Matthew Gress
Director

November 2017

The Honorable Douglas A. Ducey, Governor of Arizona, and Honorable Members of the Arizona State Legislature:

FEDERAL FUNDS TRENDS

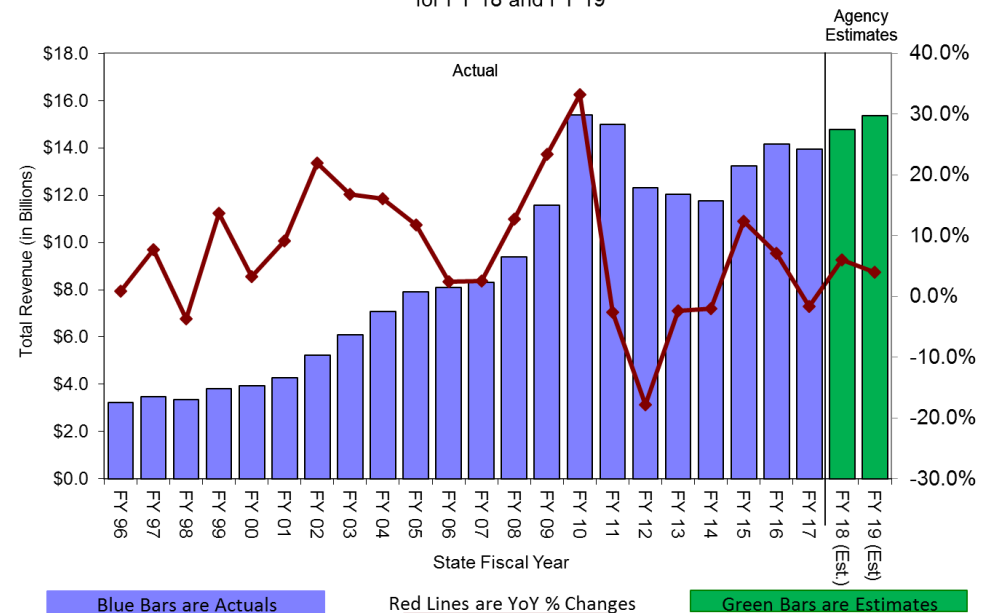

The revenue and expenditure data and estimates of state agencies indicate that federal funding decreased in fiscal year 2017 compared to fiscal year 2016; however, increases can be expected in fiscal years 2018 and 2019. The Affordable Care Act, transportation grants, as well as grants for education and child safety, are all contributing factors to the expected increase in federal funds.

Figure 1 displays the trend in federal funds received by state agencies since fiscal year 1996 and the percentage change in receipts from year to year.

FEDERAL FUNDS OUTLOOK

FY 2017 was the first year since FY 2014 that the state showed a decline in federal funds coming into the state. The \$13.9 billion reported for FY 2017 represents a 1.6% decrease from the \$14.2 billion reported in FY 2016.

Figure 1
Federal Funding Trend Including Estimates
for FY 18 and FY 19

Health and Welfare will continue to dominate federal revenues to the State. As Figure 2 demonstrates, Health and Welfare constitutes 83% or \$11.6 billion of the total amount received by the State from the Federal Government in fiscal year 2017. Unless changes are made by the Federal Government, growth will continue in this area as Medicaid membership grows. The next primary component of federal funds, Education, is expected to grow at a moderate pace in fiscal year 2018. Corrections, part of the Protection and Safety area, is also expected to grow. All other programs are expecting to continue near present funding levels.

The information contained in this document is compiled from data provided by state agencies through the normal budget process. Thirty-eight state agencies reported federal revenue or expenditures for fiscal year 2017 and estimates for fiscal years 2018 and 2019. The information was submitted to OSPB in September 2017. Specific questions on the reported information or requests for updated forecasts should be directed to the reporting agency. Specific grant information is available for review at individual state agencies and at the Governor's Office of Strategic Planning and Budgeting.

Sincerely,

Matthew Gress
Director

Area of Government

Building the Statement of Federal Funds

Preparing the Statement of Federal Funds is based primarily on agency reported information

THE STATEMENT OF FEDERAL FUNDS is required by A.R.S. §41-723. The Director of the Governor's Office of Strategic Planning and Budgeting (OSPB) is designated as the Federal-state Fiscal Research Officer and is **required** to submit to the legislature at each regular session the Statement of Federal Funds. The purpose of this section is to outline the process of collecting federal funds information from Arizona state agencies and how that information is organized in this publication.

Process

The process of collecting federal funds information begins on or before June 1, when the Governor's Office of Strategic Planning and Budgeting issues instructions to guide agencies in preparing their budget requests. Agency requests must be submitted to OSPB by September 1 unless an extension is granted for up to an additional 30 days.

As a part of an agency's budget request, information on federal funds is submitted by each state agency receiving federal assistance. Once the Governor's Office of Strategic Planning and Budgeting collects the information, it is loaded into a database and categorized by revenues and expenditures, area of government, and agency. Currently, there are no reports from the federal government organized in such a fashion to allow for a data integrity process to ensure the accuracy of agency reported information. OSPB will continue to improve the reporting of this information in both content and format.

Format

The Statement of Federal Funds publication is organized into three primary areas. It contains a Summary section, a Federal Operating Budget Detail section organized by area of government, and an Appendix.

The *SUMMARY* section contains the following three areas.

1. Federal Revenues:

- a. Summary of Federal Revenue by Area of Government—provides federal revenue received for fiscal year 2017 by area of government (e.g., General Government, Health and Welfare, Inspection and Regulation, Education, Protection and Safety, Transportation, and Natural Resources).
- b. Summary of Federal Revenue by Agency—provides federal revenue actually received for FY 2017 and estimates for fiscal years 2018 and 2019 by area of government and agency.

2. Federal Expenditures:

- a. Summary of Federal Expenditures by Area of Government—provides federal expenditures for fiscal year 2017 by area of government (e.g., General Government, Health and Welfare, Inspection and Regulation, Education, Protection and Safety, Transportation, and Natural Resources).
- b. Summary of Federal Expenditures by Agency—provides federal actual expenditures for FY 2017 and estimated expenditures for fiscal years 2018 and 2019 by area of government and by agency.

3. Federal Functions

- a. Federal Funds Revenue by Function—provides federal revenue received for fiscal year 2017 and estimates for fiscal years 2018 and 2019 by function of government (e.g., Emergency Management and National Defense, Agriculture – Extension Services, Community and Regional Development, Health – Medicaid).
- b. Federal Funds Expenditures by Function—provides federal expenditures for fiscal year 2017 and estimated expenditures for fiscal years 2018 and 2019 by function of government (e.g., Emergency Management and National Defense, Agriculture – Extension Services, Community and Regional Development, Health – Medicaid).

The *FEDERAL OPERATING DETAIL*, which makes up the majority of the publication, is organized by agency. Each agency section is sorted by Grant/Project in alphabetical order. The detail contains actual funds available and received in fiscal year 2017 as well as estimated revenues for fiscal years 2018 and 2019. Expenditures for fiscal years 2018 and 2019 are not located in this section but can be found in the Summary of Federal Expenditures by Agency in the *SUMMARY* section. Furthermore, this section contains select object level detail for FY 2017 actual expenditures. Please note, fiscal year 2017 expenditures may exceed fiscal year 2017 revenues as carry-forward balances are spent down.

The out year estimates give an idea of whether each grant will increase or decrease in ensuing years. However, state agencies often do not know from one year to the next whether federal funds will be available. As such, some of the out year estimates provided by agencies are speculative due to the lack of reliable information.

Other details in the *FEDERAL OPERATING DETAIL* section include:

1. Grant/Project—name of the federal grant
2. Catalog of Federal Domestic Assistance (CFDA)—the CFDA number is a five-digit number, which identifies a type of federal grant. By using the CFDA numbers, the Governor’s Office of Strategic Planning and Budgeting is able to identify the area of the federal government from which each grant is awarded.
3. Grantor—The acronym or name of the federal agency that awards the grant
4. Description—provides information on the proposed use of the grant money as provided by the agencies

Finally, the *APPENDIX* includes all of the footnotes used in the operating detail section of the publication and a list of acronyms that are used throughout the publication.

Summary

Summary of Federal Revenue by Area of Government
2017 Through 2019
(Dollars in Thousands)

	Actual 2017	Estimate 2018	Estimate 2019
General Government	129,542.9	143,467.5	146,146.3
Health and Welfare	11,578,750.5	12,260,985.2	13,051,731.1
Inspection and Regulation	10,882.1	11,268.6	10,412.5
Education	1,142,905.7	1,164,905.6	1,088,930.4

State Energy Program	81.041	Department of Energy	200007	768.1	875.5	875.5	⁶

The program provides financial and technical assistance to State governments to create and implement a variety of energy efficiency and conservation projects in order to provide leadership to maximize the benefits of energy efficiency and renewable energy through communications and outreach activities, technology deployment, and accessing new partnerships and resources across the geographic panorama of the United States and its territories. The program's objectives are:

- * To reduce fossil fuel emissions created as a result of activities within the jurisdictions of eligible entities;
- * To reduce the total energy use of the eligible entities; and
- * To improve energy efficiency in the transportation, building, and other sectors.

National Guard Military Operations and Maintenance (O&M) Projects Provide funding for the States through cooperative agreements to support the operations and maintenance of Army National Guard (ARNG) and Air National Guard (ANG) facilities and provide authorized service support activities to National Guard units and personnel through assistance awards listed below.a. ARNG Real Property O&M Projects (RPOMA) - provide support for authorized facilities for leases, real property services, real property maintenance, and O & M minor construction projects. b. ARNG Environmental Programs Resources Management - for services provided to accomplish environmental actions such as Environmental Compliance/Corrective Projects, Environmental and Program Management. c. ARNG Security Guard Activities – for security services provided at authorized facilities. d. ARNG Electronic Security System Installation - services to maintain Joint Services Interior Intrusion Detection Systems (J-SIIDS), Commercial Intrusion Detection Systems (CIDS), Exterior Instruction Detection Systems and Closed Circuit Television (CCTV) used for security surveillance and associated on site and off site remote monitoring equipment at authorized facilities. e. ARNG Telecommunications - services provided for installation telecommunication activities. f. ARNG Aviation Training Base Operation – services provided for Air Traffic Control (ATC), Airport Agreements management and Aircraft Rescue Fire Fighting (AFF). g. ARNG Sustainable Range Program - services provided for range operations, range maintenance, leases, rentals and equipment at authorized ranges and training lands. h. ARNG Full Time Dining Facility Operations - services provided for Food Service Operations at authorized ARNG training sites. i. Office of the Chief - Administrative Services Activities - services provided for printing and duplication, mail distribution and records management services. j. ARNG Surface Petroleum – support services provided for ARNG surface vehicle and equipment fuel. k. ARNG Aviation Reimbursable Maintenance Operations - support provided for aviation reimbursable maintenance operations to include the maintenance, fabrication, and/or repair of aircraft, aircraft subassemblies, and systems. l. ARNG Distributed Learning Program- services provided for the operation and management of linked Distance Learning centers using information technology (audio/video telecommunications) to train National Guard personnel. m. ARNG Anti-Terrorism Program Manager Activities- services provided in support of security and anti-terrorism prevention measures in State ARNG facilities. n. ANG Facilities Operations & Maintenance (FOMA) Activities - services provided at authorized facilities for leases, real property operations, real property maintenance and repair, and O & M minor construction costs. o. ANG Environmental Program Management- services provided to accomplish environmental compliance/corrective projects, environmental services, program management, hazardous waste management, environmental planning activities and natural resources actions. p. ANG Security Guard - services in rendering security guard activities at authorized facilities q. ANG Fire Protection Activities - services provided for authorized fire protection activities. r. Federal-aid Highway Program: To assist State transportation agencies in the planning and development of an integrated, interconnected transportation system important to interstate commerce and travel by constructing and rehabilitating the National Highway System (NHS), including the Eisenhower Interstate System; for transportation improvements to many other public roads; to provide aid for the repair of Federal-aid highways following disasters; to foster safe highway design; to replace or rehabilitate deficient or obsolete bridges; and to provide for other special purposes. This program also provides for the improvement of roads in Puerto Rico, Guam, the U.S. Virgin Islands, American Samoa, and the Commonwealth of the Northern Mariana Islands. The Federal Lands Transportation Program (FLTP) provides assistance to the Federal Land Management Agencies (FLMAs) for Federally-owned roads and trails. It provides transportation engineering services and funding for planning, design, construction, and rehabilitation of the highways and bridges providing access to and on federally owned lands. The Federal Lands Highway organization also provides training, technology, deployment, engineering services, and products to other customers.

State Broadband Data and Development Grant Program	11.558	Department of Commerce	865000	654.0	764.2	0.0	⁶

To establish a competitive grant program to develop and implement statewide initiatives to identify and track the availability and adoption of broadband services within each State.

<u>Performance Measures</u>	<u>2017</u>	<u>2018</u>	<u>2019</u>
Collect and deliver end-user data from Broadband Providers. Performance Measure will be completed in the following steps: 1. Collect end-user data from Broadband Providers in semi-annual installments, per FCC requirements and Arizona State Broadband map requirements. 2. Transform collected data into Geo-coded points. 3. Deliver GEO-coded data-sets to the FCC, semi-annually, per requirements. 4. Deliver GEO-coded data-sets incrementally to mapping template at the Arizona State Land Department. 5. Publish via AZ Broadband Map web-site and other demand reporting outputs, maps and related GIS information.			
Create a State Broadband Strategic Plan and conduct ongoing Policy and Best Practice analysis. Performance Measure will be completed in the following steps: 1. Organize the Arizona Broadband Development Council (ABDC) under the Arizona Strategic Enterprise Technology Office (ASET) within the Arizona Department of Administration (ADOA). 2. Create a State Broadband Strategic Plan. 3. Conduct ongoing Policy and Best Practice analysis. 4. Organize and/or support Regional Broadband Planning (by Political Subdivisions and Regional Economic Development Councils). 5. Align Arizona with the National Broadband Plan via Broadband best practices, policies, and technology reporting.

Performance Partnership Grants	66.605	Environmental Protection Agency	AHA16014	360.7	0.0	0.0	6, 8

Improving EPA's partnership with the States and Tribes is critical to accelerating environmental outcomes. Performance Partnership Grants (PPGs) are the cornerstone of the National Environmental Performance Partnership System (NEPPS) -- EPA's strategy to strengthen partnerships and build a results-based management system. PPGs are innovative grant delivery tools that allow States and Tribes to combine up to 18 eligible State and Tribal Assistance Grants (STAG) grants into a single grant with a single budget. PPGs can reduce administrative transaction costs, provide the flexibility to direct resources toward the highest priority environmental problems, and support cross-media approaches and initiatives. EPA's overarching goal is to optimize the leveraging power of PPGs to focus strategically on the joint priorities of EPA, States and Tribes. PPGs do not include any funding in addition to the state and tribal assistance grants provided under other statutory authorities.

Funding Priority - Fiscal Year 2013: Many state environmental agencies are experiencing severe budget cuts and will be challenged to maintain core programs. In this climate, EPA's regional offices will give priority to flexibility and opportunities to work collaboratively with States and Tribes. The Agency will continue to focus on our ongoing goals for the PPG program, which are: (1) strengthen partnerships between EPA, the States, Tribes, and interstate agencies through joint planning and priority setting to deploy resources more effectively; (2) provide States, Tribes, and interstate agencies with the flexibility to direct resources where they are needed most to address environmental and public health priorities; (3) link program activities more effectively with environmental and public health goals and environmental outcomes; (4) foster implementation of innovative approaches such as pollution prevention, ecosystem management, and community-based environmental protection strategies; and (5) provide savings by streamlining administrative requirements.

Market Protection and Promotion	10.163	Department of Agriculture	AHA16021	30.9	21.0	42.0	^{2, 6}

The Federal Seed Program prevents mislabeled seed from moving in interstate commerce by providing for random sampling of seeds to insure accurate labeling of seed characteristics. The Plant Variety Protection Program offers legal protection to developers of new varieties of plants which reproduce by providing the equivalent of a patent to the plant's developer. The Research and Promotion Programs provide for the collection of an assessment for each commodity covered by statutes to enable the commodity industries to carry out research and promotion activities. It is the responsibility of the Agricultural Marketing Service to assure responsible use of these assessments in meeting the research and promotion objective. The Dairy and Tobacco Adjustment Act authorized the establishment of a National dairy promotion research and nutrition education program. To eliminate deceptive, unfair and fraudulent trade practices in the processing and marketing of food and agricultural products; provide assistance to those striving to achieve this objective. The Pesticide Data Program works with participating States to collect and analyze data on pesticide use and residue levels for selected commodities in the nation's food supply. This program provides statistically based data to Federal agencies for use in making policy decisions for regulatory and educational purposes.

Emergency Management Performance Grants	97.042	Department of Homeland Security	AHA17001	0.0	296.7	154.1	4, 6, 11

The EMPG Program provides resources to assist state, local, tribal and territorial governments in preparing for all hazards, as authorized by the Robert T. Stafford Disaster Relief and Emergency Assistance Act, as amended (42 U.S.C. 5121 et seq.). Title VI of the Stafford Act authorizes FEMA to make grants for the purpose of providing a system of emergency preparedness for the protection of life and property in the United States from hazards and to vest responsibility for emergency preparedness jointly in the federal government and the states and their political subdivisions. The intent of the FY 2012 EMPG is to provide grant funding to assist state emergency management agencies in obtaining the resources required to support the National Preparedness Goal's (NPG's) associated mission areas and core capabilities. The federal government, through the EMPG Program, provides necessary direction, coordination, and guidance, and provides necessary assistance, as authorized in this title so that a comprehensive emergency preparedness system exists for all hazards.

The FY 2013 EMPG Program plays an important role in the implementation of the National Preparedness System (NPS) by supporting the building, sustainment, and delivery of core capabilities essential to achieving the National Preparedness Goal (NPG) of a secure and resilient Nation. Delivering core capabilities requires the combined effort of the whole community, rather than the exclusive effort of any single organization or level of government. The FY 2013 EMPG Program's allowable costs support efforts to build and sustain core capabilities across the Prevention, Protection, Mitigation, Response, and Recovery mission areas.

Examples of tangible outcomes from the EMPG Program include building and sustaining core capabilities through:

- Building and sustaining core capabilities
- Completion of the Threat and Hazard Identification and Risk Assessment (THIRA) process
- Strengthening governance integration
- Approved emergency plans
- Development and maintenance of multi-year Training and Exercise Plans (TEPs)
- Targeted training and verification of personnel capability
- Whole community approach to security and emergency management.

Performance Partnership Grants	66.605	Environmental Protection Agency	AHA17003	232.8	421.1	431.6	⁶

Improving EPA's partnership with the States and Tribes is critical to accelerating environmental outcomes. Performance Partnership Grants (PPGs) are the cornerstone of the National Environmental Performance Partnership System (NEPPS) -- EPA's strategy to strengthen partnerships and build a results-based management system. PPGs are innovative grant delivery tools that allow States and Tribes to combine up to 18 eligible State and Tribal Assistance Grants (STAG) grants into a single grant with a single budget. PPGs can reduce administrative transaction costs, provide the flexibility to direct resources toward the highest priority environmental problems, and support cross-media approaches and initiatives. EPA's overarching goal is to optimize the leveraging power of PPGs to focus strategically on the joint priorities of EPA, States and Tribes. PPGs do not include any funding in addition to the state and tribal assistance grants provided under other statutory authorities.

Funding Priority - Fiscal Year 2013: Many state environmental agencies are experiencing severe budget cuts and will be challenged to maintain core programs. In this climate, EPA's regional offices will give priority to flexibility and opportunities to work collaboratively with States and Tribes. The Agency will continue to focus on our ongoing goals for the PPG program, which are: (1) strengthen partnerships between EPA, the States, Tribes, and interstate agencies through joint planning and priority setting to deploy resources more effectively; (2) provide States, Tribes, and interstate agencies with the flexibility to direct resources where they are needed most to address environmental and public health priorities; (3) link program activities more effectively with environmental and public health goals and environmental outcomes; (4) foster implementation of innovative approaches such as pollution prevention, ecosystem management, and community-based environmental protection strategies; and (5) provide savings by streamlining administrative requirements.

<u>Performance Measures</u>	<u>2017</u>	<u>2018</u>	<u>2019</u>
Funds pink bollworm sterile insect technology			
To eliminate the native pink bollworm moth populations, a mating disruption strategy is used; sterile moths are mass-produced and deployed by aircraft. This is the primary approach in eradicating the pink bollworm on cotton crops. Effectiveness of eradication is measured in terms of reduction of native moth populations and cotton boll infestations. Insect traps are inspected daily to identify and count moth captures. Also, cotton bolls are sampled for larvae infestations. Post-eradication years will focus on monitoring traps for any native pink bollworm moths.

Substance Abuse and Mental Health Services_Projects of Regional and National Significance	93.243	Department of Health and Human Services	092070	1,414.5	1,414.5	1,414.5	2, 6, 15

Substance Abuse and Mental Health Service Administration (SAMHSA) was reauthorized by the Children's Health Action of 2000, Public law 106-310. Under this reauthorization, SAMHSA was given the authority to address priority substance abuse treatment, prevention and mental health needs of regional and national significance through assistance (grants and cooperative agreements) to States, political subdivisions of States, Indian tribes and tribal organizations, and other public or nonprofit private entities. Under these sections, CSAT, CMHS and CSAP seek to expand the availability of effective substance abuse treatment and recovery services available to Americans to improve the lives of those affected by alcohol and drug additions, and to reduce the impact of alcohol and drug abuse on individuals, families, communities and societies and to address priority mental health needs of regional and national significance and assist children in dealing with violence and traumatic events through by funding grant and cooperative agreement projects. Grants and cooperative agreements may be for (1) knowledge and development and application projects for treatment and rehabilitation and the conduct or support of evaluations of such projects; (2) training and technical assistance; (3) targeted capacity response programs (4) systems change grants including statewide family network grants and client-oriented and consumer run self-help activities and (5) programs to foster health and development of children; (6) coordination and integration of primary care services into publicly-funded community mental health centers and other community-based behavioral health settings funded under Affordable Care Act (ACA).

<u>Performance Measures</u>	<u>2017</u>	<u>2018</u>	<u>2019</u>
Percentage of funding utilized in the budget period (Funding Utilization Ratio)			
The funding utilization ratio is used to measure the administrative efficiency of the grant. The ratio compares the percentage of grant expenditure and encumbrance as of the fiscal year end with the percentage of budget period elapsed by the end of fiscal year.			
The Arizona Department of Health Services (ADHS) will report on all FY 2015 and FY 2016 performance metrics for this grant. In FY 2017, management of this grant will transfer to AHCCCS.

Substance Abuse and Mental Health Service Administration (SAMHSA) was reauthorized by the Children's Health Action of 2000, Public law 106-310. Under this reauthorization, SAMHSA was given the authority to address priority substance abuse treatment, prevention and mental health needs of regional and national significance through assistance (grants and cooperative agreements) to States, political subdivisions of States, Indian tribes and tribal organizations, and other public or nonprofit private entities. Under these sections, CSAT, CMHS and CSAP seek to expand the availability of effective substance abuse treatment and recovery services available to Americans to improve the lives of those affected by alcohol and drug additions, and to reduce the impact of alcohol and drug abuse on individuals, families, communities and societies and to address priority mental health needs of regional and national significance and assist children in dealing with violence and traumatic events through by funding grant and cooperative agreement projects. Grants and cooperative agreements may be for (1) knowledge and development and application projects for treatment and rehabilitation and the conduct or support of evaluations of such projects; (2) training and technical assistance; (3) targeted capacity response programs (4) systems change grants including statewide family network grants and client-oriented and consumer run self-help activities and (5) programs to foster health and development of children; (6) coordination and integration of primary care services into publicly-funded community mental health centers and other community-based behavioral health settings funded under Affordable Care Act (ACA).

<u>Performance Measures</u>	<u>2017</u>	<u>2018</u>	<u>2019</u>
Percentage of funding utilized in the budget period (Funding Utilization Ratio)			
The funding utilization ratio is used to measure the administrative efficiency of the grant. The ratio compares the percentage of grant expenditure and encumbrance as of the fiscal year end with the percentage of budget period elapsed by the end of fiscal year.			
The Arizona Department of Health Services (ADHS) will report on all FY 2015 and FY 2016 performance metrics for this grant. In FY 2017, management of this grant will transfer to AHCCCS.

ACA - State Innovation Models: Funding for Model Design and Model Testing Assistance	93.624	Department of Health and Human Services	1G1CMS33138 5-01-02	14.6	0.0	0.0	2, 6, 8, 15

The Center for Medicare and Medicaid Innovation (Innovation Center) announces the second round of funding for the State Innovation Models (SIM) program. SIM is based on the premise that state innovation with broad stakeholder input and engagement, including multi-payer models, will accelerate delivery system transformation to provide better care at lower costs. SIM is focused on public and private sector collaboration to transform the state's delivery system. SIM provides financial and technical support to states to test the ability of state governments to use their regulatory and policy levers to accelerate health transformation. In Round 1, CMS partnered with 6 Model Test states to implement state-wide health transformation strategies and 19 Model Design states to develop and refine State Healthcare Innovation Plans to guide future implementation efforts.

Drawing on lessons from the funding opportunity released in Round 1, State Innovation Models: Funding for Model Design and Testing Assistance (CMS-1G1-12-001) (Round 1 FOA), Round 2 of SIM specifies additional parameters that CMS believes correlate with successful state-wide health transformation. These parameters are described in this Funding Announcement in the form of requirements for Round 2 applications. CMS will fund up to 12 Model Test states with approximately \$20-100 million grants per state, with funding based in part on the size of the state population and the scope of the transformation proposal. Additionally, CMS will provide up to \$3 million per state for up to 15 Model Design cooperative agreements to design new State Health System Innovation Plans or enhance existing plans developed in Round 1. All Round 1 Model Design states must apply for Round 2 of SIM. The Round 1 FOA indicated that states receiving Round 1 Model Design awards must submit a Model Testing proposal for the Round 2 FOA. CMS is amending that requirement to submit a testing proposal in Round 2, so that a Model Design state may either apply for a Model Test award or may apply for a second Model Design award in order to enhance their State Health System Innovation Plan for future testing.

<u>Performance Measures</u>	<u>2017</u>	<u>2018</u>	<u>2019</u>
Submit a State Innovation Plan by the conclusion of this grant.	NA		NA
The State of Arizona will have completed and submitted a State Innovation Plan at the conclusion of this Grant.

Edward Byrne Memorial Justice Assistance Grant Program	16.738	Department of Justice	FAB30048	663.6	730.8	677.7	^{1, 6}

JAG funds support all components of the criminal justice system from multijurisdictional drug and gang task forces to crime prevention and domestic violence programs, courts, corrections, treatment, and justice information sharing initiatives. JAG funded projects may address crime through the provision of services directly to individuals and/or communities and by improving the effectiveness and efficiency of criminal justice systems, processes, and procedures.

<u>Performance Measures</u>	<u>2017</u>	<u>2018</u>	<u>2019</u>
To deprive Arizona drug/money laundering criminals of their profits.	2,316	2,395	2,200
This is measured by the number of cases "incidents" reported in high impact areas for which many criminal enterprises have been interrupted. These numbers are calculated from reports produced from Legal Files by the number of discrete defendants identified as the total number of personal (individual), and seized real and personal property defendants.

Crime Victim Assistance	16.575	Department of Justice	FAB30056	364.1	578.7	538.6	^{1, 6}

Enacted in 1984, the Victims of Crime Act (VOCA) is the central source of federal financial support for direct services to victim of crime. VOCA is administered at the federal level through the U.S. Department of Justice, Office for Victims of Crime which annually awards a grant to each state, the District of Columbia and U.S. Territories to support victim assistance services for victims and survivors of domestic violence, sexual assault, child abuse, drunk driving, homicide, and other crimes. Each state has a designated VOCA assistance agency to administer VOCA grants. Those state agencies in turn, subgrant to organizations that provide direct services to victims of crime. While minimal federal requirements must be met, each state is given great discretion in awarding specific subgrants.

<u>Performance Measures</u>	<u>2017</u>	<u>2018</u>	<u>2019</u>
To assist victims of crime to understand and participate in the criminal justice system.	9,210	8,360	10,000
This is measured by the number of victims served in cases being prosecuted by the Attorney General's Office, as well as victims in the appellate cases being argued by the Attorney General's Office.

Grant/Project and Description	CFDA	Grantor	AFIS ID	2017 Received	2018 Est. Rev.	2019 Est. Rev.	Footnote(s)
Homeland Security Grant Program	97.067	Department of Homeland Security	FAB30946	4.1	0.0	0.0	2, 6, 7

FY 2012 HSGP and THSGP provide grant funding to assist state and local governments in obtaining the resources required to support the National Preparedness Goal's (NPG's) associated mission areas and core capabilities. FY 2012 THSGP provides funding directly to eligible tribes to help strengthen the nation against risks associated with potential terrorist attacks. The FY 2012 HSGP is comprised of three interconnected grant programs:

- State Homeland Security Program (SHSP): SHSP supports the implementation of State Homeland Security Strategies to address the identified planning, organization, equipment, training, and exercise needs to prevent, protect against, mitigate, respond to, and recover from acts of terrorism and other catastrophic events.
- Urban Areas Security Initiative (UASI): The UASI program addresses the unique planning, organization, equipment, training, and exercise needs of high-threat, high-density Urban Areas, and assists them in building an enhanced and sustainable capacity to prevent, protect against, mitigate, respond to, and recover from acts of terrorism.
- Operation Stonegarden (OPSG): OPSG supports enhanced cooperation and coordination among local, tribal, territorial, State, and Federal law enforcement agencies in a joint mission to secure the United States' borders along routes of ingress from international borders to include travel corridors in States bordering Mexico and Canada, as well as States and territories with international water borders.

All three programs are founded on risk-driven, capabilities-based strategic plans. These strategic plans outline capability requirements and inform how available funding may be applied to manage risk. For these plans to be effective, government officials and elected leaders, working with the whole community, must consider how to sustain current capability levels and address potential shortfalls to prevent, protect, mitigate, respond to, and recover from disasters.

The FY 2013 HSGP plays an important role in the implementation of the National Preparedness System (NPS) by supporting the building, sustainment, and delivery of core capabilities essential to achieving the National Preparedness Goal (NPG) of a secure and resilient Nation. Delivering core capabilities requires the combined effort of the whole community, rather than the exclusive effort of any single organization or level of government. The FY 2013 HSGP's allowable costs support efforts to build and sustain core capabilities across the Prevention, Protection, Mitigation, Response, and Recovery mission areas by setting the following priorities and objectives:

Priority One: Implementation of the NPS and a Whole Community Approach to Homeland Security and Emergency Management

Grant/Project and Description	CFDA	Grantor	AFIS ID	2017 Received	2018 Est. Rev.	2019 Est. Rev.	Footnote(s)
Homeland Security Grant Program	97.067	Department of Homeland Security	FAB30946	4.1	0.0	0.0	2, 6, 7

- Objective One: Completion of the THIRA process in alignment with National Preparedness System guidance to identify the resources required to deliver core capabilities.
- Objective Two: Conduct risk driven, capabilities-based planning through whole community councils and working groups.
- Objective Three: Organization – Typing of equipment, and credentialing and training of personnel.
- Objective Four: Sustaining Capabilities.

Priority Two: Building and Sustaining Law Enforcement Terrorism Prevention Capabilities

- Objective One: Nationwide Suspicious Activity Reporting Initiative (NSI)

Priority Three: Maturation and Enhancement of State and Major Urban Area Fusion Centers

- Objective One: Baseline Capabilities.
- Objective Two: Analytic Capabilities.

The Department of Homeland Security Appropriations Act, 2013 (Public Law 113-6) authorized additional funding allocated at the discretion of the Secretary of the Department Homeland Security, to support appropriated programs in FY 2013. DHS has augmented the SHSP and UASI grant programs in FY 2013 by allocating an additional \$163.4 million to support the following priority areas:

Priority Four: Innovation and Sustained Support for the National Campaign for Preparedness

- Objective One: Foster individual and community preparedness and resilience by identifying needs; mobilizing partners; and creating innovative and effective solutions that can be grown, sustained, and replicated.

Priority Five: Improve Immediate Emergency Victim Care at Mass Casualty Events

- Objective One: Improve emergency care to victims of mass casualty events, including mass shootings.
- Objective Two: Improve community first aid training.

Minimum funding amounts are not prescribed by the Department for these priorities; however grantees are expected to support state, local, and regional efforts in achieving the desired outcomes of one or more of these priorities.

Recovery Act - Internet Crimes against Children Task Force Program (ICAC)	16.800	Department of Justice	FAB40045	28.8	20.4	0.0	1, 2, 6

The ICAC Task Force Program supports a national network of multiagency, multijurisdictional task forces and other projects to prevent technology facilitated child sexual exploitation with at least one task force in each of the 50 states. The ICAC task forces provide forensic and investigative technical assistance to law enforcement and prosecutorial officials, as well as community education information to parents, educators, prosecutors, law enforcement, and others concerned with child victimization.

As provided for in Section 103 of the Protect Our Children Act of 2008 (the “Protect Act”), the ICAC task forces shall be dedicated to the following:

- increasing the investigative capabilities of state and local law enforcement officers in the detection, investigation, and apprehension of Internet crimes against children offenses or offenders, including technology-facilitated child exploitation offenses.
- conducting proactive and reactive Internet crimes against children investigations.
- providing training and technical assistance to ICAC task forces and other Federal, state, and local law enforcement agencies in the areas of investigations, forensics, prosecution, community outreach, and capacity-building, using recognized experts to assist in the development and delivery of training programs.
- increasing the number of Internet crimes against children offenses being investigated and prosecuted in both Federal and state courts.
- creating a multiagency task force response to Internet crimes against children offenses within each state.
- enhancing nationwide responses to Internet crimes against children offenses, including assisting other ICAC task forces, as well as other Federal, state, and local agencies with Internet crimes against children investigations and prosecutions.
- developing and delivering Internet crimes against children public awareness and prevention programs.

Substance Abuse and Mental Health Services_Projects of Regional and National Significance	93.243	Department of Health and Human Services	FAB40944	0.0	0.0	0.0	2, 4, 6, 8

Substance Abuse and Mental Health Service Administration (SAMHSA) was reauthorized by the Children's Health Action of 2000, Public law 106-310. Under this reauthorization, SAMHSA was given the authority to address priority substance abuse treatment, prevention and mental health needs of regional and national significance through assistance (grants and cooperative agreements) to States, political subdivisions of States, Indian tribes and tribal organizations, and other public or nonprofit private entities. Under these sections, CSAT, CMHS and CSAP seek to expand the availability of effective substance abuse treatment and recovery services available to Americans to improve the lives of those affected by alcohol and drug additions, and to reduce the impact of alcohol and drug abuse on individuals, families, communities and societies and to address priority mental health needs of regional and national significance and assist children in dealing with violence and traumatic events through by funding grant and cooperative agreement projects. Grants and cooperative agreements may be for (1) knowledge and development and application projects for treatment and rehabilitation and the conduct or support of evaluations of such projects; (2) training and technical assistance; (3) targeted capacity response programs (4) systems change grants including statewide family network grants and client-oriented and consumer run self-help activities and (5) programs to foster health and development of children; (6) coordination and integration of primary care services into publicly-funded community mental health centers and other community-based behavioral health settings funded under Affordable Care Act (ACA).

To reach members of the Deaf and Hard of Hearing Community in Arizona through the AGO Website.		N/A	N/A
It is the goal of the Divison of Civil Rights Sections to reach members of the Deaf and Hard of Hearing community in Arizona. We will develop a video on the AGO website giving them information on their civil rights, as well as how to file a civil rights complaint. Although we won't be able to measure the number of individuals who view the videos, the Sections may see an increase in case activity with the Deaf and Hard of Hearing community filing complaints.

Grant/Project and Description	CFDA	Grantor	AFIS ID	2017 Received	2018 Est. Rev.	2019 Est. Rev.	Footnote(s)
Promoting Safe and Stable Families	93.556	Department of Health and Human Services	935560	7,420.9	8,010.8	8,010.8	⁶

To prevent the unnecessary separation of children from their families, improve the quality of care and services to children and their families, and ensure permanency for children by reuniting them with their parents, by adoption or by another permanent living arrangement. This is accomplished through issuance of grants to State child welfare agencies and eligible Indian Tribes to serve families at risk or in crisis, including provision of the following services: reunification and adoption services, preplacement/preventive services, follow-up services after return of a child from foster care, respite care, services designed to improve parenting skills; and infant safe haven programs; to fund community-based family support services that promote the safety and well-being of children and families, to afford children a safe, stable and supportive family environment, to strengthen parental relationships and promote healthy marriages, and otherwise to enhance child development; time-limited family reunification services to facilitate the reunification of the child safely and appropriately within a timely fashion; and adoption promotion and support services designed to encourage more adoptions out of the foster care system, when adoption, promotes the best interests of the child. In addition, a portion of funds also is reserved for a separate formula grant for States and territories to support monthly caseworker visits with children who are in foster care. A small proportion of appropriated funds are reserved for research, evaluation and technical assistance, which may be awarded competitively through contracts or discretionary grants.

Foster Care_Title IV-E	93.658	Department of Health and Human Services	936580	59,671.5	51,137.2	51,137.2	⁶

The Title IV-E Foster Care program helps States, Indian Tribes, Tribal organizations and Tribal consortia (Tribes) to provide safe and stable out-of-home care for children under the jurisdiction of the State or Tribal child welfare agency until the children are returned home safely, placed with adoptive families, or placed in other planned arrangements for permanency. The program provides funds to assist with the costs of foster care maintenance for eligible children; administrative costs to manage the program; and training for public agency staff, foster parents and certain private agency staff. In addition, \$3 million is reserved for technical assistance and plan development/implementation grants to eligible Tribes, beginning in fiscal year 09.

<u>Performance Measures</u>	<u>2017</u>	<u>2018</u>	<u>2019</u>
Number of children in out-of-home care	18,711	17,397	15,500

Crime Victim Assistance	16.575	Department of Justice	DCA16001	73.7	0.0	0.0	1, 6, 8

Enacted in 1984, the Victims of Crime Act (VOCA) is the central source of federal financial support for direct services to victim of crime. VOCA is administered at the federal level through the U.S. Department of Justice, Office for Victims of Crime which annually awards a grant to each state, the District of Columbia and U.S. Territories to support victim assistance services for victims and survivors of domestic violence, sexual assault, child abuse, drunk driving, homicide, and other crimes. Each state has a designated VOCA assistance agency to administer VOCA grants. Those state agencies in turn, subgrant to organizations that provide direct services to victims of crime. While minimal federal requirements must be met, each state is given great discretion in awarding specific subgrants.

<u>Performance Measures</u>	<u>2017</u>	<u>2018</u>	<u>2019</u>

Second Chance Act Prisoner Reentry Initiative	16.812	Department of Justice	DCA16011	156.5	320.7	265.3	⁶

The Second Chance Act Programs are designed to help communities develop and implement comprehensive and collaborative strategies that address the challenges posed by offender reentry and recidivism reduction.

The Second Chance Act is a commonsense response to the increasing number of people who are released from prison and jail and returning to communities. There are currently 2.5 million people serving time in our federal and state prisons, and millions of people cycling through local jails every year. Ninety-five percent of all prisoners incarcerated today will eventually be released and will return to communities. Of those serving a sentence in state or federal prisons, approximately 750,000 will be released each year. The Second Chance Act will help ensure the transition people make from prison or jail to the community is safe and successful.

<u>Performance Measures</u>	<u>2017</u>	<u>2018</u>	<u>2019</u>
Number of inmates completing a certificate		0	67
Total number of inmates who completed a stackable certificate in AutoCAD, GIS, or CompTIA A+. Data collected and reported by grant program manager.

Crime Victim Assistance	16.575	Department of Justice	DCA16017	111.9	366.9	392.6	^{1, 6}

Enacted in 1984, the Victims of Crime Act (VOCA) is the central source of federal financial support for direct services to victim of crime. VOCA is administered at the federal level through the U.S. Department of Justice, Office for Victims of Crime which annually awards a grant to each state, the District of Columbia and U.S. Territories to support victim assistance services for victims and survivors of domestic violence, sexual assault, child abuse, drunk driving, homicide, and other crimes. Each state has a designated VOCA assistance agency to administer VOCA grants. Those state agencies in turn, subgrant to organizations that provide direct services to victims of crime. While minimal federal requirements must be met, each state is given great discretion in awarding specific subgrants.

<u>Performance Measures</u>	<u>2017</u>	<u>2018</u>	<u>2019</u>

Grant/Project and Description	CFDA	Grantor	AFIS ID	2017 Received	2018 Est. Rev.	2019 Est. Rev.	Footnote(s)
NICS Act Record Improvement Program	16.813	Department of Justice	JCA14002	0.0	0.0	0.0	2, 4, 6

To improve the FBI's National Instant Criminal Background Check System (NICS) by providing assistance to states to improve the completeness, automation and transmittal to state and federal systems the records utilized by the NICS. Such records include criminal history records, records of felony convictions, warrants, records of protective orders, convictions for misdemeanor involving domestic violence and stalking, records of mental health adjudications, and others, which may disqualify an individual from possessing or receiving a firearm under federal law. Helping states to automate these records will also reduce delays for law-abiding gun purchasers.

The NICS Improvement Act amends the Brady Handgun Violence Prevention Act of 1993 ("the Brady Act") (Public Law 103-159), under which the Attorney General established NICS. The Brady Act requires Federal Firearms Licensees (FFLs) to contact the NICS before transferring a firearm to an unlicensed person for information on whether the proposed transferee is prohibited from receiving or possessing a firearm under state or federal law. The NICS Improvement Act was enacted in the wake of the April 2007 shooting tragedy at Virginia Tech. The Virginia Tech shooter was able to purchase firearms from an FFL because information about his prohibiting mental health history was not available to the NICS and the system was therefore unable to deny the transfer of the firearms used in the shootings.

The Act seeks to address the gap in information available to NICS about such prohibiting mental health adjudications and commitments and other prohibiting backgrounds. Filling these information gaps will better enable the system to operate as intended to keep guns out of the hands of persons prohibited by federal or state law from receiving or possessing firearms.

The Act authorized two grant programs to assist states in providing certain information to the NICS, and prescribes grant penalties for non-compliance with the Act's record completeness goals. Pursuant to the Act, there are certain conditions, described below, that a state must satisfy in advance of receiving grants under the Act. The NICS Improvement Act has provisions that require states to meet specified goals for completeness of the records submitted to the Attorney General on individuals prohibited by federal law from possessing firearms. The records covered include automated information needed by the NICS to identify felony convictions, felony indictments, fugitives from justice, drug arrests and convictions, prohibiting mental health adjudications and commitments, domestic violence protection orders, and misdemeanor crimes of domestic violence.

The Act provides for a number of incentives for states to meet the goals it sets for greater record completeness. First, the Act allows states to obtain a waiver, beginning in 2011, of the state matching requirement under the National Criminal

Project Safe Neighborhoods	16.609	Department of Justice	JCA15001	0.0	0.0	0.0	2, 4, 6

Project Safe Neighborhoods (PSN) is a comprehensive, evidence-based strategic approach to reducing gun and gang crime in America by networking existing local programs that target gun and gang crime and providing those programs with additional tools and/or resources needed to reduce gun and gang violence.

<u>Performance Measures</u>	<u>2017</u>	<u>2018</u>	<u>2019</u>
Gun violence prevention messages delivered in high crime/high risk neighborhoods (# of messages)	N/A	25	25
The goal of the PSN grant is to reduce gun violence incidents in high gun crime and gang areas. By delivering prevention messages that target youth and their families, community awareness is increased as well as access to available services. The measure is calculated by the number of actual messages delivered in the targeted community.			

Crime Victim Compensation	16.576	Department of Justice	JCA15002	0.0	0.0	0.0	2, 4, 6, 8
----------------------------------	---------------	------------------------------	-----------------	------------	------------	------------	-------------------

The Office for Victims of Crime (OVC), Department of Justice, administers the Crime Victim Compensation formula grant program. OVC annually awards a grant to each state, the District of Columbia, the U.S. Virgin Islands, and the Commonwealth of Puerto Rico to support state crime victim compensation programs. These programs help pay for some of the expenses resulting from crimes involving violence or abuse.

<u>Performance Measures</u>	<u>2017</u>	<u>2018</u>	<u>2019</u>
Length of time to process victim compensation claims (in weeks).	8	8	8
The length of time to process a claim is used to determine the efficiency of the claims process used by county programs. This measure is calculated by the number of weeks between application receipt by the county program and determination by the compensation board. Program rules require compensation boards to make claim determinations within 60 days of application receipt which calculates to 8.5 weeks.

NICS Act Record Improvement Program	16.813	Department of Justice	JCA16004	1,117.4	0.0	0.0	^{2, 6}

To improve the FBI's National Instant Criminal Background Check System (NICS) by providing assistance to states to improve the completeness, automation and transmittal to state and federal systems the records utilized by the NICS. Such records include criminal history records, records of felony convictions, warrants, records of protective orders, convictions for misdemeanor involving domestic violence and stalking, records of mental health adjudications, and others, which may disqualify an individual from possessing or receiving a firearm under federal law. Helping states to automate these records will also reduce delays for law-abiding gun purchasers.

The NICS Improvement Act amends the Brady Handgun Violence Prevention Act of 1993 ("the Brady Act") (Public Law 103-159), under which the Attorney General established NICS. The Brady Act requires Federal Firearms Licensees (FFLs) to contact the NICS before transferring a firearm to an unlicensed person for information on whether the proposed transferee is prohibited from receiving or possessing a firearm under state or federal law. The NICS Improvement Act was enacted in the wake of the April 2007 shooting tragedy at Virginia Tech. The Virginia Tech shooter was able to purchase firearms from an FFL because information about his prohibiting mental health history was not available to the NICS and the system was therefore unable to deny the transfer of the firearms used in the shootings.

The Act seeks to address the gap in information available to NICS about such prohibiting mental health adjudications and commitments and other prohibiting backgrounds. Filling these information gaps will better enable the system to operate as intended to keep guns out of the hands of persons prohibited by federal or state law from receiving or possessing firearms.

The Act authorized two grant programs to assist states in providing certain information to the NICS, and prescribes grant penalties for non-compliance with the Act's record completeness goals. Pursuant to the Act, there are certain conditions, described below, that a state must satisfy in advance of receiving grants under the Act. The NICS Improvement Act has provisions that require states to meet specified goals for completeness of the records submitted to the Attorney General on individuals prohibited by federal law from possessing firearms. The records covered include automated information needed by the NICS to identify felony convictions, felony indictments, fugitives from justice, drug arrests and convictions, prohibiting mental health adjudications and commitments, domestic violence protection orders, and misdemeanor crimes of domestic violence.

The Act provides for a number of incentives for states to meet the goals it sets for greater record completeness. First, the Act allows states to obtain a waiver, beginning in 2011, of the state matching requirement under the National Criminal

History Improvement Program (NCHIP) grant program, if a state provides at least 90 percent of its records identifying persons in specified prohibited categories. Second, the Act authorizes grant programs described herein, which, pursuant to the Act, are being administered consistent with NCHIP, for state executive and judicial agencies to establish and upgrade information automation and identification technologies for timely submission of final criminal record dispositions and other information relevant to NICS checks. Finally, the Act provides for discretionary and mandatory Byrne Justice Assistance Grant (JAG) program grant penalties, beginning 3 years after enactment, for non-compliance with specified record completeness requirements within certain timeframes: after 3 years, 3 percent may be withheld in the case of less than 50 percent completeness; after 5 years, 4 percent may be withheld in the case of less than 70 percent completeness; and after 10 years, 5 percent shall be withheld in the case of less than 90 percent completeness (although the mandatory reduction can be waived if there is substantial evidence of the state making a reasonable effort to comply).

Crime Victim Compensation	16.576	Department of Justice	JCA16009	1,133.0	0.0	0.0	2, 6, 8

The Office for Victims of Crime (OVC), Department of Justice, administers the Crime Victim Compensation formula grant program. OVC annually awards a grant to each state, the District of Columbia, the U.S. Virgin Islands, and the Commonwealth of Puerto Rico to support state crime victim compensation programs. These programs help pay for some of the expenses resulting from crimes involving violence or abuse.

<u>Performance Measures</u>	<u>2017</u>	<u>2018</u>	<u>2019</u>
Length of time to process victim compensation claims (in weeks).	8	8	8
The length of time to process a claim is used to determine the efficiency of the claims process used by county programs. This measure is calculated by the number of weeks between application receipt by the county program and determination by the compensation board. Program rules require compensation boards to make claim determinations within 60 days of application receipt which calculates to 8.5 weeks.

Maternal and Child Health Federal Consolidated Programs	93.110	Department of Health and Human Services	000008	79.8	0.0	0.0	⁶

To carry out special maternal and child health (MCH) projects of regional and national significance; to conduct training and research; to conduct genetic disease testing, counseling, and information development and dissemination programs; for grants relating to hemophilia without regard to age; and for the screening of newborns for sickle cell anemia, and other genetic disorders. and to support comprehensive hemophilia diagnostic and treatment centers. These grants are funded with a set-aside from the MCH Block grant program. SPRANS grants are funded with 15 percent of the Block Grant appropriation of up to \$600 million. When the appropriation exceeds \$600 million, 12.75 percent of the amount over \$600 million is set aside for the Community Integrated Service Systems grants. 15 percent of the balance remaining over \$600 million is also for SPRANS. The CISS program is to develop and expand the following: (1) Home visitation; (2) increased participation of obstetricians and pediatricians; (3) integrated service delivery systems; (4) maternal and child health centers for women and infants, under the direction of a not-for-profit hospital; (5) services for rural populations; and (6) community based services for children with special health care needs in order to enhance or develop an integrated services system. In FY 2008 Congress first funded the Combating Autism Act program, which is for early detection, education and intervention activities on autism and other developmental disorders.

First funded in 2004, the Heritable Disorders Program is established to improve the ability of States to provide newborn and child screening for heritable disorders and affect the lives of all of the nation's infants and children. Newborn and child screening occur at intervals across the life span of every child. Newborn screening universally provides early identification and follow-up for treatment of infants affected by certain genetic, metabolic, hormonal and/or functional conditions. It is expected that newborn and child screening will expand as the capacity to screen for genetic and congenital conditions expands.

First funded in 2009, the Congenital Conditions program is established to provide information and support services to women and their families that have received a diagnosis for Down Syndrome, Spina Bifida, Dwarfism and other prenatally or postnatally diagnosed conditions.

<u>Performance Measures</u>	<u>2017</u>	<u>2018</u>	<u>2019</u>
For children zero to age five continue to promote/improve/increase health and access to a medical home, early childhood education, mental health, family support and parent education.			
Deliver on scope of work outlined in agreement.

Affordable Care Act (ACA) Maternal, Infant, and Early Childhood Home Visiting Program	93.505	Department of Health and Human Services	000010	1,419.2	873.4	0.0	^{1, 6}

The Maternal, Infant, and Early Childhood Home Visiting Program is designed : (1) to strengthen and improve the programs and activities carried out under Title V; (2) to improve coordination of services for at risk communities; and (3) to identify and provide comprehensive services to improve outcomes for families who reside in at risk communities.

Voluntary evidence-based home visiting is the primary strategy to deliver services. A nurse, social worker, parent educator, or other paraprofessional regularly visits an expectant mother or father, new parent, or primary caregiver of a young child from birth to kindergarten entry to support and strengthen the parent-child relationship to improve the health, development and well-being for the child and family.

To provide Federal financial aid to State agencies for costs incurred to operate the Supplemental Nutrition Assistance Program (SNAP).

SNAP Nutrition Education Grant Program funds support the Nutrition Education and Obesity Prevention Grant Program, which was established by Section 241 of the Healthy, Hunger-Free Kids Act of 2010.

SNAP Employment and Training (E&T) funds provide grants to States to provide E&T education to assist SNAP participants in finding work. An E&T program may consist of many different types of components, including but not limited to: independent job search; job search training and support; workfare; educational programs to improve employability; work experience or training to improve employability; other employment oriented activities (e.g., job placement, supported work experience, WIA services); and self-employment training.

Special Education-Grants for Infants and Families	84.181	Department of Education	841810	9,532.0	9,376.6	9,376.6	⁶

To provide grants to States to assist them to implement and maintain a Statewide, comprehensive, coordinated, multidisciplinary, interagency system to make available early intervention services to infants and toddlers with disabilities and their families.

<u>Performance Measures</u>	<u>2017</u>	<u>2018</u>	<u>2019</u>
Service Delivery Effectiveness	93.7%	93.9%	95.5%
The United States Department of Education, Office of Special Education Programs (USDOE/OSEP) oversees the implementation of Part C of the Individuals with Disabilities Education Act (IDEA), which governs the Arizona Early Intervention Program (AZEIP). Starting in FY10, ADES implemented a quarterly survey used to identify the effectiveness of service delivery within the program. The measure fosters communication between ADES, providers and clients, allowing for improved service delivery.			
Individualized Family Service Plan (IFSP) completion timeliness	92%	95.4%	95.0%
The United States Department of Education, Office of Special Education Programs (USDOE/OSEP) oversees the implementation of Part C of the Individuals with Disabilities Education Act (IDEA), which governs the Arizona Early Intervention Program. IDEA requires states to determine eligibility and complete the initial Individualized Family Service Plan (IFSP) within forty-five days of referral. These two measures indicate how quickly AZEIP is able to respond to families, determine eligibility for children and their families, develop a plan that outlines the intended outcomes and the early intervention services that will be provided.

Special Programs for the Aging_Title III, Part B_Grants for Supportive Services and Senior Centers	93.044	Department of Health and Human Services	930440	9,099.3	9,405.3	9,405.3	⁶

To encourage State Agencies on Aging and Area Agencies on Aging to concentrate resources to develop and implement comprehensive and coordinated community-based systems of service for older individuals via Statewide planning, and area planning and provision of supportive services, including multipurpose senior centers. The objective of these services and centers is to maximize the informal support provided to older Americans to enable them to remain in their homes and communities. Providing transportation services, in-home services, and other support services, this program insures that elders receive the services they need to remain independent.

<u>Performance Measures</u>	<u>2017</u>	<u>2018</u>	<u>2019</u>
Percent of survey respondents indicating provision of home-and community-based services avoided premature institutionalization (biennial survey)	89	N/A	90
The grant is used to measure client satisfaction. The survey is conducted every other year.			

Special Programs for the Aging_Title III, Part C_Nutrition Services	93.045	Department of Health and Human Services	930450A	6,874.9	6,593.9	6,593.9	⁶
--	---------------	--	---------	---------	---------	---------	--------------

To provide grants to States to support nutrition services including nutritious meals, nutrition education and other appropriate nutrition services for older Americans in order to maintain health, independence and quality of life. Meals may be served in a congregate setting or delivered to the home, if the older individual is homebound.

<u>Performance Measures</u>	<u>2017</u>	<u>2018</u>	<u>2019</u>
Number of congregate meals served	821,023	1,022,460	1,099,091
The grant is used to increase the nutrient intake of participants to prevent or reduce the risk of chronic diseases, preserve and promote health, and improve nutritional status.

Alzheimer's Disease Demonstration Grants to States	93.051	Department of Health and Human Services	930510A	0.0	0.0	0.0	^{2, 6}

To expand the availability of diagnostic and support services for persons with Alzheimer's Disease and Related Dementias (ADRD), their families, and their caregivers, as well as to improve the responsiveness of the home and community-based care system to persons with dementia.

There are three types of ADSSP grants: Evidence-based grants require states to demonstrate how existing evidence-based interventions that help people with ADRD and their family caregivers can be translated into effective supportive service programs at the community level. Innovation grants require states and their partners to explore innovative approaches to improving the delivery of supportive services at the community-level to people with ADRD and their family caregivers. Dementia capability grants require states to help ensure that people with dementia and their family caregivers have access to a home and community-based services system that identifies those with dementia, ensures that program staff have appropriate dementia care training, and assures delivery of quality services.

Promoting Safe and Stable Families	93.556	Department of Health and Human Services	935560	0.0	0.0	0.0	^{2, 6}

To prevent the unnecessary separation of children from their families, improve the quality of care and services to children and their families, and ensure permanency for children by reuniting them with their parents, by adoption or by another permanent living arrangement. This is accomplished through issuance of grants to State child welfare agencies and eligible Indian Tribes to serve families at risk or in crisis, including provision of the following services: reunification and adoption services, preplacement/preventive services, follow-up services after return of a child from foster care, respite care, services designed to improve parenting skills; and infant safe haven programs; to fund community-based family support services that promote the safety and well-being of children and families, to afford children a safe, stable and supportive family environment, to strengthen parental relationships and promote healthy marriages, and otherwise to enhance child development; time-limited family reunification services to facilitate the reunification of the child safely and appropriately within a timely fashion; and adoption promotion and support services designed to encourage more adoptions out of the foster care system, when adoption, promotes the best interests of the child. In addition, a portion of funds also is reserved for a separate formula grant for States and territories to support monthly caseworker visits with children who are in foster care. A small proportion of appropriated funds are reserved for research, evaluation and technical assistance, which may be awarded competitively through contracts or discretionary grants.

Child Support Enforcement Research	93.564	Department of Health and Human Services	935640	18.9	225.0	225.0	⁶

To provide federal funds for experimental, pilot, or demonstration projects that are likely to assist in promoting the objectives of Part D of Title IV. Section 1115 provides that 'the project - 1) must be designed to improve the financial well-being of children or otherwise improve the operation of the child support program; 2) may not permit modifications in the child support program which would have the effect of disadvantaging children in need of support; and 3) must not result in increased cost to the federal government under Part A of such title.' The principal purpose is to carry out the public purpose of implementing a demonstration project that is likely to 'improve the financial well-being of children or otherwise improve the operation of the child support program' as stated in the statutory authority. Any responsibility to the federal government is a condition for receiving the grant, but not a principal purpose.

The Refugee Cash and Medical Assistance program reimburses states for the cost of cash and medical assistance provided to refugees, certain Amerasians from Viet Nam, Cuban and Haitian entrants, asylees, victims of a severe form of trafficking, and Iraqi and Afghan Special Immigrants during the first eight months after their arrival in this country or grant of asylum. Reimbursement is also provided for care of unaccompanied refugee minors and grantee administrative costs. Social Services formula funding may be used for employment and other social services for same population for five years after their date of arrival or grant of asylum.

<u>Performance Measures</u>	<u>2017</u>	<u>2018</u>	<u>2019</u>
Number of eligible refugees receiving medical assistance	13	20	17
The grant is used to address immediate and crucial health needs of refugees, thus contributing to their well being and self-sufficiency.

Grant/Project and Description	CFDA	Grantor	AFIS ID	2017 Received	2018 Est. Rev.	2019 Est. Rev.	Footnote(s)
Low-Income Home Energy Assistance	93.568	Department of Health and Human Services	935680	20,415.5	20,958.5	20,958.5	⁶

To make Low Income Home Energy Assistance Program (LIHEAP) grants available to States and other jurisdictions to assist eligible households to meet the costs of home energy. Supplemental Leveraging Incentive Funds may be awarded to reward States and other jurisdictions that provide additional benefits and services to LIHEAP-eligible households beyond what could be provided with Federal funds. Up to 25 percent of the leveraging incentive funds may be set aside for LIHEAP grantees that provide services through community-based nonprofit organizations to help LIHEAP-eligible households reduce their energy vulnerability under the Residential Energy Assistance Challenge Program (REACH).
 Training and Technical Assistance: To provide training and technical assistance to States and other jurisdictions administering the LIHEAP block grant program.

<u>Performance Measures</u>	<u>2017</u>	<u>2018</u>	<u>2019</u>
Number of households receiving financial assistance for paying home energy bills	30,565	29683	30,000
This grant is used to assist low-income households in maintaining basic utility services through the Community Action Agencies (CAAs). Despite the reduction to expenditures from FY 2013 to FY 2014, the number of households served is expected to remain the same, however the benefit paid on behalf of each household will be reduced to reflect the decreased grant award.			
Number of safe and affordable housing units in the community preserved or improved through construction, weatherization, or rehabilitation achieved by Community Action Agencies	418	444	500
This grant is used to provide weatherization and other services intended to improve the conditions in which low-income individuals live and lower the overall energy burden of low-income families.

Child Care Mandatory and Matching Funds of the Child Care and Development Fund	93.596	Department of Health and Human Services	935960	123,696.5	128,072.0	128,072.0	

The Child Care Mandatory and Matching Funds are a part of the Child Care and Development Fund (CCDF) program, along with the Child Care and Development Block Grant (CCDBG) or Discretionary Funds (see CFDA 93.575). The Child Care Mandatory and Matching Funds provide grants to States, Tribes, and tribal organizations for child care assistance for low-income families. The goals are to: (1) allow each State maximum flexibility in developing child care programs and policies that best suit the needs of children and parents within such State; (2) promote parental choice to empower working parents to make their own decisions on the child care that best suits their family's needs; (3) encourage States to provide consumer education information to help parents make informed choices about child care; (4) assist States to provide child care to parents trying to achieve independence from public assistance; and (5) assist States in implementing the health, safety, licensing, and registration standards established in State regulations. Current priorities include: making systemic investments in quality child care to promote child development and health and safety; and creating a system that is child focused, family friendly, and fair to providers.

<u>Performance Measures</u>	<u>2017</u>	<u>2018</u>	<u>2019</u>

Professional Standards for School Nutrition Employees	10.547	Department of Agriculture	CNPPROFSTD S15	48.3	0.0	0.0	6, 8

The Healthy Hunger-Free Kids Act (HHFKA) of 2010, Section 306, directed the United States Department of Agriculture to establish minimum national professional standards for all school nutrition employees who manage and operate the National School Lunch and School Breakfast Programs. These new standards will ensure that school nutrition personnel have the training and tools they need to plan, purchase and prepare safe, nutritious and enjoyable school meals. The rule institutes minimum hiring standards for the selection of State and local school nutrition program directors; and requires all personnel in these programs to complete annual continuing education/training. The standards are effective July 1, 2015. The principal benefit of this rule is to ensure that key school nutrition personnel are meeting minimum professional standards in order to adequately perform the duties and responsibilities of their positions.

The purpose of this Request for Applications (RFA) is to:

- Provide awards, on a competitive basis, to State agencies administering National School Lunch Program (NSLP) and School Breakfast Program (SBP), to develop and implement trainings to support the Professional Standards rule,
- Describe which entities are eligible to apply for grant funds,
- Describe the requirements for submitting a successful application, and
- Describe how applications will be reviewed and selected.

English Language Acquisition State Grants	84.365	Department of Education	FELA14	97.5	0.0	0.0	2, 6, 8

To help ensure that limited English proficient (LEP) children, including immigrant children and youth, attain English proficiency and meet the same challenging State academic content and student academic achievement standards as all children are expected to meet.

<u>Performance Measures</u>	<u>2017</u>	<u>2018</u>	<u>2019</u>
Conduct collaborative, targeted technical assistance	45	30	42
Conduct collaborative, targeted technical assistance sessions with at least 15 LEAs in the monitoring process to assist with compliance with state and federal guidelines.			
*The technical assistance provided has been effective and has therefore yielded fewer LEAs in corrective action for the 2016-2017 school year. Since there are less LEAs to serve, our Actual and Estimates may decline.			
% of students reclassified as Fluent English Proficient (FEP)	N/A	16	20
Percent of students reclassified as Fluent English Proficient (FEP). AZELLA assessment significantly revised in 2013; prior comparisons no longer applicable.			
*The reclassification rate will not be available until the Accountability section has all the data necessary to calculate.			
**Due to a significant change in the AZELLA cut scores, the actual reclassification rate in FY2017 declined sharply.			
Therefore, the FY2018 Estimate had to be revised.

Summer Food Service Program for Children	10.559	Department of Agriculture	SFADM15	(15.3)	0.0	0.0	2, 6, 7

To assist States, through grants-in-aid and other means, to conduct nonprofit food service programs for children. This program operates in partnership with the United States Department of Agriculture (USDA), State agencies, and local organizations to provide free meals to eligible children during the summer months and at other approved times, when school is not in session.

In addition there are discretionary grant initiatives supporting this program. The methods being tested through these demonstrations are: extending length of operation, additional funding for enrichment activities, meal delivery, weekend food backpacks, Supplemental Nutrition Assistance Program (SNAP) electronic benefit delivery system, and Special Supplemental Nutrition Program for Women, Infants and Children (WIC) electronic benefit delivery system.

Summer Food Service Program for Children	10.559	Department of Agriculture	SFSPON15	(8.5)	0.0	0.0	2, 6, 8

To assist States, through grants-in-aid and other means, to conduct nonprofit food service programs for children. This program operates in partnership with the United States Department of Agriculture (USDA), State agencies, and local organizations to provide free meals to eligible children during the summer months and at other approved times, when school is not in session.

In addition there are discretionary grant initiatives supporting this program. The methods being tested through these demonstrations are: extending length of operation, additional funding for enrichment activities, meal delivery, weekend food backpacks, Supplemental Nutrition Assistance Program (SNAP) electronic benefit delivery system, and Special Supplemental Nutrition Program for Women, Infants and Children (WIC) electronic benefit delivery system.

Agency: Department of Emergency and Military Affairs

Grant/Project and Description	CFDA	Grantor	AFIS ID	2017 Received	2018 Est. Rev.	2019 Est. Rev.	Footnote(s)
Homeland Security Grant Program	97.067	Department of Homeland Security	140600	111.5	0.0	0.0	1, 2, 6, 8

FY 2012 HSGP and THSGP provide grant funding to assist state and local governments in obtaining the resources required to support the National Preparedness Goal's (NPG's) associated mission areas and core capabilities. FY 2012 THSGP provides funding directly to eligible tribes to help strengthen the nation against risks associated with potential terrorist attacks. The FY 2012 HSGP is comprised of three interconnected grant programs:

- State Homeland Security Program (SHSP): SHSP supports the implementation of State Homeland Security Strategies to address the identified planning, organization, equipment, training, and exercise needs to prevent, protect against, mitigate, respond to, and recover from acts of terrorism and other catastrophic events.
- Urban Areas Security Initiative (UASI): The UASI program addresses the unique planning, organization, equipment, training, and exercise needs of high-threat, high-density Urban Areas, and assists them in building an enhanced and sustainable capacity to prevent, protect against, mitigate, respond to, and recover from acts of terrorism.
- Operation Stonegarden (OPSG): OPSG supports enhanced cooperation and coordination among local, tribal, territorial, State, and Federal law enforcement agencies in a joint mission to secure the United States' borders along routes of ingress from international borders to include travel corridors in States bordering Mexico and Canada, as well as States and territories with international water borders.

All three programs are founded on risk-driven, capabilities-based strategic plans. These strategic plans outline capability requirements and inform how available funding may be applied to manage risk. For these plans to be effective, government officials and elected leaders, working with the whole community, must consider how to sustain current capability levels and address potential shortfalls to prevent, protect, mitigate, respond to, and recover from disasters.

The FY 2013 HSGP plays an important role in the implementation of the National Preparedness System (NPS) by supporting the building, sustainment, and delivery of core capabilities essential to achieving the National Preparedness Goal (NPG) of a secure and resilient Nation. Delivering core capabilities requires the combined effort of the whole community, rather than the exclusive effort of any single organization or level of government. The FY 2013 HSGP's allowable costs support efforts to build and sustain core capabilities across the Prevention, Protection, Mitigation, Response, and Recovery mission areas by setting the following priorities and objectives:

Priority One: Implementation of the NPS and a Whole Community Approach to Homeland Security and Emergency Management

State of Arizona
Federal Operating Budget Detail
(Dollars in Thousands)

Agency: Department of Emergency and Military Affairs

Grant/Project and Description	CFDA	Grantor	AFIS ID	2017 Received	2018 Est. Rev.	2019 Est. Rev.	Footnote(s)
Homeland Security Grant Program	97.067	Department of Homeland Security	140600	111.5	0.0	0.0	1, 2, 6, 8

- Objective One: Completion of the THIRA process in alignment with National Preparedness System guidance to identify the resources required to deliver core capabilities.
- Objective Two: Conduct risk driven, capabilities-based planning through whole community councils and working groups.
- Objective Three: Organization – Typing of equipment, and credentialing and training of personnel.
- Objective Four: Sustaining Capabilities.

Priority Two: Building and Sustaining Law Enforcement Terrorism Prevention Capabilities

- Objective One: Nationwide Suspicious Activity Reporting Initiative (NSI)

Priority Three: Maturation and Enhancement of State and Major Urban Area Fusion Centers

- Objective One: Baseline Capabilities.
- Objective Two: Analytic Capabilities.

The Department of Homeland Security Appropriations Act, 2013 (Public Law 113-6) authorized additional funding allocated at the discretion of the Secretary of the Department Homeland Security, to support appropriated programs in FY 2013. DHS has augmented the SHSP and UASI grant programs in FY 2013 by allocating an additional \$163.4 million to support the following priority areas:

Priority Four: Innovation and Sustained Support for the National Campaign for Preparedness

- Objective One: Foster individual and community preparedness and resilience by identifying needs; mobilizing partners; and creating innovative and effective solutions that can be grown, sustained, and replicated.

Priority Five: Improve Immediate Emergency Victim Care at Mass Casualty Events

- Objective One: Improve emergency care to victims of mass casualty events, including mass shootings.
- Objective Two: Improve community first aid training.

Minimum funding amounts are not prescribed by the Department for these priorities; however grantees are expected to support state, local, and regional efforts in achieving the desired outcomes of one or more of these priorities.

The FY 2013 HSGP plays an important role in the implementation of the National Preparedness System (NPS) by supporting the building, sustainment, and delivery of core capabilities essential to achieving the National Preparedness Goal (NPG) of a secure and resilient Nation. Delivering core capabilities requires the combined effort of the whole community, rather than the exclusive effort of any single organization or level of government. The FY 2013 HSGP's allowable costs support efforts to build and sustain core capabilities across the Prevention, Protection, Mitigation, Response, and Recovery mission areas by setting the following priorities and objectives:

Priority One: Implementation of the NPS and a Whole Community Approach to Homeland Security and Emergency Management

Homeland Security Grant Program	97.067	Department of Homeland Security	972067	0.0	0.0	0.0	2, 6

FY 2012 HSGP and THSGP provide grant funding to assist state and local governments in obtaining the resources required to support the National Preparedness Goal's (NPG's) associated mission areas and core capabilities. FY 2012 THSGP provides funding directly to eligible tribes to help strengthen the nation against risks associated with potential terrorist attacks. The FY 2012 HSGP is comprised of three interconnected grant programs:

- State Homeland Security Program (SHSP): SHSP supports the implementation of State Homeland Security Strategies to address the identified planning, organization, equipment, training, and exercise needs to prevent, protect against, mitigate, respond to, and recover from acts of terrorism and other catastrophic events.
- Urban Areas Security Initiative (UASI): The UASI program addresses the unique planning, organization, equipment, training, and exercise needs of high-threat, high-density Urban Areas, and assists them in building an enhanced and sustainable capacity to prevent, protect against, mitigate, respond to, and recover from acts of terrorism.
- Operation Stonegarden (OPSG): OPSG supports enhanced cooperation and coordination among local, tribal, territorial, State, and Federal law enforcement agencies in a joint mission to secure the United States' borders along routes of ingress from international borders to include travel corridors in States bordering Mexico and Canada, as well as States and territories with international water borders.

All three programs are founded on risk-driven, capabilities-based strategic plans. These strategic plans outline capability requirements and inform how available funding may be applied to manage risk. For these plans to be effective, government officials and elected leaders, working with the whole community, must consider how to sustain current capability levels and address potential shortfalls to prevent, protect, mitigate, respond to, and recover from disasters.

The FY 2013 HSGP plays an important role in the implementation of the National Preparedness System (NPS) by supporting the building, sustainment, and delivery of core capabilities essential to achieving the National Preparedness Goal (NPG) of a secure and resilient Nation. Emergency Management Performance Grants	97.042	Department of Homeland Security	974214	(77.9)	0.0	0.0	2, 6, 8

The EMPG Program provides resources to assist state, local, tribal and territorial governments in preparing for all hazards, as authorized by the Robert T. Stafford Disaster Relief and Emergency Assistance Act, as amended (42 U.S.C. 5121 et seq.). Title VI of the Stafford Act authorizes FEMA to make grants for the purpose of providing a system of emergency preparedness for the protection of life and property in the United States from hazards and to vest responsibility for emergency preparedness jointly in the federal government and the states and their political subdivisions. The intent of the FY 2012 EMPG is to provide grant funding to assist state emergency management agencies in obtaining the resources required to support the National Preparedness Goal's (NPG's) associated mission areas and core capabilities. The federal government, through the EMPG Program, provides necessary direction, coordination, and guidance, and provides necessary assistance, as authorized in this title so that a comprehensive emergency preparedness system exists for all hazards.

The FY 2013 EMPG Program plays an important role in the implementation of the National Preparedness System (NPS) by supporting the building, sustainment, and delivery of core capabilities essential to achieving the National Preparedness Goal (NPG) of a secure and resilient Nation. Delivering core capabilities requires the combined effort of the whole community, rather than the exclusive effort of any single organization or level of government. The FY 2013 EMPG Program's allowable costs support efforts to build and sustain core capabilities across the Prevention, Protection, Mitigation, Response, and Recovery mission areas.

Examples of tangible outcomes from the EMPG Program include building and sustaining core capabilities through:

- Building and sustaining core capabilities
- Completion of the Threat and Hazard Identification and Risk Assessment (THIRA) process
- Strengthening governance integration
- Approved emergency plans
- Development and maintenance of multi-year Training and Exercise Plans (TEPs)
- Targeted training and verification of personnel capability
- Whole community approach to security and emergency management.

Pre-Disaster Mitigation	97.047	Department of Homeland Security	EMF2017PC00 01	0.0	75.0	0.0	2, 3, 6

Funding under PDM for FY14 is uncertain at this time. FEMA will open an application period for the program once funds are appropriated in the FY 2014 DHS Appropriation Bill. If funds are appropriated, FEMA will post a notice of funding availability via grants.gov and open an application period at that time.

The objective of the program is to provide funding support to states, Indian tribal governments, territories, communities, and public colleges and universities for pre-disaster mitigation planning and projects primarily addressing natural hazards. This program promotes implementation of activities designed to reduce injuries, loss of life, and damage and destruction to property from natural hazards which is consistent with DHS QHSR Goal 5.1, "Mitigate Hazards".

<u>Performance Measures</u>	<u>2017</u>	<u>2018</u>	<u>2019</u>
Reimburse jurisdictions for project costs within 60 days of receipt of documented eligible expenditures.		N/A	N/A
The PDM Grant Program is a nationwide competitive grant program that was created to assist states, local and tribal governments to implement cost-effective hazard mitigation activities before disasters occur. Funds awarded are project specific.

Emergency Management Performance Grants	97.042	Department of Homeland Security	EMW2000XX	2,960.9	160.1	0.0	^{2, 6}

The EMPG Program provides resources to assist state, local, tribal and territorial governments in preparing for all hazards, as authorized by the Robert T. Stafford Disaster Relief and Emergency Assistance Act, as amended (42 U.S.C. 5121 et seq.). Title VI of the Stafford Act authorizes FEMA to make grants for the purpose of providing a system of emergency preparedness for the protection of life and property in the United States from hazards and to vest responsibility for emergency preparedness jointly in the federal government and the states and their political subdivisions. The intent of the FY 2012 EMPG is to provide grant funding to assist state emergency management agencies in obtaining the resources required to support the National Preparedness Goal's (NPG's) associated mission areas and core capabilities. The federal government, through the EMPG Program, provides necessary direction, coordination, and guidance, and provides necessary assistance, as authorized in this title so that a comprehensive emergency preparedness system exists for all hazards.

The FY 2013 EMPG Program plays an important role in the implementation of the National Preparedness System (NPS) by supporting the building, sustainment, and delivery of core capabilities essential to achieving the National Preparedness Goal (NPG) of a secure and resilient Nation. Delivering core capabilities requires the combined effort of the whole community, rather than the exclusive effort of any single organization or level of government. The FY 2013 EMPG Program's allowable costs support efforts to build and sustain core capabilities across the Prevention, Protection, Mitigation, Response, and Recovery mission areas.

Examples of tangible outcomes from the EMPG Program include building and sustaining core capabilities through:

- Building and sustaining core capabilities
- Completion of the Threat and Hazard Identification and Risk Assessment (THIRA) process
- Strengthening governance integration
- Approved emergency plans
- Development and maintenance of multi-year Training and Exercise Plans (TEPs)
- Targeted training and verification of personnel capability
- Whole community approach to security and emergency management.

Hazard Mitigation Grant	97.039	Department of Homeland Security	FEMA4203DR AZ	19.6	15.3	15.3	2, 6
<p>To provide funding support to states, Indian tribal governments, territories, communities, and other eligible applicants to implement mitigation planning and hazard mitigation measures that are cost effective and which substantially reduce the risk of future damage, hardship, loss or suffering in any area affected by a major disaster. This program also conforms to the definitions of the term "Mitigation" as defined in the National Preparedness Goal (NPG), in that this program supports those capabilities that are necessary to reduce loss of life and property by lessening the impact of disasters. Mitigation capabilities include, but are not limited to, community-wide risk reduction projects; efforts to improve the resilience of critical infrastructure and key resource lifelines; risk reduction for specific vulnerabilities from natural hazards; and initiatives to reduce future risks after a disaster has occurred.</p>							
<div> <div>Performance Measures</div> <div> Allocate funds to priority mitigation projects as identified in FEMA approved state and local "All-Hazard Mitigation Plans". The purpose of the HMGP is to create the opportunity to take critical mitigation measures by providing a funding source in the immediate post-disaster atmosphere, when recognition of potential hazards is often highest. </div> </div>

Homeland Security Grant Program	97.067	Department of Homeland Security	SHSGP140604 02	169.5	0.0	0.0	1, 2, 6, 8

FY 2012 HSGP and THSGP provide grant funding to assist state and local governments in obtaining the resources required to support the National Preparedness Goal's (NPG's) associated mission areas and core capabilities. FY 2012 THSGP provides funding directly to eligible tribes to help strengthen the nation against risks associated with potential terrorist attacks. The FY 2012 HSGP is comprised of three interconnected grant programs:

- State Homeland Security Program (SHSP): SHSP supports the implementation of State Homeland Security Strategies to address the identified planning, organization, equipment, training, and exercise needs to prevent, protect against, mitigate, respond to, and recover from acts of terrorism and other catastrophic events.
- Urban Areas Security Initiative (UASI): The UASI program addresses the unique planning, organization, equipment, training, and exercise needs of high-threat, high-density Urban Areas, and assists them in building an enhanced and sustainable capacity to prevent, protect against, mitigate, respond to, and recover from acts of terrorism.
- Operation Stonegarden (OPSG): OPSG supports enhanced cooperation and coordination among local, tribal, territorial, State, and Federal law enforcement agencies in a joint mission to secure the United States' borders along routes of ingress from international borders to include travel corridors in States bordering Mexico and Canada, as well as States and territories with international water borders.

All three programs are founded on risk-driven, capabilities-based strategic plans. These strategic plans outline capability requirements and inform how available funding may be applied to manage risk. For these plans to be effective, government officials and elected leaders, working with the whole community, must consider how to sustain current capability levels and address potential shortfalls to prevent, protect, mitigate, respond to, and recover from disasters.

The FY 2013 HSGP plays an important role in the implementation of the National Preparedness System (NPS) by supporting the building, sustainment, and delivery of core capabilities essential to achieving the National Preparedness Goal (NPG) of a secure and resilient Nation. Delivering core capabilities requires the combined effort of the whole community, rather than the exclusive effort of any single organization or level of government. The FY 2013 HSGP's allowable costs support efforts to build and sustain core capabilities across the Prevention, Protection, Mitigation, Response, and Recovery mission areas by setting the following priorities and objectives:

Priority One: Implementation of the NPS and a Whole Community Approach to Homeland Security and Emergency Management

State of Arizona
Federal Operating Budget Detail

Agency: Department of Emergency and Military Affairs

Grant/Project and Description	CFDA	Grantor	AFIS ID	2017 Received	2018 Est. Rev.	2019 Est. Rev.	Footnote(s)
Homeland Security Grant Program	97.067	Department of Homeland Security	SHSGP140604 02	169.5	0.0	0.0	1, 2, 6, 8

- Objective One: Completion of the THIRA process in alignment with National Preparedness System guidance to identify the resources required to deliver core capabilities.
- Objective Two: Conduct risk driven, capabilities-based planning through whole community councils and working groups.
- Objective Three: Organization – Typing of equipment, and credentialing and training of personnel.
- Objective Four: Sustaining Capabilities.

Priority Two: Building and Sustaining Law Enforcement Terrorism Prevention Capabilities

- Objective One: Nationwide Suspicious Activity Reporting Initiative (NSI)

Priority Three: Maturation and Enhancement of State and Major Urban Area Fusion Centers

- Objective One: Baseline Capabilities.
- Objective Two: Analytic Capabilities.

The Department of Homeland Security Appropriations Act, 2013 (Public Law 113-6) authorized additional funding allocated at the discretion of the Secretary of the Department Homeland Security, to support appropriated programs in FY 2013. DHS has augmented the SHSP and UASI grant programs in FY 2013 by allocating an additional \$163.4 million to support the following priority areas:

Priority Four: Innovation and Sustained Support for the National Campaign for Preparedness

- Objective One: Foster individual and community preparedness and resilience by identifying needs; mobilizing partners; and creating innovative and effective solutions that can be grown, sustained, and replicated.

Priority Five: Improve Immediate Emergency Victim Care at Mass Casualty Events

- Objective One: Improve emergency care to victims of mass casualty events, including mass shootings.
- Objective Two: Improve community first aid training.

Minimum funding amounts are not prescribed by the Department for these priorities; however grantees are expected to support state, local, and regional efforts in achieving the desired outcomes of one or more of these priorities.

The FY 2012 HSGP is comprised of three interconnected grant programs:

- State Homeland Security Program (SHSP): SHSP supports the implementation of State Homeland Security Strategies to address the identified planning, organization, equipment, training, and exercise needs to prevent, protect against, mitigate, respond to, and recover from acts of terrorism and other catastrophic events.
- Urban Areas Security Initiative (UASI): The UASI program addresses the unique planning, organization, equipment, training, and exercise needs of high-threat, high-density Urban Areas, and assists them in building an enhanced and sustainable capacity to prevent, protect against, mitigate, respond to, and recover from acts of terrorism.
- Operation Stonegarden (OPSG): OPSG supports enhanced cooperation and coordination among local, tribal, territorial, State, and Federal law enforcement agencies in a joint mission to secure the United States' borders along routes of ingress from international borders to include travel corridors in States bordering Mexico and Canada, as well as States and territories with international water borders.

All three programs are founded on risk-driven, capabilities-based strategic plans. These strategic plans outline capability requirements and inform how available funding may be applied to manage risk. For these plans to be effective, government officials and elected leaders, working with the whole community, must consider how to sustain current capability levels and address potential shortfalls to prevent, protect, mitigate, respond to, and recover from disasters.

The FY 2013 HSGP plays an important role in the implementation of the National Preparedness System (NPS) by supporting the building, sustainment, and delivery of core capabilities essential to achieving the National Preparedness Goal (NPG) of a secure and resilient Nation. Delivering core capabilities requires the combined effort of the whole community, rather than the exclusive effort of any single organization or level of government. The FY 2013 HSGP's allowable costs support efforts to build and sustain core capabilities across the Prevention, Protection, Mitigation, Response, and Recovery mission areas by setting the following priorities and objectives:

Priority One: Implementation of the NPS and a Whole Community Approach to Homeland Security and Emergency Management

State of Arizona
Federal Operating Budget Detail
(Dollars in Thousands)

Agency: Department of Emergency and Military Affairs

Grant/Project and Description	CFDA	Grantor	AFIS ID	2017 Received	2018 Est. Rev.	2019 Est. Rev.	Footnote(s)
Homeland Security Grant Program	97.067	Department of Homeland Security	SHSGP150604	2.0	0.0	0.0	1, 2, 6, 8

- Objective One: Completion of the THIRA process in alignment with National Preparedness System guidance to identify the resources required to deliver core capabilities.
- Objective Two: Conduct risk driven, capabilities-based planning through whole community councils and working groups.
- Objective Three: Organization – Typing of equipment, and credentialing and training of personnel.
- Objective Four: Sustaining Capabilities.

Priority Two: Building and Sustaining Law Enforcement Terrorism Prevention Capabilities

- Objective One: Nationwide Suspicious Activity Reporting Initiative (NSI)

Priority Three: Maturation and Enhancement of State and Major Urban Area Fusion Centers

- Objective One: Baseline Capabilities.
- Objective Two: Analytic Capabilities.

The Department of Homeland Security Appropriations Act, 2013 (Public Law 113-6) authorized additional funding allocated at the discretion of the Secretary of the Department Homeland Security, to support appropriated programs in FY 2013. DHS has augmented the SHSP and UASI grant programs in FY 2013 by allocating an additional \$163.4 million to support the following priority areas:

Priority Four: Innovation and Sustained Support for the National Campaign for Preparedness

- Objective One: Foster individual and community preparedness and resilience by identifying needs; mobilizing partners; and creating innovative and effective solutions that can be grown, sustained, and replicated.

Priority Five: Improve Immediate Emergency Victim Care at Mass Casualty Events

- Objective One: Improve emergency care to victims of mass casualty events, including mass shootings.
- Objective Two: Improve community first aid training.

Minimum funding amounts are not prescribed by the Department for these priorities; however grantees are expected to support state, local, and regional efforts in achieving the desired outcomes of one or more of these priorities.

Water Pollution Control State, Interstate, and Tribal Program Support	66.419	Environmental Protection Agency	106WP3	0.0	0.0	0.0	^{2, 6}

To assist States (including territories, the District of Columbia, and Indian Tribes qualified under CWA Section 518(e)), and interstate agencies in establishing and maintaining adequate measures for prevention and control of surface and ground water pollution from both point and nonpoint sources.

Funding Priority - Fiscal Year 2013: States and Tribes will continue to focus on fulfilling their basic responsibilities under the CWA and, based upon a shared understanding with EPA of the environmental progress expected, will identify program activities that will best support attaining targeted environmental improvements. State priority efforts will include: (1) implementing monitoring strategies and the statistically-valid surveys to determine water quality status and trends; (2) fostering a watershed approach, including total maximum daily loads (TMDLs) and watershed plans designed to meet water quality standards; and (3) implementing concentrated animal feeding operations (CAFOs) and storm water permitting programs. States and Tribes will work toward adoption of nutrient criteria for fresh water for state water quality standards. States NPDES Programs will support EPA in: (1) developing and strengthening systems to ensure the integrity of the program; (2) achieving and measuring environmental results; and (3) incorporating efficiencies in permitting program operations. Water quality programs will also target actions to strengthen permitting and enforcement efforts. States will also conduct source water protection actions to protect both ground water and surface waters used for drinking water. Tribes will continue to conduct watershed assessments and will maintain and improve their capacity to implement water quality programs through monitoring, assessments, planning, data management and standards development.

<u>Performance Measures</u>	<u>2017</u>	<u>2018</u>	<u>2019</u>
Substantial adherence to grant workplan

Agency: Department of Environmental Quality

Grant/Project and Description	CFDA	Grantor	AFIS ID	2017 Received	2018 Est. Rev.	2019 Est. Rev.	Footnote(s)
Air Pollution Control Program Support	66.001	Environmental Protection Agency	APC	2,638.0	3,702.8	3,332.8	⁶

The objectives of the §105 program are to assist State, Tribal, Municipal, Intermunicipal, and Interstate agencies in planning, developing, establishing, improving, and maintaining adequate programs for the continuing prevention and control of air pollution and/or in the implementation of national primary and secondary air quality standards.

Projects should also focus on addressing environmental justice (EJ) concerns in communities. EJ is the fair treatment and meaningful involvement of all people regardless of race, color, national origin, or income with respect to the development, implementation, and enforcement of environmental laws, regulations, and policies.

Funding Priority - Fiscal Year 2013: By nature, much of the work occurring in FY 2012, including the implementation of mobile, area and stationary source pollution controls, will continue into FY 2013. However, several new developments will alter the priorities for the program across the country in FY 2013 - the response to the revised national ambient air quality standards (NAAQS) for ozone, lead, fine particulates (PM2.5), nitrogen dioxide (NO2), CO and sulfur dioxide (SO2). Recipients will continue to review air quality reports and take appropriate actions dealing with new violating areas with any of the NAAQS; submit re-designation requests including maintenance plans for areas with clean air quality data as appropriate; work with local area stakeholders to support innovative and local initiatives; continue to implement 1997 8-hr ozone NAAQS by submitting State Implementation Plans (SIPs); begin SIP planning for attaining the 2008 8-hr ozone NAAQS standards; and submitting any outstanding ozone SIP elements (including prior commitments). Although not required to do so, recipients may also choose to prepare recommendations on designations for the revised 2012 PM2.5 NAAQS. For PM2.5, recipients will submit any outstanding PM2.5 SIP elements as needed and implement PM2.5 plans designed to attain the 1997 and 2006 NAAQS. states will work with local agencies to implement woodstove change-out programs in areas where change-outs could significantly reduce ambient particle concentrations. Areas may also explore feasibility of changing out existing outdoor wood-fired boilers to significantly reduce PM2.5 concentrations. Recipients will also work on monitoring and SIP planning to attain the Lead (Pb) NAAQS. As in FY 2012, for ambient monitoring, all state/local primary quality assurance organizations operate monitors and submit NAAQS pollutant data, Photochemical Assessment Monitoring Stations (PAMS), and quality assurance (QA) data to AQS directly or indirectly through another organization according to schedule in 40 CFR Part 58. Data must also meet quality assurance requirements according to Appendix A to 40 CFR Part 58. These organizations will also submit their required annual (monitoring) network plans by July 1, 2013. They must also certify their 2011 NAAQS pollutant data in AQS and provide supporting documentation by May 1, 2013 (state/local only, unless tribal work plan requirement). Additionally, monitoring organizations will report real

time ozone and PM2.5 data to the AirNOW system for cities required to report the Air Quality Index (AQI) (state/local only). Air quality reporting, including particle pollution forecasting, will be expanded to additional cities. States affected by CAIR continue to contribute a portion of their grant funds to support a centrally-administered emissions budget and trading program as part of their PM and NOx State Implementation Plans. For regional haze, states and other stakeholders will continue to work with EPA on issues related to submitted regional haze SIPs and will continue to implement Best Available Retrofit Technology (BART) requirements. As in FY 2012, funds for air toxics purposes are provided to: operate existing air toxics monitoring networks operated by state, tribal, and local agencies in order to better characterize air toxics risks and assess the effectiveness of control strategies. Recipients will collect data for the annual integrated emissions inventory; implement delegated or approved section 112, 111(d) and 129 standards, as appropriate, for major sources and area sources; implement delegated residual risk standards; and work with communities to develop and implement local air toxics programs that address outdoor, indoor, and mobile sources with emphasis on areas with potential environmental justice concerns. State and local air pollution control agencies work with EPA to operate the national fine particulate (PM2.5) monitoring network to accurately assess and characterize the nature and extent of fine particulates (PM2.5) across the country. This assessment is necessary to determine the air quality status of an area in relation to the national PM2.5 ambient air quality standard. At least three years of quality-assured data are required in order to determine an area's attainment status. The air quality status of an area will determine the nature and complexity of its attainment plan, its associated control strategies, and its implementation schedule. The immediate goals of this multi-year program are: appropriate spatial characterization of PM2.5 NAAQS; public reporting of PM2.5 in the Air Quality Index; characterization of PM2.5 chemical speciation data for long term trends; development and accountability of emission control programs and tracking of regional haze, and limited support of health studies; implementation of NCore CO, SO2, NO2/NOy trace-level monitoring to support characterization of PM precursors; assessment of PM2.5 data quality; and procurement and testing of PM2.5 filters. Grant funds are used to provide support to eligible state and local air agencies for continued operation of high value federal reference method (FRM) and speciation monitoring sites; additional investments in PM2.5 mass and speciation continuous monitoring and associated data management systems for timely reporting of high quality data; and continued investments in precursor gas analyzers, data analyses, and quality assurance activities that will support better understanding of particle formation.

Leaking Underground Storage Tank Trust Fund Corrective Action Program	66.805	Environmental Protection Agency	LUST	901.1	1,964.0	1,964.0	⁶

To support State (including Territories that are included in the definition of 'State' in the Solid Waste Disposal Act) and Tribal corrective action programs that address releases from underground storage tanks.

Funding Priorities - Fiscal Year 2013: Assistance agreements to states and Tribes will support activities in making progress in cleaning up petroleum leaks by initiating and completing cleanups, and reducing the backlog of sites not yet cleaned up. In FY 2013, not less than 80 percent of LUST cleanup appropriated funds will be provided to states to carry out the LUST cleanup program. High priority tasks include better site characterization efforts, remedy selection review, other technical assistance and management, oversight and enforcement activities at unaddressed LUST sites.

The LUST program received funding in the FY 2009 American Recovery and Reinvestment Act (ARRA) of 2009. All of these funds were obligated; however, \$9.2 million was returned by one state and subsequently rescinded by Congress. The ARRA funds were outlayed through mid-FY 2013. Additional details can be found at <http://www.epa.gov/recovery/> and <http://www.recovery.gov/Pages/default.aspx>.

Agency: Department of Environmental Quality

Grant/Project and Description	CFDA	Grantor	AFIS ID	2017 Received	2018 Est. Rev.	2019 Est. Rev.	Footnote(s)
Surveys, Studies, Research, Investigations, Demonstrations, and Special Purpose Activities Relating to the Clean Air Act	66.034	Environmental Protection Agency	NATTS	57.3	61.4	61.4	6

To support Surveys, Studies, Research, Investigations, Demonstrations and Special Purpose assistance relating to the causes, effects (including health and welfare effects), extent, prevention, and control of air pollution to include such topics as air quality, acid deposition, climate change, global programs, indoor environments, radiation, mobile source technology and community-driven approaches to transportation and emissions reduction.

Projects should also focus on addressing environmental justice (EJ) concerns in communities. EJ is the fair treatment and meaningful involvement of all people regardless of race, color, national origin, or income with respect to the development, implementation, and enforcement of environmental laws, regulations, and policies.

(1) Indoor Environments. Activities will support surveys, studies, research, training, outreach, education, investigations or demonstrations performed by organizations that lead to effective outreach strategies to educate key audiences about indoor air pollutants, their associated health risks and encourage effective mitigation and control strategies. Currently, the Program focuses on several critical aspects of indoor air quality that pose significant risks to public health, and in particular, to children and other disproportionately impacted segments of society. Program focus includes, but is not limited to, reducing the exposure of children and others with asthma to indoor triggers that worsen their condition; promoting the adoption of operation and maintenance practices in schools, homes and other buildings throughout the nation to reduce the harmful effects of poor indoor air quality on the health of the public, students and staff; promoting voluntary radon testing by homeowners to identify elevated levels and fix them when they are found; as well as working with homebuilders to incorporate radon resistant construction features into new homes; and encouraging adult smokers to protect their children from the adverse health effects of environmental exposure to secondhand smoke by making a conscious decision to smoke outside and keep their homes and cars smokefree.

(2) Radiation. Activities support technical, outreach, and educational projects relating to environmental radiation. Activities also support the national environmental radiation monitoring program. This program prepares for and responds to incidents involving nuclear or radiological material, oversees the safe disposal of radioactive waste, maintains two laboratories that perform radiological sampling and analyses, and provides standards for protecting human health and the environment from radioactive material. Program focus includes, but is not limited, to the following activities: performance testing and evaluation, development of analytical procedures, purchasing of radiation laboratory equipment and support and enhancement of radiological laboratory capability and capacity across the nation to reduce the gap in analyzing

Surveys, Studies, Research, Investigations, Demonstrations, and Special Purpose Activities Relating to the Clean Air Act environmental samples following a significant national radiological incident.	66.034	Environmental Protection Agency	NATTS	57.3	61.4	61.4	⁶

(3) Community-Scale Air Toxics Ambient Monitoring (CSATAM). The CSATAM Grant Program results in two-year projects designed to assist state, local and tribal communities in identifying and profiling air toxics sources, characterizing the degree and extent of local air toxics problems and tracking progress of air toxics reduction activities in specific local areas without reliance on often uncertain estimates of emissions and air dispersion models. Further, projects typically allow the recipient state, local and tribal air pollution control agencies to establish or enhance hazardous air pollutant monitoring networks, thus providing long term capability to investigate and assess specific local air quality scenarios of concern. The program will continue working with grant recipients that received funding in previous years.

(4) Mobile Sources Technologies. Projects encompass studies and investigations utilizing state-of-the-art experimental techniques in advanced engine development technology, including hydraulic hybrid drive-trains, to optimize fuel economy, reduce exhaust emissions (including PM and NOx) and improve performance. In addition, projects may support studies identifying barriers to technological innovation, analyzing innovative strategies for overcoming these barriers, encouraging the development and adoption of new vehicle and fuel technologies for the control of emissions.

(5) Heavy Duty Truck Fuel Consumption and Emissions Reductions. This program studies and analyzes fuel consumption and emissions reductions associated with the use of innovative technologies for heavy duty diesel trucks. Projects involve truck fleets that operate under varying conditions in order to evaluate the effectiveness of the various technologies.

(6) National Internet-based On-Board Diagnostic (OBD) Information Exchange. This program supports activities that maintain, update and improve the Internet-based information clearinghouse to facilitate accurate and timely exchange of technical information related to on-board diagnostic (OBD) between state inspection/maintenance programs, the automotive industry and the general public.

(7) Integrated Assessment of Transportation-Related Policies on Greenhouse Gases, Land Use Change, and Other Economy-Wide Impacts (Integrated Assessment). This program is designed to improve the public data underlying well-established integrated assessment models used to analyze both climate change impacts and the linkages between renewable fuels and climate change. Additionally, projects are intended to further the public's understanding of the interaction of the economic,

energy, and environmental impacts of increased renewable fuel usage in the U.S. transportation sector using a robust modeling framework.

(8) Climate Change. The Climate Change Division (CCD) supports activities relating to improving economic, technical and programmatic understanding of climate change. CCD supports technical, outreach, and education projects regarding climate change impacts, mitigation and adaptation options in order for private and public sectors may more effectively and comprehensively address their climate goals. Additionally, CCD supports projects that break down market barriers that may limit investment in technologies that reduce methane and non-CO2 greenhouse gases; address the technical issues surrounding sequestration and carbon storage; address collection and analyses of economic data relating to climate change; and the Global Methane Initiative (GMI) that support climate technology transfer in developing and transition countries. The Global Methane Initiative is an international public-private initiative that advances cost effective, near-term methane recovery and use as a clean energy source in four sectors: agriculture, coal mines, landfills, and oil and gas systems. GMI projects reduce greenhouse gas emissions in the near term and provide a number of important environmental and economic co-benefits. Co-benefits include stimulating local economic growth, creating new sources of affordable alternative energy, improving local air and water quality with associated public health benefits and increasing industrial worker safety. CCD also supports the Greenhouse Gas Reporting program that will help facilities that participate in voluntary, state-based and federal GHG reporting programs better understand the requirements of voluntary and state GHG reporting programs in comparison to the federal rule, and identify options for how data collected through state and federal reporting requirements may be used to inform state GHG programs and facility-level efforts to identify emissions-reduction opportunities. Climate Economics Program objective is to advance the field of climate economic and integrated assessment modeling through a regular series of studies on GHG emissions and approaches to mitigating emissions and climate impacts. Climate Science Impacts objectives include leveraging studies which focus on climate impacts on environmental justice issues and tribal communities, and inform adaptation policy development and planning for tribal and environmental justice communities.

(9) Climate Protection Partnerships. EPA funds Global Climate Change programs which are voluntary government/industry partnership programs designed to capitalize on the opportunities that consumers, businesses, and organizations have for making sound investments in efficient equipment, policies and practices. The Global Climate Change program will manage a number of efforts to remove barriers in the marketplace and to deploy technology faster in the residential, commercial, and industrial sectors of the economy. Our programs work by overcoming widely acknowledged barriers to energy

efficiency; lack of clear, reliable information on technology opportunities; lack of awareness of energy efficient products and services; lack of financing options to turn lifecycle energy savings into initial cost savings for consumers; and low incentives to manufacturers for efficiency research and development. In addition, our Global Climate Change programs will provide technical assistance, training, information exchange and other forms of cooperation to enhance the capabilities of governments and other stakeholders to protect human health and the environment regionally and globally.							

(10) Near-road Nitrogen Dioxide (NO2) Monitoring. In accordance with the final NO2 National Ambient Air Quality Standards (NAAQS), state and local air pollution control agencies (grantees) are required to establish near-road monitoring stations to ensure the collection of data necessary for determining compliance with the standard as well as to protect human health and the environment. Grantees will purchase capital equipment and work with local Department of Transportation agencies to ensure unique siting criteria are met in the establishment of the new monitoring stations.

<u>Performance Measures</u>	<u>2017</u>	<u>2018</u>	<u>2019</u>
Substantial adherence to grant work plan			
ADEQ will measure progress against the work plan deliverables in each grant/federal fund. The fiscal year 2015 grant work plan outputs were related to the operation of an air quality monitoring network for certain chemical constituents, and are not mutually exclusive deliverables. ADEQ has developed a full suite of individual and measurable grant deliverables for the US Environmental Protection Agency 103 and 105 grants (Clean Air Act, Sections 103 and 105) for fiscal year 2016.

Agency: Department of Environmental Quality

Grant/Project and Description	CFDA	Grantor	AFIS ID	2017 Received	2018 Est. Rev.	2019 Est. Rev.	Footnote(s)
Environmental Information Exchange Network Grant Program and Related Assistance	66.608	Environmental Protection Agency	NIEN15	49.3	424.6	424.6	2, 6

EPA, states, territories, and tribes are working together to develop the National Environmental Information Exchange Network, a secure, Internet- and standards-based way to support electronic data reporting, sharing, and integration of both regulatory and non-regulatory environmental data. States, tribes and territories exchanging data with each other or with EPA should make the Exchange Network (EN) and the Agency's connection to it, the Central Data Exchange (CDX), the standard way they exchange data and should phase out any legacy methods they have been using. More information on the Exchange Network is available at www.exchangenetwork.net. The EN Grant Program provides funding to states, territories, tribes, and inter-tribal consortia to develop the information technology and information management capabilities they need to actively participate in the Exchange Network. This program supports the exchange of data; mentoring, planning and training activities; and collaborative work within the Exchange Network. This grant program may also be used to fund the standardization, exchange and integration of geospatial information to address environmental, natural resource, and human-health challenges.

Funding Priority - Fiscal Year 2013: STAG (competitive): Projects supported by the FY 2013 EN Grant Program, which are funded through EPA's STAG account, must address at least one priority activity from one of the following tiers: Tier 1- activities that lead to the creation of services that make subsets of data available as XML or JSON. This should include the REpresentational State Transfer (REST)-based services that conform to the EN REST Standard (completed at the end of 2012) or EN SOAP services. Specific areas of focus for publishing proposals include: 1. Supporting mobile and desktop applications and publishing/accessing environmental information sources; 2. Integrating with web applications; 3. Publishing data to publicly accessible web pages; and 4. Developing a high-level Dashboard for program managers and Agency executives. Phase 2 Flows. New flows that advance Phase 2 Network priorities. Possible flows include: 1. Air Facility System (AFS); 2. Safe Drinking Water Information System (SDWIS) Compliance data; 3. Electronic Notice of Intent (eNOI) flow to Integrated Compliance Information System - National Pollutant Discharge Elimination System (ICIS-NPDES); Use of the EN for Virtual Sharing (especially cross-state, cross-tribal, or state-tribal) of data, including institutional controls at contamination sites, data on cleanup sites, data sets of national significance to tribes (e.g., open dumps), UST data, and data that support environmental management of multi-state or regional airsheds, watersheds, and water bodies of priority concern (e.g., Great Lakes, Chesapeake Bay). Virtual Node Implementation Support for States, Tribes, and Territories: 1. Support transitioning from nodes to virtual nodes; 2. Create data publishing services and new data flows on virtual nodes; 3. Support virtual node related security analyses and plans; Shared CROMERR Services and Components; Design systems to utilize new EPA web services that provide CROMERR compliant functionality (e.g.,

<p>electronic signature), minimizing redundant development by partners and streamlining Technical Review Committee (TRC) application reviews/approvals. Examples of specific potential projects related to these broad topics include the following: 1. Collaborative Opportunity: A partnership proposal that includes joint state and/or tribal efforts to develop an application that uses EN web services (e.g., solicit services) to enable a user to query databases for information related to remediation sites (e.g., underground storage tanks, hazardous waste sites) such as institutional controls, displaying and accessing site data through a spatial view, presenting data in tabular format, and enabling users to download data in a variety of formats. To power this application, the partners would need to define and/or implement schemas and EN web services to make the data available to the application; Collaborative Opportunity: A partnership proposal that builds an eReporting system integrating one or more EPA web services that provide CROMERR compliant functionality (e.g., electronic signature). In order for this proposal to be eligible for funding, applicants must commit to flowing the reported data to EPA using the EN, thus providing a complete end-to-end electronic reporting solution for environmental data; Geo-enabled Field Data Collection Tool: Development and sharing of source code for a field data collection tool for emergency response, inspection, compliance verification, or other activities. The tool will use GIS visualization and integrated GPS, allow updates to be made in the field, and then flow data back to back-end systems via the EN. This project will utilize key strengths of the EN program by enabling the flow of secure data, in near real-time, to multiple locations. The project could include developing EN standards and services which could plug into other tools such as Scribe for emergency response or other existing applications used in field deployment. The grantee can utilize EPA's FRS web service, that will provide sub-facility data and their locations from multiple media programs, as well as submitting to other systems as appropriate. In addition, EPA will enable the data service to filter data by specific source(s), such as real-time emergency response data, or a subset of data from a specific state. The grantee can also collaborate with EPA to develop additional FRS web services as necessary. To ensure close collaboration between EPA and state, tribal, and territorial partners, any assistance agreements to develop this tool will be awarded as cooperative agreements. Tier 2!!Phase 1-10 Priority Flows: Additional funding for completing 10 priority flows: 1. implementation by an EN partner (or partners) of one of the 10 flows that they currently have not completed; 2. Addition of entirely new modules to existing data flows. For example, adding an entire class of UIC reporting, adding a new RCRAInfo module, or adding a new data family under ICIS-NPDES. Operations and maintenance of flows is not an eligible activity for funding; Development and deployment of CROMERR upgrades to an existing electronic reporting system, described in a CROMERR application previously approved by EPA, to bring it into compliance with the regulatory standards. Collaborative Opportunity: Partnership to develop multi-program CROMERR application for states that currently do not have an enterprise-wide approach; application should seek to leverage solutions implemented by</p>

other states already approved by EPA. Collaborative Tribal Opportunity: Tribal governments and inter-tribal consortia are eligible to apply for EN grants to build tribal capacity that will result in enhancing environmental programs on tribal lands and the ability to share environmental data electronically with EN partners. Collaborative tribal capacity building proposals must include multiple tribes and identify tribes with existing capacity that can serve as mentors. Collaborative tribal capacity proposals must identify specific outputs and outcomes that result in the increased ability to share environmental information/data electronically with EPA and/or other EN partners (e.g., developing a back-end database for a priority data system). Tier 3 -- Phase 1-10 Priority Flows: Funds for partners already flowing one or more of the 10 priority flows, that will upgrade one or more of these data flows by: 1. Adding historical data; 2. Adding new data elements; 3. Changing processes; 4. Modifying XML schema; 5. Adding new parameters; and 6. Creating geo-enabled data. Development and deployment of other innovative data exchanges (e.g., emergency response, open dump, surface coal mining data integration and reporting, support for sustainable development through sharing data related to transit, zoning/master plan, building permits and LEED buildings and infrastructure initiatives such as water quality laboratory data reporting) that are applicable to multiple partners. Updating large national data sets: Schema development effort that will enable states to flow data through the EN to update large national datasets that fall under Appendix E of OMB Circular A-16: 'Coordination of Geographic Information and Related Spatial Data Activities.' These datasets can include: the National Hydrography Dataset (NHD), National Watershed Boundary dataset, National Wetland Inventory Dataset, National Elevation Dataset, Geographic Names Dataset, and other datasets.

STAG (associated program support): EN governance, support for shared services, technical assistance to EN partners, hosting EN national meetings.

EPM (competitive): expanding tribal participation in the EN outreach to federally recognized tribes through hosting the national tribal users meeting: design and maintenance of a website and publication of a regular newsletter: support tribal participation on EN governance groups: promote collaboration, mentoring and information sharing among tribal stakeholders: through development of a mentoring program.

Nonpoint Source Implementation Grants	66.460	Environmental Protection Agency	NPS24	749.5	104.4	104.4	^{2, 6}

To assist States, the District of Columbia, American Samoa, Guam, Northern Marianas, Puerto Rico, Virgin Islands (hereinafter referred to as States), and qualified Indian Tribes and intertribal consortia in implementing EPA-approved Section 319 nonpoint source management programs. Funding Priority - Fiscal Year 2013: EPA's funding priority is to award grants that promote the development and implementation of watershed-based plans, focusing on watersheds with water quality impairments caused by nonpoint sources, which result in improved water quality in impaired waters. These watershed plans are a mechanism to coordinate monitoring and planning on a watershed basis and will build a foundation for effective implementation actions using federal and other funding. Nonpoint Source implementation projects include best management practice (BMP) installation for animal wastes, sediment, pesticide and fertilizer control, a variety of other structural and non-structural practices, watershed planning, monitoring, watershed coordinators, technology demonstration, and a variety of education/outreach programs, among others.

<u>Performance Measures</u>	<u>2017</u>	<u>2018</u>	<u>2019</u>

Pollution Prevention Grants Program	66.708	Environmental Protection Agency	P2	89.5	32.8	32.8	⁶

This CFDA announcement applies to the Pollution Prevention (P2) and the Pollution Prevention Information Network (PPIN) grant programs.

Both programs were enacted under the Pollution Prevention Act of 1990. The P2 grant program funds grants/cooperative agreements that implement pollution prevention technical assistance services and/or training for businesses. The PPIN grant program funds grants/cooperative agreements through a national network of Pollution Prevention Resource Exchange (P2Rx) Centers. The Centers work to deliver pollution prevention information, resources and tools to state technical assistance providers, businesses and industry sectors. Under both grant programs, EPA is authorized to support projects that utilize pollution prevention techniques to reduce and/or eliminate pollution from air, water and/or land.

Funding Priority - Fiscal Year 2013:

1. To help businesses adopt P2 techniques into their day-to-day operations as a means for reducing or eliminating harmful pollutants from entering the air, water or land;
2. To encourage education and training in P2/source reduction techniques and applications; and
3. Support P2 information sharing among State, local technical assistance programs and businesses.

<u>Performance Measures</u>	<u>2017</u>	<u>2018</u>	<u>2019</u>

Superfund State, Political Subdivision, and Indian Tribe Site-Specific Cooperative Agreements	66.802	Environmental Protection Agency	PASI	8.7	0.0	0.0	2, 6, 8

To (1) conduct site characterization activities at potential or confirmed hazardous waste sites; (2) undertake response planning and implementation actions at sites on the National Priorities List (NPL) to clean up the hazardous waste sites that are found to pose hazards to human health; and (3) effectively implement the statutory requirements of CERCLA 121(f) which mandates substantial and meaningful State involvement.

Funding Priority - Fiscal Year 2013: Funding must be used at specific hazardous waste sites to: (1) conduct non time critical removal actions; (2) perform site characterization activities such as preliminary assessments, site inspections, remedial investigations, feasibility studies, and remedial design activities at potential or confirmed hazardous waste sites; (3) conduct remedial actions (i.e., clean up) at uncontrolled hazardous waste sites as listed on the National Priorities List (40 CFR 300); (4) support CERCLA implementation activities; (5) identify Potentially Responsible Parties (PRPs); (6) conduct settlement negotiations; (7) take enforcement actions against PRPs; and (8) oversee PRP cleanups.

Agency: Department of Environmental Quality

Grant/Project and Description	CFDA	Grantor	AFIS ID	2017 Received	2018 Est. Rev.	2019 Est. Rev.	Footnote(s)
Surveys, Studies, Research, Investigations, Demonstrations, and Special Purpose Activities Relating to the Clean Air Act	66.034	Environmental Protection Agency	PM2.5	261.4	159.2	159.2	6

To support Surveys, Studies, Research, Investigations, Demonstrations and Special Purpose assistance relating to the causes, effects (including health and welfare effects), extent, prevention, and control of air pollution to include such topics as air quality, acid deposition, climate change, global programs, indoor environments, radiation, mobile source technology and community-driven approaches to transportation and emissions reduction.

Projects should also focus on addressing environmental justice (EJ) concerns in communities. EJ is the fair treatment and meaningful involvement of all people regardless of race, color, national origin, or income with respect to the development, implementation, and enforcement of environmental laws, regulations, and policies.

(1) Indoor Environments. Activities will support surveys, studies, research, training, outreach, education, investigations or demonstrations performed by organizations that lead to effective outreach strategies to educate key audiences about indoor air pollutants, their associated health risks and encourage effective mitigation and control strategies. Currently, the Program focuses on several critical aspects of indoor air quality that pose significant risks to public health, and in particular, to children and other disproportionately impacted segments of society. Program focus includes, but is not limited to, reducing the exposure of children and others with asthma to indoor triggers that worsen their condition; promoting the adoption of operation and maintenance practices in schools, homes and other buildings throughout the nation to reduce the harmful effects of poor indoor air quality on the health of the public, students and staff; promoting voluntary radon testing by homeowners to identify elevated levels and fix them when they are found; as well as working with homebuilders to incorporate radon resistant construction features into new homes; and encouraging adult smokers to protect their children from the adverse health effects of environmental exposure to secondhand smoke by making a conscious decision to smoke outside and keep their homes and cars smokefree.

(2) Radiation. Activities support technical, outreach, and educational projects relating to environmental radiation. Activities also support the national environmental radiation monitoring program. This program prepares for and responds to incidents involving nuclear or radiological material, oversees the safe disposal of radioactive waste, maintains two laboratories that perform radiological sampling and analyses, and provides standards for protecting human health and the environment from radioactive material. Program focus includes, but is not limited, to the following activities: performance testing and evaluation, development of analytical procedures, purchasing of radiation laboratory equipment and support and enhancement of radiological laboratory capability and capacity across the nation to reduce the gap in analyzing

Surveys, Studies, Research, Investigations, Demonstrations, and Special Purpose Activities Relating to the Clean Air Act environmental samples following a significant national radiological incident.	66.034	Environmental Protection Agency	PM2.5	261.4	159.2	159.2	⁶

(3) Community-Scale Air Toxics Ambient Monitoring (CSATAM). The CSATAM Grant Program results in two-year projects designed to assist state, local and tribal communities in identifying and profiling air toxics sources, characterizing the degree and extent of local air toxics problems and tracking progress of air toxics reduction activities in specific local areas without reliance on often uncertain estimates of emissions and air dispersion models. Further, projects typically allow the recipient state, local and tribal air pollution control agencies to establish or enhance hazardous air pollutant monitoring networks, thus providing long term capability to investigate and assess specific local air quality scenarios of concern. The program will continue working with grant recipients that received funding in previous years.

(4) Mobile Sources Technologies. Projects encompass studies and investigations utilizing state-of-the-art experimental techniques in advanced engine development technology, including hydraulic hybrid drive-trains, to optimize fuel economy, reduce exhaust emissions (including PM and NOx) and improve performance. In addition, projects may support studies identifying barriers to technological innovation, analyzing innovative strategies for overcoming these barriers, encouraging the development and adoption of new vehicle and fuel technologies for the control of emissions.

(5) Heavy Duty Truck Fuel Consumption and Emissions Reductions. This program studies and analyzes fuel consumption and emissions reductions associated with the use of innovative technologies for heavy duty diesel trucks. Projects involve truck fleets that operate under varying conditions in order to evaluate the effectiveness of the various technologies.

(6) National Internet-based On-Board Diagnostic (OBD) Information Exchange. This program supports activities that maintain, update and improve the Internet-based information clearinghouse to facilitate accurate and timely exchange of technical information related to on-board diagnostic (OBD) between state inspection/maintenance programs, the automotive industry and the general public.

(7) Integrated Assessment of Transportation-Related Policies on Greenhouse Gases, Land Use Change, and Other Economy-Wide Impacts (Integrated Assessment). This program is designed to improve the public data underlying well-established integrated assessment models used to analyze both climate change impacts and the linkages between renewable fuels and climate change. Additionally, projects are intended to further the public's understanding of the interaction of the economic,

energy, and environmental impacts of increased renewable fuel usage in the U.S. transportation sector using a robust modeling framework.							

(8) Climate Change. The Climate Change Division (CCD) supports activities relating to improving economic, technical and programmatic understanding of climate change. CCD supports technical, outreach, and education projects regarding climate change impacts, mitigation and adaptation options in order for private and public sectors may more effectively and comprehensively address their climate goals. Additionally, CCD supports projects that break down market barriers that may limit investment in technologies that reduce methane and non-CO2 greenhouse gases; address the technical issues surrounding sequestration and carbon storage; address collection and analyses of economic data relating to climate change; and the Global Methane Initiative (GMI) that support climate technology transfer in developing and transition countries. The Global Methane Initiative is an international public-private initiative that advances cost effective, near-term methane recovery and use as a clean energy source in four sectors: agriculture, coal mines, landfills, and oil and gas systems. GMI projects reduce greenhouse gas emissions in the near term and provide a number of important environmental and economic co-benefits. Co-benefits include stimulating local economic growth, creating new sources of affordable alternative energy, improving local air and water quality with associated public health benefits and increasing industrial worker safety. CCD also supports the Greenhouse Gas Reporting program that will help facilities that participate in voluntary, state-based and federal GHG reporting programs better understand the requirements of voluntary and state GHG reporting programs in comparison to the federal rule, and identify options for how data collected through state and federal reporting requirements may be used to inform state GHG programs and facility-level efforts to identify emissions-reduction opportunities. Climate Economics Program objective is to advance the field of climate economic and integrated assessment modeling through a regular series of studies on GHG emissions and approaches to mitigating emissions and climate impacts. Climate Science Impacts objectives include leveraging studies which focus on climate impacts on environmental justice issues and tribal communities, and inform adaptation policy development and planning for tribal and environmental justice communities.

(9) Climate Protection Partnerships. EPA funds Global Climate Change programs which are voluntary government/industry partnership programs designed to capitalize on the opportunities that consumers, businesses, and organizations have for making sound investments in efficient equipment, policies and practices. The Global Climate Change program will manage a number of efforts to remove barriers in the marketplace and to deploy technology faster in the residential, commercial, and industrial sectors of the economy. Our programs work by overcoming widely acknowledged barriers to energy

efficiency; lack of clear, reliable information on technology opportunities; lack of awareness of energy efficient products and services; lack of financing options to turn lifecycle energy savings into initial cost savings for consumers; and low incentives to manufacturers for efficiency research and development. In addition, our Global Climate Change programs will provide technical assistance, training, information exchange and other forms of cooperation to enhance the capabilities of governments and other stakeholders to protect human health and the environment regionally and globally.							

(10) Near-road Nitrogen Dioxide (NO2) Monitoring. In accordance with the final NO2 National Ambient Air Quality Standards (NAAQS), state and local air pollution control agencies (grantees) are required to establish near-road monitoring stations to ensure the collection of data necessary for determining compliance with the standard as well as to protect human health and the environment. Grantees will purchase capital equipment and work with local Department of Transportation agencies to ensure unique siting criteria are met in the establishment of the new monitoring stations.

<u>Performance Measures</u>	<u>2017</u>	<u>2018</u>	<u>2019</u>
Substantial adherence to grant work plan			
ADEQ will measure progress against the work plan deliverables in each grant/federal fund. The fiscal year 2015 grant work plan outputs were related to the operation of an air quality monitoring network for certain chemical constituents, and are not mutually exclusive deliverables. ADEQ has developed a full suite of individual and measurable grant deliverables for the US Environmental Protection Agency 103 and 105 grants (Clean Air Act, Sections 103 and 105) for fiscal year 2016.

<u>Grant/Project and Description</u>	<u>CFDA</u>	<u>Grantor</u>	<u>AFIS ID</u>	<u>2017 Received</u>	<u>2018 Est. Rev.</u>	<u>2019 Est. Rev.</u>	<u>Footnote(s)</u>
Performance Partnership Grants	66.605	Environmental Protection Agency	PPG	3,367.1	3,929.5	3,436.5	⁶

Improving EPA's partnership with the States and Tribes is critical to accelerating environmental outcomes. Performance Partnership Grants (PPGs) are the cornerstone of the National Environmental Performance Partnership System (NEPPS) -- EPA's strategy to strengthen partnerships and build a results-based management system. PPGs are innovative grant delivery tools that allow States and Tribes to combine up to 18 eligible State and Tribal Assistance Grants (STAG) grants into a single grant with a single budget. PPGs can reduce administrative transaction costs, provide the flexibility to direct resources toward the highest priority environmental problems, and support cross-media approaches and initiatives. EPA's overarching goal is to optimize the leveraging power of PPGs to focus strategically on the joint priorities of EPA, States and Tribes. PPGs do not include any funding in addition to the state and tribal assistance grants provided under other statutory authorities.

Funding Priority - Fiscal Year 2013: Many state environmental agencies are experiencing severe budget cuts and will be challenged to maintain core programs. In this climate, EPA's regional offices will give priority to flexibility and opportunities to work collaboratively with States and Tribes. The Agency will continue to focus on our ongoing goals for the PPG program, which are: (1) strengthen partnerships between EPA, the States, Tribes, and interstate agencies through joint planning and priority setting to deploy resources more effectively; (2) provide States, Tribes, and interstate agencies with the flexibility to direct resources where they are needed most to address environmental and public health priorities; (3) link program activities more effectively with environmental and public health goals and environmental outcomes; (4) foster implementation of innovative approaches such as pollution prevention, ecosystem management, and community-based environmental protection strategies; and (5) provide savings by streamlining administrative requirements.

State and Tribal Response Program Grants	66.817	Environmental Protection Agency	SRG	730.3	498.2	498.2	⁶

EPA's CERCLA Section 128(a) grant program funds activities that establish or enhance state and tribal response program capacity, capitalize revolving loan funds (RLFs), and support insurance mechanisms. The goal of this funding is to provide financial support to establish and enhance the four elements of an effective state or tribal response program as specified in CERCLA Section 128 and to ensure that states and tribes maintain a public record of sites included in their programs.

Funding Priority - Fiscal Year 2013: In FY 2013, funding will be prioritized as follows: (1) Funding for program development activities to establish or enhance the four elements of a state or tribal response program and to enable states and tribes to comply with the public record requirement, including activities related to institutional controls. (States and tribes that have established one or more of the four elements will not be prejudiced in funding distributions if their work plan includes activities that enhance the four elements. States with Voluntary Cleanup Program Memorandum of Agreement will not be prejudiced in funding distributions if their work plan does not include tasks related to establishing or enhancing the four elements.) (2) Funding for program development activities to enhance the response program or the cleanup capacity of a state or tribal response program. (3) Funding for site-specific activities at eligible brownfields sites. (4) Funding for environmental insurance mechanisms. (5) Funding to capitalize brownfields cleanup RLFs.

<u>Performance Measures</u>	<u>2017</u>	<u>2018</u>	<u>2019</u>

(Dollars in Thousands)

Agency: Department of Environmental Quality

Grant/Project and Description	CFDA	Grantor	AFIS ID	2017 Received	2018 Est. Rev.	2019 Est. Rev.	Footnote(s)
Underground Storage Tank Prevention, Detection and Compliance Program	66.804	Environmental Protection Agency	UST	391.4	526.9	526.9	⁶

To assist States, Territories, Tribes and/or Intertribal Consortia (LUST Prevention only for Tribes and/or Intertribal Consortia) that meet the requirements at 40 CFR 35.504 in the development and implementation of underground storage tank (UST) programs and for leak prevention, compliance and other activities authorized by the Energy Policy Act (EPA) of 2005, Public Law 105-276, and EPA's annual appropriations acts.

Funding Priority - Fiscal Year 2013: Assistance agreements to states under Section 2007 of the Solid Waste and Disposal Act will support core program underground storage tank (UST) activities, implement their leak prevention and detection programs, as well as the 2005 Energy Policy Act (EPA) leak prevention activities. High priority tasks include providing financial assistance to states for: 1) approving specific technologies to detect leaks from tank systems; 2) ensuring that tank owners and operators are complying with notification and other requirements; 3) ensuring equipment compatibility; 4) conducting UST inspections; 5) implementing operator training; 6) prohibiting delivery for non-complying facilities; 7) seeking state program approval to operate the UST program in lieu of the Federal program; and 8) requiring secondary containment or financial responsibility for tank manufacturers and installers.

LUST Prevention assistance agreements to states and tribes, and/or intertribal consortia for activities authorized by EPA will support states with inspections and other release prevention and compliance assurance activities for Federally-regulated UST systems, as well as for enforcement activities related to release prevention. A main cause of releases is the lack of proper operation and maintenance of UST systems, which is why the EPA proposed revisions to the UST regulations in FY 2012 that address these and other important issues. Any changes that result from a final rule will require subsequent state adoption, applicable updates to state regulations, and updates to state program approval.

For tribes, the LUST Prevention assistance agreements will assist with all aspects of the Tribal programs, e.g., inspection capacity. High priority tasks include providing financial assistance to states and tribes for: 1) inspecting UST facilities to complete the three-year inspection requirement; 2) developing inspection capacity for Tribes; 3) assisting states in adopting measures (e.g., delivery prohibition, secondary containment, operator training, etc.), as required by EPA and EPA's grant guidelines; 4) enforcement activities related to release prevention; 5) development of leak prevention regulations and other program infrastructure; 6) helping tribes develop the capacity to administer UST programs, such as providing funding to support training for Tribal staff and educating owners and operators in Indian Country about UST requirements. These activities are geared toward bringing all UST systems into compliance with release detection and release prevention

<u>Grant/Project and Description</u>	<u>CFDA</u>	<u>Grantor</u>	<u>AFIS ID</u>	<u>2017 Received</u>	<u>2018 Est. Rev.</u>	<u>2019 Est. Rev.</u>	<u>Footnote(s)</u>
Capitalization Grants for Clean Water State Revolving Funds	66.458	Environmental Protection Agency	4000114	205.8	0.0	0.0	2, 6, 8

To create State Revolving Funds (SRFs) through a program of capitalization grants to States which will provide a long term source of State financing for construction of waste water treatment facilities and implementation of other water quality management activities. Funding Priority - Fiscal Year 2013: Capitalization grants are available to each State for the purpose of establishing a Clean Water SRF for providing assistance for: (1) construction of publicly owned waste water treatment works; (2) implementing nonpoint source management activities included in State Plans developed pursuant to Section 319; and (3) developing and implementing an estuary comprehensive conservation and management plan under Section 320. The capitalization grant is deposited in the State's SRF, which is used to provide loans and other types of financial assistance, to local communities and intermunicipal and interstate agencies. Up to 4 percent of the grant amounts may be used by the States for the cost of administering the SRF. States determine priorities for funding within their State in accordance with the CWA. Similar to the American Recovery and Reinvestment Act (Recovery Act) of 2009, a portion of the FY 2013 funding must be used to provide additional subsidy in the form of grants, principal forgiveness or negative interest loans and a portion of funding must, also, be targeted toward green infrastructure, water and energy efficiency, and environmentally innovative projects. The program supports the Agency's strategic goal of ensuring Clean and Safe Water.

<u>Performance Measures</u>	<u>2017</u>	<u>2018</u>	<u>2019</u>
Number of weeks to process a loan		1.5	N/A
The number of weeks to process a loan is measured from the Board approval to the date draft loan documents go to the borrower. This grant should be completely spent in FY 17.

Capitalization Grants for Drinking Water State Revolving Funds	66.468	Environmental Protection Agency	99990214	1,100.5	0.0	0.0	2, 6, 8

Grants are made to States and Puerto Rico to capitalize their Drinking Water State Revolving Funds (DWSRFs) which will provide a long-term source of financing for the costs of drinking water infrastructure. Grants are also made to the District of Columbia, U.S. Territories (Virgin Islands, Mariana Islands American Samoa, and Guam), and Indian Tribes.

Funding Priority - Fiscal Year 2013: The funding priority established by the SDWA are for capitalization grants to each state for infrastructure improvement projects that are needed to achieve or maintain compliance with SDWA requirements, protect public health, and assist systems with economic need. A state may use a portion of the capitalization grant funds for programs that emphasize preventing contamination problems through source water protection and enhancing water system management. States and EPA Regions determine priorities for funding in accordance with SDWA. The program supports the Agency's strategic goal of ensuring clean and safe water.

Forest Legacy Program	10.676	Department of Agriculture	FOA15005	15.0	0.0	0.0	2, 6, 8

To effectively protect and conserve environmentally important forest areas threatened by conversion to nonforest uses, through conservation easements or fee simple purchase. The Forest Legacy Program (FLP) is a voluntary private land conservation partnership between the Forest Service, participating States, land trusts, private landowners, and others. The Program works with State partners and operates on a willing seller and willing buyer basis and is completely nonregulatory in its approach. No eminent domain authority or adverse condemnation is authorized for this Program.

Hazard Mitigation Grant	97.039	Department of Homeland Security	FOA17005	0.0	0.0	0.0	^{2, 6}

To provide funding support to states, Indian tribal governments, territories, communities, and other eligible applicants to implement mitigation planning and hazard mitigation measures that are cost effective and which substantially reduce the risk of future damage, hardship, loss or suffering in any area affected by a major disaster. This program also conforms to the definitions of the term “Mitigation” as defined in the National Preparedness Goal (NPG), in that this program supports those capabilities that are necessary to reduce loss of life and property by lessening the impact of disasters. Mitigation capabilities include, but are not limited to, community-wide risk reduction projects; efforts to improve the resilience of critical infrastructure and key resource lifelines; risk reduction for specific vulnerabilities from natural hazards; and initiatives to reduce future risks after a disaster has occurred.

State Wildlife Grants	15.634	Department of the Interior	200013	8.2	26.8	0.0	^{2, 6}

This program funds the development and implementation of projects for the benefit of fish and wildlife and their habitats, including species that are not hunted or fished. Priority is placed on projects that benefit species of greatest conservation concern.

<u>Performance Measures</u>	<u>2017</u>	<u>2018</u>	<u>2019</u>
Number of Acoustic Surveys for Bats	41	16	N/A
Indication of what the dollars are used for: Provides funding to conduct acoustic and roost surveys for bats and provide feedback to the North American Bat Monitoring Program.			
What is the outcome of using the dollars supposed to be: Identification of areas to conduct stationary and mobile acoustic surveys for bats for future monitoring.			
How does one measure the success of the project where the dollars are spent: The number of sites investigated and acoustic surveys conducted. "

State Wildlife Grants	15.634	Department of the Interior	200209	595.9	1,934.1	1,618.2	^{2, 6}

This program funds the development and implementation of projects for the benefit of fish and wildlife and their habitats, including species that are not hunted or fished. Priority is placed on projects that benefit species of greatest conservation concern.

<u>Performance Measures</u>	<u>2017</u>	<u>2018</u>	<u>2019</u>
Number of projects implemented for threatened and endangered species.	25	20	33
Indication of what the dollars are used for: State Wildlife Grant funds are used to implement projects outlined in the Arizona State Wildlife Action Plan (formerly called the Comprehensive Wildlife Conservation Strategy), and identified in the State Wildlife Grants work plan. The work plan identified 40 Projects to address conservation needs and activities identified in the 2005 list of Species of Greatest Conservation Need (SGCN). The list includes federally listed threatened, endangered, and candidate species in Arizona, as well as State listed species, including those found on the 1988 Threatened Native Wildlife In Arizona, 1997 Draft Wildlife of Special Concern in Arizona (WSCA), and species added to the SGCN list through the formal USFWS revision process.			
What is the outcome of using the dollars suppose to be: Activities carried out include survey, monitoring, research, and other site and species management functions, as well as administrative, planning, and evaluation functions.			
How does one measure the success of the project where the dollars are spent: The number of projects implemented.

State Wildlife Grants	15.634	Department of the Interior	200302	148.8	0.5	0.0	2, 6, 8

This program funds the development and implementation of projects for the benefit of fish and wildlife and their habitats, including species that are not hunted or fished. Priority is placed on projects that benefit species of greatest conservation concern.

<u>Performance Measures</u>	<u>2017</u>	<u>2018</u>	<u>2019</u>
Annual Report	N/A	1	N/A
<p>Indication of what the dollars will be used for: Funding will be provided to partner states in the field testing of an oral plague vaccine for prairie dogs. If successful the Department would be able to stabilize populations level and recover endangered species like the black-footed ferret and keep other species from being listed under the Endangered Species Act.</p> <p>What is the outcome: If proven to be an effective vaccine, the vaccine could be used to manage plague outbreaks reducing the possibility of human exposure.</p> <p>How does one measure success: It is anticipated to take nearly 3 years to complete the process to field test an oral vaccine for plague in prairie dogs; Year 2 would be an evaluation of data January 2014 and a simultaneous implementation of 2nd year of field trial May-October 2014. Year 3 would include an evaluation of data in January 2015 with initiating 3rd year of field trials May-October 2015. The final report completed by December 2016.</p>

<u>Performance Measures</u>	<u>2017</u>	<u>2018</u>	<u>2019</u>
Number of Mexican wolves in overall population	97 estimate	113	113
Indication of what the dollars are used for: To assist in development of reintroduction efforts for the Mexican wolf in Arizona, including weekly, monthly and yearly monitoring; release, capture and translocation. Development of proactive management operations that assist with the integration of Mexican wolves into appropriate historical range and modern day multiple use landscapes; and the development and implementation of appropriate outreach efforts regarding project goals, status and accomplishments.			
What is the outcome of using the dollars supposed to be: To establish and maintain a population of Mexican wolves within historic range in Arizona that contributes to the recovery of Mexican wolves in accordance with the Endangered Species Act.			
How does one measure the success of the project where the dollars are spent: The short term establishment and long term persistence of a population of Mexican wolves within historic habitat in Arizona that allows Mexican wolves to coexist in a modern day landscape that includes viable native ungulate populations and multiple use activities including hunting , recreational activities, and viable livestock production activities on Federal, State and private lands.			
Specific benchmark:			
Minimum number of Mexican wolves in overall population			
The wolf project uses a minimum population estimate to track the status of the overall wolf population in the Blue Range Wolf Recovery Area in Arizona and New Mexico. This estimate is generated during the January following the previous year. In 2012 the minimum population estimate for the entire wolf population was 78. The minimum population estimate for 2013 will be derived in early February 2014.

Fish, Wildlife and Plant Conservation Resource Management	15.231	Department of the Interior	C005586	17.1	12.9	0.0	^{2, 6}

To manage fish, wildlife and plant conservation resources on the public lands administered by the Bureau of Land Management. This will help restore and protect lands containing noteworthy resource values for regionally significant species of management concern or wetland and riparian areas; restore and protect crucial habitat through vegetation treatments, installation of wildlife friendly fences, and creating fish passages or barriers to protect aquatic species. Restoration of wildlife habitat to restore and protect sage grouse, desert tortoise, and other upland habitats for special species as well as riparian habitat for endangered or special status fish and aquatic species. For Recovery Act funded projects, in addition to the program objectives above, section 3 of the Act states the following objectives: to preserve and create jobs and promote economic recovery; to assist those most impacted by the recession; to provide investments needed to increase economic efficiency by spurring technological advances in science and health; to invest in transportation, environmental protection, and other infrastructure that will provide long-term economic benefits; and to stabilize State and local governments budgets, in order to minimize and avoid reductions in essential services and counterproductive state and local tax increases.

Fish, Wildlife and Plant Conservation Resource Management	15.231	Department of the Interior	C050044	86.4	0.0	0.0	2, 6, 8

To manage fish, wildlife and plant conservation resources on the public lands administered by the Bureau of Land Management. This will help restore and protect lands containing noteworthy resource values for regionally significant species of management concern or wetland and riparian areas; restore and protect crucial habitat through vegetation treatments, installation of wildlife friendly fences, and creating fish passages or barriers to protect aquatic species. Restoration of wildlife habitat to restore and protect sage grouse, desert tortoise, and other upland habitats for special species as well as riparian habitat for endangered or special status fish and aquatic species. For Recovery Act funded projects, in addition to the program objectives above, section 3 of the Act states the following objectives: to preserve and create jobs and promote economic recovery; to assist those most impacted by the recession; to provide investments needed to increase economic efficiency by spurring technological advances in science and health; to invest in transportation, environmental protection, and other infrastructure that will provide long-term economic benefits; and to stabilize State and local governments budgets, in order to minimize and avoid reductions in essential services and counterproductive state and local tax increases.

Federal-aid Highway Program: To assist State transportation agencies in the planning and development of an integrated, interconnected transportation system important to interstate commerce and travel by constructing and rehabilitating the National Highway System (NHS), including the Eisenhower Interstate System; for transportation improvements to many other public roads; to provide aid for the repair of Federal-aid highways following disasters; to foster safe highway design; to replace or rehabilitate deficient or obsolete bridges; and to provide for other special purposes. This program also provides for the improvement of roads in Puerto Rico, Guam, the U.S. Virgin Islands, American Samoa, and the Commonwealth of the Northern Mariana Islands. The Federal Lands Transportation Program (FLTP) provides assistance to the Federal Land Management Agencies (FLMAs) for Federally-owned roads and trails. It provides transportation engineering services and funding for planning, design, construction, and rehabilitation of the highways and bridges providing access to and on federally owned lands. The Federal Lands Highway organization also provides training, technology, deployment, engineering services, and products to other customers.

To provide financial assistance, through grants or cooperative agreements as a partnership to reduce or remove pollutants in the environment for the protection of human health, water and air resources; to restore damaged or degraded watersheds; and to respond to changing climate. Objectives are implemented through core programs such as: the Abandoned Mine Land program which addresses physical safety hazards and water quality through restoration of abandoned hardrock mines; the Hazard Management and Resource Restoration, also known as Hazmat program, which remediates sites impacted by hazardous materials and illegal activities, coordinates emergency response actions, and ensures the Bureau of Land Management facilities and operations comply with applicable environmental regulations; and the Soil, Water and Air (SWA) program which develops guidance for land use plans and plan implementation. The Soil, Water, and Air program also assures that fundamental resources are inventoried and assessed, managed, and monitored to support appropriate management response to public land conditions. For Recovery and Reinvestment Act funded projects additional objectives include: To preserve and create jobs and promote economic recovery; to assist those most impacted by the recession; to provide investments needed to increase economic efficiency by spurring technological advances in science and health; to invest in transportation, environmental protection, and other infrastructure that will provide long-term economic benefits; and to stabilize State and local government budgets, in order to minimize and avoid reductions in essential services and counterproductive state and local tax increases.

--	---------------	---------------------------------------	----------------	------------	------------	------------	----------------

To manage fish, wildlife and plant conservation resources on the public lands administered by the Bureau of Land Management. This will help restore and protect lands containing noteworthy resource values for regionally significant species of management concern or wetland and riparian areas; restore and protect crucial habitat through vegetation treatments, installation of wildlife friendly fences, and creating fish passages or barriers to protect aquatic species. Restoration of wildlife habitat to restore and protect sage grouse, desert tortoise, and other upland habitats for special species as well as riparian habitat for endangered or special status fish and aquatic species. For Recovery Act funded projects, in addition to the program objectives above, section 3 of the Act states the following objectives: to preserve and create jobs and promote economic recovery; to assist those most impacted by the recession; to provide investments needed to increase economic efficiency by spurring technological advances in science and health; to invest in transportation, environmental protection, and other infrastructure that will provide long-term economic benefits; and to stabilize State and local governments budgets, in order to minimize and avoid reductions in essential services and counterproductive state and local tax increases.

Natural Resource Stewardship	15.944	Department of the Interior	C050225	3.9	0.0	0.0	2, 6, 8

As a steward of the Nation's natural and cultural heritage, the primary responsibility of the NPS is to preserve and protect park resources and values. The NPS actively manages and conducts research on natural resources in the national park system to meet its statutory responsibility to preserve these resources unimpaired for future generations.

The Natural Resource Stewardship program is the principle means through which the NPS evaluates and improves the health of watersheds, landscapes, and marine and coastal resources, sustains biological communities on the lands and waters in parks, and actively endeavors to improve the resiliency of these natural resources and adapt them to the effects of climate change.

The National Park Service (NPS) conducts natural resource stewardship largely at the park level, utilizing park personnel and contractor or cooperative support. To carry out and further this stewardship responsibility, the Service implements programs that encompass a broad range of research, operational, and educational activities. The NPS inventories, evaluates, documents, preserves, protects, monitors, maintains, and interprets the natural resources at 392 park units, 21 trails and 58 wild and scenic rivers. NPS stewardship helps to perpetuate resources and allows for their continued appreciation, understanding, and enjoyment.

Endangered Species Conservation – Recovery Implementation Funds	15.657	Department of the Interior	C050228	9.1	50.1	0.0	^{2, 6}

To provide federal financial assistance to secure endangered or threatened species information, undertake restoration actions that will lead to delisting of a species; help prevent extinction of a species, or aid in the recovery of species. The purpose of the Endangered Species Act is to provide a means by which the ecosystems upon which endangered and threatened species depend may be conserved, to provide a program for the conservation of these species, and to take appropriate steps to achieve the purposes of treaties and conventions set forth in the law.

Cooperative Research and Training Programs – Resources of the National Park System	15.945	Department of the Interior	C050234	4.9	10.1	0.0	^{2, 6}

To develop adequate, coordinated cooperative research, offer training programs and/or develop information products and to create, through cooperative agreements, cooperative study units to conduct multidisciplinary research to provide a solid science basis for the management of the National Park System or the larger region of which parks are a part as necessary to form the basis of sound park management. To establish cooperative study units to conduct multi-disciplinary research and develop integrated information products on the resources of the National Park System, or the larger region of which parks are a part. The establishment of a comprehensive network of such college and university based cooperative study units as will provide full geographic and topical coverage for research on the resources contained in units of the National Park System and their larger regions. (16 USC 5933). To more effectively achieve the mission of the National Park Service; to enhance management and protection of national park resources by providing clear authority and direction for the conduct of scientific study in the National Park System and to use the information gathered for management purposes; to ensure appropriate documentation of resource conditions in the National Park System; to encourage others to use the National Park System for study to the benefit of park management as well as broader scientific value; to encourage the publication and dissemination of information derived from studies in the National Park System. The objectives of the units' (cooperative ecosystem study units) are to: Provide resource managers with high-quality scientific research, technical assistance, and education; provide resource managers with solid natural resource information; deliver research and technical assistance that is timely, relevant to resource managers, and needed to develop and implement sound adaptive management approaches; ensure the independence and objectivity of research; create and maintain effective partnerships among federal agencies and universities to share resources and expertise; take full advantage of university resources while benefiting faculty and students; provide research, technical assistance, and educational functions within the context of cultural, social, biological, and physical sciences; enhance the ability of Federal natural and cultural resource managers to generate, acquire, synthesize, act upon, and articulate to the public sound research and scientific information; encourage professional development of federal scientists and enhance their ability to manage federal science resources efficiently.

Nonpoint Source Implementation Grants	66.460	Environmental Protection Agency	C050242	158.4	163.9	0.0	2, 6

To assist States, the District of Columbia, American Samoa, Guam, Northern Marianas, Puerto Rico, Virgin Islands (hereinafter referred to as States), and qualified Indian Tribes and intertribal consortia in implementing EPA-approved Section 319 nonpoint source management programs. Funding Priority - Fiscal Year 2013: EPA's funding priority is to award grants that promote the development and implementation of watershed-based plans, focusing on watersheds with water quality impairments caused by nonpoint sources, which result in improved water quality in impaired waters. These watershed plans are a mechanism to coordinate monitoring and planning on a watershed basis and will build a foundation for effective implementation actions using federal and other funding. Nonpoint Source implementation projects include best management practice (BMP) installation for animal wastes, sediment, pesticide and fertilizer control, a variety of other structural and non-structural practices, watershed planning, monitoring, watershed coordinators, technology demonstration, and a variety of education/outreach programs, among others.

Endangered Species Conservation – Recovery Implementation Funds	15.657	Department of the Interior	C050268	16.3	775.0	0.0	^{2, 6}

To provide federal financial assistance to secure endangered or threatened species information, undertake restoration actions that will lead to delisting of a species; help prevent extinction of a species, or aid in the recovery of species. The purpose of the Endangered Species Act is to provide a means by which the ecosystems upon which endangered and threatened species depend may be conserved, to provide a program for the conservation of these species, and to take appropriate steps to achieve the purposes of treaties and conventions set forth in the law.

<u>Performance Measures</u>	<u>2017</u>	<u>2018</u>	<u>2019</u>

---	---------------	------------------------------	---------	------	------	-----	-----------------

The purpose of the DoD Legacy Program is to provide funding to help manage and sustain DoD land in the United States. Legacy is tasked with funding high priority national and regional natural and cultural resources projects that support military readiness; enhance conservation objectives; and help DOD fulfill the guiding principles of stewardship, leadership, and partnership. Legacy funds projects that go beyond federal regulatory and statutory compliance requirements to protect and manage approximately 28 million acres of DoD land.

Cooperative Research and Training Programs – Resources of the National Park System	15.945	Department of the Interior	C050289	39.0	28.3	0.0	^{2, 6}

To develop adequate, coordinated cooperative research, offer training programs and/or develop information products and to create, through cooperative agreements, cooperative study units to conduct multidisciplinary research to provide a solid science basis for the management of the National Park System or the larger region of which parks are a part as necessary to form the basis of sound park management. To establish cooperative study units to conduct multi-disciplinary research and develop integrated information products on the resources of the National Park System, or the larger region of which parks are a part. The establishment of a comprehensive network of such college and university based cooperative study units as will provide full geographic and topical coverage for research on the resources contained in units of the National Park System and their larger regions. (16 USC 5933). To more effectively achieve the mission of the National Park Service; to enhance management and protection of national park resources by providing clear authority and direction for the conduct of scientific study in the National Park System and to use the information gathered for management purposes; to ensure appropriate documentation of resource conditions in the National Park System; to encourage others to use the National Park System for study to the benefit of park management as well as broader scientific value; to encourage the publication and dissemination of information derived from studies in the National Park System. The objectives of the units' (cooperative ecosystem study units) are to: Provide resource managers with high-quality scientific research, technical assistance, and education; provide resource managers with solid natural resource information; deliver research and technical assistance that is timely, relevant to resource managers, and needed to develop and implement sound adaptive management approaches; ensure the independence and objectivity of research; create and maintain effective partnerships among federal agencies and universities to share resources and expertise; take full advantage of university resources while benefiting faculty and students; provide research, technical assistance, and educational functions within the context of cultural, social, biological, and physical sciences; enhance the ability of Federal natural and cultural resource managers to generate, acquire, synthesize, act upon, and articulate to the public sound research and scientific information; encourage professional development of federal scientists and enhance their ability to manage federal science resources efficiently.

To support research complementary to USGS program efforts in classification of the public lands and examination of the geological structure, water, mineral, and biological resources, and products of the national domain. This entry covers a variety of USGS assistance awards not covered by any other CFDA program entries. Awards are typically supported by funding from internal projects and programs, and funds are not separately budgeted or reserved for external projects or proposals under this entry.

<u>Performance Measures</u>	<u>2017</u>	<u>2018</u>	<u>2019</u>
Long term monitoring of the Rainbow Trout fishery at Lees Ferry	N/A	N/A	1-2
Sample Colorado River between Lee's Ferry and Lake Mead via electrofishing and angler surveys.			
Conducted sampling trips (summer, spring, fall).

Endangered Species Conservation – Recovery Implementation Funds	15.657	Department of the Interior	C050294	156.0	173.4	165.0	^{2, 6}

To provide federal financial assistance to secure endangered or threatened species information, undertake restoration actions that will lead to delisting of a species; help prevent extinction of a species, or aid in the recovery of species. The purpose of the Endangered Species Act is to provide a means by which the ecosystems upon which endangered and threatened species depend may be conserved, to provide a program for the conservation of these species, and to take appropriate steps to achieve the purposes of treaties and conventions set forth in the law.

<u>Performance Measures</u>	<u>2017</u>	<u>2018</u>	<u>2019</u>
Number of Mexican Wolves in overall population	97 estimate	113	113
Indication of what the dollars are used for: To assist in development of reintroduction efforts for the Mexican wolf in Arizona, including weekly, monthly and yearly monitoring; release, capture and translocation. Development of proactive management operations that assist with the integration of Mexican wolves into appropriate historical range and modern day multiple use landscapes; and the development and implementation of appropriate outreach efforts regarding project goals, status and accomplishments.			
What is the outcome of using the dollars supposed to be: To establish and maintain a population of Mexican wolves within historic range in Arizona that contributes to the recovery of Mexican wolves in accordance with the Endangered Species Act.			
How does one measure the success of the project where the dollars are spent: The short term establishment and long term persistence of a population of Mexican wolves within historic habitat in Arizona that allows Mexican wolves to coexist in a modern day landscape that includes viable native ungulate populations and multiple use activities including hunting , recreational activities, and viable livestock production activities on Federal, State and private lands.			
Specific benchmark:			
Minimum number of Mexican wolves in overall population			
The wolf project uses a minimum population estimate to track the status of the overall wolf population in the Blue Range Wolf Recovery Area in Arizona and New Mexico. This estimate is generated during the January following the previous year. In 2012 the minimum population estimate for the entire wolf population was 78. The minimum population estimate for 2013 will be derived in early February 2014.

FOR RECOVERY ACT:

For ARRA funded projects and in addition to the program objectives above, the section 3 of the ARRA states the following objectives:

- (1)To preserve and create jobs and promote economic recovery.
- (2)To assist those most impacted by the recession.
- (3)To provide investments needed to increase economic efficiency by spurring technological advances in science and health.
- (4)To invest in transportation, environmental protection, and other infrastructure that will provide long-term economic benefits.
- (5)To stabilize State and local government budgets, in order to minimize and avoid reductions in essential services and counterproductive state and local tax increases.

Child Care and Development Block Grant	93.575	Department of Health and Human Services	CCDF	268.7	245.0	245.0	^{1, 6}

The Child Care and Development Block Grant (CCDBG or Discretionary Funds) is a part of the Child Care and Development Fund (CCDF) program, along with the Child Care Mandatory and Matching Funds (see CFDA 93.596). The CCDBG provides grants to States, Territories, Tribes, and tribal organizations serving federally-recognized tribes (public institutions of higher education and hospitals are not eligible applicants) for child care assistance for low-income families. The goals are to: (1) allow each State maximum flexibility in developing child care programs and policies that best suit the needs of children and parents within such State; (2) promote parental choice to empower working parents to make their own decisions on the child care that best suits their family's needs; (3) encourage States to provide consumer education information to help parents make informed choices about child care; (4) assist States to provide child care to parents trying to achieve independence from public assistance; and (5) assist States in implementing the health, safety, licensing, and registration standards established in State regulations. Current priorities include: making systemic investments in quality child care to promote child development and health and safety; and creating a system that is child focused, family friendly, and fair to providers.

AmeriCorps	94.006	Corporation for National and Community Service	CNCS CO	80.4	673.3	673.3	^{2, 6}

For more than fifteen years, the Corporation for National and Community Service—through its Senior Corps, AmeriCorps, and Learn and Serve America programs—has mobilized a new generation of engaged citizens. This year, more than 1.8 million individuals of all ages and backgrounds will serve through these programs. They will help thousands of national and community non-profit organizations, faith-based groups, schools, and local agencies meet local needs in education, the environment, health, veterans, economic opportunity, and other critical areas.

AmeriCorps grants are awarded to eligible organizations that identify an unmet need in their community that will be addressed by AmeriCorps members that the organization recruits, trains, and manages. An AmeriCorps member is an individual who is enrolled in an approved national service position and engages in community service. Members may receive a living allowance and other benefits while serving. Upon successful completion of their service, members receive an education award from the National Service Trust.

AmeriCorps grant funding is distributed to Governor-appointed State Commissions and multi-state grantees. State Commissions award subgrants to organizations in their states, and the multi-state grantees work through operating sites in more than one state. These organizations recruit AmeriCorps members to respond to local needs.

Additional funding opportunities are available to existing AmeriCorps Programs under the American Recovery and Reinvestment Act (Recovery Act) funds to utilize service and volunteerism to stimulate the economy and meet the needs of those negatively impacted by the current economic crisis. Through AmeriCorps Recovery grants, individuals currently unemployed will gain work experience and valuable skills, and nonprofit organizations and communities negatively affected by the economic crisis will gain critical human resources. Eligible activities include providing job counseling and skills training to the unemployed, constructing or rehabilitating housing, assisting nonprofits facing increased need and decreased resources, recruiting volunteers, making housing resource referrals for and providing legal services to those experiencing eviction or foreclosure, connecting children and families to health care, and allowing after-school centers that have lost funding to stay open.

CNCS is seeking to partner with localities to use national service as the transformative catalyst to address a pressing problem. Tribal and local leaders (a mayor or other chief executive) will identify a high priority local challenge which AmeriCorps members from all three streams of service—AmeriCorps State and National, AmeriCorps NCCC, and AmeriCorps VISTA—can holistically address in a relatively short period of time (no more than two years). The solution must be place-based and ambitious in order to succeed in the competition. The solution may be a new initiative, or it may use national service to scale up an existing successful effort.

Substance Abuse and Mental Health Services_Projects of Regional and National Significance	93.243	Department of Health and Human Services	EPI	55.9	150.0	37.5	^{1, 6}

Substance Abuse and Mental Health Service Administration (SAMHSA) was reauthorized by the Children's Health Action of 2000, Public law 106-310. Under this reauthorization, SAMHSA was given the authority to address priority substance abuse treatment, prevention and mental health needs of regional and national significance through assistance (grants and cooperative agreements) to States, political subdivisions of States, Indian tribes and tribal organizations, and other public or nonprofit private entities. Under these sections, CSAT, CMHS and CSAP seek to expand the availability of effective substance abuse treatment and recovery services available to Americans to improve the lives of those affected by alcohol and drug additions, and to reduce the impact of alcohol and drug abuse on individuals, families, communities and societies and to address priority mental health needs of regional and national significance and assist children in dealing with violence and traumatic events through by funding grant and cooperative agreement projects. Grants and cooperative agreements may be for (1) knowledge and development and application projects for treatment and rehabilitation and the conduct or support of evaluations of such projects; (2) training and technical assistance; (3) targeted capacity response programs (4) systems change grants including statewide family network grants and client-oriented and consumer run self-help activities and (5) programs to foster health and development of children; (6) coordination and integration of primary care services into publicly-funded community mental health centers and other community-based behavioral health settings funded under Affordable Care Act (ACA).

Substance Abuse and Mental Health Services_Projects of Regional and National Significance	93.243	Department of Health and Human Services	SBIRT	1,520.1	75.1	0.0	6

Substance Abuse and Mental Health Service Administration (SAMHSA) was reauthorized by the Children's Health Action of 2000, Public law 106-310. Under this reauthorization, SAMHSA was given the authority to address priority substance abuse treatment, prevention and mental health needs of regional and national significance through assistance (grants and cooperative agreements) to States, political subdivisions of States, Indian tribes and tribal organizations, and other public or nonprofit private entities. Under these sections, CSAT, CMHS and CSAP seek to expand the availability of effective substance abuse treatment and recovery services available to Americans to improve the lives of those affected by alcohol and drug additions, and to reduce the impact of alcohol and drug abuse on individuals, families, communities and societies and to address priority mental health needs of regional and national significance and assist children in dealing with violence and traumatic events through by funding grant and cooperative agreement projects. Grants and cooperative agreements may be for (1) knowledge and development and application projects for treatment and rehabilitation and the conduct or support of evaluations of such projects; (2) training and technical assistance; (3) targeted capacity response programs (4) systems change grants including statewide family network grants and client-oriented and consumer run self-help activities and (5) programs to foster health and development of children; (6) coordination and integration of primary care services into publicly-funded community mental health centers and other community-based behavioral health settings funded under Affordable Care Act (ACA).

State Energy Program Special Projects	81.119	Department of Energy	SEPCOM	0.0	0.0	0.0	^{2, 6}

To allow States to submit proposals to implement specific Department of Energy (DOE) Office of Energy Efficiency and Renewable Energy deployment activities and initiatives as Special Projects under the State Energy Program. States will compete for funding to implement activities relating to a number of programmatic areas such as building codes and standards, alternative fuels, industrial efficiency, building efficiency, and solar and renewable technologies.

<u>Performance Measures</u>	<u>2017</u>	<u>2018</u>	<u>2019</u>
Develop Home Characterization process			
The house characterization process will be conducted in five Arizona cities that are representative of the key climate zones in the State. Benchmarks will be created for each house type. Problem house types will be identified. Solutions packages for each house type will be developed.			

State Energy Program	81.041	Department of Energy	SEPFOR	0.0	0.0	0.0	^{2, 6}
-----------------------------	---------------	-----------------------------	---------------	-----	-----	-----	-----------------

The program provides financial and technical assistance to State governments to create and implement a variety of energy efficiency and conservation projects in order to provide leadership to maximize the benefits of energy efficiency and renewable energy through communications and outreach activities, technology deployment, and accessing new partnerships and resources across the geographic panorama of the United States and its territories. The program's objectives are:

- * To reduce fossil fuel emissions created as a result of activities within the jurisdictions of eligible entities;
- * To reduce the total energy use of the eligible entities; and
- * To improve energy efficiency in the transportation, building, and other sectors.

<u>Performance Measures</u>	<u>2017</u>	<u>2018</u>	<u>2019</u>
Building Audits	2		0
Department of Energy authorized representatives will make site visits at times to review project accomplishments and management control systems and to provide technical assistance, if required.

Epidemiology and Laboratory Capacity for Infectious Diseases (ELC)	93.323	Department of Health and Human Services	HSA14026	3,168.7	3,186.3	3,186.3	⁶

The purpose of this program is to protect the public health and safety of the American people by enhancing the capacity of public health agencies to effectively detect, respond, prevent and control known and emerging (or re-emerging) infectious diseases. This is accomplished by providing financial and technical resources to (1) strengthen epidemiologic capacity; (2) enhance laboratory capacity; (3) improve information systems; and (4) enhance collaboration among epidemiology, laboratory, and information systems components of public health departments.

<u>Performance Measures</u>	<u>2017</u>	<u>2018</u>	<u>2019</u>
Percentage of funding utilized in the budget period (Funding Utilization Ratio)	79%	80%	80%
The funding utilization ratio is used to measure the administrative efficiency of the grant. The ratio compares the percentage of grant expenditure and encumbrance as of the fiscal year end with the percentage of budget period elapsed by the end of fiscal year.			

Grants to States for Loan Repayment Program	93.165	Department of Health and Human Services	HSA15023	190.6	195.2	195.2	^{2, 6}
--	---------------	--	----------	-------	-------	-------	-----------------

To increase the availability of primary health care in health professional shortage areas (HPSAs) by assisting States in operating programs for the repayment of educational loans of health professionals in return for their practice in HPSAs.

<u>Performance Measures</u>	<u>2017</u>	<u>2018</u>	<u>2019</u>
Percentage of funding utilized in the budget period (Funding Utilization Ratio)	118%	98%	98%
The funding utilization ratio is used to measure the administrative efficiency of the grant. The ratio compares the percentage of grant expenditure and encumbrance as of the fiscal year end with the percentage of budget period elapsed by the end of fiscal year.

WIC Grants To States (WGS)	10.578	Department of Agriculture	HSA15056	2,522.8	2,535.7	634.0	⁶

To provide grants to WIC State agencies to plan, design and implement WIC electronic benefit transfer (EBT) systems so that Program benefits can be provided electronically. To provide grants to WIC State agencies to fund, implement, and evaluate innovative technology projects that improve WIC services. To provide grants to WIC State agencies to plan, design, implement, enhance or transfer management information (MIS) systems. Please note the following grant activities:

1. WIC EBT Amendments (non-competitive). Grant funds for WIC EBT amendments are provided to WIC State agencies to support on-going EBT planning or implementation projects. These projects were originally funded through a competitive process using WIC technology or American Recovery and Reinvestment Act funds. Many WIC State agencies received only partial funding in their original grant award and amendments provide the additional funds needed to ensure all activities are completed and projects are successful.
2. WIC EBT Implementation (non-competitive). Implementation grant funds are provided to WIC State agencies to enhance and modify current management information systems to support EBT, conduct cost evaluations, and develop retailer management plans.
3. WIC State Agency Model (SAM) Amendments (non-competitive). Grant funds for WIC SAM amendments are provided to support WIC State agencies that are either part of the original SAM consortia, or those that need additional funding to complete implementation of a SAM transfer system. These funds are used by WIC State agencies for implementation completion as well as system enhancements through the SAM user group process.
4. WIC EBT Planning Grants (non-competitive). EBT Planning grants funds are provided to WIC State agencies to assess the feasibility of EBT for their State, as well as to perform a cost analysis to verify EBT affordability. The planning process is a WIC requirement prior to EBT implementation and looks at WIC Information System capabilities, retailer capabilities, and baseline paper cost compared to EBT operational cost within the State to better prepare for the challenges of EBT implementation. WIC State agencies must analyze both on-line and off-line EBT technologies to assess the most cost-effective solution.
5. WIC Technical Innovation Grants (competitive). WIC Technical Innovation grant funds are provided to WIC State agencies for the development of standardized reporting, retailer certification test scripts, and development of a web-based Internet system that will allow WIC participants to access grocer's websites, select WIC approved foods and purchase them with their EBT card from the convenience of their homes.
6. WIC SAM Transfers Grants (non-competitive). SAM Transfer grant funds are provided to WIC State agencies that have completed their planning activities, and have an approved Alternatives Analysis document that justifies a SAM as their choice of system transfer. Funds are used for implementation activities.

7. WIC MIS Amendments (non-competitive). Grant funds for WIC MIS amendments are provided to support WIC State agencies that have already received grant funding for their MIS projects. This includes planning for and transferring of an existing system, or developing a new system.

8. WIC MIS Implementation (non-competitive). WIC MIS Implementation grant funds are provided to WIC State agencies that are implementing a new MIS, or are upgrading/enhancing their current MIS. Activities included are design and development, testing, training and data conversion.

9. WIC MIS Planning (non-competitive). WIC MIS Planning grant funds are provided to WIC State agencies to assess their current system, complete a feasibility study and cost analysis as well as prepare a Request for Proposal for an implementation contractor.

To provide grants to WIC State agencies that improve and/or enhance nutrition services of the WIC program. WIC awards State agencies the following grants:

1. WIC Breastfeeding Peer Counseling Funds (discretionary). WIC Breastfeeding Peer Counseling Funds are intended to enable State agencies to implement or maintain effective breastfeeding peer counselor programs. Combining peer counseling with the on-going breastfeeding promotion efforts in WIC agencies has the potential to significantly impact breastfeeding rates among WIC participants. The Food and Nutrition Service's long-range vision is to institutionalize peer counseling as a core service in WIC.

2. WIC Special Projects Grants (discretionary). WIC Special Projects Grants are awarded to state agencies for special State projects of regional or national significance to improve the services of the program. Current projects focused on FNS' Revitalizing Quality Nutrition Services (RQNS) in WIC initiatives. The goal is to improve and strengthen the effectiveness of WIC nutrition services. Full grants are awarded to States to evaluate ongoing initiatives aimed at improving these services. Full Project grants and WIC Concept Papers grants are awarded to States under the WIC Special Project Funds.

<u>Performance Measures</u>	<u>2017</u>	<u>2018</u>	<u>2019</u>

Environmental Public Health and Emergency Response	93.070	Department of Health and Human Services	HSA15063	159.4	0.0	0.0	⁸

To bring public health and epidemiologic principles together to identify, clarify, and reduce the impact of complex environmental threats, including terrorist threats and natural disasters, on populations, domestic and foreign. These programs and activities focus on safeguarding the health of people from environmental threats; providing leadership in the use of environmental health sciences-including environmental epidemiology, environmental sanitation, and laboratory sciences-to protect public health; and responding to issues and sharing solutions to environmental health problems worldwide. To accomplish the above, the CDC: (1) conducts surveillance and investigations that increase the knowledge about the relation between human health and environmental threats; (2) uses this knowledge to develop national public health programs and policies to prevent or control public health problems; (3) plans, prepares, and responds to emergencies, including terrorist threats, technologic accidents, and natural disasters; (4) provides direct service delivery to partners engaged in environmental health services such as food, safety, rodent control, water quality, and sanitation; (5) develops and applies laboratory science to prevent disease and death caused by exposure to environmental chemicals and to improve the diagnosis, treatment, and prevention of selected chronic diseases; (6) conducts Biomonitoring to assess individual human exposure to environmental chemicals by measuring them in human specimens (e.g. blood and urine); and, (7) conducts activities on emerging environmental threats such as climate change and the built environment.

Centers for Disease Control and Prevention_Investigations and Technical Assistance	93.283	Department of Health and Human Services	HSA15503	0.0	0.0	0.0	2, 4, 6, 8

To assist State and local health authorities and other health related organizations in controlling communicable diseases, chronic diseases and disorders, and other preventable health conditions. Investigations and evaluation of all methods of controlling or preventing disease and disability are carried out by providing epidemic aid, surveillance, technical assistance, consultation, and program support; and by providing leadership and coordination of joint national, State, and local efforts. STEPS- To enable communities to reduce the burden of chronic disease, including: preventing diabetes among populations with pre-diabetes; increasing the likelihood that persons with undiagnosed diabetes are diagnosed; reducing complications of diabetes; preventing overweight and obesity; reducing overweight and obesity; and reducing the complications of asthma. STEPS will achieve these outcomes by improving nutrition; increasing physical activity; preventing tobacco use and exposure, targeting adults who are diabetic or who live with persons with asthma; increasing tobacco cessation, targeting adults who are diabetic or who live with persons with asthma; increasing use of appropriate health care services; improving the quality of care; and increasing effective self-management of chronic diseases and associated risk factors. REACH - REACH U.S. supports community coalitions that design, implement, evaluate, and disseminate community-driven strategies to eliminate health disparities Racial and ethnic groups targeted include: African American/Black, American Indian/Alaska Native, Asian, Native Hawaiian/Other Pacific Islander, and Hispanic/Latino. Health priority areas include: breast and cervical cancer; cardiovascular disease; diabetes mellitus; adult/older adult immunization, hepatitis B, and/or tuberculosis; asthma; and infant mortality.

Vulnerable Populations: The purpose of this program is to reduce morbidity, premature mortality, and eliminate health disparities associated with diabetes. This will be done by funding organizations to mobilize community partners and assist them to effectively plan, develop, implement, and evaluate community-based interventions to reduce the risk factors that influence the disproportionate burden of diabetes in vulnerable populations borne by many communities in regions across the country.

<u>Performance Measures</u>	<u>2017</u>	<u>2018</u>	<u>2019</u>
Percentage of funding utilized in the budget period (Funding Utilization Ratio)	128%	N/A	N/A
The funding utilization ratio is used to measure the administrative efficiency of the grant. The ratio compares the percentage of grant expenditure and encumbrance as of the fiscal year end with the percentage of budget period elapsed by the end of fiscal year.

The purpose of this program is to support statewide implementation of cross-cutting, evidence-based approaches to promote health and prevent and control chronic diseases and their risk factors. The focus of this effort involves primary prevention efforts aimed at diabetes and heart disease/stroke prevention efforts. Grantees are required to assure that a percentage of their resources are redirected to local entities to accomplish their objectives. Logic models will be developed for targeted components building on existing evidence-based strategies.

Affordable Care Act (ACA) Maternal, Infant, and Early Childhood Home Visiting Program	93.505	Department of Health and Human Services	HSA15510	641.3	0.0	0.0	6, 8

The Maternal, Infant, and Early Childhood Home Visiting Program is designed : (1) to strengthen and improve the programs and activities carried out under Title V; (2) to improve coordination of services for at risk communities; and (3) to identify and provide comprehensive services to improve outcomes for families who reside in at risk communities.

Voluntary evidence-based home visiting is the primary strategy to deliver services. A nurse, social worker, parent educator, or other paraprofessional regularly visits an expectant mother or father, new parent, or primary caregiver of a young child from birth to kindergarten entry to support and strengthen the parent-child relationship to improve the health, development and well-being for the child and family.

Environmental Public Health and Emergency Response	93.070	Department of Health and Human Services	HSA15512	82.5	0.0	0.0	6, 8

To bring public health and epidemiologic principles together to identify, clarify, and reduce the impact of complex environmental threats, including terrorist threats and natural disasters, on populations, domestic and foreign. These programs and activities focus on safeguarding the health of people from environmental threats; providing leadership in the use of environmental health sciences-including environmental epidemiology, environmental sanitation, and laboratory sciences-to protect public health; and responding to issues and sharing solutions to environmental health problems worldwide. To accomplish the above, the CDC: (1) conducts surveillance and investigations that increase the knowledge about the relation between human health and environmental threats; (2) uses this knowledge to develop national public health programs and policies to prevent or control public health problems; (3) plans, prepares, and responds to emergencies, including terrorist threats, technologic accidents, and natural disasters; (4) provides direct service delivery to partners engaged in environmental health services such as food, safety, rodent control, water quality, and sanitation; (5) develops and applies laboratory science to prevent disease and death caused by exposure to environmental chemicals and to improve the diagnosis, treatment, and prevention of selected chronic diseases; (6) conducts Biomonitoring to assess individual human exposure to environmental chemicals by measuring them in human specimens (e.g. blood and urine); and, (7) conducts activities on emerging environmental threats such as climate change and the built environment.

Grant/Project and Description	CFDA	Grantor	AFIS ID	2017 Received	2018 Est. Rev.	2019 Est. Rev.	Footnote(s)
Empowering Older Adults and Adults with Disabilities through Chronic Disease Self-Management Education Programs – financed by 2012 Prevention and Public Health Funds (PPHF-2012)	93.734	Department of Health and Human Services	HSA15513	1.8	0.0	0.0	2, 6

The overall purpose of this funding opportunity is to help ensure that evidence-based self-management education programs are embedded into the nation's health and long-term services and supports systems. This effort will help preserve and expand the prevention program distribution and delivery systems that were developed through previous AoA grants. This funding is supportive of the HHS Strategic Framework on Multiple Chronic Conditions in bringing to scale and enhancing sustainability of evidence-based, self-management programs. It also helps to address the Healthy People 2020 objectives to increase the proportion of older adults with one or more chronic health conditions who report confidence in managing their conditions and to increase the proportion of older adults who receive Medicare benefits for Diabetes Self-Management Training. There are three components of this funding including: 1) state cooperative agreements; 2) a National Resource Center cooperative agreement; and 3) a contract for Technical Assistance on Chronic Disease Self-Management Education Initiatives and Building Business Acumen and Capacity in the Aging Network. The state cooperative agreements are designed to achieve the following two major objectives:

1. Significantly increase the number of older and/or disabled adults with chronic conditions who complete evidence-based chronic disease self-management education (CDSME) programs to maintain or improve their health status.
 2. Strengthen and expand integrated, sustainable service systems within States to provide evidence-based CDSME programs. The National Resource Center has two objectives: 1. Provide leadership, expert guidance and resources to promote the value of and increase access to evidence-based self-management programs; and
 2. Serve as a national clearinghouse and disseminate resources and best practices to increase the capacity of states, aging, disability and public health networks and their partners to implement and sustain CDSME programs.
- The contract for technical assistance on business acumen will provide an expert to assist, at ACL's request or permission, states and groups or networks of area agencies on aging and other community based organizations (CBOs) to build their business acumen and capacity to partner or contract with health care entities (e.g., hospitals, health systems, accountable care organizations, managed/integrated care plans, Federally Qualified Health Centers, etc.) to ensure the financial sustainability of chronic disease self-management education and other evidence-based health programs.

Capacity Building Assistance to Strengthen Public Health Immunization Infrastructure and Performance – financed in part by the Prevention and Public Health Fund (PPHF-2012)	93.733	Department of Health and Human Services	HSA15541	63.5	0.0	0.0	2, 6, 8

This program will improve the efficiency, effectiveness, and/or quality of immunization practices by strengthening the immunization information technology infrastructure, building capacity for public health department insurance billing, and expanding immunization delivery partnerships so that more children, adolescents, and adults are protected against vaccine-preventable diseases. The specific objectives may include but are not limited to:

1. Develop strategic plans for billing for immunization services in health department clinics;
2. Enhance interoperability between electronic health records (EHRs) and Immunization Information Systems (IIS) and reception of HL7 standard messages in IIS;
3. Develop a vaccine ordering module in an immunization information system that interfaces with CDC's VTrckS vaccine ordering and management system;
4. Vaccine barcode improvement to improve the system functions to capture data from 2-D barcodes on vaccine vials and syringes as well as improve data capture from the Vaccine Information Statements;
5. Improve vaccine management, storage and handling at provider and grantee level;
6. Use immunization information systems to improve adolescent vaccination coverage;
7. Conduct hepatitis B vaccination pilot to reduce the incidence of acute hepatitis B infection among adults through targeted hepatitis B vaccination of adults who present for medical care in high risk settings or who have behaviors that increase their risk of hepatitis B virus (HBV) infection;
8. Conduct school vaccination assessment evaluation to implement substantial improvements in the quality of kindergarten coverage and exemption data collected at state and local levels while building state and local area capacity;
9. Use immunization information systems to conduct small area analysis of vaccination coverage.

Substance Abuse and Mental Health Services_Projects of Regional and National Significance	93.243	Department of Health and Human Services	HSA15555	(7.6)	0.0	0.0	²

Substance Abuse and Mental Health Service Administration (SAMHSA) was reauthorized by the Children's Health Action of 2000, Public law 106-310. Under this reauthorization, SAMHSA was given the authority to address priority substance abuse treatment, prevention and mental health needs of regional and national significance through assistance (grants and cooperative agreements) to States, political subdivisions of States, Indian tribes and tribal organizations, and other public or nonprofit private entities. Under these sections, CSAT, CMHS and CSAP seek to expand the availability of effective substance abuse treatment and recovery services available to Americans to improve the lives of those affected by alcohol and drug additions, and to reduce the impact of alcohol and drug abuse on individuals, families, communities and societies and to address priority mental health needs of regional and national significance and assist children in dealing with violence and traumatic events through by funding grant and cooperative agreement projects. Grants and cooperative agreements may be for (1) knowledge and development and application projects for treatment and rehabilitation and the conduct or support of evaluations of such projects; (2) training and technical assistance; (3) targeted capacity response programs (4) systems change grants including statewide family network grants and client-oriented and consumer run self-help activities and (5) programs to foster health and development of children; (6) coordination and integration of primary care services into publicly-funded community mental health centers and other community-based behavioral health settings funded under Affordable Care Act (ACA).

The Affordable Care Act: Building Epidemiology, Laboratory, and Health Information Systems Capacity in the Epidemiology and Laboratory Capacity for Infectious Disease (ELC) and Emerging Infections Program (EIP) Cooperative Agreements;PPHF	93.521	Department of Health and Human Services	HSA15558	537.0	496.1	496.1	6

The Prevention and Public Health Fund (Title IV, Section 4002) was established under the Patient Protection and Affordable Care Act to provide for expanded and sustained national investment in prevention and public health programs to improve health and help restrain the rate of growth in private and public sector health care costs. The Epidemiology and Laboratory Capacity for Infectious Diseases (ELC) and Emerging Infections Program (EIP) cooperative agreements were formed in 1995 as key components of CDC's national strategy to address and reduce emerging infectious disease (EID) threats. The programs play a critical role in strengthening national infectious disease infrastructure by serving as collaborative platforms for state and local health departments, CDC programs, and academic and various other public health partners to improve the ability to detect and respond to EIDs and other public health threats. Specifically, the programs build epidemiology, laboratory, and information systems capacity, integrate epidemiology and laboratory practice, implement active surveillance, and conduct targeted research aimed at improving methods and informing national surveillance and response activities. Overall, additional funds from multiple sources including PPHF will allow ELC and EIP partner agencies to substantially address gaps in EID epidemiology and laboratory capacity (e.g. number and training level of epi and lab staff, efficient/functional information systems, etc).

To assist State and local health authorities and other health related organizations in controlling communicable diseases, chronic diseases and disorders, and other preventable health conditions. Investigations and evaluation of all methods of controlling or preventing disease and disability are carried out by providing epidemic aid, surveillance, technical assistance, consultation, and program support; and by providing leadership and coordination of joint national, State, and local efforts. STEPS- To enable communities to reduce the burden of chronic disease, including: preventing diabetes among populations with pre-diabetes; increasing the likelihood that persons with undiagnosed diabetes are diagnosed; reducing complications of diabetes; preventing overweight and obesity; reducing overweight and obesity; and reducing the complications of asthma. STEPS will achieve these outcomes by improving nutrition; increasing physical activity; preventing tobacco use and exposure, targeting adults who are diabetic or who live with persons with asthma; increasing tobacco cessation, targeting adults who are diabetic or who live with persons with asthma; increasing use of appropriate health care services; improving the quality of care; and increasing effective self-management of chronic diseases and associated risk factors. REACH - REACH U.S. supports community coalitions that design, implement, evaluate, and disseminate community-driven strategies to eliminate health disparities Racial and ethnic groups targeted include: African American/Black, American Indian/Alaska Native, Asian, Native Hawaiian/Other Pacific Islander, and Hispanic/Latino. Health priority areas include: breast and cervical cancer; cardiovascular disease; diabetes mellitus; adult/older adult immunization, hepatitis B, and/or tuberculosis; asthma; and infant mortality.

Vulnerable Populations: The purpose of this program is to reduce morbidity, premature mortality, and eliminate health disparities associated with diabetes. This will be done by funding organizations to mobilize community partners and assist them to effectively plan, develop, implement, and evaluate community-based interventions to reduce the risk factors that influence the disproportionate burden of diabetes in vulnerable populations borne by many communities in regions across the country.

Drug and Alcohol Services Information System	93.022	Department Of Health And Human Services	HSA15605	202.1	0.0	0.0	2, 10

Requires the Secretary of Health and Human Services, acting through the Administrator of the Substance Abuse Mental Health Services Administration, to develop a national data set on characteristics of clients admitted to the public substance abuse treatment facilities. Information collected assists SAMHSA and the states in accounting for alcohol/drug treatment funds provided to the states in the Substance Abuse Prevention and Treatment Block Grant (SAPT). The profiles are also used in reports to Congress on the public substance abuse system.

State Vital Statistics Improvement Program	93.066	Department of Health and Human Services	HSA15613	302.1	177.1	177.1	²

To improve the timeliness, quality and sustainability of the de-centralized vital statistics system by adopting nationally-developed, consensus standards and guidelines; by actively working with states to re-engineer their state-owned and operated systems using these standards/guidelines; and by improving the efficiency of business operations of state vital statistics programs. Working collaboratively between State and Federal agencies, the goal is to facilitate the development and implementation of re-engineered systems in all 57 registration areas. These will be systems that can: (1) provide quality and timely data for public health surveillance and medical research; (2) meet citizen needs for legal copies of their birth and death records, including providing paper copies of records to citizens for their immediate legal or personal use, and at citizens' request, transferring records electronically to local, State or Federal agencies to satisfy an agency's need for a record; meet Federal agencies' needs for record verification and authentication; (3) result in comparable vital registration/statistics systems in each state; (4) use national standards and guidelines, including the 2003 revision of the U.S. Standard Certificates of Birth and Death and the Report of Fetal Death, the ICD-10 classification system, the FIPS geographic coding scheme, and the standard HL-7 vital events messaging; (5) support national security and privacy requirements; (6) integrate or harmonize easily with other public health systems such as Public Health Information Network (PHIN), immunization registries, and newborn screening, and (7) use Internet technology.

Affordable Care Act (ACA) Maternal, Infant, and Early Childhood Home Visiting Program	93.505	Department of Health and Human Services	HSA15621	2,807.3	537.8	0.0	^{2, 6}

The Maternal, Infant, and Early Childhood Home Visiting Program is designed : (1) to strengthen and improve the programs and activities carried out under Title V; (2) to improve coordination of services for at risk communities; and (3) to identify and provide comprehensive services to improve outcomes for families who reside in at risk communities.

Voluntary evidence-based home visiting is the primary strategy to deliver services. A nurse, social worker, parent educator, or other paraprofessional regularly visits an expectant mother or father, new parent, or primary caregiver of a young child from birth to kindergarten entry to support and strengthen the parent-child relationship to improve the health, development and well-being for the child and family.

Maternal and Child Health Federal Consolidated Programs	93.110	Department of Health and Human Services	HSA15632	106.4	109.4	109.4	6

To carry out special maternal and child health (MCH) projects of regional and national significance; to conduct training and research; to conduct genetic disease testing, counseling, and information development and dissemination programs; for grants relating to hemophilia without regard to age; and for the screening of newborns for sickle cell anemia, and other genetic disorders. and to support comprehensive hemophilia diagnostic and treatment centers. These grants are funded with a set-aside from the MCH Block grant program. SPRANS grants are funded with 15 percent of the Block Grant appropriation of up to \$600 million. When the appropriation exceeds \$600 million, 12.75 percent of the amount over \$600 million is set aside for the Community Integrated Service Systems grants. 15 percent of the balance remaining over \$600 million is also for SPRANS. The CISS program is to develop and expand the following: (1) Home visitation; (2) increased participation of obstetricians and pediatricians; (3) integrated service delivery systems; (4) maternal and child health centers for women and infants, under the direction of a not-for-profit hospital; (5) services for rural populations; and (6) community based services for children with special health care needs in order to enhance or develop an integrated services system. In FY 2008 Congress first funded the Combating Autism Act program, which is for early detection, education and intervention activities on autism and other developmental disorders.

First funded in 2004, the Heritable Disorders Program is established to improve the ability of States to provide newborn and child screening for heritable disorders and affect the lives of all of the nation's infants and children. Newborn and child screening occur at intervals across the life span of every child. Newborn screening universally provides early identification and follow-up for treatment of infants affected by certain genetic, metabolic, hormonal and/or functional conditions. It is expected that newborn and child screening will expand as the capacity to screen for genetic and congenital conditions expands.

First funded in 2009, the Congenital Conditions program is established to provide information and support services to women and their families that have received a diagnosis for Down Syndrome, Spina Bifida, Dwarfism and other prenatally or postnatally diagnosed conditions.

National Public Health Improvement Initiative	93.292	Department of Health and Human Services	HSA15669	1.9	0.0	0.0	2, 6, 8

The purpose of the program is to provide support for accelerating public health accreditation readiness activities; to provide additional support for performance management and improvement practices; and, for the development, identification and dissemination of evidence-based policies and practices (i.e., best and promising practices.).

This program supports the Healthy People 2020 focus area of addressing Public Health Infrastructure (<http://www.healthypeople.gov/hp2020/>). Cross-jurisdictional (state, local, tribal, territorial, regional, community, and border) collaborations are encouraged to increase the impact of limited resources, improve efficiency, and to leverage other related health reform efforts/projects.

Measurable outcomes of the program align with the following performance goals:

- 1) Increased efficiencies (saving time/money) of program services and/or operations,
- 2) Increased effectiveness (use of evidence-based policies and practices) Improved health outcome is a example of increased effectiveness., and,
- 3) Increased readiness for applying to and achieving accreditation by the Public Health Accreditation Board PHAB. (More information on accreditation activities can be found on the PHAB web site at <http://www.phaboard.org/>.

Project Grants and Cooperative Agreements for Tuberculosis Control Programs	93.116	Department of Health and Human Services	HSA15676	1,535.4	1,524.8	1,524.8	

To assist State and local health agencies in carrying out tuberculosis (TB) control activities designed to prevent transmission of infection and disease. Financial assistance is provided to TB programs to ensure that the program needs for the core TB prevention and control activities are met: finding all cases of active tuberculosis and ensuring completion of therapy; finding and screening persons who have had contact with TB patients, evaluating them for TB infection and disease, and ensuring completion of appropriate treatment, and conducting TB surveillance and TB public health laboratory activities that are essential to addressing these priorities. Each of these core activities (completion of therapy, contact investigation, TB surveillance, and TB laboratory activities) is essential to effective TB prevention and control, and they are mutually reinforcing. Thus, they constitute a 'package' of core activities. These are the highest priority TB prevention and control activities and should be carried out by all State and local TB prevention and control programs.

<u>Performance Measures</u>	<u>2017</u>	<u>2018</u>	<u>2019</u>

Centers for Disease Control and Prevention_Investigations and Technical Assistance	93.283	Department of Health and Human Services	HSA15677	0.0	0.0	0.0	2, 6

To assist State and local health authorities and other health related organizations in controlling communicable diseases, chronic diseases and disorders, and other preventable health conditions. Investigations and evaluation of all methods of controlling or preventing disease and disability are carried out by providing epidemic aid, surveillance, technical assistance, consultation, and program support; and by providing leadership and coordination of joint national, State, and local efforts. STEPS- To enable communities to reduce the burden of chronic disease, including: preventing diabetes among populations with pre-diabetes; increasing the likelihood that persons with undiagnosed diabetes are diagnosed; reducing complications of diabetes; preventing overweight and obesity; reducing overweight and obesity; and reducing the complications of asthma. STEPS will achieve these outcomes by improving nutrition; increasing physical activity; preventing tobacco use and exposure, targeting adults who are diabetic or who live with persons with asthma; increasing tobacco cessation, targeting adults who are diabetic or who live with persons with asthma; increasing use of appropriate health care services; improving the quality of care; and increasing effective self-management of chronic diseases and associated risk factors. REACH - REACH U.S. supports community coalitions that design, implement, evaluate, and disseminate community-driven strategies to eliminate health disparities Racial and ethnic groups targeted include: African American/Black, American Indian/Alaska Native, Asian, Native Hawaiian/Other Pacific Islander, and Hispanic/Latino. Health priority areas include: breast and cervical cancer; cardiovascular disease; diabetes mellitus; adult/older adult immunization, hepatitis B, and/or tuberculosis; asthma; and infant mortality.

Vulnerable Populations: The purpose of this program is to reduce morbidity, premature mortality, and eliminate health disparities associated with diabetes. This will be done by funding organizations to mobilize community partners and assist them to effectively plan, develop, implement, and evaluate community-based interventions to reduce the risk factors that influence the disproportionate burden of diabetes in vulnerable populations borne by many communities in regions across the country.

State Public Health Approaches for Ensuring Quitline Capacity – Funded in part by 2012 Prevention and Public Health Funds (PPHF-2012)	93.735	Department of Health and Human Services	HSA15703	291.4	277.9	277.9	6

As part of the overall effort to reduce the burden of chronic diseases and chronic disease risk factors, the Centers for Disease Control and Prevention (CDC), National Center for Chronic Disease Prevention and Health Promotion (NCCDPHP), Office on Smoking and Health (OSH) announces the opportunity to apply for funds to ensure and support state quitline capacity, in order to respond to upcoming federal initiatives such as the National Tobacco Education Campaign. <http://www.cdc.gov/tobacco>. This program addresses the “Healthy People 2020” focus area of tobacco use and the goal of reducing illness, disability, and death related to tobacco use and secondhand smoke exposure. Preventing tobacco use and helping tobacco users quit can improve the health and quality of life for Americans of all ages. People who stop smoking greatly reduce their risk of disease and premature death. Benefits are greater for people who stop at earlier ages, but quitting tobacco use is beneficial at any age. This FOA will be a new, 2-year cooperative agreement for all states and territories that currently have a quitline. Funds will be used for the following:

- Address the anticipated increase in calls
- Expand capacity and eligibility to ensure all callers receive some form of assistance
- Increase efficiencies of quitline operations, such as demonstrating how they will connect to or incorporate an interactive voice recording system (IVR) at the state or federal level
- Incorporate technological enhancements to provide additional forms of assistance to callers who want to quit
- Expand paid and earned media to promote the quitline and increase quit attempts
- Develop and/or implement private/public partnerships or other strategies to sustain quitline capacity.

Substance Abuse and Mental Health Service Administration (SAMHSA) was reauthorized by the Children's Health Action of 2000, Public law 106-310. Under this reauthorization, SAMHSA was given the authority to address priority substance abuse treatment, prevention and mental health needs of regional and national significance through assistance (grants and cooperative agreements) to States, political subdivisions of States, Indian tribes and tribal organizations, and other public or nonprofit private entities. Under these sections, CSAT, CMHS and CSAP seek to expand the availability of effective substance abuse treatment and recovery services available to Americans to improve the lives of those affected by alcohol and drug additions, and to reduce the impact of alcohol and drug abuse on individuals, families, communities and societies and to address priority mental health needs of regional and national significance and assist children in dealing with violence and traumatic events through by funding grant and cooperative agreement projects. Grants and cooperative agreements may be for (1) knowledge and development and application projects for treatment and rehabilitation and the conduct or support of evaluations of such projects; (2) training and technical assistance; (3) targeted capacity response programs (4) systems change grants including statewide family network grants and client-oriented and consumer run self-help activities and (5) programs to foster health and development of children; (6) coordination and integration of primary care services into publicly-funded community mental health centers and other community-based behavioral health settings funded under Affordable Care Act (ACA).

State Vital Statistics Improvement Program	93.066	Department of Health and Human Services	HSA15712	1,477.6	681.1	681.1	2, 6

To improve the timeliness, quality and sustainability of the de-centralized vital statistics system by adopting nationally-developed, consensus standards and guidelines; by actively working with states to re-engineer their state-owned and operated systems using these standards/guidelines; and by improving the efficiency of business operations of state vital statistics programs. Working collaboratively between State and Federal agencies, the goal is to facilitate the development and implementation of re-engineered systems in all 57 registration areas. These will be systems that can: (1) provide quality and timely data for public health surveillance and medical research; (2) meet citizen needs for legal copies of their birth and death records, including providing paper copies of records to citizens for their immediate legal or personal use, and at citizens' request, transferring records electronically to local, State or Federal agencies to satisfy an agency's need for a record; meet Federal agencies' needs for record verification and authentication; (3) result in comparable vital registration/statistics systems in each state; (4) use national standards and guidelines, including the 2003 revision of the U.S. Standard Certificates of Birth and Death and the Report of Fetal Death, the ICD-10 classification system, the FIPS geographic coding scheme, and the standard HL-7 vital events messaging; (5) support national security and privacy requirements; (6) integrate or harmonize easily with other public health systems such as Public Health Information Network (PHIN), immunization registries, and newborn screening, and (7) use Internet technology.

Adult Viral Hepatitis Prevention and Control	93.270	Department of Health and Human Services	HSA16003	44.4	0.0	0.0	6, 8

Program activities under this funding will allow for CDC to partner with multiple organizations to benefit individuals by substantially reducing viral hepatitis transmission, identifying those that are acutely and chronically infected, and linking infected individuals with treatment if appropriate. Specifically, the program activities may include but are not limited to:

1. Increasing the proportion of persons living with HCV and HBV who are aware of their infection and referred for prevention and clinical care services.
2. Expanding and improving efforts to develop and disseminate viral hepatitis training and educational materials targeting the public and private sector health care professionals to build capacity to assess, test and medically manage populations at risk for chronic HCV and HBV infection.
3. Supporting state and local health departments and other organizations in linking HCV infected persons to community health centers, clinics serving injection drug users, and other health organizations seeing individuals potentially infected with chronic viral hepatitis.
4. Additional support will be provided for program monitoring, evaluation, capacity building, and technical assistance, along with support for acute and chronic viral hepatitis surveillance.

Domestic Ebola Supplement to the Epidemiology and Laboratory Capacity for Infectious Diseases (ELC).	93.815	Department of Health and Human Services	HSA16009	199.1	195.7	195.7	⁶
---	---------------	--	-----------------	--------------	--------------	--------------	---------------------

This ELC Competing Supplement addresses priority domestic capacity building around Ebola and other emerging and highly-infectious diseases. The Competing Supplement (1) provides additional resources to accelerate ELC activities around infection control assessment and response, laboratory safety, and global migration, border interventions, and migrant health; and (2) aligns with ELC's existing purpose which is to protect the public health and safety of the American people by enhancing the capacity of public health agencies to effectively detect, respond, prevent and control known and emerging (or re-emerging) infectious diseases. This is accomplished by providing financial and technical resources to (1) strengthen epidemiologic capacity; (2) enhance laboratory capacity; (3) improve information systems; and (4) enhance collaboration among epidemiology, laboratory, and information systems components of public health departments.

National State Based Tobacco Control Programs	93.305	Department of Health and Human Services	HSA16015	1,002.0	1,023.8	1,023.8	⁶

This cooperative agreement program addresses tobacco use and secondhand smoke exposure in the United States and supports four National Tobacco Control Program goals to (1) Prevent initiation of tobacco use among youth and young adults; (2) Eliminate exposure to secondhand smoke; (3) Promote quitting among adults and youth; and (4) Identify and eliminate tobacco related disparities. Achievement of these goals will reduce chronic disease morbidity, mortality, and disability related to tobacco use and secondhand smoke exposure. This cooperative agreement program relates to Healthy People 2020 objectives in the topic area of Tobacco Use. In addition, this cooperative agreement program supports the Government Performance Results Modernization Act Long-term Objective 4.6: Reduce Death and Disability Due to Tobacco and the following measures: Tobacco Measure: 4.6 - Reduce death and disability due to tobacco use; 4.6.2 - Reduce per capita cigarette consumption in the U.S. per adult age 18+; 4.6.3 - Reduce the proportion of adults (age 18 and over) who are current cigarette smokers; 4.6.4 – Increase the proportion of the U.S. population covered by comprehensive state and/or local laws making workplaces, restaurants, and bars 100% smoke free (no smoking allowed, no exceptions); 4.6.5 - Reduce the proportion of adolescents (grade 9-12) who are current cigarette smokers. Furthermore, this cooperative agreement program supports national public health priorities and strategic plans including: (1) Centers for Disease Control's Winnable Battles; (2) Department of Health and Human Service's Ending the Tobacco Epidemic and Strategic Plan; (3) National Prevention Council's National Prevention Strategy; (4) Institute of Medicine's, Ending the Tobacco Problem; and (5) numerous Surgeon General Reports.

Centers for Disease Control and Prevention_Investigations and Technical Assistance	93.283	Department of Health and Human Services	HSA16041	104.0	102.8	102.8	2, 6

To assist State and local health authorities and other health related organizations in controlling communicable diseases, chronic diseases and disorders, and other preventable health conditions. Investigations and evaluation of all methods of controlling or preventing disease and disability are carried out by providing epidemic aid, surveillance, technical assistance, consultation, and program support; and by providing leadership and coordination of joint national, State, and local efforts. STEPS- To enable communities to reduce the burden of chronic disease, including: preventing diabetes among populations with pre-diabetes; increasing the likelihood that persons with undiagnosed diabetes are diagnosed; reducing complications of diabetes; preventing overweight and obesity; reducing overweight and obesity; and reducing the complications of asthma. STEPS will achieve these outcomes by improving nutrition; increasing physical activity; preventing tobacco use and exposure, targeting adults who are diabetic or who live with persons with asthma; increasing tobacco cessation, targeting adults who are diabetic or who live with persons with asthma; increasing use of appropriate health care services; improving the quality of care; and increasing effective self-management of chronic diseases and associated risk factors. REACH - REACH U.S. supports community coalitions that design, implement, evaluate, and disseminate community-driven strategies to eliminate health disparities Racial and ethnic groups targeted include: African American/Black, American Indian/Alaska Native, Asian, Native Hawaiian/Other Pacific Islander, and Hispanic/Latino. Health priority areas include: breast and cervical cancer; cardiovascular disease; diabetes mellitus; adult/older adult immunization, hepatitis B, and/or tuberculosis; asthma; and infant mortality.

Vulnerable Populations: The purpose of this program is to reduce morbidity, premature mortality, and eliminate health disparities associated with diabetes. This will be done by funding organizations to mobilize community partners and assist them to effectively plan, develop, implement, and evaluate community-based interventions to reduce the risk factors that influence the disproportionate burden of diabetes in vulnerable populations borne by many communities in regions across the country.

Capacity Building Assistance to Strengthen Public Health Immunization Infrastructure and Performance – financed in part by the Prevention and Public Health Fund (PPHF-2012)	93.733	Department of Health and Human Services	HSA16046	353.1	88.3	0.0	6

This program will improve the efficiency, effectiveness, and/or quality of immunization practices by strengthening the immunization information technology infrastructure, building capacity for public health department insurance billing, and expanding immunization delivery partnerships so that more children, adolescents, and adults are protected against vaccine-preventable diseases. The specific objectives may include but are not limited to:

1. Develop strategic plans for billing for immunization services in health department clinics;
2. Enhance interoperability between electronic health records (EHRs) and Immunization Information Systems (IIS) and reception of HL7 standard messages in IIS;
3. Develop a vaccine ordering module in an immunization information system that interfaces with CDC's VTrckS vaccine ordering and management system;
4. Vaccine barcode improvement to improve the system functions to capture data from 2-D barcodes on vaccine vials and syringes as well as improve data capture from the Vaccine Information Statements;
5. Improve vaccine management, storage and handling at provider and grantee level;
6. Use immunization information systems to improve adolescent vaccination coverage;
7. Conduct hepatitis B vaccination pilot to reduce the incidence of acute hepatitis B infection among adults through targeted hepatitis B vaccination of adults who present for medical care in high risk settings or who have behaviors that increase their risk of hepatitis B virus (HBV) infection;
8. Conduct school vaccination assessment evaluation to implement substantial improvements in the quality of kindergarten coverage and exemption data collected at state and local levels while building state and local area capacity;
9. Use immunization information systems to conduct small area analysis of vaccination coverage.

Environmental Public Health and Emergency Response	93.070	Department of Health and Human Services	HSA16047	129.6	128.9	128.9	⁶

To bring public health and epidemiologic principles together to identify, clarify, and reduce the impact of complex environmental threats, including terrorist threats and natural disasters, on populations, domestic and foreign. These programs and activities focus on safeguarding the health of people from environmental threats; providing leadership in the use of environmental health sciences-including environmental epidemiology, environmental sanitation, and laboratory sciences-to protect public health; and responding to issues and sharing solutions to environmental health problems worldwide. To accomplish the above, the CDC: (1) conducts surveillance and investigations that increase the knowledge about the relation between human health and environmental threats; (2) uses this knowledge to develop national public health programs and policies to prevent or control public health problems; (3) plans, prepares, and responds to emergencies, including terrorist threats, technologic accidents, and natural disasters; (4) provides direct service delivery to partners engaged in environmental health services such as food, safety, rodent control, water quality, and sanitation; (5) develops and applies laboratory science to prevent disease and death caused by exposure to environmental chemicals and to improve the diagnosis, treatment, and prevention of selected chronic diseases; (6) conducts Biomonitoring to assess individual human exposure to environmental chemicals by measuring them in human specimens (e.g. blood and urine); and, (7) conducts activities on emerging environmental threats such as climate change and the built environment.

State Vital Statistics Improvement Program	93.066	Department of Health and Human Services	HSA16075	101.6	47.9	47.9	²

To improve the timeliness, quality and sustainability of the de-centralized vital statistics system by adopting nationally-developed, consensus standards and guidelines; by actively working with states to re-engineer their state-owned and operated systems using these standards/guidelines; and by improving the efficiency of business operations of state vital statistics programs. Working collaboratively between State and Federal agencies, the goal is to facilitate the development and implementation of re-engineered systems in all 57 registration areas. These will be systems that can: (1) provide quality and timely data for public health surveillance and medical research; (2) meet citizen needs for legal copies of their birth and death records, including providing paper copies of records to citizens for their immediate legal or personal use, and at citizens' request, transferring records electronically to local, State or Federal agencies to satisfy an agency's need for a record; meet Federal agencies' needs for record verification and authentication; (3) result in comparable vital registration/statistics systems in each state; (4) use national standards and guidelines, including the 2003 revision of the U.S. Standard Certificates of Birth and Death and the Report of Fetal Death, the ICD-10 classification system, the FIPS geographic coding scheme, and the standard HL-7 vital events messaging; (5) support national security and privacy requirements; (6) integrate or harmonize easily with other public health systems such as Public Health Information Network (PHIN), immunization registries, and newborn screening, and (7) use Internet technology.

Centers for Disease Control and Prevention_Investigations and Technical Assistance	93.283	Department of Health and Human Services	HSA16079	694.6	695.4	695.4	⁶

To assist State and local health authorities and other health related organizations in controlling communicable diseases, chronic diseases and disorders, and other preventable health conditions. Investigations and evaluation of all methods of controlling or preventing disease and disability are carried out by providing epidemic aid, surveillance, technical assistance, consultation, and program support; and by providing leadership and coordination of joint national, State, and local efforts. STEPS- To enable communities to reduce the burden of chronic disease, including: preventing diabetes among populations with pre-diabetes; increasing the likelihood that persons with undiagnosed diabetes are diagnosed; reducing complications of diabetes; preventing overweight and obesity; reducing overweight and obesity; and reducing the complications of asthma. STEPS will achieve these outcomes by improving nutrition; increasing physical activity; preventing tobacco use and exposure, targeting adults who are diabetic or who live with persons with asthma; increasing tobacco cessation, targeting adults who are diabetic or who live with persons with asthma; increasing use of appropriate health care services; improving the quality of care; and increasing effective self-management of chronic diseases and associated risk factors. REACH - REACH U.S. supports community coalitions that design, implement, evaluate, and disseminate community-driven strategies to eliminate health disparities Racial and ethnic groups targeted include: African American/Black, American Indian/Alaska Native, Asian, Native Hawaiian/Other Pacific Islander, and Hispanic/Latino. Health priority areas include: breast and cervical cancer; cardiovascular disease; diabetes mellitus; adult/older adult immunization, hepatitis B, and/or tuberculosis; asthma; and infant mortality.

Vulnerable Populations: The purpose of this program is to reduce morbidity, premature mortality, and eliminate health disparities associated with diabetes. This will be done by funding organizations to mobilize community partners and assist them to effectively plan, develop, implement, and evaluate community-based interventions to reduce the risk factors that influence the disproportionate burden of diabetes in vulnerable populations borne by many communities in regions across the country.

PPHF 2012 - Prevention and Public Health Fund (Affordable Care Act) - Capacity Building Assistance to Strengthen Public Health Immunization Infrastructure and Performance financed in part by 2012 Prevention and Public Health Funds	93.539	Department of Health and Human Services	HSA16090	4,669.7	4,669.9	0.0	2, 6

Program activities under this funding will support efforts to transition immunization programs supported by Section 317 funding to the healthcare environment being transformed by the Affordable Care Act (ACA). Section 317 grantees manage the public health force that implements and supports immunization practices in the public and private sectors. Additionally, the importance of monitoring the effectiveness and impact of vaccines is critical for maintaining an immunization program that is scientifically and programmatically sound. The specific objectives may include but are not limited to: 1. Enhance interoperability between electronic health records and immunization information systems and reception of Health Level 7 (HL7) standard messages into IIS. 2. Develop a vaccine ordering module in an immunization information system that interfaces with CDC's VTrckS vaccine ordering and management system. 3. Develop and/or implement strategic plans for billing for immunization services in health department clinics to enable programs to increase program revenue, reach additional populations, provide recommended vaccines that are not currently offered, and address under-vaccinated populations. 4. Plan and implement adult immunization programs to improve adult immunization rates by establishing collaborations with employers and pharmacies and other healthcare entities to expand adult vaccination activities. 5. Enhance the sustainability of school-located vaccination (SLV) to make SLV programs successful, efficient, and sustainable through new technologies and innovative systems and third-party payer billing to recover program costs. 6. Increase Human Papillomavirus (HPV) vaccination coverage rates among adolescents.

To assist institutions and organizations, to establish, expand, and improve research, demonstration, education and information dissemination activities; acquired immunodeficiency syndrome (AIDS), biologics, blood and blood products, therapeutics, vaccines and allergenic projects; drug hazards, human and veterinary drugs, clinical trials on drugs and devices for orphan products development; nutrition, sanitation and microbiological hazards; medical devices and diagnostic products, radiation emitting devices and materials; food safety and food additives. These programs are supported directly or indirectly by the following Centers and Offices: Center for Biologics Evaluation and Research (CBER); Center for Drug Evaluation and Research (CDER); Center for Devices and Radiological Health (CDRH); Center for Veterinary Medicine (CVM), Center for Food Safety and Applied Nutrition (CFSAN), National Center for Toxicological Research (NCTR), the Office of Orphan Products Development (OPD), the Center for Tobacco Products (CTP), and Office of Regulatory Affairs (ORA), and the Office of the Commissioner (OC). Small Business Innovation Research (SBIR) Programs: to stimulate technological innovation; to encourage the role of small business to meet Federal research and development needs; to increase private sector commercialization of innovations derived from Federal research and development; and to foster and encourage participation by minority and disadvantaged persons in technological innovation. Funding support for scientific conferences that are relevant to the FDA scientific mission and public health are also available.

<u>Performance Measures</u>	<u>2017</u>	<u>2018</u>	<u>2019</u>
Percentage of funding utilized in the budget period (Funding Utilization Ratio)	93%	77%	77%
The funding utilization ratio is used to measure the administrative efficiency of the grant. The ratio compares the percentage of grant expenditure and encumbrance as of the fiscal year end with the percentage of budget period elapsed by the end of fiscal year.

Assistance Programs for Chronic Disease Prevention and Control	93.945	Department of Health and Human Services	HSA16104	1,595.8	1,598.3	1,598.3	⁶

To work with State health agencies and other public and private nonprofit organizations in planning, developing, integrating, coordinating, or evaluating programs to prevent and control chronic diseases; assist in monitoring the major behavioral risks associated with the 10 leading causes of premature death and disability in the United States including cardiovascular diseases; and, establish new chronic disease prevention programs like Racial and Ethnic Approaches to Community Health (REACH), State Nutrition, Physical Activity and Obesity Programs (NPAO)

DP08-819/DP13-1317: Purpose - The purpose of the program is to 1) support community use of traditional foods and sustainable ecological approaches for diabetes prevention and health promotion in American Indian and Alaska Native communities; and 2) engage communities in identifying and sharing the stories of healthy traditional ways of eating, being active, and communicating health information and support for diabetes prevention and wellness.

CDC-RFA-DP13-1305, State Public Health Actions to Prevent and Control Diabetes, Heart Disease, Obesity and Associated Risk Factors and Promote School Health, supports statewide implementation of cross-cutting approaches to promote health and prevent and control chronic diseases and their risk factors. Four chronic disease prevention programs (Diabetes; Heart Disease and Stroke Prevention; Nutrition, Physical Activity, and Obesity; and School Health) are included in this FOA. State Health Departments are funded under this FOA to address the following goals:

Short/Intermediate Term Goals:

- Improve state, community, worksite, school, and early childhood environments to promote and reinforce healthful behaviors across the lifespan related to diabetes, cardiovascular health, physical activity, healthful foods and beverages, obesity, and breastfeeding;
- Improve effective delivery and use of quality clinical and other preventive services aimed at preventing and managing diabetes and hypertension; and
- Increase community-clinical linkages to support prevention, self-management, and control of diabetes, hypertension, and obesity.

Long Term Goals:

- Improved prevention and control of hypertension
- Improved prevention and control of diabetes
- Improved prevention and control of overweight and obesity

Assistance Programs for Chronic Disease Prevention and Control	93.945	Department of Health and Human Services	HSA16104	1,595.8	1,598.3	1,598.3	⁶

The FOA has two components: 1) A basic non-competitive component to support health promotion, epidemiology, and surveillance activities and targeted strategies that will result in measurable impacts to address school health, nutrition and physical activity risk factors, obesity, diabetes, and heart disease and stroke prevention in all 50 states and the District of Columbia. These efforts will be supported by core public health activities such as partnership engagement, workforce development, guidance and support for programmatic efforts, strategic communication, surveillance and epidemiology, and evaluation; and 2) A competitive enhanced component to build on and extend the activities supported with basic funding to achieve even greater reach and impact. Thirty-two states were funded under the enhanced Component to implement evidence and practice-based interventions to improve physical activity and nutrition, reduce obesity, and prevent and control diabetes, heart disease, and stroke with a focus on high blood pressure. The enhanced component includes implementation of evidence-based strategies that are more extensive and wider-reaching than those implemented in the basic component. States funded for this enhanced component must implement interventions at scale in order to reach large segments of the population in the state (e.g., through school districts, early care and education (ECEs), worksites, and state and local governmental agencies) and in partnership with organizations that may or may not have worked with state departments of health in the past (e.g., large employers, public housing, the education sector, health insurers, and large health systems).

The PHEP program is a critical source of funding, guidance, and technical assistance for state, territorial, and local public health departments. Preparedness activities funded by the PHEP program are targeted specifically for the development of emergency-ready public health departments that are flexible and adaptable. These efforts support the National Response Framework (NRF), which guides how the nation responds to all types of hazards including infectious disease outbreaks; natural disasters; biological, chemical, and radiological incidents; and explosions.

To help public health departments with their strategic planning, CDC identified 15 public health preparedness capabilities to serve as national public health preparedness standards. State and local jurisdictions can use CDC's Public Health Preparedness Capabilities: National Standards for State and Local Planning to better organize their work and identify the capabilities they have the resources to build or sustain. These standards help ensure that federal preparedness funds are directed to priority areas within individual jurisdictions.

The 2012 PHEP program is currently funded via a joint cooperative agreement award and aligned with the Hospital Preparedness Program (HPP). PHEP program guidance assists the 62 PHEP awardees in demonstrating measurable and sustainable progress toward achieving the 15 public health preparedness capabilities and other activities that promote safer and more resilient communities.

To bring public health and epidemiologic principles together to identify, clarify, and reduce the impact of complex environmental threats, including terrorist threats and natural disasters, on populations, domestic and foreign. These programs and activities focus on safeguarding the health of people from environmental threats; providing leadership in the use of environmental health sciences-including environmental epidemiology, environmental sanitation, and laboratory sciences-to protect public health; and responding to issues and sharing solutions to environmental health problems worldwide. To accomplish the above, the CDC: (1) conducts surveillance and investigations that increase the knowledge about the relation between human health and environmental threats; (2) uses this knowledge to develop national public health programs and policies to prevent or control public health problems; (3) plans, prepares, and responds to emergencies, including terrorist threats, technologic accidents, and natural disasters; (4) provides direct service delivery to partners engaged in environmental health services such as food, safety, rodent control, water quality, and sanitation; (5) develops and applies laboratory science to prevent disease and death caused by exposure to environmental chemicals and to improve the diagnosis, treatment, and prevention of selected chronic diseases; (6) conducts Biomonitoring to assess individual human exposure to environmental chemicals by measuring them in human specimens (e.g. blood and urine); and, (7) conducts activities on emerging environmental threats such as climate change and the built environment.

Grant/Project and Description	CFDA	Grantor	AFIS ID	2017 Received	2018 Est. Rev.	2019 Est. Rev.	Footnote(s)
WIC Grants To States (WGS)	10.578	Department of Agriculture	HSA17003	277.6	92.5	370.1	2, 6

To provide grants to WIC State agencies to plan, design and implement WIC electronic benefit transfer (EBT) systems so that Program benefits can be provided electronically. To provide grants to WIC State agencies to fund, implement, and evaluate innovative technology projects that improve WIC services. To provide grants to WIC State agencies to plan, design, implement, enhance or transfer management information (MIS) systems. Please note the following grant activities:

1. WIC EBT Amendments (non-competitive). Grant funds for WIC EBT amendments are provided to WIC State agencies to support on-going EBT planning or implementation projects. These projects were originally funded through a competitive process using WIC technology or American Recovery and Reinvestment Act funds. Many WIC State agencies received only partial funding in their original grant award and amendments provide the additional funds needed to ensure all activities are completed and projects are successful.
2. WIC EBT Implementation (non-competitive). Implementation grant funds are provided to WIC State agencies to enhance and modify current management information systems to support EBT, conduct cost evaluations, and develop retailer management plans.
3. WIC State Agency Model (SAM) Amendments (non-competitive). Grant funds for WIC SAM amendments are provided to support WIC State agencies that are either part of the original SAM consortia, or those that need additional funding to complete implementation of a SAM transfer system. These funds are used by WIC State agencies for implementation completion as well as system enhancements through the SAM user group process.
4. WIC EBT Planning Grants (non-competitive). EBT Planning grants funds are provided to WIC State agencies to assess the feasibility of EBT for their State, as well as to perform a cost analysis to verify EBT affordability. The planning process is a WIC requirement prior to EBT implementation and looks at WIC Information System capabilities, retailer capabilities, and baseline paper cost compared to EBT operational cost within the State to better prepare for the challenges of EBT implementation. WIC State agencies must analyze both on-line and off-line EBT technologies to assess the most cost-effective solution.
5. WIC Technical Innovation Grants (competitive). WIC Technical Innovation grant funds are provided to WIC State agencies for the development of standardized reporting, retailer certification test scripts, and development of a web-based Internet system that will allow WIC participants to access grocer's websites, select WIC approved foods and purchase them with their EBT card from the convenience of their homes.
6. WIC SAM Transfers Grants (non-competitive). SAM Transfer grant funds are provided to WIC State agencies that have completed their planning activities, and have an approved Alternatives Analysis document that justifies a SAM as their choice of system transfer. Funds are used for implementation activities.

7. WIC MIS Amendments (non-competitive). Grant funds for WIC MIS amendments are provided to support WIC State agencies that have already received grant funding for their MIS projects. This includes planning for and transferring of an existing system, or developing a new system.

8. WIC MIS Implementation (non-competitive). WIC MIS Implementation grant funds are provided to WIC State agencies that are implementing a new MIS, or are upgrading/enhancing their current MIS. Activities included are design and development, testing, training and data conversion.

9. WIC MIS Planning (non-competitive). WIC MIS Planning grant funds are provided to WIC State agencies to assess their current system, complete a feasibility study and cost analysis as well as prepare a Request for Proposal for an implementation contractor.

To provide grants to WIC State agencies that improve and/or enhance nutrition services of the WIC program. WIC awards State agencies the following grants:

1. WIC Breastfeeding Peer Counseling Funds (discretionary). WIC Breastfeeding Peer Counseling Funds are intended to enable State agencies to implement or maintain effective breastfeeding peer counselor programs. Combining peer counseling with the on-going breastfeeding promotion efforts in WIC agencies has the potential to significantly impact breastfeeding rates among WIC participants. The Food and Nutrition Service's long-range vision is to institutionalize peer counseling as a core service in WIC.

2. WIC Special Projects Grants (discretionary). WIC Special Projects Grants are awarded to state agencies for special State projects of regional or national significance to improve the services of the program. Current projects focused on FNS' Revitalizing Quality Nutrition Services (RQNS) in WIC initiatives. The goal is to improve and strengthen the effectiveness of WIC nutrition services. Full grants are awarded to States to evaluate ongoing initiatives aimed at improving these services. Full Project grants and WIC Concept Papers grants are awarded to States under the WIC Special Project Funds.

Grant/Project and Description	CFDA	Grantor	AFIS ID	2017 Received	2018 Est. Rev.	2019 Est. Rev.	Footnote(s)
Maternal and Child Health Federal Consolidated Programs	93.110	Department of Health and Human Services	HSA17006	7,998.2	8,015.7	8,015.7	⁶

To carry out special maternal and child health (MCH) projects of regional and national significance; to conduct training and research; to conduct genetic disease testing, counseling, and information development and dissemination programs; for grants relating to hemophilia without regard to age; and for the screening of newborns for sickle cell anemia, and other genetic disorders. and to support comprehensive hemophilia diagnostic and treatment centers. These grants are funded with a set-aside from the MCH Block grant program. SPRANS grants are funded with 15 percent of the Block Grant appropriation of up to \$600 million. When the appropriation exceeds \$600 million, 12.75 percent of the amount over \$600 million is set aside for the Community Integrated Service Systems grants. 15 percent of the balance remaining over \$600 million is also for SPRANS. The CISS program is to develop and expand the following: (1) Home visitation; (2) increased participation of obstetricians and pediatricians; (3) integrated service delivery systems; (4) maternal and child health centers for women and infants, under the direction of a not-for-profit hospital; (5) services for rural populations; and (6) community based services for children with special health care needs in order to enhance or develop an integrated services system. In FY 2008 Congress first funded the Combating Autism Act program, which is for early detection, education and intervention activities on autism and other developmental disorders.

First funded in 2004, the Heritable Disorders Program is established to improve the ability of States to provide newborn and child screening for heritable disorders and affect the lives of all of the nation's infants and children. Newborn and child screening occur at intervals across the life span of every child. Newborn screening universally provides early identification and follow-up for treatment of infants affected by certain genetic, metabolic, hormonal and/or functional conditions. It is expected that newborn and child screening will expand as the capacity to screen for genetic and congenital conditions expands.

First funded in 2009, the Congenital Conditions program is established to provide information and support services to women and their families that have received a diagnosis for Down Syndrome, Spina Bifida, Dwarfism and other prenatally or postnatally diagnosed conditions.

Program activities under this funding will allow for CDC to partner with multiple organizations to benefit individuals by substantially reducing viral hepatitis transmission, identifying those that are acutely and chronically infected, and linking infected individuals with treatment if appropriate. Specifically, the program activities may include but are not limited to:

1. Increasing the proportion of persons living with HCV and HBV who are aware of their infection and referred for prevention and clinical care services.
2. Expanding and improving efforts to develop and disseminate viral hepatitis training and educational materials targeting the public and private sector health care professionals to build capacity to assess, test and medically manage populations at risk for chronic HCV and HBV infection.
3. Supporting state and local health departments and other organizations in linking HCV infected persons to community health centers, clinics serving injection drug users, and other health organizations seeing individuals potentially infected with chronic viral hepatitis.
4. Additional support will be provided for program monitoring, evaluation, capacity building, and technical assistance, along with support for acute and chronic viral hepatitis surveillance.

Special Supplemental Nutrition Program for Women, Infants, and Children	10.557	Department of Agriculture	HSA17009	1,058.9	1,071.7	1,071.7	^{2, 6}

To provide low-income pregnant, breastfeeding and postpartum women, infants, and children to age five who have been determined to be at nutritional risk, supplemental nutritious foods, nutrition education, and referrals to health and social services at no cost. WIC also promotes breastfeeding as the feeding method of choice for infants, provides substance abuse education and promotes immunization and other aspects of healthy living.

The Food and Nutrition Service (FNS) makes funds available to participating State health agencies and Indian Tribal Organizations (ITOs) that, in turn, distribute the funds to participating local agencies. State and local agencies use WIC funds to pay the costs of specified supplemental foods provided to WIC participants, and to pay for specified nutrition services and administration (NSA) costs, including the cost of nutrition assessments, blood tests for anemia, nutrition education, breastfeeding promotion and health care referrals.

PPHF-2012: Health Care Surveillance/Health Statistics – Surveillance Program Announcement: Behavioral Risk Factor Surveillance System Financed in Part by 2012 Prevention and Public Health Funds (PPHF-2012)	93.745	Department of Health and Human Services	HSA17011	51.1	50.4	50.4	2, 6

The purpose of this program is to provide assistance to State and Territorial Health Departments to maintain and expand:

- 1) Specific health surveillance using telephone and multi-mode survey methodology for the behaviors of the general population that contribute to the occurrences and prevention of chronic diseases, injuries, and other public health threats;
- 2) The collection, analysis, and dissemination of BRFSS data to State and Territorial Health Department Categorical Programs for their use in assessing trends, directing program planning, evaluating program priorities, developing policy, and targeting relevant population groups.

Specifically, this program will:

- A. Add six questions specifically on health care access and use to the 2013 Behavioral Risk Factor Surveillance System (BRFSS) survey to measure the effect of ACA on the population;
- B. Increase the BRFSS landline sample size to restore the number of completed interviews achieved to 2011 levels. BRFSS programs should develop plans for increasing their sample size of their 2013 surveys which will increase the number of completed interviews achieved which will increase the precision of estimates in small areas and sub-populations;
- C. Increase the proportion of cell phone interviews completed on the 2013 BRFSS survey to maintain coverage and validity – achieving at least a 25% completed interview rate by cell phone mode.

Special Supplemental Nutrition Program for Women, Infants, and Children	10.557	Department of Agriculture	HSA17014	37,297.9	36,385.8	36,385.8	⁶

To provide low-income pregnant, breastfeeding and postpartum women, infants, and children to age five who have been determined to be at nutritional risk, supplemental nutritious foods, nutrition education, and referrals to health and social services at no cost. WIC also promotes breastfeeding as the feeding method of choice for infants, provides substance abuse education and promotes immunization and other aspects of healthy living.

The Food and Nutrition Service (FNS) makes funds available to participating State health agencies and Indian Tribal Organizations (ITOs) that, in turn, distribute the funds to participating local agencies. State and local agencies use WIC funds to pay the costs of specified supplemental foods provided to WIC participants, and to pay for specified nutrition services and administration (NSA) costs, including the cost of nutrition assessments, blood tests for anemia, nutrition education, breastfeeding promotion and health care referrals.

Domestic Ebola Supplement to the Epidemiology and Laboratory Capacity for Infectious Diseases (ELC).	93.815	Department of Health and Human Services	HSA17028	48.4	5.1	0.0	^{2, 6}
---	---------------	--	----------	------	-----	-----	-----------------

This ELC Competing Supplement addresses priority domestic capacity building around Ebola and other emerging and highly-infectious diseases. The Competing Supplement (1) provides additional resources to accelerate ELC activities around infection control assessment and response, laboratory safety, and global migration, border interventions, and migrant health; and (2) aligns with ELC's existing purpose which is to protect the public health and safety of the American people by enhancing the capacity of public health agencies to effectively detect, respond, prevent and control known and emerging (or re-emerging) infectious diseases. This is accomplished by providing financial and technical resources to (1) strengthen epidemiologic capacity; (2) enhance laboratory capacity; (3) improve information systems; and (4) enhance collaboration among epidemiology, laboratory, and information systems components of public health departments.

WIC Grants To States (WGS)	10.578	Department of Agriculture	HSA17029	950.8	2,403.3	645.8	6

To provide grants to WIC State agencies to plan, design and implement WIC electronic benefit transfer (EBT) systems so that Program benefits can be provided electronically. To provide grants to WIC State agencies to fund, implement, and evaluate innovative technology projects that improve WIC services. To provide grants to WIC State agencies to plan, design, implement, enhance or transfer management information (MIS) systems. Please note the following grant activities:

1. WIC EBT Amendments (non-competitive). Grant funds for WIC EBT amendments are provided to WIC State agencies to support on-going EBT planning or implementation projects. These projects were originally funded through a competitive process using WIC technology or American Recovery and Reinvestment Act funds. Many WIC State agencies received only partial funding in their original grant award and amendments provide the additional funds needed to ensure all activities are completed and projects are successful.
2. WIC EBT Implementation (non-competitive). Implementation grant funds are provided to WIC State agencies to enhance and modify current management information systems to support EBT, conduct cost evaluations, and develop retailer management plans.
3. WIC State Agency Model (SAM) Amendments (non-competitive). Grant funds for WIC SAM amendments are provided to support WIC State agencies that are either part of the original SAM consortia, or those that need additional funding to complete implementation of a SAM transfer system. These funds are used by WIC State agencies for implementation completion as well as system enhancements through the SAM user group process.
4. WIC EBT Planning Grants (non-competitive). EBT Planning grants funds are provided to WIC State agencies to assess the feasibility of EBT for their State, as well as to perform a cost analysis to verify EBT affordability. The planning process is a WIC requirement prior to EBT implementation and looks at WIC Information System capabilities, retailer capabilities, and baseline paper cost compared to EBT operational cost within the State to better prepare for the challenges of EBT implementation. WIC State agencies must analyze both on-line and off-line EBT technologies to assess the most cost-effective solution.
5. WIC Technical Innovation Grants (competitive). WIC Technical Innovation grant funds are provided to WIC State agencies for the development of standardized reporting, retailer certification test scripts, and development of a web-based Internet system that will allow WIC participants to access grocer's websites, select WIC approved foods and purchase them with their EBT card from the convenience of their homes.
6. WIC SAM Transfers Grants (non-competitive). SAM Transfer grant funds are provided to WIC State agencies that have completed their planning activities, and have an approved Alternatives Analysis document that justifies a SAM as their choice of system transfer. Funds are used for implementation activities.

WIC Grants To States (WGS)	10.578	Department of Agriculture	HSA17029	950.8	2,403.3	645.8	⁶

7. WIC MIS Amendments (non-competitive). Grant funds for WIC MIS amendments are provided to support WIC State agencies that have already received grant funding for their MIS projects. This includes planning for and transferring of an existing system, or developing a new system.

8. WIC MIS Implementation (non-competitive). WIC MIS Implementation grant funds are provided to WIC State agencies that are implementing a new MIS, or are upgrading/enhancing their current MIS. Activities included are design and development, testing, training and data conversion.

9. WIC MIS Planning (non-competitive). WIC MIS Planning grant funds are provided to WIC State agencies to assess their current system, complete a feasibility study and cost analysis as well as prepare a Request for Proposal for an implementation contractor.

To provide grants to WIC State agencies that improve and/or enhance nutrition services of the WIC program. WIC awards State agencies the following grants:

1. WIC Breastfeeding Peer Counseling Funds (discretionary). WIC Breastfeeding Peer Counseling Funds are intended to enable State agencies to implement or maintain effective breastfeeding peer counselor programs. Combining peer counseling with the on-going breastfeeding promotion efforts in WIC agencies has the potential to significantly impact breastfeeding rates among WIC participants. The Food and Nutrition Service's long-range vision is to institutionalize peer counseling as a core service in WIC.

2. WIC Special Projects Grants (discretionary). WIC Special Projects Grants are awarded to state agencies for special State projects of regional or national significance to improve the services of the program. Current projects focused on FNS' Revitalizing Quality Nutrition Services (RQNS) in WIC initiatives. The goal is to improve and strengthen the effectiveness of WIC nutrition services. Full grants are awarded to States to evaluate ongoing initiatives aimed at improving these services. Full Project grants and WIC Concept Papers grants are awarded to States under the WIC Special Project Funds.

State Vital Statistics Improvement Program	93.066	Department of Health and Human Services	HSA17052	128.2	22.0	22.0	²

To improve the timeliness, quality and sustainability of the de-centralized vital statistics system by adopting nationally-developed, consensus standards and guidelines; by actively working with states to re-engineer their state-owned and operated systems using these standards/guidelines; and by improving the efficiency of business operations of state vital statistics programs. Working collaboratively between State and Federal agencies, the goal is to facilitate the development and implementation of re-engineered systems in all 57 registration areas. These will be systems that can: (1) provide quality and timely data for public health surveillance and medical research; (2) meet citizen needs for legal copies of their birth and death records, including providing paper copies of records to citizens for their immediate legal or personal use, and at citizens' request, transferring records electronically to local, State or Federal agencies to satisfy an agency's need for a record; meet Federal agencies' needs for record verification and authentication; (3) result in comparable vital registration/statistics systems in each state; (4) use national standards and guidelines, including the 2003 revision of the U.S. Standard Certificates of Birth and Death and the Report of Fetal Death, the ICD-10 classification system, the FIPS geographic coding scheme, and the standard HL-7 vital events messaging; (5) support national security and privacy requirements; (6) integrate or harmonize easily with other public health systems such as Public Health Information Network (PHIN), immunization registries, and newborn screening, and (7) use Internet technology.

The Food and Nutrition Service (FNS) makes funds available to participating State health agencies and Indian Tribal Organizations (ITOs) that, in turn, distribute the funds to participating local agencies. State and local agencies use WIC funds to pay the costs of specified supplemental foods provided to WIC participants, and to pay for specified nutrition services and administration (NSA) costs, including the cost of nutrition assessments, blood tests for anemia, nutrition education, breastfeeding promotion and health care referrals.

Agency: Department of Homeland Security

Grant/Project and Description	CFDA	Grantor	AFIS ID	2017 Received	2018 Est. Rev.	2019 Est. Rev.	Footnote(s)
Homeland Security Grant Program	97.067	Department of Homeland Security	140001	2,218.6	0.0	0.0	2, 6, 8

FY 2012 HSGP and THSGP provide grant funding to assist state and local governments in obtaining the resources required to support the National Preparedness Goal's (NPG's) associated mission areas and core capabilities. FY 2012 THSGP provides funding directly to eligible tribes to help strengthen the nation against risks associated with potential terrorist attacks. The FY 2012 HSGP is comprised of three interconnected grant programs:

- State Homeland Security Program (SHSP): SHSP supports the implementation of State Homeland Security Strategies to address the identified planning, organization, equipment, training, and exercise needs to prevent, protect against, mitigate, respond to, and recover from acts of terrorism and other catastrophic events.
- Urban Areas Security Initiative (UASI): The UASI program addresses the unique planning, organization, equipment, training, and exercise needs of high-threat, high-density Urban Areas, and assists them in building an enhanced and sustainable capacity to prevent, protect against, mitigate, respond to, and recover from acts of terrorism.
- Operation Stonegarden (OPSG): OPSG supports enhanced cooperation and coordination among local, tribal, territorial, State, and Federal law enforcement agencies in a joint mission to secure the United States' borders along routes of ingress from international borders to include travel corridors in States bordering Mexico and Canada, as well as States and territories with international water borders.

All three programs are founded on risk-driven, capabilities-based strategic plans. These strategic plans outline capability requirements and inform how available funding may be applied to manage risk. For these plans to be effective, government officials and elected leaders, working with the whole community, must consider how to sustain current capability levels and address potential shortfalls to prevent, protect, mitigate, respond to, and recover from disasters.

The FY 2013 HSGP plays an important role in the implementation of the National Preparedness System (NPS) by supporting the building, sustainment, and delivery of core capabilities essential to achieving the National Preparedness Goal (NPG) of a secure and resilient Nation. Delivering core capabilities requires the combined effort of the whole community, rather than the exclusive effort of any single organization or level of government. The FY 2013 HSGP's allowable costs support efforts to build and sustain core capabilities across the Prevention, Protection, Mitigation, Response, and Recovery mission areas by setting the following priorities and objectives:

Priority One: Implementation of the NPS and a Whole Community Approach to Homeland Security and Emergency Management

State of Arizona
Federal Operating Budget Detail
(Dollars in Thousands)

Agency: Department of Homeland Security

Grant/Project and Description	CFDA	Grantor	AFIS ID	2017 Received	2018 Est. Rev.	2019 Est. Rev.	Footnote(s)
Homeland Security Grant Program	97.067	Department of Homeland Security	140001	2,218.6	0.0	0.0	2, 6, 8

- Objective One: Completion of the THIRA process in alignment with National Preparedness System guidance to identify the resources required to deliver core capabilities.
- Objective Two: Conduct risk driven, capabilities-based planning through whole community councils and working groups.
- Objective Three: Organization – Typing of equipment, and credentialing and training of personnel.
- Objective Four: Sustaining Capabilities.

Priority Two: Building and Sustaining Law Enforcement Terrorism Prevention Capabilities

- Objective One: Nationwide Suspicious Activity Reporting Initiative (NSI)

Priority Three: Maturation and Enhancement of State and Major Urban Area Fusion Centers

- Objective One: Baseline Capabilities.
- Objective Two: Analytic Capabilities.

The Department of Homeland Security Appropriations Act, 2013 (Public Law 113-6) authorized additional funding allocated at the discretion of the Secretary of the Department Homeland Security, to support appropriated programs in FY 2013. DHS has augmented the SHSP and UASI grant programs in FY 2013 by allocating an additional \$163.4 million to support the following priority areas:

Priority Four: Innovation and Sustained Support for the National Campaign for Preparedness

- Objective One: Foster individual and community preparedness and resilience by identifying needs; mobilizing partners; and creating innovative and effective solutions that can be grown, sustained, and replicated.

Priority Five: Improve Immediate Emergency Victim Care at Mass Casualty Events

- Objective One: Improve emergency care to victims of mass casualty events, including mass shootings.
- Objective Two: Improve community first aid training.

Minimum funding amounts are not prescribed by the Department for these priorities; however grantees are expected to support state, local, and regional efforts in achieving the desired outcomes of one or more of these priorities.

Grant/Project and Description	CFDA	Grantor	AFIS ID	2017 Received	2018 Est. Rev.	2019 Est. Rev.	Footnote(s)
Homeland Security Grant Program	97.067	Department of Homeland Security	170001	0.0	5,382.8	11,262.6	2, 3, 6

- Objective One: Completion of the THIRA process in alignment with National Preparedness System guidance to identify the resources required to deliver core capabilities.
- Objective Two: Conduct risk driven, capabilities-based planning through whole community councils and working groups.
- Objective Three: Organization – Typing of equipment, and credentialing and training of personnel.
- Objective Four: Sustaining Capabilities.

Priority Two: Building and Sustaining Law Enforcement Terrorism Prevention Capabilities

- Objective One: Nationwide Suspicious Activity Reporting Initiative (NSI)

Priority Three: Maturation and Enhancement of State and Major Urban Area Fusion Centers

- Objective One: Baseline Capabilities.
- Objective Two: Analytic Capabilities.

The Department of Homeland Security Appropriations Act, 2013 (Public Law 113-6) authorized additional funding allocated at the discretion of the Secretary of the Department Homeland Security, to support appropriated programs in FY 2013. DHS has augmented the SHSP and UASI grant programs in FY 2013 by allocating an additional \$163.4 million to support the following priority areas:

Priority Four: Innovation and Sustained Support for the National Campaign for Preparedness

- Objective One: Foster individual and community preparedness and resilience by identifying needs; mobilizing partners; and creating innovative and effective solutions that can be grown, sustained, and replicated.

Priority Five: Improve Immediate Emergency Victim Care at Mass Casualty Events

- Objective One: Improve emergency care to victims of mass casualty events, including mass shootings.
- Objective Two: Improve community first aid training.

Minimum funding amounts are not prescribed by the Department for these priorities; however grantees are expected to support state, local, and regional efforts in achieving the desired outcomes of one or more of these priorities.

Non-Profit Security Program	97.008	Department of Homeland Security	170005	0.0	225.0	450.0	2, 3, 6

The FY 2013 NSGP provides \$10,000,000 in funding support for target hardening and other physical security enhancements and activities to nonprofit organizations that are at high risk of terrorist attack and located within one of the specific UASI-eligible Urban Areas. While this funding is provided specifically to high-risk nonprofit organizations under The Department of Homeland Security Appropriations Act, 2013 (Public Law 113-6), the program seeks to integrate nonprofit preparedness activities with broader State and local preparedness efforts. It is also designed to promote coordination and collaboration in emergency preparedness activities among public and private community representatives, as well as State and local government agencies.

The FY 2013 NSGP plays an important role in the implementation of the National Preparedness System (NPS) by supporting the development and sustainment of core capabilities. Core capabilities are essential for the execution of each of the five mission areas outlined in the National Preparedness Goal (NPG). Delivering core capabilities requires the combined effort of the whole community, rather than the exclusive effort of any single organization or level of government. The FY 2013 NSGP's allowable costs support efforts to build and sustain core capabilities across the Prevention, Protection, Mitigation, Response, and Recovery mission areas.

Examples of tangible outcomes from the FY 2013 NSGP include strengthening emergency management capabilities through

- Building and sustaining core capabilities
- Strengthening governance integration
- Whole community approach to security and emergency management.

Continuum of Care Program	14.267	Department of Housing and Urban Development	141205	5,237.8	5,044.3	5,260.0	⁶

The program is designed to promote community-wide commitment to the goal of ending homelessness; provide funding for efforts by nonprofit providers, States, and local governments to quickly re-house homeless individuals and families while minimizing the trauma and dislocation caused to homeless individuals, families, and communities by homelessness; promote access to and effective utilization of mainstream programs by homeless individuals and families; and optimize self-sufficiency among individuals and families experiencing homelessness. Continuum of Care Program funds may be used to pay for the eligible costs used to establish and operate projects under five program components: (i) permanent housing, which includes permanent supportive housing for persons with disabilities, and rapid rehousing; (ii) transitional housing; (iii) supportive services only; (iv) Homeless Management Information Systems (HMIS), and (v) in some cases, homelessness prevention.

<u>Grant/Project and Description</u>	<u>CFDA</u>	<u>Grantor</u>	<u>AFIS ID</u>	<u>2017 Received</u>	<u>2018 Est. Rev.</u>	<u>2019 Est. Rev.</u>	<u>Footnote(s)</u>
Section 8 Housing Choice Vouchers	14.871	Department of Housing and Urban Development	777094	1,359.6	1,495.5	1,540.3	

To aid very low income families in obtaining decent, safe, and sanitary rental housing. For Fair Share Vouchers and Welfare-to-Work Vouchers, Public Housing Agencies (PHA) must meet certain selection criteria. For Welfare-to-Work rental vouchers, families must also meet special welfare-to-work criteria. HUD regulations merged the former Section 8 Rental Voucher program (14.855) with the former Section 8 Certificate program (14.857). Section 502 of the Public Housing Reform Act states that a purpose of the legislation is 'consolidating the voucher and certificate programs for rental assistance under Section 8 of the United States Housing Act of 1937 (the 'USHA') into a single market-driven program that will assist in making tenant-based rental assistance more successful at helping low-income families obtain affordable housing and will increase housing choice for low-income families'.

<u>Performance Measures</u>	<u>2017</u>	<u>2018</u>	<u>2019</u>
Number of low-income households assisted with monthly rental subsidies.	215	212	236
Number of low-income households (typically below 30 percent of the area median income) assisted with monthly rental subsidy assistance payments. Typically households pay 30 percent of their total household income towards rent payments, with the subsidy payment paying the different between the market rent and the assisted household's contribution, allowing very low-income households to have funding available for other critical needs such as food, medicine and other ongoing needs.			
Dollar amounts provided as rental subsidies to low-income renters.	1,142.8	1,187.1	1,337.2
Dollar amounts provided as rental subsidies to low-income renters assisted with monthly rental subsidies, making their housing more affordable.

National Foreclosure Mitigation Counseling Program	21.000	Neighborworks America	860000	126.7	0.0	0.0	2, 6, 10

<u>Performance Measures</u>	<u>2017</u>	<u>2018</u>	<u>2019</u>
Number of households assisted with mortgage foreclosure counseling.	3,189		0
Number of households assisted with mortgage foreclosure counseling. Assistance begins with a call to a toll-free hotline number that connects homeowners with a nonprofit counseling agency in their area. Homeowners are provided extensive one-on-one counseling to assess their individual situation and to arrive at a plan best suited for their situation. Some homebuyers are assisted with work-outs with their mortgage lenders whenever possible. Homeowners who determine that foreclosure is inevitable are assisted with suggestions for other housing alternatives when needed. Numbers are expected to go down as the foreclosure rate drops and funding for this service is reduced to zero by 2018.

Foster Care_Title IV-E	93.658	Department of Health and Human Services	001953	356.5	350.0	350.0	²

The Title IV-E Foster Care program helps States, Indian Tribes, Tribal organizations and Tribal consortia (Tribes) to provide safe and stable out-of-home care for children under the jurisdiction of the State or Tribal child welfare agency until the children are returned home safely, placed with adoptive families, or placed in other planned arrangements for permanency. The program provides funds to assist with the costs of foster care maintenance for eligible children; administrative costs to manage the program; and training for public agency staff, foster parents and certain private agency staff. In addition, \$3 million is reserved for technical assistance and plan development/implementation grants to eligible Tribes, beginning in fiscal year 09.

<u>Performance Measures</u>	<u>2017</u>	<u>2018</u>	<u>2019</u>
Amount of Federal Funds received annually.	361.720	356,500	350,000
Maximize amount of eligible expenditures for federal cost participation.			

Improving Teacher Quality State Grants	84.367	Department of Education	003403	(0.5)	0.0	0.0	^{2, 6, 7}
---	---------------	------------------------------------	--------	-------	-----	-----	--------------------

To provide grants to State educational agencies (SEAs), local educational agencies (LEAs), State agencies for higher education (SAHEs) and, though SAHEs, to eligible partnerships in order to increase student academic achievement through such strategies as improving teacher and principal quality and increasing the number of highly qualified teachers in the classroom.

<u>Performance Measures</u>	<u>2017</u>	<u>2018</u>	<u>2019</u>
Number of Education Staff Receiving Professional Development Support	65		
To administer and distribute Title II-A funding for professional development for detention education staff

Grant/Project and Description	CFDA	Grantor	AFIS ID	2017 Received	2018 Est. Rev.	2019 Est. Rev.	Footnote(s)
State Court Improvement Program	93.586	Department of Health and Human Services	003437	588.6	597.4	597.4	⁶

The program provides three grant opportunities to State courts to improve court efficiency and the quality of legal representation; a basic grant for assessment work; a grant for data collection and analysis; and a grant to increase training of court personnel, including cross training with agency staff. The program provides State courts flexibility to design assessments which identify barriers to timely and effective decision-making, highlight practices which are not fully successful, examine areas they find to be in need of correction or added attention, and then implement reforms which address the State courts specific needs. State courts are required to collaborate with the State child welfare agency and Tribes in this work. The Child and Family Services Improvement and Innovation Act (P.L. 112-34) of 2011, reauthorized all three Court Improvement Program (CIP) grants through fiscal year (FY) 2016. The Act added provisions encouraging State courts to promote the use of concurrent planning and increases and improve engagement of the entire family in court processes relating to child welfare, family preservation, family reunification and adoption. The Act also allocated one million dollars to establish a Tribal Court Improvement Program.

<u>Performance Measures</u>	<u>2017</u>	<u>2018</u>	<u>2019</u>
Percent of Petitions in which a Permanent Plan was Initiated within 12 months of the initial date	85%	90%	90%
Goal is to reduce the time frame from removal to permanency.			
Pursuant to ARS 8-862(A)(3), the court is to hold this hearing within 12 months of the child's removal from the home. The court determines the most appropriate permanent plan at this hearing. Since some courts hold more than one type of hearing at the same calendared time (e.g.. Review and Permanency), tracking initiation date of the permanent plan is more reliable in determining whether the Permanency Hearing is being held within the 12 month window.

Grant/Project and Description	CFDA	Grantor	AFIS ID	2017 Received	2018 Est. Rev.	2019 Est. Rev.	Footnote(s)
NICS Act Record Improvement Program	16.813	Department of Justice	034242	64.7	3.2	0.0	2, 6, 8

To improve the FBI's National Instant Criminal Background Check System (NICS) by providing assistance to states to improve the completeness, automation and transmittal to state and federal systems the records utilized by the NICS. Such records include criminal history records, records of felony convictions, warrants, records of protective orders, convictions for misdemeanor involving domestic violence and stalking, records of mental health adjudications, and others, which may disqualify an individual from possessing or receiving a firearm under federal law. Helping states to automate these records will also reduce delays for law-abiding gun purchasers.

The NICS Improvement Act amends the Brady Handgun Violence Prevention Act of 1993 ("the Brady Act") (Public Law 103-159), under which the Attorney General established NICS. The Brady Act requires Federal Firearms Licensees (FFLs) to contact the NICS before transferring a firearm to an unlicensed person for information on whether the proposed transferee is prohibited from receiving or possessing a firearm under state or federal law. The NICS Improvement Act was enacted in the wake of the April 2007 shooting tragedy at Virginia Tech. The Virginia Tech shooter was able to purchase firearms from an FFL because information about his prohibiting mental health history was not available to the NICS and the system was therefore unable to deny the transfer of the firearms used in the shootings.

The Act seeks to address the gap in information available to NICS about such prohibiting mental health adjudications and commitments and other prohibiting backgrounds. Filling these information gaps will better enable the system to operate as intended to keep guns out of the hands of persons prohibited by federal or state law from receiving or possessing firearms.

The Act authorized two grant programs to assist states in providing certain information to the NICS, and prescribes grant penalties for non-compliance with the Act's record completeness goals. Pursuant to the Act, there are certain conditions, described below, that a state must satisfy in advance of receiving grants under the Act. The NICS Improvement Act has provisions that require states to meet specified goals for completeness of the records submitted to the Attorney General on individuals prohibited by federal law from possessing firearms. The records covered include automated information needed by the NICS to identify felony convictions, felony indictments, fugitives from justice, drug arrests and convictions, prohibiting mental health adjudications and commitments, domestic violence protection orders, and misdemeanor crimes of domestic violence.

The Act provides for a number of incentives for states to meet the goals it sets for greater record completeness. First, the Act allows states to obtain a waiver, beginning in 2011, of the state matching requirement under the National Criminal

--------------------------------	---------------	------------------------------	--------	------	------	-----	---------

Enacted in 1984, the Victims of Crime Act (VOCA) is the central source of federal financial support for direct services to victim of crime. VOCA is administered at the federal level through the U.S. Department of Justice, Office for Victims of Crime which annually awards a grant to each state, the District of Columbia and U.S. Territories to support victim assistance services for victims and survivors of domestic violence, sexual assault, child abuse, drunk driving, homicide, and other crimes. Each state has a designated VOCA assistance agency to administer VOCA grants. Those state agencies in turn, subgrant to organizations that provide direct services to victims of crime. While minimal federal requirements must be met, each state is given great discretion in awarding specific subgrants.

AmeriCorps	94.006	Corporation for National and Community Service	034253	2.3	10.3	0.0	^{2, 6}

For more than fifteen years, the Corporation for National and Community Service—through its Senior Corps, AmeriCorps, and Learn and Serve America programs—has mobilized a new generation of engaged citizens. This year, more than 1.8 million individuals of all ages and backgrounds will serve through these programs. They will help thousands of national and community non-profit organizations, faith-based groups, schools, and local agencies meet local needs in education, the environment, health, veterans, economic opportunity, and other critical areas.

AmeriCorps grants are awarded to eligible organizations that identify an unmet need in their community that will be addressed by AmeriCorps members that the organization recruits, trains, and manages. An AmeriCorps member is an individual who is enrolled in an approved national service position and engages in community service. Members may receive a living allowance and other benefits while serving. Upon successful completion of their service, members receive an education award from the National Service Trust.

AmeriCorps grant funding is distributed to Governor-appointed State Commissions and multi-state grantees. State Commissions award subgrants to organizations in their states, and the multi-state grantees work through operating sites in more than one state. These organizations recruit AmeriCorps members to respond to local needs.

Additional funding opportunities are available to existing AmeriCorps Programs under the American Recovery and Reinvestment Act (Recovery Act) funds to utilize service and volunteerism to stimulate the economy and meet the needs of those negatively impacted by the current economic crisis. Through AmeriCorps Recovery grants, individuals currently unemployed will gain work experience and valuable skills, and nonprofit organizations and communities negatively affected by the economic crisis will gain critical human resources. Eligible activities include providing job counseling and skills training to the unemployed, constructing or rehabilitating housing, assisting nonprofits facing increased need and decreased resources, recruiting volunteers, making housing resource referrals for and providing legal services to those experiencing eviction or foreclosure, connecting children and families to health care, and allowing after-school centers that have lost funding to stay open.

Title I State Agency Program for Neglected and Delinquent Children and Youth	84.013	Department of Education	17010	206.0	206.0	206.0	^{2, 6}

To help provide educational continuity for neglected and delinquent children and youth in State-run institutions for juveniles and in adult correctional institutions, so that these youth can make successful transitions to school or employment once they are released.

<u>Performance Measures</u>	<u>2017</u>	<u>2018</u>	<u>2019</u>
Overall grade level increase in reading achievement for children in secure care.	2.0 grades		2.6 grades
Money will be spent on additional teachers (three) and additional transitional coordinators (two). Evaluation of how many Title I students improved their test scores and were transitioned successfully to the community.			

Crime Victim Assistance	16.575	Department of Justice	DJA17003	48.9	48.9	48.9	^{2, 6}
--------------------------------	---------------	------------------------------	----------	------	------	------	-----------------

Enacted in 1984, the Victims of Crime Act (VOCA) is the central source of federal financial support for direct services to victim of crime. VOCA is administered at the federal level through the U.S. Department of Justice, Office for Victims of Crime which annually awards a grant to each state, the District of Columbia and U.S. Territories to support victim assistance services for victims and survivors of domestic violence, sexual assault, child abuse, drunk driving, homicide, and other crimes. Each state has a designated VOCA assistance agency to administer VOCA grants. Those state agencies in turn, subgrant to organizations that provide direct services to victims of crime. While minimal federal requirements must be met, each state is given great discretion in awarding specific subgrants.

<u>Performance Measures</u>	<u>2017</u>	<u>2018</u>	<u>2019</u>
Percent of victims who report satisfaction with restorative services received from the Department.	100%	100	100%
Assist victims to understand and participate in the restorative justice process.

Highway Planning and Construction	20.205	Department of Transportation	A20000	0.0	0.0	0.0	^{2, 6}

Federal-aid Highway Program: To assist State transportation agencies in the planning and development of an integrated, interconnected transportation system important to interstate commerce and travel by constructing and rehabilitating the National Highway System (NHS), including the Eisenhower Interstate System; for transportation improvements to many other public roads; to provide aid for the repair of Federal-aid highways following disasters; to foster safe highway design; to replace or rehabilitate deficient or obsolete bridges; and to provide for other special purposes. This program also provides for the improvement of roads in Puerto Rico, Guam, the U.S. Virgin Islands, American Samoa, and the Commonwealth of the Northern Mariana Islands. The Federal Lands Transportation Program (FLTP) provides assistance to the Federal Land Management Agencies (FLMAs) for Federally-owned roads and trails. It provides transportation engineering services and funding for planning, design, construction, and rehabilitation of the highways and bridges providing access to and on federally owned lands. The Federal Lands Highway organization also provides training, technology, deployment, engineering services, and products to other customers.

Environmental Quality and Protection Resource Management	15.236	Department of the Interior	MIA15002	421.9	83.3	0.0	2, 6

To provide financial assistance, through grants or cooperative agreements as a partnership to reduce or remove pollutants in the environment for the protection of human health, water and air resources; to restore damaged or degraded watersheds; and to respond to changing climate. Objectives are implemented through core programs such as: the Abandoned Mine Land program which addresses physical safety hazards and water quality through restoration of abandoned hardrock mines; the Hazard Management and Resource Restoration, also known as Hazmat program, which remediates sites impacted by hazardous materials and illegal activities, coordinates emergency response actions, and ensures the Bureau of Land Management facilities and operations comply with applicable environmental regulations; and the Soil, Water and Air (SWA) program which develops guidance for land use plans and plan implementation. The Soil, Water, and Air program also assures that fundamental resources are inventoried and assessed, managed, and monitored to support appropriate management response to public land conditions. For Recovery and Reinvestment Act funded projects additional objectives include: To preserve and create jobs and promote economic recovery; to assist those most impacted by the recession; to provide investments needed to increase economic efficiency by spurring technological advances in science and health; to invest in transportation, environmental protection, and other infrastructure that will provide long-term economic benefits; and to stabilize State and local government budgets, in order to minimize and avoid reductions in essential services and counterproductive state and local tax increases.

<u>Performance Measures</u>	<u>2017</u>	<u>2018</u>	<u>2019</u>
Conduct a review of the BLM administered real estate in the State of Arizona to locate the mitigate abandoned mines features.	126	265	126
1. Document the location of abandoned mines on and adjacent to BLM administered lands;			
2. Document the features and conduct a hazard analysis;			
3. Mitigate unsecured abandoned mine features;			
4. Determine mining claimants and issue notices of violation of unsecured features on abandoned BLM land.

<u>Performance Measures</u>		<u>2017</u>	<u>2018</u>	<u>2019</u>			
Nursing assistant candidates taking certification exam.		3617	4939	5000			
The annual number of individuals who have completed the nursing assistant training program that take the exam for certification (to be placed on the 'registry').							
Total number of CNA programs surveyed.		66	58	60			
Annually, how many CNA. training programs were surveyed by the Nursing Board.							
Total applications received (Initial, Renewal)		14809	13458	13500			
Total annual number of initial and renewal applications for nursing assistant certification/licensing.							
Percent of applications or certificate/license holders reporting very good or excellent service.		69	83	70			
Customer service rating for the CNA/LNA program.							
Average calendar days from receipt of completed application to denial of certification/licensing.		352	330	300			
Average calendar days to process an application to determine not to certify/license an applicant.							
Exam and endorsement certificates issued		3058	4939	4039			
The total number of nursing assistant certificates passed exam in Arizona and were initially issued a certificate and for individuals new to the state that hold a certificate in another state.

AmeriCorps	94.006	Corporation for National and Community Service	491503	0.0	0.0	0.0	2, 6

For more than fifteen years, the Corporation for National and Community Service—through its Senior Corps, AmeriCorps, and Learn and Serve America programs—has mobilized a new generation of engaged citizens. This year, more than 1.8 million individuals of all ages and backgrounds will serve through these programs. They will help thousands of national and community non-profit organizations, faith-based groups, schools, and local agencies meet local needs in education, the environment, health, veterans, economic opportunity, and other critical areas.

AmeriCorps grants are awarded to eligible organizations that identify an unmet need in their community that will be addressed by AmeriCorps members that the organization recruits, trains, and manages. An AmeriCorps member is an individual who is enrolled in an approved national service position and engages in community service. Members may receive a living allowance and other benefits while serving. Upon successful completion of their service, members receive an education award from the National Service Trust.

AmeriCorps grant funding is distributed to Governor-appointed State Commissions and multi-state grantees. State Commissions award subgrants to organizations in their states, and the multi-state grantees work through operating sites in more than one state. These organizations recruit AmeriCorps members to respond to local needs.

Additional funding opportunities are available to existing AmeriCorps Programs under the American Recovery and Reinvestment Act (Recovery Act) funds to utilize service and volunteerism to stimulate the economy and meet the needs of those negatively impacted by the current economic crisis. Through AmeriCorps Recovery grants, individuals currently unemployed will gain work experience and valuable skills, and nonprofit organizations and communities negatively affected by the economic crisis will gain critical human resources. Eligible activities include providing job counseling and skills training to the unemployed, constructing or rehabilitating housing, assisting nonprofits facing increased need and decreased resources, recruiting volunteers, making housing resource referrals for and providing legal services to those experiencing eviction or foreclosure, connecting children and families to health care, and allowing after-school centers that have lost funding to stay open.

Homeland Security Grant Program	97.067	Department of Homeland Security	617000	0.0	0.0	0.0	2, 6

FY 2012 HSGP and THSGP provide grant funding to assist state and local governments in obtaining the resources required to support the National Preparedness Goal's (NPG's) associated mission areas and core capabilities. FY 2012 THSGP provides funding directly to eligible tribes to help strengthen the nation against risks associated with potential terrorist attacks. The FY 2012 HSGP is comprised of three interconnected grant programs:

- State Homeland Security Program (SHSP): SHSP supports the implementation of State Homeland Security Strategies to address the identified planning, organization, equipment, training, and exercise needs to prevent, protect against, mitigate, respond to, and recover from acts of terrorism and other catastrophic events.
- Urban Areas Security Initiative (UASI): The UASI program addresses the unique planning, organization, equipment, training, and exercise needs of high-threat, high-density Urban Areas, and assists them in building an enhanced and sustainable capacity to prevent, protect against, mitigate, respond to, and recover from acts of terrorism.
- Operation Stonegarden (OPSG): OPSG supports enhanced cooperation and coordination among local, tribal, territorial, State, and Federal law enforcement agencies in a joint mission to secure the United States' borders along routes of ingress from international borders to include travel corridors in States bordering Mexico and Canada, as well as States and territories with international water borders.

All three programs are founded on risk-driven, capabilities-based strategic plans. These strategic plans outline capability requirements and inform how available funding may be applied to manage risk. For these plans to be effective, government officials and elected leaders, working with the whole community, must consider how to sustain current capability levels and address potential shortfalls to prevent, protect, mitigate, respond to, and recover from disasters.

The FY 2013 HSGP plays an important role in the implementation of the National Preparedness System (NPS) by supporting the building, sustainment, and delivery of core capabilities essential to achieving the National Preparedness Goal (NPG) of a secure and resilient Nation. Delivering core capabilities requires the combined effort of the whole community, rather than the exclusive effort of any single organization or level of government. The FY 2013 HSGP's allowable costs support efforts to build and sustain core capabilities across the Prevention, Protection, Mitigation, Response, and Recovery mission areas by setting the following priorities and objectives:

Priority One: Implementation of the NPS and a Whole Community Approach to Homeland Security and Emergency Management

State of Arizona

Agency: Department of Public Safety

Grant/Project and Description	CFDA	Grantor	AFIS ID	2017 Received	2018 Est. Rev.	2019 Est. Rev.	Footnote(s)
Homeland Security Grant Program	97.067	Department of Homeland Security	617000	0.0	0.0	0.0	^{2, 6}

- Objective One: Completion of the THIRA process in alignment with National Preparedness System guidance to identify the resources required to deliver core capabilities.
- Objective Two: Conduct risk driven, capabilities-based planning through whole community councils and working groups.
- Objective Three: Organization – Typing of equipment, and credentialing and training of personnel.
- Objective Four: Sustaining Capabilities.

Priority Two: Building and Sustaining Law Enforcement Terrorism Prevention Capabilities

- Objective One: Nationwide Suspicious Activity Reporting Initiative (NSI)

Priority Three: Maturation and Enhancement of State and Major Urban Area Fusion Centers

- Objective One: Baseline Capabilities.
- Objective Two: Analytic Capabilities.

The Department of Homeland Security Appropriations Act, 2013 (Public Law 113-6) authorized additional funding allocated at the discretion of the Secretary of the Department Homeland Security, to support appropriated programs in FY 2013. DHS has augmented the SHSP and UASI grant programs in FY 2013 by allocating an additional \$163.4 million to support the following priority areas:

Priority Four: Innovation and Sustained Support for the National Campaign for Preparedness

- Objective One: Foster individual and community preparedness and resilience by identifying needs; mobilizing partners; and creating innovative and effective solutions that can be grown, sustained, and replicated.

Priority Five: Improve Immediate Emergency Victim Care at Mass Casualty Events

- Objective One: Improve emergency care to victims of mass casualty events, including mass shootings.
- Objective Two: Improve community first aid training.

Minimum funding amounts are not prescribed by the Department for these priorities; however grantees are expected to support state, local, and regional efforts in achieving the desired outcomes of one or more of these priorities.

Homeland Security Grant Program	97.067	Department of Homeland Security	623400	0.0	0.0	0.0	2, 4, 6, 8

FY 2012 HSGP and THSGP provide grant funding to assist state and local governments in obtaining the resources required to support the National Preparedness Goal's (NPG's) associated mission areas and core capabilities. FY 2012 THSGP provides funding directly to eligible tribes to help strengthen the nation against risks associated with potential terrorist attacks. The FY 2012 HSGP is comprised of three interconnected grant programs:

- State Homeland Security Program (SHSP): SHSP supports the implementation of State Homeland Security Strategies to address the identified planning, organization, equipment, training, and exercise needs to prevent, protect against, mitigate, respond to, and recover from acts of terrorism and other catastrophic events.
- Urban Areas Security Initiative (UASI): The UASI program addresses the unique planning, organization, equipment, training, and exercise needs of high-threat, high-density Urban Areas, and assists them in building an enhanced and sustainable capacity to prevent, protect against, mitigate, respond to, and recover from acts of terrorism.
- Operation Stonegarden (OPSG): OPSG supports enhanced cooperation and coordination among local, tribal, territorial, State, and Federal law enforcement agencies in a joint mission to secure the United States' borders along routes of ingress from international borders to include travel corridors in States bordering Mexico and Canada, as well as States and territories with international water borders.

All three programs are founded on risk-driven, capabilities-based strategic plans. These strategic plans outline capability requirements and inform how available funding may be applied to manage risk. For these plans to be effective, government officials and elected leaders, working with the whole community, must consider how to sustain current capability levels and address potential shortfalls to prevent, protect, mitigate, respond to, and recover from disasters.

The FY 2013 HSGP plays an important role in the implementation of the National Preparedness System (NPS) by supporting the building, sustainment, and delivery of core capabilities essential to achieving the National Preparedness Goal (NPG) of a secure and resilient Nation. Delivering core capabilities requires the combined effort of the whole community, rather than the exclusive effort of any single organization or level of government. The FY 2013 HSGP's allowable costs support efforts to build and sustain core capabilities across the Prevention, Protection, Mitigation, Response, and Recovery mission areas by setting the following priorities and objectives:

Priority One: Implementation of the NPS and a Whole Community Approach to Homeland Security and Emergency Management

State of Arizona
Federal Operating Budget Detail
(Dollars in Thousands)

Agency: Department of Public Safety

Grant/Project and Description	CFDA	Grantor	AFIS ID	2017 Received	2018 Est. Rev.	2019 Est. Rev.	Footnote(s)
Homeland Security Grant Program	97.067	Department of Homeland Security	623400	0.0	0.0	0.0	2, 4, 6, 8

- Objective One: Completion of the THIRA process in alignment with National Preparedness System guidance to identify the resources required to deliver core capabilities.
- Objective Two: Conduct risk driven, capabilities-based planning through whole community councils and working groups.
- Objective Three: Organization – Typing of equipment, and credentialing and training of personnel.
- Objective Four: Sustaining Capabilities.

Priority Two: Building and Sustaining Law Enforcement Terrorism Prevention Capabilities

- Objective One: Nationwide Suspicious Activity Reporting Initiative (NSI)

Priority Three: Maturation and Enhancement of State and Major Urban Area Fusion Centers

- Objective One: Baseline Capabilities.
- Objective Two: Analytic Capabilities.

The Department of Homeland Security Appropriations Act, 2013 (Public Law 113-6) authorized additional funding allocated at the discretion of the Secretary of the Department Homeland Security, to support appropriated programs in FY 2013. DHS has augmented the SHSP and UASI grant programs in FY 2013 by allocating an additional \$163.4 million to support the following priority areas:

Priority Four: Innovation and Sustained Support for the National Campaign for Preparedness

- Objective One: Foster individual and community preparedness and resilience by identifying needs; mobilizing partners; and creating innovative and effective solutions that can be grown, sustained, and replicated.

Priority Five: Improve Immediate Emergency Victim Care at Mass Casualty Events

- Objective One: Improve emergency care to victims of mass casualty events, including mass shootings.
- Objective Two: Improve community first aid training.

Minimum funding amounts are not prescribed by the Department for these priorities; however grantees are expected to support state, local, and regional efforts in achieving the desired outcomes of one or more of these priorities.

Highway Planning and Construction	20.205	Department of Transportation	624000	40.5	116.5	116.5	2, 6

Federal-aid Highway Program: To assist State transportation agencies in the planning and development of an integrated, interconnected transportation system important to interstate commerce and travel by constructing and rehabilitating the National Highway System (NHS), including the Eisenhower Interstate System; for transportation improvements to many other public roads; to provide aid for the repair of Federal-aid highways following disasters; to foster safe highway design; to replace or rehabilitate deficient or obsolete bridges; and to provide for other special purposes. This program also provides for the improvement of roads in Puerto Rico, Guam, the U.S. Virgin Islands, American Samoa, and the Commonwealth of the Northern Mariana Islands. The Federal Lands Transportation Program (FLTP) provides assistance to the Federal Land Management Agencies (FLMAs) for Federally-owned roads and trails. It provides transportation engineering services and funding for planning, design, construction, and rehabilitation of the highways and bridges providing access to and on federally owned lands. The Federal Lands Highway organization also provides training, technology, deployment, engineering services, and products to other customers.

<u>Performance Measures</u>	<u>2017</u>	<u>2018</u>	<u>2019</u>

Border Enforcement Grants	20.233	Department of Transportation	625000	5,095.3	0.0	0.0	6, 8

The Federal Motor Carrier Safety Administration's objective is to ensure motor carriers operating commercial vehicles entering the United States from a foreign country are in compliance with commercial vehicle safety standards and regulations, financial responsibility regulations and registration requirements of the United States, and to ensure drivers of those vehicles are qualified and properly licensed to operate the commercial vehicle.

<u>Performance Measures</u>	<u>2017</u>	<u>2018</u>	<u>2019</u>
Conduct at least 26,348 safety inspections for the year		21,971	
Funds will pay for inspectors to conduct at least 26,348 annual inspections in the Arizona border corridor annually to decrease fatalities. Inspections will include commercial vehicles, motor vehicles, international carriers, passenger cars and Haz Mat vehicles. BEG funds have been depleted and the program absorbed by MCSAP. There will be no further activity under this grant.			

Crime Victim Assistance	16.575	Department of Justice	625100	112.8	27.8	0.0	2, 6
--------------------------------	---------------	------------------------------	--------	-------	------	-----	------

Enacted in 1984, the Victims of Crime Act (VOCA) is the central source of federal financial support for direct services to victim of crime. VOCA is administered at the federal level through the U.S. Department of Justice, Office for Victims of Crime which annually awards a grant to each state, the District of Columbia and U.S. Territories to support victim assistance services for victims and survivors of domestic violence, sexual assault, child abuse, drunk driving, homicide, and other crimes. Each state has a designated VOCA assistance agency to administer VOCA grants. Those state agencies in turn, subgrant to organizations that provide direct services to victims of crime. While minimal federal requirements must be met, each state is given great discretion in awarding specific subgrants.

<u>Performance Measures</u>	<u>2017</u>	<u>2018</u>	<u>2019</u>

Homeland Security Grant Program	97.067	Department of Homeland Security	630100	20.2	0.0	0.0	2, 6, 8

FY 2012 HSGP and THSGP provide grant funding to assist state and local governments in obtaining the resources required to support the National Preparedness Goal's (NPG's) associated mission areas and core capabilities. FY 2012 THSGP provides funding directly to eligible tribes to help strengthen the nation against risks associated with potential terrorist attacks. The FY 2012 HSGP is comprised of three interconnected grant programs:

- State Homeland Security Program (SHSP): SHSP supports the implementation of State Homeland Security Strategies to address the identified planning, organization, equipment, training, and exercise needs to prevent, protect against, mitigate, respond to, and recover from acts of terrorism and other catastrophic events.
- Urban Areas Security Initiative (UASI): The UASI program addresses the unique planning, organization, equipment, training, and exercise needs of high-threat, high-density Urban Areas, and assists them in building an enhanced and sustainable capacity to prevent, protect against, mitigate, respond to, and recover from acts of terrorism.
- Operation Stonegarden (OPSG): OPSG supports enhanced cooperation and coordination among local, tribal, territorial, State, and Federal law enforcement agencies in a joint mission to secure the United States' borders along routes of ingress from international borders to include travel corridors in States bordering Mexico and Canada, as well as States and territories with international water borders.

All three programs are founded on risk-driven, capabilities-based strategic plans. These strategic plans outline capability requirements and inform how available funding may be applied to manage risk. For these plans to be effective, government officials and elected leaders, working with the whole community, must consider how to sustain current capability levels and address potential shortfalls to prevent, protect, mitigate, respond to, and recover from disasters.

The FY 2013 HSGP plays an important role in the implementation of the National Preparedness System (NPS) by supporting the building, sustainment, and delivery of core capabilities essential to achieving the National Preparedness Goal (NPG) of a secure and resilient Nation. Delivering core capabilities requires the combined effort of the whole community, rather than the exclusive effort of any single organization or level of government. The FY 2013 HSGP's allowable costs support efforts to build and sustain core capabilities across the Prevention, Protection, Mitigation, Response, and Recovery mission areas by setting the following priorities and objectives:

Priority One: Implementation of the NPS and a Whole Community Approach to Homeland Security and Emergency Management

State of Arizona
Federal Operating Budget Detail

Agency: Department of Public Safety

Grant/Project and Description	CFDA	Grantor	AFIS ID	2017 Received	2018 Est. Rev.	2019 Est. Rev.	Footnote(s)
Homeland Security Grant Program	97.067	Department of Homeland Security	630100	20.2	0.0	0.0	2, 6, 8

- Objective One: Completion of the THIRA process in alignment with National Preparedness System guidance to identify the resources required to deliver core capabilities.
- Objective Two: Conduct risk driven, capabilities-based planning through whole community councils and working groups.
- Objective Three: Organization – Typing of equipment, and credentialing and training of personnel.
- Objective Four: Sustaining Capabilities.

Priority Two: Building and Sustaining Law Enforcement Terrorism Prevention Capabilities

- Objective One: Nationwide Suspicious Activity Reporting Initiative (NSI)

Priority Three: Maturation and Enhancement of State and Major Urban Area Fusion Centers

- Objective One: Baseline Capabilities.
- Objective Two: Analytic Capabilities.

The Department of Homeland Security Appropriations Act, 2013 (Public Law 113-6) authorized additional funding allocated at the discretion of the Secretary of the Department Homeland Security, to support appropriated programs in FY 2013. DHS has augmented the SHSP and UASI grant programs in FY 2013 by allocating an additional \$163.4 million to support the following priority areas:

Priority Four: Innovation and Sustained Support for the National Campaign for Preparedness

- Objective One: Foster individual and community preparedness and resilience by identifying needs; mobilizing partners; and creating innovative and effective solutions that can be grown, sustained, and replicated.

Priority Five: Improve Immediate Emergency Victim Care at Mass Casualty Events

- Objective One: Improve emergency care to victims of mass casualty events, including mass shootings.
- Objective Two: Improve community first aid training.

Minimum funding amounts are not prescribed by the Department for these priorities; however grantees are expected to support state, local, and regional efforts in achieving the desired outcomes of one or more of these priorities.

Homeland Security Grant Program	97.067	Department of Homeland Security	630200	9.6	0.0	0.0	^{2, 6}

FY 2012 HSGP and THSGP provide grant funding to assist state and local governments in obtaining the resources required to support the National Preparedness Goal's (NPG's) associated mission areas and core capabilities. FY 2012 THSGP provides funding directly to eligible tribes to help strengthen the nation against risks associated with potential terrorist attacks. The FY 2012 HSGP is comprised of three interconnected grant programs:

- State Homeland Security Program (SHSP): SHSP supports the implementation of State Homeland Security Strategies to address the identified planning, organization, equipment, training, and exercise needs to prevent, protect against, mitigate, respond to, and recover from acts of terrorism and other catastrophic events.
- Urban Areas Security Initiative (UASI): The UASI program addresses the unique planning, organization, equipment, training, and exercise needs of high-threat, high-density Urban Areas, and assists them in building an enhanced and sustainable capacity to prevent, protect against, mitigate, respond to, and recover from acts of terrorism.
- Operation Stonegarden (OPSG): OPSG supports enhanced cooperation and coordination among local, tribal, territorial, State, and Federal law enforcement agencies in a joint mission to secure the United States' borders along routes of ingress from international borders to include travel corridors in States bordering Mexico and Canada, as well as States and territories with international water borders.

All three programs are founded on risk-driven, capabilities-based strategic plans. These strategic plans outline capability requirements and inform how available funding may be applied to manage risk. For these plans to be effective, government officials and elected leaders, working with the whole community, must consider how to sustain current capability levels and address potential shortfalls to prevent, protect, mitigate, respond to, and recover from disasters.

The FY 2013 HSGP plays an important role in the implementation of the National Preparedness System (NPS) by supporting the building, sustainment, and delivery of core capabilities essential to achieving the National Preparedness Goal (NPG) of a secure and resilient Nation. Delivering core capabilities requires the combined effort of the whole community, rather than the exclusive effort of any single organization or level of government. The FY 2013 HSGP's allowable costs support efforts to build and sustain core capabilities across the Prevention, Protection, Mitigation, Response, and Recovery mission areas by setting the following priorities and objectives:

Priority One: Implementation of the NPS and a Whole Community Approach to Homeland Security and Emergency Management

Homeland Security Grant Program	97.067	Department of Homeland Security	630200	9.6	0.0	0.0	^{2, 6}

- Objective One: Completion of the THIRA process in alignment with National Preparedness System guidance to identify the resources required to deliver core capabilities.
- Objective Two: Conduct risk driven, capabilities-based planning through whole community councils and working groups.
- Objective Three: Organization – Typing of equipment, and credentialing and training of personnel.
- Objective Four: Sustaining Capabilities.

Priority Two: Building and Sustaining Law Enforcement Terrorism Prevention Capabilities

- Objective One: Nationwide Suspicious Activity Reporting Initiative (NSI)

Priority Three: Maturation and Enhancement of State and Major Urban Area Fusion Centers

- Objective One: Baseline Capabilities.
- Objective Two: Analytic Capabilities.

The Department of Homeland Security Appropriations Act, 2013 (Public Law 113-6) authorized additional funding allocated at the discretion of the Secretary of the Department Homeland Security, to support appropriated programs in FY 2013. DHS has augmented the SHSP and UASI grant programs in FY 2013 by allocating an additional \$163.4 million to support the following priority areas:

Priority Four: Innovation and Sustained Support for the National Campaign for Preparedness

- Objective One: Foster individual and community preparedness and resilience by identifying needs; mobilizing partners; and creating innovative and effective solutions that can be grown, sustained, and replicated.

Priority Five: Improve Immediate Emergency Victim Care at Mass Casualty Events

- Objective One: Improve emergency care to victims of mass casualty events, including mass shootings.
- Objective Two: Improve community first aid training.

Minimum funding amounts are not prescribed by the Department for these priorities; however grantees are expected to support state, local, and regional efforts in achieving the desired outcomes of one or more of these priorities.

Homeland Security Grant Program	97.067	Department of Homeland Security	630400	0.0	280.0	0.0	2, 3, 6

- Objective One: Completion of the THIRA process in alignment with National Preparedness System guidance to identify the resources required to deliver core capabilities.
- Objective Two: Conduct risk driven, capabilities-based planning through whole community councils and working groups.
- Objective Three: Organization – Typing of equipment, and credentialing and training of personnel.
- Objective Four: Sustaining Capabilities.

Priority Two: Building and Sustaining Law Enforcement Terrorism Prevention Capabilities

- Objective One: Nationwide Suspicious Activity Reporting Initiative (NSI)

Priority Three: Maturation and Enhancement of State and Major Urban Area Fusion Centers

- Objective One: Baseline Capabilities.
- Objective Two: Analytic Capabilities.

The Department of Homeland Security Appropriations Act, 2013 (Public Law 113-6) authorized additional funding allocated at the discretion of the Secretary of the Department Homeland Security, to support appropriated programs in FY 2013. DHS has augmented the SHSP and UASI grant programs in FY 2013 by allocating an additional \$163.4 million to support the following priority areas:

Priority Four: Innovation and Sustained Support for the National Campaign for Preparedness

- Objective One: Foster individual and community preparedness and resilience by identifying needs; mobilizing partners; and creating innovative and effective solutions that can be grown, sustained, and replicated.

Priority Five: Improve Immediate Emergency Victim Care at Mass Casualty Events

- Objective One: Improve emergency care to victims of mass casualty events, including mass shootings.
- Objective Two: Improve community first aid training.

Minimum funding amounts are not prescribed by the Department for these priorities; however grantees are expected to support state, local, and regional efforts in achieving the desired outcomes of one or more of these priorities.

Homeland Security Grant Program	97.067	Department of Homeland Security	630500	108.1	388.8	0.0	^{2, 6}

FY 2012 HSGP and THSGP provide grant funding to assist state and local governments in obtaining the resources required to support the National Preparedness Goal's (NPG's) associated mission areas and core capabilities. FY 2012 THSGP provides funding directly to eligible tribes to help strengthen the nation against risks associated with potential terrorist attacks. The FY 2012 HSGP is comprised of three interconnected grant programs:

- State Homeland Security Program (SHSP): SHSP supports the implementation of State Homeland Security Strategies to address the identified planning, organization, equipment, training, and exercise needs to prevent, protect against, mitigate, respond to, and recover from acts of terrorism and other catastrophic events.
- Urban Areas Security Initiative (UASI): The UASI program addresses the unique planning, organization, equipment, training, and exercise needs of high-threat, high-density Urban Areas, and assists them in building an enhanced and sustainable capacity to prevent, protect against, mitigate, respond to, and recover from acts of terrorism.
- Operation Stonegarden (OPSG): OPSG supports enhanced cooperation and coordination among local, tribal, territorial, State, and Federal law enforcement agencies in a joint mission to secure the United States' borders along routes of ingress from international borders to include travel corridors in States bordering Mexico and Canada, as well as States and territories with international water borders.

All three programs are founded on risk-driven, capabilities-based strategic plans. These strategic plans outline capability requirements and inform how available funding may be applied to manage risk. For these plans to be effective, government officials and elected leaders, working with the whole community, must consider how to sustain current capability levels and address potential shortfalls to prevent, protect, mitigate, respond to, and recover from disasters.

The FY 2013 HSGP plays an important role in the implementation of the National Preparedness System (NPS) by supporting the building, sustainment, and delivery of core capabilities essential to achieving the National Preparedness Goal (NPG) of a secure and resilient Nation. Delivering core capabilities requires the combined effort of the whole community, rather than the exclusive effort of any single organization or level of government. The FY 2013 HSGP's allowable costs support efforts to build and sustain core capabilities across the Prevention, Protection, Mitigation, Response, and Recovery mission areas by setting the following priorities and objectives:

Priority One: Implementation of the NPS and a Whole Community Approach to Homeland Security and Emergency Management

- Urban Areas Security Initiative (UASI): The UASI program addresses the unique planning, organization, equipment, training, and exercise needs of high-threat, high-density Urban Areas, and assists them in building an enhanced and sustainable capacity to prevent, protect against, mitigate, respond to, and recover from acts of terrorism.
- Operation Stonegarden (OPSG): OPSG supports enhanced cooperation and coordination among local, tribal, territorial, State, and Federal law enforcement agencies in a joint mission to secure the United States' borders along routes of ingress from international borders to include travel corridors in States bordering Mexico and Canada, as well as States and territories with international water borders.

All three programs are founded on risk-driven, capabilities-based strategic plans. These strategic plans outline capability requirements and inform how available funding may be applied to manage risk. For these plans to be effective, government officials and elected leaders, working with the whole community, must consider how to sustain current capability levels and address potential shortfalls to prevent, protect, mitigate, respond to, and recover from disasters.

The FY 2013 HSGP plays an important role in the implementation of the National Preparedness System (NPS) by supporting the building, sustainment, and delivery of core capabilities essential to achieving the National Preparedness Goal (NPG) of a secure and resilient Nation. Delivering core capabilities requires the combined effort of the whole community, rather than the exclusive effort of any single organization or level of government. The FY 2013 HSGP's allowable costs support efforts to build and sustain core capabilities across the Prevention, Protection, Mitigation, Response, and Recovery mission areas by setting the following priorities and objectives:

Priority One: Implementation of the NPS and a Whole Community Approach to Homeland Security and Emergency Management

Homeland Security Grant Program	97.067	Department of Homeland Security	630505	0.0	86.3	0.0	2, 3, 6

- Objective One: Completion of the THIRA process in alignment with National Preparedness System guidance to identify the resources required to deliver core capabilities.
- Objective Two: Conduct risk driven, capabilities-based planning through whole community councils and working groups.
- Objective Three: Organization – Typing of equipment, and credentialing and training of personnel.
- Objective Four: Sustaining Capabilities.

Priority Two: Building and Sustaining Law Enforcement Terrorism Prevention Capabilities

- Objective One: Nationwide Suspicious Activity Reporting Initiative (NSI)

Priority Three: Maturation and Enhancement of State and Major Urban Area Fusion Centers

- Objective One: Baseline Capabilities.
- Objective Two: Analytic Capabilities.

The Department of Homeland Security Appropriations Act, 2013 (Public Law 113-6) authorized additional funding allocated at the discretion of the Secretary of the Department Homeland Security, to support appropriated programs in FY 2013. DHS has augmented the SHSP and UASI grant programs in FY 2013 by allocating an additional \$163.4 million to support the following priority areas:

Priority Four: Innovation and Sustained Support for the National Campaign for Preparedness

- Objective One: Foster individual and community preparedness and resilience by identifying needs; mobilizing partners; and creating innovative and effective solutions that can be grown, sustained, and replicated.

Priority Five: Improve Immediate Emergency Victim Care at Mass Casualty Events

- Objective One: Improve emergency care to victims of mass casualty events, including mass shootings.
- Objective Two: Improve community first aid training.

Minimum funding amounts are not prescribed by the Department for these priorities; however grantees are expected to support state, local, and regional efforts in achieving the desired outcomes of one or more of these priorities.

Missing Children's Assistance	16.543	Department of Justice	636000	0.0	15.0	0.0	2, 3, 6

To coordinate Federal missing and exploited children activities and to support research, training, technical assistance, and demonstration programs to enhance the overall response to missing children and their families. Establish and maintain a national resource center and clearinghouse dedicated to missing and exploited children issues that: (1) provides a toll-free hotline where citizens can report investigative leads and parents and other interested individuals can receive information concerning missing children; (2) provides technical assistance to parents, law enforcement, and other professionals working on missing and exploited children cases; (3) promotes information sharing and provides technical assistance by networking with regional nonprofit organizations, State missing children clearinghouses, and law enforcement agencies; (4) develops publications that contain practical, timely information; and (5) provides information regarding programs offering free or low-cost transportation services that assist in reuniting children with their families. On a periodic basis, as funding is designated by Congress for this purpose, conduct national incidence studies to determine the type and extent of missing children in America. Support law enforcement demonstration programs (e.g., the Internet Crimes Against Children Task Force Program) to enhance the investigative response to missing and exploited children cases. Support research to broaden understanding of a wide range of missing and exploited children issues (e.g., abduction homicide investigation solvability factors), to inform training and technical assistance efforts and to identify promising practices and programs for replication. Develop training programs for law enforcement, child protective services, medical personnel, and prosecutors to enhance coordination and effectiveness of missing and exploited children investigations and to enhance the overall system response. Identify service gaps and develop programs to meet specialized needs of parents or guardians of children who are reported missing.

<u>Performance Measures</u>	<u>2017</u>	<u>2018</u>	<u>2019</u>
FY17 Internet Crimes Against Children (ICAC)			\$15,000
Funding will provide training and equipment for DPS personnel to apprehend and bring to justice Internet Sexual Predators as well as Internet Child Pornographers.

Grant/Project and Description	CFDA	Grantor	AFIS ID	2017 Received	2018 Est. Rev.	2019 Est. Rev.	Footnote(s)
Crime Victim Assistance	16.575	Department of Justice	640100	0.0	28,752.9	2,292.3	3, 6

Enacted in 1984, the Victims of Crime Act (VOCA) is the central source of federal financial support for direct services to victim of crime. VOCA is administered at the federal level through the U.S. Department of Justice, Office for Victims of Crime which annually awards a grant to each state, the District of Columbia and U.S. Territories to support victim assistance services for victims and survivors of domestic violence, sexual assault, child abuse, drunk driving, homicide, and other crimes. Each state has a designated VOCA assistance agency to administer VOCA grants. Those state agencies in turn, subgrant to organizations that provide direct services to victims of crime. While minimal federal requirements must be met, each state is given great discretion in awarding specific subgrants.

<u>Performance Measures</u>	<u>2017</u>	<u>2018</u>	<u>2019</u>
Crime Victim Assistance - Number of new victims served			429,159
The primary purpose of VOCA Assistance funds is to provide services to Arizona victims of crime. Sub-recipient agencies directly assist victims of sexual assault, survivors of homicide, victims of robbery, DUI accidents, domestic violence, physical assault and other crimes.			

Paul Coverdell Forensic Sciences Improvement Grant Program	16.742	Department of Justice	650000	46.4	0.0	0.0	2, 6, 8
To improve the quality and timeliness of forensic science and medical examiner services and/or to eliminate backlogs in the analysis of forensic evidence, including controlled substances, firearms examination, forensic pathology, latent prints, questioned documents, toxicology, and trace evidence for criminal justice purposes.							

<u>Performance Measures</u>	<u>2017</u>	<u>2018</u>	<u>2019</u>
Number of forensic personnel attending training		16	
Funding will be used for forensic science education and training. They will be used to assist in the training of scientific staff at all four DPS regional laboratories. Funding will provide training to newly hired forensic scientists in order for them to become proficient in examining evidence; in reaching accurate, valid conclusions, and be accepted as expert witnesses in Arizona's courts. In addition, funds will be used to allow experienced forensic scientists to maintain and/or increase their knowledge of new analytical techniques, process improvement, etc.

National Sexual Assault Kit Initiative	16.833	Department of Justice	650030	31.6	0.0	0.0	^{2, 6}

The Sexual Assault Kit Initiative, administered by BJA, provides funding through a competitive grant program to support multi-disciplinary community response teams engaged in the comprehensive reform of jurisdictions' approaches to sexual assault cases resulting from evidence found in previously un-submitted sexual assault kits (SAKs).

Un-submitted kits (those in in police custody that have never been submitted to a crime laboratory for testing) and untested kits (those that have been submitted to crime labs but are delayed for testing (e.g. as a result of a backlog of work in the laboratory) are separate and distinct issues. The focus of this effort is on those un-submitted kits that have never been submitted to a crime laboratory.

The goal of the SAKI is the creation of a coordinated community response that ensures just resolution to these cases whenever possible through a victim-centered approach, as well as to build jurisdictions' capacity to prevent the development of conditions that lead to high numbers of un-submitted SAKs in the future.

<u>Performance Measures</u>	<u>2017</u>	<u>2018</u>	<u>2019</u>
Number of outsourced sex assault kits			214
Number of backlogged sexual assault cases submitted to outsourced labs to conduct analysis.

Grant/Project and Description	CFDA	Grantor	AFIS ID	2017 Received	2018 Est. Rev.	2019 Est. Rev.	Footnote(s)
Homeland Security Grant Program	97.067	Department of Homeland Security	677110	313.6	0.0	0.0	2, 6, 8

FY 2012 HSGP and THSGP provide grant funding to assist state and local governments in obtaining the resources required to support the National Preparedness Goal's (NPG's) associated mission areas and core capabilities. FY 2012 THSGP provides funding directly to eligible tribes to help strengthen the nation against risks associated with potential terrorist attacks. The FY 2012 HSGP is comprised of three interconnected grant programs:

- State Homeland Security Program (SHSP): SHSP supports the implementation of State Homeland Security Strategies to address the identified planning, organization, equipment, training, and exercise needs to prevent, protect against, mitigate, respond to, and recover from acts of terrorism and other catastrophic events.
- Urban Areas Security Initiative (UASI): The UASI program addresses the unique planning, organization, equipment, training, and exercise needs of high-threat, high-density Urban Areas, and assists them in building an enhanced and sustainable capacity to prevent, protect against, mitigate, respond to, and recover from acts of terrorism.
- Operation Stonegarden (OPSG): OPSG supports enhanced cooperation and coordination among local, tribal, territorial, State, and Federal law enforcement agencies in a joint mission to secure the United States' borders along routes of ingress from international borders to include travel corridors in States bordering Mexico and Canada, as well as States and territories with international water borders.

All three programs are founded on risk-driven, capabilities-based strategic plans. These strategic plans outline capability requirements and inform how available funding may be applied to manage risk. For these plans to be effective, government officials and elected leaders, working with the whole community, must consider how to sustain current capability levels and address potential shortfalls to prevent, protect, mitigate, respond to, and recover from disasters.

The FY 2013 HSGP plays an important role in the implementation of the National Preparedness System (NPS) by supporting the building, sustainment, and delivery of core capabilities essential to achieving the National Preparedness Goal (NPG) of a secure and resilient Nation. Delivering core capabilities requires the combined effort of the whole community, rather than the exclusive effort of any single organization or level of government. The FY 2013 HSGP's allowable costs support efforts to build and sustain core capabilities across the Prevention, Protection, Mitigation, Response, and Recovery mission areas by setting the following priorities and objectives:

Priority One: Implementation of the NPS and a Whole Community Approach to Homeland Security and Emergency Management

State of Arizona
Federal Operating Budget Detail

Agency: Department of Public Safety

Grant/Project and Description	CFDA	Grantor	AFIS ID	2017 Received	2018 Est. Rev.	2019 Est. Rev.	Footnote(s)
Homeland Security Grant Program	97.067	Department of Homeland Security	677110	313.6	0.0	0.0	2, 6, 8

- Objective One: Completion of the THIRA process in alignment with National Preparedness System guidance to identify the resources required to deliver core capabilities.
- Objective Two: Conduct risk driven, capabilities-based planning through whole community councils and working groups.
- Objective Three: Organization – Typing of equipment, and credentialing and training of personnel.
- Objective Four: Sustaining Capabilities.

Priority Two: Building and Sustaining Law Enforcement Terrorism Prevention Capabilities

- Objective One: Nationwide Suspicious Activity Reporting Initiative (NSI)

Priority Three: Maturation and Enhancement of State and Major Urban Area Fusion Centers

- Objective One: Baseline Capabilities.
- Objective Two: Analytic Capabilities.

The Department of Homeland Security Appropriations Act, 2013 (Public Law 113-6) authorized additional funding allocated at the discretion of the Secretary of the Department Homeland Security, to support appropriated programs in FY 2013. DHS has augmented the SHSP and UASI grant programs in FY 2013 by allocating an additional \$163.4 million to support the following priority areas:

Priority Four: Innovation and Sustained Support for the National Campaign for Preparedness

- Objective One: Foster individual and community preparedness and resilience by identifying needs; mobilizing partners; and creating innovative and effective solutions that can be grown, sustained, and replicated.

Priority Five: Improve Immediate Emergency Victim Care at Mass Casualty Events

- Objective One: Improve emergency care to victims of mass casualty events, including mass shootings.
- Objective Two: Improve community first aid training.

Minimum funding amounts are not prescribed by the Department for these priorities; however grantees are expected to support state, local, and regional efforts in achieving the desired outcomes of one or more of these priorities.

Homeland Security Grant Program	97.067	Department of Homeland Security	677120	25.8	0.0	0.0	2, 6, 8

FY 2012 HSGP and THSGP provide grant funding to assist state and local governments in obtaining the resources required to support the National Preparedness Goal's (NPG's) associated mission areas and core capabilities. FY 2012 THSGP provides funding directly to eligible tribes to help strengthen the nation against risks associated with potential terrorist attacks. The FY 2012 HSGP is comprised of three interconnected grant programs:

- State Homeland Security Program (SHSP): SHSP supports the implementation of State Homeland Security Strategies to address the identified planning, organization, equipment, training, and exercise needs to prevent, protect against, mitigate, respond to, and recover from acts of terrorism and other catastrophic events.
- Urban Areas Security Initiative (UASI): The UASI program addresses the unique planning, organization, equipment, training, and exercise needs of high-threat, high-density Urban Areas, and assists them in building an enhanced and sustainable capacity to prevent, protect against, mitigate, respond to, and recover from acts of terrorism.
- Operation Stonegarden (OPSG): OPSG supports enhanced cooperation and coordination among local, tribal, territorial, State, and Federal law enforcement agencies in a joint mission to secure the United States' borders along routes of ingress from international borders to include travel corridors in States bordering Mexico and Canada, as well as States and territories with international water borders.

All three programs are founded on risk-driven, capabilities-based strategic plans. These strategic plans outline capability requirements and inform how available funding may be applied to manage risk. For these plans to be effective, government officials and elected leaders, working with the whole community, must consider how to sustain current capability levels and address potential shortfalls to prevent, protect, mitigate, respond to, and recover from disasters.

FY 2012 THSGP provides funding directly to eligible tribes to help strengthen the nation against risks associated with potential terrorist attacks. The FY 2012 HSGP is comprised of three interconnected grant programs:

- State Homeland Security Program (SHSP): SHSP supports the implementation of State Homeland Security Strategies to address the identified planning, organization, equipment, training, and exercise needs to prevent, protect against, mitigate, respond to, and recover from acts of terrorism and other catastrophic events.
- Urban Areas Security Initiative (UASI): The UASI program addresses the unique planning, organization, equipment, training, and exercise needs of high-threat, high-density Urban Areas, and assists them in building an enhanced and sustainable capacity to prevent, protect against, mitigate, respond to, and recover from acts of terrorism.
- Operation Stonegarden (OPSG): OPSG supports enhanced cooperation and coordination among local, tribal, territorial, State, and Federal law enforcement agencies in a joint mission to secure the United States' borders along routes of ingress from international borders to include travel corridors in States bordering Mexico and Canada, as well as States and territories with international water borders.

All three programs are founded on risk-driven, capabilities-based strategic plans. These strategic plans outline capability requirements and inform how available funding may be applied to manage risk. For these plans to be effective, government officials and elected leaders, working with the whole community, must consider how to sustain current capability levels and address potential shortfalls to prevent, protect, mitigate, respond to, and recover from disasters.

The FY 2013 HSGP plays an important role in the implementation of the National Preparedness System (NPS) by supporting the building, sustainment, and delivery of core capabilities essential to achieving the National Preparedness Goal (NPG) of a secure and resilient Nation. Delivering core capabilities requires the combined effort of the whole community, rather than the exclusive effort of any single organization or level of government. The FY 2013 HSGP's allowable costs support efforts to build and sustain core capabilities across the Prevention, Protection, Mitigation, Response, and Recovery mission areas by setting the following priorities and objectives:

Priority One: Implementation of the NPS and a Whole Community Approach to Homeland Security and Emergency Management

State of Arizona

Grant/Project and Description	CFDA	Grantor	AFIS ID	2017 Received	2018 Est. Rev.	2019 Est. Rev.	Footnote(s)
Homeland Security Grant Program	97.067	Department of Homeland Security	677170	230.2	0.0	0.0	2, 6, 8

- Objective One: Completion of the THIRA process in alignment with National Preparedness System guidance to identify the resources required to deliver core capabilities.
- Objective Two: Conduct risk driven, capabilities-based planning through whole community councils and working groups.
- Objective Three: Organization – Typing of equipment, and credentialing and training of personnel.
- Objective Four: Sustaining Capabilities.

Priority Two: Building and Sustaining Law Enforcement Terrorism Prevention Capabilities

- Objective One: Nationwide Suspicious Activity Reporting Initiative (NSI)

Priority Three: Maturation and Enhancement of State and Major Urban Area Fusion Centers

- Objective One: Baseline Capabilities.
- Objective Two: Analytic Capabilities.

The Department of Homeland Security Appropriations Act, 2013 (Public Law 113-6) authorized additional funding allocated at the discretion of the Secretary of the Department Homeland Security, to support appropriated programs in FY 2013. DHS has augmented the SHSP and UASI grant programs in FY 2013 by allocating an additional \$163.4 million to support the following priority areas:

Priority Four: Innovation and Sustained Support for the National Campaign for Preparedness

- Objective One: Foster individual and community preparedness and resilience by identifying needs; mobilizing partners; and creating innovative and effective solutions that can be grown, sustained, and replicated.

Priority Five: Improve Immediate Emergency Victim Care at Mass Casualty Events

- Objective One: Improve emergency care to victims of mass casualty events, including mass shootings.
- Objective Two: Improve community first aid training.

Minimum funding amounts are not prescribed by the Department for these priorities; however grantees are expected to support state, local, and regional efforts in achieving the desired outcomes of one or more of these priorities.

Missing Children's Assistance	16.543	Department of Justice	685710	15.0	0.0	0.0	2, 6, 8

To coordinate Federal missing and exploited children activities and to support research, training, technical assistance, and demonstration programs to enhance the overall response to missing children and their families. Establish and maintain a national resource center and clearinghouse dedicated to missing and exploited children issues that: (1) provides a toll-free hotline where citizens can report investigative leads and parents and other interested individuals can receive information concerning missing children; (2) provides technical assistance to parents, law enforcement, and other professionals working on missing and exploited children cases; (3) promotes information sharing and provides technical assistance by networking with regional nonprofit organizations, State missing children clearinghouses, and law enforcement agencies; (4) develops publications that contain practical, timely information; and (5) provides information regarding programs offering free or low-cost transportation services that assist in reuniting children with their families. On a periodic basis, as funding is designated by Congress for this purpose, conduct national incidence studies to determine the type and extent of missing children in America. Support law enforcement demonstration programs (e.g., the Internet Crimes Against Children Task Force Program) to enhance the investigative response to missing and exploited children cases. Support research to broaden understanding of a wide range of missing and exploited children issues (e.g., abduction homicide investigation solvability factors), to inform training and technical assistance efforts and to identify promising practices and programs for replication. Develop training programs for law enforcement, child protective services, medical personnel, and prosecutors to enhance coordination and effectiveness of missing and exploited children investigations and to enhance the overall system response. Identify service gaps and develop programs to meet specialized needs of parents or guardians of children who are reported missing.

Grant/Project and Description	CFDA	Grantor	AFIS ID	2017 Received	2018 Est. Rev.	2019 Est. Rev.	Footnote(s)
NICS Act Record Improvement Program	16.813	Department of Justice	692100	29.5	0.0	0.0	^{2, 6}

To improve the FBI's National Instant Criminal Background Check System (NICS) by providing assistance to states to improve the completeness, automation and transmittal to state and federal systems the records utilized by the NICS. Such records include criminal history records, records of felony convictions, warrants, records of protective orders, convictions for misdemeanor involving domestic violence and stalking, records of mental health adjudications, and others, which may disqualify an individual from possessing or receiving a firearm under federal law. Helping states to automate these records will also reduce delays for law-abiding gun purchasers.

The NICS Improvement Act amends the Brady Handgun Violence Prevention Act of 1993 ("the Brady Act") (Public Law 103-159), under which the Attorney General established NICS. The Brady Act requires Federal Firearms Licensees (FFLs) to contact the NICS before transferring a firearm to an unlicensed person for information on whether the proposed transferee is prohibited from receiving or possessing a firearm under state or federal law. The NICS Improvement Act was enacted in the wake of the April 2007 shooting tragedy at Virginia Tech. The Virginia Tech shooter was able to purchase firearms from an FFL because information about his prohibiting mental health history was not available to the NICS and the system was therefore unable to deny the transfer of the firearms used in the shootings.

The Act seeks to address the gap in information available to NICS about such prohibiting mental health adjudications and commitments and other prohibiting backgrounds. Filling these information gaps will better enable the system to operate as intended to keep guns out of the hands of persons prohibited by federal or state law from receiving or possessing firearms.

The Act authorized two grant programs to assist states in providing certain information to the NICS, and prescribes grant penalties for non-compliance with the Act's record completeness goals. Pursuant to the Act, there are certain conditions, described below, that a state must satisfy in advance of receiving grants under the Act. The NICS Improvement Act has provisions that require states to meet specified goals for completeness of the records submitted to the Attorney General on individuals prohibited by federal law from possessing firearms. The records covered include automated information needed by the NICS to identify felony convictions, felony indictments, fugitives from justice, drug arrests and convictions, prohibiting mental health adjudications and commitments, domestic violence protection orders, and misdemeanor crimes of domestic violence.

The Act provides for a number of incentives for states to meet the goals it sets for greater record completeness. First, the Act allows states to obtain a waiver, beginning in 2011, of the state matching requirement under the National Criminal

History Improvement Program (NCHIP) grant program, if a state provides at least 90 percent of its records identifying persons in specified prohibited categories. Second, the Act authorizes grant programs described herein, which, pursuant to the Act, are being administered consistent with NCHIP, for state executive and judicial agencies to establish and upgrade information automation and identification technologies for timely submission of final criminal record dispositions and other information relevant to NICS checks. Finally, the Act provides for discretionary and mandatory Byrne Justice Assistance Grant (JAG) program grant penalties, beginning 3 years after enactment, for non-compliance with specified record completeness requirements within certain timeframes: after 3 years, 3 percent may be withheld in the case of less than 50 percent completeness; after 5 years, 4 percent may be withheld in the case of less than 70 percent completeness; and after 10 years, 5 percent shall be withheld in the case of less than 90 percent completeness (although the mandatory reduction can be waived if there is substantial evidence of the state making a reasonable effort to comply).

<u>Performance Measures</u>	<u>2017</u>	<u>2018</u>	<u>2019</u>
Criminal history records automation and correction	6,332	2,301	350

Support for Adam Walsh Act Implementation Grant Program	16.750	Department of Justice	693400	0.0	0.0	0.0	²

To assist State, local, and tribal jurisdictions with developing and/or enhancing programs designed to implement requirements of the Sex Offender Registration and Notification Act (SORNA), Title I of the Adam Walsh Child Protection and Safety Act of 2006; to support other grant programs authorized by the AWA, and to provide for the maintenance and operation of the Dru Sjodin National Sex Offender Public Website (NSOPW). In summary, SORNA requires: (1) all States, the District of Columbia, the principal U.S. territories, and federally recognized American Indian tribes that are eligible under SORNA section 127 to carry out the functions of SORNA and have elected to do so to maintain a sex offender registry; and (2) sex offenders to register and maintain a current registration in each jurisdiction where the offender resides, is an employee, and is a student. SORNA also sets forth requirements for sex offender registries to include: specified required information, duration of registration, and in-person verification of sex offender identity as well as participation in the NSOPW. NSOPW links to state, territory and tribal public sex offender registries thus allowing nation-wide searches for registered sex offenders.

The Brady Act requires Federal Firearms Licensees (FFLs) to contact the NICS before transferring a firearm to an unlicensed person for information on whether the proposed transferee is prohibited from receiving or possessing a firearm under state or federal law. The NICS Improvement Act was enacted in the wake of the April 2007 shooting tragedy at Virginia Tech. The Virginia Tech shooter was able to purchase firearms from an FFL because information about his prohibiting mental health history was not available to the NICS and the system was therefore unable to deny the transfer of the firearms used in the shootings.

The Act seeks to address the gap in information available to NICS about such prohibiting mental health adjudications and commitments and other prohibiting backgrounds. Filling these information gaps will better enable the system to operate as intended to keep guns out of the hands of persons prohibited by federal or state law from receiving or possessing firearms.

The Act authorized two grant programs to assist states in providing certain information to the NICS, and prescribes grant penalties for non-compliance with the Act's record completeness goals. Pursuant to the Act, there are certain conditions, described below, that a state must satisfy in advance of receiving grants under the Act. The NICS Improvement Act has provisions that require states to meet specified goals for completeness of the records submitted to the Attorney General on individuals prohibited by federal law from possessing firearms. The records covered include automated information needed by the NICS to identify felony convictions, felony indictments, fugitives from justice, drug arrests and convictions, prohibiting mental health adjudications and commitments, domestic violence protection orders, and misdemeanor crimes of domestic violence.

The Act provides for a number of incentives for states to meet the goals it sets for greater record completeness. First, the Act allows states to obtain a waiver, beginning in 2011, of the state matching requirement under the National Criminal

--------------------------------------	---------------	---	--------	-----	-------	-----	-------------

The MCSAP is a Federal grant program that provides financial assistance to States to reduce the number and severity of accidents and hazardous materials incidents involving commercial motor vehicles (CMV). The goal of the MCSAP is to reduce CMV-involved accidents, fatalities, and injuries through consistent, uniform, and effective CMV safety programs. Investing grant monies in appropriate safety programs will increase the likelihood that safety defects, driver deficiencies, and unsafe motor carrier practices will be detected and corrected before they become contributing factors to accidents.

Enacted in 1984, the Victims of Crime Act (VOCA) is the central source of federal financial support for direct services to victim of crime. VOCA is administered at the federal level through the U.S. Department of Justice, Office for Victims of Crime which annually awards a grant to each state, the District of Columbia and U.S. Territories to support victim assistance services for victims and survivors of domestic violence, sexual assault, child abuse, drunk driving, homicide, and other crimes. Each state has a designated VOCA assistance agency to administer VOCA grants. Those state agencies in turn, subgrant to organizations that provide direct services to victims of crime. While minimal federal requirements must be met, each state is given great discretion in awarding specific subgrants.

Federal-aid Highway Program: To assist State transportation agencies in the planning and development of an integrated, interconnected transportation system important to interstate commerce and travel by constructing and rehabilitating the National Highway System (NHS), including the Eisenhower Interstate System; for transportation improvements to many other public roads; to provide aid for the repair of Federal-aid highways following disasters; to foster safe highway design; to replace or rehabilitate deficient or obsolete bridges; and to provide for other special purposes. This program also provides for the improvement of roads in Puerto Rico, Guam, the U.S. Virgin Islands, American Samoa, and the Commonwealth of the Northern Mariana Islands. The Federal Lands Transportation Program (FLTP) provides assistance to the Federal Land Management Agencies (FLMAs) for Federally-owned roads and trails. It provides transportation engineering services and funding for planning, design, construction, and rehabilitation of the highways and bridges providing access to and on federally owned lands. The Federal Lands Highway organization also provides training, technology, deployment, engineering services, and products to other customers.

Grant/Project and Description	CFDA	Grantor	AFIS ID	2017 Received	2018 Est. Rev.	2019 Est. Rev.	Footnote(s)
State Indoor Radon Grants	66.032	Environmental Protection Agency	900026	60.0	60.0	0.0	⁶

Title III of the Toxic Substances Control Act (TSCA), the Indoor Radon Abatement Act (IRAA), Section 306, authorizes EPA to assist States and Federally Recognized Indian Tribes to develop and implement programs to assess and mitigate radon-related lung cancer risk. In FY 2013 EPA will encourage state and tribal grant recipients to work collaboratively with their (non-EPA) Federal Departments and Agencies participating in the Federal Radon Action Plan (FRAP) - http://www.epa.gov/radon/action_plan.html.

Projects should also focus on addressing environmental justice (EJ) concerns in communities. EJ is the fair treatment and meaningful involvement of all people regardless of race, color, national origin, or income with respect to the development, implementation, and enforcement of environmental laws, regulations, and policies.

Funding Priority - Fiscal Year 2013: In FY 2013 the State Indoor Radon Grant (SIRG) program will continue to emphasize radon risk reduction through increased action by home buyers and sellers, homeowners, real estate professionals, radon services professionals, homebuilders, tribes, non-governmental organizations, Federal, state and local governments, and non governmental organizations. Projects funded by SIRG should focus on achieving the following outcomes:

- Homes built to include radon-reducing features, especially in high-radon potential areas,
- Reducing radon in existing homes to below 4pCi/L through mitigation, and
- Building new schools to include radon-reducing features, and reducing radon in existing schools to below 4pCi/L.

To achieve these outcomes and increase results, the SIRG program aims to: (1) improve the effectiveness of state-local/tribal radon programs; (2) focus on high radon potential areas, especially for new home building, building code adoption, and green and healthy homes programs; (3) encourage testing and mitigation within residential property transfers; and (4) encourage SIRG recipients to be strategic in their risk reduction efforts e.g., utilizing results data and information, by institutionalizing risk reduction practices and policies, and utilizing best practices.

Grant/Project and Description	CFDA	Grantor	AFIS ID	2017 Received	2018 Est. Rev.	2019 Est. Rev.	Footnote(s)
Homeland Security Grant Program	97.067	Department of Homeland Security	950007	30.4	0.0	0.0	2, 6, 8

FY 2012 HSGP and THSGP provide grant funding to assist state and local governments in obtaining the resources required to support the National Preparedness Goal's (NPG's) associated mission areas and core capabilities. FY 2012 THSGP provides funding directly to eligible tribes to help strengthen the nation against risks associated with potential terrorist attacks. The FY 2012 HSGP is comprised of three interconnected grant programs:

- State Homeland Security Program (SHSP): SHSP supports the implementation of State Homeland Security Strategies to address the identified planning, organization, equipment, training, and exercise needs to prevent, protect against, mitigate, respond to, and recover from acts of terrorism and other catastrophic events.
- Urban Areas Security Initiative (UASI): The UASI program addresses the unique planning, organization, equipment, training, and exercise needs of high-threat, high-density Urban Areas, and assists them in building an enhanced and sustainable capacity to prevent, protect against, mitigate, respond to, and recover from acts of terrorism.
- Operation Stonegarden (OPSG): OPSG supports enhanced cooperation and coordination among local, tribal, territorial, State, and Federal law enforcement agencies in a joint mission to secure the United States' borders along routes of ingress from international borders to include travel corridors in States bordering Mexico and Canada, as well as States and territories with international water borders.

All three programs are founded on risk-driven, capabilities-based strategic plans. These strategic plans outline capability requirements and inform how available funding may be applied to manage risk. For these plans to be effective, government officials and elected leaders, working with the whole community, must consider how to sustain current capability levels and address potential shortfalls to prevent, protect, mitigate, respond to, and recover from disasters.

The FY 2013 HSGP plays an important role in the implementation of the National Preparedness System (NPS) by supporting the building, sustainment, and delivery of core capabilities essential to achieving the National Preparedness Goal (NPG) of a secure and resilient Nation. Delivering core capabilities requires the combined effort of the whole community, rather than the exclusive effort of any single organization or level of government. The FY 2013 HSGP's allowable costs support efforts to build and sustain core capabilities across the Prevention, Protection, Mitigation, Response, and Recovery mission areas by setting the following priorities and objectives:

Priority One: Implementation of the NPS and a Whole Community Approach to Homeland Security and Emergency Management

State of Arizona

(Dollars in Thousands)

Agency: Radiation Regulatory Agency

Grant/Project and Description	CFDA	Grantor	AFIS ID	2017 Received	2018 Est. Rev.	2019 Est. Rev.	Footnote(s)
Homeland Security Grant Program	97.067	Department of Homeland Security	950007	30.4	0.0	0.0	2, 6, 8

- Objective One: Completion of the THIRA process in alignment with National Preparedness System guidance to identify the resources required to deliver core capabilities.
- Objective Two: Conduct risk driven, capabilities-based planning through whole community councils and working groups.
- Objective Three: Organization – Typing of equipment, and credentialing and training of personnel.
- Objective Four: Sustaining Capabilities.

Priority Two: Building and Sustaining Law Enforcement Terrorism Prevention Capabilities

- Objective One: Nationwide Suspicious Activity Reporting Initiative (NSI)

Priority Three: Maturation and Enhancement of State and Major Urban Area Fusion Centers

- Objective One: Baseline Capabilities.
- Objective Two: Analytic Capabilities.

The Department of Homeland Security Appropriations Act, 2013 (Public Law 113-6) authorized additional funding allocated at the discretion of the Secretary of the Department Homeland Security, to support appropriated programs in FY 2013. DHS has augmented the SHSP and UASI grant programs in FY 2013 by allocating an additional \$163.4 million to support the following priority areas:

Priority Four: Innovation and Sustained Support for the National Campaign for Preparedness

- Objective One: Foster individual and community preparedness and resilience by identifying needs; mobilizing partners; and creating innovative and effective solutions that can be grown, sustained, and replicated.

Priority Five: Improve Immediate Emergency Victim Care at Mass Casualty Events

- Objective One: Improve emergency care to victims of mass casualty events, including mass shootings.
- Objective Two: Improve community first aid training.

Minimum funding amounts are not prescribed by the Department for these priorities; however grantees are expected to support state, local, and regional efforts in achieving the desired outcomes of one or more of these priorities.

The Grants to States Program is the largest grant program run by IMLS; it provides funds to State Library Administrative Agencies (SLAAs) using a population-based formula. SLAAs may use federal funds to support statewide initiatives and services; they also may distribute the funds through subgrant competitions or cooperative agreements to public, academic, research, school, and special libraries in their state.

Regional Information Sharing Systems	16.610	Department of Justice	16610	0.0	0.0	0.0	²

The RISS is a nationwide program supporting local, state, federal, and tribal law enforcement combat efforts in the areas of terrorism, drug trafficking, organized criminal activity, criminal gangs, violent crime, human trafficking, and other regional criminal priorities. RISS provides secure, nationwide information and intelligence-sharing capabilities, secure, but unclassified electronic communications capabilities, investigative analysis support, specialized investigative equipment, and other investigative support services.

RISS operates in all 50 states, the District of Columbia, U.S. territories, Canada, and England. RISS is the collective effort of six regional centers. The goal is to promote officer safety, enhance the ability to identify, target, and remove criminal conspiracies and activities spanning multi-jurisdictional, multi-state, and sometime international boundaries. While the RISS centers operate independently and are tailored to support the unique needs of the region served, they also operate as a collective body to address national criminal justice issues. RISS is governed by a National Policy Group comprised of the six RISS Directors and the Chair of each regional center's board of directors. The Bureau of Justice Assistance (BJA), U.S. Department of Justice (DOJ), administers the RISS Program.

Highway Planning and Construction	20.205	Department of Transportation	20205	561,146.3	561,146.3	561,146.3	²

Federal-aid Highway Program: To assist State transportation agencies in the planning and development of an integrated, interconnected transportation system important to interstate commerce and travel by constructing and rehabilitating the National Highway System (NHS), including the Eisenhower Interstate System; for transportation improvements to many other public roads; to provide aid for the repair of Federal-aid highways following disasters; to foster safe highway design; to replace or rehabilitate deficient or obsolete bridges; and to provide for other special purposes. This program also provides for the improvement of roads in Puerto Rico, Guam, the U.S. Virgin Islands, American Samoa, and the Commonwealth of the Northern Mariana Islands. The Federal Lands Transportation Program (FLTP) provides assistance to the Federal Land Management Agencies (FLMAs) for Federally-owned roads and trails. It provides transportation engineering services and funding for planning, design, construction, and rehabilitation of the highways and bridges providing access to and on federally owned lands. The Federal Lands Highway organization also provides training, technology, deployment, engineering services, and products to other customers.

National Motor Carrier Safety	20.218	Department of Transportation	20218	277.6	277.6	277.6	²
--------------------------------------	---------------	---	-------	-------	-------	-------	--------------

The MCSAP is a Federal grant program that provides financial assistance to States to reduce the number and severity of accidents and hazardous materials incidents involving commercial motor vehicles (CMV). The goal of the MCSAP is to reduce CMV-involved accidents, fatalities, and injuries through consistent, uniform, and effective CMV safety programs. Investing grant monies in appropriate safety programs will increase the likelihood that safety defects, driver deficiencies, and unsafe motor carrier practices will be detected and corrected before they become contributing factors to accidents.

New Freedom Program	20.521	Department of Transportation	20521	9.9	9.9	9.9	²

To provide grants to recipients for new public transportation services and public transportation alternatives beyond those required by the Americans with Disabilities Act of 1990 (42 U.S.C. 12101 et. Seq.) that assists individuals with disabilities with transportation, including transportation to and from jobs and employment support services.

The program was repealed under MAP-21. The New Freedom Program activities are now eligible under the Section 5310 Enhanced Mobility of Seniors and Individuals with Disabilities Program (20.513)

In FY 2012 the Consolidated Specialized Transportation Grant Program replaces and combines three existing grant programs for targeted populations (formerly the Elderly Individuals and Individuals with Disabilities Program, the New Freedom program, and the Job Access and Reverse Commute program). This program would continue the goals of these programs by funding alternative forms of transportation where traditional services are unavailable, inappropriate, or insufficient.

Substance Abuse and Mental Health Services_Projects of Regional and National Significance	93.243	Department of Health and Human Services	VSA15001	165.0	0.0	0.0	1, 2, 8

Substance Abuse and Mental Health Service Administration (SAMHSA) was reauthorized by the Children's Health Action of 2000, Public law 106-310. Under this reauthorization, SAMHSA was given the authority to address priority substance abuse treatment, prevention and mental health needs of regional and national significance through assistance (grants and cooperative agreements) to States, political subdivisions of States, Indian tribes and tribal organizations, and other public or nonprofit private entities. Under these sections, CSAT, CMHS and CSAP seek to expand the availability of effective substance abuse treatment and recovery services available to Americans to improve the lives of those affected by alcohol and drug additions, and to reduce the impact of alcohol and drug abuse on individuals, families, communities and societies and to address priority mental health needs of regional and national significance and assist children in dealing with violence and traumatic events through by funding grant and cooperative agreement projects. Grants and cooperative agreements may be for (1) knowledge and development and application projects for treatment and rehabilitation and the conduct or support of evaluations of such projects; (2) training and technical assistance; (3) targeted capacity response programs (4) systems change grants including statewide family network grants and client-oriented and consumer run self-help activities and (5) programs to foster health and development of children; (6) coordination and integration of primary care services into publicly-funded community mental health centers and other community-based behavioral health settings funded under Affordable Care Act (ACA).

<u>Performance Measures</u>	<u>2017</u>	<u>2018</u>	<u>2019</u>
Number of training offerings and technical assistance provided	48	Not Applicable	Not Applicable
Total number of training offerings and technical assistance provided by the Department through its contracted service provider. FY16 actual covers the part of FY16 in which the program was in place.

VA Homeless Providers Grant and Per Diem Program	64.024	Department of Veterans Affairs	VSA17002	23.8	165.7	0.0	^{2, 6}

To assist public and nonprofit private entities in establishing new programs and service centers to furnish supportive services and supportive housing for homeless veterans through grants that may be used to acquire, renovate or alter facilities, and to provide per diem payments, or in-kind assistance in lieu of per diem payments, to eligible entities which established programs after November 10, 1992 that provide supportive services and supportive housing for homeless veterans. (Note: The number of vans was limited to 20 for the life of this grant. This Van Restriction has not been lifted.)

<u>Performance Measures</u>	<u>2017</u>	<u>2018</u>	<u>2019</u>
Expenditure of federal dollars in Arizona by the U.S. Department of Veterans Affairs	3,076.8	3,919.0	3,995.0
Measure reflects the amount of federal dollars spent by the U.S. Department of Veterans Affairs (VA) in Arizona. All known federal funds entering into Arizona economy as a result of veterans living in Arizona are included. The VA publishes this report on September 30th each year; therefore, the figure provided for FY17 is the amount published in the most recent report (September 30, 2016). Federal dollars have increased while the VA Office of the Actuary has adjusted its estimate of veterans living in the state upwards (based on a complex projection methodology for every county in US which even includes migration patterns for veterans displaced by Hurricanes Katrina and Rita).

Cooperating Technical Partners	97.045	Department of Homeland Security	892015	0.0	0.0	0.0	2, 6

The Cooperating Technical Partners Program was developed to supplement and expand the on-going efforts of participating National Flood Insurance Program (NFIP) communities, Tribes, and States (and the agencies and organizations who support them) who perform certain functions in the flood risk analysis, flood hazard identification, flood risk communication and mitigation processes to reduce flood losses and protect life and property from the risk of future flood damage. The Cooperating Technical Partners Program seeks to: increase local involvement in, and ownership of, the development and maintenance of Flood Insurance Rate Maps (FIRMS) and risk related products produced for the NFIP; build and maintain partner capabilities; continue to increase local ownership of data and processes; and establish sound performance criteria for current Cooperating Technical Partners.

In FY 2009, FEMA transitioned from its Map Modernization (Map Mod) program to Risk MAP (Mapping, Assessment, and Planning). The vision for Risk MAP is to deliver quality data that increases public awareness of flood hazard risk and leads to action that reduces flood risk to life and property. Risk MAP builds on flood hazard data and maps produced during the Map Mod program. FEMA collaborates with a variety of stakeholders to achieve the following goals under Risk MAP:

1. Flood Hazard Data. Address gaps in flood hazard data to form a solid foundation for risk assessment, floodplain management, and actuarial soundness of the NFIP.
 2. Public Awareness/Outreach. Ensure that a measurable increase of the public's awareness and understanding of risk results in a measurable reduction of current and future vulnerability.
 3. Hazard Mitigation Planning. Lead and support States, local, and Tribal communities to effectively engage in risk-based mitigation planning resulting in sustainable actions that reduce or eliminate risks to life and property from natural hazards.
 4. Enhanced Digital Platform. Provide an enhanced digital platform that improves management of Risk MAP, stewards information produced by Risk MAP, and improves communication and sharing of risk data and related products to all levels of government and the public.
 5. Alignment and Synergies. Align Risk Analysis programs and develop synergies to enhance decision-making capabilities through effective risk communication and management.
- Information about Risk MAP (including goals, strategies, progress and success stories), can be found on FEMA's website at <http://www.fema.gov/risk-mapping-assessment-planning>.
