an integrated, but decentralized, judicial system implementing its constitutional and statutory responsibilities throughout all levels of government - state, county, and city. The Judicial Branch consists of the Supreme Court, Court of Appeals, Superior Court, and limited jurisdiction (municipal and justice of peace) courts. The Arizona Constitution provides for the administrative supervision over all courts to rest with the Chief Justice of the Supreme Court. The Administrative Office of the Courts is charged with assisting the Chief Justice in discharging his/her administrative duties. The Arizona Judicial Council, created in 1990, assists the Supreme Court and the Chief Justice in developing and implementing policies and procedures designed to accomplish the integration of the court system pursuant to the Court's constitutional mandate.

Agency Total	165,966.9	183,889.4	752.2	184,641.6

Major Executive Budget Initiatives and Funding

Court Appointed Special Advocate (CASA) Spending Authority Increase

The Executive Budget includes an increase in funding for additional training and educational opportunities for CASA volunteers to further protect Arizona children and families.

Court Appointed Special Advocates (CASA) are volunteers appointed by juvenile court judges to represent in court the needs and interests of abused and neglected children. Primary responsibilities of CASA volunteers include gathering and reviewing documents, preparing court reports, attending court hearings to represent the child's needs, recommending available services to the child and the child's family, and informing the court of any major developments within the family. Ultimately, CASA volunteers foster positive, stable relationships with Arizona's most vulnerable youth and are an important source of support.

Funding	FY 2019
Court Appointed Special Advocate Fund	250.0
Issue Total	250.0

Adult Standard Probation Growth

The Executive Budget includes an increase in funding for additional probation officer positions to comply with mandated caseload ratios.

A.R.S. § 12-251(a) prohibits a probation officer from supervising more than 65 adult standard probationers. Current court appropriations fund probation officers for a maximum of 16,696 adult standard probationers. The number of probationers on Adult Standard Probation increased by 4% in FY 2017 and is projected to increase at the same rate in FY 2018 and FY 2019 .

The Judiciary anticipates that the number of probationers will increase to 17,352 by the end of FY 2019. Adding 10.0 FTE probation officer positions will allow the State to stay within statutory caseload ratios of no more than 65 probationers per officer.

Funding	FY 2019
General Fund	413.0
Issue Total	413.0

Remove One-Time FY 2018 Funding for Drug Treatment Alternative to Prison Program

The Executive Budget includes a decrease in one-time funding for the Drug Treatment Alternative to Prison Program in Pima County.

Funding	FY 2019
Health Services Lottery Fund	(250.0)
Issue Total	(250.0)

Executive Budget Baseline Changes

Court Ordered Removal (Annualized)

The Executive Budget includes an increase in funding to additional positions dedicated to dependency petitions.

The funding will annualize the FY 2018 appropriation for Court-Ordered Removals and will fully fund the program. Funding will allow the Superior Court to hire 1.5 Court Commissioners and 1 Judicial Clerk.

Laws 2017, Chapter 282 requires that case workers, or other interested persons, obtain court authorization prior to removing a child from a home, except in exigent situations. Previously, children could be declared temporary wards of the state by Juvenile Court after being taken into custody by a caseworker for the Department of Child Safety, a peace officer, or another interested person.

The Judiciary was appropriated \$75,000 in FY 2018 to begin implementing the changes required by law. FY 2019 funding will allow the Judiciary to fully operate this program.

Funding	FY 2019
General Fund	240.0
Issue Total	240.0

Judicial Salary Increases

The Executive Budget includes an increase in funding for the final phase of a 3% judicial salary increase that began in FY 2017.

The FY 2017 budget included \$100,000 to implement a multi-year 3% salary increase for judges. Judges received a 1.5% salary increase in calendar year 2017 and will receive another 1.5% salary increase in calendar year 2018. The Executive Budget includes the portion attributable to the last six months of calendar year 2018.

Funding	FY 2019
General Fund	99.2
Issue Total	99.2

Adjustments for risk management charges and retirement contributions for this agency are not incorporated into the totals shown here. They are listed separated with adjustments for all state agencies immediately following the Capital Projects section. Funding for these adjustments is included as part of the total Executive Budget.

Department of Juvenile Corrections

The Arizona Department of Juvenile Corrections (ADJC) is responsible for youth adjudicated as delinquent and committed to its jurisdiction by the county juvenile courts. ADJC is accountable to the citizens of Arizona for the promotion of public safety through the management of the state's secure juvenile correctional facility and a continuum of services for the youth as they transition from the facility back to their communities. This mission is accomplished by providing supervision, rehabilitation, treatment and education to the youth committed to its care.

Agency Budget Summary

	FY 2017 Actual	FY 2018 Exp. Plan	FY 2019 Net Change	FY 2019 Exec. Bud.
General Fund	22,672.6	19,549.8	1,126.3	20,676.1
Other Appropriated Funds	14,776.4	16,655.1	1,000.0	17,655.1
Non-Appropriated Funds	894.0	1,172.2	(1.0)	1,171.2
Agency Total	38,343.0	37,377.1	2,125.3	39,502.4

Major Executive Budget Initiatives and Funding

Fund Shift

The Executive Budget includes a reduction from the General Fund and a commensurate increase to the State Charitable, Penal, and Reformatory Land Fund.

Because of the increased distributions from the State Land Trust to the State Charitable Fund, there is a substantial cash balance that can support the funding shift.

Funding	FY 2019
General Fund	(1,000.0)
State Charitable, Penal and Reformatory Land Fund	1,000.0
Issue Total	0.0

Restorative Population Funding

The Executive Budget includes an increase in funding to partially roll back reductions made in the FY 2018 budget based on forecast assumptions that never materialized. These restored resources would allow ADJC to hire up to 32 Youth Correctional Officers and make targeted investments in areas of highest need.

The approved budgets over the last three fiscal years reduced ADJC's General Fund appropriation by a cumulative \$(12.2) million based on declines in the secure care population. The FY 2018 reduction represented \$(5) million of that total and was derived using a declination rate consistent with trends over the last five years, with the expectation that the average secure care population would total 150 in FY 2018. However, as of December 1, 2017, the average population has been 177, requiring additional staffing to remain compliant with federal and state law.

The Executive Budget assumes an average secure population of 177 in both FY 2018 and FY 2019.

Funding	FY 2019
General Fund	2,126.3
Issue Total	2,126.3

Adjustments for risk management charges and retirement contributions for this agency are not incorporated into the totals shown here. They are listed separated with adjustments for all state agencies immediately following the Capital Projects section. Funding for these adjustments is included as part of the total Executive Budget.

The Executive Budget provides a lump-sum appropriation to the agency.

Land Department

The State Land Department was established in 1915 to manage the State Trust Lands on behalf of the thirteen beneficiaries of that Trust, as established by the State Enabling Act and State Constitution. Each of the approximately 9.2 million acres of land is assigned to one of the beneficiaries, the largest of which is the State's common schools. The Department works to sustain the long-term value for the Trust's beneficiaries by administering, selling, and leasing the State's Trust Lands and natural products. The Department also administers the State's Natural Resource Conservation District Program, which involves funding and technical assistance for 32 districts across the State. The Department provides navigability studies to the State's Navigable Streambed Adjudication Commission and staffs the Governor-appointed State Land Board of Appeals. The Commissioner serves as the State Cartographer and Surveyor-General. The Department provides statewide geological information system services including development and sharing of data layers through the Arizona Land Resources Information System program.

Agency Budget Summary

	FY 2017 Actual	FY 2018 Exp. Plan	FY 2019 Net Change	FY 2019 Exec. Bud.
General Fund	12,029.8	12,365.9	49.1	12,415.0
Other Appropriated Funds	2,780.1	7,250.0	800.0	8,050.0
Non-Appropriated Funds	581.8	663.0	0.0	663.0
Agency Total	15,391.7	20,278.9	849.1	21,128.0

Major Executive Budget Initiatives and Funding

Efficiency Savings

The Executive Budget includes a decrease in funding as a result of efficiency savings identified by the Department in its operating budget.

Funding	FY 2019
General Fund	(1,200.0)
Issue Total	(1,200.0)

ISA for Fire Suppression Efforts on State Trust Land

The Executive Budget includes an increase in funding for the State Land Department to enter into an interagency service agreement (ISA) with the Department of Forestry and Fire Management (DFFM) to offset some of the costs incurred by DFFM as they engage in fire suppression activities on State Trust land.

A corresponding decrease in funding appears in DFFM's section.

Funding	FY 2019
Trust Land Management Fund	800.0
Issue Total	800.0

Convert One-Time Funding into Ongoing Support

The Executive Budget includes funding to continue support for the innovative programs initially funded in FY 2018.

The FY 2018 budget included \$2.5 million from the Trust Land Management Fund on a one-time basis for reassessment of federal permits, workflow digitization, survey assets, professional services contracts, and rights-of-way digitization.

The Executive Budget will make those investments permanent.

Funding	FY 2019
Trust Land Management Fund	0.0
Issue Total	0.0

Consolidate Unnecessary Special Line Items

The Executive Budget consolidates a number of special line items into the Department's operating lump sum to provide the operational flexibility that the Department requires to innovate.

The special line items that would be consolidated include Reassessment of Federal Permits, Workflow Digitization, Survey Assets, Professional Services Contracts, and Right-of-Way Digitization. The remaining special line items function as a pass-through and would remain intact.

In FY 2017, the Department received much of its appropriation as part of its operating lump sum. The FY 2018 budget created numerous special line items for projects integral to the Department's operations. Subsequent to a shift from the Legislature, all of the Department's special projects funded from the Trust Land Management fund were made special line items.

Funding	FY 2019
Trust Land Management Fund	0.0
Issue Total	0.0

Executive Budget Baseline Changes

CAP Water Rights Fees

The Executive Budget includes an increase in funding for projected Central Arizona Project (CAP) fees.

The Department holds rights to an allotment of 32,076 acre-feet of CAP water that benefits State Trust Lands. The Department is responsible for capital charges on those rights. Failure to pay the fees would result in the loss of water rights and a large reduction in the value of the specific parcel of land attached to those rights.

The Department has required a supplemental appropriation almost every year since 2011 to pay CAP fees, which results in paying CAP late each year. While other customers would be subject to late fees, CAP has not penalized the State yet. The amount of the supplemental has grown from \$96,200 in FY 2011 to \$449,100 in FY 2018, which suggests that the supplemental process may not be a suitable mechanism to meet CAP obligations going forward. The rate for FY 2019 was provisionally set in June 2017, and the final rate – likely to be higher – will be established in June 2018.

In anticipation of higher established rates, the Executive Budget includes additional funding beyond what is required to pay the provisional rate. This policy shift would provide the Department with sufficient resources to pay its CAP fees on time. The Executive contemplates that the overall appropriation would be non-lapsing, allowing the Department to use any remaining amount on CAP fees in FY 2020, thereby reducing the out-year

budgetary impact of increased CAP fees.

If a parcel of land that contains water rights is sold, all previously paid water-rights fees, plus interest and administrative fees, are reimbursed to the General Fund.

Funding	FY 2019
General Fund	1,249.1
Issue Total	1,249.1

Executive Budget Supplemental Changes

CAP Water Rights Fees

The Executive Budget includes supplemental funding to pay Central Arizona Project (CAP) water rights fees.

The FY 2018 budget included funding for CAP fees based on the FY 2017 final rate of \$31 per acre-foot. When the FY 2018 final rates were approved by CAP in June 2017 (after the FY 2018 budget was passed), the per-acre-foot cost increased by \$14, or 45%, requiring an additional \$449,100, for a total FY 2018 cost of \$1.4 million.

Failure to pay the fees would result in the loss of water rights and a large reduction in the value of the specific parcel of land attached to those rights.

If a parcel of land that contains water rights is sold, all previously paid water rights fees, plus interest and administrative fees, are reimbursed to the General Fund.

Funding	FY 2018
General Fund	449.1
Issue Total	449.1

Adjustments for risk management charges and retirement contributions for this agency are not incorporated into the totals shown here. They are listed separated with adjustments for all state agencies immediately following the Capital Projects section. Funding for these adjustments is included as part of the total Executive Budget.

Auditor General

The Auditor General is appointed by the Joint Legislative Audit Committee and approved by a concurrent resolution of the Legislature. By law, the Auditor General is required to express an opinion on the financial statements of audited entities, and determine compliance with applicable federal and Arizona laws and conduct comprehensive performance audits (or reviews) of state agencies and the programs they administer. In addition, the Auditor General is required to conduct performance audits of school districts and monitor the percentage of dollars spent in the classroom.

Department of Liquor Licenses and Control

The Department regulates all businesses dealing with spiritous liquor. The Department reviews and investigates complaints, police reports, and civil violations regarding licensees. The Department investigates all allegations against licensees, whether criminal or civil, and in collaboration with the Attorney General's Office, prosecutes before civil and criminal courts. Further, the Department educates youth to reduce underage drinking.

Agency Total	5,122.0	4,310.4	91.1	4,401.5

Major Executive Budget Initiatives and Funding

Fleet Reduction

The Executive Budget includes a decrease in funding to reflect a reduction in the Department's vehicle fleet.

The Department has a fleet of 22 vehicles, two of which are specialty vehicles used for public safety enforcement and community prevention and education events. Seventeen other vehicles provide transport for 14 police investigators, two auditors (shared vehicle), and two executive staff members.

The three remaining vehicles are unassigned and rotated among staff to backfill for regularly assigned vehicles that are down for maintenance or other work. The Department plans to retire one police vehicle from its fleet.

Funding	FY 2019
Liquor Licenses Fund	(4.5)
Issue Total	(4.5)

Licensing Vacancy

The Executive Budget includes a one-time decrease in funding due to an expected staffing vacancy throughout FY 2019.

In FY 2018, the Department is holding vacant one position in the Licensing and Administration Division to help offset costs associated with the new e-licensing computer system.

That vacancy will continue in FY 2019 to provide time for the Department to assess the license processing efficiencies that can be realized in the new e-licensing system. If the results are favorable, the position might be eliminated.

Funding	FY 2019
Liquor Licenses Fund	(41.7)
Issue Total	(41.7)

Rent Savings - Tucson

The Executive Budget includes a decrease in funding for a rent reduction resulting from the November 1, 2017,

relocation of the Department's Tucson office.

Funding	FY 2019
Liquor Licenses Fund	(10.0)
Issue Total	(10.0)

E-Licensing Subscription Costs

The Executive Budget includes an increase in funding for the ongoing software subscription fee required under the Department's contract with the vendor for the new e-licensing system.

The FY 2015 budget included funding for the Department to purchase a new licensing data management system to replace its legacy system. The new system is expected to significantly reduce processing times for licenses and to result in roughly 60% of the Department's licensing services being available online by spring 2018.

Funding	FY 2019
Liquor Licenses Fund	147.3
Issue Total	147.3

Adjustments for risk management charges and retirement contributions for this agency are not incorporated into the totals shown here. They are listed separated with adjustments for all state agencies immediately following the Capital Projects section. Funding for these adjustments is included as part of the total Executive Budget.

The Executive Budget provides a lump-sum appropriation to the agency.

Lottery Commission

The Arizona Lottery was established to maximize net revenue dedicated to a variety of beneficiaries assigned through a statutory distribution formula. An Advisory Commission and an Executive Director, both appointed by the Governor, oversee operations. The Lottery sells products through a licensed retailer network to provide players with innovative, entertaining, and rewarding games of chance.

Major Executive Budget Initiatives and Funding

Digital Transformation - Subscription Costs

The Executive Budget includes an increase and shift in funding for ongoing maintenance and licensing costs of the Arizona Lottery Digital Transformation project.

The FY 2018 budget transferred \$3.5 million in one-time funding from the Lottery Fund to the Automation Projects Fund for the Digital Transformation project. Of the \$3.5 million, \$790,000 was dedicated to annual maintenance and licensing costs to enable Lottery to configure the new Customer Relationship Management system for its own specific use. The Executive Budget includes an appropriation directly to the Arizona Lottery given the ongoing purpose of the funding. The final phase of the project will be complete in March 2019.

Funding	FY 2019
Lottery Fund	790.0
Issue Total	790.0

Adjustments for risk management charges and retirement contributions for this agency are not incorporated into the totals shown here. They are listed separated with adjustments for all state agencies immediately following the Capital Projects section. Funding for these adjustments is included as part of the total Executive Budget.

Agency Total	413.7	466.1	3.7	469.8

Major Executive Budget Initiatives and Funding

Relocation to 1740 West Adams

The Executive Budget includes an increase in funding for the Board's new shared services costs associated with relocating to the State-owned building at 1740 W. Adams St. in Phoenix. The funding associated with this issue does not reflect the change in State rental payments, which appears in the Statewide Adjustments section. The Board's funding issue below results in a net decrease in costs. The Board will relocate by the end of January 2018.

Twenty-six boards and commissions are moving to the new location, which is designed to operate more efficiently than the agencies' previous spaces. The expected savings in rent and shared services across all 26 agencies is estimated to be \$349,500.

In an effort to consolidate services for those agencies, the new location will feature shared conference rooms and other common spaces and shared contracts for Wi-Fi services, building security, and conference room phones, costing a total of \$150,900 for all of the tenant agencies. Additionally, 21 of the agencies will share 1.0 FTE receptionist position on the first floor of the building.

In FY 2019, the Board will spend \$5,200 for shared services costs such as Wi-Fi and security, compared to \$1,500 for any similar services at its previous location. New funding is required to cover the \$3,700 increase.

At the previous State-owned space, the agency paid \$28,400 for rent. At the new space, the agency will pay \$17,700. The change in the agency's rental payments of \$(10,700) appears in the Statewide Adjustments section.

Medical Board

The Agency staff supports two Boards – the Arizona Medical Board, which licenses and regulates allopathic physicians, and the Arizona Regulatory Board of Physician Assistants, which licenses and regulates physician assistants. The Agency processes applications for licenses, handles public complaints against licensees, and disseminates information pertaining to licensees and the regulatory process. The two Boards determine and administer disciplinary action in the event of proven violations of their respective practice acts. Together, the Boards regulate over 26,000 licensees.

Major Executive Budget Initiatives and Funding

Relocation to 1740 West Adams

The Executive Budget includes an increase in funding for the Board's new shared services costs associated with relocating to the State-owned building at 1740 W. Adams St. in Phoenix. The funding associated with this issue does not reflect the change in State rental payments, which appears in the Statewide Adjustments section. The Board's funding issue below results in a net decrease in costs. The Board will relocate by the end of January 2018.

Twenty-six boards and commissions are moving to the new location, which is designed to operate more efficiently than the agencies' previous spaces. The expected savings in rent and shared services across all 26 agencies is estimated to be \$349,500.

In an effort to consolidate services for those agencies, the new location will feature shared conference rooms and other common spaces and shared contracts for Wi-Fi services, building security, and conference room phones, costing a total of \$150,900 for all of the tenant agencies. Additionally, 21 of the agencies will share 1.0 FTE receptionist position on the first floor of the building.

In FY 2019, the Board will spend \$24,800 for shared services costs such as Wi-Fi and security, compared to \$7,400 for any similar services at its previous location. New funding is required to cover the \$17,400 increase.

At the previous State-owned space, the agency paid \$200,000 for rent. At the new space, the agency will pay \$150,200. The change in the agency's rental payments of \$(49,800) appears in the Statewide Adjustments section.

Mine Inspector

The State Mine Inspector is a statewide elected constitutional officer and the director of the Office of the State Mine Inspector. The Office enforces statutes, rules and regulations applicable to mine safety, health, explosives, and land reclamation. The Office inspects the health and safety conditions and practices at active mining operations, investigates mine accidents, employee and public complaints, and conducts federally-certified miner and instructor safety training.

The Office administers reclamation financial assurance and enforces the Mined Land Reclamation laws, rules, and regulations for the restoration of disturbed lands to a safe and stable environmental condition. The Office promotes public safety regarding abandoned mines by "Stay Out Stay Alive" promotions, presentations, and publications. The Office conducts complaint investigations, issues mine owner compliance notifications, and identifies, assesses, and secures mine safety hazards. The Office also issues permits, licenses, and certificates for elevators and electrical connections and monitors the manufacturing, storing, selling, transferring, and disposal of all explosives or blasting agents.

Major Executive Budget Initiatives and Funding

Relocation to 1740 West Adams

The Executive Budget includes an increase in funding for the Board's new shared services costs associated with relocating to the State-owned building at 1740 W. Adams St. in Phoenix. The funding associated with this issue does not reflect the change in State rental payments, which appears in the Statewide Adjustments section. The Board's funding issue below results in a net increase in costs. The Board will relocate by the end of January 2018.

Twenty-six boards and commissions are moving to the new location, which is designed to operate more efficiently than the agencies' previous spaces. The expected savings in rent and shared services across all 26 agencies is estimated to be \$349,500.

In an effort to consolidate services for those agencies, the new location will feature shared conference rooms and other common spaces and shared contracts for Wi-Fi services, building security, and conference room phones, costing a total of \$150,900 for all of the tenant agencies. Additionally, 21 of the agencies will share 1.0 FTE receptionist position on the first floor of the building.

In FY 2019, the Board will spend \$1,900 for shared services costs such as Wi-Fi and security, compared to \$400 for any similar services at its previous location. New funding is required to cover the \$1,500 increase.

At the previous State-owned space, the agency paid \$8,000 for rent. At the new space, the agency will pay \$6,600. The change in the agency's rental payments of \$(1,400) appears in the Statewide Adjustments section.

Funding	FY 2019
Naturopathic Board Fund	1.5
Issue Total	1.5

Executive Budget Supplemental Changes

Formal Hearing and Witness Fees

The Executive Budget includes FY 2018 supplemental funding for one-time expenses related to formal hearing fees and obtaining expert witness testimony.

The Board is pursuing legal action to combat alleged misconduct from the improper prescription of opioids. For the first time since 2014, an investigation has gone to a formal hearing. An expert witness is required for pre-hearing assistance, depositions, and appearance at the hearings.

Funding	FY 2018
Naturopathic Board Fund	23.0
Issue Total	23.0

Major Executive Budget Initiatives and Funding

Relocation to 1740 West Adams

The Executive Budget includes a decrease in funding for the Board's new shared services costs associated with relocating to the State-owned building at 1740 W. Adams St. in Phoenix, and a decrease in funding for private rental payments. The funding associated with this issue does not reflect the increase for State rental payments, which appears in the Statewide Adjustment section. The Board's funding issue below results in a net decrease in costs. The Board will relocate by the end of January 2018.

Twenty-six boards and commissions are moving to the new location, which is designed to operate more efficiently than the agencies' previous spaces. The expected savings in rent and shared services across all 26 agencies is estimated to be \$349,500.

In an effort to consolidate services for those agencies, the new location will feature shared conference rooms and other common spaces and shared contracts for Wi-Fi services, building security, and conference room phones, costing a total of \$150,900 for all of the tenant agencies. Additionally, 21 of the agencies will share 1.0 FTE receptionist position on the first floor of the building.

In FY 2019, the Board will spend \$25,200 for shared services costs such as Wi-Fi and security, compared to \$60,000 for any similar services at its previous location. A reduction in funding is due to the \$(34,800) decrease.

Also, the Board will no longer be paying \$287,300 in rent to a private landlord. The Board's rent costs for the new State-owned space of \$151,800 appears in the Statewide Adjustments section.

The amount specified below includes a decrease of \$(34,800) for new shared services, and a decrease of \$(287,300) for private rental payments, yielding a net change of \$(322,100).

The Executive Budget provides a lump-sum appropriation to the agency.

Nursing Care Ins. Admin. Examiners

The Board of Nursing Care Institution Administrators and Assisted Living Facilities Managers evaluates and processes initial applications and renewals from individuals seeking nursing home administrator licenses and assisted living facility manager certificates. Since both administrators and managers are required by law to meet continuing education requirements, the Board also approves continuing education programs. The Board approves, renews, and regulates assisted living facility manager and caregiver training programs. The Board investigates complaints received from the public or the Department of Health Services and imposes disciplinary action on licensees or certificate holders when necessary. All Board functions are accomplished through a fee-financed program of examination, licensure, and regulation.

Major Executive Budget Initiatives and Funding

E-Licensing Ongoing Costs

The Executive Budget includes an increase in funding for the Board's share of ongoing operating costs associated with the new e-licensing system that was established in FY 2018 and will be used by 14 agencies. The system is expected to provide a fast and efficient online experience for applicants and licensees.

The Board will begin using the e-licensing system in early 2018. The Board will pay annual licensing costs for the online platforms on which the e-licensing system is built and will share the services of a full-time system administrator at the Department of Administration.

Funding	FY 2019
Nursing Care Institution Admin/ACHMC Fund	24.4
Issue Total	24.4

Relocation to 1740 West Adams

The Executive Budget includes no change in funding for the Board's new shared services costs associated with relocating to the State-owned building at 1740 W. Adams St. in Phoenix. The funding associated with this issue does not reflect the change in State rental payments, which appears in the Statewide Adjustments section. The Board's funding issue below results in a net decrease in costs. The Board will relocate by the end of January 2018.

Twenty-six boards and commissions are moving to the new location, which is designed to operate more efficiently than the agencies' previous spaces. The expected savings in rent and shared services across all 26 agencies is estimated to be \$349,500.

In an effort to consolidate services for those agencies, the new location will feature shared conference rooms and other common spaces and shared contracts for Wi-Fi services, building security, and conference room phones, costing a total of \$150,900 for all of the tenant agencies. Additionally, 21 of the agencies will share 1.0 FTE receptionist position on the first floor of the building.

In FY 2019, the Board will spend \$3,900 for shared services costs such as Wi-Fi and security, compared to \$1,200 for any similar services at its previous location. Due to reversion history at the agency, no new funding is required to cover the \$2,700 increase.

At the previous State-owned space, the agency paid \$23,000 for rent. At the new space, the agency will pay \$14,300. The change in the agency's rental payments of \$(8,700) appears in the Statewide Adjustments section.

Board of Occupational Therapy Examiners

The Board of Occupational Therapy Examiners is a regulatory board that issues and renews over 3,700 licenses for occupational therapists and occupational therapy assistants. By law, the Board requires that each applicant meet minimum standards of education, experience, and competency. The Board also receives and investigates complaints, takes appropriate disciplinary action, and responds to inquiries from consumers as to the license status of occupational therapy professionals.

Relocation to 1740 West Adams

The Executive Budget includes an increase in funding for the Board's new shared services costs associated with relocating to the State-owned building at 1740 W. Adams St. in Phoenix, and a decrease in funding for private rental payments. The funding associated with this issue does not reflect the increase for State rental payments, which appears in the Statewide Adjustment section. The Board's funding issue below results in a net decrease in costs. The Board will relocate by the end of January 2018.

Twenty-six boards and commissions are moving to the new location, which is designed to operate more efficiently than the agencies' previous spaces. The expected savings in rent and shared services across all 26 agencies is estimated to be \$349,500.

In an effort to consolidate services for those agencies, the new location will feature shared conference rooms and other common spaces and shared contracts for Wi-Fi services, building security, and conference room phones, costing a total of \$150,900 for all of the tenant agencies. Additionally, 21 of the agencies will share 1.0 FTE receptionist position on the first floor of the building.

In FY 2019, the Board will spend \$1,500 for shared services costs such as Wi-Fi and security, compared to \$0 for any similar services at its previous location. New funding is required to cover the \$1,500 increase.

Also, the Board will no longer be paying \$9,700 in rent to a private landlord. The Board's rent costs for the new State-owned space of \$6,000 appears in the Statewide Adjustments section.

The amount specified below includes an increase of \$1,500 for new shared services, offset by a decrease of \$(9,700) for private rental payments, yielding a net change of \$(8,200).

Board of Dispensing Opticians

The Board of Dispensing Opticians licenses professionals to practice in the field of opticianry, and licenses optical establishments. This Board is distinguished from the Board of Optometry, which regulates optometrists, whereas dispensing opticians fill orders for and fit persons with corrective eyewear. The Board of Dispensing Opticians accepts complaints against licensees, and unlicensed entities, investigates, and adjudicates.

The Executive Budget provides a lump-sum appropriation to the agency.

Parks Board

The Arizona State Parks Board was created in 1957 by the legislature to enhance the economies of rural Arizona while also protecting Arizona's most precious historic and natural resources that attracted more than 2.9 million visitors in FY17, one-half of which are typically visitors to the state. Arizona State Parks developed, and in collaboration with partners, manages 35 State Parks and Natural Areas and provides safe and enjoyable facilities and programs throughout the state. There are over 64,000 acres of State Park property for the public to enjoy.

Arizona State Parks serves as an economic engine to the State of Arizona. Rural economies depend on open, well-kept and well-staffed state parks. Other agency programs include the State Historic Preservation Office, which is responsible for the identification, evaluation and protection of Arizona's prehistoric and historic heritage resources and compliance with federal and state laws. The agency also coordinates outdoor recreation and cultural preservation grant programs and statewide resource planning, public involvement and educational opportunities through partnerships for public purposes. Arizona State Parks is comprised of the Director's Office and three divisions: Park Development and Operations, Partnerships and Grant and Administrative Services.

Major Executive Budget Initiatives and Funding

Oracle State Park Expansion

The Executive Budget includes an increase in funding to expand access to Oracle State Park beyond its current day-use status.

Oracle State Park is a 4,000-acre wildlife refuge nestled in the foothills of the Catalina Mountains, about an hour drive north of Tucson. First opened to the public in 2001, the park offers robust recreation opportunities with over 15 miles of hiking and biking trails, picnic areas, and access to the Arizona Trail. Donated by the Kannally family in 1976, the park is also home to the historic 1930s Kannally Ranch House, a Mediterranean-Revival style ranch house completed in 1933 and listed on the National Register of Historic Places. The house includes a museum with over 30 impressionist-style oil paintings by cowboy artist and rancher Lee Kannally. The park is a destination for amateur astronomers and has been awarded an International Dark Sky Park designation. The park also hosts environmental education programs for school groups and is a popular wedding venue.

Currently, the park is open only for day use, closing at 5:00 p.m. daily. The Executive plans to extend park hours by adding overnight capacity. The expansion adds 30 RV sites, 20 cabins, and 20 tent sites. This park upgrade is expected to relieve some of the demand at nearby Catalina State Park, which routinely turns away visitors during peak seasons. The project will also add more hiking and biking trails and restore the park's historic cabins. The park operates at a net annual deficit of \$(286,000), but the one-time investment is projected to increase annual revenue by \$1.2 million.

The funding for this issue appears in the Capital section.

Funding	FY 2019
State Parks Revenue Fund	0.0
Issue Total	0.0

Buckskin Mountain Redevelopment - Phase 1

The Executive Budget includes an increase in funding for major renovations and infrastructure renewal at Buckskin Mountain State Park.

Funding consists of \$1.5 million from the State Parks Revenue Fund and \$1 million from the non-appropriated State Lake Improvement Fund, which is not reflected below.

Buckskin Mountain State Park is located on the Colorado River in Parker, approximately 40 minutes south of Lake Havasu City. In FY 2017, Buckskin Mountain welcomed 70,000 visitors and generated \$640,000 in revenue. First opened in 1967, the park is overdue for a major renovation and infrastructure improvements to remain competitive with the other parks in the area. Because this park is busy year-round, with water recreation visitors from March to October and winter visitors from October to March, the Executive plans to phase in the redevelopment so that the park can stay open during the project, minimizing the impact to visitors and revenues. Phase 1 of the redevelopment will include 15 new cabins, electrical and water infrastructure upgrades, and new shower and restroom facilities.

The Executive Budget forecast contemplates Phases 2 and 3 to be funded in FY 2020 and FY 2021, at a cost of \$2.5 million and \$2 million, respectively. In total, the \$7 million redevelopment will add 19 cabins, 18 RV sites, a boat launch ramp, beaches, ramadas, and an expanded parking lot to accommodate additional visitors. Once complete, the redevelopment is expected to increase annual park revenues by \$1 million.

The funding for this issue appears in the Capital section.

Funding	FY 2019
State Parks Revenue Fund	0.0
Issue Total	0.0

Statewide Capital Improvement Projects

The Executive Budget includes an increase in one-time funding for capital improvement projects at parks across the state.

In addition to large-scale park development projects, the Arizona State Parks has a capital improvement plan to prioritize smaller-scale, revenue generating improvements and building renewal projects at parks throughout Arizona. The projects are intended to ensure the parks remain competitive by offering attractive, well-kept grounds, buildings, and facilities.

Specifically, State Parks plans to repaint facilities, refurbish restrooms, and upgrade water and sanitary systems. The agency will also focus on projects that improve the guest experience by adding in-demand amenities, such as Wi-Fi access and electrified campsites.

In FY 2019, the Executive Budget provides \$1.3 million for these projects, which is consistent with the amount appropriated on a one-time basis in the FY 2018 capital outlay section of the budget.

The funding for this issue appears in the Capital section.

Funding	FY 2019
State Parks Revenue Fund	0.0
Issue Total	0.0

Major Maintenance and Repairs

The Executive Budget includes an increase in funding for major maintenance and repairs at parks across the state.

There are 827 buildings within the Arizona State Parks system, and many are overdue for renewal. The needed maintenance and repairs span a wide range from wastewater system reconstruction to roof repairs.

As park visitation continues to increase dramatically, including an FY 2017 increase of nearly 9%, wear and tear on park infrastructure and facilities will also increase. For this reason, a sufficient major maintenance and repair budget is necessary to ensure the agency is able to maintain capital assets to avoid revenue loss from park closures and to ensure safe access for all visitors and employees.

The funding for this issue appears in the Capital section.

Executive Budget Baseline Changes

New Parks Operations Funding

The Executive Budget includes an increase in funding for operations of Rockin' River Ranch State Park and Cattail Cove State Park.

The two new State parks require an increased appropriation to support new staff, utilities, equipment, and repairs consistent with similar parks across the state.

Funding for Rockin' River Ranch includes:

Agency Operating Detail

Parks Board 287

- \$96,000 for two new full-time employees, along with two seasonal employees.
- \$70,000 for utilities (e.g., electricity and sanitation).
- \$34,000 for equipment and repairs.

Funding for Cattail Cove includes:

- \$90,000 for five seasonal employees.
- \$67,000 for utilities.
- \$43,000 for equipment and repairs.

The Executive Budget provides a lump-sum appropriation to the agency with special lines.

Personnel Board

The State Personnel Board is responsible for hearing and reviewing, via an administrative hearing process, appeals filed by covered state employees who have been dismissed from state service, suspended for more than 80 working hours, or involuntarily demoted resulting from disciplinary action. The Board also hears and reviews complaints filed under the whistleblower statute. Under the direction of the presiding hearing officer, the proceedings are conducted on an informal basis through the taking of direct testimony, the cross examination of witnesses, and the admission of evidence. A record of the proceedings is taken and made available, upon request, to hearing officers, board members, and parties to the appeal. The hearing officer determines the facts based on the evidence presented and makes a recommendation regarding discipline to the Board. Board members are subsequently provided with case information so they may determine whether proper discipline has been imposed.

Major Executive Budget Initiatives and Funding

Relocation to 1740 West Adams

The Executive Budget includes an increase in funding for the Board's new shared services costs associated with relocating to the State-owned building at 1740 W. Adams St. in Phoenix. The funding associated with this issue does not reflect the change in State rental payments, which appears in the Statewide Adjustments section. The Board's funding issue below results in a net decrease in costs. The Board will relocate by the end of January 2018.

Twenty-six boards and commissions are moving to the new location, which is designed to operate more efficiently than the agencies' previous spaces. The expected savings in rent and shared services across all 26 agencies is estimated to be \$349,500.

In an effort to consolidate services for those agencies, the new location will feature shared conference rooms and other common spaces and shared contracts for Wi-Fi services, building security, and conference room phones, costing a total of \$150,900 for all of the tenant agencies. Additionally, 21 of the agencies will share 1.0 FTE receptionist position on the first floor of the building.

In FY 2019, the Board will spend \$1,900 for shared services costs such as Wi-Fi and security, compared to \$1,300 for any similar services at its previous location. New funding is required to cover the \$600 increase.

At the previous State-owned space, the agency paid \$24,700 for rent. At the new space, the agency will pay \$6,600. The change in the agency's rental payments of \$(18,100) appears in the Statewide Adjustments section.

Board of Pharmacy

The Board of Pharmacy has four primary functions. The first is to issue licenses to pharmacists, pharmacy interns and pharmacy technicians. Additionally, it is responsible for issuing permits to pharmacies, stores selling over-the-counter (OTC) products, manufacturers, wholesalers and distributors. The Board also conducts compliance inspections of permitted facilities, and investigates complaints and adjudicates violations of applicable state and federal laws and rules. The Board promulgates and reviews state rules and regulations in regard to the industry. The Board of Pharmacy oversees the Controlled Substance Prescription Monitoring Program (CSPMP). The CSPMP is a tool which will enable practitioners to prescribe appropriately.

Remove One-time FY 2018 Appropriations

The Executive Budget includes a decrease in funding for the removal of one-time appropriations in FY 2019.

The FY 2018 Budget included \$125,000 from the Arizona State Board of Pharmacy Fund for a Prescriber Report Card program. Of that amount, \$75,000 is one-time. Also, the FY 2018 Budget included a one-time increase of \$15,000 from the Arizona State Board of Pharmacy Fund for a Rule Writer and a one-time increase of \$24,500 for the annual leave payout for the retirement of Board of Pharmacy personnel.

Major Executive Budget Initiatives and Funding

E-Licensing Ongoing Costs

The Executive Budget includes an increase in funding for the Board's share of ongoing operating costs associated with the new e-licensing system that was established in FY 2018 and will be used by 14 agencies. The system is expected to provide a fast and efficient online experience for applicants and licensees.

The Board will begin using the e-licensing system in early 2018. The Board will pay annual licensing costs for the online platforms on which the e-licensing system is built and will share the services of a full-time system administrator at the Department of Administration.

Funding	FY 2019
Physical Therapy Fund	41.6
Issue Total	41.6

One-Time Document Scanning

The Executive Budget includes an increase in one-time funding for document scanning services as part of a broader effort to move licensing and license renewal processes online.

The digitization of records aligns with the state's initiative for agencies to conduct business electronically when circumstances allow. The Board plans to engage the state's e-licensing vendor in FY 2019 to migrate licensing data to the chosen platform. The funding will pay a contracted service to prepare the documents, scan the documents into searchable digital files, and securely dispose of the original paper copies.

Funding	FY 2019
Physical Therapy Fund	5.0
Issue Total	5.0

Relocation to 1740 West Adams

The Executive Budget includes an increase in funding for the Board's new shared services costs associated with relocating to the State-owned building at 1740 W. Adams St. in Phoenix, and a decrease in funding for private rental payments. The funding associated with this issue does not reflect the increase for State rental payments, which appears in the Statewide Adjustment section. The Board's funding issue below results in a net increase in costs. The Board will relocate by the end of January 2018.

Twenty-six boards and commissions are moving to the new location, which is designed to operate more efficiently than the agencies' previous spaces. The expected savings in rent and shared services across all 26 agencies is estimated to be \$349,500.

In an effort to consolidate services for those agencies, the new location will feature shared conference rooms and other common spaces and shared contracts for Wi-Fi services, building security, and conference room phones, costing a total of \$150,900 for all of the tenant agencies. Additionally, 21 of the agencies will share 1.0 FTE receptionist position on the first floor of the building.

In FY 2019, the Board will spend \$4,300 for shared services costs such as Wi-Fi and security, compared to \$300 for any similar services at its previous location. New funding is required to cover the \$4,000 increase.

Also, the Board will no longer be paying \$12,200 in rent to a private landlord. The Board's rent costs for the new State-owned space of \$13,700 appears in the Statewide Adjustments section.

The amount specified below includes an increase of \$4,000 for new shared services, offset by a decrease of \$(12,200) for private rental payments, yielding a net change of \$(8,200).

The Executive Budget provides a lump-sum appropriation to the agency.

Pioneers' Home

The Arizona Pioneers' Home was established in 1909 by the territorial government of Arizona as a home for the aged and infirm to repay the faithful and longtime Arizona residents who helped pioneer and build the state. It opened its doors in 1911. In 1929, the scope of the home was broadened to also be Arizona's hospital for disabled miners. The Arizona Pioneers' Home is a continuing care retirement home presently serving 105 Arizona pioneers and disabled miners. The Pioneers' Home employees provide direct nursing care, food service, activities, social services, housekeeping, laundry, maintenance, business and administrative services and support to the residents, and strive to meet state and federal nursing facility standards through modeling best practices. The Home is surveyed each year by the Arizona Department of Health Service's Office of Long Term Care.

Major Executive Budget Initiatives and Funding

Equipment for Injury Prevention

The Executive Budget includes an increase in funding for the purchase of mobility-assistance equipment to reduce the risk of injury to staff when moving patients.

The Arizona Pioneers' Home provides care for dependent men and women, many of whom need mobility assistance, such as from a bed to a wheelchair or from a wheelchair to a bath. The Risk Management Division of the Department of Administration has found that, from FY 2013 to FY 2018, 53% of injuries sustained by staff occurred in moving patients. The costs associated with those injuries averaged \$47,000 per year.

Funding	FY 2019
Pioneers' Home Miners' Hospital Fund	131.8
Issue Total	131.8

Adjustments for risk management charges and retirement contributions for this agency are not incorporated into the totals shown here. They are listed separated with adjustments for all state agencies immediately following the Capital Projects section. Funding for these adjustments is included as part of the total Executive Budget.

Board of Podiatry Examiners

The State Board of Podiatry Examiners licenses and regulates doctors of podiatric medicine who specialize in the diagnosis and treatment of the foot, ankle and lower leg. The Board evaluates the professional competency of podiatrists seeking to be licensed in the State of Arizona. Further, the Board promotes continued competency and fitness by investigating complaints made against practitioners, holding hearings, monitoring the activities of its licensees and enforcing the standards of practice for the podiatric profession as set forth by law.

Major Executive Budget Initiatives and Funding

Relocation to 1740 West Adams

The Executive Budget includes no change in funding for the Board's new shared services costs associated with relocating to the State-owned building at 1740 W. Adams St. in Phoenix. The funding associated with this issue does not reflect the change in State rental payments, which appears in the Statewide Adjustments section. The Board's funding issue below results in a net increase in costs. The Board will relocate by the end of January 2018.

Twenty-six boards and commissions are moving to the new location, which is designed to operate more efficiently than the agencies' previous spaces. The expected savings in rent and shared services across all 26 agencies is estimated to be \$349,500.

In an effort to consolidate services for those agencies, the new location will feature shared conference rooms and other common spaces and shared contracts for Wi-Fi services, building security, and conference room phones, costing a total of \$150,900 for all of the tenant agencies. Additionally, 21 of the agencies will share 1.0 FTE receptionist position on the first floor of the building.

In FY 2019, the Board will spend \$1,200 for shared services costs such as Wi-Fi and security, compared to \$200 for any similar services at its previous location. Due to reversion history at the agency, no new funding is required to cover the \$1,000 increase.

At the previous State-owned space, the agency paid \$4,400 for rent. At the new space, the agency will pay \$5,200. The change in the agency's rental payments of \$800 appears in the Statewide Adjustments section.

Funding	FY 2019
Podiatry Examiners Board Fund	0.0
Issue Total	0.0

E-Licensing Ongoing Costs

The Executive Budget includes an increase in funding for the Board's share of ongoing operating costs associated with the new e-licensing system that was established in FY 2018 and will be used by 14 agencies. The system is expected to provide a fast and efficient online experience for applicants and licensees.

The Board will begin using the e-licensing system in early 2018. The Board will pay annual licensing costs for the online platforms on which the e-licensing system is built and will share the services of a full-time system administrator at the Department of Administration.

Funding	FY 2019

Commission for Postsecondary Education

The Arizona Commission for Postsecondary Education (ACPE) comprises sixteen commissioners, fourteen of whom are Governor-appointed. Commissioners represent both public and private postsecondary education and its constituencies. Core responsibilities of the ACPE are related to student financial assistance programs including administration of state grants, scholarships, forgivable loans, and the Arizona Family College Savings (529) Program. The Commission provides timely and effective communication and programs to assist students and their families plan, transition, and succeed in postsecondary education. The Commission offers the single forum where all sectors of postsecondary education dialogue, collaborate, and problem-solve issues of mutual interest.

Power Authority

The Arizona Power Authority (APA) manages Arizona's allocation of hydroelectric power from the Hoover Dam for the overall benefit of the state. The APA cooperates with federal, state, and non-governmental agencies to address regulatory, environmental, and other matters that impact electric power and water uses of the Colorado River. In addition, the APA serves as an information resource for its customers on topics that impact their electric resources and the utilization of these resources. The Authority may also pursue generation and/or transmission projects that are within the APA's legislative mandate and are in the best interest of the state.

FOR MORE DETAIL ABOUT EACH FUND SEE THE STATE FUNDS BOOK

The Executive Budget provides a lump-sum appropriation to the agency.

Department of Public Safety

The Arizona Department of Public Safety enforces state law with primary responsibility in the areas of traffic safety, criminal interdiction, narcotics, organized crime, auto theft, and specific regulatory functions. Services include homeland security, criminal intelligence, scientific analysis, aviation support, criminal information system, training, and statewide communications. Operational and technical assistance is provided to local and state agencies and other components of the criminal justice community. The Department also promotes and enhances the quality of public safety through cooperative enforcement and community awareness programs.

All numbers representing dollars are expressed in thousands.

Agency Budget Summary

	FY 2017 Actual	FY 2018 Exp.Plan	FY 2019 Net Change	FY 2019 Exec. Bud.
General Fund	114,214.6	109,614.2	(2,031.9)	107,582.3
Other Appropriated Funds	168,104.5	174,648.7	12,096.5	186,745.2
Non-Appropriated Funds	74,438.3	107,626.3	(17,516.7)	90,109.6
Agency Total	356,757.4	391,889.2	(7,452.1)	384,437.1

Major Executive Budget Initiatives and Funding

Pharmaceutical Diversion & Drug Theft Task Force

The Executive Budget includes an increase in funding for 2.0 FTE Detective positions and 1.0 FTE Sergeant position and to establish the Arizona Pharmaceutical Diversion and Drug Theft Task Force.

The Task Force would combat the abuse and trafficking of prescription drugs and inappropriate prescriber behavior by identifying, investigating, and referring for prosecution the illegal distribution of pharmaceutical-grade controlled substances.

The Task Force would also partner with the Drug Enforcement Administration, the Department of Health Services, and the Board of Pharmacy, as well as invite local and county law enforcement officials to participate as resources allow.

Funding	FY 2019
Drug and Gang Prevention Resource Center Fund	758.1
Issue Total	758.1

Wrong Way Driving Patrol

The Executive Budget includes an increase in funding for 6.0 FTE Trooper positions to provide additional support to DPS's 8:00 p.m. to 6:00 a.m. shift, referred to as the "Night Watch," as part of the Executive's strategy to mitigate wrong-way driving.

The Night Watch is staffed by 44 Troopers, seven Sergeants, and one Captain. Based on the number of calls for service, highway miles, traffic volume, and other factors, there is a need for 19 additional troopers to patrol the metropolitan Phoenix freeway system at night.

Increased staffing would allow the Department to respond more quickly to reports of wrong-way or other dangerous driving in the Phoenix area.

Funding	FY 2019
General Fund	1,444.0
Issue Total	1,444.0

Border Strike Force Enhancement

The Executive Budget includes an increase in funding for 11.0 FTE Trooper positions and 1.0 FTE Sergeant position to achieve 24/7 coverage in additional regions of southern Arizona.

Only a small portion of Cochise, Graham, Greenlee, La Paz, Pima, Pinal, Santa Cruz, and Yuma counties have 24/7 coverage by the Department's Southern Arizona Highway Patrol Bureau.

The lack of 24/7 coverage in most parts of southern Arizona raises public safety concerns, with the potential for criminals to shift illegal activities into the evening hours when law enforcement presence is diminished. Border county sheriffs and other stakeholders have expressed a desire to have the highways in southern Arizona patrolled around-the-clock. Achieving 24/7 coverage would improve highway safety and enhance law enforcement interdiction efforts.

Funding	FY 2019
General Fund	2,924.1
Issue Total	2,924.1

Microwave System Upgrade

The Executive Budget includes an increase in funding for commercial power upgrades to the DPS Network Operations Center in Phoenix and for preventive maintenance on DPS radio towers.

DPS owns, operates, and maintains a statewide microwave network that provides critical voice and radio communications for multiple State agencies and a number of local, federal, and tribal agencies. Upgrades to the power supply for the Network Operations Center are necessary to ensure the availability of the radio network for public safety members who depend on it for communications.

The funding for this project appears in the Department of Administration section.

Funding	FY 2019
Public Safety Equipment Fund	0.0
Issue Total	0.0

Criminal Justice Information System Conversion

The Executive Budget includes an increase in funding for the second year of a three-year project to improve the Arizona Criminal Justice Information System (ACJIS).

Pursuant to A.R.S. § 41-1750, DPS is responsible for the effective operation of the central state repository in order to collect, store, and disseminate complete and accurate Arizona criminal history records and related criminal justice information. This information is housed in ACJIS, which resides in a mainframe computer environment and utilizes old programming languages and technologies. DPS is in the process of modernizing ACJIS to an open system that uses newer applications, databases, and languages.

The funding for this project appears in the Department of Administration section.

Funding	FY 2019
Arizona Highway Patrol Fund	0.0
Issue Total	0.0

Restoring Funding to Police Academy Training

The Executive Budget includes an increase in funding for the Arizona Peace Officer Standards and Training (AZPOST) Board to cover critical law enforcement training expenses.

The AZPOST Board receives its operating revenue from a 16.64% distribution from the Criminal Justice Enhancement Fund (CJEF). Since FY 2008, total revenues into CJEF have decreased by (32.5)%, leaving the fund unable to support the level of funding that AZPOST is required to provide to law enforcement training academies across the state.

The Executive has identified the Automobile Theft Authority Fund as an alternate ongoing funding source with a clear nexus to public safety. This funding will ensure that law enforcement training academies continue to offer the most advanced and relevant training to state and local law enforcement agencies.

Funding	FY 2019
Automobile Theft Authority Fund	837.0
Issue Total	837.0

Reallocation of Resources

The Executive Budget includes a reduction from the General Fund and a commensurate increase from the State Highway Fund.

This fund shift is based on cost savings efforts identified by the Arizona Department of Transportation (ADOT) that resulted in new ongoing capacity in the State Highway Fund. As a result, the Executive Budget applies ADOT's identified funding shifts to the DPS FY 2019 operating budget.

Funding	FY 2019
General Fund	(5,200.0)
State Highway Fund	5,200.0
Issue Total	0.0

Automobile Theft Authority Consolidation

The Executive Budget consolidates the Automobile Theft Authority within the Department of Public Safety.

Consolidating the Automobile Theft Authority within the Department will allow the Department to assist with administrative functions, allowing more Automobile Theft Authority funding to be directed towards law enforcement initiatives.

Funding	FY 2019
Automobile Theft Authority Fund	5,301.4
Issue Total	5,301.4

Executive Budget Baseline Changes

PSPRS Employer Contribution Rate Increase

The Executive Budget includes an increase in funding for increased employer contribution rates to the Public Safety Personnel Retirement System (PSPRS). The funding amounts appears in the Statewide Adjustments section.

On July 1, 2018, the employer contribution rate will increase by 3.75%, from 86.97% to 90.72%.

Funding	FY 2019
General Fund	0.0
Issue Total	0.0

Back Out FY 2018 One-Time Funding for Sexual Assault Kit Testing

The Executive Budget includes a reduction in funding for Sexual Assault Kit Testing.

Law 2017, Chapter 305 appropriated \$1.2 million to clear the existing backlog of sexual assault kits. The Executive Budget backs out this one-time funding for FY 2019.

Funding	FY 2019
General Fund	(1,200.0)
Issue Total	(1,200.0)

Adjustments for risk management charges and retirement contributions for this agency are not incorporated into the totals shown here. They are listed separated with adjustments for all state agencies immediately following the Capital Projects section. Funding for these adjustments is included as part of the total Executive Budget.

The Executive Budget provides a lump-sum appropriation to the agency.

Department of Real Estate

Pursuant to A.R.S. § Title 32, Chapter 20 and the Administrative Code Title 4, Chapter 28, the Department regulates real estate licensees (including residential sales, brokers, companies, property managers, and commercial brokers), private cemeteries, and membership camping licensees. The Department also regulates real estate educators and schools, monitoring pre-licensing and continuing education courses to ensure the quality content of courses and the competence of instructors, as well as the quality and timeliness of materials being taught. The Department oversees the administration of licensing examinations as well as the activities of licensees to ensure compliance with the Arizona Revised Statutes and the Commissioner's Rules.

The Executive Budget provides a lump-sum appropriation to the agency.

Residential Utility Consumer Office

The Residential Utility Consumer Office (RUCO) is an agency comprised mainly of attorneys and financial analysts. RUCO participates in matters before the Corporation Commission regarding utility rate increases, renewable energy standards, and Commission rulemaking. RUCO reviews utility financial records, conducts discovery, offers testimony and presents witnesses at evidentiary hearings to argue positions in favor of residential utility ratepayers.

Board of Respiratory Care Examiners

Respiratory Care Practitioners work in therapeutic, surgical, and/or clinical settings to monitor respiration and lung health, as well as to diagnose and treat disorders. The Board of Respiratory Care Examiners regulates the practice of respiratory care in Arizona. The Board examines and licenses respiratory care practitioners based on minimum competency standards set by the Legislature. Additionally, the Board enforces state laws, rules, and regulations set forth to ensure public safety and investigates complaints filed against a member of the professional community.

Major Executive Budget Initiatives and Funding

Relocation to 1740 West Adams

The Executive Budget includes an increase in funding for the Board's new shared services costs associated with relocating to the State-owned building at 1740 W. Adams St. in Phoenix. The funding associated with this issue does not reflect the change in State rental payments, which appears in the Statewide Adjustments section. The Board's funding issue below results in a net decrease in costs. The Board will relocate by the end of January 2018.

Twenty-six boards and commissions are moving to the new location, which is designed to operate more efficiently than the agencies' previous spaces. The expected savings in rent and shared services across all 26 agencies is estimated to be \$349,500.

In an effort to consolidate services for those agencies, the new location will feature shared conference rooms and other common spaces and shared contracts for Wi-Fi services, building security, and conference room phones, costing a total of \$150,900 for all of the tenant agencies. Additionally, 21 of the agencies will share 1.0 FTE receptionist position on the first floor of the building.

In FY 2019, the Board will spend \$3,100 for shared services costs such as Wi-Fi and security, compared to \$1,000 for any similar services at its previous location. New funding is required to cover the \$2,100 increase.

At the previous State-owned space, the agency paid \$19,800 for rent. At the new space, the agency will pay \$9,700. The change in the agency's rental payments of \$(10,100) appears in the Statewide Adjustments section.

Funding

	FY 2019
Board of Respiratory Care Examiners Fund	2.1
Issue Total	2.1

Remove One-Time FY 2018 Appropriations

The Executive Budget includes a decrease in one-time funding for a temporary caseload increase to reduce a backlog of continuing education audits of licensees.

Funding	FY 2019
Board of Respiratory Care Examiners Fund	(19.5)
Issue Total	(19.5)

Executive Budget Baseline Changes

E-Licensing Ongoing Costs

The Executive Budget includes an increase in funding for the Board's share of ongoing operating costs associated with the new e-licensing system that was established in FY 2018 and will be used by 14 agencies. The system is expected to provide a fast and efficient online experience for applicants and licensees.

The Board will begin using the e-licensing system in early 2018. The Board will pay annual licensing costs for the online platforms on which the e-licensing system is built and will share the services of a full-time system administrator at the Department of Administration.

Agency Total	144,230.0	177,094.4	(2,121.1)	174,973.3

Major Executive Budget Initiatives and Funding

Reduce Long-term Disability Appropriation

The Executive Budget includes a decrease in funding for the Long-Term Disability Trust Fund in order to capture budget savings.

The long-term disability program for Arizona State Retirement System members is managed by a third-party administrator. In FY 2017, ASRS awarded a contract to a new administrator, lowering the monthly administrative cost and the average cost per claim.

Additionally, overall costs are trending downward: In FY 2017, as compared to FY 2016, the number of new long-term disability claims fell by 10%, and the number of open disability claims fell by 9%.

To capture these savings, the Executive Budget reduces the Long-Term Disability Trust Fund appropriation.

Funding	FY 2019
LTD Trust Fund	(300.0)
Issue Total	(300.0)

Reduce Operating Budget Appropriation

The Executive Budget includes a decrease in funding as a result of efficiency savings identified by ASRS. The savings will be applied to the ASRS operating budget.

Over several fiscal years, ASRS has identified opportunities to modernize and re-engineer internal processes and systems to make them more efficient and cost effective. Examples include reducing printing, postage, and internal software development and maintenance costs. Additionally, through an automation-upgrade initiative, ASRS has found efficiencies by automating tasks that previously required full-time equivalent positions.

Funding	FY 2019
Retirement System Appropriated Fund	(225.0)
Issue Total	(225.0)

Agency Budget Summary

	FY 2017 Actual	FY 2018 Exp. Plan	FY 2019 Net Change	FY 2019 Exec. Bud.
General Fund	28,425.6	31,291.3	(1,825.0)	29,466.3
Other Appropriated Funds	44,166.3	46,442.4	2,400.0	48,842.4
Non-Appropriated Funds	1,236.7	12,876.8	(11,000.0)	1,876.8
Agency Total	73,828.6	90,610.5	(10,425.0)	80,185.5

Major Executive Budget Initiatives and Funding

Efficiency Savings

The Executive Budget includes a decrease in funding as a result of efficiency savings identified by DOR. Those savings will be applied to DOR's operating budget.

Funding	FY 2019
General Fund	(1,425.0)
Issue Total	(1,425.0)

Expanded Fraud Prevention Services

The Executive Budget expands DOR's use of outside fraud prevention services, using contingent fee contracts with private data analytics firms to identify tax evaders.

DOR estimates that Arizona fails to collect up to \$1 billion in Transaction Privilege Taxes (TPT) each year, due to under- or non-reporting and other types of evasion.

There are private data analytics firms with access to credit card transaction records and other merchant data that can be used to compare with state tax returns to identify potential evaders. Entering into contingent-fee contracts with such firms is projected to return \$30 million per year to the General Fund.

Outside fraud-prevention services have been used successfully to prevent fraudulent income tax refunds. The FY 2016 budget included \$3.1 million from the General Fund for income tax fraud prevention services. According to DOR, over \$78 million in fraudulent refunds were subsequently prevented in tax year 2016 alone, of which \$38 million was directly attributable to the contracted services.

Funding	FY 2019
General Fund	0.0
Issue Total	0.0

Fund Shift

The Executive Budget includes a decrease from the General Fund and a commensurate increase to the Liability Setoff Fund.

Revenues to the fund have remained steady, increasing slightly in some years, since FY 2013, leaving this fund capable of supporting additional ongoing operational activities.

Funding	FY 2019
General Fund	(400.0)
DOR Liability Setoff Fund	400.0
Issue Total	0.0

Increase Audit and Collections Staff

The Executive Budget includes an increase in funding for 25.0 FTE audit and collection positions to focus on a growing collections inventory and help DOR collect an expected \$31 million in additional revenue each year beginning in FY 2019.

Of that amount, \$25 million would go to the General Fund, with the remainder being distributed, by statute, to local beneficiaries.

Between FY 2008 and FY 2017, outstanding Transaction Privilege Tax (TPT), Individual Income Tax, and Corporate Income Tax obligations increased from \$370 million to nearly \$500 million. Those are taxes that taxpayers owe but have not been paid. Approximately half of the \$500 million of unpaid obligations is estimated to be from TPT.

Funding	FY 2019
DOR Collections Fund	2,000.0
Issue Total	2,000.0

Adjustments for risk management charges and retirement contributions for this agency are not incorporated into the totals shown here. They are listed separated with adjustments for all state agencies immediately following the Capital Projects section. Funding for these adjustments is included as part of the total Executive Budget.

School Facilities Board

The SFB is a Capital Management agency. The SFB maintains a facilities database consisting of information reported by each school district that aids in determining the eligibility for State funding from the New School Facilities and Building Renewal Grant funds. Through periodic inspections, the SFB is mandated to ensure compliance with building adequacy standards and routine preventative maintenance guidelines with respect to the construction of new buildings and maintenance of existing buildings. The SFB also administers an Emergency Deficiencies Correction program and validates Adjacent Ways expenditures.

Major Executive Budget Initiatives and Funding

Building Renewal Grants

The Executive Budget includes an increase in funding for building renewal.

Between 1999 and 2004, the School Facilities Board (SFB) completed deficiency corrections projects totaling \$1.3 billion. As many of these projects are nearing the end of their useful life, SFB has recently seen an increase in school district building renewal requests. From FY 2013 to FY 2017, building renewal requests from school districts have more than doubled, from 313 to 866.

The Executive budget includes an increase of \$35.2 million for building renewal, which includes an ongoing increase of \$17.1 million and a one-time increase of \$18 million. This will make a total of \$51.8 million available to the SFB for FY 2019 building renewal, a 53% increase over the \$33.8 million appropriated for building renewal in FY 2018.

The Executive also includes a budget reconciliation bill provision to permit the SFB to use up to \$750,000 of the building renewal appropriation in FY 2019 as the first step of a five-year \$5.2 million effort to hire third-party consultants to inventory school building systems' age and performance characteristics and enter the data into a database. The resulting analytics will enable the SFB to properly prioritize and time repairs and replacements of school building systems in order to avoid costly building system failures. Additionally, the system will provide a measure of purchase predictability that will enable SFB to leverage economies of scale to achieve bulk pricing on many capital items.

Funding	FY 2019
General Fund	35,167.9
Issue Total	35,167.9

New School Construction

The Executive Budget includes an increase in funding to construct five new schools or school expansions.

A.R.S. § 15-2011 requires the School Facilities Board (SFB) to fund new schools, or additional space in existing schools, for districts whose student population in the current year causes them to exceed per-square-foot standards established in the statute. Student counts are based on Average Daily Membership (ADM) data provided by the Arizona Department of Education.

For the 2017-2018 school year, the preliminary 40-day ADM indicates that new school space is needed in the Chandler, Queen Creek, and Tolleson unified high school districts. Based on SFB estimates of space needed to accommodate forecast growth in the districts, statutory per-square-foot construction costs, and forecast land costs, the Executive Budget provides \$88.1 million for five new schools or school expansions. The cost is to be financed with a 25-year certificate of participation (COP) with an estimated annual COP payment cost of \$5.1 million.

Netting the new annual debt service of \$5.1 million and the (\$35.5) million in the scheduled reduction in existing debt service discussed below will result in a net savings in SFB debt service of (\$30.4) million in FY 2019 as compared with FY 2018.

Funding	FY 2019
General Fund	5,115.2
Issue Total	5,115.2

Additional Staff

The Executive Budget includes an increase in funding of \$184,700 to fill 2.0 existing FTE building renewal liaison positions.

School Facilities Board liaisons provide project and capital management oversight for school districts' building renewal grant programs. Using their experience in facility design and construction delivery, the liaisons provide technical and financial expertise to school districts in performing building repairs and major maintenance.

From FY 2012 to FY 2017, the number of building renewal requests from school districts grew from 313 to 866, while SFB maintained staffing at 4.0 FTE liaisons (including an architect working as a liaison). During the same period, the shortage of resources forced the SFB to stop performing statutorily mandated assessments of school district building systems. Furthermore, in FY 2019 the building renewal request workload is expected to grow by an additional 30%, to 1,142.

Funding	FY 2019
General Fund	184.7
Issue Total	184.7

Benson K-4 School

Appropriations for new school construction are governed by a funding formula established in A.R.S. § 15-2041. Subsection D(3)(c) of that section sets a per-square-foot construction cost and delegates to the Joint Legislative Budget Committee (JLBC) the authority to make annual adjustments in this cost for market considerations.

In FY 2016 and FY 2017, \$3.4 million General Fund was appropriated for a 17,190-square-foot K-4 school for 191 students in Benson. Based on statutory per-square-foot costs in place at the time, this non-lapsing appropriation included \$2.6 million for construction, \$250,000 to address site conditions, and the remaining \$825,000 funding land purchases.

Since the passage of the appropriation, the project architect has determined that the construction appropriation will not be adequate to attract construction firms willing to bid on this job. After making this determination, the architect and the school district agreed on a value-engineered redesign and decided to expand an existing school rather than purchase land and construct a new school. While those measures significantly reduced the project's cost and made the land portion of the appropriation unnecessary, the original per-square-foot construction standards provide a construction budget that is still less than the architect's revised cost estimates to construct the building.

To ensure that this school is constructed, the Executive budget includes a budget reconciliation bill measure notwithstanding the per-square-foot construction standards for the Benson project. This will make the \$825,000 land portion of the appropriation available for the school's construction, which should provide an adequate construction budget to build the redesigned building without any additional appropriation. Any remaining funding from the appropriation will revert to the General Fund at the end of the project's construction, as it does with all school-facility construction projects.

Issue Total	0.0

Executive Budget Baseline Changes

New School Facilities Debt Service

The Executive Budget aligns the FY 2019 appropriation with the debt payment schedule for previously authorized new school construction.

Funding	FY 2019
General Fund	(35,474.4)
Issue Total	(35,474.4)

Prior Year New School Construction

The Executive Budget includes a decrease in funding of (\$49 million), as a technical adjustment, for prior-year new school construction appropriations.

This includes a reduction of (\$87,008,400) to back out FY 2018 new school construction appropriations made in the FY 2017 and FY 2018 budgets and an increase of \$37,989,800 to include an advance FY 2019 new-school appropriation that was appropriated in the FY 2018 budget.

Funding	FY 2019
General Fund	(49,018.6)
Issue Total	(49,018.6)

Back out FY18 Building Renewal Grants

The Executive Budget includes a decrease in funding, as a technical adjustment, to remove \$17.2 million in one-time FY 2018 building renewal.

Funding	FY 2019
General Fund	(17,167.9)
Issue Total	(17,167.9)

Executive Budget Supplemental Changes

Building Renewal Grants

The Executive Budget includes supplemental funding for building renewal grants to school districts in FY 2018. This supplemental represents almost a 30% increase over the original appropriation of \$33.8 million for FY 2018 building renewal.

Between 1999 and 2004, the SFB completed deficiency corrections projects totaling \$1.3 billion. As many of these projects are nearing the end of their useful life, SFB has recently seen an increase in school district building renewal requests.

Funding	FY 2018
General Fund	10,000.0
Issue Total	10,000.0

Adjustments for risk management charges and retirement contributions for this agency are not incorporated into the totals shown here. They are listed separated with adjustments for all state agencies immediately following the Capital Projects section. Funding for these adjustments is included as part of the total Executive Budget.

	<i>Link to the AGENCY'S STRATEGIC PLAN</i>			

Building Renewal Grants

The Building Renewal Grant program was initiated in FY 2009 as an alternative to the Building Renewal formula. Under this program, the school facilities board distributes monies from the fund based on grant requests from school districts to fund primary building renewal projects.

Agency Expenditures

(in \$1,000s)

Total expenditures include transfers from the General Fund to non-appropriated funds. The combined General Fund transfers and the non-appropriated funds' expenditures cause a double counting of expenditures in some instances.

The Executive Budget provides a lump-sum appropriation to the agency with special lines.

Department of State - Secretary of State

The Department of State is headed by a publicly elected Secretary of State, who serves as Acting Governor in the absence of the Governor and succeeds the Governor should a vacancy occur. The Secretary of State is the keeper of the Great Seal of the State of Arizona and is also the Chief State Election Officer who administers election functions, including canvass and certification of statewide elections, and coordinates statewide voter registration. The Secretary of State's office receives and records various filings, including Uniform Commercial Code transactions, trademark and trade name registrations, and limited partnership and limited liability partnership filings. The Office also registers lobbyists and accepts periodic lobbyist and campaign finance filings; publishes all official acts of the State of Arizona including laws, the Arizona Administrative Code, and the Arizona Administrative Register; files the notices of the Governor's appointments to State boards and commissions; appoints notaries public; and applies apostilles to all international transactions.

The Arizona State Library, Archives and Public Records division provides general information services as well as research and reference services in the subject areas of law, government, public policy, genealogy, and Arizona. The division administers state and federal grants for public libraries and offers consultant services to both public libraries and government agencies. The division also offers special library and information services for anyone who is unable to read or use standard printed materials as a result of temporary or permanent visual or physical limitations, manages public record archival retention programs, and creates exhibits to educate the public regarding governmental and Arizona history and the legislative process.

Agency Total	20,329.1	20,133.0	5,562.4	25,695.4

Major Executive Budget Initiatives and Funding

Voter Registration Database

The Executive Budget includes an increase in funding for the second-year costs associated with the State's new voter registration database.

The State's existing voter registration database, Voter Registration Arizona II (VRAZ-II), uses technology developed in the late 1990s. Thirteen counties link directly to the VRAZ-II database, while two others – Maricopa and Pima – continue to use their own voter registration databases and exchange voter registration data with the Secretary of State's Office.

In 2016, the Secretary of State's Office commissioned a review of the existing voter registration database that revealed multiple "pain points," including insufficient integration of VRAZ-II and other voter registration sources, such as Maricopa and Pima counties, and the EZVoter system maintained by the Motor Vehicles Division at the Department of Transportation. Due to the insufficient integration, the Secretary of State's Office must expend significant effort performing manual processes to keep VRAZ-II current with voter registration data sent by other entities that also collect voter registration data.

In November 2017, the Secretary of State awarded a bid to begin building a new voter registration database. The new voter registration database is expected to resolve many of the issues that exist in the current system, and it will require lower operating costs.

The Secretary of State's Office estimates that the total two-year development cost of the new system will be \$3,558,900. That amount includes \$2,986,900 to develop the new system and \$572,000 for a third-party consultant to help manage the project. Of the \$3,558,900, the Secretary of State's Office intends to fund the first-year costs of \$1,495,600 in FY 2018 through the Election Systems Improvement Fund.

To fund the remaining second-year costs of \$2,063,300, the Executive Budget includes \$1,338,300 from the General Fund, \$600,000 from the Records Services Fund, and \$125,000 from the non-appropriated Data Processing Acquisition Fund. The Executive Budget also includes statutory changes to permit the Secretary of State's Office to use the Records Services Fund and the Data Processing Acquisition Fund on developing the new voter registration database.

Funding	FY 2019
General Fund	1,338.3
Records Services Fund	600.0
Issue Total	1,938.3

Executive Budget Baseline Changes

Election Administration

The Executive Budget includes an increase in funding for administration of the 2018 primary and general elections, both of which occur in FY 2019.

Arizona law requires the Secretary of State to pay directly for certain election-related expenses, such as the publicity pamphlet, and reimburse counties for other election-related expenses.

Funding	FY 2019
General Fund	4,000.0
Issue Total	4,000.0

Revert Special Election monies

The Executive Budget includes a revertment of unspent appropriation authority in connection with the May 2016 Special Election.

Laws 2015, First Special Session, Chapter 2 made a non-lapsing appropriation of \$9.3 million to the Secretary of State for administering the May 2016 Special Election. All expenses associated with that election are expected to be paid by the end of FY 2018. Under current law, the unspent appropriation will not revert to the General Fund at the end of any fiscal year, as the appropriation is non-lapsing.

In FY 2019, the Executive Budget includes reverting the unspent appropriation authority, which is currently estimated at \$2,962,600. As this revertment is a negative spending adjustment to an appropriation made in FY 2016, this amount does not adjust the FY 2019 General Fund appropriation for the Secretary of State.

Funding	FY 2019
General Fund	0.0
Issue Total	0.0

Remove One-time FY 2018 Appropriations

The Executive Budget includes the removal of FY 2018 one-time appropriations for one-time Department expenses in FY 2019.

Funding	FY 2019
General Fund	(500.0)
Issue Total	(500.0)

Executive Budget Supplemental Changes

Election Administration

The Executive Budget includes an increase in funding for special elections in FY 2018 to fill a vacant seat in Arizona's 8th Congressional District.

On December 8, 2017, a vacancy occurred in Arizona's 8th Congressional District. Pursuant to A.R.S. § 16-222, when a vacancy occurs in a congressional district and the next general election is more than six months from the date of the vacancy, the Governor is required to call a Special Primary Election and Special General Election to fill the vacancy. The Governor has set the date of the Special Primary Election for February 27, 2018, and the Special General Election for April 24, 2018.

Funding	FY 2018
General Fund	1,900.0
Issue Total	1,900.0

The Executive Budget provides a lump-sum appropriation to the agency.

Board of Technical Registration

The Board regulates the firms and individual practice of alarms services, architects, engineers, geologists, home inspectors, landscape architects, and land surveyors. The Board also has jurisdiction to investigation and discipline the unregistered practice of professions and occupations under its Practice Act.

Major Executive Budget Initiatives and Funding

E-Licensing System Maintenance

The Executive Budget includes an increase in one-time funding to upgrade the Board's licensing system to meet the requirements of Laws 2017, Chapter 323, which waive license fees for first-time applicants with a family income less than 200% of the Federal Poverty Level.

Prior to the negotiation of the FY 2018 multi-agency licensing system, the Board was funded for an online licensing system in FY 2017. This application is a one-agency solution that is specific to the Board.

Funding	FY 2019
Technical Registration Board Fund	65.0
Issue Total	65.0

Adjustments for risk management charges and retirement contributions for this agency are not incorporated into the totals shown here. They are listed separated with adjustments for all state agencies immediately following the Capital Projects section. Funding for these adjustments is included as part of the total Executive Budget.

The Executive Budget provides a lump-sum appropriation to the agency.

Office of Tourism

The Arizona Office of Tourism (AOT) is the only public agency that provides a statewide platform to market Arizona, the local travel and tourism industry relies on AOT to create an umbrella marketing campaign, promoting Arizona as the destination of choice against competitive brands while also working closely with public land agencies to promote the magnificent national parks, state parks, public lands and tribal lands.

Major Executive Budget Initiatives and Funding

Identified savings in marketing efforts

The Executive Budget includes a decrease in funding as a result of efficiency savings identified by the Office of Tourism.

The identified one-time savings of \$850,000 and ongoing savings of \$150,000 will be applied to the Office's FY 2019 operating budget.

Funding	FY 2019
General Fund	(1,000.0)
Issue Total	(1,000.0)

The Executive Budget provides a lump-sum appropriation to the agency.

Department of Transportation

The Arizona Department of Transportation (ADOT) is responsible for planning, constructing, and maintaining the State's transportation system. The Department also provides drivers license and title and registration services; is responsible for commercial truck enforcement and vehicle registration compliance; and operates the Grand Canyon Airport.

Link to the **AGENCY'S WEBSITE** <http://www.azdot.gov/>

All numbers representing dollars are expressed in thousands.

Agency Total	2,678,186.1	410,341.1	26,126.4	436,467.5

Major Executive Budget Initiatives and Funding

Shift from Highway Construction to Maintenance

The Executive Budget includes an increase in funding for preventive road-surface treatments, focusing on fog seals and chip seals.

Arizona's highway system includes more than 21,500 highway lane-miles. Surface pavement ravel and cracks as roads age, and highways require expensive reconstruction more frequently if surface asphalt deteriorates without repair.

ADOT periodically measures its roads for smoothness, cracking, and raveling. The percentage of roads with significant cracking increased from 15% in 2006 to 33% in 2015. Road smoothness, as measured by the Federal Highway Administration's International Roughness Index (IRI), has also declined in recent years. The percentage of lane-miles designated as "good" by the IRI declined from 42% in 2006 to 31% in 2015.

To extend the life of roads, ADOT periodically treats highways with restorative surface treatments. These treatments include fog seals, which are liquid asphalt overlays, and chip seals, which add a layer of gravel immediately after liquid asphalt treatments. Fog seals have an expected life of one to two years and cost \$3,000 per lane-mile. Chip seals have an expected life of four to seven years, cost \$36,000 per lane mile, and restore highways with more extensive damage.

The appropriation will increase ADOT's annual surface-treatment budget from approximately \$15 million to \$40.6 million per year. The additional funding is expected to provide surface treatments for more than 3,000 lane-miles of highway each year and save approximately \$100 million over the life-cycle of Arizona roads by delaying future construction costs.

Funding	FY 2019
State Highway Fund	25,606.8
Issue Total	25,606.8

Intelligent Traffic System in Rural Areas

The Executive Budget includes an increase in one-time funding for replacement of obsolete equipment used to monitor road and weather conditions outside of the Phoenix area.

The funding will replace 18 of ADOT's 95 dynamic message signs that alert drivers to road conditions and deliver other important safety-related messages. The new signs would use high-efficiency LED bulbs that would provide greater visibility for drivers. Each sign costs \$41,000 and is expected to result in \$1,500 in maintenance cost savings and \$500 in energy savings per sign, annually.

The funding will also replace 29 of ADOT's 59 analog closed-circuit cameras with HD digital cameras at \$6,000 each. ADOT uses the cameras to recognize traffic incidents and weather events and alert drivers using dynamic message signs.

Additionally, the funding will replace 7 of 18 roadway weather information system stations at \$70,000 each. The new devices will include pavement temperature detection, which will indicate to ADOT when deicing agents should be applied to roads to prevent accidents.

The final component of this issue is \$100,000 to upgrade ADOT's Intelligent Traffic System monitoring software to manage the technology and improve response times to traffic incidents. Together, the improvements are expected to increase highway safety for the traveling public.

Funding	FY 2019
State Highway Fund	1,500.0
Issue Total	1,500.0

Managed Digital Security Services

The Executive Budget includes an increase in funding for 24/7 managed security services.

ADOT handles personal data for most Arizona citizens through its Drivers' License Database, as well as more than 400 internal and external computer applications that perform critical functions. ADOT currently contracts with the Department of Administration (ADOA) to provide data security services.

Because of the increasing complexity of cyberattacks that compromise citizens' personal data, ADOT will work with ADOA to identify a private firm to supplement current security services. The additional services will include 24/7 hacking defense, regular reviews of ADOT's compliance with federal data security requirements, and enhanced security measures to protect sensitive personal information.

Funding	FY 2019
State Highway Fund	800.0
Issue Total	800.0

Green Valley MVD Office Relocation

The Executive Budget includes an increase in funding for lease costs after relocating the Green Valley Motor Vehicle Division (MVD) office.

ADOT operates an MVD office out of a 1,680-square-foot modular building that sits in a public library parking lot owned by Pima County. ADOT leases the parking lot space for \$6,600 annually. Because of space restrictions, ADOT is not able to offer MVD services such as road tests for new drivers. The Pima Association of Governments projects that the community's population is expected to grow by approximately 60% from 2015 to 2030. The closest full-service MVD office is located 27 miles from the Green Valley office, and the existing office does not have the capacity to serve the larger population.

The lease with Pima County expires in 2020, and the existing modular building would need immediate replacement due to termite damage. The increase in funding will be used to lease a new 3,200-square-foot office that will provide full MVD services in Green Valley. The funding is aligned with ADOT's strategic plan and goal to optimize MVD field locations and staffing.

Funding	FY 2019
State Highway Fund	132.0
Issue Total	132.0

New Ehrenberg Port of Entry Furnishings

The Executive Budget includes an increase in funding for the purchase of furnishings and office equipment for the new Ehrenberg Port of Entry building opening in FY 2019.

Furnishings are not provided by the federal grants used to build the facility.

Funding will be allocated as follows: \$368,600 for office equipment and technology, \$80,000 for security equipment for one holding cell, \$11,000 to furnish 6 sleeping quarters for employees, and \$68,900 for delivery, and installation of the equipment.

Funding	FY 2019
State Highway Fund	528.5
Issue Total	528.5

Security Systems - Ports of Entry

The Executive Budget includes an increase in funding for the purchase of alarm system components, cabling and hardware, cameras, and required software and labor to improve security at the 6 facilities that have undergone a Security Vulnerability Assessments (SVA).

ADOT operates 13 fixed ports of entry with seven located along the Arizona-Mexico international border and six along the Arizona state lines with California, Nevada, Utah, and New Mexico. The ports allow ADOT to meet its mandates to monitor all commercial traffic entering Arizona for compliance with registration, size and weight restrictions, licensing and insurance requirements, and other state and federal mandates.

Officers at ADOT's Ports of Entry inspect commercial vehicles and uncover illegal activity such as drug trafficking. Officers rely on surveillance systems to ensure their safety during those inspections. In January 2016, ADOT established Physical Security System Standards for building security, access controls, and surveillance technologies. ADOT's threat assessment professionals conducted SVA's at six ports of entry and found deficiencies in alarm systems and camera placement at each of those facilities.

Funding	FY 2019
State Highway Fund	405.7
Issue Total	405.7

Highway Damage Maintenance Recovery Account

The Executive Budget includes an increase in funding to ensure that ADOT can use the revenue it recovers from at-fault parties to repair highway damage.

The FY 2018 budget initially permitted ADOT to use the Highway Damage Recovery Account to pay for highway damage caused by at-fault third parties. The fund consist of monies recovered by ADOT from individuals, and their insurers, who are liable for damages to state highway infrastructure. ADOT projects that it will recover \$4 million from at-fault parties in FY 2019, which is \$1 million more than the Department is appropriated to spend from the account in FY 2018.

Funding	FY 2019
Highway Damage Recovery Account	1,000.0
Issue Total	1,000.0

Consolidating Four Special Line Items

The Executive Budget consolidates a number of special line items (SLIs) into ADOT's operating lump sum appropriation because the costs of administering the SLIs outpace their current benefits.

The SLIs that will be consolidated include New Third Party Funding, Phoenix Area Freeway Lighting, Fraud Investigation, and Statewide Drainage.

Consolidation will enable administrative staff to focus on more value-added activities and allow ADOT to use its maintenance resources more efficiently.

Funding	FY 2019
State Highway Fund	0.0
Vehicle Inspection and Title Enforcement Fund	0.0
Motor Vehicle Liability Insurance Enforcement Fund	0.0
Highway User Revenue Fund	0.0
Issue Total	0.0

New Flagstaff Office Appropriation Extension

The Executive Budget includes a decrease in one-time FY 2018 funding for technology equipment and furnishing for a new office and laboratory in Flagstaff.

ADOT is building a facility in Flagstaff using a public-private partnership. The new space will improve operational efficiencies, eliminate \$146,900 in annual lease costs, and reduce maintenance costs compared to the current facilities. The project was originally expected to be finished in the middle of FY 2018. Construction will now not be completed until late FY 2019 or early FY 2020.

The Executive Budget makes the FY 2018 appropriation non-lapsing through FY 2019 to allow ADOT to equip and furnish their new building when construction is completed.

Funding	FY 2019
State Highway Fund	(2,530.0)
Issue Total	(2,530.0)

SETIF & LIE Appropriation Adjustments

The Executive Budget includes a decrease in funding from the Safety Enforcement and Transportation Fund (SETIF) and a commensurate increase in the Motor Vehicle Liability Insurance Enforcement Fund (LIE).

SETIF generates revenue from fees assessed at ports of entry and is used to enforce vehicle safety requirements (among other uses) within 25 miles of the Arizona/Mexico Border. LIE generates revenue from penalty fees to reinstate motor vehicle registration and is used to enforce mandatory vehicle liability insurance.

SETIF historically generates less annual revenue than the amount appropriated from the fund; however, revenue to LIE far exceeds its annual appropriation. The shift will ensure the long-term sustainability of both funds while continuing the work authorized by each.

Funding	FY 2019
Safety Enforcement and Transportation Infrastructure Fund	(399.9)
Motor Vehicle Liability Insurance Enforcement Fund	399.9
Issue Total	0.0

Ignition Interlock Device Appropriation Shift

The Executive Budget includes a decrease in funding from the State Highway Fund and a commensurate increase in the Ignition Interlock Device Fund to cover a portion of the Ignition Interlock Device (IID) administration costs while allowing the fund to build a reasonable fund balance.

The Executive Budget forecasts the appropriation from the Fund to increase to approximately \$315,000 in future years, along with a corresponding decrease to the State Highway Fund appropriation.

IIDs are machines that attach to vehicle ignitions and test drivers' blood-alcohol levels before allowing them to start their vehicles. Certain Arizona laws mandate use of an IID following a period of driver license suspension or revocation. Laws 2017, Chapter 331 requires ADOT to establish a fee to be collected by IID technicians upon installation of any IID.

The total cost of ADOT's Ignition Interlock Program is approximately \$320,000 and includes 6.0 FTE positions. ADOT projects approximately \$315,000 in annual revenue, when the new IID fee comes into effect on July 1, 2018.

Funding	FY 2019
State Highway Fund	(150.0)
Ignition Interlock Device Fund	150.0
Issue Total	0.0

Remove One-time FY 2018 Appropriations

The Executive Budget includes a decrease in one-time FY 2018 funding for Grand Canyon National Airport Safety Equipment and Driver Safety & Livestock Control cattle guards, while continuing \$800,000 in ongoing funding for regular cattle guard maintenance.

The FY 2018 budget included \$466,000 for airport firefighter safety gear and after-hours landing monitoring equipment. The budget also included \$2.4 million for ADOT to repair 960 cattle guard grills.

Funding	FY 2019
State Aviation Fund	(466.0)
State Highway Fund	(1,600.0)
Issue Total	(2,066.0)

Fleet Reduction

The Executive Budget includes an ex-appropriation of \$230,000 from a FY 2017 General Fund appropriation for the planned I-10 highway construction project.

In FY 2017 and FY 2018, ADOT participated in a statewide initiative to reduce the number of Department vehicles, selling 65 fleet vehicles for a total of \$230,000. ADOT will use the revenue from the vehicle sales for the planned I-10 highway construction project in FY 2019, which allows a corresponding amount to be reduced from the FY 2017 General Fund appropriation set aside for the same purpose.

Funding	FY 2019
State Highway Fund	0.0
Issue Total	0.0

Reallocation of Resources

The Executive Budget includes a decrease and shift in funding as a result of efficiency savings identified by ADOT in its operating budget.

Funding	FY 2019
General Fund	(50.5)
State Highway Fund	(1,600.0)
Air Quality Fund	162.5
Motor Vehicle Liability Insurance Enforcement Fund	1,250.0
Issue Total	(238.0)

Executive Budget Baseline Changes

Attorney General ISA Cost Increase

The Executive Budget includes an increase in funding for the ADOT's legal services.

ADOT's FY 2018 interagency service agreement (ISA) for legal services exceeded its Special Line Item appropriation by \$46,000. The Executive Budget forecasts Attorney General legal services to continue at this rate in FY 2019 and beyond.

Funding	FY 2019
State Highway Fund	46.0
Issue Total	46.0

Highway Maintenance Workload

The Executive Budget includes an increase in funding for maintenance of new highway lane-miles.

The cost to properly maintain the state highway system increases as the system expands. Approximately 12.95 new urban lane-miles and 67.56 new rural lane-miles will be added to the state highway system in FY 2018. ADOT calculates the average annual cost to maintain an urban lane-mile is \$23,500, and a rural lane-mile is \$5,000. Major costs include roadside and shoulder maintenance, landscaping, surface treatments, and traffic signals.

Funding	FY 2019
State Highway Fund	642.1
Issue Total	642.1

Adjustments for risk management charges and retirement contributions for this agency are not incorporated into the totals shown here. They are listed separated with adjustments for all state agencies immediately following the Capital Projects section. Funding for these adjustments is included as part of the total Executive Budget.

The Executive Budget provides a lump-sum appropriation by program with special lines.

Treasurer

The primary responsibilities of the elected State Treasurer are to receive and keep custody over all monies belonging to the State that are not required to be kept by some other entity; to pay warrants of the Department of Administration; and to keep an account of all monies received and disbursed. The Office also invests state monies and operates the local government investment pool for public entities throughout the State.

The Executive Budget provides a lump-sum appropriation to the agency with special lines.

Governor's Office on Tribal Relations

The Governor's Office on Tribal Relations has a legislative mandate to assist each state agency in providing equitable programs, services and establish inter-government agreements with tribal nations and communities. In doing so, the office shall annually report on the implementation of tribal consultations policies; host an annual state-tribal summit, request information to advance intergovernment cooperation; facilitate Indian Nations and Tribes Legislative Day; implement town hall forums for American Indian people to impart their knowledge on statewide issues; serve as an informational clearinghouse and provide training on cross-cultural situations; promote increased participation of American Indians in state affairs; design and initiate programs to stimulate economic growth of the American Indian Population. The office may establish executive committees as needed.

Arizona State University

Arizona State University is “One university in many places” - five distinctive campuses throughout metropolitan Phoenix that create a federation of unique colleges and schools. They are all ASU, providing access to all the university’s strength and innovation, yet each offers attributes and focuses to meet the needs of any learner.

ASU at the Tempe Campus, which includes the Downtown Phoenix campus, is a major public research university offering programs from the baccalaureate through the doctorate. ASU at the West Campus is a comprehensive campus that balances the traditions of liberal arts education with responsiveness to the dynamics of workforce requirements. ASU at the Polytechnic Campus is a nexus for studies in interdisciplinary sciences, engineering, management, technology and education. Industry partnerships are key to the campus' distinctive course offerings, which provide opportunities for project-based learning within advanced laboratory spaces. ASU at the Thunderbird Campus became a unit of the ASU knowledge enterprise in 2015, bringing with it 70 years of history and international accolades for executive education.

Major Executive Budget Initiatives and Funding

Additional Investment

The Executive Budget includes an increase in one-time funding that universities may use for general operating expenditures or capital improvements.

This funding will allow universities to address high-priority needs and help support costs associated with educating Arizona resident students. The funding will be allocated proportionally to universities based on their resident student populations.

Funding	FY 2019
General Fund	4,245.0
Issue Total	4,245.0

Executive Budget Baseline Changes

Infrastructure Bonds

The Executive Budget includes an increase in funding for capital financing payments on university infrastructure in accordance with the FY 2018 Higher Education Budget Reconciliation Act (Laws 2017, Chapter 328).

Funding	FY 2019
General Fund	11,927.4

Issue Total**11,927.4****Remove One-Time FY 2018 Appropriations**

The Executive Budget includes a decrease in one-time funding for capital improvements or operating expenditures.

Funding**FY 2019**

General Fund

(7,639.5)

Issue Total**(7,639.5)****Research Infrastructure Refinance**

The Executive Budget includes a decrease in funding to reflect a refinance of research infrastructure Certificates of Participation in accordance with the FY 2017 Higher Education Budget Reconciliation Act (Laws 2016, Chapter 130).

Funding**FY 2019**

General Fund

(2.3)

Issue Total**(2.3)**

Adjustments for risk management charges and retirement contributions for this agency are not incorporated into the totals shown here. They are listed separated with adjustments for all state agencies immediately following the Capital Projects section. Funding for these adjustments is included as part of the total Executive Budget.

Northern Arizona University

Founded in 1899, Northern Arizona University is a vibrant community committed to teaching as learning, research as innovation, and service as shared leadership. Northern Arizona University is a part of the Arizona University System and embraces its newly developed vision statement: Rigorous programs and pioneering research with substantial community impact provide the foundation for transformational student opportunities that prepare graduates to excel in creating a sustainable future, nationally and globally.

Accredited by the Higher Learning Commission, the university embraces diversity and promotes inclusion across the university community as a means to prepare graduates to contribute to the social, economic, and environmental needs of a culturally rich society. It inspires students to become active citizens, leaders, visionaries, and problem solvers with an understanding of global issues. In addition to integrating sustainability themes across curriculum, Northern Arizona University's beautiful 683-acre campus models sustainable operations through multi-modal transportation, environmentally responsible waste disposal, energy-efficient green construction, and sustainability in food procurement.

The Executive Budget provides a lump-sum appropriation to the agency with special lines.

University of Arizona - Main Campus

The University of Arizona in Tucson, including branch campuses in Sierra Vista and downtown Phoenix, is a land-grant, doctoral research university. Its research and development expenditures place it among the nation's top public universities and it is a member of the Association of American Universities. It offers a broad array of programs leading to degrees from baccalaureate through the doctorate. It has a total student body enrollment of over 42,000 full-time and part-time students. As a land-grant university, it maintains programs in production agriculture, mining, and engineering and serves the State through its cooperative extension services, technology transfer, economic development assistance, distributed education, and cultural programming. The University provides distinguished undergraduate, graduate, and professional education; excels in basic and applied research and creative achievement; and promotes the integration of these activities and outcomes into advancement of Arizona's economy.

The Executive Budget provides a lump-sum appropriation to the agency with special lines.

Department of Veterans' Services

The Department of Veterans' Services (DVS) assists veterans and their dependents in obtaining federal entitlements, such as claims for disability, pension and insurance. All other agency services are derived from this central premise.

DVS operates the State Veteran Homes, with homes operating in Phoenix and Tucson. Both homes are self-funded, skilled-nursing facilities that provide long-term care services to veterans and their spouses.

DVS operates three state veteran cemeteries in Sierra Vista, Marana, and Camp Navajo near Flagstaff. The agency is designated as the State Approving Agency, working with institutions that provide education and training to veterans with educational benefits. It administers the Military Family Relief Fund to support Arizona veterans and their families with financial hardships due to their deployments to combat zones. A dedicated coordinator also monitors statewide services to eliminate homelessness amongst Arizona veterans and increase employment opportunities for Arizona veterans.

Major Executive Budget Initiatives and Funding

Creation of a Compliance Audit Section

The Executive Budget includes an increase in funding for a compliance audit section that will review internal controls across all DVS programs.

DVS operates two State homes for veterans and three veterans' cemeteries and offers Veteran Benefit Counselors in various communities throughout the state. Due to insufficient staffing levels, the financial administration staff is unable to regularly audit the business services of each DVS program.

Funding	FY 2019
State Home for Veterans Trust Fund	71.1
Issue Total	71.1

Efficiency Savings

The Executive Budget includes a decrease in funding as a result of efficiency savings identified by DVS in its operating budget.

Funding	FY 2019
General Fund	(90.0)
Issue Total	(90.0)

Adjustments for risk management charges and retirement contributions for this agency are not incorporated into the totals shown here. They are listed separated with adjustments for all state agencies immediately following the Capital Projects section. Funding for these adjustments is included as part of the total Executive Budget.

The Executive Budget provides a lump-sum appropriation to the agency with special lines.

Veterinary Medical Examining Board

The Board is responsible for licensing veterinarians, certifying veterinary technicians, licensing veterinary medical premises, and licensing animal crematories. The Board administers examinations for veterinarians and veterinary technicians, inspects all fixed locations for veterinary medical premises and animal crematories, investigates complaints and violations, and takes appropriate regulatory disciplinary action to ensure the public's protection.

Agency Total	503.0	590.0	14.4	604.4

Major Executive Budget Initiatives and Funding

Relocation to 1740 West Adams

The Executive Budget includes no change in funding for the Board's new shared services costs associated with relocating to the State-owned building at 1740 W. Adams St. in Phoenix. The funding associated with this issue does not reflect the change in State rental payments, which appears in the Statewide Adjustments section. The Board's funding issue below results in a net increase in costs. The Board will relocate by the end of January 2018.

Twenty-six boards and commissions are moving to the new location, which is designed to operate more efficiently than the agencies' previous spaces. The expected savings in rent and shared services across all 26 agencies is estimated to be \$349,500.

In an effort to consolidate services for those agencies, the new location will feature shared conference rooms and other common spaces and shared contracts for Wi-Fi services, building security, and conference room phones, costing a total of \$150,900 for all of the tenant agencies. Additionally, 21 of the agencies will share 1.0 FTE receptionist position on the first floor of the building.

In FY 2019, the Board will spend \$6,200 for shared services costs such as Wi-Fi and security, compared to \$400 for any similar services at its previous location. Due to reversion history at the agency, no new funding is required to cover the \$5,800 increase.

At the previous State-owned space, the agency paid \$25,300 for rent. At the new space, the agency will pay \$23,400. The change in the agency's rental payments of \$(1,900) appears in the Statewide Adjustments section.

Funding	FY 2019
Veterinary Medical Examiners Board Fund	0.0
Issue Total	0.0

Online Services Enhancement

The Executive Budget includes an increase in funding for an IT contractor to add features to the Board's online licensing system, based on customer feedback.

During FY 2017, the Board introduced a web-based system that allows Arizona veterinarians to renew their licenses online. The system also allows citizens to quickly verify the status of veterinarians' licenses.

Expected new features include the ability to search for veterinarians by previous last name, the ability to display the type of license issued to veterinarians (i.e., Faculty, Specialty, State Employee, and Regular), and the ability for veterinarians to modify their mailing addresses. The funding also includes 20 total hours of Information Technology (IT) support to assist the Board during the 2019 bi-annual veterinarian license-renewal cycle. The funding is expected to improve the customer service experience online and reduce the employee staff time spent responding to license-verification requests.

Funding	FY 2019

The Executive Budget provides a lump-sum appropriation to the agency.

Department of Water Resources

The Department of Water Resources (DWR) administers State water laws (except those related to water quality), explores methods of augmenting water supplies to meet future demands, promotes the management of floodplains and dams to reduce loss of life and damage to property, and works to develop public policies that promote conservation and equitable distribution of water. The Department oversees the use of surface and groundwater resources under state jurisdiction and negotiates with external political entities to protect and augment Arizona's water supply. The Department represents the State on issues related to the Colorado River.

The Executive Budget provides a lump-sum appropriation to the agency.

Capital Projects

Investments in capital projects provide for the continued use and maintenance of the State's physical assets, which support State agencies' ability to provide customers with quality services in a timely and safe manner.

All numbers representing dollars are expressed in thousands.

Major Executive Budget Initiatives and Funding

Arizona State Parks - Buckskin Mountain Redevelopment

The Executive Budget includes an increase for Phase 1 of a three-phase park upgrade. Phase 1 of the redevelopment will include new cabins, electrical and water infrastructure upgrades, and new shower and restroom facilities.

In total, the \$7 million redevelopment will add 19 cabins, 18 RV sites, a boat launch ramp, beaches, ramadas, and an expanded parking lot to accommodate additional visitors. Once complete, the redevelopment is expected to increase park revenues by \$1 million annually.

Funding	FY 2019
State Parks Revenue Fund	1,500.0
Issue Total	1,500.0

Arizona State Parks - Major Maintenance and Repairs

The Executive Budget includes an increase in funding for major maintenance and repairs at parks across the state.

There are 827 buildings within the Arizona State Parks system, and many are overdue for renewal. The needed maintenance and repairs span a wide range from wastewater system reconstruction to roof repairs.

As park visitation continues to increase dramatically, including an FY 2017 increase of nearly 9%, wear and tear on park infrastructure and facilities will also increase. For this reason, a sufficient major maintenance and repair budget is necessary to ensure the agency is able to maintain capital assets to avoid revenue loss from park closures and to ensure safe access for all visitors and employees.

Funding	FY 2019
State Parks Revenue Fund	700.0
Issue Total	700.0

Arizona State Parks - Oracle State Park Expansion

The Executive Budget includes an increase to expand access to Oracle State Park beyond its current day-use status, adding 30 RV sites, 20 cabins and 20 tent sites.

By increasing the park's annual revenue by a projected \$1.2 million, the proposed one-time funding will turn the park's net annual deficit of \$(286,000) into a surplus.

Funding	FY 2019
State Parks Revenue Fund	4,000.0
Issue Total	4,000.0

Capitol Mall Consolidation Fund

The Executive recommends that the Capitol Mall Consolidation Fund be created for the deposit of sale proceeds from 2910 N 44th Street, 2163 N Vickey Street, and the land at the NE corner of Horne and Baseline.

Funding	FY 2019
General Fund	0.0
Issue Total	0.0

Expand Use of Utilities Special Line Item

The Executive Budget permits the use of the monies in the Utilities Special Line Item within the budget of the Arizona Department of Administration (ADOA) be allowed to cover energy contract costs for guaranteed-savings energy projects in which ADOA is involved.

Funding	FY 2019
General Fund	0.0
Issue Total	0.0

Department of Administration - 1275 W. Washington

The Executive Budget includes an increase in one-time funding for demolition of the State-owned building at 1275 W. Washington St. in Phoenix.

The building was vacated in November 2017, is beyond repair, and, if left standing, poses a significant liability to the State. Absent this funding issue, extra security measures would be necessary to ensure safety of the premises. The cost to renovate the building, as an alternative to demolishing it, is estimated at \$15 million – more than the building’s value in its present condition.

Funding	FY 2019
Capital Outlay Stabilization Fund	1,000.0
Issue Total	1,000.0

Department of Administration - Rent

The Executive Budget includes a \$3-per-square-foot increase, from \$13.08 to \$16.08, in the rent paid by State agencies for office space in State-owned buildings, and a \$1.05-per-square-foot increase on rent for storage space, from \$4.74 to \$5.79, to generate additional resources to combat the deteriorating condition of the buildings.

The Capital Outlay Stabilization Fund (COSF) collects rent on State buildings, and the revenues are used for facility operations, maintenance, and building renewal. The building renewal formula, which considers the age, replacement value, and life expectancy of State buildings, is an estimate of the amount of money required to maintain the buildings at the current level. In the past 10 years, the State has funded an average of 29.7% of the building renewal formula. As a result, the building system has accrued over \$500 million in deferred maintenance.

The rental rate increase will cost the General Fund \$1.9 million (\$5.6 million Total Funds). These increases appear in the Statewide Adjustments section.

Funding	FY 2019
General Fund	0.0
Issue Total	0.0

Prior Capital Outlay Appropriation

The Executive Budget includes an increase in one-time funding for capital projects consistent with the FY 2018 budget.

The FY 2018 budget appropriated \$5.7 million from the General Fund for capital projects in FY 2019. The Executive Budget maintains that spending level but adjusts funding sources. The Executive Budget reduces the General Fund contribution to \$3.8 million, with the remaining \$1.9 million coming from COSF. This adjustment effectively offsets the first-year General Fund costs of the rental rate increase for State-buildings mentioned in the prior Executive initiative, which is estimated to have a General Fund impact of \$1.8 million.

The \$5.7 million capital outlay appropriation will fund two projects: 1) \$3.7 million for a National Guard Readiness Center in Tucson (as part of a \$6 million State match); and 2) \$2 million for replacement of Department of Public Safety (DPS) remote modular housing and office units.

Tucson Readiness Center: The Executive Budget includes \$6 million to provide a State match for federal funding. The federal match totals \$18 million, for a total project cost of \$24 million. Of the \$6 million State match, \$3.7 million will come from the General Fund capital outlay appropriation, \$1.3 million from the Military Installation Fund, and \$1 million from the State Armory Property Fund.

DPS Remote Modular Housing and Office Units: The Executive Budget includes \$100,000 from the General Fund capital outlay appropriation and \$1.9 million from the COSF capital outlay appropriation for replacement of remote modular DPS housing and office units. Many of the existing units are well beyond their estimated useful life. Providing better living conditions for officers encourages them to serve in remote areas. This appropriation would allow replacement of the six worst units.

Funding	FY 2019
General Fund	3,822.0
Capital Outlay Stabilization Fund	1,878.0
Issue Total	5,700.0

Department of Administration - Building Renewal

The Executive Budget includes an increase in one-time funding for ADOA building renewal.

As the building components and structural systems of many of the State's buildings have exceeded their expected useful lives, building renewal money is an increasingly important investment in the State's infrastructure. These funds support a variety of projects, including fire and life safety and targeted infrastructure repair, replacement, and renovation.

Funding	FY 2019
Capital Outlay Stabilization Fund	11,000.0
Issue Total	11,000.0

Arizona State Parks - Building Renewal

The Executive Budget includes an increase in one-time funding for Arizona State Parks building renewal.

Arizona State Parks maintains 35 parks, containing 900 structures with a total area of 737,900 square feet and a replacement value estimated at \$127.5 million. Arizona State Parks also maintains a large number of outdoor facilities, such as campgrounds, trails, and information kiosks.

This funding will continue support of building renewal and deferred maintenance projects at the same level as last year.

Funding	FY 2019
State Parks Revenue Fund	1,300.0
Issue Total	1,300.0

Department of Corrections - Building Renewal

The Executive Budget includes an increase in one-time funding for Arizona Department of Corrections (ADC) building renewal to maintain fire protection and suppression, repair roofing, service elevators, plumbing, HVAC and electrical, and other infrastructure work.

ADC maintains 1,500 structures with a total area of 8.0 million square feet and a replacement value estimated at \$1.8 billion. The FY 2019 building renewal formula is calculated to be \$22.3 million. The Executive Budget funds 25% of the formula, maintaining the same level of ADC building renewal funding provided in the preceding three years.

Funding	FY 2019
DOC Building Renewal & Preventive Maintenance Fund	5,464.3
Issue Total	5,464.3

Department of Transportation - Building Renewal

The Executive Budget includes an increase in one-time funding for Arizona Department of Transportation (ADOT) building renewal to replace or repair major building systems, such as HVAC units, roofs, etc.

ADOT maintains 1,200 structures with a total area of 3.3 million square feet and a replacement value estimated at \$728.7 million.

Funding	FY 2019
State Aviation Fund	242.0
State Highway Fund	5,250.0
Issue Total	5,492.0

Department of Transportation - Highway Construction

The Executive Budget continues funding for the State's \$1.4 billion transportation infrastructure program. Debt service on existing ADOT construction bonds comprises \$302 million of the total amount. In accordance with State law, actual expenditure levels are determined within the scope of the Five-Year Highway Construction Program approved by the State Transportation Board. Construction projects and debt service payments are supported by fuel taxes, vehicle registration fees, vehicle license taxes, federal funding, and a half-cent Maricopa County sales tax.

Funding	FY 2019
State Highway Fund	0.0
Issue Total	0.0

Department of Transportation - New Materials Lab

The Executive Budget includes an increase in one-time funding for a new ADOT laboratory to test construction materials for highway projects.

ADOT operates 15 materials laboratories that are located throughout Arizona to test whether the materials and workmanship of each highway project meet specific standards. The testing is often required to satisfy Federal Highway Administration rules for federal funding of highway construction projects, and the laboratories help ensure the safety of the State's highways and bridges.

The funding will support construction of a 4,000-square-foot materials laboratory adjacent to the existing laboratory in Kingman. The existing laboratory was constructed in 1983 and does not have adequate capacity or technology to support current testing protocols. The new building will be equipped with high-heat testing ovens separated from office and general laboratory equipment.

Funding	FY 2019
State Highway Fund	2,250.0
Issue Total	2,250.0

Department of Transportation - Spreader Rack Bays

The Executive Budget includes an increase in one-time funding to repair or replace racks and bays that are used to store large highway maintenance equipment.

ADOT builds and maintains bays with racks to store large highway maintenance equipment such as spreader boxes (units that grind and spread de-icing salt) and large water tanks. These racks are essential for safely storing that equipment and loading it onto trucks.

Of the amount included, \$935,000 will be used for 14 new bays to accommodate ADOT's current and future equipment capacity; \$500,000 will be used to repair 17 existing racks to ensure their structural integrity to hold the heavy equipment; and \$285,000 will provide the engineering services and construction contingency to complete the project.

Funding	FY 2019
State Highway Fund	1,720.0
Issue Total	1,720.0

Department of Transportation - Truck Barn/Office

The Executive Budget includes an increase in one-time funding for a new truck barn and office at the Keams Canyon Maintenance Yard in Keams Canyon.

The truck barn at the Keams Canyon Maintenance Yard was built in 1962. The onsite garage is not large enough to fit modern snow-removal trucks. Instead, snow plows and other equipment are stored outside, requiring operators to clear trucks of ice and snow and warm up truck engines, resulting in deployment delays during snow emergencies.

The funding will support construction of a 4,800-square-foot truck barn with an attached office that allows ADOT to store equipment indoors and improve the capacity to service and repair equipment on site.

Funding	FY 2019
State Highway Fund	1,790.0
Issue Total	1,790.0

Exposition and State Fair - Building Renewal

The Executive Budget includes an increase in one-time funding for Exposition and State Fair (ESF) building renewal.

ESF maintains 26 structures with a total area of 681,100 square feet and a replacement value estimated at \$107.9 million. ESF also maintains multiple, large parking lots.

ESF estimates its FY 2019 building renewal need to be \$17.7 million. The Executive Budget includes a lower amount based on ESF's revenue capacity.

Funding	FY 2019
Arizona Exposition and State Fair Fund	1,000.0
Issue Total	1,000.0

Game and Fish - Building Renewal

The Executive Budget includes an increase in one-time funding for the Department of Game and Fish building renewal, fully funding the agency's building renewal formula.

Game and Fish maintains 500 structures with a total area of 837,200 square feet and a replacement value estimated at \$87.5 million. Game and Fish also maintains a large number of outdoor facilities, such as the Sterling Spring Hatchery.

The funding will support deferred maintenance projects and maintain dam safety.

Funding	FY 2019
Game and Fish Fund	981.4
Capital Improvement Fund	450.0
Issue Total	1,431.4

Lottery Commission - Building Renewal

The Executive Budget includes an increase in one-time funding for Lottery Commission building renewal, fully funding the agency's building renewal formula.

The Lottery Commission occupies and is responsible for maintenance of, a 38,500-square-foot State-owned building. The funding will support replacement or repair of aging building systems and equipment and address general infrastructure needs.

Funding	FY 2019
Lottery Fund	126.3
Issue Total	126.3

Pioneers' Home - Building Renewal

The Executive Budget includes an increase in one-time funding for Pioneers' Home building renewal.

The 66,000-square-foot Pioneers' Home was built in 1911, and many of its components have exceeded their useful lives.

Funding	FY 2019
Pioneers' Home Miners' Hospital Fund	600.0
Issue Total	600.0

Executive Budget Baseline Changes

Game and Fish - Sterling Springs Hatchery

The Executive Budget extends through FY 2020 the lapsing date on the FY 2017 appropriation to the Department of Game and Fish for the Sterling Springs Hatchery.

The FY 2017 budget included \$3 million for the project, set to lapse at the end of FY 2018. Due to unforeseen environmental compliance and state historic preservation requirements, renovations of the hatchery have been delayed, necessitating an extension to the lapsing date.

Funding	FY 2019
Game and Fish Fund	0.0
Issue Total	0.0

Department of Administration - Agency Moves

The Executive Budget includes a decrease in funding to reflect savings from agencies consolidating office space.

The State-owned building at 1740 W. Adams St. in Phoenix has been reconfigured and renovated to house 26 State boards and commissions that had previously been located throughout metropolitan Phoenix.

Additionally, the State vacated its space at 9535 Doubletree Ranch Road in Scottsdale and relocated 3 agencies from that building to the Capitol Mall.

Those and other moves will generate savings of \$3.1 million, of which \$1.5 million is attributed to the General Fund. The savings appear in the Statewide Adjustments section.

Funding	FY 2019
Capital Outlay Stabilization Fund	0.0
Issue Total	0.0

Executive Budget Legislative Changes

The following Legislative changes are needed to implement the FY 2019 Executive Budget.

Statewide

Annual Budgets

As permanent law, amend A.R.S. § 35-121 to permit annual budgets for all departments.

CORP Lump-Sum Pension Payments

As permanent law, require the Public Safety Personnel Retirement System (PSPRS) to return to the State any excess payment of the Annual Required Contribution (ARC) for the Corrections Officer Retirement Plan (CORP) if the actual costs for the CORP plan are less than the ARC.

COSF Rental Rate Changes

As session law, change the FY 2019 COSF rental rate charged by ADOA from \$13.08 per square foot to \$16.08 per square foot for office space and from \$4.74 per square foot to \$5.79 per square foot for storage space.

Reports to JLBC and JCCR

As permanent law, any place in statute or session law that requires an agency to report to the Joint Legislative Budget Committee (JLBC) or the Joint Committee on Capital Review (JCCR), or request a review or approval of JLBC or JCCR, add the Governor's Office of Strategic Planning & Budgeting (OSPB) as a recipient of the report or request.

Exemption for Military Retirement Income

As permanent law, increase the amount of exempt federal, state, and local pension income for retired military personnel from \$2,500 to \$10,000, adjusted for inflation each year.

Administration, Department of

Automation Projects Non-Lapsing Authority

As session law, indicate that monies for appropriations made from the Automation Projects Fund for FY 2018 and 2019 are non-lapsing for a period of two fiscal years.

Create Capitol Mall Consolidation Fund

As permanent law, direct sale proceeds from the properties at 2910 N. 44th St. in Phoenix, 2163 N. Vickey St. in Flagstaff, and the northeast corner of South Horne Street and East Baseline Road in Mesa to be deposited in the newly created Capitol Mall Consolidation Fund.

Expand Use of Utilities Special Line Item (SLI)

As permanent law, allow the Utilities SLI within ADOA to be for payments on guaranteed energy savings contracts.

Reallocate AFIS Charges

As session law, continue to allow charges for the Arizona Financial Information System to be reallocated among State agencies based on transactions within the accounting system.

Settlement Authority

As session law, continue to allow the Department to use the Risk Management Fund to settle any debts owed to the federal government due to disallowed costs.

Surplus Property Sales Proceeds

As session law, continue to allow Surplus Property to expend revenues it receives in excess of its appropriation.

Transit Subsidy

As session law, strike the footnote that dictates the level of subsidy ADOA may provide on public transit opportunities.

Agriculture, Department of

Continue Authority to Raise Fees

As session law, continue to allow the Director to raise fees and exempt changes to those fees from rulemaking.

Agriculture Designated-Donations Fund and Livestock Custody Fund Use

As session law, allow the Department of Agriculture to use the Agriculture Designated/Donations Fund and the Livestock Custody Fund for operating expenses, including personal services for livestock inspectors and officers.

AHCCCS

Continue Nursing Facility Assessment Footnote

As session law, continue to stipulate that any supplemental payments received in excess of the appropriation for the Nursing Facility Assessment Fund are appropriated to the AHCCCS administration.

County Acute Care Contributions

As session law, require counties to contribute \$49.1 million, through the Disproportionate Uncompensated Care (DUC) Pool and county acute care contributions, for the AHCCCS Acute Care program.

County ALTCS Contributions

As session law, require counties to contribute a total of \$264.3 million for the AHCCCS Arizona Long-Term Care System.

County Expenditure Limitations

As session law, continue to exempt from the county expenditure limitations all county payments that are deposited in the Budget Neutrality Compliance fund for Proposition 204 administration.

County Transfer

As session law, continue to avoid violation of the Patient Protection and Affordable Care Act's maintenance-of-effort provisions, transfer back to counties any monies that exceed the county portion of AHCCCS funding in place in March 2010.

Disproportionate Share Hospital

As session law, the Disproportionate Share Hospital payments for FY 2019 shall not exceed \$99,567,900 for the Maricopa Special Healthcare District and \$28,474,900 for the Arizona State Hospital. The private hospital DSH program shall be \$884,800.

Managed Care Organization Risk Contingency and Administrative Funding

As session law, continue the reduction in the capitation rates paid to the health plans, from 2% to 1%, in risk contingency and from 8.5% to 8% in administrative allowance imposed annually since contract year 2011.

Voluntary Critical Access Hospital Payments: Appropriation

As session law, continue to appropriate to AHCCCS any local government or federal match received for critical access hospital payments.

Out-of-Contract BHS Inpatient Facilities

As permanent law, give AHCCCS the authority to require managed care organizations to pay up to 90% of the AHCCCS fee schedule for inpatient behavioral health visits at non-contracted providers, effective July 1, 2018.

Attorney General

Use of the Consumer Remediation Subaccount

As session law, allow the Attorney General to expend monies up to \$1,489,000 from the Consumer Remediation Subaccount of the Consumer Restitution and Remediation Revolving Fund for the Attorney General's Case Management Information Technology System Upgrade and Licensing Compliance. This allowance would be limited to FY 2019 and FY 2020.

Automobile Theft Authority

Consolidate the Automobile Theft Authority

As permanent law, eliminate the Automobile Theft Authority and transfer its statutory authority and appropriation to the Department of Public Safety.

AZPOST

Authority to Set Fees

As session law, continue to allow the Director to set fees for Arizona Peace Officer Standards and Training Board services.

Automobile Theft Authority Fund Use

As session law, allow AZPOST to use the Automobile Theft Authority Fund for operating expenditures, including providing grants to police training academies.

Child Safety, Department of

Reversion of Backlog Privatization Monies

As session law, revert to the General Fund the FY 2017 appropriation made to DCS for backlog privatization.

Corporation Commission

Eliminate the Pipeline Safety Revolving Fund

As permanent law, amend A.R.S. § 40-443 to eliminate the Pipeline Safety Revolving Fund and transfer any remaining balance to the General Fund.

Community Colleges

Community College Capital Funding Formula

As session law, continue to suspend the community college capital funding formula outlined in A.R.S. § 15-1464.

Community College Operating Funding Formula

As session law, suspend the community college operating funding formula outlined A.R.S. § 15-1466.

Deaf and Blind, Arizona Schools for the

Use of the Telecommunication Fund for the Deaf

As session law, allow Arizona Schools for the Deaf and Blind to use monies in the Telecommunication Fund for the Deaf to support the expansion of the Birth to Three program.

Economic Security, Department of

Budget Stabilization Fund Bridge Loan

As session law, continue to allow the Department to utilize up to \$25 million from the Budget Stabilization Fund as a bridge loan, with the requirement that it be paid back in full no later than September 1, 2018.

Child Care Assistance Adjustments

As session law, continue to allow the Department to reduce maximum eligibility levels for child care assistance in order to manage within available funds.

Child Support Enforcement Fund

As session law, continue to allow the Department to expend Child Support Enforcement Fund retained earnings, fees, and federal incentives in excess of \$16.5 million.

Domestic Violence Prevention Fund

As session law, continue to allow the Department to expend Domestic Violence Prevention Fund revenues in excess of \$2.2 million.

JOBS Contract Savings

As session law, continue to redirect \$2 million of the Governor's Workforce Innovation and Opportunity Act (WIOA) allocation from the JOBS Special Line Item within the Department of Economic Security (DES) to the Governor's Office due to lower DES caseloads

Spinal and Head Injury Trust Fund Use

As session law, allow the Spinal and Head Injury Trust Fund to be used to fund \$1.9 million for costs of the Arizona Early Intervention Program in FY 2019.

TANF Cash Benefits Drug Testing

As session law, continue to require Temporary Assistance for Needy Families (TANF) Cash Benefits recipients to pass a drug test in order to be eligible for benefits, if the Department has reasonable cause to believe that the recipient uses illegal drugs.

Education, Department of

Broadband Expansion Fund Elimination of Requirement

As permanent law, eliminate the requirement that the first \$8 million of cumulative State matching contributions for certified broadband connectivity projects be provided by the Arizona Corporation Commission.

Charter Additional Assistance Reduction Phase-Out

As session law, set the reduction of Charter Additional Assistance at \$13,628,766 for FY 2019, \$10,221,575 for FY 2020, \$6,814,383 for FY 2021, \$3,407,192 for FY 2022, and \$0 for FY 2023.

Deferral of State Aid

As session law, continue the deferral of school district State Aid in the amount of \$930,727,700.

District Additional Assistance Reduction Phase-Out

As session law, set the reduction of District Additional Assistance (DAA) at \$257,469,934 for FY 2019, \$193,102,450 for FY 2020, \$128,734,967 for FY 2021, \$64,367, 483 for FY 2022, and \$0 for FY 2023.

Inflation Adjustment

As permanent law, increase by 1.79% the base level amount prescribed in A.R.S. § 15-901(B)(2), the transportation funding levels prescribed in A.R.S. § 15-945(A)(5), and the charter school Additional Assistance amounts prescribed in A.R.S. § 15-185(B)(4).

Move Teacher Salary Increase Funding to Base Level

As permanent law, increase by an additional 1.16% the base level amount prescribed in A.R.S. § 15-901(B)(2) to move the \$68 million in funding for Additional Teacher Salary Increase to the base level.

Results-Based Funding Allocation

As session law, allocate Results-Based Funding using the same formula that was used in FY 2018 based on spring 2017 AzMERIT test results.

School Emergency Readiness Pilot Program Continuation

As permanent law, continue the school emergency readiness pilot program.

Small School District Additional Assistance Reduction Limitation

As session law, for school districts that are smaller than 1,100 students, continue at \$5 million the limitation of reduction of District Additional Assistance.

Emergency and Military Affairs, Department of

Military Installation Fund Use

As session law, allow the Department to expend \$1.25 million from the Military Installation Fund for the construction of a new Readiness Center.

Environmental Quality, Department of

Elimination of Corporate Income Tax Diversion

As permanent law, amend A.R.S. § 49-282 to eliminate the Corporate Income Tax diversion to the Water Quality Assurance Revolving Fund.

Underground Storage Tank (UST) Fund Cap

As permanent law, continue to allow the Department to use up to \$6,531,000 from the UST fund for administrative costs.

UST Fund Use for MyDEQ Phase 5

As session law, allow the Department to use up to \$1.4 million from the Underground Storage Tank Fund for the cost of developing and implementing MyDEQ Phase 5, which will add several business services to the online platform.

Water Quality Fee Fund Use

As permanent law, amend A.R.S. § 49-210 to include the issuance of reclaimed water permits as an allowable use of the fund.

Water Quality Monitoring Program Financing Shift

As permanent law, continue to allow the Water Quality Fee Fund (WQFF) to support the Water Quality Monitoring Program.

WQARF Interim Funding

As session law, allow transfers from the Air Quality, Vehicle Emissions Inspections, and Landfill Fee Revenue Funds to the WQARF Program in FY 2019, in the amount of \$2 million, \$2 million, and \$3 million, respectively. Additionally, allow a \$6.5 million transfer from the Underground Storage Tank to the WQARF program in FY 2019.

Financial Institutions, Department of

General Operations from the Financial Services Fund

As permanent law, continue to allow the Department to use the Financial Services Fund for general operating expenses.

E-Licensing System

As session law, allow up to \$500,000 from the Receivership Revolving Fund to be used for the development and implementation a Department-wide electronic licensing solution.

Forestry and Fire Management, Department of

Hazardous Vegetation Special Line Item (SLI)

As session law, continue to make the Hazardous Vegetation Removal SLI non-lapsing for two years, instead of annually, to give the Forester flexibility in managing removal projects.

Hazardous Vegetation SLI Use

As session law, allow \$210,000 of the Department's FY 2018 Hazardous Vegetation Special Line Appropriation to be used for FY 2017 fire-suppression expenses.

Post-Release Firefighting Crews SLI Use

As session law, allow \$465,000 of the Department's FY 2018 Post-Release Firefighting Crews Special Line Appropriation to be used for FY 2017 fire-suppression expenses.

Game and Fish, Department of

Sterling Springs Hatchery Renovation

As session law, indicate that monies appropriated for the Sterling Springs Hatchery Renovation in FY 2017 are made non-lapsing through FY 2019.

Gaming, Department of

Unarmed Combat Fund Revenue

As permanent law, amend A.R.S. § 6-104.02(C) to change the fund in which boxing and mixed martial arts-related revenues (except license fees) are deposited from the General Fund to the Unarmed Combat Fund. It is the intent of the Executive that

the Department will fully expend any available revenue in the Unarmed Combat Fund for the purposes of operating the Division of Boxing and MMA.

Authority to Raise Fees

As session law, allow the Director of the Boxing and Mixed Martial Arts Commission to raise fees.

Health Services, Department of

Alzheimer's Research

As session law, continue to notwithstanding A.R.S. § 36-773 in order to allow the Department to use Tobacco Tax and Health Care Fund - Health Research Account monies for Alzheimer's disease research.

Arizona State Hospital Fund Deficiency

As session law, continue to require AHCCCS to transfer \$1.2 million from the Non-Medicaid Seriously Mentally Ill Services FY 2019 line item to the Department of Health Services for the costs of prescription medications for persons at the Arizona State Hospital who have a serious mental illness.

Community Protection and Treatment Center

As session law, continue to require counties to pay 31% of the cost of treatment and confinement for sexually violent persons. Allow counties to use any source of county revenue to make the transfers, and exempt county contributions from county expenditure limitations.

Disease Control Research Fund Use

As session law, allow the Disease Control Research Fund to fund the AIDS Reporting and Surveillance Special Line Item in FY 2019.

Radiation Regulatory Fund Changes

As permanent law, divert 90% of the licensing fees for the Radiation Regulatory program into the Health Services Licensing Fund and 10% into the General Fund. Eliminate the State Radiologic Technologist Certification Fund and the Radiation Regulatory Fee and transfer all unencumbered and unexpended monies into the Health Services Licensing Fund.

Restoration to Competency Funding

As session law, continue to require counties to reimburse the Arizona State Hospital for 100% of the cost of Restoration to Competency services, and allow counties to use any source of county revenue to make the transfers.

Insurance, Department of

Fee Collection

As session law, continue to notwithstanding the provision that fees collected by the Department fall between 95% and 110% of the Department's appropriations.

Moving Expenses

As session law, allow the Department to use monies from the Assessment Fund for Voluntary Plans Fund in FY 2018 and FY 2019 to pay for moving expenses.

Judiciary

Suspension of County Non-Supplanting Requirements

As session law, continue to suspend county non-supplanting requirements associated with funding for probation services, criminal case processing, and alternative dispute resolution programs, and require the counties to report on reductions in county funding as a result of the non-supplanting provisions.

Suspension of County Reimbursement Requirements for Certain Court-Related Expenses

As session law, continue to suspend the requirement of 50% reimbursement to counties for grand jury expenses and for State-funded representation of indigent defendants in first-time capital post-conviction relief proceedings, and reimburse only the amount provided in the General Appropriation Act.

Land Department, State

Natural Resource Conservation Districts

As session law, continue to stipulate that \$30,000 of the amount appropriated for Natural Resource Conservation Districts will be used to provide grants to environmental education centers.

General Appropriation Act Information Technology should Navigable Stream Adjudication Commission

Water Banking Fund Appropriation

As session law, continue to provide Arizona Water Banking Fund monies to pay for attorney fees.

Parks Board, State

Off-Highway Vehicle Recreation Fund

As permanent law, allow the Board to use up to \$692,100 annually from the Off-Highway Vehicle Fund for operational expenses.

Postsecondary Education, Commission for

LEAP Institutional Match

As session law, continue to require that institutions participating in the Leveraging Educational Assistance Partnership (LEAP) are to match State LEAP funds, and that LEAP's administrative expenses are to be paid from the institutional match.

Public Safety, Department of

Concealed Weapons Permit Fund Uses

As session law, continue to allow the Department to use the Concealed Weapons Permit Fund up to \$1.5 million for expenditures related to replacing the Microwave Backbone and \$1 million for expenditures related to replacing the Criminal Justice Information System.

DPS Joint Fund

As session law, continue to stipulate that any funds remaining in the DPS Joint Fund are to revert to the sources from which they were appropriated, in direct proportion to the amount appropriated.

Drug and Gang Prevention Resource Center Fund Use

As session law, allow the Department to use the Drug and Gang Prevention Resource Center Fund for operating expenses.

Highway Fund Expenditure Cap

As session law, continue to suspend the Department's cap on Highway User Revenue Fund and State Highway Fund expenditures.

Indigent Defense Fund

As session law, continue to allow the Department to use the State Aid to Indigent Defense Fund for operating expenses.

Public Safety Equipment Fund Transfer

As session law, continue to require the Treasurer to deposit directly to the General Fund any monies over \$1.2 million, as defined by A.R.S. § 41-1723(B).

Regents, Board of

Arizona Financial Aid Trust

As session law, continue to suspend the requirement to provide a General Fund match of two dollars for every one dollar raised by a surcharge on resident undergraduate tuition to provide need-based financial aid to resident students.

Arizona Teacher Academy

As session law, continue to require the universities to implement an Arizona Teacher Academy, which shall provide full tuition and fee waivers to enrolled students who agree to teach in an Arizona public school for at least the number of years they were enrolled in the Arizona Teacher Academy. Those who do not fulfill their teaching requirement are required to pay back the proportion of tuition and fee waivers that corresponds to the number of years of teaching requirements they did not fulfill.

Revenue, Department of

Creation of the Department of Revenue Collections Fund

As permanent law, create the Department of Revenue Collections Fund, which will be appropriated \$2 million of base TPT revenues, before revenue sharing, for audit and collections activities.

Secretary of State

Use of Records Services Fund and Data Processing Acquisition Fund

As session law, allow the Records Services Fund and Data Processing Acquisition Fund to fund the development costs for a new voter registration database.

Reversion of May 2016 Special Election Funds

As session law, revert the remaining appropriation authority for the May 2016 special election in FY 2019.

School Facilities Board

School Building Systems Inventory

As session law, allow the School Facilities Board to use up to \$750,000 of the building renewal appropriation to inventory and analyze school building systems.

Benson K-4 School

As session law, notwithstanding the statutory per-square-foot construction standards for the Benson school approved in the FY 2016 budget.

Lease-purchase debt authorization

As session law, require the School Facilities Board to enter into lease-to-own transactions to pay for the costs of new school facilities in FY 2019.

Transportation, Department of

Office Furnishings: New Flagstaff Office

As session law, make non-lapsing through FY 2019 an FY 2018 appropriation to equip and furnish a new Flagstaff office building.

Special Plates

As permanent law, allow ADOT to set the number of special plates it will issue to the owner or lessee of a vehicle under A.R.S. § 15-1464

Water Resources, Department of

Water Fees

As permanent law, continue to allow the Director to raise fees of up to \$100,200 annually, and exempt changes to those fees from rulemaking.

Water Protection Fund

As session law, continue to allow the Arizona Water Protection Fund Commission to grant up to \$336,000 to the Department to be used for administrative costs.

*Other Appropriated Funds Revenues include all revenues for funds which may only be partially subject to statutory or legislative appropriation. The expenditures shown in the "Other Funds Budget Summary" are for the appropriated portion of these funds only and may represent only a small portion of the funds' total expenditures. There are several funds where a General Fund appropriation is deposited into an "Other Appropriated Fund" and these deposits are reflected in the figures above; as such General and Other Fund Revenues may not sum to total State revenue.

Assumptions and Methodology

Preparing the State budget is a 12-month process that determines the size and scope of government. A.R.S. § 35-101 establishes a bifurcated budget process by defining 16 agencies as “annual budget units” and the remaining agencies as “biennial budget units.”

The following agencies are identified as annual budget units:

- Department of Education
- Board of Regents
- Arizona State University
- University of Arizona
- Northern Arizona University
- School Facilities Board
- Department of Economic Security
- Department of Corrections
- Department of Juvenile Corrections
- Arizona Health Care Cost Containment System
- Department of Health Services
- Department of Administration
- Department of Transportation
- The Judiciary (Supreme Court, Court of Appeals, Superior Courts)

However, Laws 2016, Chapter 127, provided that, for FY 2018 and FY 2019, all agencies will receive annual, not biennial, appropriations. Therefore, the Executive Budget provides FY 2019 funding for all agencies.

A.R.S. § 35-125 requires that the General Appropriations Act include revenue and expenditure estimates for the three subsequent years. The Executive Budget provides those estimates for FY 2018, FY 2019, and FY 2020.

Budget Process

The budget process begins on or before June 1, when the Governor’s Office of Strategic Planning & Budgeting (OSPB) provides the instructions and software required for agencies to submit their budget information. By statute, agency information must be submitted to OSPB by September 1. Copies of the agencies’ budget submissions are also provided to the Joint Legislative Budget Committee (JLBC) Staff and made available to the public.

Annually, from September 1 to no later than five days after the opening of the Legislative session, the Governor’s Office reviews budget submissions and prepares the Executive Budget, which contains operating and capital outlay expenditure plans

and estimated revenues for all State funding sources. It also contains any Legislative changes necessary for implementation.

Review of agency requests by the Legislative staff occurs during the fall. Legislative deliberation of the Executive Budget typically begins shortly after the regular session convenes, and culminates in budget negotiations between the Legislature and the Governor. Public hearings for some State agency appropriations are held by the Senate and House Appropriation committees. The committees may recommend adoption of the Executive Budget or elect to recommend a budget containing other elements. Committee recommendations can become part of floor discussions in both chambers. Legislative leadership must assemble an appropriation package acceptable to a majority of members in each chamber.

Before July 1, the Legislature enacts appropriations through the passage of General Appropriations and Capital Outlay Acts and any legislative changes necessary for the implementation of the adopted budget. Once adopted by the House of Representatives and the Senate, the bills are then presented to the Governor for consideration.

Upon presentation, the Governor has five days to sign the bills into law, veto them in their entirety, line-item veto individual items of appropriation, or allow the bills to become law without a signature. The Legislature may, with a two-thirds majority vote of each house, override a veto or line-item veto.

The operating budget is prepared and enacted using a cash basis of accounting, which recognizes expenditures when paid and revenues when received by the Treasurer.

Budgetary control is maintained by appropriation, including expenditure limits for each item of appropriation and by funding source. The allocation of an appropriation over the course of the year is also controlled.

Unless specifically enacted, operating appropriations lapse at the end of the fiscal year, and the cash becomes available for possible appropriation in the future. Capital outlay appropriations do not lapse until the end of the following fiscal year in which the money is appropriated and any unspent cash reverts to its fund source.

Budget Request Guidelines

Funding requests for information technology projects in excess of \$25,000 must have prior approval by the Strategic Enterprise Technology Office at the Department of Administration.

Budget Boundaries

The starting point in building the budget – the base appropriation and expenditure levels – are the amounts appropriated for FY 2018. For non-appropriated funds, the starting point is the planned expenditure amounts for FY 2018. The incremental changes in the Executive Budget for FY 2019 are the changes from the FY 2018 appropriations and expenditure levels.

Types of Changes in the Executive Budget

The Executive Budget provides three basic types of changes to agency appropriations.

First, *Standard Adjustments* are technical changes to fundamental operating costs, such as annual changes for rent in State-operated buildings, retirement contributions, health, dental and life insurance premiums, risk management (liability insurance) premiums, and human resource pro rata charges. Standard adjustments are displayed and calculated separately from the rest of each agency's budget. The itemization of each standard adjustment for each agency and fund is located in the standard adjustment section of the Agency Budgets book. For FY 2018, there are no changes in rent; health, dental and life insurance premiums; or human-resource pro rata charges.

Second, *Baseline Changes* are comprised of caseload changes, changes due to legal mandates from a court, or actions needed for continued efficient operations. Caseload increases or decreases generally require funding changes, assuming the agency's mandates for services are unchanged.

Finally, *Governor's Initiatives* include all funding items beyond standard or baseline adjustments and are designed to improve or change what the State does or how an activity is performed or funded.

Standard Adjustments

The FY 2019 Executive Budget contains two technical adjustments.

- Retirement rates increase for all retirement systems, by an average of 0.02% for the State Retirement System (ASRS), 7.74% for the Public Safety Personnel Retirement System (PSPRS), and 5.67% for the Correctional Officer Retirement System (CORP). The specific change for each retirement system by agency is calculated independently.
- Risk management charges are determined every two years for each agency. Changes to the charges are incorporated into the Budget at that time. Adjustments were made for FY 2018.

The amounts of the standard adjustments, by agency, by fund, are listed in the section immediately following the Department of Water Resources in the State Agency Budgets book.

Calculation of Employee-Related Expenditures

When changing the number of positions or personal services, the Executive Budget uses the following methodology.

ERE. Two separate rates are used in calculating Employee-Related Expenditures (ERE) funding requirements for changes to the number of employees or personal services:

- A health, dental and life insurance premium rate calculates, by agency, the costs per full-time-equivalent (FTE) employee based on specific rates of participation in the State's insurance programs.
- Any changes to personal services are multiplied by the rates for FICA, workers' compensation, unemployment insurance, a DOA pro rata charge for personnel costs, an information technology pro rata charge, long-term disability insurance, retirement sick leave pro rata, and retirement contributions.

The following rates are used for the development of each of the ERE components:

FICA. The rate is comprised of a 6.2% Social Security tax on the first \$126,000 of an employee's personal services and a 1.45% Medicare tax on the full amount of an employee's personal services.

Workers' Compensation. Every two years, the Department of Administration's Risk Management Division develops workers' compensation rates based on agency loss histories, program budget needs, and data provided by the National Council on Compensation Insurance (NCCI). There are no changes in the estimated rates from FY 2018 to FY 2019.

Unemployment Insurance. The rate of 0.15% is continued for FY 2017.

DOA Personnel Division Pro Rata. The rate of 0.98% of personal services is assessed on the payroll of the majority of State agencies to fund the operations of the Personnel Division.

Information Technology Pro Rata. The rate of 0.2% of personal services is assessed on all agencies (except the universities and community colleges) to fund the operations of the Strategic Enterprise Technology Office at the Department of Administration.

Disability Insurance. Most State employees are covered by long-term disability insurance through the State Retirement System. A rate of 0.24% is charged against personal services paid to employees not in the State Retirement System and is used for disability coverage for those employees.

Retirement. The following rates were used for FY 2018:

ASU Police (PSPRS).....	39.99%
Attorney General Investigators (PSPRS)	63.53%
Correctional Officers (CORP).....	21.17%
DEMA Fire Fighters (PSPRS).....	31.22%
Elected Officials Retirement Legacy System.....	23.50%

Elected Officials Retirement Defined Contribution.....	23.50%
Elected Officials Retirement Return to Work.....	0.01%
State Retirement System Return to Work.....	9.36%
PSPRS Return to Work.....	28.62%
Non-participating Benefit	0.15%
Defined Contribution Benefit.....	2.66%
Game and Fish (PSPRS).....	104.71%
Juvenile Corrections (CORP).....	31.03%
Liquor Commission Investigators (PSPRS).....	97.00%
NAU Police (PSPRS).....	58.75%
Parks (PSPRS).....	57.35%
Public Safety (PSPRS).....	86.97%
Public Safety Dispatchers (CORP).....	24.48%
Public Safety Detention Officers (CORP).....	19.31%
State Retirement System (ASRS).....	11.50%
UA Police (PSPRS).....	44.37%
University Optional Retirement.....	7.00%

Funding for retirement rates changes is included in the statewide adjustments section of the Executive Budget.

Retirement Accumulated Sick Leave Fund. Funding from a 0.4% pro rata assessment against personal services is used to compensate retiring employees for a portion of unused sick leave.

Budgeting by Government Function

Budget information is also available in a different type of detail than is shown in the published Executive Budget or the Appropriations Acts. Information is provided in a format that shows expenditures by agency programs and subprograms, which are based on each of the mandated functions for agencies, as enacted by the Legislature.

For example, in the General Appropriations Act the Game and Fish Department is funded largely by a lump-sum appropriation for the entire agency. In the MASTER LIST OF STATE GOVERNMENT PROGRAMS, funding is identified for each specific program, such as Sportfishing or Wildlife Conservation.

Other Items in the Executive Budget

Appropriation Format. The appropriation format is located at the end of each agency's section.

Legislative Changes. Implementation of some Executive Budget provisions requires Legislative changes. Those required changes are addressed in the Executive Budget State Agency Budgets book.

Expenditures for FY 2017

By law, the Executive Budget contains a reporting of the amounts expended from the immediately preceding fiscal year's appropriations, by accounting object category. The expenditures reported are provided by each agency, with subsequent reconciliation by OSPB to the State Annual Financial Report.

Budget Performance Measures

The Executive Budget contains agency descriptions and budget performance measures.

In accordance with A.R.S. § 35-115, the Executive Budget includes selected performance measures for the budget unit for the previous fiscal year, the current year, and the next year.

OSPB has selected a series of performance measures that will most accurately communicate what the agency is doing and how well the agency is doing it. The intent is to offer decision makers and citizens a better understanding of agencies and their operations with a continuity of data, as the performance measures published will remain largely consistent from year to year.

In addition to the performance measures displayed in the Executive Budget, the full array of agency performance measures is published in the MASTER LIST OF STATE GOVERNMENT PROGRAMS. This reference document also contains a comprehensive inventory of all State programs and subprograms, including descriptions, expenditure data and performance measures for every function of State government.

Administrative Costs

To comply with A.R.S. § 35-115, each agency reports administrative costs as a percent of its total funds budget. The definition of what constitutes an administrative cost is unique to each agency. The calculations provided are strictly for compliance with A.R.S. § 35-115 and are not meaningful for any other purpose.

* The costs are esimated independently by each agency and include all funding sources. These administrative costs are estimated for the express purpose of satisfying A.R.S. § 35-115.5 and should not be used for any other purpose. The administrative costs for the Universities represent funds subject to legislative appropriation only.

Glossary

Part 1: Budget Terms

90/10 Professional and occupational regulatory agencies funded through the collection of fees and the issuance of licenses. These agencies retain 90% of the fees collected annually in separate agency fund accounts and deposit 10% of the fees collected into the *General Fund*.¹

A

accountability Monitoring, measuring, and evaluating the performance and progress of policies, plans and programs to ensure that results are achieved.

actual expenditure An expenditure made in the prior *fiscal year* as reported in the State of Arizona Annual Financial Report, including *Personal Services, Employee-Related Expenditures, All Other Operating Expenditures* and all *below-the-line items* as authorized by the Legislature.

administrative adjustment Adjustments made to reflect expenditures made by an agency after the close of the *fiscal year*. Administrative adjustments include the time period from the close of the 13th month to June 30 of the next fiscal year.

administrative cost An expense associated with the support, management and oversight of services delivered pursuant to the agency or program *mission*. Typical administrative costs include those associated with accounting, human resources, budgeting, strategic planning, public information, auditing, executive management, etc.

AFIS The Arizona Financial Information System is the statewide accounting system maintained by the Department of Administration.

AHCCCS The Arizona Health Care Cost Containment System is the State's Medicaid program designed to deliver quality managed healthcare to qualifying individuals.

All Other Operating Expenditures (AOOE) Category of expenditure accounts that include Professional and Outside Services, In-State Travel, Out-of-State Travel, Food, *Other Operating Expenditures*, and *Equipment*.

ALTCS The Arizona Long Term Care System is a single federally defined program providing services through two State agencies: AHCCCS, which serves the elderly and physically disabled, and the Department of Economic Security (DES), which serves the developmentally disabled.

annualization An adjustment, made to the current year funding base, that will allow a partially-funded program to operate for a full year or accounts for a full-year of budget savings due to mid-year reductions.

appropriated fund The Legislatively mandated segregation of funds. It is used and monitored by the *General Accounting Office* as a separate self-balancing set of accounts.

Arizona Administrative Code State agency rules of practice setting forth the nature and requirements of all formal procedures available to the public.

Arizona Revised Statutes (A.R.S.) The laws governing the State of Arizona.

B

base budget An adjusted budget base that reflects the current year appropriation, amended to include changes for *standard operating adjustments*.

below-the-line item A specific expenditure or budgetary account that has been singled out through the appropriation process to provide high visibility of expenditure. Also known as "special line item."

biennial budgeting A process that estimates revenues and expenditures for a two-year period.

block grant Allocations of federal money to a state or its subdivisions in accordance with a distribution formula prescribed by law or administrative regulation, for activities of a continuing nature within a restricted subject area (e.g., social services, maternal and child health, and childcare).

budget A financial plan that estimates the revenues and expenditures for a given period of time. (SEE ALSO: *capital outlay* and *operating budget*).

budget program Functions and activities of a *budget unit* or within a budget unit that are pre-planned to fulfill a distinct *mission*.

budget reform legislation Refers to the provisions contained in Laws 1993, Chapter 252; Laws 1994, Chapter 218; Laws 1995, Chapter 283; Laws 1996, Chapter 339; Laws 1997, Chapter 210, and Laws 2002, Chapter 210.

budget unit A department, commission, board, institution or other State organization receiving, expending, disbursing or incurring obligations against State funds.

¹ Italicized terms are defined in this Glossary.

C

capital outlay Expenditures for upkeep, preservation, development, improvement or acquisition of lands, buildings or certain associated equipment.

Capital Outlay Stabilization Fund (COSF) A fund into which rent monies collected from agencies occupying State-owned rental space are deposited. The monies partially offset building operating and maintenance costs.

categorical eligibility Automatic eligibility for certain federal-State matched public assistance programs, based on criteria established in federal law. Admission to a program (e.g., Medicaid) is mandatory to certain groups of beneficiaries who meet the legal criteria for eligibility to the specified program.

categorical program A broad category of joint federal-State public assistance programs that provide financial assistance to individuals or that may subsidize a particular activity (e.g., Medicaid pays for medical services on behalf of certain groups of low-income persons).

certificate of participation (COP) A financing tool used by the State for the acquisition and construction of State facilities.

comptroller object An obsolete identifier that was formerly used in the statewide accounting system to identify the detailed revenue or expenditure account affected by a transaction; replaced in the new accounting system by *object*.

continuing appropriation An appropriation that is automatically renewed without further Legislative action, period after period, until altered, revoked or liquidated by expenditure.

current services budget A financial plan that incorporates the *base budget* needs of an agency and the addition of funding to support demographic growth in client caseloads and workload functions.

D

decision package A funding request made by State agencies.

detail fund A fund designation used in the statewide accounting system to segregate agency-specific activity. The balance of an *appropriated fund* is comprised of the sum of all of its detail funds.

Disproportionate Share Hospital (DSH) A hospital that serves a disproportionate share of low-income and Medicaid patients, thereby qualifying for federal aid pursuant to Section 1923 of the Social Security Act. The federal basis for payments is either a reflection of a hospital's number of Title XIX in-patient days or a "low-income" utilization rate. States may also establish optional payment categories. Arizona has established optional groups that include county, State and private hospitals.

E

Employee-Related Expenditures (ERE) The State's contribution to an employee's benefit package. ERE include FICA; retirement; Worker's Compensation; health, dental, and life insurance; unemployment insurance; Personnel Division charges; Government Information Technology Agency charges; and uniforms for certain classes of employees.

entitlement program A broad category of *categorical* public assistance programs that provide services (e.g., cash assistance, medical services, etc.) to certain population groups (e.g., low-income families with minor children). Admission is often mandatory for qualified individuals who meet the legal eligibility criteria (e.g., individuals who are low-income and aged, blind or disabled), hence the reference "entitlement."

Equipment In the operating budget, a specific item of expenditure divided into capitalized equipment (purchased for \$5,000 or more) and non-capitalized equipment (usually between \$300 and \$4,999).

ERE rate The quotient of *Employee-Related Expenditures* and *Personal Services* expressed as a percentage.

Executive Issue An adjustment to the prior-year appropriation to change the scope of current programs or service levels.

expenditures See actual expenditures.

F

federal funds Amounts collected and made available to the State by the federal government, usually in the form of *categorical* or *block grants* and *entitlement programs*.

Federal Insurance Contribution Act (FICA) Requires employees and employers to make matching contributions into the Social Security fund.

Federal Waiver Program Experimental, pilot or demonstration projects that, in the judgment of the Secretary of the U.S. Department of Health and Human Services, are likely to assist in promoting the objectives of the Medicaid Statute. Projects approved under this authority are referred to as "waiver" programs.

fiscal year The State's yearly accounting period beginning July 1 and ending June 30. (The federal fiscal year begins October 1 and ends September 30.)

FPL (Federal Poverty Level) Refers to the poverty guidelines, in relation to income standards, as updated annually in the FEDERAL REGISTER by the U.S. Department of Health and Human Services.

full-time equivalent (FTE) position A position budgeted at 2,080 hours per year.

fund An independent fiscal and accounting entity with a self-balancing set of accounts recording cash and/or other resources together with all related liabilities, obligations, reserves and equities, which

are segregated for the purpose of carrying on specific activities in accordance with limitations, restrictions or regulations.

fund balance The excess of the assets of a fund over its liabilities and reserves.

G

General Accounting Office (GAO) A division of the Department of Administration that provides diverse statewide financial services and ensures compliance with related *statutes* and rules.

General Fund The primary State account into which monies are collected for the general purposes of government. The primary sources of revenues for the General Fund include sales taxes, income taxes and property taxes. The General Fund is also the major expenditure source from which agencies make payments for specified purposes.

grant anticipation note (GAN) A federal finance tool involving bonding that can be issued by the State Transportation Board. The issuance of a GAN allows the State to fund and accelerate highway construction projects with anticipated federal monies.

I

inflation An allowance made for an increase in price levels of operating expenditures from one *fiscal year* to the next.

input A *performance measure* that identifies the amount of resources needed to provide particular products or services.

J

JLBC Staff The Legislative counterpart to the Governor's *Office of Strategic Planning and Budgeting (OSPB)*. The Joint Legislative Budget Committee Staff is often referred to as the JLBC but should not be confused with the Legislative committee of the same name. The JLBC Staff prepares an analysis of the Executive Budget as soon as it is presented to the Legislature. The analysis includes the JLBC Staff's recommendations for revisions in expenditures.

Joint Committee on Capital Review (JCCR) Created by Laws 1986, Chapter 85, to establish the Building Renewal Formula, approve the creation of Building Systems, and review the State Capital Improvement Plan. The JCCR is also responsible for reviewing all construction projects before commencement of the project. The JCCR consists of the following 14 members of the Legislature: Chairs of the House and Senate Appropriations Committees, majority and minority leaders from the House and Senate, four members of the House Appropriations Committee, and four members of the Senate Appropriations Committee.

Joint Legislative Budget Committee (JLBC) A Legislative committee consisting of the following 16 members of the Legislature: Majority Leaders of both the House and Senate; Chairs of both the House and Senate Appropriations Committees; Chair of the Senate

Finance Committee; Chair of the House Ways and Means Committee; five members of the House Appropriations Committee; and five members of the Senate Appropriations Committee. The JLBC meets as often as is necessary to transact business related to fiscal management of the State's resources.

Joint Substance Abuse Treatment Program (JSAT) Also known as "Arizona Families First," JSAT is a substance abuse program jointly administered by the Department of Child Safety and the Department of Health Services. The program pays for services to parents, guardians or custodians whose substance abuse is a significant barrier to preserving the family. Services can also be provided to federal Temporary Assistance for Needy Families (TANF) Block Grant recipients whose substance abuse is a significant barrier to obtaining or maintaining employment.

L

lapsing appropriation An appropriation that terminates automatically. Except for a *continuing appropriation*, an appropriation is made for a certain period of time, generally one year. At the end of this period (including an *administrative adjustment* period), unexpended or unencumbered balances revert to the fund from which the appropriation was made. Also known as a "reverting appropriation."

line item appropriation A method of appropriation that separates the budget into specific objects of expenditure. The specific items include *Personal Services*, *ERE*, Professional and Outside Services, In-State Travel, Out-of-State Travel, Food, *Other Operating Expenditures*, and *Equipment*.

lump-sum appropriation An appropriation made for a stated purpose, or for a named department, without specifying further the amounts that may be spent for specific activities or for particular objects of expenditure.

M

Master List of State Government Programs *Budget reform legislation* requires *OSPB* to publish a "Master List" of programs run by or overseen by State government. Laws 2002, Chapter 210 slightly changed the format of the Master List and designated this annual submittal as the operational plan for State agencies and conformed to the budget cycles. Required information for each agency, program and subprogram includes the agency description, *mission* statement, strategic issues, and financial and *FTE* position information, as well as the description, *mission* statements, goals, and *performance measures* for all programs and subprograms.

means-tested program Eligibility to a public assistance program restricted by an applicant's income or other resources specified by law. Resources include bank accounts and similar liquid assets as well as real estate, automobiles and other personal property whose value exceeds specified financial limits.

mission A brief, comprehensive statement of purpose of an agency, program, or subprogram.

modified lump-sum appropriation A method of appropriation in which *Personal Services*, *Employee-Related Expenditures*, *All Other Operating Expenditures* and *below-the-line items* are specified in the appropriations bill.

modified standard adjustment The difference, as calculated by the agency, between the actual *Personal Services* base and the amount allocated for Personal Services by the agency in its expenditure plan. Any amount identified as a modified standard adjustment must be explained by the agency requesting the adjustment.

N

non-appropriated funds Generally, funds set up as Enterprise or revolving funds. These funds are considered statutorily appropriated and are not subject to the annual or biennial appropriation process.

non-lapsing appropriation An appropriation that does not revert to the fund from which it was appropriated at the end of the *fiscal year*, as provided by law. (SEE *continuing appropriation*).

O

object The unit used in the State accounting system to identify, categorize and group governmental expenditures.

object category The aggregation of similar objects of expenditure or revenue in the State accounting system.

objective A specific and measurable target for accomplishing goals.

one-time adjustment A budget adjustment that must be made because of a one-time circumstance that is not continued through the next *fiscal year*. The end of a project would bring about a one-time decrease the following year.

operating budget A plan of all proposed expenditures other than capital expenditures (SEE *capital outlay*). An operating budget is composed of various objects of expenditure, such as *Personal Services*, *Employee-Related Expenditures*, *In-State Travel*, etc.

operational plan A practical, action-oriented guide that directs goal-setting to achieve meaningful results with the existing resources through the shorter budget cycle period. The operational plan should provide incremental steps towards achieving the strategic long-range plan. SEE ALSO: *Master List*

OSPB (Office of Strategic Planning and Budgeting) A State agency charged with preparing the Governor's budget guidelines and the Executive Budget recommendation for review by the Governor. The Office also facilitates a strategic planning process for State government and is responsible for implementing many of the provisions of *budget reform legislation*. The OSPB staff is the Executive counterpart to the *JLBC Staff*.

other appropriated funds All amounts, excluding *General Fund* amounts, appropriated by the Legislature for predetermined uses. These include Special Revenue Funds, revolving funds, etc.

other operating expenditure According to the ARIZONA ACCOUNTING MANUAL, everything using an object code of 7000. This refers to operating expenditures necessary to operate a budget unit, e.g., office supplies, utilities, communication, etc.

outcome A *performance measure* that reflects the actual results achieved, as well as the impact or benefit, of a program.

output A *performance measure* that focuses on the level of activity in a particular program or subprogram.

P

per diem compensation Compensation paid to board or commission members for their work. Per diem compensation is a daily rate set statutorily.

per diem travel Cost of meals and incidentals reimbursed to employees and board or commission members.

performance accountability A means of judging policies and programs by measuring their progress toward achieving agreed-on *performance targets*. Performance accountability systems are composed of three components: defining performance measures (including outcomes), measuring performance and reporting results.

performance measure Used to measure results and ensure accountability. (SEE ALSO: *input*, *output*, *outcome*, and *quality*).

performance target Quantifiable estimate of results expected for a given period of time.

personal services Line item of expenditure for salaries and wages paid to employees, elected officials and board or commission members. Payments for leave categories, overtime and other miscellaneous earnings are also recorded in this line item.

privately owned vehicle (POV) Those miles to be used in calculating reimbursement of staff for use of private vehicles on State business.

privatization The opening of government markets allowing for equitable competition between the private and public sectors for the privilege of delivering services to the public.

program budgeting A budget system that focuses on program *missions*, program achievements, and program cost effectiveness. Pursuant to *statute*, the *program structure* for program budgeting is governed by the *Master List* structure. Program budgeting is linked to planning and *accountability* through alignment of the structures and merging of the planning and budget information.

program enhancement An upward revision in the funding level of a specific program in order to enhance the level of services being provided by that program.

program structure An orderly, logical arrangement of an organization's programs and subprograms. This structure provides the framework for planning, budgeting and strategic program authorization review.

Proposition 204 Medical Program A voter-approved AHCCCS program that expands eligibility to include individuals whose annual incomes are at or below 100% of the FPL. The program is funded through monies received by the State from the tobacco litigation settlement, tobacco tax funds, and the Hospital Assessment Fund.

Proposition 206 A 2016 voter-approved initiative that provides a series of increases in the Arizona minimum wage for private-sector employees and entitles most Arizona wage earners and salaried employees to paid sick leave.

Q

quality A *performance measure* that reflects the effectiveness in meeting the expectations of customers and stakeholders.

R

receipt Unless otherwise defined, cash received. There are five general categories of receipts: taxes, licenses and permits, charges for services, fines and forfeitures, and other receipts that do not fall into another category.

resource allocation Determination and allotment of resources or assets necessary to carry out strategies within the priority framework established in the goal-setting process.

revenue Additions to assets that do not increase any liability, do not represent the recovery of an expenditure, do not represent the cancellation of certain liabilities without a corresponding increase in other liabilities or a decrease in assets, or do not represent contributions of fund capital in Enterprise and Intergovernmental Service Funds.

revenue source The tax, fee or fine that generates income to a fund.

risk management The charges assessed by the Department of Administration to guard against the risk of loss by an employee or agency acting on behalf of the State of Arizona.

S

special line item See *below-the-line item*

standard adjustment Change to the current year's appropriation to arrive at the new year's *base budget*. Examples include *annualization* of programs partially funded during the current year, annualization of the pay package, restoration of *vacancy savings*, and one-time increases and decreases.

standard operating adjustment An adjustment to the *base budget* that includes *annualization* of programs partially funded by the Legislative appropriation during the current year; annualization of Legislatively authorized pay packages; restoration of *vacancy savings*; and a one-time increase or decrease to the *operating budget*.

State service All offices and positions of employment in State government except offices and positions specifically exempted by law from the State personnel system.

statute A written law, either new or revised, enacted by the Legislature and signed by the Governor.

strategic management Process of positioning an organization so it can prosper in the future. The overall framework within which policy development, strategic, operational, *quality* planning, budgeting, *capital outlay* planning, information technology planning, program implementation, and evaluation and *accountability* take place.

strategic plan A visionary guide, based on an examination of internal and external environmental and political factors, that directs goal-setting and future resource requirements to achieve meaningful results over time. Strategic projections are long-range and usually cover a five-year period.

subprogram An integral component of a program that can be separately analyzed to gain a better understanding of the larger program.

subtask In AFIS, the element used to represent each of the subprograms of an agency as established by the Governor's Office and Legislature.

supplemental appropriation An appropriation granted for the current fiscal year. Agencies request a supplemental appropriation when the need for funding is urgent and cannot wait for the passage of the next regular appropriations act.

T

task In AFIS, the element used to represent each of the programs of an agency as established by the Governor's Office and Legislature.

tracking system A system that monitors progress, compiles management information and keeps goals on track.

U

uniform allowance An amount budgeted for specific agencies for the cost of uniforms required by the agency.

V

vacancy savings Savings generated by not filling vacant positions, by not filling newly authorized positions, or by filling a vacant position at a lower grade or step.
