(602) 542-5381 • FAX: (602) 542-0868

John Arnold
Director

January 2015

The Honorable Douglas A. Ducey, Governor of Arizona and Honorable Members of the Arizona State Legislature:

FEDERAL FUNDS TRENDS

The revenue and expenditure data and estimates of state agencies indicate that federal funding continued to decrease in fiscal year 2014; but, increases can be expected in fiscal years 2015 and 2016. Sequestration, the expiration of the federal stimulus program, and the Affordable Care Act are all contributing factors to these trends.

Figure 1 displays the trend in federal funds received by state agencies since fiscal year 1993 and the percentage change in receipts from year to year.

FEDERAL FUNDS OUTLOOK

The \$11.8 billion reported for FY 2014 represents a continued decrease from the \$12.0 billion stated for FY 2013. This decline is largely due to the end of the federal stimulus program. For FY 2015, an increase in federal funding is expected due to the continued expansion of eligibility in the Affordable Care Act. All other programs are expecting to continue with present funding levels.

Figure 1
Federal Funding Trend Including Estimates
for FY '15 and FY '16

The Honorable Douglas A. Ducey, Governor of Arizona,
and Honorable Members of the Arizona State Legislature
January 2015

Health and Welfare will continue to dominate federal revenues to the State. As Figure 2 demonstrates, Health and Welfare constitutes 81.9% or \$9.6 billion of the total amount received by the State from the federal government in fiscal year 2014. Growth will continue in this area as Medicaid membership grows. The next primary component of federal funds, Education, is expected to level-off after the decline in the education funding from the American Recovery and Reinvestment Act (ARRA) of 2009.

The information contained in this document is compiled from data provided by state agencies through the normal budget process. Forty-three state agencies reported federal revenue or expenditures for fiscal year 2014 and estimates for fiscal years 2015 and 2016. The information was submitted to OSPB in September 2014. Specific questions on the reported information or requests for updated forecasts should be directed to the reporting agency. Specific grant information is available for review at individual state agencies and at the Governor's Office of Strategic Planning and Budgeting.

Sincerely,

John Arnold
Director

Summary

Building the Statement of Federal Funds

Preparing the Statement of Federal Funds is based primarily on agency reported information

THE STATEMENT OF FEDERAL FUNDS is required by A.R.S. §41-723. The Director of the Governor’s Office of Strategic Planning and Budgeting (OSPB) is designated as the Federal-state Fiscal Research Officer and is **required** to submit to the legislature at each regular session the Statement of Federal Funds. The purpose of this section is to outline the process of collecting federal funds information from Arizona state agencies and how that information is organized in this publication.

Process

The process of collecting federal funds information begins on or before June 1, when the Governor’s Office of Strategic Planning and Budgeting issues instructions to guide agencies in preparing their budget requests. Agency requests must be submitted to OSPB by September 1 unless an extension is granted for up to an additional 30 days.

As a part of an agency’s budget request, information on federal funds is submitted by each state agency receiving federal assistance. Once the Governor’s Office of Strategic Planning and Budgeting collects the information, it is loaded into a database and categorized by revenues and expenditures, area of government, and agency. Currently, there are no reports from the federal government organized in such a fashion to allow for a data integrity process to ensure the accuracy of agency reported information. OSPB will continue to improve the reporting of this information in both content and format.

Format

The Statement of Federal Funds publication is organized into three primary areas. It contains a Summary section, a Federal Operating Budget Detail section organized by area of government, and an Appendix.

The *SUMMARY* section contains the following three areas.

1. Federal Revenues:
 - a. Summary of Federal Revenue by Area of Government—provides federal revenue received for fiscal year 2014 by area of government (e.g., General Government, Health and Welfare, Inspection and Regulation, Education, Protection and Safety, Transportation, and Natural Resources).
 - b. Summary of Federal Revenue by Agency—provides federal revenue actually received for FY 2014 and estimates for fiscal years 2015 and 2016 by area of government and agency.

2. Federal Expenditures:
 - a. Summary of Federal Expenditures by Area of Government—provides federal expenditures for fiscal year 2014 by area of government (e.g., General Government, Health and Welfare, Inspection and Regulation, Education, Protection and Safety, Transportation, and Natural Resources).
 - b. Summary of Federal Expenditures by Agency—provides federal actual expenditures for FY 2014 and estimated expenditures for fiscal years 2015 and 2016 by area of government and by agency.

3. Federal Functions

- a. Federal Funds Revenue by Function—provides federal revenue received for fiscal year 2014 and estimates for fiscal years 2015 and 2016 by function of government (e.g., Emergency Management and National Defense, Agriculture – Extension Services, Community and Regional Development, Health – Medicaid).
- b. Federal Funds Expenditures by Function—provides federal expenditures for fiscal year 2014 and estimated expenditures for fiscal years 2015 and 2016 by function of government (e.g., Emergency Management and National Defense, Agriculture – Extension Services, Community and Regional Development, Health – Medicaid).

The *FEDERAL OPERATING DETAIL*, which makes up the majority of the publication, is organized by agency. Each agency section is sorted by Grant/Project in alphabetical order. The detail contains actual funds available and received in fiscal year 2014 as well as estimated revenues for fiscal years 2015 and 2016. Expenditures for fiscal years 2015 and 2016 are not located in this section but can be found in the Summary of Federal Expenditures by Agency in the *SUMMARY* section. Furthermore, this section contains select object level detail for FY 2014 actual expenditures. Please note, fiscal year 2014 expenditures may exceed fiscal year 2014 revenues as carry-forward balances are spent down.

The out year estimates give an idea of whether each grant will increase or decrease in ensuing years. However, state agencies often do not know from one year to the next whether federal funds will be available. As such, some of the out year estimates provided by agencies are speculative due to the lack of reliable information.

Other details in the *FEDERAL OPERATING DETAIL* section include:

1. Grant/Project—name of the federal grant
2. Catalog of Federal Domestic Assistance (CFDA)—the CFDA number is a five-digit number, which identifies a type of federal grant. By using the CFDA numbers, the Governor’s Office of Strategic Planning and Budgeting is able to identify the area of the federal government from which each grant is awarded.
3. Grantor—The acronym or name of the federal agency that awards the grant
4. Description—provides information on the proposed use of the grant money as provided by the agencies

Finally, the *APPENDIX* includes all of the footnotes used in the operating detail section of the publication and a list of acronyms that are used throughout the publication.

**Summary of Federal Revenue by Area of Government
2014 Through 2016
(Dollars in Thousands)**

	Actual 2014	Estimate 2015	Estimate 2016
General Government	129,577.9	115,211.4	106,919.8

Nonpoint Source Implementation Grants	66.460	Environmental Protection Agency	090004	0.0	0.0	0.0	2, 6

To assist States, the District of Columbia, American Samoa, Guam, Northern Marianas, Puerto Rico, Virgin Islands (hereinafter referred to as States), and qualified Indian Tribes and intertribal consortia in implementing EPA-approved Section 319 nonpoint source management programs. Funding Priority - Fiscal Year 2013: EPA's funding priority is to award grants that promote the development and implementation of watershed-based plans, focusing on watersheds with water quality impairments caused by nonpoint sources, which result in improved water quality in impaired waters. These watershed plans are a mechanism to coordinate monitoring and planning on a watershed basis and will build a foundation for effective implementation actions using federal and other funding. Nonpoint Source implementation projects include best management practice (BMP) installation for animal wastes, sediment, pesticide and fertilizer control, a variety of other structural and non-structural practices, watershed planning, monitoring, watershed coordinators, technology demonstration, and a variety of education/outreach programs, among others.

<u>Performance Measures</u>	<u>2014</u>	<u>2015</u>	<u>2016</u>

State Energy Program	81.041	Department of Energy	090005	1,099.4	0.0	0.0	1, 2, 6

The program provides financial and technical assistance to State governments to create and implement a variety of energy efficiency and conservation projects in order to provide leadership to maximize the benefits of energy efficiency and renewable energy through communications and outreach activities, technology deployment, and accessing new partnerships and resources across the geographic panorama of the United States and its territories. The program's objectives are:

- * To reduce fossil fuel emissions created as a result of activities within the jurisdictions of eligible entities;
- * To reduce the total energy use of the eligible entities; and
- * To improve energy efficiency in the transportation, building, and other sectors.

Agency: Arizona Department of Administration

Grant/Project and Description	CFDA	Grantor	AFIS ID	2014 Received	2015 Est. Rev.	2016 Est. Rev.	Footnote(s)
Highway Planning and Construction	20.205	Department of Transportation	630000	135.0	135.0	135.0	6

Federal-aid Highway Program: To assist State transportation agencies in the planning and development of an integrated, interconnected transportation system important to interstate commerce and travel by constructing and rehabilitating the National Highway System (NHS), including the Eisenhower Interstate System; for transportation improvements to many other public roads; to provide aid for the repair of Federal-aid highways following disasters; to foster safe highway design; to replace or rehabilitate deficient or obsolete bridges; and to provide for other special purposes. This program also provides for the improvement of roads in Puerto Rico, Guam, the U.S. Virgin Islands, American Samoa, and the Commonwealth of the Northern Mariana Islands. The Federal Lands Transportation Program (FLTP) provides assistance to the Federal Land Management Agencies (FLMAs) for Federally-owned roads and trails. It provides transportation engineering services and funding for planning, design, construction, and rehabilitation of the highways and bridges providing access to and on federally owned lands. The Federal Lands Highway organization also provides training, technology, deployment, engineering services, and products to other customers.

<u>Performance Measures</u>	<u>2014</u>	<u>2015</u>	<u>2016</u>

Interoperable Emergency Communications	97.055	Department of Homeland Security	884140	0.0	124.7	0.0	2, 4, 6, 8, 11

To provide governance, planning, training and exercise funding to States, territories, and local and tribal governments to carry out initiatives to improve interoperable emergency communications, including communications in collective response to natural disasters, acts of terrorism, and other man-made disasters. All activities proposed under the program must be integral to interoperable emergency communications and must be aligned with the goals, objectives, and/or initiatives identified in the grantee's approved Statewide Communication Interoperability Plan (SCIP). The Program provides the flexibility to purchase interoperable communications equipment.

<u>Performance Measures</u>	<u>2014</u>	<u>2015</u>	<u>2016</u>
Attendance by regional agencies in opportunities to provide outreach and education	31.2	0	0
The project will be evaluated on the following criteria:			
1.) Number of Group Meetings attended by the Regional Interoperable Communications Engagement Coordinator and the Training & Exercise Coordinator.			
2.) Number of One-on-One Meetings between the Coordinators and agency public information officers, communication managers, regional communications centers/systems, emergency managers, and other public safety stakeholders.			
3.) Attendance by regional agencies in PSCC, SIEC workgroup meetings, conference calls, and other opportunities to provide outreach and education to encourage productive discussion regarding the benefits and challenges of regionalized communications strategies.			
The criteria will be tracked in a monthly written report to the Manager of the Public Safety Interoperable Communications office and presented to the Public Safety Communications Advisory Commission during their bi-monthly meetings. In addition, the PSIC office is held accountable for results through regular meetings with the State CIO and Deputy Director of the Arizona Department of Administration.

Homeland Security Grant Program	97.067	Department of Homeland Security	884180	31.4	0.0	0.0	2, 6, 8

FY 2012 HSGP and THSGP provide grant funding to assist state and local governments in obtaining the resources required to support the National Preparedness Goal's (NPG's) associated mission areas and core capabilities. FY 2012 THSGP provides funding directly to eligible tribes to help strengthen the nation against risks associated with potential terrorist attacks. The FY 2012 HSGP is comprised of three interconnected grant programs:

- State Homeland Security Program (SHSP): SHSP supports the implementation of State Homeland Security Strategies to address the identified planning, organization, equipment, training, and exercise needs to prevent, protect against, mitigate, respond to, and recover from acts of terrorism and other catastrophic events.
- Urban Areas Security Initiative (UASI): The UASI program addresses the unique planning, organization, equipment, training, and exercise needs of high-threat, high-density Urban Areas, and assists them in building an enhanced and sustainable capacity to prevent, protect against, mitigate, respond to, and recover from acts of terrorism.
- Operation Stonegarden (OPSG): OPSG supports enhanced cooperation and coordination among local, tribal, territorial, State, and Federal law enforcement agencies in a joint mission to secure the United States' borders along routes of ingress from international borders to include travel corridors in States bordering Mexico and Canada, as well as States and territories with international water borders.

All three programs are founded on risk-driven, capabilities-based strategic plans. These strategic plans outline capability requirements and inform how available funding may be applied to manage risk. For these plans to be effective, government officials and elected leaders, working with the whole community, must consider how to sustain current capability levels and address potential shortfalls to prevent, protect, mitigate, respond to, and recover from disasters.

The FY 2013 HSGP plays an important role in the implementation of the National Preparedness System (NPS) by supporting the building, sustainment, and delivery of core capabilities essential to achieving the National Preparedness Goal (NPG) of a secure and resilient Nation. Delivering core capabilities requires the combined effort of the whole community, rather than the exclusive effort of any single organization or level of government. The FY 2013 HSGP's allowable costs support efforts to build and sustain core capabilities across the Prevention, Protection, Mitigation, Response, and Recovery mission areas by setting the following priorities and objectives:

Priority One: Implementation of the NPS and a Whole Community Approach to Homeland Security and Emergency Management

**State of Arizona
Federal Operating Budget Detail
(Dollars in Thousands)**

Agency: Arizona Department of Administration

<u>Grant/Project and Description</u>	<u>CFDA</u>	<u>Grantor</u>	<u>AFIS ID</u>	<u>2014 Received</u>	<u>2015 Est. Rev.</u>	<u>2016 Est. Rev.</u>	<u>Footnote(s)</u>
Homeland Security Grant Program	97.067	Department of Homeland Security	884180	31.4	0.0	0.0	2, 6, 8

- Objective One: Completion of the THIRA process in alignment with National Preparedness System guidance to identify the resources required to deliver core capabilities.
- Objective Two: Conduct risk driven, capabilities-based planning through whole community councils and working groups.
- Objective Three: Organization – Typing of equipment, and credentialing and training of personnel.
- Objective Four: Sustaining Capabilities.

Priority Two: Building and Sustaining Law Enforcement Terrorism Prevention Capabilities

- Objective One: Nationwide Suspicious Activity Reporting Initiative (NSI)

Priority Three: Maturation and Enhancement of State and Major Urban Area Fusion Centers

- Objective One: Baseline Capabilities.
- Objective Two: Analytic Capabilities.

The Department of Homeland Security Appropriations Act, 2013 (Public Law 113-6) authorized additional funding allocated at the discretion of the Secretary of the Department Homeland Security, to support appropriated programs in FY 2013. DHS has augmented the SHSP and UASI grant programs in FY 2013 by allocating an additional \$163.4 million to support the following priority areas:

Priority Four: Innovation and Sustained Support for the National Campaign for Preparedness

- Objective One: Foster individual and community preparedness and resilience by identifying needs; mobilizing partners; and creating innovative and effective solutions that can be grown, sustained, and replicated.

Priority Five: Improve Immediate Emergency Victim Care at Mass Casualty Events

- Objective One: Improve emergency care to victims of mass casualty events, including mass shootings.
- Objective Two: Improve community first aid training.

Minimum funding amounts are not prescribed by the Department for these priorities; however grantees are expected to support state, local, and regional efforts in achieving the desired outcomes of one or more of these priorities.

Address interoperable communications gaps	0	0	0
Address interoperable communications gaps in the North RAC region that have been identified during the National Emergency Communications Plan (NECP) assessment process, and within the Target Capabilities Assessment (TCA) for counties in this region. The project will also assist each county in the RAC with developing a Tactical Interoperable Communications Plan, and develop a Strategic Communications Migration Plan for the North RAC.

Homeland Security Grant Program	97.067	Department of Homeland Security	884210	1.4	13.6	0.0	2, 6, 8

FY 2012 HSGP and THSGP provide grant funding to assist state and local governments in obtaining the resources required to support the National Preparedness Goal's (NPG's) associated mission areas and core capabilities. FY 2012 THSGP provides funding directly to eligible tribes to help strengthen the nation against risks associated with potential terrorist attacks. The FY 2012 HSGP is comprised of three interconnected grant programs:

- State Homeland Security Program (SHSP): SHSP supports the implementation of State Homeland Security Strategies to address the identified planning, organization, equipment, training, and exercise needs to prevent, protect against, mitigate, respond to, and recover from acts of terrorism and other catastrophic events.
- Urban Areas Security Initiative (UASI): The UASI program addresses the unique planning, organization, equipment, training, and exercise needs of high-threat, high-density Urban Areas, and assists them in building an enhanced and sustainable capacity to prevent, protect against, mitigate, respond to, and recover from acts of terrorism.
- Operation Stonegarden (OPSG): OPSG supports enhanced cooperation and coordination among local, tribal, territorial, State, and Federal law enforcement agencies in a joint mission to secure the United States' borders along routes of ingress from international borders to include travel corridors in States bordering Mexico and Canada, as well as States and territories with international water borders.

All three programs are founded on risk-driven, capabilities-based strategic plans. These strategic plans outline capability requirements and inform how available funding may be applied to manage risk. For these plans to be effective, government officials and elected leaders, working with the whole community, must consider how to sustain current capability levels and address potential shortfalls to prevent, protect, mitigate, respond to, and recover from disasters.

The FY 2013 HSGP plays an important role in the implementation of the National Preparedness System (NPS) by supporting the building, sustainment, and delivery of core capabilities essential to achieving the National Preparedness Goal (NPG) of a secure and resilient Nation. Delivering core capabilities requires the combined effort of the whole community, rather than the exclusive effort of any single organization or level of government. The FY 2013 HSGP's allowable costs support efforts to build and sustain core capabilities across the Prevention, Protection, Mitigation, Response, and Recovery mission areas by setting the following priorities and objectives:

Priority One: Implementation of the NPS and a Whole Community Approach to Homeland Security and Emergency Management

**State of Arizona

(Dollars in Thousands)**

Agency: Arizona Department of Administration

<u>Grant/Project and Description</u>	<u>CFDA</u>	<u>Grantor</u>	<u>AFIS ID</u>	<u>2014 Received</u>	<u>2015 Est. Rev.</u>	<u>2016 Est. Rev.</u>	<u>Footnote(s)</u>
Homeland Security Grant Program	97.067	Department of Homeland Security	884210	1.4	13.6	0.0	2, 6, 8

- Objective One: Completion of the THIRA process in alignment with National Preparedness System guidance to identify the resources required to deliver core capabilities.
- Objective Two: Conduct risk driven, capabilities-based planning through whole community councils and working groups.
- Objective Three: Organization – Typing of equipment, and credentialing and training of personnel.
- Objective Four: Sustaining Capabilities.

Priority Two: Building and Sustaining Law Enforcement Terrorism Prevention Capabilities

- Objective One: Nationwide Suspicious Activity Reporting Initiative (NSI)

Priority Three: Maturation and Enhancement of State and Major Urban Area Fusion Centers

- Objective One: Baseline Capabilities.
- Objective Two: Analytic Capabilities.

The Department of Homeland Security Appropriations Act, 2013 (Public Law 113-6) authorized additional funding allocated at the discretion of the Secretary of the Department Homeland Security, to support appropriated programs in FY 2013. DHS has augmented the SHSP and UASI grant programs in FY 2013 by allocating an additional \$163.4 million to support the following priority areas:

Priority Four: Innovation and Sustained Support for the National Campaign for Preparedness

- Objective One: Foster individual and community preparedness and resilience by identifying needs; mobilizing partners; and creating innovative and effective solutions that can be grown, sustained, and replicated.

Priority Five: Improve Immediate Emergency Victim Care at Mass Casualty Events

- Objective One: Improve emergency care to victims of mass casualty events, including mass shootings.
- Objective Two: Improve community first aid training.

Minimum funding amounts are not prescribed by the Department for these priorities; however grantees are expected to support state, local, and regional efforts in achieving the desired outcomes of one or more of these priorities.

Promotes agricultural production, forest management, and environmental quality as compatible national goals and optimizes environmental benefits on eligible land with farmers, ranchers, and non-industrial private forest land owners. It is a voluntary program using partnerships with local, State, Tribal and Federal agencies, producer associations, and nonprofit organizations to provide flexible technical and financial assistance to install and maintain conservation practices include those related to organic production, that sustain food and fiber production. The purpose of this program is achieved through the implementation of structural, vegetative, and land management practices on eligible land. This program is funded through the Commodity Credit Corporation (CCC). NRCS provides overall program administration and management.

The Federal Seed Program prevents mislabeled seed from moving in interstate commerce by providing for random sampling of seeds to insure accurate labeling of seed characteristics. The Plant Variety Protection Program offers legal protection to developers of new varieties of plants which reproduce by providing the equivalent of a patent to the plant's developer. The Research and Promotion Programs provide for the collection of an assessment for each commodity covered by statutes to enable the commodity industries to carry out research and promotion activities. It is the responsibility of the Agricultural Marketing Service to assure responsible use of these assessments in meeting the research and promotion objective. The Dairy and Tobacco Adjustment Act authorized the establishment of a National dairy promotion research and nutrition education program. To eliminate deceptive, unfair and fraudulent trade practices in the processing and marketing of food and agricultural products; provide assistance to those striving to achieve this objective. The Pesticide Data Program works with participating States to collect and analyze data on pesticide use and residue levels for selected commodities in the nation's food supply. This program provides statistically based data to Federal agencies for use in making policy decisions for regulatory and educational purposes.

Performance Partnership Grants	66.605	Environmental Protection Agency	120000	327.0	376.7	376.7	6

Improving EPA's partnership with the States and Tribes is critical to accelerating environmental outcomes. Performance Partnership Grants (PPGs) are the cornerstone of the National Environmental Performance Partnership System (NEPPS) -- EPA's strategy to strengthen partnerships and build a results-based management system. PPGs are innovative grant delivery tools that allow States and Tribes to combine up to 18 eligible State and Tribal Assistance Grants (STAG) grants into a single grant with a single budget. PPGs can reduce administrative transaction costs, provide the flexibility to direct resources toward the highest priority environmental problems, and support cross-media approaches and initiatives. EPA's overarching goal is to optimize the leveraging power of PPGs to focus strategically on the joint priorities of EPA, States and Tribes. PPGs do not include any funding in addition to the state and tribal assistance grants provided under other statutory authorities.

Funding Priority - Fiscal Year 2013: Many state environmental agencies are experiencing severe budget cuts and will be challenged to maintain core programs. In this climate, EPA's regional offices will give priority to flexibility and opportunities to work collaboratively with States and Tribes. The Agency will continue to focus on our ongoing goals for the PPG program, which are: (1) strengthen partnerships between EPA, the States, Tribes, and interstate agencies through joint planning and priority setting to deploy resources more effectively; (2) provide States, Tribes, and interstate agencies with the flexibility to direct resources where they are needed most to address environmental and public health priorities; (3) link program activities more effectively with environmental and public health goals and environmental outcomes; (4) foster implementation of innovative approaches such as pollution prevention, ecosystem management, and community-based environmental protection strategies; and (5) provide savings by streamlining administrative requirements.

<u>Performance Measures</u>	<u>2014</u>	<u>2015</u>	<u>2016</u>
Funds pink bollworm sterile insect technology			
To eliminate the native pink bollworm moth populations, a mating disruption strategy is used; sterile moths are mass-produced and deployed by aircraft. This is the primary approach in eradicating the pink bollworm on cotton crops. Effectiveness of eradication is measured in terms of reduction of native moth populations and cotton boll infestations. Insect traps are inspected daily to identify and count moth captures. Also, cotton bolls are sampled for larvae infestations. Post-eradication years will focus on monitoring traps for any native pink bollworm moths.

Recovery Act - Internet Crimes against Children Task Force Program (ICAC)	16.800	Department of Justice	622000	15.0	15.0	15.0	2, 6

The ICAC Task Force Program supports a national network of multiagency, multijurisdictional task forces and other projects to prevent technology facilitated child sexual exploitation with at least one task force in each of the 50 states. The ICAC task forces provide forensic and investigative technical assistance to law enforcement and prosecutorial officials, as well as community education information to parents, educators, prosecutors, law enforcement, and others concerned with child victimization.

As provided for in Section 103 of the Protect Our Children Act of 2008 (the "Protect Act"), the ICAC task forces shall be dedicated to the following:

- increasing the investigative capabilities of state and local law enforcement officers in the detection, investigation, and apprehension of Internet crimes against children offenses or offenders, including technology-facilitated child exploitation offenses.
- conducting proactive and reactive Internet crimes against children investigations.
- providing training and technical assistance to ICAC task forces and other Federal, state, and local law enforcement agencies in the areas of investigations, forensics, prosecution, community outreach, and capacity-building, using recognized experts to assist in the development and delivery of training programs.
- increasing the number of Internet crimes against children offenses being investigated and prosecuted in both Federal and state courts.
- creating a multiagency task force response to Internet crimes against children offenses within each state.
- enhancing nationwide responses to Internet crimes against children offenses, including assisting other ICAC task forces, as well as other Federal, state, and local agencies with Internet crimes against children investigations and prosecutions.
- developing and delivering Internet crimes against children public awareness and prevention programs.

Homeland Security Grant Program	97.067	Department of Homeland Security	747500	26.4	135.6	0.0	1, 2, 6, 7

FY 2012 HSGP and THSGP provide grant funding to assist state and local governments in obtaining the resources required to support the National Preparedness Goal's (NPG's) associated mission areas and core capabilities. FY 2012 THSGP provides funding directly to eligible tribes to help strengthen the nation against risks associated with potential terrorist attacks. The FY 2012 HSGP is comprised of three interconnected grant programs:

- State Homeland Security Program (SHSP): SHSP supports the implementation of State Homeland Security Strategies to address the identified planning, organization, equipment, training, and exercise needs to prevent, protect against, mitigate, respond to, and recover from acts of terrorism and other catastrophic events.
- Urban Areas Security Initiative (UASI): The UASI program addresses the unique planning, organization, equipment, training, and exercise needs of high-threat, high-density Urban Areas, and assists them in building an enhanced and sustainable capacity to prevent, protect against, mitigate, respond to, and recover from acts of terrorism.
- Operation Stonegarden (OPSG): OPSG supports enhanced cooperation and coordination among local, tribal, territorial, State, and Federal law enforcement agencies in a joint mission to secure the United States' borders along routes of ingress from international borders to include travel corridors in States bordering Mexico and Canada, as well as States and territories with international water borders.

All three programs are founded on risk-driven, capabilities-based strategic plans. These strategic plans outline capability requirements and inform how available funding may be applied to manage risk. For these plans to be effective, government officials and elected leaders, working with the whole community, must consider how to sustain current capability levels and address potential shortfalls to prevent, protect, mitigate, respond to, and recover from disasters.

The FY 2013 HSGP plays an important role in the implementation of the National Preparedness System (NPS) by supporting the building, sustainment, and delivery of core capabilities essential to achieving the National Preparedness Goal (NPG) of a secure and resilient Nation. Delivering core capabilities requires the combined effort of the whole community, rather than the exclusive effort of any single organization or level of government. The FY 2013 HSGP's allowable costs support efforts to build and sustain core capabilities across the Prevention, Protection, Mitigation, Response, and Recovery mission areas by setting the following priorities and objectives:

Priority One: Implementation of the NPS and a Whole Community Approach to Homeland Security and Emergency Management

Agency: Attorney General - Department of Law

<u>Grant/Project and Description</u>	<u>CFDA</u>	<u>Grantor</u>	<u>AFIS ID</u>	<u>2014 Received</u>	<u>2015 Est. Rev.</u>	<u>2016 Est. Rev.</u>	<u>Footnote(s)</u>
Homeland Security Grant Program	97.067	Department of Homeland Security	747500	26.4	135.6	0.0	1, 2, 6, 7

- Objective One: Completion of the THIRA process in alignment with National Preparedness System guidance to identify the resources required to deliver core capabilities.
- Objective Two: Conduct risk driven, capabilities-based planning through whole community councils and working groups.
- Objective Three: Organization – Typing of equipment, and credentialing and training of personnel.
- Objective Four: Sustaining Capabilities.

Priority Two: Building and Sustaining Law Enforcement Terrorism Prevention Capabilities

- Objective One: Nationwide Suspicious Activity Reporting Initiative (NSI)

Priority Three: Maturation and Enhancement of State and Major Urban Area Fusion Centers

- Objective One: Baseline Capabilities.
- Objective Two: Analytic Capabilities.

The Department of Homeland Security Appropriations Act, 2013 (Public Law 113-6) authorized additional funding allocated at the discretion of the Secretary of the Department Homeland Security, to support appropriated programs in FY 2013. DHS has augmented the SHSP and UASI grant programs in FY 2013 by allocating an additional \$163.4 million to support the following priority areas:

Priority Four: Innovation and Sustained Support for the National Campaign for Preparedness

- Objective One: Foster individual and community preparedness and resilience by identifying needs; mobilizing partners; and creating innovative and effective solutions that can be grown, sustained, and replicated.

Priority Five: Improve Immediate Emergency Victim Care at Mass Casualty Events

- Objective One: Improve emergency care to victims of mass casualty events, including mass shootings.
- Objective Two: Improve community first aid training.

Minimum funding amounts are not prescribed by the Department for these priorities; however grantees are expected to support state, local, and regional efforts in achieving the desired outcomes of one or more of these priorities.

Crime Victim Assistance	16.575	Department of Justice	757110	99.7	104.1	91.5	1, 6
--------------------------------	---------------	------------------------------	--------	------	-------	------	------

Enacted in 1984, the Victims of Crime Act (VOCA) is the central source of federal financial support for direct services to victim of crime. VOCA is administered at the federal level through the U.S. Department of Justice, Office for Victims of Crime which annually awards a grant to each state, the District of Columbia and U.S. Territories to support victim assistance services for victims and survivors of domestic violence, sexual assault, child abuse, drunk driving, homicide, and other crimes. Each state has a designated VOCA assistance agency to administer VOCA grants. Those state agencies in turn, subgrant to organizations that provide direct services to victims of crime. While minimal federal requirements must be met, each state is given great discretion in awarding specific subgrants.

<u>Performance Measures</u>	<u>2014</u>	<u>2015</u>	<u>2016</u>
To assist primary and secondary victims of crime to stabilize economic restabilization) their lives after victimization is measured.	10,271	11,321	10,000
This is measured by victims' increased knowledge and awareness of the victims' compensation program, restitution and financial assistance. It is also measured by attending to non-compliant cases which the defendants owe restitution to their victims, but are not complying with their court ordered restitution owed. These numbers are calculated from reports produced from Legal Files.

Promoting Safe and Stable Families	93.556	Department of Health and Human Services	935560	0.0	10,485.9	11,010.2	3, 6

To prevent the unnecessary separation of children from their families, improve the quality of care and services to children and their families, and ensure permanency for children by reuniting them with their parents, by adoption or by another permanent living arrangement. This is accomplished through issuance of grants to State child welfare agencies and eligible Indian Tribes to serve families at risk or in crisis, including provision of the following services: reunification and adoption services, preplacement/preventive services, follow-up services after return of a child from foster care, respite care, services designed to improve parenting skills; and infant safe haven programs; to fund community-based family support services that promote the safety and well-being of children and families, to afford children a safe, stable and supportive family environment, to strengthen parental relationships and promote healthy marriages, and otherwise to enhance child development; time-limited family reunification services to facilitate the reunification of the child safely and appropriately within a timely fashion; and adoption promotion and support services designed to encourage more adoptions out of the foster care system, when adoption, promotes the best interests of the child. In addition, a portion of funds also is reserved for a separate formula grant for States and territories to support monthly caseworker visits with children who are in foster care. A small proportion of appropriated funds are reserved for research, evaluation and technical assistance, which may be awarded competitively through contracts or discretionary grants.

Foster Care_Title IV-E	93.658	Department of Health and Human Services	936580	0.0	52,215.5	54,826.3	2, 3, 6

The Title IV-E Foster Care program helps States, Indian Tribes, Tribal organizations and Tribal consortia (Tribes) to provide safe and stable out-of-home care for children under the jurisdiction of the State or Tribal child welfare agency until the children are returned home safely, placed with adoptive families, or placed in other planned arrangements for permanency. The program provides funds to assist with the costs of foster care maintenance for eligible children; administrative costs to manage the program; and training for public agency staff, foster parents and certain private agency staff. In addition, \$3 million is reserved for technical assistance and plan development/implementation grants to eligible Tribes, beginning in fiscal year 09.

Economic Adjustment Assistance	11.307	Department of Commerce	N/A	0.0	800.0	0.0	2, 3, 6

To address the needs of distressed communities experiencing adverse economic changes that may occur suddenly or over time, and generally result from industrial or corporate restructuring, new Federal laws or requirements, reduction in defense expenditures, depletion of natural resources, or natural disaster. Economic Adjustment Assistance grants are intended to enhance a distressed community's ability to compete economically by stimulating private investment in targeted areas. Current investment priorities include proposals that focus on (a) Collaborative Regional Innovation, (b) Public/Private Partnerships, (c) National Strategic Priorities, (d) Global Competitiveness, (e) Environmentally-Sustainable Development, (f) Economically Distressed and Underserved Communities. For more information on these investment priorities and current funding opportunities, go to <http://www.eda.gov>.

H-1B Job Training Grants	17.268	Department of Labor	N/A	4.8	395.3	0.0	2,6

The H-1B Job Training Grant Program funds projects that provide training and related activities to workers to assist them in gaining the skills and competencies needed to obtain or upgrade employment in high-growth industries or economic sectors. Over time, these education and training programs will help businesses reduce their use of skilled foreign professionals permitted to work in the U.S. on a temporary basis under the H-1B visa program.

WIA Adult Program	17.258	Department of Labor	N/A	727.1	751.8	595.2	6

To prepare workers -- particularly disadvantaged, low-skilled, and underemployed adults -- for good jobs by providing job search assistance and training. Program performance is measured by entry into unsubsidized employment, retention in unsubsidized employment, and earnings. The program serves individuals and helps employers meet their workforce needs. The employment goals will be measured using the Unemployment Insurance Wage Records Information System and customer satisfaction goals will be measured by sampling.

Electricity Delivery and Energy Reliability, Research, Development and Analysis	81.122	Department of Energy	52999	30.0	0.0	0.0	6,8

Through research, development, demonstration, technology transfer, and education and outreach activities, lead national efforts to modernize the electric grid; enhance security and reliability of the energy infrastructure; and mitigate the impact of, and facilitate recovery from, disruptions to the energy supply. Develop cost-effective technology that enhances the reliability, efficiency, and resiliency of the electric grid, while enabling the effective utilization of emerging and renewable generation sources and promoting the rapid deployment and integration of advanced digital 'Smart Grid' technology that is needed to modernize the nation's electric delivery network for enhanced operational intelligence and connectivity. Also, leverage scientific research in mathematics for application to power system models and software tools to foster strategic, power systems research capabilities.

Crime Victim Assistance	16.575	Department of Justice	539705	3.6	0.0	0.0	1, 2, 6, 8

Enacted in 1984, the Victims of Crime Act (VOCA) is the central source of federal financial support for direct services to victim of crime. VOCA is administered at the federal level through the U.S. Department of Justice, Office for Victims of Crime which annually awards a grant to each state, the District of Columbia and U.S. Territories to support victim assistance services for victims and survivors of domestic violence, sexual assault, child abuse, drunk driving, homicide, and other crimes. Each state has a designated VOCA assistance agency to administer VOCA grants. Those state agencies in turn, subgrant to organizations that provide direct services to victims of crime. While minimal federal requirements must be met, each state is given great discretion in awarding specific subgrants.

<u>Performance Measures</u>	<u>2014</u>	<u>2015</u>	<u>2016</u>
Number of victims receiving direct services or referral to services Total number of victims receiving direct services or referral to services. Data collected by Victim Services staff.	14,161	0	0

NICS Act Record Improvement Program	16.813	Department of Justice	100150	43.2	0.0	0.0	2, 6, 8

To improve the FBI's National Instant Criminal Background Check System (NICS) by providing assistance to states to improve the completeness, automation and transmittal to state and federal systems the records utilized by the NICS. Such records include criminal history records, records of felony convictions, warrants, records of protective orders, convictions for misdemeanor involving domestic violence and stalking, records of mental health adjudications, and others, which may disqualify an individual from possessing or receiving a firearm under federal law. Helping states to automate these records will also reduce delays for law-abiding gun purchasers.

The NICS Improvement Act amends the Brady Handgun Violence Prevention Act of 1993 ("the Brady Act") (Public Law 103-159), under which the Attorney General established NICS. The Brady Act requires Federal Firearms Licensees (FFLs) to contact the NICS before transferring a firearm to an unlicensed person for information on whether the proposed transferee is prohibited from receiving or possessing a firearm under state or federal law. The NICS Improvement Act was enacted in the wake of the April 2007 shooting tragedy at Virginia Tech. The Virginia Tech shooter was able to purchase firearms from an FFL because information about his prohibiting mental health history was not available to the NICS and the system was therefore unable to deny the transfer of the firearms used in the shootings.

The Act seeks to address the gap in information available to NICS about such prohibiting mental health adjudications and commitments and other prohibiting backgrounds. Filling these information gaps will better enable the system to operate as intended to keep guns out of the hands of persons prohibited by federal or state law from receiving or possessing firearms.

The Act authorized two grant programs to assist states in providing certain information to the NICS, and prescribes grant penalties for non-compliance with the Act's record completeness goals. Pursuant to the Act, there are certain conditions, described below, that a state must satisfy in advance of receiving grants under the Act. The NICS Improvement Act has provisions that require states to meet specified goals for completeness of the records submitted to the Attorney General on individuals prohibited by federal law from possessing firearms. The records covered include automated information needed by the NICS to identify felony convictions, felony indictments, fugitives from justice, drug arrests and convictions, prohibiting mental health adjudications and commitments, domestic violence protection orders, and misdemeanor crimes of domestic violence.

The Act provides for a number of incentives for states to meet the goals it sets for greater record completeness. First, the Act allows states to obtain a waiver, beginning in 2011, of the state matching requirement under the National Criminal

Postconviction Testing of DNA Evidence to Exonerate the Innocent	16.820	Department of Justice	100500	67.3	0.0	0.0	2, 6, 8

This program offers assistance to States to help defray the costs associated with postconviction DNA testing of cases of violent felony offenses where actual innocence might be demonstrated. Specifically, funding may be used to review postconviction cases of violent felony offenses (as defined by State law), and to locate and analyze biological evidence samples associated with these cases. Where a strong justification is provided, a small percentage of Federal award funds (not to exceed 15 percent) may be used for permissible case identification activities. For the purposes of this program —

- Case identification means performing outreach and/or initial screening activities, other than “case review” as defined below, designed to identify postconviction cases of violent felony offenses (as defined by State law) where DNA analysis might demonstrate actual innocence. Permissible outreach and initial screening mechanisms are face-to-face meetings, closed-circuit television meetings, eligibility letters/questionnaires/applications, telephone calls, and computerized searches of state court records.
- Case review means review of files or documentation of postconviction cases of violent felony offenses (as defined by State law) by appropriate persons (e.g., prosecutors, public defenders, law enforcement personnel, and medical examiners) to determine whether biological evidence exists that might, through DNA analysis, demonstrate the actual innocence of the person previously convicted.
- Locate evidence means seeking to locate, following a case review, biological evidence that, through DNA analysis, might demonstrate actual innocence, through activities such as the searching of files, storage facilities, and evidence rooms.
- DNA analysis of biological evidence includes the handling, screening, and DNA analysis of biological evidence located in connection with a case review.

States receiving Postconviction DNA Testing Assistance funds are expected to--

1. Review appropriate postconviction cases to identify those in which DNA testing could prove the actual innocence of a person convicted of a violent felony offense(s) as defined by State law.
2. Locate biological evidence associated with such postconviction cases.
3. Perform DNA analysis of appropriate biological evidence.

Grant number has NOT been established for FY 14. Information, training, technical assistance to service providers and families of children who are deaf/blind.							
The funds will be used for technical assistance, information, training and support throughout Arizona to service providers and families of children who have an educationally significant combined hearing and vision loss.							
The outcomes of using the money will be to increase awareness of deaf blindness, services available, technical assistance to teams (school/parents) as well as to provide information, training and technical assistance to families and family service providers.							
One measure of success for the use of these funds will be that the Arizona Deaf and Blind Project will expend approximately 35% of the annual budget on technical assistance and professional development activities.							
<u>Performance Measures</u>							
To provide the development and expansion of educational and related services to preschool children with disabilities in state schools.							
There is no Performance Measure for this Grant.

Grant has NOT been set up for FY 14 yet. Qualified and Selected Teachers will complete the required courses.

Students under the grant will present, to the Principal, an overall calendar of study to complete the VI certification. Before each semester, students will also provide a schedule of registered classes. Upon the completion of each course, students will present a transcript showing passing grades and credits received for the registered classes. If the grant is paying for the classes under the hardship waiver and a student does not complete, or fails, a registered class, the student will be responsible for reimbursing the grant the tuition for those classes.

Medical Assistance Program	93.778	Department of Health and Human Services	308000	99.6	101.0	60.0	1,2

To provide financial assistance to States for payments of medical assistance on behalf of cash assistance recipients, children, pregnant women, and the aged who meet income and resource requirements, and other categorically-eligible groups. In certain States that elect to provide such coverage, medically-needy persons, who, except for income and resources, would be eligible for cash assistance, may be eligible for medical assistance payments under this program. Financial assistance is provided to States to pay for Medicare premiums, copayments and deductibles of qualified Medicare beneficiaries meeting certain income requirements. More limited financial assistance is available for certain Medicare beneficiaries with higher incomes.

<u>Performance Measures</u>	<u>2014</u>	<u>2015</u>	<u>2016</u>
<p>To provide support in the instructional, support services and administrative needs of ASDB.</p> <p>The Medicaid is a cooperative Federal-State Program established in 1965 for the purpose of providing Federal Financial participation (FFP) to the states choose to reimburse certain costs of medical treatment for needy persons. It is authorized under Title XIX of the Social Security Act, and is administered by each state in accordance with an approved State Plan. States have considerable flexibility in designing their programs, but must comply with Federal requirements specified in the Medicaid statute, regulations and program guidance. FFP is provided only when there is a corresponding State Expenditure for a covered Medicaid services to a Medicaid recipient. Federal payment is based in statutorily-defined percentages to total computable state expenditures for medical assistance provided to recipients under the approved State Plan, and the State Expenditures related to the cost of administering the State Plan.</p> <p>The MAC program or claim is for all related Administrative costs to district wide expenditures that qualify and is submitted for quarterly reimbursement.</p>

Special Education_Preschool Grants	84.173	Department of Education	310027	0.0	0.0	0.0	2, 6

To provide grants to States to assist them in providing special education and related services to children with disabilities ages 3 through 5 years, and at a State's discretion, to 2- year- old children with disabilities who will reach age three during the school year.

<u>Performance Measures</u>	<u>2014</u>	<u>2015</u>	<u>2016</u>
Providing quality preschool programs to prepare sensory impaired children to successfully enter kindergarten The funds are used to support preschool programs serving sensory impaired children on public school campuses and at site based preschool programs. The outcome of the use of the funds is to provide quality curriculum and instruction that prepares sensory impaired preschoolers for success in the general kindergarten curriculum and/or the least restrictive environment. A measure of success is that 80% or more students exiting preschool in one of these identified programs through CHIC-Tucson, CHIC-Phoenix or FBC-Phoenix will begin kindergarten in their local school district or charter school.

Special Education_Grants to States	84.027	Department of Education	310126	0.0	0.0	0.0	2,6

To provide grants to States to assist them in providing special education and related services to all children with disabilities.

<u>Performance Measures</u>	<u>2014</u>	<u>2015</u>	<u>2016</u>
Meeting the educational needs and improving student achievement of children with sensory impairment The funds will be used to increase the level, intensity, and quality of services for students with sensory impairment served through our Agency. The funds specifically will be used toward program improvement efforts through the use of technology to access the instructional program; professional development for systemic improvement of teacher skills in literacy, transition, and advocacy; and in addressing the state education standards in math to increase acquisition and retention of skills. The outcomes of using the funds will be an increase in access to the general education curriculum and instructional program, increased skill sets of teachers in meeting the needs of students in their literacy, transition and advocacy needs, and increased performance on math assessments both at a local level and at the state level. The measure of success for the students overall will be an overall trend increase in scores on the State assessments including the AIMS and Terra Nova.

Special Education_Preschool Grants	84.173	Department of Education	310127	0.0	0.0	0.0	2,6

To provide grants to States to assist them in providing special education and related services to children with disabilities ages 3 through 5 years, and at a State's discretion, to 2- year- old children with disabilities who will reach age three during the school year.

<u>Performance Measures</u>	<u>2014</u>	<u>2015</u>	<u>2016</u>
Provide professional development training for preschool teachers of the hearing impaired The funds are used to support two professional training workshops for creating a strong language planning program for preschool aged children using ASL and Spoken/Written English. The outcomes of the use of the funds will be that the deaf and hard of hearing children entering a kindergarten program will have well established and documented language development in ASL, Spoken English and Written English in order to become fluent signers and fully literate in both spoken and written English. A measure of success for the use of the funds will be documentation that all preschool teachers are implementing a language planning program for their preschool students.

Special Education_Grants to States	84.027	Department of Education	313127	2.8	0.0	0.0	2, 6, 8
---	---------------	------------------------------------	--------	-----	-----	-----	---------

To provide grants to States to assist them in providing special education and related services to all children with disabilities.

<u>Performance Measures</u>	<u>2014</u>	<u>2015</u>	<u>2016</u>
Qualified and Selected Teachers will complete the required courses Students under the grant will present, to the Principal, an overall calendar of study to complete the VI certification. Before each semester, students will also provide a schedule of registered classes. Upon the completion of each course, students will present a transcript showing passing grades and credits received for the registered classes. If the grant is paying for the classes under the hardship waiver and a student does not complete, or fails, a registered class, the student will be responsible for reimbursing the grant the tuition for those classes.

Special Education-Grants for Infants and Families	84.181	Department of Education	313723	140.1	0.0	0.0	1, 2, 6

To provide grants to States to assist them to implement and maintain a Statewide, comprehensive, coordinated, multidisciplinary, interagency system to make available early intervention services to infants and toddlers with disabilities and their families.

<u>Performance Measures</u>	<u>2014</u>	<u>2015</u>	<u>2016</u>
To provide assessment, case management and parent educational services to infant and toddlers throughout the State of Arizona. (Birth to Three: IDEA part C) The funds are used to provide early intervention to support care providers in developing the confidence and competence to help the child learn. The outcomes of using the funds will be a smooth transition with the disabled child ready to successfully enter a preschool program. The measure of success will be the timely provision of service delivery. Service delivery will begin within 45 days of the parent consent of the IFSP at 100% which is the AZEIP State Performance Plan target.

To provide grants to States to assist them in providing special education and related services to all children with disabilities.

<u>Performance Measures</u>	<u>2014</u>	<u>2015</u>	<u>2016</u>
To provide grants to States to assist them in providing special education and related services to all children with disabilities.			
To increase access to the general education curriculum and to classroom based instruction.			
The funds will be used to support deaf and hard of hearing students in inclusion in the regular education program in their local public schools through the use of educational interpreters as well as to support deaf and blind students in site based programs by increasing their access to classroom based instruction with the support of instructional assistants.			
The outcomes of using these funds will be an increase in access to the general education curriculum through the use of program personnel. A measure of success will be documentation of personnel time with students in public school and site based programs.

Universal Newborn Hearing Screening	93.251	Department of Health and Human Services	340005	0.0	0.0	0.0	2,6
--	---------------	--	--------	-----	-----	-----	-----

This program supports state programs for reducing the loss to follow-up of infants who have not passed a physiologic newborn hearing screening examination prior to discharge from the newborn nursery. Although more than 95% of newborns are screened for hearing loss in the first few days of life, nationally about 20-40% of infants for whom further assessment is indicated cannot be documented as having appropriate follow-up. This funding opportunity is to initiate new activities to significantly reduce this loss to follow-up. Support is also provided to one national technical resource center.

Provide high school students with visual impairment and blindness a two week career exploration and independent living program			
The funds are used for the provision of a two week independent living and career development program for visually impaired and blind high school students in their last two years of high school. The program provides education and training in a concentrated format.			
The outcomes of using the funds is to increase exposure to career choices, activities for independent living, and self advocacy leading to successful living in the community.			
One measure of success will be for students to complete a pre/post questionnaire on information and skills that were taught during the two week program as well as the completion of an exit interview questionnaire.

Agency: Arizona State Schools for the Deaf and the Blind

Grant/Project and Description	CFDA	Grantor	AFIS ID	2014 Received	2015 Est. Rev.	2016 Est. Rev.	Footnote(s)
Improving Teacher Quality State Grants	84.367	Department of Education	350712	0.0	(5.1)	0.0	2,6

To provide grants to State educational agencies (SEAs), local educational agencies (LEAs), State agencies for higher education (SAHEs) and, through SAHEs, to eligible partnerships in order to increase student academic achievement through such strategies as improving teacher and principal quality and increasing the number of highly qualified teachers in the classroom.

<u>Performance Measures</u>	<u>2014</u>	<u>2015</u>	<u>2016</u>
Completed courses for New Teachers			
The agency's professional development office will provide initial Essential Elements of Instruction (EEI) training for all new teachers as well as two EEI refresher trainings for returning teachers and principals to maintain equal and quality teaching in every classroom.			

Special Education Technical Assistance and Dissemination to Improve Services and Results for Children with Disabilities	84.326	Department of Education	351009	0.0	(1.1)	0.0	2,6
--	---------------	------------------------------------	--------	-----	-------	-----	-----

The purpose of the Technical Assistance and Dissemination to Improve Services and Results for Children with Disabilities program is to promote academic achievement and to improve results for children with disabilities by providing technical assistance, supporting model demonstration projects, disseminating useful information, and implementing activities that are supported by scientifically based research.

Special Education-Grants for Infants and Families	84.181	Department of Education	370723	0.0	3.7	0.0	1, 2, 6

To provide grants to States to assist them to implement and maintain a Statewide, comprehensive, coordinated, multidisciplinary, interagency system to make available early intervention services to infants and toddlers with disabilities and their families.

<u>Performance Measures</u>	<u>2014</u>	<u>2015</u>	<u>2016</u>
To provide assessment, case management and parent educational services to infant and toddlers throughout the State of Arizona. (Birth to Three : IDEA part C) The funds are used to provide early intervention to support care providers in developing the confidence and competence to help the child learn. The outcomes of using the funds will be a smooth transition with the disabled child ready to successfully enter a preschool program. The measure of success will be the timely provision of service delivery. Service delivery will begin within 45 days of the parent consent of the IFSP at 100% which is the AzEIP State Performance Plan target.			

Special Education_Preschool Grants	84.173	Department of Education	380027	0.0	0.5	0.0	2, 6
---	---------------	------------------------------------	--------	-----	-----	-----	------

To provide grants to States to assist them in providing special education and related services to children with disabilities ages 3 through 5 years, and at a State's discretion, to 2- year- old children with disabilities who will reach age three during the school year.

<u>Performance Measures</u>	<u>2014</u>	<u>2015</u>	<u>2016</u>

ARRA - Prevention and Wellness – Communities Putting Prevention to Work Funding Opportunities Announcement (FOA)	93.724	Department of Health and Human Services	610001	0.0	0.0	0.0	2, 6

This funding was appropriated under the American Recovery and Reinvestment Act of 2009 (Public Health Service Act, 42 U.S. Code 241(a) and 247b (k) 2) to reduce Chronic Disease risk factors, prevent and delay chronic disease, promote wellness, and better manage chronic conditions. This initiative will address the following:

- Increased levels of physical activity
- Improved nutrition (e.g. increased fruit/vegetable consumption, reduced salt and transfats);
- Decreased smoking prevalence and decreased teen smoking initiation; and
- Decreased exposure to secondhand smoke.

Communities funded under this announcement will accomplish this by implementing population-based approaches such as policy, systems, and environmental changes across 5 evidence-based strategies – access, media, point of decision information, social support services, and price – in both schools and communities. Both components are necessary to achieve behavior change in youth that sustain from school settings into family and community settings, and supports sustaining healthy behavior into adulthood. Communities funded by this announcement will receive a menu of evidence-based interventions along with support and tools from the Centers for Disease Control and Prevention (CDC) to strengthen and develop effective strategies tailored to their needs.

The cooperative agreements will address the “Healthy People 2010” focus areas of obesity, cardiovascular disease, tobacco, and educational and community-based programs; the Health Protection Goals of “Healthy People in Every Stage of Life” which states hat “all people, and especially those at greater risk of health disparities, will achieve their optimal lifespan with the best quality of health in every stage of life,” and “Healthy People in Healthy Places” which states that “the places where people live, work, learn, and play will protect and promote their health and safety, especially those at greater risk of health disparities.”.

<p><u>Performance Measures</u></p> <p style="text-align: center;">2014 2015 2016</p> <p>Children Eating Healthy</p> <p>Communities Putting Prevention to Work (CPPW) is a locally driven initiative supporting communities to tackle obesity and tobacco use—two leading preventable causes of death and disability in the United States.[1] More than 50 million people—or one in six Americans—live in a city, town, county, or tribal community that benefits from this initiative.</p> <p>Chronic diseases are among the most common and costly of all health problems in the United States, but they also are among the most preventable. Lack of physical activity and poor nutrition—two modifiable risk factors for obesity—and tobacco use are responsible for much of the illness, suffering, and death related to chronic diseases.[2] To help address these health issues, the U.S. Department of Health and Human Services (HHS) created Communities Putting Prevention to Work (CPPW), which is led by the Centers for Disease Control and Prevention (CDC).</p>

This funding will provide economic stimulus to the nation while furthering the ACF mission to promote the school readiness of low-income children. The objective of the Head Start program is to enhance the cognitive, social and emotional development of low-income children through the provision of comprehensive health, educational, nutritional, social and other services and to involve parents in their children's learning and to help parents make progress toward their educational, literacy and employment goals. Head Start also emphasizes the significant involvement of parents in the administration of their local Head Start programs.

Maternal and Child Health Federal Consolidated Programs	93.110	Department of Health and Human Services	000007	291.9	0.0	0.0	2, 8

To carry out special maternal and child health (MCH) projects of regional and national significance; to conduct training and research; to conduct genetic disease testing, counseling, and information development and dissemination programs; for grants relating to hemophilia without regard to age; and for the screening of newborns for sickle cell anemia, and other genetic disorders. and to support comprehensive hemophilia diagnostic and treatment centers. These grants are funded with a set-aside from the MCH Block grant program. SPRANS grants are funded with 15 percent of the Block Grant appropriation of up to \$600 million. When the appropriation exceeds \$600 million, 12.75 percent of the amount over \$600 million is set aside for the Community Integrated Service Systems grants. 15 percent of the balance remaining over \$600 million is also for SPRANS. The CISS program is to develop and expand the following: (1) Home visitation; (2) increased participation of obstetricians and pediatricians; (3) integrated service delivery systems; (4) maternal and child health centers for women and infants, under the direction of a not-for-profit hospital; (5) services for rural populations; and (6) community-based services for children with special health care needs in order to enhance or develop an integrated services system. In FY 2008 Congress first funded the Combating Autism Act program, which is for early detection, education and intervention activities on autism and other developmental disorders.

First funded in 2004, the Heritable Disorders Program is established to improve the ability of States to provide newborn and child screening for heritable disorders and affect the lives of all of the nation's infants and children. Newborn and child screening occur at intervals across the life span of every child. Newborn screening universally provides early identification and follow-up for treatment of infants affected by certain genetic, metabolic, hormonal and/or functional conditions. It is expected that newborn and child screening will expand as the capacity to screen for genetic and congenital conditions expands.

First funded in 2009, the Congenital Conditions program is established to provide information and support services to women and their families that have received a diagnosis for Down Syndrome, Spina Bifida, Dwarfism and other prenatally or postnatally diagnosed conditions.

<u>Performance Measures</u>	<u>2014</u>	<u>2015</u>	<u>2016</u>
For children zero to age five continue to promote/improve/increase health and access to a medical home, early childhood education, mental health, family support and parent education.

Child Care and Development Block Grant	93.575	Department of Health and Human Services	000009	1,317.0	0.0	0.0	2, 6, 8

The Child Care and Development Block Grant (CCDBG or Discretionary Funds) is a part of the Child Care and Development Fund (CCDF) program, along with the Child Care Mandatory and Matching Funds (see CFDA 93.596). The CCDBG provides grants to States, Territories, Tribes, and tribal organizations serving federally-recognized tribes (public institutions of higher education and hospitals are not eligible applicants) for child care assistance for low-income families. The goals are to: (1) allow each State maximum flexibility in developing child care programs and policies that best suit the needs of children and parents within such State; (2) promote parental choice to empower working parents to make their own decisions on the child care that best suits their family's needs; (3) encourage States to provide consumer education information to help parents make informed choices about child care; (4) assist States to provide child care to parents trying to achieve independence from public assistance; and (5) assist States in implementing the health, safety, licensing, and registration standards established in State regulations. Current priorities include: making systemic investments in quality child care to promote child development and health and safety; and creating a system that is child focused, family friendly, and fair to providers.

<u>Performance Measures</u>	<u>2014</u>	<u>2015</u>	<u>2016</u>

To provide Federal financial aid to State agencies for costs incurred to operate the Supplemental Nutrition Assistance Program (SNAP).

SNAP Nutrition Education Grant Program funds support the Nutrition Education and Obesity Prevention Grant Program, which was established by Section 241 of the Healthy, Hunger-Free Kids Act of 2010.

SNAP Employment and Training (E&T) funds provide grants to States to provide E&T education to assist SNAP participants in finding work. An E&T program may consist of many different types of components, including but not limited to: independent job search; job search training and support; workfare; educational programs to improve employability; work experience or training to improve employability; other employment oriented activities (e.g., job placement, supported work experience, WIA services); and self-employment training.

Special Education-Grants for Infants and Families	84.181	Department of Education	841810	12,032.4	9,957.4	8,947.4	6

To provide grants to States to assist them to implement and maintain a Statewide, comprehensive, coordinated, multidisciplinary, interagency system to make available early intervention services to infants and toddlers with disabilities and their families.

<u>Performance Measures</u>	<u>2014</u>	<u>2015</u>	<u>2016</u>
Service Delivery Effectiveness	95.0%	97.0%	97.0%
<p>The United States Department of Education, Office of Special Education Programs (USDOE/OSEP) oversees the implementation of Part C of the Individuals with Disabilities Education Act (IDEA), which governs the Arizona Early Intervention Program (AZEIP). Starting in FY10, ADES implemented a quarterly survey used to identify the effectiveness of service delivery within the program. The measure fosters communication between ADES, providers and clients, allowing for improved service delivery.</p>			
Individualized Family Service Plan (IFSP) completion timeliness	94.4%	N/A	95.0%
<p>The United States Department of Education, Office of Special Education Programs (USDOE/OSEP) oversees the implementation of Part C of the Individuals with Disabilities Education Act (IDEA), which governs the Arizona Early Intervention Program. IDEA requires states to determine eligibility and complete the initial Individualized Family Service Plan (IFSP) within forty-five days of referral. These two measures indicate how quickly AZEIP is able to respond to families, determine eligibility for children and their families, develop a plan that outlines the intended outcomes and the early intervention services that will be provided.</p>

Special Programs for the Aging_ Title VII, Chapter 2_Long Term Care Ombudsman Services for Older Individuals	93.042	Department of Health and Human Services	930420	417.2	398.1	398.1	⁶

The principal role of this Ombudsman Program is to investigate and resolve complaints made by or on behalf of residents of nursing homes or other long-term care facilities. Ombudsmen also promote policies and practices needed to improve the quality of care and life in long-term care facilities and educate both consumers and providers about residents' rights and good care practices.

<u>Performance Measures</u>	<u>2014</u>	<u>2015</u>	<u>2016</u>
Percent of verified complaints resolved to the resident's satisfaction	76.8%	82.0%	82.0%
The grant is used to investigate and resolve complaints made by or on behalf of residents of nursing homes or other long-term care facilities.			

Special Programs for the Aging_ Title III, Part D_Disease Prevention and Health Promotion Services	93.043	Department of Health and Human Services	930430	358.0	335.9	335.9	^{2,6}
---	---------------	--	--------	-------	-------	-------	----------------

To develop or strengthen preventive health service and health promotion systems through designated State Agencies on Aging and Area Agencies on Aging. Funds are provided for evidence-based disease prevention and health promotion services including programs related to: physical fitness; medication management; chronic disease self-management education; psychosocial behavioral health intervention; nutrition counseling; HIV; arthritis; brain health; diabetes; falls prevention; substance-abuse screening and intervention; family caregiver psychosocial counseling and self-care educational support; care transition intervention; depression; and chronic pain.

<u>Performance Measures</u>	<u>2014</u>	<u>2015</u>	<u>2016</u>
Number of evidence based programs implemented annually	3	4	5
The grant is used to align with the Administration on Aging's strategic plan for the implementation of evidenced based programs.

To encourage State Agencies on Aging and Area Agencies on Aging to concentrate resources to develop and implement comprehensive and coordinated community-based systems of service for older individuals via Statewide planning, and area planning and provision of supportive services, including multipurpose senior centers. The objective of these services and centers is to maximize the informal support provided to older Americans to enable them to remain in their homes and communities. Providing transportation services, in-home services, and other support services, this program insures that elders receive the services they need to remain independent.

<u>Performance Measures</u>	<u>2014</u>	<u>2015</u>	<u>2016</u>
Percent of survey respondents indicating provision of home-and community-based services avoided premature institutionalization (biannual survey)	N/A	88.6%	N/A
The grant is used to measure client satisfaction. The survey is conducted every other year.

Alzheimer's Disease Demonstration Grants to States	93.051	Department of Health and Human Services	930510	0.0	0.0	0.0	2, 6

To expand the availability of diagnostic and support services for persons with Alzheimer's Disease and Related Dementias (ADRD), their families, and their caregivers, as well as to improve the responsiveness of the home and community-based care system to persons with dementia.

There are three types of ADSSP grants: Evidence-based grants require states to demonstrate how existing evidence-based interventions that help people with ADRD and their family caregivers can be translated into effective supportive service programs at the community level. Innovation grants require states and their partners to explore innovative approaches to improving the delivery of supportive services at the community-level to people with ADRD and their family caregivers. Dementia capability grants require states to help ensure that people with dementia and their family caregivers have access to a home and community-based services system that identifies those with dementia, ensures that program staff have appropriate dementia care training, and assures delivery of quality services.

<u>Performance Measures</u>	<u>2014</u>	<u>2015</u>	<u>2016</u>
Number of caregivers with increased coping skills	178	82	N/A
The grant will be used to translate evidence based care giving interventions into a community setting. This grant began in fiscal year 2010 and ended in fiscal year 2014.			
<u>Performance Measures</u>	<u>2014</u>	<u>2015</u>	<u>2016</u>
Number of early-stage dementia patients and their family care partners that receive the EPIC intervention	34	N/A	N/A
The grant will be used to examine the feasibility, acceptability, and efficacy of Early-stage Partners in Care (EPIC) intervention, a community-based group delivery program based on Early Diagnosis Dyadic Intervention (EDDI). This grant began in FY 2010 and was originally set to end FY 2011 but received a no cost extension through FY 2013.

Affordable Care Act – Aging and Disability Resource Center	93.517	Department of Health and Human Services	935170	77.3	0.0	0.0	6, 8

ADRCs are designed to serve as “visible and trusted” sources where people can turn to for objective information on their long-term services and support options and their Medicare benefits. These programs also provide “one-on-one” counseling and advice to help consumers, including private pay individuals, to fully understand how available options relate to their particular needs, as well as streamlined access to all publicly supported long-term services and support programs. Funding under this Program will help states further develop and strengthen their statewide systems of person-centered information, counseling and access. Through this grant program, states and local aging and disability programs will receive funds to provide outreach and assistance to Medicare beneficiaries on their Medicare benefits including prevention; use additional funds through a competitive process, to provide Options Counseling on health and long term care through ADRCs; use additional funds through a competitive process in existing Money Follows the Person states for Nursing Home Transitions and Diversions; and finally, AoA and CMS will be funding states, through a competitive process, to strengthen the role of ADRCs in the implementation of Evidence-Based Care Transition models that integrate the medical and social service systems to help older individuals and those with disabilities remain in their own homes and communities after a hospital, rehabilitation or skilled nursing facility visit and avoid unnecessary readmission.

- (A) to serve as visible and trusted sources of information on the full range of long-term care options that are available in the community, including both institutional and home and community-based care;
- (B) to provide personalized and consumer friendly assistance to empower people to make informed decisions about their care options;
- (C) to provide coordinated and streamlined access to all publicly supported long-term care options so that consumers can obtain the care they need through a single intake, assessment and eligibility determination process;
- (D) to help people to plan ahead for their future long-term care needs; and
- (E) to assist, in coordination with the State Health Insurance Assistance Program, Medicare beneficiaries in understanding and accessing the Prescription Drug Coverage and prevention health benefits available under the Medicare Modernization Act’.

<u>Performance Measures</u>	<u>2014</u>	<u>2015</u>	<u>2016</u>
Number of Options Counseling sites	7	7	N/A
Grant is used to expand and strengthen existing ADRC programs by implementing Options Counseling in at least one ADRC site. This grant began in fiscal year 2011 and ends fiscal year 2014.

Promoting Safe and Stable Families	93.556	Department of Health and Human Services	935560	9,892.4	0.0	0.0	6, 8

To prevent the unnecessary separation of children from their families, improve the quality of care and services to children and their families, and ensure permanency for children by reuniting them with their parents, by adoption or by another permanent living arrangement. This is accomplished through issuance of grants to State child welfare agencies and eligible Indian Tribes to serve families at risk or in crisis, including provision of the following services: reunification and adoption services, preplacement/preventive services, follow-up services after return of a child from foster care, respite care, services designed to improve parenting skills; and infant safe haven programs; to fund community-based family support services that promote the safety and well-being of children and families, to afford children a safe, stable and supportive family environment, to strengthen parental relationships and promote healthy marriages, and otherwise to enhance child development; time-limited family reunification services to facilitate the reunification of the child safely and appropriately within a timely fashion; and adoption promotion and support services designed to encourage more adoptions out of the foster care system, when adoption, promotes the best interests of the child. In addition, a portion of funds also is reserved for a separate formula grant for States and territories to support monthly caseworker visits with children who are in foster care. A small proportion of appropriated funds are reserved for research, evaluation and technical assistance, which may be awarded competitively through contracts or discretionary grants.

Child Care Mandatory and Matching Funds of the Child Care and Development Fund	93.596	Department of Health and Human Services	935960	123,438.1	114,102.0	114,102.0	6

The Child Care Mandatory and Matching Funds are a part of the Child Care and Development Fund (CCDF) program, along with the Child Care and Development Block Grant (CCDBG) or Discretionary Funds (see CFDA 93.575). The Child Care Mandatory and Matching Funds provide grants to States, Tribes, and tribal organizations for child care assistance for low-income families. The goals are to: (1) allow each State maximum flexibility in developing child care programs and policies that best suit the needs of children and parents within such State; (2) promote parental choice to empower working parents to make their own decisions on the child care that best suits their family's needs; (3) encourage States to provide consumer education information to help parents make informed choices about child care; (4) assist States to provide child care to parents trying to achieve independence from public assistance; and (5) assist States in implementing the health, safety, licensing, and registration standards established in State regulations. Current priorities include: making systemic investments in quality child care to promote child development and health and safety; and creating a system that is child focused, family friendly, and fair to providers.

<u>Performance Measures</u>	<u>2014</u>	<u>2015</u>	<u>2016</u>

Foster Care_Title IV-E	93.658	Department of Health and Human Services	936580	48,799.5	0.0	0.0	2, 6, 8

The Title IV-E Foster Care program helps States, Indian Tribes, Tribal organizations and Tribal consortia (Tribes) to provide safe and stable out-of-home care for children under the jurisdiction of the State or Tribal child welfare agency until the children are returned home safely, placed with adoptive families, or placed in other planned arrangements for permanency. The program provides funds to assist with the costs of foster care maintenance for eligible children; administrative costs to manage the program; and training for public agency staff, foster parents and certain private agency staff. In addition, \$3 million is reserved for technical assistance and plan development/implementation grants to eligible Tribes, beginning in fiscal year 09.

ARRA – Emergency Contingency Fund for Temporary Assistance for Needy Families (TANF) State Program	93.714	Department of Health and Human Services	937140	0.0	0.0	0.0	2, 6

This funding was to provide economic stimulus to the nation while furthering the ACF mission to promote the economic and social well being of children, youth, families, and communities. The objective of the program was to provide up to \$5 billion for jurisdictions (States, Territories, and Tribes) in fiscal year (FY) 2009 and FY 2010 that had an increase in assistance caseloads and/or certain types of expenditures. This Emergency Fund was in addition to the TANF Contingency Fund in section 403(b) of the Act that gives money to qualifying States (but not Territories or Tribes) during an economic downturn.

<u>Performance Measures</u>	<u>2014</u>	<u>2015</u>	<u>2016</u>
Average number of TANF Cash Assistance recipients	39,781	N/A	N/A
This measure allows the state to realize general trends in the population in order to better serve needy families. This grant was exhausted in fiscal year 2013.

Centers for Medicare and Medicaid Services (CMS) Research, Demonstrations and Evaluations	93.779	Department of Health and Human Services	937790	869.7	124.6	0.0	⁶

The Centers for Medicare & Medicaid Services (CMS) conducts research, demonstrations, and evaluations in support of CMS' key role as a beneficiary-centered purchaser of high-quality health care at a reasonable cost. These grants are awarded in the form of research grants and cooperative agreements; Hispanic health services grants; historically black colleges and university grants. For fiscal years 2010 and 2011, CMS research, demonstrations and evaluations will focus on expanding agency efforts to improve the efficiency of payment, delivery, access and quality of our health care programs that serve millions of beneficiaries.

<u>Performance Measures</u>	<u>2014</u>	<u>2015</u>	<u>2016</u>
Estimated dollars saved by Arizona beneficiaries (in thousands of dollars)	1,192,000	6,600,000	N/A
The grant is used to assist Medicare beneficiaries in selecting affordable health care coverage. This grant ended on 03/31/2014 and has a new CFDA (93.324) as of 04/01/14.			
Number of Medicare beneficiaries enrolled in Limited Income Subsidy (LIS), Medicare Savings Program (MSP), or Medicare Part D	6,000	5,500	N/A
The grant will be used to decrease health insurance costs to seniors. This grant ended on 03/31/2014 and has a new CFDA (93.324) as of 04/01/14.

School Improvement Grants	84.377	Department of Education	223710	4,558.5	0.0	0.0	2, 6, 8

To support competitive subgrants to local educational agencies (LEAs) that demonstrate the greatest need for the funds and the strongest commitment to use the funds to provide adequate resources to raise substantially the achievement of students in their lowest-performing schools. In general, State educational agencies (SEAs) must give priority to LEAs with Title I-eligible schools ranked in the bottom five percent of such schools, based on student achievement and lack of progress in improving student achievement, as well as secondary schools with a graduation rate below 60 percent over a number of years. LEAs seeking funding to serve such schools must implement one of four school intervention models: turnaround model, restart model, school closure, or transformation model.

Grant/Project and Description	CFDA	Grantor	AFIS ID	2014 Received	2015 Est. Rev.	2016 Est. Rev.	Footnote(s)
Team Nutrition Grants	10.574	Department of Agriculture	298480	7.8	0.0	0.0	2, 6, 8

Team Nutrition Training Grants for Healthy School Meals have been identified in USDA's national Strategic Plan for Training and Technical Assistance as one of the anchor delivery systems for supporting the implementation of USDA's nutrition requirements and the Dietary Guidelines for Americans in Child Nutrition programs. Team Nutrition's (TN) goal is to improve children's lifelong eating and physical activity habits by using the principles of the Dietary Guidelines for Americans and the USDA Food Guidance System.

TN Training Grants offer funding to State agencies to establish or enhance sustainable infrastructures for implementing TN's three behavior-focused strategies: (1) provide training and technical assistance to child nutrition food service professionals to enable them to prepare and serve nutritious meals that appeal to students; (2) promote nutrition curriculum and education in schools through multiple communication channels (i.e., food services initiatives, classroom activities, school wide events, home activities, community programs and events, and media events and coverage) to reinforce positive nutrition messages and encourage students to make healthy food and physical activity choices as part of a healthy lifestyle; and (3) build school and community support for creating healthy school environments that are conducive to healthy eating and physical activity.

The HealthierUS School Challenge (HUSCC) is a voluntary certification initiative established to recognize those schools participating in the National School Lunch Program that have created healthier school environments through promotion of nutrition and physical activity.

Statewide Longitudinal Data Systems	84.372	Department of Education	322470	1,912.4	1,540.8	918.4	2, 6

These grants are intended to enable State educational agencies to design, develop, and implement statewide, longitudinal data systems to efficiently and accurately manage, analyze, disaggregate, and use individual student data, consistent with the Elementary and Secondary Education Act of 1965 and to facilitate analyses and research to improve student academic achievement and close achievement gaps. The 2012 grants were awarded to support States' work in one of three priority areas: (1) the design, development, and implementation of Statewide, longitudinal kindergarten through grade 12 (K-12) data systems; (2) The development and linking of early childhood data with the States' K-12 systems; or (3) the development and linking of postsecondary and/or workforce data with the States' K-12 data systems. In addition, funds are used to support contracts to improve data quality, coordination, and use. The eligible entities for contract awards are public or private organizations or entities.

Twenty-First Century Community Learning Centers	84.287	Department of Education	344400	15,537.8	7,636.1	0.0	^{2,6}

To create community learning centers that provide academic enrichment opportunities for children, particularly students who attend high-poverty and low-performing schools. The program is intended to help students meet state and local student standards in core academic subjects, such as reading and math; to offer students a broad array of enrichment activities that complement their regular academic programs; and to offer literacy and other educational services to the families of participating children.

Team Nutrition Grants	10.574	Department of Agriculture	398480	85.4	0.0	0.0	2, 6, 8

Team Nutrition Training Grants for Healthy School Meals have been identified in USDA's national Strategic Plan for Training and Technical Assistance as one of the anchor delivery systems for supporting the implementation of USDA's nutrition requirements and the Dietary Guidelines for Americans in Child Nutrition programs. Team Nutrition's (TN) goal is to improve children's lifelong eating and physical activity habits by using the principles of the Dietary Guidelines for Americans and the USDA Food Guidance System.

TN Training Grants offer funding to State agencies to establish or enhance sustainable infrastructures for implementing TN's three behavior-focused strategies: (1) provide training and technical assistance to child nutrition food service professionals to enable them to prepare and serve nutritious meals that appeal to students; (2) promote nutrition curriculum and education in schools through multiple communication channels (i.e., food services initiatives, classroom activities, school wide events, home activities, community programs and events, and media events and coverage) to reinforce positive nutrition messages and encourage students to make healthy food and physical activity choices as part of a healthy lifestyle; and (3) build school and community support for creating healthy school environments that are conducive to healthy eating and physical activity.

The HealthierUS School Challenge (HUSCC) is a voluntary certification initiative established to recognize those schools participating in the National School Lunch Program that have created healthier school environments through promotion of nutrition and physical activity.

School Improvement Grants	84.377	Department of Education	423710	71.7	437.2	5,100.0	⁶

To support competitive subgrants to local educational agencies (LEAs) that demonstrate the greatest need for the funds and the strongest commitment to use the funds to provide adequate resources to raise substantially the achievement of students in their lowest-performing schools. In general, State educational agencies (SEAs) must give priority to LEAs with Title I-eligible schools ranked in the bottom five percent of such schools, based on student achievement and lack of progress in improving student achievement, as well as secondary schools with a graduation rate below 60 percent over a number of years. LEAs seeking funding to serve such schools must implement one of four school intervention models: turnaround model, restart model, school closure, or transformation model.

Summer Food Service Program for Children	10.559	Department of Agriculture	498340	164.1	0.0	0.0	6

To assist States, through grants-in-aid and other means, to conduct nonprofit food service programs for children. This program operates in partnership with the United States Department of Agriculture (USDA), State agencies, and local organizations to provide free meals to eligible children during the summer months and at other approved times, when school is not in session.

In addition there are discretionary grant initiatives supporting this program. The methods being tested through these demonstrations are: extending length of operation, additional funding for enrichment activities, meal delivery, weekend food backpacks, Supplemental Nutrition Assistance Program (SNAP) electronic benefit delivery system, and Special Supplemental Nutrition Program for Women, Infants and Children (WIC) electronic benefit delivery system.

Cooperative Agreements to Promote Adolescent Health through School-Based HIV/STD Prevention and School-Based Surveillance	93.079	Department of Health and Human Services	544690	0.0	65.0	65.0	3, 6

Funding will build the capacity of state, territorial, and local (STL) agencies and support the efforts of national, non-governmental organizations (NGO) to help school districts and schools develop and implement sustainable program activities to:

- 1) Reduce HIV infection and other STD among adolescents; and
- 2) Reduce disparities in HIV infection and other STD experienced by specific adolescent sub-populations.

It is also expected that applicants' activities will reinforce efforts to reduce teen pregnancy rates.

Summer Food Service Program for Children	10.559	Department of Agriculture	598345	0.0	164.1	180.0	3, 6

To assist States, through grants-in-aid and other means, to conduct nonprofit food service programs for children. This program operates in partnership with the United States Department of Agriculture (USDA), State agencies, and local organizations to provide free meals to eligible children during the summer months and at other approved times, when school is not in session.

In addition there are discretionary grant initiatives supporting this program. The methods being tested through these demonstrations are: extending length of operation, additional funding for enrichment activities, meal delivery, weekend food backpacks, Supplemental Nutrition Assistance Program (SNAP) electronic benefit delivery system, and Special Supplemental Nutrition Program for Women, Infants and Children (WIC) electronic benefit delivery system.

National Guard Military Operations and Maintenance (O&M) Projects	12.401	Department of Defense	110001	6,335.6	7,665.7	6,763.0	

Provide funding for the States through cooperative agreements to support the operations and maintenance of Army National Guard (ARNG) and Air National Guard (ANG) facilities and provide authorized service support activities to National Guard units and personnel through assistance awards listed below. a. ARNG Real Property O&M Projects (RPOMA) - provide support for authorized facilities for leases, real property services, real property maintenance, and O & M minor construction projects. b. ARNG Environmental Programs Resources Management - for services provided to accomplish environmental actions such as Environmental Compliance/Corrective Projects, Environmental and Program Management. c. ARNG Security Guard Activities – for security services provided at authorized facilities. d. ARNG Electronic Security System Installation - services to maintain Joint Services Interior Intrusion Detection Systems (J-SIIDS), Commercial Intrusion Detection Systems (CIDS), Exterior Instruction Detection Systems and Closed Circuit Television (CCTV) used for security surveillance and associated on site and off site remote monitoring equipment at authorized facilities. e. ARNG Telecommunications - services provided for installation telecommunication activities. f. ARNG Aviation Training Base Operation – services provided for Air Traffic Control (ATC), Airport Agreements management and Aircraft Rescue Fire Fighting (AFF). g. ARNG Sustainable Range Program - services provided for range operations, range maintenance, leases, rentals and equipment at authorized ranges and training lands. h. ARNG Full Time Dining Facility Operations - services provided for Food Service Operations at authorized ARNG training sites. i. Office of the Chief - Administrative Services Activities - services provided for printing and duplication, mail distribution and records management services. j. ARNG Surface Petroleum – support services provided for ARNG surface vehicle and equipment fuel. k. ARNG Aviation Reimbursable Maintenance Operations - support provided for aviation reimbursable maintenance operations to include the maintenance, fabrication, and/or repair of aircraft, aircraft subassemblies, and systems. l. ARNG Distributed Learning Program- services provided for the operation and management of linked Distance Learning centers using information technology (audio/video telecommunications) to train National Guard personnel. m. ARNG Anti-Terrorism Program Manager Activities- services provided in support of security and anti-terrorism prevention measures in State ARNG facilities. n. ANG Facilities Operations & Maintenance (FOMA) Activities - services provided at authorized facilities for leases, real property operations, real property maintenance and repair, and O & M minor construction costs. o, ANG Environmental Program Management- services provided to accomplish environmental compliance/corrective projects, environmental services, program management, hazardous waste management, environmental planning activities and natural resources actions. p. ANG Security Guard - services in rendering security guard activities at authorized facilities.

National Guard Military Operations and Maintenance (O&M) Projects	12.401	Department of Defense	110011	11,240.6	9,887.3	7,270.3	

Provide funding for the States through cooperative agreements to support the operations and maintenance of Army National Guard (ARNG) and Air National Guard (ANG) facilities and provide authorized service support activities to National Guard units and personnel through assistance awards listed below. a. ARNG Real Property O&M Projects (RPOMA) - provide support for authorized facilities for leases, real property services, real property maintenance, and O & M minor construction projects. b. ARNG Environmental Programs Resources Management - for services provided to accomplish environmental actions such as Environmental Compliance/Corrective Projects, Environmental and Program Management. c. ARNG Security Guard Activities – for security services provided at authorized facilities. d. ARNG Electronic Security System Installation - services to maintain Joint Services Interior Intrusion Detection Systems (J-SIIDS), Commercial Intrusion Detection Systems (CIDS), Exterior Instruction Detection Systems and Closed Circuit Television (CCTV) used for security surveillance and associated on site and off site remote monitoring equipment at authorized facilities. e. ARNG Telecommunications - services provided for installation telecommunication activities. f. ARNG Aviation Training Base Operation – services provided for Air Traffic Control (ATC), Airport Agreements management and Aircraft Rescue Fire Fighting (AFF). g. ARNG Sustainable Range Program - services provided for range operations, range maintenance, leases, rentals and equipment at authorized ranges and training lands. h. ARNG Full Time Dining Facility Operations - services provided for Food Service Operations at authorized ARNG training sites. i. Office of the Chief - Administrative Services Activities - services provided for printing and duplication, mail distribution and records management services. j. ARNG Surface Petroleum – support services provided for ARNG surface vehicle and equipment fuel. k. ARNG Aviation Reimbursable Maintenance Operations - support provided for aviation reimbursable maintenance operations to include the maintenance, fabrication, and/or repair of aircraft, aircraft subassemblies, and systems. l. ARNG Distributed Learning Program- services provided for the operation and management of linked Distance Learning centers using information technology (audio/video telecommunications) to train National Guard personnel. m. ARNG Anti-Terrorism Program Manager Activities- services provided in support of security and anti-terrorism prevention measures in State ARNG facilities. n. ANG Facilities Operations & Maintenance (FOMA) Activities - services provided at authorized facilities for leases, real property operations, real property maintenance and repair, and O & M minor construction costs. o, ANG Environmental Program Management- services provided to accomplish environmental compliance/corrective projects, environmental services, program management, hazardous waste management, environmental planning activities and natural resources actions. p. ANG Security Guard - services in rendering security guard activities at authorized facilities.

Provide funding for the States through cooperative agreements to support the operations and maintenance of Army National Guard (ARNG) and Air National Guard (ANG) facilities and provide authorized service support activities to National Guard units and personnel through assistance awards listed below. a. ARNG Real Property O&M Projects (RPOMA) - provide support for authorized facilities for leases, real property services, real property maintenance, and O & M minor construction projects. b. ARNG Environmental Programs Resources Management - for services provided to accomplish environmental actions such as Environmental Compliance/Corrective Projects, Environmental and Program Management. c. ARNG Security Guard Activities – for security services provided at authorized facilities. d. ARNG Electronic Security System Installation - services to maintain Joint Services Interior Intrusion Detection Systems (J-SIIDS), Commercial Intrusion Detection Systems (CIDS), Exterior Instruction Detection Systems and Closed Circuit Television (CCTV) used for security surveillance and associated on site and off site remote monitoring equipment at authorized facilities. e. ARNG Telecommunications - services provided for installation telecommunication activities. f. ARNG Aviation Training Base Operation – services provided for Air Traffic Control (ATC), Airport Agreements management and Aircraft Rescue Fire Fighting (AFF). g. ARNG Sustainable Range Program - services provided for range operations, range maintenance, leases, rentals and equipment at authorized ranges and training lands. h. ARNG Full Time Dining Facility Operations - services provided for Food Service Operations at authorized ARNG training sites. i. Office of the Chief - Administrative Services Activities - services provided for printing and duplication, mail distribution and records management services. j. ARNG Surface Petroleum – support services provided for ARNG surface vehicle and equipment fuel. k. ARNG Aviation Reimbursable Maintenance Operations - support provided for aviation reimbursable maintenance operations to include the maintenance, fabrication, and/or repair of aircraft, aircraft subassemblies, and systems. l. ARNG Distributed Learning Program- services provided for the operation and management of linked Distance Learning centers using information technology (audio/video telecommunications) to train National Guard personnel. m. ARNG Anti-Terrorism Program Manager Activities- services provided in support of security and anti-terrorism prevention measures in State ARNG facilities. n. ANG Facilities Operations & Maintenance (FOMA) Activities - services provided at authorized facilities for leases, real property operations, real property maintenance and repair, and O & M minor construction costs. o, ANG Environmental Program Management- services provided to accomplish environmental compliance/corrective projects, environmental services, program management, hazardous waste management, environmental planning activities and natural resources actions. p. ANG Security Guard - services in rendering security guard activities at authorized facilities.

National Guard Military Operations and Maintenance (O&M) Projects	12.401	Department of Defense	110223	298.1	0.0	0.0	6, 8

Provide funding for the States through cooperative agreements to support the operations and maintenance of Army National Guard (ARNG) and Air National Guard (ANG) facilities and provide authorized service support activities to National Guard units and personnel through assistance awards listed below. a. ARNG Real Property O&M Projects (RPOMA) - provide support for authorized facilities for leases, real property services, real property maintenance, and O & M minor construction projects. b. ARNG Environmental Programs Resources Management - for services provided to accomplish environmental actions such as Environmental Compliance/Corrective Projects, Environmental and Program Management. c. ARNG Security Guard Activities – for security services provided at authorized facilities. d. ARNG Electronic Security System Installation - services to maintain Joint Services Interior Intrusion Detection Systems (J-SIIDS), Commercial Intrusion Detection Systems (CIDS), Exterior Instruction Detection Systems and Closed Circuit Television (CCTV) used for security surveillance and associated on site and off site remote monitoring equipment at authorized facilities. e. ARNG Telecommunications - services provided for installation telecommunication activities. f. ARNG Aviation Training Base Operation – services provided for Air Traffic Control (ATC), Airport Agreements management and Aircraft Rescue Fire Fighting (AFF). g. ARNG Sustainable Range Program - services provided for range operations, range maintenance, leases, rentals and equipment at authorized ranges and training lands. h. ARNG Full Time Dining Facility Operations - services provided for Food Service Operations at authorized ARNG training sites. i. Office of the Chief - Administrative Services Activities - services provided for printing and duplication, mail distribution and records management services. j. ARNG Surface Petroleum – support services provided for ARNG surface vehicle and equipment fuel. k. ARNG Aviation Reimbursable Maintenance Operations - support provided for aviation reimbursable maintenance operations to include the maintenance, fabrication, and/or repair of aircraft, aircraft subassemblies, and systems. l. ARNG Distributed Learning Program- services provided for the operation and management of linked Distance Learning centers using information technology (audio/video telecommunications) to train National Guard personnel. m. ARNG Anti-Terrorism Program Manager Activities- services provided in support of security and anti-terrorism prevention measures in State ARNG facilities. n. ANG Facilities Operations & Maintenance (FOMA) Activities - services provided at authorized facilities for leases, real property operations, real property maintenance and repair, and O & M minor construction costs. o, ANG Environmental Program Management- services provided to accomplish environmental compliance/corrective projects, environmental services, program management, hazardous waste management, environmental planning activities and natural resources actions. p. ANG Security Guard - services in rendering security guard activities at authorized facilities.

Hazard Mitigation Grant	97.039	Department of Homeland Security	188802	422.7	58.9	41.0	2, 6

To provide funding support to states, Indian tribal governments, territories, communities, and other eligible applicants to implement mitigation planning and hazard mitigation measures that are cost effective and which substantially reduce the risk of future damage, hardship, loss or suffering in any area affected by a major disaster. This program also conforms to the definitions of the term "Mitigation" as defined in the National Preparedness Goal (NPG), in that this program supports those capabilities that are necessary to reduce loss of life and property by lessening the impact of disasters. Mitigation capabilities include, but are not limited to, community-wide risk reduction projects; efforts to improve the resilience of critical infrastructure and key resource lifelines; risk reduction for specific vulnerabilities from natural hazards; and initiatives to reduce future risks after a disaster has occurred.

<u>Performance Measures</u>	<u>2014</u>	<u>2015</u>	<u>2016</u>
Allocate funds to priority mitigation projects as identified in FEMA approved state and local "All-Hazard Mitigation Plans".	80%	97%	100%
The purpose of the HMGP is to create the opportunity to take critical mitigation measures by providing a funding source in the immediate post-disaster atmosphere, when recognition of potential hazards is often highest.

Public Health Emergency Preparedness	93.069	Department of Health and Human Services	582100	(1.0)	0.0	0.0	2, 6, 8

The PHEP program is a critical source of funding, guidance, and technical assistance for state, territorial, and local public health departments. Preparedness activities funded by the PHEP program are targeted specifically for the development of emergency-ready public health departments that are flexible and adaptable. These efforts support the National Response Framework (NRF), which guides how the nation responds to all types of hazards including infectious disease outbreaks; natural disasters; biological, chemical, and radiological incidents; and explosions.

To help public health departments with their strategic planning, CDC identified 15 public health preparedness capabilities to serve as national public health preparedness standards. State and local jurisdictions can use CDC's Public Health Preparedness Capabilities: National Standards for State and Local Planning to better organize their work and identify the capabilities they have the resources to build or sustain. These standards help ensure that federal preparedness funds are directed to priority areas within individual jurisdictions.

The 2012 PHEP program is currently funded via a joint cooperative agreement award and aligned with the Hospital Preparedness Program (HPP). PHEP program guidance assists the 62 PHEP awardees in demonstrating measurable and sustainable progress toward achieving the 15 public health preparedness capabilities and other activities that promote safer and more resilient communities.

<u>Performance Measures</u>	<u>2014</u>	<u>2015</u>	<u>2016</u>
Objective is to meet the public with the question of "how prepared am I"? and develop an emergency kit cook-off to increase awareness of emergency preparedness needs.		100%	N/A
The purpose of this grant was to define relationships and responsibilities regarding implementation of the Arizona Emergency Preparedness Kit Awareness Campaign. The funding was fully executed.

Homeland Security Grant Program	97.067	Department of Homeland Security	582200	25.0	0.0	0.0	2, 6

FY 2012 HSGP and THSGP provide grant funding to assist state and local governments in obtaining the resources required to support the National Preparedness Goal's (NPG's) associated mission areas and core capabilities. FY 2012 THSGP provides funding directly to eligible tribes to help strengthen the nation against risks associated with potential terrorist attacks. The FY 2012 HSGP is comprised of three interconnected grant programs:

- State Homeland Security Program (SHSP): SHSP supports the implementation of State Homeland Security Strategies to address the identified planning, organization, equipment, training, and exercise needs to prevent, protect against, mitigate, respond to, and recover from acts of terrorism and other catastrophic events.
- Urban Areas Security Initiative (UASI): The UASI program addresses the unique planning, organization, equipment, training, and exercise needs of high-threat, high-density Urban Areas, and assists them in building an enhanced and sustainable capacity to prevent, protect against, mitigate, respond to, and recover from acts of terrorism.
- Operation Stonegarden (OPSG): OPSG supports enhanced cooperation and coordination among local, tribal, territorial, State, and Federal law enforcement agencies in a joint mission to secure the United States' borders along routes of ingress from international borders to include travel corridors in States bordering Mexico and Canada, as well as States and territories with international water borders.

All three programs are founded on risk-driven, capabilities-based strategic plans. These strategic plans outline capability requirements and inform how available funding may be applied to manage risk. For these plans to be effective, government officials and elected leaders, working with the whole community, must consider how to sustain current capability levels and address potential shortfalls to prevent, protect, mitigate, respond to, and recover from disasters.

The FY 2013 HSGP plays an important role in the implementation of the National Preparedness System (NPS) by supporting the building, sustainment, and delivery of core capabilities essential to achieving the National Preparedness Goal (NPG) of a secure and resilient Nation. Delivering core capabilities requires the combined effort of the whole community, rather than the exclusive effort of any single organization or level of government. The FY 2013 HSGP's allowable costs support efforts to build and sustain core capabilities across the Prevention, Protection, Mitigation, Response, and Recovery mission areas by setting the following priorities and objectives:

Priority One: Implementation of the NPS and a Whole Community Approach to Homeland Security and Emergency Management

**State of Arizona
Federal Operating Budget Detail
(Dollars in Thousands)**

Agency: Department of Emergency and Military Affairs

<u>Grant/Project and Description</u>	<u>CFDA</u>	<u>Grantor</u>	<u>AFIS ID</u>	<u>2014 Received</u>	<u>2015 Est. Rev.</u>	<u>2016 Est. Rev.</u>	<u>Footnote(s)</u>
Homeland Security Grant Program	97.067	Department of Homeland Security	582200	25.0	0.0	0.0	2, 6

- Objective One: Completion of the THIRA process in alignment with National Preparedness System guidance to identify the resources required to deliver core capabilities.
- Objective Two: Conduct risk driven, capabilities-based planning through whole community councils and working groups.
- Objective Three: Organization – Typing of equipment, and credentialing and training of personnel.
- Objective Four: Sustaining Capabilities.

Priority Two: Building and Sustaining Law Enforcement Terrorism Prevention Capabilities

- Objective One: Nationwide Suspicious Activity Reporting Initiative (NSI)

Priority Three: Maturation and Enhancement of State and Major Urban Area Fusion Centers

- Objective One: Baseline Capabilities.
- Objective Two: Analytic Capabilities.

The Department of Homeland Security Appropriations Act, 2013 (Public Law 113-6) authorized additional funding allocated at the discretion of the Secretary of the Department Homeland Security, to support appropriated programs in FY 2013. DHS has augmented the SHSP and UASI grant programs in FY 2013 by allocating an additional \$163.4 million to support the following priority areas:

Priority Four: Innovation and Sustained Support for the National Campaign for Preparedness

- Objective One: Foster individual and community preparedness and resilience by identifying needs; mobilizing partners; and creating innovative and effective solutions that can be grown, sustained, and replicated.

Priority Five: Improve Immediate Emergency Victim Care at Mass Casualty Events

- Objective One: Improve emergency care to victims of mass casualty events, including mass shootings.
- Objective Two: Improve community first aid training.

Minimum funding amounts are not prescribed by the Department for these priorities; however grantees are expected to support state, local, and regional efforts in achieving the desired outcomes of one or more of these priorities.

To assist States, the District of Columbia, American Samoa, Guam, Northern Marianas, Puerto Rico, Virgin Islands (hereinafter referred to as States), and qualified Indian Tribes and intertribal consortia in implementing EPA-approved Section 319 nonpoint source management programs. Funding Priority - Fiscal Year 2013: EPA's funding priority is to award grants that promote the development and implementation of watershed-based plans, focusing on watersheds with water quality impairments caused by nonpoint sources, which result in improved water quality in impaired waters. These watershed plans are a mechanism to coordinate monitoring and planning on a watershed basis and will build a foundation for effective implementation actions using federal and other funding. Nonpoint Source implementation projects include best management practice (BMP) installation for animal wastes, sediment, pesticide and fertilizer control, a variety of other structural and non-structural practices, watershed planning, monitoring, watershed coordinators, technology demonstration, and a variety of education/outreach programs, among others.

<u>Grant/Project and Description</u>	<u>CFDA</u>	<u>Grantor</u>	<u>AFIS ID</u>	<u>2014 Received</u>	<u>2015 Est. Rev.</u>	<u>2016 Est. Rev.</u>	<u>Footnote(s)</u>
Emergency Management Performance Grants	97.042	Department of Homeland Security	970042	0.0	(7.4)	0.0	2, 6

The EMPG Program provides resources to assist state, local, tribal and territorial governments in preparing for all hazards, as authorized by the Robert T. Stafford Disaster Relief and Emergency Assistance Act, as amended (42 U.S.C. 5121 et seq.). Title VI of the Stafford Act authorizes FEMA to make grants for the purpose of providing a system of emergency preparedness for the protection of life and property in the United States from hazards and to vest responsibility for emergency preparedness jointly in the federal government and the states and their political subdivisions. The intent of the FY 2012 EMPG is to provide grant funding to assist state emergency management agencies in obtaining the resources required to support the National Preparedness Goal's (NPG's) associated mission areas and core capabilities. The federal government, through the EMPG Program, provides necessary direction, coordination, and guidance, and provides necessary assistance, as authorized in this title so that a comprehensive emergency preparedness system exists for all hazards.

The FY 2013 EMPG Program plays an important role in the implementation of the National Preparedness System (NPS) by supporting the building, sustainment, and delivery of core capabilities essential to achieving the National Preparedness Goal (NPG) of a secure and resilient Nation. Delivering core capabilities requires the combined effort of the whole community, rather than the exclusive effort of any single organization or level of government. The FY 2013 EMPG Program's allowable costs support efforts to build and sustain core capabilities across the Prevention, Protection, Mitigation, Response, and Recovery mission areas.

Examples of tangible outcomes from the EMPG Program include building and sustaining core capabilities through:

- Building and sustaining core capabilities
- Completion of the Threat and Hazard Identification and Risk Assessment (THIRA) process
- Strengthening governance integration
- Approved emergency plans
- Development and maintenance of multi-year Training and Exercise Plans (TEPs)
- Targeted training and verification of personnel capability
- Whole community approach to security and emergency management.

Cooperating Technical Partners	97.045	Department of Homeland Security	970045	32.9	0.0	0.0	2, 6, 8

The Cooperating Technical Partners Program was developed to supplement and expand the on-going efforts of participating National Flood Insurance Program (NFIP) communities, Tribes, and States (and the agencies and organizations who support them) who perform certain functions in the flood risk analysis, flood hazard identification, flood risk communication and mitigation processes to reduce flood losses and protect life and property from the risk of future flood damage. The Cooperating Technical Partners Program seeks to: increase local involvement in, and ownership of, the development and maintenance of Flood Insurance Rate Maps (FIRMS) and risk related products produced for the NFIP; build and maintain partner capabilities; continue to increase local ownership of data and processes; and establish sound performance criteria for current Cooperating Technical Partners.

In FY 2009, FEMA transitioned from its Map Modernization (Map Mod) program to Risk MAP (Mapping, Assessment, and Planning). The vision for Risk MAP is to deliver quality data that increases public awareness of flood hazard risk and leads to action that reduces flood risk to life and property. Risk MAP builds on flood hazard data and maps produced during the Map Mod program. FEMA collaborates with a variety of stakeholders to achieve the following goals under Risk MAP:

1. Flood Hazard Data. Address gaps in flood hazard data to form a solid foundation for risk assessment, floodplain management, and actuarial soundness of the NFIP.
 2. Public Awareness/Outreach. Ensure that a measurable increase of the public's awareness and understanding of risk results in a measurable reduction of current and future vulnerability.
 3. Hazard Mitigation Planning. Lead and support States, local, and Tribal communities to effectively engage in risk-based mitigation planning resulting in sustainable actions that reduce or eliminate risks to life and property from natural hazards.
 4. Enhanced Digital Platform. Provide an enhanced digital platform that improves management of Risk MAP, stewards information produced by Risk MAP, and improves communication and sharing of risk data and related products to all levels of government and the public.
 5. Alignment and Synergies. Align Risk Analysis programs and develop synergies to enhance decision-making capabilities through effective risk communication and management.
- Information about Risk MAP (including goals, strategies, progress and success stories), can be found on FEMA's website at <http://www.fema.gov/risk-mapping-assessment-planning>.

- State Homeland Security Program (SHSP): SHSP supports the implementation of State Homeland Security Strategies to address the identified planning, organization, equipment, training, and exercise needs to prevent, protect against, mitigate, respond to, and recover from acts of terrorism and other catastrophic events.
- Urban Areas Security Initiative (UASI): The UASI program addresses the unique planning, organization, equipment, training, and exercise needs of high-threat, high-density Urban Areas, and assists them in building an enhanced and sustainable capacity to prevent, protect against, mitigate, respond to, and recover from acts of terrorism.
- Operation Stonegarden (OPSG): OPSG supports enhanced cooperation and coordination among local, tribal, territorial, State, and Federal law enforcement agencies in a joint mission to secure the United States' borders along routes of ingress from international borders to include travel corridors in States bordering Mexico and Canada, as well as States and territories with international water borders.

All three programs are founded on risk-driven, capabilities-based strategic plans. These strategic plans outline capability requirements and inform how available funding may be applied to manage risk. For these plans to be effective, government officials and elected leaders, working with the whole community, must consider how to sustain current capability levels and address potential shortfalls to prevent, protect, mitigate, respond to, and recover from disasters.

The FY 2013 HSGP plays an important role in the implementation of the National Preparedness System (NPS) by supporting the building, sustainment, and delivery of core capabilities essential to achieving the National Preparedness Goal (NPG) of a secure and resilient Nation. Delivering core capabilities requires the combined effort of the whole community, rather than the exclusive effort of any single organization or level of government. The FY 2013 HSGP's allowable costs support efforts to build and sustain core capabilities across the Prevention, Protection, Mitigation, Response, and Recovery mission areas by setting the following priorities and objectives:

Priority One: Implementation of the NPS and a Whole Community Approach to Homeland Security and Emergency Management

**State of Arizona
Federal Operating Budget Detail
(Dollars in Thousands)**

Agency: Department of Emergency and Military Affairs

<u>Grant/Project and Description</u>	<u>CFDA</u>	<u>Grantor</u>	<u>AFIS ID</u>	<u>2014 Received</u>	<u>2015 Est. Rev.</u>	<u>2016 Est. Rev.</u>	<u>Footnote(s)</u>
Homeland Security Grant Program	97.067	Department of Homeland Security	970067	0.0	(1.6)	0.0	2, 6

- Objective One: Completion of the THIRA process in alignment with National Preparedness System guidance to identify the resources required to deliver core capabilities.
- Objective Two: Conduct risk driven, capabilities-based planning through whole community councils and working groups.
- Objective Three: Organization – Typing of equipment, and credentialing and training of personnel.
- Objective Four: Sustaining Capabilities.

Priority Two: Building and Sustaining Law Enforcement Terrorism Prevention Capabilities

- Objective One: Nationwide Suspicious Activity Reporting Initiative (NSI)

Priority Three: Maturation and Enhancement of State and Major Urban Area Fusion Centers

- Objective One: Baseline Capabilities.
- Objective Two: Analytic Capabilities.

The Department of Homeland Security Appropriations Act, 2013 (Public Law 113-6) authorized additional funding allocated at the discretion of the Secretary of the Department Homeland Security, to support appropriated programs in FY 2013. DHS has augmented the SHSP and UASI grant programs in FY 2013 by allocating an additional \$163.4 million to support the following priority areas:

Priority Four: Innovation and Sustained Support for the National Campaign for Preparedness

- Objective One: Foster individual and community preparedness and resilience by identifying needs; mobilizing partners; and creating innovative and effective solutions that can be grown, sustained, and replicated.

Priority Five: Improve Immediate Emergency Victim Care at Mass Casualty Events

- Objective One: Improve emergency care to victims of mass casualty events, including mass shootings.
- Objective Two: Improve community first aid training.

Minimum funding amounts are not prescribed by the Department for these priorities; however grantees are expected to support state, local, and regional efforts in achieving the desired outcomes of one or more of these priorities.

Hazard Mitigation Grant	97.039	Department of Homeland Security	970393	30.4	54.6	52.0	2, 6

To provide funding support to states, Indian tribal governments, territories, communities, and other eligible applicants to implement mitigation planning and hazard mitigation measures that are cost effective and which substantially reduce the risk of future damage, hardship, loss or suffering in any area affected by a major disaster. This program also conforms to the definitions of the term "Mitigation" as defined in the National Preparedness Goal (NPG), in that this program supports those capabilities that are necessary to reduce loss of life and property by lessening the impact of disasters. Mitigation capabilities include, but are not limited to, community-wide risk reduction projects; efforts to improve the resilience of critical infrastructure and key resource lifelines; risk reduction for specific vulnerabilities from natural hazards; and initiatives to reduce future risks after a disaster has occurred.

<u>Performance Measures</u>	<u>2014</u>	<u>2015</u>	<u>2016</u>
Allocate funds to priority mitigation projects as identified in FEMA approved state and local "All-Hazard Mitigation Plan"		97%	100%
<p>The purpose of the HMGP is to create the opportunity to take critical mitigation measures by providing a funding source in the immediate post-disaster atmosphere, when recognition of potential hazards is often highest. The non-federal match is 25% of project cost. The FEMA 1660-DR-AZ was awarded relative to the Summer 2006 Monsoons and Flooding Emergency federally declared on September 7, 2006, a Major Disaster Declaration for Pinal and Pima counties, the Gila River Indian Community within Pinal County and the Tohono O'Odham Nation within Pima and Pinal Counties. The declaration was amended on September 29, 2006 to include Gila, Graham, Greenlee and Navajo Counties, the tribal areas of the Hopi Tribe within Navajo County, the Navajo Nation within Navajo County and the San Carlos Apache Tribe within Gila, Graham and Pinal Counties. On November 9, 2006, the declaration was amended to include the Navajo Nation within Apache and Coconino Counties.</p>

Pre-Disaster Mitigation	97.047	Department of Homeland Security	970472	60.9	3.3	0.0	2, 6

Funding under PDM for FY14 is uncertain at this time. FEMA will open an application period for the program once funds are appropriated in the FY 2014 DHS Appropriation Bill. If funds are appropriated, FEMA will post a notice of funding availability via grants.gov and open an application period at that time.

The objective of the program is to provide funding support to states, Indian tribal governments, territories, communities, and public colleges and universities for pre-disaster mitigation planning and projects primarily addressing natural hazards. This program promotes implementation of activities designed to reduce injuries, loss of life, and damage and destruction to property from natural hazards which is consistent with DHS QHSR Goal 5.1, "Mitigate Hazards".

<u>Performance Measures</u>	<u>2014</u>	<u>2015</u>	<u>2016</u>

Emergency Management Performance Grants	97.042	Department of Homeland Security	971042	0.0	(0.4)	0.0	2, 6

The EMPG Program provides resources to assist state, local, tribal and territorial governments in preparing for all hazards, as authorized by the Robert T. Stafford Disaster Relief and Emergency Assistance Act, as amended (42 U.S.C. 5121 et seq.). Title VI of the Stafford Act authorizes FEMA to make grants for the purpose of providing a system of emergency preparedness for the protection of life and property in the United States from hazards and to vest responsibility for emergency preparedness jointly in the federal government and the states and their political subdivisions. The intent of the FY 2012 EMPG is to provide grant funding to assist state emergency management agencies in obtaining the resources required to support the National Preparedness Goal's (NPG's) associated mission areas and core capabilities. The federal government, through the EMPG Program, provides necessary direction, coordination, and guidance, and provides necessary assistance, as authorized in this title so that a comprehensive emergency preparedness system exists for all hazards.

The FY 2013 EMPG Program plays an important role in the implementation of the National Preparedness System (NPS) by supporting the building, sustainment, and delivery of core capabilities essential to achieving the National Preparedness Goal (NPG) of a secure and resilient Nation. Delivering core capabilities requires the combined effort of the whole community, rather than the exclusive effort of any single organization or level of government. The FY 2013 EMPG Program's allowable costs support efforts to build and sustain core capabilities across the Prevention, Protection, Mitigation, Response, and Recovery mission areas.

Examples of tangible outcomes from the EMPG Program include building and sustaining core capabilities through:

- Building and sustaining core capabilities
- Completion of the Threat and Hazard Identification and Risk Assessment (THIRA) process
- Strengthening governance integration
- Approved emergency plans
- Development and maintenance of multi-year Training and Exercise Plans (TEPs)
- Targeted training and verification of personnel capability
- Whole community approach to security and emergency management.

Homeland Security Grant Program	97.067	Department of Homeland Security	971067	129.7	(0.9)	0.0	2, 6, 8

FY 2012 HSGP and THSGP provide grant funding to assist state and local governments in obtaining the resources required to support the National Preparedness Goal's (NPG's) associated mission areas and core capabilities. FY 2012 THSGP provides funding directly to eligible tribes to help strengthen the nation against risks associated with potential terrorist attacks. The FY 2012 HSGP is comprised of three interconnected grant programs:

- State Homeland Security Program (SHSP): SHSP supports the implementation of State Homeland Security Strategies to address the identified planning, organization, equipment, training, and exercise needs to prevent, protect against, mitigate, respond to, and recover from acts of terrorism and other catastrophic events.
- Urban Areas Security Initiative (UASI): The UASI program addresses the unique planning, organization, equipment, training, and exercise needs of high-threat, high-density Urban Areas, and assists them in building an enhanced and sustainable capacity to prevent, protect against, mitigate, respond to, and recover from acts of terrorism.
- Operation Stonegarden (OPSG): OPSG supports enhanced cooperation and coordination among local, tribal, territorial, State, and Federal law enforcement agencies in a joint mission to secure the United States' borders along routes of ingress from international borders to include travel corridors in States bordering Mexico and Canada, as well as States and territories with international water borders.

All three programs are founded on risk-driven, capabilities-based strategic plans. These strategic plans outline capability requirements and inform how available funding may be applied to manage risk. For these plans to be effective, government officials and elected leaders, working with the whole community, must consider how to sustain current capability levels and address potential shortfalls to prevent, protect, mitigate, respond to, and recover from disasters.

Agency: Department of Emergency and Military Affairs

<u>Grant/Project and Description</u>	<u>CFDA</u>	<u>Grantor</u>	<u>AFIS ID</u>	<u>2014 Received</u>	<u>2015 Est. Rev.</u>	<u>2016 Est. Rev.</u>	<u>Footnote(s)</u>
Homeland Security Grant Program	97.067	Department of Homeland Security	971067	129.7	(0.9)	0.0	2, 6, 8

- Objective One: Completion of the THIRA process in alignment with National Preparedness System guidance to identify the resources required to deliver core capabilities.
- Objective Two: Conduct risk driven, capabilities-based planning through whole community councils and working groups.
- Objective Three: Organization – Typing of equipment, and credentialing and training of personnel.
- Objective Four: Sustaining Capabilities.

Priority Two: Building and Sustaining Law Enforcement Terrorism Prevention Capabilities

- Objective One: Nationwide Suspicious Activity Reporting Initiative (NSI)

Priority Three: Maturation and Enhancement of State and Major Urban Area Fusion Centers

- Objective One: Baseline Capabilities.
- Objective Two: Analytic Capabilities.

The Department of Homeland Security Appropriations Act, 2013 (Public Law 113-6) authorized additional funding allocated at the discretion of the Secretary of the Department Homeland Security, to support appropriated programs in FY 2013. DHS has augmented the SHSP and UASI grant programs in FY 2013 by allocating an additional \$163.4 million to support the following priority areas:

Priority Four: Innovation and Sustained Support for the National Campaign for Preparedness

- Objective One: Foster individual and community preparedness and resilience by identifying needs; mobilizing partners; and creating innovative and effective solutions that can be grown, sustained, and replicated.

Priority Five: Improve Immediate Emergency Victim Care at Mass Casualty Events

- Objective One: Improve emergency care to victims of mass casualty events, including mass shootings.
- Objective Two: Improve community first aid training.

Minimum funding amounts are not prescribed by the Department for these priorities; however grantees are expected to support state, local, and regional efforts in achieving the desired outcomes of one or more of these priorities.

Grant/Project and Description	CFDA	Grantor	AFIS ID	2014 Received	2015 Est. Rev.	2016 Est. Rev.	Footnote(s)
Homeland Security Grant Program	97.067	Department of Homeland Security	971067	129.7	(0.9)	0.0	2, 6, 8

<u>Performance Measures</u>	<u>2014</u>	<u>2015</u>	<u>2016</u>
Reimburse jurisdictions for project costs within 60 days of receipt of documented eligible costs.		60 days	N/A
<p>The State Homeland Security Grant Program seeks to provide the resources necessary for state and local communities for first responder preparedness, and to mitigate the costs of enhanced security at critical infrastructure facilities, representing the federal commitment to first responders and will help state and local public safety and law enforcement personnel pay for planning, training, equipment and exercises and other costs associated with enhancing the capabilities on a state and local level to prevent, respond to and recover from terrorist attacks.</p>			

Flood Mitigation Assistance	97.029	Department of Homeland Security	972029	554.0	500.0	530.1	2, 6
------------------------------------	---------------	--	--------	-------	-------	-------	------

To assist States, Federally - recognized Indian tribal governments, and communities with the goal of reducing or eliminating claims under the National Flood Insurance Program (NFIP). DHS QHSR Goal 5.1, "Mitigate Hazards". This program also conforms to the definitions of the term "Mitigation" as defined in the National Preparedness Goal (NPG), in that this program supports those capabilities that are necessary to reduce loss of life and property by lessening the impact of disasters. Mitigation capabilities include, but are not limited to, community-wide risk reduction projects; efforts to improve the resilience of critical infrastructure and key resource lifelines; risk reduction for specific vulnerabilities from natural hazards; and initiatives to reduce future risks after a disaster has occurred.

<u>Performance Measures</u>	<u>2014</u>	<u>2015</u>	<u>2016</u>
Allocate funds to priority mitigation projects as identified in FEMA approved state and local "All-Hazard Mitigation Plans".		60 days	60 days
<p>The FMA Grant Program funds pre-disaster flood mitigation projects, with the goal of eliminating or reducing repetitive losses to structures insurable under the National Flood Insurance Program (NFIP).</p>

Agency: Department of Emergency and Military Affairs

<u>Grant/Project and Description</u>	<u>CFDA</u>	<u>Grantor</u>	<u>AFIS ID</u>	<u>2014 Received</u>	<u>2015 Est. Rev.</u>	<u>2016 Est. Rev.</u>	<u>Footnote(s)</u>
Emergency Management Performance Grants	97.042	Department of Homeland Security	972042	(1,221.9)	(0.4)	0.0	2, 6, 8

The EMPG Program provides resources to assist state, local, tribal and territorial governments in preparing for all hazards, as authorized by the Robert T. Stafford Disaster Relief and Emergency Assistance Act, as amended (42 U.S.C. 5121 et seq.). Title VI of the Stafford Act authorizes FEMA to make grants for the purpose of providing a system of emergency preparedness for the protection of life and property in the United States from hazards and to vest responsibility for emergency preparedness jointly in the federal government and the states and their political subdivisions. The intent of the FY 2012 EMPG is to provide grant funding to assist state emergency management agencies in obtaining the resources required to support the National Preparedness Goal's (NPG's) associated mission areas and core capabilities. The federal government, through the EMPG Program, provides necessary direction, coordination, and guidance, and provides necessary assistance, as authorized in this title so that a comprehensive emergency preparedness system exists for all hazards.

The FY 2013 EMPG Program plays an important role in the implementation of the National Preparedness System (NPS) by supporting the building, sustainment, and delivery of core capabilities essential to achieving the National Preparedness Goal (NPG) of a secure and resilient Nation. Delivering core capabilities requires the combined effort of the whole community, rather than the exclusive effort of any single organization or level of government. The FY 2013 EMPG Program's allowable costs support efforts to build and sustain core capabilities across the Prevention, Protection, Mitigation, Response, and Recovery mission areas.

Examples of tangible outcomes from the EMPG Program include building and sustaining core capabilities through:

- Building and sustaining core capabilities
- Completion of the Threat and Hazard Identification and Risk Assessment (THIRA) process
- Strengthening governance integration
- Approved emergency plans
- Development and maintenance of multi-year Training and Exercise Plans (TEPs)
- Targeted training and verification of personnel capability
- Whole community approach to security and emergency management.

Emergency Management Performance Grants	97.042	Department of Homeland Security	972042	(1,221.9)	(0.4)	0.0	^{2, 6, 8}

<u>Performance Measures</u>	<u>2014</u>	<u>2015</u>	<u>2016</u>
Distribute grant funds to all counties for eligible emergency management program costs within 60 days of receipt of documented eligible expenditures	60 days	60 days	N/A
Federal 50/50 match grant that subsidizes the development and sustainment of state and local emergency management program activities related to personnel costs, emergency planning, training, exercises, and general operating expenses.			

Pre-Disaster Mitigation	97.047	Department of Homeland Security	972047	608.2	1,196.1	801.4	^{2, 6}
--------------------------------	---------------	--	--------	-------	---------	-------	-----------------

Funding under PDM for FY14 is uncertain at this time. FEMA will open an application period for the program once funds are appropriated in the FY 2014 DHS Appropriation Bill. If funds are appropriated, FEMA will post a notice of funding availability via grants.gov and open an application period at that time.

The objective of the program is to provide funding support to states, Indian tribal governments, territories, communities, and public colleges and universities for pre-disaster mitigation planning and projects primarily addressing natural hazards. This program promotes implementation of activities designed to reduce injuries, loss of life, and damage and destruction to property from natural hazards which is consistent with DHS QHSR Goal 5.1, "Mitigate Hazards".

<u>Performance Measures</u>	<u>2014</u>	<u>2015</u>	<u>2016</u>
Reimburse jurisdictions for project costs within 60 days of receipt of documented eligible expenditures.		60 days	60 days
THE PDM Grant Program is a nationwide competitive grant program that was created to assist states, local and tribal governments to implement cost-effective hazard mitigation activities before disasters occur. Funds awarded are project specific.

Homeland Security Grant Program	97.067	Department of Homeland Security	972067	305.9	(4.7)	0.0	2, 6, 8

FY 2012 HSGP and THSGP provide grant funding to assist state and local governments in obtaining the resources required to support the National Preparedness Goal's (NPG's) associated mission areas and core capabilities. FY 2012 THSGP provides funding directly to eligible tribes to help strengthen the nation against risks associated with potential terrorist attacks. The FY 2012 HSGP is comprised of three interconnected grant programs:

- State Homeland Security Program (SHSP): SHSP supports the implementation of State Homeland Security Strategies to address the identified planning, organization, equipment, training, and exercise needs to prevent, protect against, mitigate, respond to, and recover from acts of terrorism and other catastrophic events.
- Urban Areas Security Initiative (UASI): The UASI program addresses the unique planning, organization, equipment, training, and exercise needs of high-threat, high-density Urban Areas, and assists them in building an enhanced and sustainable capacity to prevent, protect against, mitigate, respond to, and recover from acts of terrorism.
- Operation Stonegarden (OPSG): OPSG supports enhanced cooperation and coordination among local, tribal, territorial, State, and Federal law enforcement agencies in a joint mission to secure the United States' borders along routes of ingress from international borders to include travel corridors in States bordering Mexico and Canada, as well as States and territories with international water borders.

All three programs are founded on risk-driven, capabilities-based strategic plans. These strategic plans outline capability requirements and inform how available funding may be applied to manage risk. For these plans to be effective, government officials and elected leaders, working with the whole community, must consider how to sustain current capability levels and address potential shortfalls to prevent, protect, mitigate, respond to, and recover from disasters.

The FY 2013 HSGP plays an important role in the implementation of the National Preparedness System (NPS) by supporting the building, sustainment, and delivery of core capabilities essential to achieving the National Preparedness Goal (NPG) of a secure and resilient Nation. Delivering core capabilities requires the combined effort of the whole community, rather than the exclusive effort of any single organization or level of government. The FY 2013 HSGP's allowable costs support efforts to build and sustain core capabilities across the Prevention, Protection, Mitigation, Response, and Recovery mission areas by setting the following priorities and objectives:

Priority One: Implementation of the NPS and a Whole Community Approach to Homeland Security and Emergency Management

Emergency Management Performance Grants	97.042	Department of Homeland Security	975042	0.0	0.0	6,972.2	5,6

The EMPG Program provides resources to assist state, local, tribal and territorial governments in preparing for all hazards, as authorized by the Robert T. Stafford Disaster Relief and Emergency Assistance Act, as amended (42 U.S.C. 5121 et seq.). Title VI of the Stafford Act authorizes FEMA to make grants for the purpose of providing a system of emergency preparedness for the protection of life and property in the United States from hazards and to vest responsibility for emergency preparedness jointly in the federal government and the states and their political subdivisions. The intent of the FY 2012 EMPG is to provide grant funding to assist state emergency management agencies in obtaining the resources required to support the National Preparedness Goal's (NPG's) associated mission areas and core capabilities. The federal government, through the EMPG Program, provides necessary direction, coordination, and guidance, and provides necessary assistance, as authorized in this title so that a comprehensive emergency preparedness system exists for all hazards.

The FY 2013 EMPG Program plays an important role in the implementation of the National Preparedness System (NPS) by supporting the building, sustainment, and delivery of core capabilities essential to achieving the National Preparedness Goal (NPG) of a secure and resilient Nation. Delivering core capabilities requires the combined effort of the whole community, rather than the exclusive effort of any single organization or level of government. The FY 2013 EMPG Program's allowable costs support efforts to build and sustain core capabilities across the Prevention, Protection, Mitigation, Response, and Recovery mission areas.

Examples of tangible outcomes from the EMPG Program include building and sustaining core capabilities through:

- Building and sustaining core capabilities
- Completion of the Threat and Hazard Identification and Risk Assessment (THIRA) process
- Strengthening governance integration
- Approved emergency plans
- Development and maintenance of multi-year Training and Exercise Plans (TEPs)
- Targeted training and verification of personnel capability
- Whole community approach to security and emergency management.

Agency: Department of Environmental Quality

<u>Grant/Project and Description</u>	<u>CFDA</u>	<u>Grantor</u>	<u>AFIS ID</u>	<u>2014 Received</u>	<u>2015 Est. Rev.</u>	<u>2016 Est. Rev.</u>	<u>Footnote(s)</u>
Air Pollution Control Program Support	66.001	Environmental Protection Agency	000042	2,876.8	3,424.0	3,424.0	6

The objectives of the §105 program are to assist State, Tribal, Municipal, Intermunicipal, and Interstate agencies in planning, developing, establishing, improving, and maintaining adequate programs for the continuing prevention and control of air pollution and/or in the implementation of national primary and secondary air quality standards.

Projects should also focus on addressing environmental justice (EJ) concerns in communities. EJ is the fair treatment and meaningful involvement of all people regardless of race, color, national origin, or income with respect to the development, implementation, and enforcement of environmental laws, regulations, and policies.

Funding Priority - Fiscal Year 2013: By nature, much of the work occurring in FY 2012, including the implementation of mobile, area and stationary source pollution controls, will continue into FY 2013. However, several new developments will alter the priorities for the program across the country in FY 2013 - the response to the revised national ambient air quality standards (NAAQS) for ozone, lead, fine particulates (PM2.5), nitrogen dioxide (NO2), CO and sulfur dioxide (SO2). Recipients will continue to review air quality reports and take appropriate actions dealing with new violating areas with any of the NAAQS; submit re-designation requests including maintenance plans for areas with clean air quality data as appropriate; work with local area stakeholders to support innovative and local initiatives; continue to implement 1997 8-hr ozone NAAQS by submitting State Implementation Plans (SIPs); begin SIP planning for attaining the 2008 8-hr ozone NAAQS standards; and submitting any outstanding ozone SIP elements (including prior commitments). Although not required to do so, recipients may also choose to prepare recommendations on designations for the revised 2012 PM2.5 NAAQS. For PM2.5, recipients will submit any outstanding PM2.5 SIP elements as needed and implement PM2.5 plans designed to attain the 1997 and 2006 NAAQS. states will work with local agencies to implement woodstove change-out programs in areas where change-outs could significantly reduce ambient particle concentrations. Areas may also explore feasibility of changing out existing outdoor wood-fired boilers to significantly reduce PM2.5 concentrations. Recipients will also work on monitoring and SIP planning to attain the Lead (Pb) NAAQS. As in FY 2012, for ambient monitoring, all state/local primary quality assurance organizations operate monitors and submit NAAQS pollutant data, Photochemical Assessment Monitoring Stations (PAMS), and quality assurance (QA) data to AQS directly or indirectly through another organization according to schedule in 40 CFR Part 58. Data must also meet quality assurance requirements according to Appendix A to 40 CFR Part 58. These organizations will also submit their required annual (monitoring) network plans by July 1, 2013. They must also certify their 2011 NAAQS pollutant data in AQS and provide supporting documentation by May 1, 2013 (state/local only, unless tribal work plan requirement). Additionally, monitoring organizations will report real

<u>Grant/Project and Description</u>	<u>CFDA</u>	<u>Grantor</u>	<u>AFIS ID</u>	<u>2014 Received</u>	<u>2015 Est. Rev.</u>	<u>2016 Est. Rev.</u>	<u>Footnote(s)</u>
Air Pollution Control Program Support	66.001	Environmental Protection Agency	000042	2,876.8	3,424.0	3,424.0	⁶

time ozone and PM2.5 data to the AirNOW system for cities required to report the Air Quality Index (AQI) (state/local only). Air quality reporting, including particle pollution forecasting, will be expanded to additional cities. States affected by CAIR continue to contribute a portion of their grant funds to support a centrally-administered emissions budget and trading program as part of their PM and NOx State Implementation Plans. For regional haze, states and other stakeholders will continue to work with EPA on issues related to submitted regional haze SIPs and will continue to implement Best Available Retrofit Technology (BART) requirements. As in FY 2012, funds for air toxics purposes are provided to: operate existing air toxics monitoring networks operated by state, tribal, and local agencies in order to better characterize air toxics risks and assess the effectiveness of control strategies. Recipients will collect data for the annual integrated emissions inventory; implement delegated or approved section 112, 111(d) and 129 standards, as appropriate, for major sources and area sources; implement delegated residual risk standards; and work with communities to develop and implement local air toxics programs that address outdoor, indoor, and mobile sources with emphasis on areas with potential environmental justice concerns. State and local air pollution control agencies work with EPA to operate the national fine particulate (PM2.5) monitoring network to accurately assess and characterize the nature and extent of fine particulates (PM2.5) across the country. This assessment is necessary to determine the air quality status of an area in relation to the national PM2.5 ambient air quality standard. At least three years of quality-assured data are required in order to determine an area's attainment status. The air quality status of an area will determine the nature and complexity of its attainment plan, its associated control strategies, and its implementation schedule. The immediate goals of this multi-year program are: appropriate spatial characterization of PM2.5 NAAQS; public reporting of PM2.5 in the Air Quality Index; characterization of PM2.5 chemical speciation data for long term trends; development and accountability of emission control programs and tracking of regional haze, and limited support of health studies; implementation of NCore CO, SO2, NO2/NOy trace-level monitoring to support characterization of PM precursors; assessment of PM2.5 data quality; and procurement and testing of PM2.5 filters. Grant funds are used to provide support to eligible state and local air agencies for continued operation of high value federal reference method (FRM) and speciation monitoring sites; additional investments in PM2.5 mass and speciation continuous monitoring and associated data management systems for timely reporting of high quality data; and continued investments in precursor gas analyzers, data analyses, and quality assurance activities that will support better understanding of particle formation.

Leaking Underground Storage Tank Trust Fund Corrective Action Program	66.805	Environmental Protection Agency	000112	146.2	1,000.0	1,000.0	⁶

To support State (including Territories that are included in the definition of 'State' in the Solid Waste Disposal Act) and Tribal corrective action programs that address releases from underground storage tanks.

Funding Priorities - Fiscal Year 2013: Assistance agreements to states and Tribes will support activities in making progress in cleaning up petroleum leaks by initiating and completing cleanups, and reducing the backlog of sites not yet cleaned up. In FY 2013, not less than 80 percent of LUST cleanup appropriated funds will be provided to states to carry out the LUST cleanup program. High priority tasks include better site characterization efforts, remedy selection review, other technical assistance and management, oversight and enforcement activities at unaddressed LUST sites.

The LUST program received funding in the FY 2009 American Recovery and Reinvestment Act (ARRA) of 2009. All of these funds were obligated; however, \$9.2 million was returned by one state and subsequently rescinded by Congress. The ARRA funds were outlayed through mid-FY 2013. Additional details can be found at <http://www.epa.gov/recovery/> and <http://www.recovery.gov/Pages/default.aspx>.

Agency: Department of Environmental Quality

<u>Grant/Project and Description</u>	<u>CFDA</u>	<u>Grantor</u>	<u>AFIS ID</u>	<u>2014 Received</u>	<u>2015 Est. Rev.</u>	<u>2016 Est. Rev.</u>	<u>Footnote(s)</u>
Underground Storage Tank Prevention, Detection and Compliance Program	66.804	Environmental Protection Agency	000192	428.7	447.0	447.0	6

To assist States, Territories, Tribes and/or Intertribal Consortia (LUST Prevention only for Tribes and/or Intertribal Consortia) that meet the requirements at 40 CFR 35.504 in the development and implementation of underground storage tank (UST) programs and for leak prevention, compliance and other activities authorized by the Energy Policy Act (EPA) of 2005, Public Law 105-276, and EPA's annual appropriations acts.

Funding Priority - Fiscal Year 2013: Assistance agreements to states under Section 2007 of the Solid Waste and Disposal Act will support core program underground storage tank (UST) activities, implement their leak prevention and detection programs, as well as the 2005 Energy Policy Act (EPA) leak prevention activities. High priority tasks include providing financial assistance to states for: 1) approving specific technologies to detect leaks from tank systems; 2) ensuring that tank owners and operators are complying with notification and other requirements; 3) ensuring equipment compatibility; 4) conducting UST inspections; 5) implementing operator training; 6) prohibiting delivery for non-complying facilities; 7) seeking state program approval to operate the UST program in lieu of the Federal program; and 8) requiring secondary containment or financial responsibility for tank manufacturers and installers.

LUST Prevention assistance agreements to states and tribes, and/or intertribal consortia for activities authorized by EPA will support states with inspections and other release prevention and compliance assurance activities for Federally-regulated UST systems, as well as for enforcement activities related to release prevention. A main cause of releases is the lack of proper operation and maintenance of UST systems, which is why the EPA proposed revisions to the UST regulations in FY 2012 that address these and other important issues. Any changes that result from a final rule will require subsequent state adoption, applicable updates to state regulations, and updates to state program approval.

For tribes, the LUST Prevention assistance agreements will assist with all aspects of the Tribal programs, e.g., inspection capacity. High priority tasks include providing financial assistance to states and tribes for: 1) inspecting UST facilities to complete the three-year inspection requirement; 2) developing inspection capacity for Tribes; 3) assisting states in adopting measures (e.g., delivery prohibition, secondary containment, operator training, etc.), as required by EPA and EPA's grant guidelines; 4) enforcement activities related to release prevention; 5) development of leak prevention regulations and other program infrastructure; 6) helping tribes develop the capacity to administer UST programs, such as providing funding to support training for Tribal staff and educating owners and operators in Indian Country about UST requirements. These activities are geared toward bringing all UST systems into compliance with release detection and release prevention

<u>Grant/Project and Description</u>	<u>CFDA</u>	<u>Grantor</u>	<u>AFIS ID</u>	<u>2014 Received</u>	<u>2015 Est. Rev.</u>	<u>2016 Est. Rev.</u>	<u>Footnote(s)</u>
Performance Partnership Grants	66.605	Environmental Protection Agency	000811	4,365.1	2,844.0	2,844.0	6

Improving EPA's partnership with the States and Tribes is critical to accelerating environmental outcomes. Performance Partnership Grants (PPGs) are the cornerstone of the National Environmental Performance Partnership System (NEPPS) -- EPA's strategy to strengthen partnerships and build a results-based management system. PPGs are innovative grant delivery tools that allow States and Tribes to combine up to 18 eligible State and Tribal Assistance Grants (STAG) grants into a single grant with a single budget. PPGs can reduce administrative transaction costs, provide the flexibility to direct resources toward the highest priority environmental problems, and support cross-media approaches and initiatives. EPA's overarching goal is to optimize the leveraging power of PPGs to focus strategically on the joint priorities of EPA, States and Tribes. PPGs do not include any funding in addition to the state and tribal assistance grants provided under other statutory authorities.

Funding Priority - Fiscal Year 2013: Many state environmental agencies are experiencing severe budget cuts and will be challenged to maintain core programs. In this climate, EPA's regional offices will give priority to flexibility and opportunities to work collaboratively with States and Tribes. The Agency will continue to focus on our ongoing goals for the PPG program, which are: (1) strengthen partnerships between EPA, the States, Tribes, and interstate agencies through joint planning and priority setting to deploy resources more effectively; (2) provide States, Tribes, and interstate agencies with the flexibility to direct resources where they are needed most to address environmental and public health priorities; (3) link program activities more effectively with environmental and public health goals and environmental outcomes; (4) foster implementation of innovative approaches such as pollution prevention, ecosystem management, and community-based environmental protection strategies; and (5) provide savings by streamlining administrative requirements.

Surveys, Studies, Research, Investigations, Demonstrations, and Special Purpose Activities Relating to the Clean Air Act	66.034	Environmental Protection Agency	000950	428.0	167.6	167.6	6

To support Surveys, Studies, Research, Investigations, Demonstrations and Special Purpose assistance relating to the causes, effects (including health and welfare effects), extent, prevention, and control of air pollution to include such topics as air quality, acid deposition, climate change, global programs, indoor environments, radiation, mobile source technology and community-driven approaches to transportation and emissions reduction.

Projects should also focus on addressing environmental justice (EJ) concerns in communities. EJ is the fair treatment and meaningful involvement of all people regardless of race, color, national origin, or income with respect to the development, implementation, and enforcement of environmental laws, regulations, and policies.

(1) Indoor Environments. Activities will support surveys, studies, research, training, outreach, education, investigations or demonstrations performed by organizations that lead to effective outreach strategies to educate key audiences about indoor air pollutants, their associated health risks and encourage effective mitigation and control strategies. Currently, the Program focuses on several critical aspects of indoor air quality that pose significant risks to public health, and in particular, to children and other disproportionately impacted segments of society. Program focus includes, but is not limited to, reducing the exposure of children and others with asthma to indoor triggers that worsen their condition; promoting the adoption of operation and maintenance practices in schools, homes and other buildings throughout the nation to reduce the harmful effects of poor indoor air quality on the health of the public, students and staff; promoting voluntary radon testing by homeowners to identify elevated levels and fix them when they are found; as well as working with homebuilders to incorporate radon resistant construction features into new homes; and encouraging adult smokers to protect their children from the adverse health effects of environmental exposure to secondhand smoke by making a conscious decision to smoke outside and keep their homes and cars smokefree.

(2) Radiation. Activities support technical, outreach, and educational projects relating to environmental radiation. Activities also support the national environmental radiation monitoring program. This program prepares for and responds to incidents involving nuclear or radiological material, oversees the safe disposal of radioactive waste, maintains two laboratories that perform radiological sampling and analyses, and provides standards for protecting human health and the environment from radioactive material. Program focus includes, but is not limited, to the following activities: performance testing and evaluation, development of analytical procedures, purchasing of radiation laboratory equipment and support and enhancement of radiological laboratory capability and capacity across the nation to reduce the gap in analyzing

environmental samples following a significant national radiological incident.

(3) Community-Scale Air Toxics Ambient Monitoring (CSATAM). The CSATAM Grant Program results in two-year projects designed to assist state, local and tribal communities in identifying and profiling air toxics sources, characterizing the degree and extent of local air toxics problems and tracking progress of air toxics reduction activities in specific local areas without reliance on often uncertain estimates of emissions and air dispersion models. Further, projects typically allow the recipient state, local and tribal air pollution control agencies to establish or enhance hazardous air pollutant monitoring networks, thus providing long term capability to investigate and assess specific local air quality scenarios of concern. The program will continue working with grant recipients that received funding in previous years.

(4) Mobile Sources Technologies. Projects encompass studies and investigations utilizing state-of-the-art experimental techniques in advanced engine development technology, including hydraulic hybrid drive-trains, to optimize fuel economy, reduce exhaust emissions (including PM and NOx) and improve performance. In addition, projects may support studies identifying barriers to technological innovation, analyzing innovative strategies for overcoming these barriers, encouraging the development and adoption of new vehicle and fuel technologies for the control of emissions.

(5) Heavy Duty Truck Fuel Consumption and Emissions Reductions. This program studies and analyzes fuel consumption and emissions reductions associated with the use of innovative technologies for heavy duty diesel trucks. Projects involve truck fleets that operate under varying conditions in order to evaluate the effectiveness of the various technologies.

(6) National Internet-based On-Board Diagnostic (OBD) Information Exchange. This program supports activities that maintain, update and improve the Internet-based information clearinghouse to facilitate accurate and timely exchange of technical information related to on-board diagnostic (OBD) between state inspection/maintenance programs, the automotive industry and the general public.

(7) Integrated Assessment of Transportation-Related Policies on Greenhouse Gases, Land Use Change, and Other Economy-Wide Impacts (Integrated Assessment). This program is designed to improve the public data underlying well-established integrated assessment models used to analyze both climate change impacts and the linkages between renewable fuels and climate change. Additionally, projects are intended to further the public's understanding of the interaction of the

economic, energy, and environmental impacts of increased renewable fuel usage in the U.S. transportation sector using a robust modeling framework.

(8) Climate Change. The Climate Change Division (CCD) supports activities relating to improving economic, technical and programmatic understanding of climate change. CCD supports technical, outreach, and education projects regarding climate change impacts, mitigation and adaptation options in order for private and public sectors may more effectively and comprehensively address their climate goals. Additionally, CCD supports projects that break down market barriers that may limit investment in technologies that reduce methane and non-CO2 greenhouse gases; address the technical issues surrounding sequestration and carbon storage; address collection and analyses of economic data relating to climate change; and the Global Methane Initiative (GMI) that support climate technology transfer in developing and transition countries. The Global Methane Initiative is an international public-private initiative that advances cost effective, near-term methane recovery and use as a clean energy source in four sectors: agriculture, coal mines, landfills, and oil and gas systems. GMI projects reduce greenhouse gas emissions in the near term and provide a number of important environmental and economic co-benefits. Co-benefits include stimulating local economic growth, creating new sources of affordable alternative energy, improving local air and water quality with associated public health benefits and increasing industrial worker safety. CCD also supports the Greenhouse Gas Reporting program that will help facilities that participate in voluntary, state-based and federal GHG reporting programs better understand the requirements of voluntary and state GHG reporting programs in comparison to the federal rule, and identify options for how data collected through state and federal reporting requirements may be used to inform state GHG programs and facility-level efforts to identify emissions-reduction opportunities. Climate Economics Program objective is to advance the field of climate economic and integrated assessment modeling through a regular series of studies on GHG emissions and approaches to mitigating emissions and climate impacts. Climate Science Impacts objectives include leveraging studies which focus on climate impacts on environmental justice issues and tribal communities, and inform adaptation policy development and planning for tribal and environmental justice communities.

(9) Climate Protection Partnerships. EPA funds Global Climate Change programs which are voluntary government/industry partnership programs designed to capitalize on the opportunities that consumers, businesses, and organizations have for making sound investments in efficient equipment, policies and practices. The Global Climate Change program will manage a number of efforts to remove barriers in the marketplace and to deploy technology faster in the residential, commercial, and industrial sectors of the economy. Our programs work by overcoming widely

acknowledged barriers to energy efficiency: lack of clear, reliable information on technology opportunities; lack of awareness of energy efficient products and services; lack of financing options to turn lifecycle energy savings into initial cost savings for consumers; and low incentives to manufacturers for efficiency research and development. In addition, our Global Climate Change programs will provide technical assistance, training, information exchange and other forms of cooperation to enhance the capabilities of governments and other stakeholders to protect human health and the environment regionally and globally.

(10) Near-road Nitrogen Dioxide (NO2) Monitoring. In accordance with the final NO2 National Ambient Air Quality Standards (NAAQS), state and local air pollution control agencies (grantees) are required to establish near-road monitoring stations to ensure the collection of data necessary for determining compliance with the standard as well as to protect human health and the environment. Grantees will purchase capital equipment and work with local Department of Transportation agencies to ensure unique siting criteria are met in the establishment of the new monitoring stations.

State and Tribal Response Program Grants	66.817	Environmental Protection Agency	001520	653.6	744.5	744.5	6

EPA's CERCLA Section 128(a) grant program funds activities that establish or enhance state and tribal response program capacity, capitalize revolving loan funds (RLFs), and support insurance mechanisms. The goal of this funding is to provide financial support to establish and enhance the four elements of an effective state or tribal response program as specified in CERCLA Section 128 and to ensure that states and tribes maintain a public record of sites included in their programs.

Funding Priority - Fiscal Year 2013: In FY 2013, funding will be prioritized as follows: (1) Funding for program development activities to establish or enhance the four elements of a state or tribal response program and to enable states and tribes to comply with the public record requirement, including activities related to institutional controls. (States and tribes that have established one or more of the four elements will not be prejudiced in funding distributions if their work plan includes activities that enhance the four elements. States with Voluntary Cleanup Program Memorandum of Agreement will not be prejudiced in funding distributions if their work plan does not include tasks related to establishing or enhancing the four elements.) (2) Funding for program development activities to enhance the response program or the cleanup capacity of a state or tribal response program. (3) Funding for site-specific activities at eligible brownfields sites. (4) Funding for environmental insurance mechanisms. (5) Funding to capitalize brownfields cleanup RLFs.

Agency: Department of Environmental Quality

Grant/Project and Description	CFDA	Grantor	AFIS ID	2014 Received	2015 Est. Rev.	2016 Est. Rev.	Footnote(s)
Environmental Information Exchange Network Grant Program and Related Assistance	66.608	Environmental Protection Agency	001880	4.1	0.0	0.0	2, 6, 8

EPA, states, territories, and tribes are working together to develop the National Environmental Information Exchange Network, a secure, Internet- and standards-based way to support electronic data reporting, sharing, and integration of both regulatory and non-regulatory environmental data. States, tribes and territories exchanging data with each other or with EPA should make the Exchange Network (EN) and the Agency's connection to it, the Central Data Exchange (CDX), the standard way they exchange data and should phase out any legacy methods they have been using. More information on the Exchange Network is available at www.exchangenetwork.net. The EN Grant Program provides funding to states, territories, tribes, and inter-tribal consortia to develop the information technology and information management capabilities they need to actively participate in the Exchange Network. This program supports the exchange of data; mentoring, planning and training activities; and collaborative work within the Exchange Network. This grant program may also be used to fund the standardization, exchange and integration of geospatial information to address environmental, natural resource, and human-health challenges.

Funding Priority - Fiscal Year 2013: STAG (competitive): Projects supported by the FY 2013 EN Grant Program, which are funded through EPA's STAG account, must address at least one priority activity from one of the following tiers: Tier 1-activities that lead to the creation of services that make subsets of data available as XML or JSON. This should include the REpresentational State Transfer (REST)-based services that conform to the EN REST Standard (completed at the end of 2012) or EN SOAP services. Specific areas of focus for publishing proposals include: 1. Supporting mobile and desktop applications and publishing/accessing environmental information sources; 2. Integrating with web applications; 3. Publishing data to publicly accessible web pages; and 4. Developing a high-level Dashboard for program managers and Agency executives. Phase 2 Flows. New flows that advance Phase 2 Network priorities. Possible flows include: 1. Air Facility System (AFS); 2. Safe Drinking Water Information System (SDWIS) Compliance data; 3. Electronic Notice of Intent (eNOI) flow to Integrated Compliance Information System - National Pollutant Discharge Elimination System (ICIS-NPDES); Use of the EN for Virtual Sharing (especially cross-state, cross-tribal, or state-tribal) of data, including institutional controls at contamination sites, data on cleanup sites, data sets of national significance to tribes (e.g., open dumps), UST data, and data that support environmental management of multi-state or regional airsheds, watersheds, and water bodies of priority concern (e.g., Great Lakes, Chesapeake Bay). Virtual Node Implementation Support for States, Tribes, and Territories: 1. Support transitioning from nodes to virtual nodes; 2. Create data publishing services and new data flows on virtual nodes; 3. Support virtual node related security analyses and plans; Shared CROMERR Services and Components; Design systems to utilize new EPA web services that provide CROMERR compliant functionality (e.g.,

Agency: Department of Environmental Quality

Grant/Project and Description	CFDA	Grantor	AFIS ID	2014 Received	2015 Est. Rev.	2016 Est. Rev.	Footnote(s)
Environmental Information Exchange Network Grant Program and Related Assistance	66.608	Environmental Protection Agency	001880	4.1	0.0	0.0	2, 6, 8

electronic signature), minimizing redundant development by partners and streamlining Technical Review Committee (TRC) application reviews/approvals. Examples of specific potential projects related to these broad topics include the following: 1. Collaborative Opportunity: A partnership proposal that includes joint state and/or tribal efforts to develop an application that uses EN web services (e.g., solicit services) to enable a user to query databases for information related to remediation sites (e.g., underground storage tanks, hazardous waste sites) such as institutional controls, displaying and accessing site data through a spatial view, presenting data in tabular format, and enabling users to download data in a variety of formats. To power this application, the partners would need to define and/or implement schemas and EN web services to make the data available to the application; Collaborative Opportunity: A partnership proposal that builds an eReporting system integrating one or more EPA web services that provide CROMERR compliant functionality (e.g., electronic signature). In order for this proposal to be eligible for funding, applicants must commit to flowing the reported data to EPA using the EN, thus providing a complete end-to-end electronic reporting solution for environmental data; Geo-enabled Field Data Collection Tool: Development and sharing of source code for a field data collection tool for emergency response, inspection, compliance verification, or other activities. The tool will use GIS visualization and integrated GPS, allow updates to be made in the field, and then flow data back to back-end systems via the EN. This project will utilize key strengths of the EN program by enabling the flow of secure data, in near real-time, to multiple locations. The project could include developing EN standards and services which could plug into other tools such as Scribe for emergency response or other existing applications used in field deployment. The grantee can utilize EPA's FRS web service, that will provide sub-facility data and their locations from multiple media programs, as well as submitting to other systems as appropriate. In addition, EPA will enable the data service to filter data by specific source(s), such as real-time emergency response data, or a subset of data from a specific state. The grantee can also collaborate with EPA to develop additional FRS web services as necessary. To ensure close collaboration between EPA and state, tribal, and territorial partners, any assistance agreements to develop this tool will be awarded as cooperative agreements. Tier 2!!Phase 1-10 Priority Flows: Additional funding for completing 10 priority flows: 1. implementation by an EN partner (or partners) of one of the 10 flows that they currently have not completed; 2. Addition of entirely new modules to existing data flows. For example, adding an entire class of UIC reporting, adding a new RCRAInfo module, or adding a new data family under ICIS-NPDES. Operations and maintenance of flows is not an eligible activity for funding; Development and deployment of CROMERR upgrades to an existing electronic reporting system, described in a CROMERR application previously approved by EPA, to bring it into compliance with the regulatory standards. Collaborative Opportunity: Partnership to develop multi-program CROMERR application for states that currently do not have an enterprise-wide approach; application should seek to leverage solutions

implemented by other states already approved by EPA. Collaborative Tribal Opportunity: Tribal governments and inter-tribal consortia are eligible to apply for EN grants to build tribal capacity that will result in enhancing environmental programs on tribal lands and the ability to share environmental data electronically with EN partners. Collaborative tribal capacity building proposals must include multiple tribes and identify tribes with existing capacity that can serve as mentors. Collaborative tribal capacity proposals must identify specific outputs and outcomes that result in the increased ability to share environmental information/data electronically with EPA and/or other EN partners (e.g., developing a back-end database for a priority data system). Tier 3 -- Phase 1-10 Priority Flows: Funds for partners already flowing one or more of the 10 priority flows, that will upgrade one or more of these data flows by: 1. Adding historical data; 2. Adding new data elements; 3. Changing processes; 4. Modifying XML schema; 5. Adding new parameters; and 6. Creating geo-enabled data. Development and deployment of other innovative data exchanges (e.g., emergency response, open dump, surface coal mining data integration and reporting, support for sustainable development through sharing data related to transit, zoning/master plan, building permits and LEED buildings and infrastructure initiatives such as water quality laboratory data reporting) that are applicable to multiple partners. Updating large national data sets: Schema development effort that will enable states to flow data through the EN to update large national datasets that fall under Appendix E of OMB Circular A-16: 'Coordination of Geographic Information and Related Spatial Data Activities.' These datasets can include: the National Hydrography Dataset (NHD), National Watershed Boundary dataset, National Wetland Inventory Dataset, National Elevation Dataset, Geographic Names Dataset, and other datasets.

STAG (associated program support): EN governance, support for shared services, technical assistance to EN partners, hosting EN national meetings.

EPM (competitive): expanding tribal participation in the EN outreach to federally recognized tribes through hosting the national tribal users meeting: design and maintenance of a website and publication of a regular newsletter: support tribal participation on EN governance groups: promote collaboration, mentoring and information sharing among tribal stakeholders: through development of a mentoring program.

Agency: Department of Environmental Quality

Grant/Project and Description	CFDA	Grantor	AFIS ID	2014 Received	2015 Est. Rev.	2016 Est. Rev.	Footnote(s)
Environmental Information Exchange Network Grant Program and Related Assistance	66.608	Environmental Protection Agency	002050	27.2	0.0	0.0	6, 8

EPA, states, territories, and tribes are working together to develop the National Environmental Information Exchange Network, a secure, Internet- and standards-based way to support electronic data reporting, sharing, and integration of both regulatory and non-regulatory environmental data. States, tribes and territories exchanging data with each other or with EPA should make the Exchange Network (EN) and the Agency's connection to it, the Central Data Exchange (CDX), the standard way they exchange data and should phase out any legacy methods they have been using. More information on the Exchange Network is available at www.exchangenetwork.net. The EN Grant Program provides funding to states, territories, tribes, and inter-tribal consortia to develop the information technology and information management capabilities they need to actively participate in the Exchange Network. This program supports the exchange of data; mentoring, planning and training activities; and collaborative work within the Exchange Network. This grant program may also be used to fund the standardization, exchange and integration of geospatial information to address environmental, natural resource, and human-health challenges.

Funding Priority - Fiscal Year 2013: STAG (competitive): Projects supported by the FY 2013 EN Grant Program, which are funded through EPA's STAG account, must address at least one priority activity from one of the following tiers: Tier 1-activities that lead to the creation of services that make subsets of data available as XML or JSON. This should include the REpresentational State Transfer (REST)-based services that conform to the EN REST Standard (completed at the end of 2012) or EN SOAP services. Specific areas of focus for publishing proposals include: 1. Supporting mobile and desktop applications and publishing/accessing environmental information sources; 2. Integrating with web applications; 3. Publishing data to publicly accessible web pages; and 4. Developing a high-level Dashboard for program managers and Agency executives. Phase 2 Flows. New flows that advance Phase 2 Network priorities. Possible flows include: 1. Air Facility System (AFS); 2. Safe Drinking Water Information System (SDWIS) Compliance data; 3. Electronic Notice of Intent (eNOI) flow to Integrated Compliance Information System - National Pollutant Discharge Elimination System (ICIS-NPDES); Use of the EN for Virtual Sharing (especially cross-state, cross-tribal, or state-tribal) of data, including institutional controls at contamination sites, data on cleanup sites, data sets of national significance to tribes (e.g., open dumps), UST data, and data that support environmental management of multi-state or regional airsheds, watersheds, and water bodies of priority concern (e.g., Great Lakes, Chesapeake Bay). Virtual Node Implementation Support for States, Tribes, and Territories: 1. Support transitioning from nodes to virtual nodes; 2. Create data publishing services and new data flows on virtual nodes; 3. Support virtual node related security analyses and plans; Shared CROMERR Services and Components; Design systems to utilize new EPA web services that provide CROMERR compliant functionality (e.g.,

electronic signature), minimizing redundant development by partners and streamlining Technical Review Committee (TRC) application reviews/approvals. Examples of specific potential projects related to these broad topics include the following: 1. Collaborative Opportunity: A partnership proposal that includes joint state and/or tribal efforts to develop an application that uses EN web services (e.g., solicit services) to enable a user to query databases for information related to remediation sites (e.g., underground storage tanks, hazardous waste sites) such as institutional controls, displaying and accessing site data through a spatial view, presenting data in tabular format, and enabling users to download data in a variety of formats. To power this application, the partners would need to define and/or implement schemas and EN web services to make the data available to the application; Collaborative Opportunity: A partnership proposal that builds an eReporting system integrating one or more EPA web services that provide CROMERR compliant functionality (e.g., electronic signature). In order for this proposal to be eligible for funding, applicants must commit to flowing the reported data to EPA using the EN, thus providing a complete end-to-end electronic reporting solution for environmental data; Geo-enabled Field Data Collection Tool: Development and sharing of source code for a field data collection tool for emergency response, inspection, compliance verification, or other activities. The tool will use GIS visualization and integrated GPS, allow updates to be made in the field, and then flow data back to back-end systems via the EN. This project will utilize key strengths of the EN program by enabling the flow of secure data, in near real-time, to multiple locations. The project could include developing EN standards and services which could plug into other tools such as Scribe for emergency response or other existing applications used in field deployment. The grantee can utilize EPA's FRS web service, that will provide sub-facility data and their locations from multiple media programs, as well as submitting to other systems as appropriate. In addition, EPA will enable the data service to filter data by specific source(s), such as real-time emergency response data, or a subset of data from a specific state. The grantee can also collaborate with EPA to develop additional FRS web services as necessary. To ensure close collaboration between EPA and state, tribal, and territorial partners, any assistance agreements to develop this tool will be awarded as cooperative agreements. Tier 2!!Phase 1-10 Priority Flows: Additional funding for completing 10 priority flows: 1. implementation by an EN partner (or partners) of one of the 10 flows that they currently have not completed; 2. Addition of entirely new modules to existing data flows. For example, adding an entire class of UIC reporting, adding a new RCRAInfo module, or adding a new data family under ICIS-NPDES. Operations and maintenance of flows is not an eligible activity for funding; Development and deployment of CROMERR upgrades to an existing electronic reporting system, described in a CROMERR application previously approved by EPA, to bring it into compliance with the regulatory standards. Collaborative Opportunity: Partnership to develop multi-program CROMERR application for states that currently do not have an enterprise-wide approach; application should seek to leverage solutions

implemented by other states already approved by EPA. Collaborative Tribal Opportunity: Tribal governments and inter-tribal consortia are eligible to apply for EN grants to build tribal capacity that will result in enhancing environmental programs on tribal lands and the ability to share environmental data electronically with EN partners. Collaborative tribal capacity building proposals must include multiple tribes and identify tribes with existing capacity that can serve as mentors. Collaborative tribal capacity proposals must identify specific outputs and outcomes that result in the increased ability to share environmental information/data electronically with EPA and/or other EN partners (e.g., developing a back-end database for a priority data system). Tier 3 -- Phase 1-10 Priority Flows: Funds for partners already flowing one or more of the 10 priority flows, that will upgrade one or more of these data flows by: 1. Adding historical data; 2. Adding new data elements; 3. Changing processes; 4. Modifying XML schema; 5. Adding new parameters; and 6. Creating geo-enabled data. Development and deployment of other innovative data exchanges (e.g., emergency response, open dump, surface coal mining data integration and reporting, support for sustainable development through sharing data related to transit, zoning/master plan, building permits and LEED buildings and infrastructure initiatives such as water quality laboratory data reporting) that are applicable to multiple partners. Updating large national data sets: Schema development effort that will enable states to flow data through the EN to update large national datasets that fall under Appendix E of OMB Circular A-16: 'Coordination of Geographic Information and Related Spatial Data Activities.' These datasets can include: the National Hydrography Dataset (NHD), National Watershed Boundary dataset, National Wetland Inventory Dataset, National Elevation Dataset, Geographic Names Dataset, and other datasets.

STAG (associated program support): EN governance, support for shared services, technical assistance to EN partners, hosting EN national meetings.

EPM (competitive): expanding tribal participation in the EN outreach to federally recognized tribes through hosting the national tribal users meeting: design and maintenance of a website and publication of a regular newsletter: support tribal participation on EN governance groups: promote collaboration, mentoring and information sharing among tribal stakeholders: through development of a mentoring program.

Nonpoint Source Implementation Grants	66.460	Environmental Protection Agency	003010	334.6	0.0	0.0	2, 6, 8																								

To assist States, the District of Columbia, American Samoa, Guam, Northern Marianas, Puerto Rico, Virgin Islands (hereinafter referred to as States), and qualified Indian Tribes and intertribal consortia in implementing EPA-approved Section 319 nonpoint source management programs. Funding Priority - Fiscal Year 2013: EPA's funding priority is to award grants that promote the development and implementation of watershed-based plans, focusing on watersheds with water quality impairments caused by nonpoint sources, which result in improved water quality in impaired waters. These watershed plans are a mechanism to coordinate monitoring and planning on a watershed basis and will build a foundation for effective implementation actions using federal and other funding. Nonpoint Source implementation projects include best management practice (BMP) installation for animal wastes, sediment, pesticide and fertilizer control, a variety of other structural and non-structural practices, watershed planning, monitoring, watershed coordinators, technology demonstration, and a variety of education/outreach programs, among others.

Water Pollution Control State, Interstate, and Tribal Program Support	66.419	Environmental Protection Agency	003020	137.8	0.0	0.0	2, 6, 8

To assist States (including territories, the District of Columbia, and Indian Tribes qualified under CWA Section 518(e)), and interstate agencies in establishing and maintaining adequate measures for prevention and control of surface and ground water pollution from both point and nonpoint sources.

Funding Priority - Fiscal Year 2013: States and Tribes will continue to focus on fulfilling their basic responsibilities under the CWA and, based upon a shared understanding with EPA of the environmental progress expected, will identify program activities that will best support attaining targeted environmental improvements. State priority efforts will include: (1) implementing monitoring strategies and the statistically-valid surveys to determine water quality status and trends; (2) fostering a watershed approach, including total maximum daily loads (TMDLs) and watershed plans designed to meet water quality standards; and (3) implementing concentrated animal feeding operations (CAFOs) and storm water permitting programs. States and Tribes will work toward adoption of nutrient criteria for fresh water for state water quality standards. States NPDES Programs will support EPA in: (1) developing and strengthening systems to ensure the integrity of the program; (2) achieving and measuring environmental results; and (3) incorporating efficiencies in permitting program operations. Water quality programs will also target actions to strengthen permitting and enforcement efforts. States will also conduct source water protection actions to protect both ground water and surface waters used for drinking water. Tribes will continue to conduct watershed assessments and will maintain and improve their capacity to implement water quality programs through monitoring, assessments, planning, data management and standards development.

Fish, Wildlife and Plant Conservation Resource Management	15.231	Department of the Interior	003080	34.3	0.0	0.0	2, 6, 8

To manage fish, wildlife and plant conservation resources on the public lands administered by the Bureau of Land Management. This will help restore and protect lands containing noteworthy resource values for regionally significant species of management concern or wetland and riparian areas; restore and protect crucial habitat through vegetation treatments, installation of wildlife friendly fences, and creating fish passages or barriers to protect aquatic species. Restoration of wildlife habitat to restore and protect sage grouse, desert tortoise, and other upland habitats for special species as well as riparian habitat for endangered or special status fish and aquatic species. For Recovery Act funded projects, in addition to the program objectives above, section 3 of the Act states the following objectives: to preserve and create jobs and promote economic recovery; to assist those most impacted by the recession; to provide investments needed to increase economic efficiency by spurring technological advances in science and health; to invest in transportation, environmental protection, and other infrastructure that will provide long-term economic benefits; and to stabilize State and local governments budgets, in order to minimize and avoid reductions in essential services and counterproductive state and local tax increases.

Nonpoint Source Implementation Grants	66.460	Environmental Protection Agency	004070	228.3	497.7	497.7	2, 6

To assist States, the District of Columbia, American Samoa, Guam, Northern Marianas, Puerto Rico, Virgin Islands (hereinafter referred to as States), and qualified Indian Tribes and intertribal consortia in implementing EPA-approved Section 319 nonpoint source management programs. Funding Priority - Fiscal Year 2013: EPA's funding priority is to award grants that promote the development and implementation of watershed-based plans, focusing on watersheds with water quality impairments caused by nonpoint sources, which result in improved water quality in impaired waters. These watershed plans are a mechanism to coordinate monitoring and planning on a watershed basis and will build a foundation for effective implementation actions using federal and other funding. Nonpoint Source implementation projects include best management practice (BMP) installation for animal wastes, sediment, pesticide and fertilizer control, a variety of other structural and non-structural practices, watershed planning, monitoring, watershed coordinators, technology demonstration, and a variety of education/outreach programs, among others.

<u>Performance Measures</u>	<u>2014</u>	<u>2015</u>	<u>2016</u>
Substantial adherence to grant work plan	Baseline	100.0%	75.0%
ADEQ will measure progress against the work plan deliverables in each grant/federal fund.

Water Quality Management Planning	66.454	Environmental Protection Agency	004080	120.5	0.0	0.0	6, 8

To assist States (including territories and the District of Columbia), Regional Public Comprehensive Planning Organizations (RPCPOs), and Interstate Organizations (IOs) in carrying out water quality management (WQM) planning. Funding Priority - Fiscal Year 2013: Funds are allotted by state in accordance with Section 604(b) of the Clean Water Act. Grant funds are used to determine the nature and extent of point and non-point source water pollution and to develop water quality management plans. States are encouraged to give priority to watershed restoration planning. EPA is requesting states to emphasize a watershed approach in developing their state workplans. This will complement the Agency's overall watershed effort as stated in the Agency's Strategic Plan.

Multi-Media Capacity Building Grants for States and Tribes	66.709	Environmental Protection Agency	005000	37.7	16.4	16.4	2, 6, 10

The general objectives of this program are to build and improve the capacity of States, multijurisdictional State organizations and federally recognized tribes by providing assistance agreements to foster environmental enforcement and compliance assurance activities and to improve compliance with environmental laws Such capacity building efforts may include economic, social science, statistical research, development, studies, surveys, demonstrations, investigations, public education, training and fellowships to the extent authorized under the Acts listed above These funds cannot be used for implementation of compliance monitoring and enforcement programs Funding Priority - Fiscal Year 2008: The Office of Compliance (OC), within EPA's Office of Enforcement and Compliance Assurance (OECA) will be soliciting proposals and partial grant applications for states and tribes to strengthen their ability to address environmental and public health threats, while furthering the art and science of environmental compliance For FY 2008, EPA is soliciting pre-proposals for the following focus areas: (1) Permit Compliance System (PCS) Modernization and ICIS-NPDES, (2) Tribal Compliance Assurance Training and Workshops, (3) Air Facility System (AFS), (4) Development of a State-to-State New Source Review and Prevention of Significant Deterioration (NSR/PSD) Mentoring Program and Permit and Enforcement Training Support, (5) State Environmental Compliance and Enforcement Training, and (6) Demonstration of Better Use of Technology in Compliance Monitoring Activities Funding Priority - Fiscal Year 2009: The Office of Compliance (OC), within EPA's Office of Enforcement and Compliance Assurance (OECA) will be soliciting proposals and partial grant applications for states and tribes to strengthen their ability to address environmental and public health threats, while furthering the art and science of environmental compliance In previous years, areas of emphasis have been: (1) tribal and state inspection training, (2) program planning and performance measurement, (3) outcome measurement, (4)public access, (5)data management, and (6)permit compliance system modernization

Agency: Department of Environmental Quality

Grant/Project and Description	CFDA	Grantor	AFIS ID	2014 Received	2015 Est. Rev.	2016 Est. Rev.	Footnote(s)
Environmental Information Exchange Network Grant Program and Related Assistance	66.608	Environmental Protection Agency	005010	83.2	1.3	1.3	2,6

EPA, states, territories, and tribes are working together to develop the National Environmental Information Exchange Network, a secure, Internet- and standards-based way to support electronic data reporting, sharing, and integration of both regulatory and non-regulatory environmental data. States, tribes and territories exchanging data with each other or with EPA should make the Exchange Network (EN) and the Agency's connection to it, the Central Data Exchange (CDX), the standard way they exchange data and should phase out any legacy methods they have been using. More information on the Exchange Network is available at www.exchangenetwork.net. The EN Grant Program provides funding to states, territories, tribes, and inter-tribal consortia to develop the information technology and information management capabilities they need to actively participate in the Exchange Network. This program supports the exchange of data; mentoring, planning and training activities; and collaborative work within the Exchange Network. This grant program may also be used to fund the standardization, exchange and integration of geospatial information to address environmental, natural resource, and human-health challenges.

Funding Priority - Fiscal Year 2013: STAG (competitive): Projects supported by the FY 2013 EN Grant Program, which are funded through EPA's STAG account, must address at least one priority activity from one of the following tiers: Tier 1-activities that lead to the creation of services that make subsets of data available as XML or JSON. This should include the REpresentational State Transfer (REST)-based services that conform to the EN REST Standard (completed at the end of 2012) or EN SOAP services. Specific areas of focus for publishing proposals include: 1. Supporting mobile and desktop applications and publishing/accessing environmental information sources; 2. Integrating with web applications; 3. Publishing data to publicly accessible web pages; and 4. Developing a high-level Dashboard for program managers and Agency executives. Phase 2 Flows. New flows that advance Phase 2 Network priorities. Possible flows include: 1. Air Facility System (AFS); 2. Safe Drinking Water Information System (SDWIS) Compliance data; 3. Electronic Notice of Intent (eNOI) flow to Integrated Compliance Information System - National Pollutant Discharge Elimination System (ICIS-NPDES); Use of the EN for Virtual Sharing (especially cross-state, cross-tribal, or state-tribal) of data, including institutional controls at contamination sites, data on cleanup sites, data sets of national significance to tribes (e.g., open dumps), UST data, and data that support environmental management of multi-state or regional airsheds, watersheds, and water bodies of priority concern (e.g., Great Lakes, Chesapeake Bay). Virtual Node Implementation Support for States, Tribes, and Territories: 1. Support transitioning from nodes to virtual nodes; 2. Create data publishing services and new data flows on virtual nodes; 3. Support virtual node related security analyses and plans; Shared CROMERR Services and Components; Design systems to utilize new EPA web services that provide CROMERR compliant functionality (e.g.,

Grant/Project and Description	CFDA	Grantor	AFIS ID	2014 Received	2015 Est. Rev.	2016 Est. Rev.	Footnote(s)
Environmental Information Exchange Network Grant Program and Related Assistance	66.608	Environmental Protection Agency	005010	83.2	1.3	1.3	^{2,6}

electronic signature), minimizing redundant development by partners and streamlining Technical Review Committee (TRC) application reviews/approvals. Examples of specific potential projects related to these broad topics include the following: 1. Collaborative Opportunity: A partnership proposal that includes joint state and/or tribal efforts to develop an application that uses EN web services (e.g., solicit services) to enable a user to query databases for information related to remediation sites (e.g., underground storage tanks, hazardous waste sites) such as institutional controls, displaying and accessing site data through a spatial view, presenting data in tabular format, and enabling users to download data in a variety of formats. To power this application, the partners would need to define and/or implement schemas and EN web services to make the data available to the application; Collaborative Opportunity: A partnership proposal that builds an eReporting system integrating one or more EPA web services that provide CROMERR compliant functionality (e.g., electronic signature). In order for this proposal to be eligible for funding, applicants must commit to flowing the reported data to EPA using the EN, thus providing a complete end-to-end electronic reporting solution for environmental data; Geo-enabled Field Data Collection Tool: Development and sharing of source code for a field data collection tool for emergency response, inspection, compliance verification, or other activities. The tool will use GIS visualization and integrated GPS, allow updates to be made in the field, and then flow data back to back-end systems via the EN. This project will utilize key strengths of the EN program by enabling the flow of secure data, in near real-time, to multiple locations. The project could include developing EN standards and services which could plug into other tools such as Scribe for emergency response or other existing applications used in field deployment. The grantee can utilize EPA's FRS web service, that will provide sub-facility data and their locations from multiple media programs, as well as submitting to other systems as appropriate. In addition, EPA will enable the data service to filter data by specific source(s), such as real-time emergency response data, or a subset of data from a specific state. The grantee can also collaborate with EPA to develop additional FRS web services as necessary. To ensure close collaboration between EPA and state, tribal, and territorial partners, any assistance agreements to develop this tool will be awarded as cooperative agreements. Tier 2!!Phase 1-10 Priority Flows: Additional funding for completing 10 priority flows: 1. implementation by an EN partner (or partners) of one of the 10 flows that they currently have not completed; 2. Addition of entirely new modules to existing data flows. For example, adding an entire class of UIC reporting, adding a new RCRAInfo module, or adding a new data family under ICIS-NPDES. Operations and maintenance of flows is not an eligible activity for funding; Development and deployment of CROMERR upgrades to an existing electronic reporting system, described in a CROMERR application previously approved by EPA, to bring it into compliance with the regulatory standards. Collaborative Opportunity: Partnership to develop multi-program CROMERR application for states that currently do not have an enterprise-wide approach; application should seek to leverage solutions

implemented by other states already approved by EPA. Collaborative Tribal Opportunity: Tribal governments and inter-tribal consortia are eligible to apply for EN grants to build tribal capacity that will result in enhancing environmental programs on tribal lands and the ability to share environmental data electronically with EN partners. Collaborative tribal capacity building proposals must include multiple tribes and identify tribes with existing capacity that can serve as mentors. Collaborative tribal capacity proposals must identify specific outputs and outcomes that result in the increased ability to share environmental information/data electronically with EPA and/or other EN partners (e.g., developing a back-end database for a priority data system). Tier 3 -- Phase 1-10 Priority Flows: Funds for partners already flowing one or more of the 10 priority flows, that will upgrade one or more of these data flows by: 1. Adding historical data; 2. Adding new data elements; 3. Changing processes; 4. Modifying XML schema; 5. Adding new parameters; and 6. Creating geo-enabled data. Development and deployment of other innovative data exchanges (e.g., emergency response, open dump, surface coal mining data integration and reporting, support for sustainable development through sharing data related to transit, zoning/master plan, building permits and LEED buildings and infrastructure initiatives such as water quality laboratory data reporting) that are applicable to multiple partners. Updating large national data sets: Schema development effort that will enable states to flow data through the EN to update large national datasets that fall under Appendix E of OMB Circular A-16: 'Coordination of Geographic Information and Related Spatial Data Activities.' These datasets can include: the National Hydrography Dataset (NHD), National Watershed Boundary dataset, National Wetland Inventory Dataset, National Elevation Dataset, Geographic Names Dataset, and other datasets.

STAG (associated program support): EN governance, support for shared services, technical assistance to EN partners, hosting EN national meetings.

EPM (competitive): expanding tribal participation in the EN outreach to federally recognized tribes through hosting the national tribal users meeting: design and maintenance of a website and publication of a regular newsletter: support tribal participation on EN governance groups: promote collaboration, mentoring and information sharing among tribal stakeholders: through development of a mentoring program.

Grant/Project and Description	CFDA	Grantor	AFIS ID	2014 Received	2015 Est. Rev.	2016 Est. Rev.	Footnote(s)
Water Pollution Control State, Interstate, and Tribal Program Support	66.419	Environmental Protection Agency	005040	172.1	0.0	0.0	6, 8

To assist States (including territories, the District of Columbia, and Indian Tribes qualified under CWA Section 518(e)), and interstate agencies in establishing and maintaining adequate measures for prevention and control of surface and ground water pollution from both point and nonpoint sources.

Funding Priority - Fiscal Year 2013: States and Tribes will continue to focus on fulfilling their basic responsibilities under the CWA and, based upon a shared understanding with EPA of the environmental progress expected, will identify program activities that will best support attaining targeted environmental improvements. State priority efforts will include: (1) implementing monitoring strategies and the statistically-valid surveys to determine water quality status and trends; (2) fostering a watershed approach, including total maximum daily loads (TMDLs) and watershed plans designed to meet water quality standards; and (3) implementing concentrated animal feeding operations (CAFOs) and storm water permitting programs. States and Tribes will work toward adoption of nutrient criteria for fresh water for state water quality standards. States NPDES Programs will support EPA in: (1) developing and strengthening systems to ensure the integrity of the program; (2) achieving and measuring environmental results; and (3) incorporating efficiencies in permitting program operations. Water quality programs will also target actions to strengthen permitting and enforcement efforts. States will also conduct source water protection actions to protect both ground water and surface waters used for drinking water. Tribes will continue to conduct watershed assessments and will maintain and improve their capacity to implement water quality programs through monitoring, assessments, planning, data management and standards development.

<u>Grant/Project and Description</u>	<u>CFDA</u>	<u>Grantor</u>	<u>AFIS ID</u>	<u>2014 Received</u>	<u>2015 Est. Rev.</u>	<u>2016 Est. Rev.</u>	<u>Footnote(s)</u>
International Financial Assistance Projects Sponsored by the Office of International and Tribal Affairs	66.931	Environmental Protection Agency	005080	0.7	24.4	24.4	6

To protect human health and the environment while advancing U.S. national interests through international environmental collaboration. This mission is supported by these strategic objectives: 1) Reducing Exposure to Toxic Chemicals; 2) Improving Air Quality; 3) Cleaning Up Electronic Waste (E-Waste); 4) Combating Climate Change by Limiting Pollutants; 5) Expanding access to Clean Water; and 6) Building Strong Environmental Institutions and Legal Structures.

Funding Priority - Fiscal Year 2013: EPA Safeguards air, water, and land for all Americans. International capacity-building plays a key role in protecting human health, communities and the environment by providing technical cooperation to help countries reduce air pollution, better manage air quality global climates, reduce the global use and emission of mercury, manage drinking & surface water quality, and provide technical assistance to restore the land and mitigate sources of land pollution. OITA will work to transfer appropriate air management tools and techniques to key countries and regions as we collaborate with partners to improve air quality. In addition, we will continue efforts to reduce global sources of persistent bioaccumulative toxins. Long-range and transboundary atmospheric transport and deposition of such toxics as Mercury, Persistent Organic Pollutants (POPs) such as polychlorinated biphenyls (PCBs), pesticides, dioxins, and furans continue to threaten human health and ecosystems. OITA will continue to promote the development of activities for managing drinking and surface water quality and provide technical cooperation, expertise, and assistance to help communities and countries preserve and restore the land and to mitigate sources of land pollution.

OITA plays a key role in ensuring trade-related activities sustain environmental protection. Initiatives relating to environmental trade and investment are carried out bilaterally, multilaterally or in connection with multilateral institutions such as the World Trade Organization (WTO), World Bank, European Union (EU), or Asia-Pacific Economic Cooperation Forum (APEC). Also, OITA will support protection of human health and the ecosystem for North America through the United States' participation in the North American Agreement on Environmental Cooperation and through leadership in the Commission on Environmental Cooperation (CEC), the Organization for Economic Cooperation and Development (OECD), and other international entities. EPA will provide targeted capacity building support under the environmental cooperation agreements developed parallel to U.S. free trade agreements.

The U.S.-Mexico Border (to sustain and restore community health and preserve the ecological systems that support them) program is implemented in partnership with the ten Border States and the government of Mexico with its corresponding states and tribes. It addresses the Agency's major themes of clean air, clean water, and clean land. The key areas of focus

Water Quality Management Planning	66.454	Environmental Protection Agency	005081	0.0	100.0	100.0	^{2, 3, 6}
--	---------------	--	--------	-----	-------	-------	--------------------

To assist States (including territories and the District of Columbia), Regional Public Comprehensive Planning Organizations (RPCPOs), and Interstate Organizations (IOs) in carrying out water quality management (WQM) planning. Funding Priority - Fiscal Year 2013: Funds are allotted by state in accordance with Section 604(b) of the Clean Water Act. Grant funds are used to determine the nature and extent of point and non-point source water pollution and to develop water quality management plans. States are encouraged to give priority to watershed restoration planning. EPA is requesting states to emphasize a watershed approach in developing their state workplans. This will complement the Agency's overall watershed effort as stated in the Agency's Strategic Plan.

<u>Performance Measures</u>	<u>2014</u>	<u>2015</u>	<u>2016</u>
Substantial adherence to grant work plan	N/A	N/A	75.0%
ADEQ will measure progress against the work plan deliverables in each grant/federal fund.

Environmental Quality Incentives Program	10.912	Department of Agriculture	004592	95.4	62.8	0.0	2, 6
---	---------------	----------------------------------	--------	------	------	-----	------

Promotes agricultural production, forest management, and environmental quality as compatible national goals and optimizes environmental benefits on eligible land with farmers, ranchers, and non-industrial private forest land owners. It is a voluntary program using partnerships with local, State, Tribal and Federal agencies, producer associations, and nonprofit organizations to provide flexible technical and financial assistance to install and maintain conservation practices include those related to organic production, that sustain food and fiber production. The purpose of this program is achieved through the implementation of structural, vegetative, and land management practices on eligible land. This program is funded through the Commodity Credit Corporation (CCC). NRCS provides overall program administration and management.

To provide financial assistance, through grants or cooperative agreements, to public or private organizations for the improvement of fish and wildlife habitats associated with water systems or water supplies affected by Bureau of Reclamation projects.

FOR RECOVERY ACT:

For ARRA funded projects and in addition to the program objectives above, the section 3 of the ARRA states the following objectives:

- (1) To preserve and create jobs and promote economic recovery.
- (2) To assist those most impacted by the recession.
- (3) To provide investments needed to increase economic efficiency by spurring technological advances in science and health.
- (4) To invest in transportation, environmental protection, and other infrastructure that will provide long-term economic benefits.
- (5) To stabilize State and local government budgets, in order to minimize and avoid reductions in essential services and counterproductive state and local tax increases.

--	---------------	---------------------------------------	--------	------	------	-----	-----

To manage fish, wildlife and plant conservation resources on the public lands administered by the Bureau of Land Management. This will help restore and protect lands containing noteworthy resource values for regionally significant species of management concern or wetland and riparian areas; restore and protect crucial habitat through vegetation treatments, installation of wildlife friendly fences, and creating fish passages or barriers to protect aquatic species. Restoration of wildlife habitat to restore and protect sage grouse, desert tortoise, and other upland habitats for special species as well as riparian habitat for endangered or special status fish and aquatic species. For Recovery Act funded projects, in addition to the program objectives above, section 3 of the Act states the following objectives: to preserve and create jobs and promote economic recovery; to assist those most impacted by the recession; to provide investments needed to increase economic efficiency by spurring technological advances in science and health; to invest in transportation, environmental protection, and other infrastructure that will provide long-term economic benefits; and to stabilize State and local governments budgets, in order to minimize and avoid reductions in essential services and counterproductive state and local tax increases.

Highway Planning and Construction	20.205	Department of Transportation	006608	8.1	0.0	0.0	1, 2, 6, 7

Federal-aid Highway Program: To assist State transportation agencies in the planning and development of an integrated, interconnected transportation system important to interstate commerce and travel by constructing and rehabilitating the National Highway System (NHS), including the Eisenhower Interstate System; for transportation improvements to many other public roads; to provide aid for the repair of Federal-aid highways following disasters; to foster safe highway design; to replace or rehabilitate deficient or obsolete bridges; and to provide for other special purposes. This program also provides for the improvement of roads in Puerto Rico, Guam, the U.S. Virgin Islands, American Samoa, and the Commonwealth of the Northern Mariana Islands. The Federal Lands Transportation Program (FLTP) provides assistance to the Federal Land Management Agencies (FLMAs) for Federally-owned roads and trails. It provides transportation engineering services and funding for planning, design, construction, and rehabilitation of the highways and bridges providing access to and on federally owned lands. The Federal Lands Highway organization also provides training, technology, deployment, engineering services, and products to other customers.

Fish, Wildlife and Plant Conservation Resource Management	15.231	Department of the Interior	006689	111.0	241.5	0.0	2, 6, 8

To manage fish, wildlife and plant conservation resources on the public lands administered by the Bureau of Land Management. This will help restore and protect lands containing noteworthy resource values for regionally significant species of management concern or wetland and riparian areas; restore and protect crucial habitat through vegetation treatments, installation of wildlife friendly fences, and creating fish passages or barriers to protect aquatic species. Restoration of wildlife habitat to restore and protect sage grouse, desert tortoise, and other upland habitats for special species as well as riparian habitat for endangered or special status fish and aquatic species. For Recovery Act funded projects, in addition to the program objectives above, section 3 of the Act states the following objectives: to preserve and create jobs and promote economic recovery; to assist those most impacted by the recession; to provide investments needed to increase economic efficiency by spurring technological advances in science and health; to invest in transportation, environmental protection, and other infrastructure that will provide long-term economic benefits; and to stabilize State and local governments budgets, in order to minimize and avoid reductions in essential services and counterproductive state and local tax increases.

Endangered Species Conservation – Recovery Implementation Funds	15.657	Department of the Interior	006845	0.0	2.6	0.0	2, 4, 6, 11

To provide federal financial assistance to secure endangered or threatened species information, undertake restoration actions that will lead to delisting of a species; help prevent extinction of a species, or aid in the recovery of species. The purpose of the Endangered Species Act is to provide a means by which the ecosystems upon which endangered and threatened species depend may be conserved, to provide a program for the conservation of these species, and to take appropriate steps to achieve the purposes of treaties and conventions set forth in the law.

Highway Planning and Construction	20.205	Department of Transportation	006963	60.4	18.0	0.0	1, 2, 6

Federal-aid Highway Program: To assist State transportation agencies in the planning and development of an integrated, interconnected transportation system important to interstate commerce and travel by constructing and rehabilitating the National Highway System (NHS), including the Eisenhower Interstate System; for transportation improvements to many other public roads; to provide aid for the repair of Federal-aid highways following disasters; to foster safe highway design; to replace or rehabilitate deficient or obsolete bridges; and to provide for other special purposes. This program also provides for the improvement of roads in Puerto Rico, Guam, the U.S. Virgin Islands, American Samoa, and the Commonwealth of the Northern Mariana Islands. The Federal Lands Transportation Program (FLTP) provides assistance to the Federal Land Management Agencies (FLMAs) for Federally-owned roads and trails. It provides transportation engineering services and funding for planning, design, construction, and rehabilitation of the highways and bridges providing access to and on federally owned lands. The Federal Lands Highway organization also provides training, technology, deployment, engineering services, and products to other customers.

Fish, Wildlife and Plant Conservation Resource Management	15.231	Department of the Interior	050026	50.5	16.4	0.0	2, 6

To manage fish, wildlife and plant conservation resources on the public lands administered by the Bureau of Land Management. This will help restore and protect lands containing noteworthy resource values for regionally significant species of management concern or wetland and riparian areas; restore and protect crucial habitat through vegetation treatments, installation of wildlife friendly fences, and creating fish passages or barriers to protect aquatic species. Restoration of wildlife habitat to restore and protect sage grouse, desert tortoise, and other upland habitats for special species as well as riparian habitat for endangered or special status fish and aquatic species. For Recovery Act funded projects, in addition to the program objectives above, section 3 of the Act states the following objectives: to preserve and create jobs and promote economic recovery; to assist those most impacted by the recession; to provide investments needed to increase economic efficiency by spurring technological advances in science and health; to invest in transportation, environmental protection, and other infrastructure that will provide long-term economic benefits; and to stabilize State and local governments budgets, in order to minimize and avoid reductions in essential services and counterproductive state and local tax increases.

Federal-aid Highway Program: To assist State transportation agencies in the planning and development of an integrated, interconnected transportation system important to interstate commerce and travel by constructing and rehabilitating the National Highway System (NHS), including the Eisenhower Interstate System; for transportation improvements to many other public roads; to provide aid for the repair of Federal-aid highways following disasters; to foster safe highway design; to replace or rehabilitate deficient or obsolete bridges; and to provide for other special purposes. This program also provides for the improvement of roads in Puerto Rico, Guam, the U.S. Virgin Islands, American Samoa, and the Commonwealth of the Northern Mariana Islands. The Federal Lands Transportation Program (FLTP) provides assistance to the Federal Land Management Agencies (FLMAs) for Federally-owned roads and trails. It provides transportation engineering services and funding for planning, design, construction, and rehabilitation of the highways and bridges providing access to and on federally owned lands. The Federal Lands Highway organization also provides training, technology, deployment, engineering services, and products to other customers.

Fish, Wildlife and Plant Conservation Resource Management	15.231	Department of the Interior	050093	40.0	0.0	0.0	2, 6, 8

To manage fish, wildlife and plant conservation resources on the public lands administered by the Bureau of Land Management. This will help restore and protect lands containing noteworthy resource values for regionally significant species of management concern or wetland and riparian areas; restore and protect crucial habitat through vegetation treatments, installation of wildlife friendly fences, and creating fish passages or barriers to protect aquatic species. Restoration of wildlife habitat to restore and protect sage grouse, desert tortoise, and other upland habitats for special species as well as riparian habitat for endangered or special status fish and aquatic species. For Recovery Act funded projects, in addition to the program objectives above, section 3 of the Act states the following objectives: to preserve and create jobs and promote economic recovery; to assist those most impacted by the recession; to provide investments needed to increase economic efficiency by spurring technological advances in science and health; to invest in transportation, environmental protection, and other infrastructure that will provide long-term economic benefits; and to stabilize State and local governments budgets, in order to minimize and avoid reductions in essential services and counterproductive state and local tax increases.

National Fish and Wildlife Foundation	10.683	Department of Agriculture	050107	190.0	0.0	0.0	2, 6, 7

Created by Congress in 1984, National Fish and Wildlife Foundation (NFWF) directs public conservation dollars to the most pressing environmental needs and matches those investments with private funds. The Foundation's method is simple and effective to work with a full complement of individuals, foundations, government agencies, nonprofits, and corporations to identify and fund the Nation's most intractable conservation challenges.

Lower Colorado River Multi-Species Conservation Program.	15.538	Department of the Interior	050111	80.9	256.8	0.0	2, 6

The MSCP's purposes are (1) Protect the lower Colorado River environment while ensuring the certainty of existing river water and power operations, (2) Address the needs of threatened and endangered wildlife under the Endangered Species Act, and (3) Reduce the likelihood of listing additional species along the lower Colorado River. FOR RECOVERY ACT: For ARRA funded projects and in addition to the program objectives above, the section 3 of the ARRA states the following objectives:

- (1) To preserve and create jobs and promote economic recovery.
- (2) To assist those most impacted by the recession.
- (3) To provide investments needed to increase economic efficiency by spurring technological advances in science and health.
- (4) To invest in transportation, environmental protection, and other infrastructure that will provide long-term economic benefits.
- (5) To stabilize State and local government budgets, in order to minimize and avoid reductions in essential services and counterproductive state and local tax increases.

Water Pollution Control State, Interstate, and Tribal Program Support	66.419	Environmental Protection Agency	050113	10.8	65.0	0.0	1, 2, 6

To assist States (including territories, the District of Columbia, and Indian Tribes qualified under CWA Section 518(e)), and interstate agencies in establishing and maintaining adequate measures for prevention and control of surface and ground water pollution from both point and nonpoint sources.

Funding Priority - Fiscal Year 2013: States and Tribes will continue to focus on fulfilling their basic responsibilities under the CWA and, based upon a shared understanding with EPA of the environmental progress expected, will identify program activities that will best support attaining targeted environmental improvements. State priority efforts will include: (1) implementing monitoring strategies and the statistically-valid surveys to determine water quality status and trends; (2) fostering a watershed approach, including total maximum daily loads (TMDLs) and watershed plans designed to meet water quality standards; and (3) implementing concentrated animal feeding operations (CAFOs) and storm water permitting programs. States and Tribes will work toward adoption of nutrient criteria for fresh water for state water quality standards. States NPDES Programs will support EPA in: (1) developing and strengthening systems to ensure the integrity of the program; (2) achieving and measuring environmental results; and (3) incorporating efficiencies in permitting program operations. Water quality programs will also target actions to strengthen permitting and enforcement efforts. States will also conduct source water protection actions to protect both ground water and surface waters used for drinking water. Tribes will continue to conduct watershed assessments and will maintain and improve their capacity to implement water quality programs through monitoring, assessments, planning, data management and standards development.

Fish, Wildlife and Plant Conservation Resource Management	15.231	Department of the Interior	050135	4.4	17.9	0.0	2, 6

To manage fish, wildlife and plant conservation resources on the public lands administered by the Bureau of Land Management. This will help restore and protect lands containing noteworthy resource values for regionally significant species of management concern or wetland and riparian areas; restore and protect crucial habitat through vegetation treatments, installation of wildlife friendly fences, and creating fish passages or barriers to protect aquatic species. Restoration of wildlife habitat to restore and protect sage grouse, desert tortoise, and other upland habitats for special species as well as riparian habitat for endangered or special status fish and aquatic species. For Recovery Act funded projects, in addition to the program objectives above, section 3 of the Act states the following objectives: to preserve and create jobs and promote economic recovery; to assist those most impacted by the recession; to provide investments needed to increase economic efficiency by spurring technological advances in science and health; to invest in transportation, environmental protection, and other infrastructure that will provide long-term economic benefits; and to stabilize State and local governments budgets, in order to minimize and avoid reductions in essential services and counterproductive state and local tax increases.

<u>Performance Measures</u>	<u>2014</u>	<u>2015</u>	<u>2016</u>
Collect data (days) on covariates potentially associated to pronghorn movement across the Dry Lake Wind Facility.	0	5	5
Pronghorn habitat use and movement patterns across the Dry Lake Wind Facility.			

Forestry Research	10.652	Department of Agriculture	050142	20.0	0.0	0.0	2, 6, 8
--------------------------	---------------	--------------------------------------	--------	------	-----	-----	---------

To extend fundamental research activities of the Forest Service by awarding grants and cooperative agreements to nonprofit organizations, institutions of higher education, and organizations engaged in renewable resources research.

---	---------------	---------------------------------------	--------	-----	-------	-----	-------------

The MSCP's purposes are (1) Protect the lower Colorado River environment while ensuring the certainty of existing river water and power operations, (2) Address the needs of threatened and endangered wildlife under the Endangered Species Act, and (3) Reduce the likelihood of listing additional species along the lower Colorado River. FOR RECOVERY ACT: For ARRA funded projects and in addition to the program objectives above, the section 3 of the ARRA states the following objectives:

- (1) To preserve and create jobs and promote economic recovery.
- (2) To assist those most impacted by the recession.
- (3) To provide investments needed to increase economic efficiency by spurring technological advances in science and health.
- (4) To invest in transportation, environmental protection, and other infrastructure that will provide long-term economic benefits.
- (5) To stabilize State and local government budgets, in order to minimize and avoid reductions in essential services and counterproductive state and local tax increases.

Endangered Species Conservation-Wolf Livestock Loss Compensation and Prevention	15.666	Department of the Interior	500038	0.0	120.0	0.0	2, 3, 6

<u>Performance Measures</u>	<u>2014</u>	<u>2015</u>	<u>2016</u>
Provide AZ livestock producers incentives for proactive, non-lethal management activities to reduce wolf/livestock conflicts.	0	0	3
Indication of what the dollars are used for: Provide incentives to undertake proactive, non-lethal management activities to reduce Mexican wolf/livestock conflicts and the risk of loss from wolf depredations.			
What is the outcome of using the dollars supposed to be: Deployment of proactive, non-lethal livestock/wolf management activities designed to reduce livestock/wolf interactions and conflicts across shared landscape.			
How does one measure the success of the project where the dollars are spent: Number of affected livestock producers in AZ participating in Coexistence Council proactive conflict avoidance and prevention program (with participating livestock producers providing feedback to the Council on the effectiveness of the prevention measures/program) within available funds.

Cooperating Technical Partners	97.045	Department of Homeland Security	200121	32.9	0.0	0.0	6, 8

The Cooperating Technical Partners Program was developed to supplement and expand the on-going efforts of participating National Flood Insurance Program (NFIP) communities, Tribes, and States (and the agencies and organizations who support them) who perform certain functions in the flood risk analysis, flood hazard identification, flood risk communication and mitigation processes to reduce flood losses and protect life and property from the risk of future flood damage. The Cooperating Technical Partners Program seeks to: increase local involvement in, and ownership of, the development and maintenance of Flood Insurance Rate Maps (FIRMS) and risk related products produced for the NFIP; build and maintain partner capabilities; continue to increase local ownership of data and processes; and establish sound performance criteria for current Cooperating Technical Partners.

In FY 2009, FEMA transitioned from its Map Modernization (Map Mod) program to Risk MAP (Mapping, Assessment, and Planning). The vision for Risk MAP is to deliver quality data that increases public awareness of flood hazard risk and leads to action that reduces flood risk to life and property. Risk MAP builds on flood hazard data and maps produced during the Map Mod program. FEMA collaborates with a variety of stakeholders to achieve the following goals under Risk MAP:

1. Flood Hazard Data. Address gaps in flood hazard data to form a solid foundation for risk assessment, floodplain management, and actuarial soundness of the NFIP.
 2. Public Awareness/Outreach. Ensure that a measurable increase of the public's awareness and understanding of risk results in a measurable reduction of current and future vulnerability.
 3. Hazard Mitigation Planning. Lead and support States, local, and Tribal communities to effectively engage in risk-based mitigation planning resulting in sustainable actions that reduce or eliminate risks to life and property from natural hazards.
 4. Enhanced Digital Platform. Provide an enhanced digital platform that improves management of Risk MAP, stewards information produced by Risk MAP, and improves communication and sharing of risk data and related products to all levels of government and the public.
 5. Alignment and Synergies. Align Risk Analysis programs and develop synergies to enhance decision-making capabilities through effective risk communication and management.
- Information about Risk MAP (including goals, strategies, progress and success stories), can be found on FEMA's website at <http://www.fema.gov/risk-mapping-assessment-planning>.

<u>Performance Measures</u>	<u>2014</u>	<u>2015</u>	<u>2016</u>
To finish the final hazard layers and to provide outreach to teach planners and the public how to use the website and what the limitations are.	100%	NA	NA
This is a pilot project funded by FEMA to provide planners (main audience) and the public with information about natural hazards in their area. The goal of this project is to create GIS layers with natural hazards for viewing within a web-based viewer.			

Geologic Sequestration Site Characterization	81.132	Department of Energy	200141	97.5	0.0	0.0	6, 8, 10
---	---------------	-----------------------------	--------	------	-----	-----	----------

The mission of the Office of Fossil Energy (FE) Geologic Sequestration Site Characterization grant is to comprehensively characterize a minimum of ten geologic formations which could include saline formation, oil and gas fields, and coal seams. Utilize site characterizations to accelerate carbon capture storage in a range of geologic formations that encompass the entire United States. Leverage existing work completed by the Regional Carbon Sequestration Partnerships and State Geologic Surveys.

<u>Performance Measures</u>	<u>2014</u>	<u>2015</u>	<u>2016</u>
Submit to the University of Utah a report on the extent, depth, and thickness of the Dakota, Entrada, and Weber-equivalent sandstones.	75%	100%	NA
The report included an evaluation of the pore-space volume in the sandstone units and the potential for carbon dioxide storage. This was based on the evaluation of drill-hole data on file with the Arizona Oil and Gas Conservation Commission and the Arizona Geological Survey office in Tucson. Funds were used in part to digitize geophysical well log data and to use such data to determine physical parameters of the target formations.

Earthquake Consortium	97.082	Department of Homeland Security	200181	10.9	0.0	0.0	6, 8

The purpose of this funding opportunity is to support the Central U.S. Earthquake Consortium (CUSEC), Northeast States Emergency Consortium (NESEC), Western States Seismic Policy Council (WSSPC), Cascadia Region Earthquake Workgroup (CREW), Earthquake Engineering Research Institute (EERI), Federal Alliance for Safe Homes (FLASH), Southern California Earthquake Center (SCEC), and any eligible State and territories with moderate to high seismic risks as determined by the Program Office in 1) delivering and increasing awareness and education ; 2) developing policies, tools, and products; and 3) implementing programs or projects to support risk reduction and resilience activities from earthquake and other hazards. Below are the Mitigation Mission Area Capability and Preliminary Targets in accordance with the National Preparedness Goals/PPD8: Planning - Conduct a systematic process engaging the whole community as appropriate in the development of executable strategic, operational, and/or community-based approaches to meet defined objectives. 1. Develop approved hazard mitigation plans that address all relevant threats/hazards in accordance with the results of their risk assessment within all states and territories. Public Information and Warning - Deliver coordinated, prompt, reliable, and actionable information to the whole community through the use of clear, consistent, accessible, and culturally and linguistically appropriate methods to effectively relay information regarding any threat or hazard and, as appropriate, the actions being taken and the assistance being made available. 1. Communicate appropriate information, in an accessible manner, on the risks faced within a community after the conduct of a risk assessment. Operational Coordination - Establish and maintain a unified and coordinated operational structure and process that appropriately integrates all critical stakeholders and supports the execution of core capabilities. 1. Establish protocols to integrate mitigation data elements in support of operations within all states and territories and in coordination with Federal agencies. Community Resilience - Lead the integrated effort to recognize, understand, communicate, plan, and address risks so that the community can develop a set of actions to accomplish Mitigation and improve resilience. 1. Maximize the coverage of the U.S. population that has a localized, risk-informed mitigation plan developed through partnerships across the entire community. Long-term Vulnerability Reduction - Build and sustain resilient systems, communities, and critical infrastructure and key resources lifelines so as to reduce their vulnerability to natural, technological, and human-caused incidents by lessening the likelihood, severity, and duration of the adverse consequences related to these incidents. 1. Achieve a measurable decrease in the long-term vulnerability of the Nation against current baselines amid a growing population base and expanding infrastructure base. Risk and Disaster Resilience Assessment - Assess risk and disaster resilience so that decision makers, responders, and community members can take informed action to reduce their entity's risk and increase their resilience. 1. Ensure that states, territories, and the top 100 Metropolitan Statistical Areas (MSAs) complete a risk assessment that defines localized vulnerabilities and consequences associated with potential natural,

Wildland Fire Research and Studies Program	15.232	Department of the Interior	200220	0.0	20.0	20.0	3, 6

To encourage interested parties to perform research and studies pertaining to wildland fire and resource management, to develop products and tools for all levels of decision making to meet the objectives of the National Fire Plan, and to seek information to improve decision making in wildland fire management. In addition, to generally funded wildland fire research and studies there are two separate research programs; Climate applications with the National Climate Data Center: The purpose of the program is to develop products and tools for wildland fire resource management utilizing the climate data archives of the National Climate Data Centers. The National Climate Data Center is authorized to describe the climate of the United States. For example, the Western Regional Climate Center is one of the six regional centers. Western Regional Climate Center is the archive of interagency fire weather station observations. The objectives for the National Climate Data Center and its regional centers are to perform basic climate and ecosystem studies pertaining to wildland fire and resource management, to develop climate and ecosystem products and tools for all levels of decision-making. The Joint Fire Science Program: This program seeks research proposals that respond to its announcements for proposals that seek information on seven critical wildland fire and fuels issues: These issues are: Wildand fuels and inventory mapping; Effects of fuels treatments; Scheduling of fuels treatments; Monitoring and evaluation of fuels treatments; Evaluating post fire stabilization and rehabilitation projects; Aircraft-based remote sensing; and Regional and local offices.

<u>Performance Measures</u>	<u>2014</u>	<u>2015</u>	<u>2016</u>
Number of fires monitored for Post Fire Debris Flow analysis.	NA	NA	5
The high likelihood of large wildfires in Arizona provides the opportunity to both evaluate the predictive strength of USGS models for predicting the probability of post-fire debris flows and empirical rainfall intensity duration thresholds for these hazards. The goal of the modeling and research is to make Arizona, and consequently the US via USGS modeling, safer from landslides.

Grant/Project and Description	CFDA	Grantor	AFIS ID	2014 Received	2015 Est. Rev.	2016 Est. Rev.	Footnote(s)
Renewable Energy Research and Development	81.087	Department of Energy	200350	0.0	355.5	221.7	4, 6, 11

To conduct balanced research and development efforts in the following energy technologies: solar, biomass, hydrogen, fuel cells and infrastructure, wind and hydropower, hydrogen, and geothermal. Grants will be offered to develop and transfer to the nonfederal sector various renewable energy technologies on a competitive basis.

Submission deadlines will be published in the funding opportunity announcements at <http://www.grants.gov>.

<u>Performance Measures</u>	<u>2014</u>	<u>2015</u>	<u>2016</u>
In FY2015 conclude all data collection activities, new and legacy; test the data system, and provide a sustainability plan.	NA	NA	75%
The project's focus is on the digitization of at-risk, legacy geothermal-relevant data and publishing existing digital data by exposing databases and directories to the network. A limited amount of new data in areas lacking critical information is also being collected. (This measure and grant is predicated on the completion of grant 206500.)

Geosciences	47.050	National Science Foundation	200370	70.7	22.9	0.0	2, 6

To strengthen and enhance the national scientific enterprise through the expansion of fundamental knowledge and increased understanding of the integrated Earth system through the support of basic research in the atmospheric, earth, and ocean sciences, and in the polar regions. Objectives include the discovery of new knowledge of the atmosphere from the sun to the Earth's surface over the entire spectrum of physical and chemical phenomena; a better understanding of the physical, chemical, and biological character of the Earth and the processes that govern its evolution; increased insight into the world's oceans, their composition, structure, behavior, and tectonics; and fundamental discovery regarding and enabled by the polar regions, in all disciplines supported by NSF. Support is also provided for undergraduate student research, graduate and postdoctoral fellowships, facility enhancement, instrumentation, and laboratory equipment; and for research opportunities for women, minority, and disabled scientists and engineers.

<u>Performance Measures</u>	<u>2014</u>	<u>2015</u>	<u>2016</u>
Use of all funding towards project goals and objectives.	NA	95%	100%
<p>A workshop of scientists led to a recommendation to convene geoscience data facilities to discuss common challenges and increase data access and discovery for scientific research in academic, research, and applied sciences. An informal panel met in 2012 at the American Geophysical Union Fall Meeting to encourage additional communication and collaboration among Earth Science Data Facilities. The grant requested funding from the National Science Foundation to organize and host a workshop for continued research.</p>

National Cooperative Geologic Mapping Program	15.810	Department of the Interior	200410	0.0	132.3	39.0	3, 6

To produce geologic maps of areas in which knowledge of geology is important to the economic, social, or scientific welfare of individual States. StateMap supports: (1) projects which produce new geologic maps with attendant explanatory information including correlation of map units, description of map units and symbols, stratigraphic columns, geologic sections, and other pertinent information; and (2) projects which compile existing geologic data in a digital form for inclusion in the National Digital Geologic Map Database. EdMap: Provide funding for undergraduate and graduate students in academic research programs, through cooperative agreements, that involve geologic mapping and scientific data analysis as major components; expand research and educational capacity of graduate programs that teach earth science students the techniques of geologic mapping and field data analysis; and facilitate the publication and distribution of geologic maps generated in field-based graduate academic research programs.

<u>Performance Measures</u>	<u>2014</u>	<u>2015</u>	<u>2016</u>

Hazard Mitigation Grant	97.039	Department of Homeland Security	200440	0.0	0.0	132.3	5,6

To provide funding support to states, Indian tribal governments, territories, communities, and other eligible applicants to implement mitigation planning and hazard mitigation measures that are cost effective and which substantially reduce the risk of future damage, hardship, loss or suffering in any area affected by a major disaster. This program also conforms to the definitions of the term "Mitigation" as defined in the National Preparedness Goal (NPG), in that this program supports those capabilities that are necessary to reduce loss of life and property by lessening the impact of disasters. Mitigation capabilities include, but are not limited to, community-wide risk reduction projects; efforts to improve the resilience of critical infrastructure and key resource lifelines; risk reduction for specific vulnerabilities from natural hazards; and initiatives to reduce future risks after a disaster has occurred.

Substance Abuse and Mental Health Services_Projects of Regional and National Significance	93.243	Department of Health and Human Services	430401	35.1	0.0	0.0	1, 6, 8

Substance Abuse and Mental Health Service Administration (SAMHSA) was reauthorized by the Children's Health Action of 2000, Public law 106-310. Under this reauthorization, SAMHSA was given the authority to address priority substance abuse treatment, prevention and mental health needs of regional and national significance through assistance (grants and cooperative agreements) to States, political subdivisions of States, Indian tribes and tribal organizations, and other public or nonprofit private entities. Under these sections, CSAT, CMHS and CSAP seek to expand the availability of effective substance abuse treatment and recovery services available to Americans to improve the lives of those affected by alcohol and drug additions, and to reduce the impact of alcohol and drug abuse on individuals, families, communities and societies and to address priority mental health needs of regional and national significance and assist children in dealing with violence and traumatic events through by funding grant and cooperative agreement projects. Grants and cooperative agreements may be for (1) knowledge and development and application projects for treatment and rehabilitation and the conduct or support of evaluations of such projects; (2) training and technical assistance; (3) targeted capacity response programs (4) systems change grants including statewide family network grants and client-oriented and consumer run self-help activities and (5) programs to foster health and development of children; (6) coordination and integration of primary care services into publicly-funded community mental health centers and other community-based behavioral health settings funded under Affordable Care Act (ACA).

Child Care and Development Block Grant	93.575	Department of Health and Human Services	430428	248.6	235.9	245.0	^{1,6}

The Child Care and Development Block Grant (CCDBG or Discretionary Funds) is a part of the Child Care and Development Fund (CCDF) program, along with the Child Care Mandatory and Matching Funds (see CFDA 93.596). The CCDBG provides grants to States, Territories, Tribes, and tribal organizations serving federally-recognized tribes (public institutions of higher education and hospitals are not eligible applicants) for child care assistance for low-income families. The goals are to: (1) allow each State maximum flexibility in developing child care programs and policies that best suit the needs of children and parents within such State; (2) promote parental choice to empower working parents to make their own decisions on the child care that best suits their family's needs; (3) encourage States to provide consumer education information to help parents make informed choices about child care; (4) assist States to provide child care to parents trying to achieve independence from public assistance; and (5) assist States in implementing the health, safety, licensing, and registration standards established in State regulations. Current priorities include: making systemic investments in quality child care to promote child development and health and safety; and creating a system that is child focused, family friendly, and fair to providers.

AmeriCorps	94.006	Corporation for National and Community Service	430430	122.2	0.0	0.0	2, 6, 8

For more than fifteen years, the Corporation for National and Community Service—through its Senior Corps, AmeriCorps, and Learn and Serve America programs—has mobilized a new generation of engaged citizens. This year, more than 1.8 million individuals of all ages and backgrounds will serve through these programs. They will help thousands of national and community non-profit organizations, faith-based groups, schools, and local agencies meet local needs in education, the environment, health, veterans, economic opportunity, and other critical areas.

AmeriCorps grants are awarded to eligible organizations that identify an unmet need in their community that will be addressed by AmeriCorps members that the organization recruits, trains, and manages. An AmeriCorps member is an individual who is enrolled in an approved national service position and engages in community service. Members may receive a living allowance and other benefits while serving. Upon successful completion of their service, members receive an education award from the National Service Trust.

AmeriCorps grant funding is distributed to Governor-appointed State Commissions and multi-state grantees. State Commissions award subgrants to organizations in their states, and the multi-state grantees work through operating sites in more than one state. These organizations recruit AmeriCorps members to respond to local needs.

Additional funding opportunities are available to existing AmeriCorps Programs under the American Recovery and Reinvestment Act (Recovery Act) funds to utilize service and volunteerism to stimulate the economy and meet the needs of those negatively impacted by the current economic crisis. Through AmeriCorps Recovery grants, individuals currently unemployed will gain work experience and valuable skills, and nonprofit organizations and communities negatively affected by the economic crisis will gain critical human resources. Eligible activities include providing job counseling and skills training to the unemployed, constructing or rehabilitating housing, assisting nonprofits facing increased need and decreased resources, recruiting volunteers, making housing resource referrals for and providing legal services to those experiencing eviction or foreclosure, connecting children and families to health care, and allowing after-school centers that have lost funding to stay open.

AmeriCorps	94.006	Corporation for National and Community Service	430434	(3.2)	0.0	0.0	2, 6, 8

For more than fifteen years, the Corporation for National and Community Service—through its Senior Corps, AmeriCorps, and Learn and Serve America programs—has mobilized a new generation of engaged citizens. This year, more than 1.8 million individuals of all ages and backgrounds will serve through these programs. They will help thousands of national and community non-profit organizations, faith-based groups, schools, and local agencies meet local needs in education, the environment, health, veterans, economic opportunity, and other critical areas.

AmeriCorps grants are awarded to eligible organizations that identify an unmet need in their community that will be addressed by AmeriCorps members that the organization recruits, trains, and manages. An AmeriCorps member is an individual who is enrolled in an approved national service position and engages in community service. Members may receive a living allowance and other benefits while serving. Upon successful completion of their service, members receive an education award from the National Service Trust.

AmeriCorps grant funding is distributed to Governor-appointed State Commissions and multi-state grantees. State Commissions award subgrants to organizations in their states, and the multi-state grantees work through operating sites in more than one state. These organizations recruit AmeriCorps members to respond to local needs.

Weatherization Assistance for Low-Income Persons	81.042	Department of Energy	430448	314.8	0.0	0.0	2, 6, 8

To improve home energy efficiency for low-income families through the most cost-effective measures possible. The program's objectives are:

- * To reduce fossil fuel emissions created as a result of activities within the jurisdictions of eligible entities; and
- * To reduce the total energy use of the eligible units while ensuring their health and safety.

Submission deadlines will be published in the funding opportunity announcements at <http://www.grants.gov>.

<u>Performance Measures</u>	<u>2014</u>	<u>2015</u>	<u>2016</u>
Homes Weatherized			
Install (residential) energy saving measures that reduce income-eligible program beneficiary households' out of pocket cash expenses for purchase of electricity and fuel.

State Energy Program	81.041	Department of Energy	430449	612.6	582.0	582.0	⁶

The program provides financial and technical assistance to State governments to create and implement a variety of energy efficiency and conservation projects in order to provide leadership to maximize the benefits of energy efficiency and renewable energy through communications and outreach activities, technology deployment, and accessing new partnerships and resources across the geographic panorama of the United States and its territories. The program's objectives are:

- * To reduce fossil fuel emissions created as a result of activities within the jurisdictions of eligible entities;
- * To reduce the total energy use of the eligible entities; and
- * To improve energy efficiency in the transportation, building, and other sectors.

<u>Performance Measures</u>	<u>2014</u>	<u>2015</u>	<u>2016</u>
Training/Workshops Provide assistance and guidance in the development and implementation of a strategic energy plan. Provide policy direction that will facilitate building and renovations that are energy efficient and follow sustainable building practices.			
Award Non-profit grants Competitive grant cycle for non-profit organizations to install energy efficient measures in their facilities.

Substance Abuse and Mental Health Services_Projects of Regional and National Significance	93.243	Department of Health and Human Services	430478	1,258.8	1,299.4	1,303.5	6

Substance Abuse and Mental Health Service Administration (SAMHSA) was reauthorized by the Children's Health Action of 2000, Public law 106-310. Under this reauthorization, SAMHSA was given the authority to address priority substance abuse treatment, prevention and mental health needs of regional and national significance through assistance (grants and cooperative agreements) to States, political subdivisions of States, Indian tribes and tribal organizations, and other public or nonprofit private entities. Under these sections, CSAT, CMHS and CSAP seek to expand the availability of effective substance abuse treatment and recovery services available to Americans to improve the lives of those affected by alcohol and drug additions, and to reduce the impact of alcohol and drug abuse on individuals, families, communities and societies and to address priority mental health needs of regional and national significance and assist children in dealing with violence and traumatic events through by funding grant and cooperative agreement projects. Grants and cooperative agreements may be for (1) knowledge and development and application projects for treatment and rehabilitation and the conduct or support of evaluations of such projects; (2) training and technical assistance; (3) targeted capacity response programs (4) systems change grants including statewide family network grants and client-oriented and consumer run self-help activities and (5) programs to foster health and development of children; (6) coordination and integration of primary care services into publicly-funded community mental health centers and other community-based behavioral health settings funded under Affordable Care Act (ACA).

Electricity Delivery and Energy Reliability, Research, Development and Analysis	81.122	Department of Energy	430480	166.5	0.0	0.0	2, 6, 8

Through research, development, demonstration, technology transfer, and education and outreach activities, lead national efforts to modernize the electric grid; enhance security and reliability of the energy infrastructure; and mitigate the impact of, and facilitate recovery from, disruptions to the energy supply. Develop cost-effective technology that enhances the reliability, efficiency, and resiliency of the electric grid, while enabling the effective utilization of emerging and renewable generation sources and promoting the rapid deployment and integration of advanced digital 'Smart Grid' technology that is needed to modernize the nation's electric delivery network for enhanced operational intelligence and connectivity. Also, leverage scientific research in mathematics for application to power system models and software tools to foster strategic, power systems research capabilities.

<u>Performance Measures</u>	<u>2014</u>	<u>2015</u>	<u>2016</u>
Installation of translator and Transporter			
Installation of the Translator and Transporter will allow the Automatic Meter Reader (AMR) to communicate to Tendril's ENERGIZE software, allowing consumers access to their electrical consumption in 15 minute increments.

<u>Grant/Project and Description</u>	<u>CFDA</u>	<u>Grantor</u>	<u>AFIS ID</u>	<u>2014 Received</u>	<u>2015 Est. Rev.</u>	<u>2016 Est. Rev.</u>	<u>Footnote(s)</u>
AmeriCorps	94.006	Corporation for National and Community Service	430481	189.4	203.0	203.0	2, 6

For more than fifteen years, the Corporation for National and Community Service—through its Senior Corps, AmeriCorps, and Learn and Serve America programs—has mobilized a new generation of engaged citizens. This year, more than 1.8 million individuals of all ages and backgrounds will serve through these programs. They will help thousands of national and community non-profit organizations, faith-based groups, schools, and local agencies meet local needs in education, the environment, health, veterans, economic opportunity, and other critical areas.

AmeriCorps grants are awarded to eligible organizations that identify an unmet need in their community that will be addressed by AmeriCorps members that the organization recruits, trains, and manages. An AmeriCorps member is an individual who is enrolled in an approved national service position and engages in community service. Members may receive a living allowance and other benefits while serving. Upon successful completion of their service, members receive an education award from the National Service Trust.

AmeriCorps grant funding is distributed to Governor-appointed State Commissions and multi-state grantees. State Commissions award subgrants to organizations in their states, and the multi-state grantees work through operating sites in more than one state. These organizations recruit AmeriCorps members to respond to local needs.

Additional funding opportunities are available to existing AmeriCorps Programs under the American Recovery and Reinvestment Act (Recovery Act) funds to utilize service and volunteerism to stimulate the economy and meet the needs of those negatively impacted by the current economic crisis. Through AmeriCorps Recovery grants, individuals currently unemployed will gain work experience and valuable skills, and nonprofit organizations and communities negatively affected by the economic crisis will gain critical human resources. Eligible activities include providing job counseling and skills training to the unemployed, constructing or rehabilitating housing, assisting nonprofits facing increased need and decreased resources, recruiting volunteers, making housing resource referrals for and providing legal services to those experiencing eviction or foreclosure, connecting children and families to health care, and allowing after-school centers that have lost funding to stay open.

Grant/Project and Description	CFDA	Grantor	AFIS ID	2014 Received	2015 Est. Rev.	2016 Est. Rev.	Footnote(s)
Centers for Disease Control and Prevention_ Investigations and Technical Assistance	93.283	Department of Health and Human Services	092002	142.4	142.4	142.4	2, 6

To assist State and local health authorities and other health related organizations in controlling communicable diseases, chronic diseases and disorders, and other preventable health conditions. Investigations and evaluation of all methods of controlling or preventing disease and disability are carried out by providing epidemic aid, surveillance, technical assistance, consultation, and program support; and by providing leadership and coordination of joint national, State, and local efforts. STEPS- To enable communities to reduce the burden of chronic disease, including: preventing diabetes among populations with pre-diabetes; increasing the likelihood that persons with undiagnosed diabetes are diagnosed; reducing complications of diabetes; preventing overweight and obesity; reducing overweight and obesity; and reducing the complications of asthma. STEPS will achieve these outcomes by improving nutrition; increasing physical activity; preventing tobacco use and exposure, targeting adults who are diabetic or who live with persons with asthma; increasing tobacco cessation, targeting adults who are diabetic or who live with persons with asthma; increasing use of appropriate health care services; improving the quality of care; and increasing effective self-management of chronic diseases and associated risk factors. REACH - REACH U.S. supports community coalitions that design, implement, evaluate, and disseminate community-driven strategies to eliminate health disparities Racial and ethnic groups targeted include: African American/Black, American Indian/Alaska Native, Asian, Native Hawaiian/Other Pacific Islander, and Hispanic/Latino. Health priority areas include: breast and cervical cancer; cardiovascular disease; diabetes mellitus; adult/older adult immunization, hepatitis B, and/or tuberculosis; asthma; and infant mortality.

Vulnerable Populations: The purpose of this program is to reduce morbidity, premature mortality, and eliminate health disparities associated with diabetes. This will be done by funding organizations to mobilize community partners and assist them to effectively plan, develop, implement, and evaluate community-based interventions to reduce the risk factors that influence the disproportionate burden of diabetes in vulnerable populations borne by many communities in regions across the country.

<u>Performance Measures</u>	<u>2014</u>	<u>2015</u>	<u>2016</u>
Percentage of funding utilized in the budget period (Funding Utilization Ratio)		84%%	95%
The funding utilization ratio is used to measure the administrative efficiency of the grant. The ratio compares the percentage of grant expenditure and encumbrance as of the fiscal year end with the percentage of budget period elapsed by the end of fiscal year.

Substance Abuse and Mental Health Services_Projects of Regional and National Significance	93.243	Department of Health and Human Services	092011	3.1	0.0	0.0	2, 6, 8

Substance Abuse and Mental Health Service Administration (SAMHSA) was reauthorized by the Children's Health Action of 2000, Public law 106-310. Under this reauthorization, SAMHSA was given the authority to address priority substance abuse treatment, prevention and mental health needs of regional and national significance through assistance (grants and cooperative agreements) to States, political subdivisions of States, Indian tribes and tribal organizations, and other public or nonprofit private entities. Under these sections, CSAT, CMHS and CSAP seek to expand the availability of effective substance abuse treatment and recovery services available to Americans to improve the lives of those affected by alcohol and drug additions, and to reduce the impact of alcohol and drug abuse on individuals, families, communities and societies and to address priority mental health needs of regional and national significance and assist children in dealing with violence and traumatic events through by funding grant and cooperative agreement projects. Grants and cooperative agreements may be for (1) knowledge and development and application projects for treatment and rehabilitation and the conduct or support of evaluations of such projects; (2) training and technical assistance; (3) targeted capacity response programs (4) systems change grants including statewide family network grants and client-oriented and consumer run self-help activities and (5) programs to foster health and development of children; (6) coordination and integration of primary care services into publicly-funded community mental health centers and other community-based behavioral health settings funded under Affordable Care Act (ACA).

Environmental Public Health and Emergency Response	93.070	Department of Health and Human Services	092025	47.0	0.0	0.0	6, 8

To bring public health and epidemiologic principles together to identify, clarify, and reduce the impact of complex environmental threats, including terrorist threats and natural disasters, on populations, domestic and foreign. These programs and activities focus on safeguarding the health of people from environmental threats; providing leadership in the use of environmental health sciences-including environmental epidemiology, environmental sanitation, and laboratory sciences-to protect public health; and responding to issues and sharing solutions to environmental health problems worldwide. To accomplish the above, the CDC: (1) conducts surveillance and investigations that increase the knowledge about the relation between human health and environmental threats; (2) uses this knowledge to develop national public health programs and policies to prevent or control public health problems; (3) plans, prepares, and responds to emergencies, including terrorist threats, technologic accidents, and natural disasters; (4) provides direct service delivery to partners engaged in environmental health services such as food, safety, rodent control, water quality, and sanitation; (5) develops and applies laboratory science to prevent disease and death caused by exposure to environmental chemicals and to improve the diagnosis, treatment, and prevention of selected chronic diseases; (6) conducts Biomonitoring to assess individual human exposure to environmental chemicals by measuring them in human specimens (e.g. blood and urine); and, (7) conducts activities on emerging environmental threats such as climate change and the built environment.

PPHF 2012 National Public Health Improvement Initiative	93.507	Department of Health and Human Services	092030	119.1	312.7	312.7	

The National Public Health Improvement Initiative is part of the Centers for Disease Control and Prevention’s larger effort to increase the performance management capacity of public health departments in order to ensure that public health goals are effectively and efficiently met. On March 30, 2010, President Obama signed into law the Affordable Care Act (ACA) (PL 111-148). This legislation established a Prevention and Public Health Fund (Title IV, Section 4002) to provide for expanded and sustained national investment in prevention and public sector health care costs. ACA and the Prevention and Public Health Fund make improving public health a priority with investments to improve public health services, establish meaningful and measureable health indicators, and to achieve long-term improvement in health outcomes. The 5-year “Strengthening Public Health Infrastructure for Improved Health Outcomes” cooperative agreement program is designed to support innovative changes in key areas that improve the quality, effectiveness and efficiency of the public health infrastructure to better enable the delivery of public health services and programs as specified within ACA. In this continuation announcement, the CDC proposes to award approximately \$33.7 million to usfund 74 grantees using a formula. Eligible applicants are limited to current Awardees.

In this continuation funding is available to ALL current awardees to provide support for:

- accelerating public health accreditation readiness activities
- providing additional support for performance management and improvement practices and,
- developing, identifying and disseminating innovative and evidence-based policies and practices.

This program supports the Healthy People 2020 focus area of addressing Public Health Infrastructure (<http://www.healthypeople.gov/hp2020/>). Cross-jurisdictional (state, local, tribal, territorial, regional, community, and border) collaborations are encouraged to increase the impact of limited resources, improve efficiency, and to leverage other related health reform efforts/projects.

Measurable outcomes of the program align with the following performance goals:

- 1) Increased efficiencies of program operations,
- 2) Increased use of evidence-based policies and practices, and,
- 3) Increased readiness for applying to and achieving accreditation by the Public Health Accreditation Board PHAB. (More information on accreditation activities can be found on the PHAB web site at <http://www.phaboard.org/>).

Grant/Project and Description	CFDA	Grantor	AFIS ID	2014 Received	2015 Est. Rev.	2016 Est. Rev.	Footnote(s)
WIC Grants To States (WGS)	10.578	Department of Agriculture	092033	319.8	0.0	0.0	2, 6, 8

To provide grants to WIC State agencies to plan, design and implement WIC electronic benefit transfer (EBT) systems so that Program benefits can be provided electronically. To provide grants to WIC State agencies to fund, implement, and evaluate innovative technology projects that improve WIC services. To provide grants to WIC State agencies to plan, design, implement, enhance or transfer management information (MIS) systems. Please note the following grant activities:

1. WIC EBT Amendments (non-competitive). Grant funds for WIC EBT amendments are provided to WIC State agencies to support on-going EBT planning or implementation projects. These projects were originally funded through a competitive process using WIC technology or American Recovery and Reinvestment Act funds. Many WIC State agencies received only partial funding in their original grant award and amendments provide the additional funds needed to ensure all activities are completed and projects are successful.
2. WIC EBT Implementation (non-competitive). Implementation grant funds are provided to WIC State agencies to enhance and modify current management information systems to support EBT, conduct cost evaluations, and develop retailer management plans.
3. WIC State Agency Model (SAM) Amendments (non-competitive). Grant funds for WIC SAM amendments are provided to support WIC State agencies that are either part of the original SAM consortia, or those that need additional funding to complete implementation of a SAM transfer system. These funds are used by WIC State agencies for implementation completion as well as system enhancements through the SAM user group process.
4. WIC EBT Planning Grants (non-competitive). EBT Planning grants funds are provided to WIC State agencies to assess the feasibility of EBT for their State, as well as to perform a cost analysis to verify EBT affordability. The planning process is a WIC requirement prior to EBT implementation and looks at WIC Information System capabilities, retailer capabilities, and baseline paper cost compared to EBT operational cost within the State to better prepare for the challenges of EBT implementation. WIC State agencies must analyze both on-line and off-line EBT technologies to assess the most cost-effective solution.
5. WIC Technical Innovation Grants (competitive). WIC Technical Innovation grant funds are provided to WIC State agencies for the development of standardized reporting, retailer certification test scripts, and development of a web-based Internet system that will allow WIC participants to access grocer's websites, select WIC approved foods and purchase them with their EBT card from the convenience of their homes.
6. WIC SAM Transfers Grants (non-competitive). SAM Transfer grant funds are provided to WIC State agencies that have completed their planning activities, and have an approved Alternatives Analysis document that justifies a SAM as their choice of system transfer. Funds are used for implementation activities.

Grant/Project and Description	CFDA	Grantor	AFIS ID	2014 Received	2015 Est. Rev.	2016 Est. Rev.	Footnote(s)
WIC Grants To States (WGS)	10.578	Department of Agriculture	092033	319.8	0.0	0.0	2, 6, 8

7. WIC MIS Amendments (non-competitive). Grant funds for WIC MIS amendments are provided to support WIC State agencies that have already received grant funding for their MIS projects. This includes planning for and transferring of an existing system, or developing a new system.

8. WIC MIS Implementation (non-competitive). WIC MIS Implementation grant funds are provided to WIC State agencies that are implementing a new MIS, or are upgrading/enhancing their current MIS. Activities included are design and development, testing, training and data conversion.

9. WIC MIS Planning (non-competitive). WIC MIS Planning grant funds are provided to WIC State agencies to assess their current system, complete a feasibility study and cost analysis as well as prepare a Request for Proposal for an implementation contractor.

To provide grants to WIC State agencies that improve and/or enhance nutrition services of the WIC program. WIC awards State agencies the following grants:

1. WIC Breastfeeding Peer Counseling Funds (discretionary). WIC Breastfeeding Peer Counseling Funds are intended to enable State agencies to implement or maintain effective breastfeeding peer counselor programs. Combining peer counseling with the on-going breastfeeding promotion efforts in WIC agencies has the potential to significantly impact breastfeeding rates among WIC participants. The Food and Nutrition Service's long-range vision is to institutionalize peer counseling as a core service in WIC.

2. WIC Special Projects Grants (discretionary). WIC Special Projects Grants are awarded to state agencies for special State projects of regional or national significance to improve the services of the program. Current projects focused on FNS' Revitalizing Quality Nutrition Services (RQNS) in WIC initiatives. The goal is to improve and strengthen the effectiveness of WIC nutrition services. Full grants are awarded to States to evaluate ongoing initiatives aimed at improving these services. Full Project grants and WIC Concept Papers grants are awarded to States under the WIC Special Project Funds.

The Affordable Care Act: Building Epidemiology, Laboratory, and Health Information Systems Capacity in the Epidemiology and Laboratory Capacity for Infectious Disease (ELC) and Emerging Infections Program (EIP) Cooperative Agreements;PPHF	93.521	Department of Health and Human Services	092035	134.0	134.0	0.0	2

The Prevention and Public Health Fund (Title IV, Section 4002) was established under the Patient Protection and Affordable Care Act to provide for expanded and sustained national investment in prevention and public health programs to improve health and help restrain the rate of growth in private and public sector health care costs. The Epidemiology and Laboratory Capacity for Infectious Diseases (ELC) and Emerging Infections Program (EIP) cooperative agreements were formed in 1995 as key components of CDC's national strategy to address and reduce emerging infectious disease (EID) threats. The programs play a critical role in strengthening national infectious disease infrastructure by serving as collaborative platforms for state and local health departments, CDC programs, and academic and various other public health partners to improve the ability to detect and respond to EIDs and other public health threats. Specifically, the programs build epidemiology, laboratory, and information systems capacity, integrate epidemiology and laboratory practice, implement active surveillance, and conduct targeted research aimed at improving methods and informing national surveillance and response activities. Overall, additional funds from multiple sources including PPHF will allow ELC and EIP partner agencies to substantially address gaps in EID epidemiology and laboratory capacity (e.g. number and training level of epi and lab staff, efficient/functional information systems, etc).

<u>Performance Measures</u>	<u>2014</u>	<u>2015</u>	<u>2016</u>

Adult Viral Hepatitis Prevention and Control	93.270	Department of Health and Human Services	092040	105.0	105.0	105.0	6

Program activities under this funding will allow for CDC to partner with multiple organizations to benefit individuals by substantially reducing viral hepatitis transmission, identifying those that are acutely and chronically infected, and linking infected individuals with treatment if appropriate. Specifically, the program activities may include but are not limited to:

1. Increasing the proportion of persons living with HCV and HBV who are aware of their infection and referred for prevention and clinical care services.
2. Expanding and improving efforts to develop and disseminate viral hepatitis training and educational materials targeting the public and private sector health care professionals to build capacity to assess, test and medically manage populations at risk for chronic HCV and HBV infection.
3. Supporting state and local health departments and other organizations in linking HCV infected persons to community health centers, clinics serving injection drug users, and other health organizations seeing individuals potentially infected with chronic viral hepatitis.
4. Additional support will be provided for program monitoring, evaluation, capacity building, and technical assistance, along with support for acute and chronic viral hepatitis surveillance.

<u>Performance Measures</u>	<u>2014</u>	<u>2015</u>	<u>2016</u>
Percentage of funding utilized in the budget period (Funding Utilization Ratio)	21%	51%	81%
The funding utilization ratio is used to measure the administrative efficiency of the grant. The ratio compares the percentage of grant expenditure and encumbrance as of the fiscal year end with the percentage of budget period elapsed by the end of fiscal year.			
This grant was found under grant phase 099035 in FY10, therefore there is no performance measure found for this index in FY 10.			
The Program Manager left early in FY 13 and the position has not been filled to date, which results in a lower than normal performance. They are hiring in FY 14 so the future performance measures should be comparable to FY 12..

Centers for Disease Control and Prevention_ Investigations and Technical Assistance	93.283	Department of Health and Human Services	092044	245.7	245.7	245.7	6

To assist State and local health authorities and other health related organizations in controlling communicable diseases, chronic diseases and disorders, and other preventable health conditions. Investigations and evaluation of all methods of controlling or preventing disease and disability are carried out by providing epidemic aid, surveillance, technical assistance, consultation, and program support; and by providing leadership and coordination of joint national, State, and local efforts. STEPS- To enable communities to reduce the burden of chronic disease, including: preventing diabetes among populations with pre-diabetes; increasing the likelihood that persons with undiagnosed diabetes are diagnosed; reducing complications of diabetes; preventing overweight and obesity; reducing overweight and obesity; and reducing the complications of asthma. STEPS will achieve these outcomes by improving nutrition; increasing physical activity; preventing tobacco use and exposure, targeting adults who are diabetic or who live with persons with asthma; increasing tobacco cessation, targeting adults who are diabetic or who live with persons with asthma; increasing use of appropriate health care services; improving the quality of care; and increasing effective self-management of chronic diseases and associated risk factors. REACH - REACH U.S. supports community coalitions that design, implement, evaluate, and disseminate community-driven strategies to eliminate health disparities Racial and ethnic groups targeted include: African American/Black, American Indian/Alaska Native, Asian, Native Hawaiian/Other Pacific Islander, and Hispanic/Latino. Health priority areas include: breast and cervical cancer; cardiovascular disease; diabetes mellitus; adult/older adult immunization, hepatitis B, and/or tuberculosis; asthma; and infant mortality.

Vulnerable Populations: The purpose of this program is to reduce morbidity, premature mortality, and eliminate health disparities associated with diabetes. This will be done by funding organizations to mobilize community partners and assist them to effectively plan, develop, implement, and evaluate community-based interventions to reduce the risk factors that influence the disproportionate burden of diabetes in vulnerable populations borne by many communities in regions across the country.

WIC Grants To States (WGS)	10.578	Department of Agriculture	092045	218.8	0.0	0.0	6, 8

To provide grants to WIC State agencies to plan, design and implement WIC electronic benefit transfer (EBT) systems so that Program benefits can be provided electronically. To provide grants to WIC State agencies to fund, implement, and evaluate innovative technology projects that improve WIC services. To provide grants to WIC State agencies to plan, design, implement, enhance or transfer management information (MIS) systems. Please note the following grant activities:

1. WIC EBT Amendments (non-competitive). Grant funds for WIC EBT amendments are provided to WIC State agencies to support on-going EBT planning or implementation projects. These projects were originally funded through a competitive process using WIC technology or American Recovery and Reinvestment Act funds. Many WIC State agencies received only partial funding in their original grant award and amendments provide the additional funds needed to ensure all activities are completed and projects are successful.
2. WIC EBT Implementation (non-competitive). Implementation grant funds are provided to WIC State agencies to enhance and modify current management information systems to support EBT, conduct cost evaluations, and develop retailer management plans.
3. WIC State Agency Model (SAM) Amendments (non-competitive). Grant funds for WIC SAM amendments are provided to support WIC State agencies that are either part of the original SAM consortia, or those that need additional funding to complete implementation of a SAM transfer system. These funds are used by WIC State agencies for implementation completion as well as system enhancements through the SAM user group process.
4. WIC EBT Planning Grants (non-competitive). EBT Planning grants funds are provided to WIC State agencies to assess the feasibility of EBT for their State, as well as to perform a cost analysis to verify EBT affordability. The planning process is a WIC requirement prior to EBT implementation and looks at WIC Information System capabilities, retailer capabilities, and baseline paper cost compared to EBT operational cost within the State to better prepare for the challenges of EBT implementation. WIC State agencies must analyze both on-line and off-line EBT technologies to assess the most cost-effective solution.
5. WIC Technical Innovation Grants (competitive). WIC Technical Innovation grant funds are provided to WIC State agencies for the development of standardized reporting, retailer certification test scripts, and development of a web-based Internet system that will allow WIC participants to access grocer's websites, select WIC approved foods and purchase them with their EBT card from the convenience of their homes.
6. WIC SAM Transfers Grants (non-competitive). SAM Transfer grant funds are provided to WIC State agencies that have completed their planning activities, and have an approved Alternatives Analysis document that justifies a SAM as their choice of system transfer. Funds are used for implementation activities.

Grant/Project and Description	CFDA	Grantor	AFIS ID	2014 Received	2015 Est. Rev.	2016 Est. Rev.	Footnote(s)
WIC Grants To States (WGS)	10.578	Department of Agriculture	092045	218.8	0.0	0.0	6, 8

7. WIC MIS Amendments (non-competitive). Grant funds for WIC MIS amendments are provided to support WIC State agencies that have already received grant funding for their MIS projects. This includes planning for and transferring of an existing system, or developing a new system.

8. WIC MIS Implementation (non-competitive). WIC MIS Implementation grant funds are provided to WIC State agencies that are implementing a new MIS, or are upgrading/enhancing their current MIS. Activities included are design and development, testing, training and data conversion.

9. WIC MIS Planning (non-competitive). WIC MIS Planning grant funds are provided to WIC State agencies to assess their current system, complete a feasibility study and cost analysis as well as prepare a Request for Proposal for an implementation contractor.

To provide grants to WIC State agencies that improve and/or enhance nutrition services of the WIC program. WIC awards State agencies the following grants:

1. WIC Breastfeeding Peer Counseling Funds (discretionary). WIC Breastfeeding Peer Counseling Funds are intended to enable State agencies to implement or maintain effective breastfeeding peer counselor programs. Combining peer counseling with the on-going breastfeeding promotion efforts in WIC agencies has the potential to significantly impact breastfeeding rates among WIC participants. The Food and Nutrition Service's long-range vision is to institutionalize peer counseling as a core service in WIC.

2. WIC Special Projects Grants (discretionary). WIC Special Projects Grants are awarded to state agencies for special State projects of regional or national significance to improve the services of the program. Current projects focused on FNS' Revitalizing Quality Nutrition Services (RQNS) in WIC initiatives. The goal is to improve and strengthen the effectiveness of WIC nutrition services. Full grants are awarded to States to evaluate ongoing initiatives aimed at improving these services. Full Project grants and WIC Concept Papers grants are awarded to States under the WIC Special Project Funds.

Substance Abuse and Mental Health Services_Projects of Regional and National Significance	93.243	Department of Health and Human Services	092047	18.1	0.0	0.0	2, 6, 8

Substance Abuse and Mental Health Service Administration (SAMHSA) was reauthorized by the Children's Health Action of 2000, Public law 106-310. Under this reauthorization, SAMHSA was given the authority to address priority substance abuse treatment, prevention and mental health needs of regional and national significance through assistance (grants and cooperative agreements) to States, political subdivisions of States, Indian tribes and tribal organizations, and other public or nonprofit private entities. Under these sections, CSAT, CMHS and CSAP seek to expand the availability of effective substance abuse treatment and recovery services available to Americans to improve the lives of those affected by alcohol and drug additions, and to reduce the impact of alcohol and drug abuse on individuals, families, communities and societies and to address priority mental health needs of regional and national significance and assist children in dealing with violence and traumatic events through by funding grant and cooperative agreement projects. Grants and cooperative agreements may be for (1) knowledge and development and application projects for treatment and rehabilitation and the conduct or support of evaluations of such projects; (2) training and technical assistance; (3) targeted capacity response programs (4) systems change grants including statewide family network grants and client-oriented and consumer run self-help activities and (5) programs to foster health and development of children; (6) coordination and integration of primary care services into publicly-funded community mental health centers and other community-based behavioral health settings funded under Affordable Care Act (ACA).

PPHF 2012 - Prevention and Public Health Fund (Affordable Care Act) - Capacity Building Assistance to Strengthen Public Health Immunization Infrastructure and Performance financed in part by 2012 Prevention and Public Health Funds	93.539	Department of Health and Human Services	092048	443.4	0.0	0.0	2, 6, 8

Program activities under this funding will support efforts to transition immunization programs supported by Section 317 funding to the healthcare environment being transformed by the Affordable Care Act (ACA). Section 317 grantees manage the public health force that implements and supports immunization practices in the public and private sectors. Additionally, the importance of monitoring the effectiveness and impact of vaccines is critical for maintaining an immunization program that is scientifically and programmatically sound. The specific objectives may include but are not limited to: 1. Enhance interoperability between electronic health records and immunization information systems and reception of Health Level 7 (HL7) standard messages into IIS. 2. Develop a vaccine ordering module in an immunization information system that interfaces with CDC's VTrckS vaccine ordering and management system. 3. Develop and/or implement strategic plans for billing for immunization services in health department clinics to enable programs to increase program revenue, reach additional populations, provide recommended vaccines that are not currently offered, and address under-vaccinated populations. 4. Plan and implement adult immunization programs to improve adult immunization rates by establishing collaborations with employers and pharmacies and other healthcare entities to expand adult vaccination activities. 5. Enhance the sustainability of school-located vaccination (SLV) to make SLV programs successful, efficient, and sustainable through new technologies and innovative systems and third-party payer billing to recover program costs. 6. Increase Human Papillomavirus (HPV) vaccination coverage rates among adolescents.

The Patient Protection and Affordable Care Act of 2010 (Affordable Care Act) authorizes Coordinated Chronic Disease prevention and Health Promotion Program	93.544	Department of Health and Human Services	092049	267.3	0.0	0.0	6, 8

Coordinated Chronic Disease Prevention and Health Promotion Program - The purpose of the program is to establish or strengthen Chronic Disease Prevention Programs within State and Territory Health Departments, to provide leadership and coordination, and support development, implementation and evaluation of CDC funded programs, including those addressing nutrition, physical activity and obesity, diabetes, heart disease and stroke, arthritis, cancer prevention and control, and diabetes. These inter-related conditions share risk factors and intervention strategies that would benefit from coordinated, collaborative implementation with consolidated leadership and oversight to ensure achievement of outcomes, efficient use of resources, implementation of evidence-based interventions, and dissemination of best practices across programs. The award recipients will be expected to establish or strengthen a Chronic disease Prevention Unit that provides leadership for chronic disease prevention and control, establishes cross cutting policy, communications, epidemiology and evaluation activities with the Chronic Disease Prevention Unit to support an array of categorical programs, foster collaboration and efficient use of resources across existing or new categorical programs addressing chronic diseases and their associated risk factors, best position programs and resources to achieve population level change in proposed chronic disease health and risk factor outcomes, and to identify specific population subgroups that suffer disproportionately from the conditions or risk factors being addresses and narrow the gaps in health status between these population subgroups and the population as a whole.

<u>Performance Measures</u>	<u>2014</u>	<u>2015</u>	<u>2016</u>

The Affordable Care Act: Building Epidemiology, Laboratory, and Health Information Systems Capacity in the Epidemiology and Laboratory Capacity for Infectious Disease (ELC) and Emerging Infections Program (EIP) Cooperative Agreements;PPHF	93.521	Department of Health and Human Services	092052	133.3	133.3	133.3	6

The Prevention and Public Health Fund (Title IV, Section 4002) was established under the Patient Protection and Affordable Care Act to provide for expanded and sustained national investment in prevention and public health programs to improve health and help restrain the rate of growth in private and public sector health care costs. The Epidemiology and Laboratory Capacity for Infectious Diseases (ELC) and Emerging Infections Program (EIP) cooperative agreements were formed in 1995 as key components of CDC's national strategy to address and reduce emerging infectious disease (EID) threats. The programs play a critical role in strengthening national infectious disease infrastructure by serving as collaborative platforms for state and local health departments, CDC programs, and academic and various other public health partners to improve the ability to detect and respond to EIDs and other public health threats. Specifically, the programs build epidemiology, laboratory, and information systems capacity, integrate epidemiology and laboratory practice, implement active surveillance, and conduct targeted research aimed at improving methods and informing national surveillance and response activities. Overall, additional funds from multiple sources including PPHF will allow ELC and EIP partner agencies to substantially address gaps in EID epidemiology and laboratory capacity (e.g. number and training level of epi and lab staff, efficient/functional information systems, etc).

Grant/Project and Description	CFDA	Grantor	AFIS ID	2014 Received	2015 Est. Rev.	2016 Est. Rev.	Footnote(s)
State Public Health Approaches for Ensuring Quitline Capacity – Funded in part by 2012 Prevention and Public Health Funds (PPHF-2012)	93.735	Department of Health and Human Services	092056	395.4	395.4	395.4	2, 6

As part of the overall effort to reduce the burden of chronic diseases and chronic disease risk factors, the Centers for Disease Control and Prevention (CDC), National Center for Chronic Disease Prevention and Health Promotion (NCCDPHP), Office on Smoking and Health (OSH) announces the opportunity to apply for funds to ensure and support state quitline capacity, in order to respond to upcoming federal initiatives such as the National Tobacco Education Campaign. <http://www.cdc.gov/tobacco>. This program addresses the “Healthy People 2020” focus area of tobacco use and the goal of reducing illness, disability, and death related to tobacco use and secondhand smoke exposure. Preventing tobacco use and helping tobacco users quit can improve the health and quality of life for Americans of all ages. People who stop smoking greatly reduce their risk of disease and premature death. Benefits are greater for people who stop at earlier ages, but quitting tobacco use is beneficial at any age. This FOA will be a new, 2-year cooperative agreement for all states and territories that currently have a quitline. Funds will be used for the following:

- Address the anticipated increase in calls
- Expand capacity and eligibility to ensure all callers receive some form of assistance
- Increase efficiencies of quitline operations, such as demonstrating how they will connect to or incorporate an interactive voice recording system (IVR) at the state or federal level
- Incorporate technological enhancements to provide additional forms of assistance to callers who want to quit
- Expand paid and earned media to promote the quitline and increase quit attempts
- Develop and/or implement private/public partnerships or other strategies to sustain quitline capacity.

Centers for Disease Control and Prevention_ Investigations and Technical Assistance	93.283	Department of Health and Human Services	092058	232.4	232.4	232.4	2, 6

To assist State and local health authorities and other health related organizations in controlling communicable diseases, chronic diseases and disorders, and other preventable health conditions. Investigations and evaluation of all methods of controlling or preventing disease and disability are carried out by providing epidemic aid, surveillance, technical assistance, consultation, and program support; and by providing leadership and coordination of joint national, State, and local efforts. STEPS- To enable communities to reduce the burden of chronic disease, including: preventing diabetes among populations with pre-diabetes; increasing the likelihood that persons with undiagnosed diabetes are diagnosed; reducing complications of diabetes; preventing overweight and obesity; reducing overweight and obesity; and reducing the complications of asthma. STEPS will achieve these outcomes by improving nutrition; increasing physical activity; preventing tobacco use and exposure, targeting adults who are diabetic or who live with persons with asthma; increasing tobacco cessation, targeting adults who are diabetic or who live with persons with asthma; increasing use of appropriate health care services; improving the quality of care; and increasing effective self-management of chronic diseases and associated risk factors. REACH - REACH U.S. supports community coalitions that design, implement, evaluate, and disseminate community-driven strategies to eliminate health disparities Racial and ethnic groups targeted include: African American/Black, American Indian/Alaska Native, Asian, Native Hawaiian/Other Pacific Islander, and Hispanic/Latino. Health priority areas include: breast and cervical cancer; cardiovascular disease; diabetes mellitus; adult/older adult immunization, hepatitis B, and/or tuberculosis; asthma; and infant mortality.

Vulnerable Populations: The purpose of this program is to reduce morbidity, premature mortality, and eliminate health disparities associated with diabetes. This will be done by funding organizations to mobilize community partners and assist them to effectively plan, develop, implement, and evaluate community-based interventions to reduce the risk factors that influence the disproportionate burden of diabetes in vulnerable populations borne by many communities in regions across the country.

PPHF-2012: Health Care Surveillance/Health Statistics – Surveillance Program Announcement: Behavioral Risk Factor Surveillance System Financed in Part by 2012 Prevention and Public Health Funds (PPHF-2012)	93.745	Department of Health and Human Services	092060	(1.6)	0.0	0.0	2, 6, 8

The purpose of this program is to provide assistance to State and Territorial Health Departments to maintain and expand:
 1) Specific health surveillance using telephone and multi-mode survey methodology for the behaviors of the general population that contribute to the occurrences and prevention of chronic diseases, injuries, and other public health threats;
 2) The collection, analysis, and dissemination of BRFSS data to State and Territorial Health Department Categorical Programs for their use in assessing trends, directing program planning, evaluating program priorities, developing policy, and targeting relevant population groups.

Specifically, this program will:

- A. Add six questions specifically on health care access and use to the 2013 Behavioral Risk Factor Surveillance System (BRFSS) survey to measure the effect of ACA on the population;
- B. Increase the BRFSS landline sample size to restore the number of completed interviews achieved to 2011 levels. BRFSS programs should develop plans for increasing their sample size of their 2013 surveys which will increase the number of completed interviews achieved which will increase the precision of estimates in small areas and sub-populations;
- C. Increase the proportion of cell phone interviews completed on the 2013 BRFSS survey to maintain coverage and validity – achieving at least a 25% completed interview rate by cell phone mode.

Grant/Project and Description	CFDA	Grantor	AFIS ID	2014 Received	2015 Est. Rev.	2016 Est. Rev.	Footnote(s)
Empowering Older Adults and Adults with Disabilities through Chronic Disease Self-Management Education Programs – financed by 2012 Prevention and Public Health Funds (PPHF-2012)	93.734	Department of Health and Human Services	092062	278.3	278.3	278.3	6

The overall purpose of this funding opportunity is to help ensure that evidence-based self-management education programs are embedded into the nation’s health and long-term services and supports systems. This effort will help preserve and expand the prevention program distribution and delivery systems that were developed through previous AoA grants. This funding is supportive of the HHS Strategic Framework on Multiple Chronic Conditions in bringing to scale and enhancing sustainability of evidence-based, self-management programs. It also helps to address the Healthy People 2020 objectives to increase the proportion of older adults with one or more chronic health conditions who report confidence in managing their conditions and to increase the proportion of older adults who receive Medicare benefits for Diabetes Self-Management Training. There are three components of this funding including: 1) state cooperative agreements; 2) a National Resource Center cooperative agreement; and 3) a contract for Technical Assistance on Chronic Disease Self-Management Education Initiatives and Building Business Acumen and Capacity in the Aging Network. The state cooperative agreements are designed to achieve the following two major objectives:

1. Significantly increase the number of older and/or disabled adults with chronic conditions who complete evidence-based chronic disease self-management education (CDSME) programs to maintain or improve their health status.
2. Strengthen and expand integrated, sustainable service systems within States to provide evidence-based CDSME programs. The National Resource Center has two objectives: 1. Provide leadership, expert guidance and resources to promote the value of and increase access to evidence-based self-management programs; and 2. Serve as a national clearinghouse and disseminate resources and best practices to increase the capacity of states, aging, disability and public health networks and their partners to implement and sustain CDSME programs.

The contract for technical assistance on business acumen will provide an expert to assist, at ACL’s request or permission, states and groups or networks of area agencies on aging and other community based organizations (CBOs) to build their business acumen and capacity to partner or contract with health care entities (e.g., hospitals, health systems, accountable care organizations, managed/integrated care plans, Federally Qualified Health Centers, etc.) to ensure the financial sustainability of chronic disease self-management education and other evidence-based health programs.

Capacity Building Assistance to Strengthen Public Health Immunization Infrastructure and Performance – financed in part by the Prevention and Public Health Fund (PPHF-2012)	93.733	Department of Health and Human Services	092064	274.7	274.7	274.7	6

This program will improve the efficiency, effectiveness, and/or quality of immunization practices by strengthening the immunization information technology infrastructure, building capacity for public health department insurance billing, and expanding immunization delivery partnerships so that more children, adolescents, and adults are protected against vaccine-preventable diseases. The specific objectives may include but are not limited to:

1. Develop strategic plans for billing for immunization services in health department clinics;
2. Enhance interoperability between electronic health records (EHRs) and Immunization Information Systems (IIS) and reception of HL7 standard messages in IIS;
3. Develop a vaccine ordering module in an immunization information system that interfaces with CDC’s VTrckS vaccine ordering and management system;
4. Vaccine barcode improvement to improve the system functions to capture data from 2-D barcodes on vaccine vials and syringes as well as improve data capture from the Vaccine Information Statements;
5. Improve vaccine management, storage and handling at provider and grantee level;
6. Use immunization information systems to improve adolescent vaccination coverage;
7. Conduct hepatitis B vaccination pilot to reduce the incidence of acute hepatitis B infection among adults through targeted hepatitis B vaccination of adults who present for medical care in high risk settings or who have behaviors that increase their risk of hepatitis B virus (HBV) infection;
8. Conduct school vaccination assessment evaluation to implement substantial improvements in the quality of kindergarten coverage and exemption data collected at state and local levels while building state and local area capacity;
9. Use immunization information systems to conduct small area analysis of vaccination coverage.

The Affordable Care Act: Building Epidemiology, Laboratory, and Health Information Systems Capacity in the Epidemiology and Laboratory Capacity for Infectious Disease (ELC) and Emerging Infections Program (EIP) Cooperative Agreements;PPHF	93.521	Department of Health and Human Services	092065	357.8	357.8	357.8	6

The Prevention and Public Health Fund (Title IV, Section 4002) was established under the Patient Protection and Affordable Care Act to provide for expanded and sustained national investment in prevention and public health programs to improve health and help restrain the rate of growth in private and public sector health care costs. The Epidemiology and Laboratory Capacity for Infectious Diseases (ELC) and Emerging Infections Program (EIP) cooperative agreements were formed in 1995 as key components of CDC's national strategy to address and reduce emerging infectious disease (EID) threats. The programs play a critical role in strengthening national infectious disease infrastructure by serving as collaborative platforms for state and local health departments, CDC programs, and academic and various other public health partners to improve the ability to detect and respond to EIDs and other public health threats. Specifically, the programs build epidemiology, laboratory, and information systems capacity, integrate epidemiology and laboratory practice, implement active surveillance, and conduct targeted research aimed at improving methods and informing national surveillance and response activities. Overall, additional funds from multiple sources including PPHF will allow ELC and EIP partner agencies to substantially address gaps in EID epidemiology and laboratory capacity (e.g. number and training level of epi and lab staff, efficient/functional information systems, etc).

Substance Abuse and Mental Health Services_Projects of Regional and National Significance	93.243	Department of Health and Human Services	092070	460.7	460.7	460.7	2, 6

Substance Abuse and Mental Health Service Administration (SAMHSA) was reauthorized by the Children's Health Action of 2000, Public law 106-310. Under this reauthorization, SAMHSA was given the authority to address priority substance abuse treatment, prevention and mental health needs of regional and national significance through assistance (grants and cooperative agreements) to States, political subdivisions of States, Indian tribes and tribal organizations, and other public or nonprofit private entities. Under these sections, CSAT, CMHS and CSAP seek to expand the availability of effective substance abuse treatment and recovery services available to Americans to improve the lives of those affected by alcohol and drug additions, and to reduce the impact of alcohol and drug abuse on individuals, families, communities and societies and to address priority mental health needs of regional and national significance and assist children in dealing with violence and traumatic events through by funding grant and cooperative agreement projects. Grants and cooperative agreements may be for (1) knowledge and development and application projects for treatment and rehabilitation and the conduct or support of evaluations of such projects; (2) training and technical assistance; (3) targeted capacity response programs (4) systems change grants including statewide family network grants and client-oriented and consumer run self-help activities and (5) programs to foster health and development of children; (6) coordination and integration of primary care services into publicly-funded community mental health centers and other community-based behavioral health settings funded under Affordable Care Act (ACA).

Environmental Public Health and Emergency Response	93.070	Department of Health and Human Services	092071	81.5	81.5	81.5	2, 6

To bring public health and epidemiologic principles together to identify, clarify, and reduce the impact of complex environmental threats, including terrorist threats and natural disasters, on populations, domestic and foreign. These programs and activities focus on safeguarding the health of people from environmental threats; providing leadership in the use of environmental health sciences-including environmental epidemiology, environmental sanitation, and laboratory sciences-to protect public health; and responding to issues and sharing solutions to environmental health problems worldwide. To accomplish the above, the CDC: (1) conducts surveillance and investigations that increase the knowledge about the relation between human health and environmental threats; (2) uses this knowledge to develop national public health programs and policies to prevent or control public health problems; (3) plans, prepares, and responds to emergencies, including terrorist threats, technologic accidents, and natural disasters; (4) provides direct service delivery to partners engaged in environmental health services such as food, safety, rodent control, water quality, and sanitation; (5) develops and applies laboratory science to prevent disease and death caused by exposure to environmental chemicals and to improve the diagnosis, treatment, and prevention of selected chronic diseases; (6) conducts Biomonitoring to assess individual human exposure to environmental chemicals by measuring them in human specimens (e.g. blood and urine); and, (7) conducts activities on emerging environmental threats such as climate change and the built environment.

Centers for Disease Control and Prevention_ Investigations and Technical Assistance	93.283	Department of Health and Human Services	092073	671.6	671.6	671.6	2,6

To assist State and local health authorities and other health related organizations in controlling communicable diseases, chronic diseases and disorders, and other preventable health conditions. Investigations and evaluation of all methods of controlling or preventing disease and disability are carried out by providing epidemic aid, surveillance, technical assistance, consultation, and program support; and by providing leadership and coordination of joint national, State, and local efforts. STEPS- To enable communities to reduce the burden of chronic disease, including: preventing diabetes among populations with pre-diabetes; increasing the likelihood that persons with undiagnosed diabetes are diagnosed; reducing complications of diabetes; preventing overweight and obesity; and reducing the complications of asthma. STEPS will achieve these outcomes by improving nutrition; increasing physical activity; preventing tobacco use and exposure, targeting adults who are diabetic or who live with persons with asthma; increasing tobacco cessation, targeting adults who are diabetic or who live with persons with asthma; increasing use of appropriate health care services; improving the quality of care; and increasing effective self-management of chronic diseases and associated risk factors. REACH - REACH U.S. supports community coalitions that design, implement, evaluate, and disseminate community-driven strategies to eliminate health disparities Racial and ethnic groups targeted include: African American/Black, American Indian/Alaska Native, Asian, Native Hawaiian/Other Pacific Islander, and Hispanic/Latino. Health priority areas include: breast and cervical cancer; cardiovascular disease; diabetes mellitus; adult/older adult immunization, hepatitis B, and/or tuberculosis; asthma; and infant mortality.

Vulnerable Populations: The purpose of this program is to reduce morbidity, premature mortality, and eliminate health disparities associated with diabetes. This will be done by funding organizations to mobilize community partners and assist them to effectively plan, develop, implement, and evaluate community-based interventions to reduce the risk factors that influence the disproportionate burden of diabetes in vulnerable populations borne by many communities in regions across the country.

PPHF 2012 - Prevention and Public Health Fund (Affordable Care Act) - Capacity Building Assistance to Strengthen Public Health Immunization Infrastructure and Performance financed in part by 2012 Prevention and Public Health Funds	93.539	Department of Health and Human Services	092074	46.7	46.7	46.7	2, 6

Program activities under this funding will support efforts to transition immunization programs supported by Section 317 funding to the healthcare environment being transformed by the Affordable Care Act (ACA). Section 317 grantees manage the public health force that implements and supports immunization practices in the public and private sectors. Additionally, the importance of monitoring the effectiveness and impact of vaccines is critical for maintaining an immunization program that is scientifically and programmatically sound. The specific objectives may include but are not limited to: 1. Enhance interoperability between electronic health records and immunization information systems and reception of Health Level 7 (HL7) standard messages into IIS. 2. Develop a vaccine ordering module in an immunization information system that interfaces with CDC's VTrackS vaccine ordering and management system. 3. Develop and/or implement strategic plans for billing for immunization services in health department clinics to enable programs to increase program revenue, reach additional populations, provide recommended vaccines that are not currently offered, and address under-vaccinated populations. 4. Plan and implement adult immunization programs to improve adult immunization rates by establishing collaborations with employers and pharmacies and other healthcare entities to expand adult vaccination activities. 5. Enhance the sustainability of school-located vaccination (SLV) to make SLV programs successful, efficient, and sustainable through new technologies and innovative systems and third-party payer billing to recover program costs. 6. Increase Human Papillomavirus (HPV) vaccination coverage rates among adolescents.

Substance Abuse and Mental Health Services_Projects of Regional and National Significance	93.243	Department of Health and Human Services	092077	110.4	110.4	110.4	2, 6

Substance Abuse and Mental Health Service Administration (SAMHSA) was reauthorized by the Children's Health Action of 2000, Public law 106-310. Under this reauthorization, SAMHSA was given the authority to address priority substance abuse treatment, prevention and mental health needs of regional and national significance through assistance (grants and cooperative agreements) to States, political subdivisions of States, Indian tribes and tribal organizations, and other public or nonprofit private entities. Under these sections, CSAT, CMHS and CSAP seek to expand the availability of effective substance abuse treatment and recovery services available to Americans to improve the lives of those affected by alcohol and drug additions, and to reduce the impact of alcohol and drug abuse on individuals, families, communities and societies and to address priority mental health needs of regional and national significance and assist children in dealing with violence and traumatic events through by funding grant and cooperative agreement projects. Grants and cooperative agreements may be for (1) knowledge and development and application projects for treatment and rehabilitation and the conduct or support of evaluations of such projects; (2) training and technical assistance; (3) targeted capacity response programs (4) systems change grants including statewide family network grants and client-oriented and consumer run self-help activities and (5) programs to foster health and development of children; (6) coordination and integration of primary care services into publicly-funded community mental health centers and other community-based behavioral health settings funded under Affordable Care Act (ACA).

<u>Performance Measures</u>	<u>2014</u>	<u>2015</u>	<u>2016</u>
Percentage of funding utilized in the budget period (Funding Utilization Ratio)		16%	32%
The funding utilization ratio is used to measure the administrative efficiency of the grant. The ratio compares the percentage of grant expenditure and encumbrance as of the fiscal year end with the percentage of budget period elapsed by the end of fiscal year.

Centers for Disease Control and Prevention_ Investigations and Technical Assistance	93.283	Department of Health and Human Services	098027	227.8	227.8	227.8	6

To assist State and local health authorities and other health related organizations in controlling communicable diseases, chronic diseases and disorders, and other preventable health conditions. Investigations and evaluation of all methods of controlling or preventing disease and disability are carried out by providing epidemic aid, surveillance, technical assistance, consultation, and program support; and by providing leadership and coordination of joint national, State, and local efforts. STEPS- To enable communities to reduce the burden of chronic disease, including: preventing diabetes among populations with pre-diabetes; increasing the likelihood that persons with undiagnosed diabetes are diagnosed; reducing complications of diabetes; preventing overweight and obesity; reducing overweight and obesity; and reducing the complications of asthma. STEPS will achieve these outcomes by improving nutrition; increasing physical activity; preventing tobacco use and exposure, targeting adults who are diabetic or who live with persons with asthma; increasing tobacco cessation, targeting adults who are diabetic or who live with persons with asthma; increasing use of appropriate health care services; improving the quality of care; and increasing effective self-management of chronic diseases and associated risk factors. REACH - REACH U.S. supports community coalitions that design, implement, evaluate, and disseminate community-driven strategies to eliminate health disparities Racial and ethnic groups targeted include: African American/Black, American Indian/Alaska Native, Asian, Native Hawaiian/Other Pacific Islander, and Hispanic/Latino. Health priority areas include: breast and cervical cancer; cardiovascular disease; diabetes mellitus; adult/older adult immunization, hepatitis B, and/or tuberculosis; asthma; and infant mortality.

Vulnerable Populations: The purpose of this program is to reduce morbidity, premature mortality, and eliminate health disparities associated with diabetes. This will be done by funding organizations to mobilize community partners and assist them to effectively plan, develop, implement, and evaluate community-based interventions to reduce the risk factors that influence the disproportionate burden of diabetes in vulnerable populations borne by many communities in regions across the country.

Universal Newborn Hearing Screening	93.251	Department of Health and Human Services	098071	277.7	277.7	277.7	6

This program supports state programs for reducing the loss to follow-up of infants who have not passed a physiologic newborn hearing screening examination prior to discharge from the newborn nursery. Although more than 95% of newborns are screened for hearing loss in the first few days of life, nationally about 20-40% of infants for whom further assessment is indicated cannot be documented as having appropriate follow-up. This funding opportunity is to initiate new activities to significantly reduce this loss to follow-up. Support is also provided to one national technical resource center.

The funding utilization ratio is used to measure the administrative efficiency of the grant. The ratio compares the percentage of grant expenditure and encumbrance as of the fiscal year end with the percentage of budget period elapsed by the end of fiscal year.			

Drug and Alcohol Services Information System	93.022	Department Of Health And Human Services	098084	71.4	0.0	0.0	2, 6, 8, 10
---	---------------	--	--------	------	-----	-----	-------------

Requires the Secretary of Health and Human Services, acting through the Administrator of the Substance Abuse Mental Health Services Administration, to develop a national data set on characteristics of clients admitted to the public substance abuse treatment facilities. Information collected assists SAMHSA and the states in accounting for alcohol/drug treatment funds provided to the states in the Substance Abuse Prevention and Treatment Block Grant (SAPT). The profiles are also used in reports to Congress on the public substance abuse system.

<u>Performance Measures</u>	<u>2014</u>	<u>2015</u>	<u>2016</u>
Percentage of funding utilized in the budget period (Funding Utilization Ratio)		100%	N/A
The funding utilization ratio is used to measure the administrative efficiency of the grant. The ratio compares the percentage of grant expenditure and encumbrance as of the fiscal year end with the percentage of budget period elapsed by the end of fiscal year.

Special Supplemental Nutrition Program for Women, Infants, and Children	10.557	Department of Agriculture	098097	15.8	15.8	15.8	6

To provide low-income pregnant, breastfeeding and postpartum women, infants, and children to age five who have been determined to be at nutritional risk, supplemental nutritious foods, nutrition education, and referrals to health and social services at no cost. WIC also promotes breastfeeding as the feeding method of choice for infants, provides substance abuse education and promotes immunization and other aspects of healthy living.

The Food and Nutrition Service (FNS) makes funds available to participating State health agencies and Indian Tribal Organizations (ITOs) that, in turn, distribute the funds to participating local agencies. State and local agencies use WIC funds to pay the costs of specified supplemental foods provided to WIC participants, and to pay for specified nutrition services and administration (NSA) costs, including the cost of nutrition assessments, blood tests for anemia, nutrition education, breastfeeding promotion and health care referrals.

Substance Abuse and Mental Health Services_Projects of Regional and National Significance	93.243	Department of Health and Human Services	098098	174.3	0.0	0.0	6, 8

Substance Abuse and Mental Health Service Administration (SAMHSA) was reauthorized by the Children's Health Action of 2000, Public law 106-310. Under this reauthorization, SAMHSA was given the authority to address priority substance abuse treatment, prevention and mental health needs of regional and national significance through assistance (grants and cooperative agreements) to States, political subdivisions of States, Indian tribes and tribal organizations, and other public or nonprofit private entities. Under these sections, CSAT, CMHS and CSAP seek to expand the availability of effective substance abuse treatment and recovery services available to Americans to improve the lives of those affected by alcohol and drug additions, and to reduce the impact of alcohol and drug abuse on individuals, families, communities and societies and to address priority mental health needs of regional and national significance and assist children in dealing with violence and traumatic events through by funding grant and cooperative agreement projects. Grants and cooperative agreements may be for (1) knowledge and development and application projects for treatment and rehabilitation and the conduct or support of evaluations of such projects; (2) training and technical assistance; (3) targeted capacity response programs (4) systems change grants including statewide family network grants and client-oriented and consumer run self-help activities and (5) programs to foster health and development of children; (6) coordination and integration of primary care services into publicly-funded community mental health centers and other community-based behavioral health settings funded under Affordable Care Act (ACA).

State Vital Statistics Improvement Program	93.066	Department of Health and Human Services	099002	694.6	0.0	0.0	6, 8

To improve the timeliness, quality and sustainability of the de-centralized vital statistics system by adopting nationally-developed, consensus standards and guidelines; by actively working with states to re-engineer their state-owned and operated systems using these standards/guidelines; and by improving the efficiency of business operations of state vital statistics programs. Working collaboratively between State and Federal agencies, the goal is to facilitate the development and implementation of re-engineered systems in all 57 registration areas. These will be systems that can: (1) provide quality and timely data for public health surveillance and medical research; (2) meet citizen needs for legal copies of their birth and death records, including providing paper copies of records to citizens for their immediate legal or personal use, and at citizens' request, transferring records electronically to local, State or Federal agencies to satisfy an agency's need for a record; meet Federal agencies' needs for record verification and authentication; (3) result in comparable vital registration/statistics systems in each state; (4) use national standards and guidelines, including the 2003 revision of the U.S. Standard Certificates of Birth and Death and the Report of Fetal Death, the ICD-10 classification system, the FIPS geographic coding scheme, and the standard HL-7 vital events messaging; (5) support national security and privacy requirements; (6) integrate or harmonize easily with other public health systems such as Public Health Information Network (PHIN), immunization registries, and newborn screening, and (7) use Internet technology.

<u>Performance Measures</u>	<u>2014</u>	<u>2015</u>	<u>2016</u>

Public Health Emergency Preparedness	93.069	Department of Health and Human Services	099031	13,565.3	13,565.3	13,565.3	6

The PHEP program is a critical source of funding, guidance, and technical assistance for state, territorial, and local public health departments. Preparedness activities funded by the PHEP program are targeted specifically for the development of emergency-ready public health departments that are flexible and adaptable. These efforts support the National Response Framework (NRF), which guides how the nation responds to all types of hazards including infectious disease outbreaks; natural disasters; biological, chemical, and radiological incidents; and explosions.

To help public health departments with their strategic planning, CDC identified 15 public health preparedness capabilities to serve as national public health preparedness standards. State and local jurisdictions can use CDC's Public Health Preparedness Capabilities: National Standards for State and Local Planning to better organize their work and identify the capabilities they have the resources to build or sustain. These standards help ensure that federal preparedness funds are directed to priority areas within individual jurisdictions.

The 2012 PHEP program is currently funded via a joint cooperative agreement award and aligned with the Hospital Preparedness Program (HPP). PHEP program guidance assists the 62 PHEP awardees in demonstrating measurable and sustainable progress toward achieving the 15 public health preparedness capabilities and other activities that promote safer and more resilient communities.

Special Supplemental Nutrition Program for Women, Infants, and Children	10.557	Department of Agriculture	099037	40,592.0	40,982.3	40,787.1	2,6

To provide low-income pregnant, breastfeeding and postpartum women, infants, and children to age five who have been determined to be at nutritional risk, supplemental nutritious foods, nutrition education, and referrals to health and social services at no cost. WIC also promotes breastfeeding as the feeding method of choice for infants, provides substance abuse education and promotes immunization and other aspects of healthy living.

The Food and Nutrition Service (FNS) makes funds available to participating State health agencies and Indian Tribal Organizations (ITOs) that, in turn, distribute the funds to participating local agencies. State and local agencies use WIC funds to pay the costs of specified supplemental foods provided to WIC participants, and to pay for specified nutrition services and administration (NSA) costs, including the cost of nutrition assessments, blood tests for anemia, nutrition education, breastfeeding promotion and health care referrals.

<u>Performance Measures</u>	<u>2014</u>	<u>2015</u>	<u>2016</u>
Percentage of funding utilized in the budget period (Funding Utilization Ratio)	110%	100%	N/A
<p>The funding utilization ratio is used to measure the administrative efficiency of the grant. The ratio compares the percentage of grant expenditure and encumbrance as of the fiscal year end with the percentage of budget period elapsed by the end of fiscal year.</p> <p>The funding and expenditures are split between FY 08 and FY 09. The last quarter of the budget period fell into FY 09, which is why the performance measure is over 100%. This will occur in subsequent fiscal years as well.</p>

Maternal and Child Health Federal Consolidated Programs	93.110	Department of Health and Human Services	099074	70.9	0.0	0.0	6, 8

To carry out special maternal and child health (MCH) projects of regional and national significance; to conduct training and research; to conduct genetic disease testing, counseling, and information development and dissemination programs; for grants relating to hemophilia without regard to age; and for the screening of newborns for sickle cell anemia, and other genetic disorders. and to support comprehensive hemophilia diagnostic and treatment centers. These grants are funded with a set-aside from the MCH Block grant program. SPRANS grants are funded with 15 percent of the Block Grant appropriation of up to \$600 million. When the appropriation exceeds \$600 million, 12.75 percent of the amount over \$600 million is set aside for the Community Integrated Service Systems grants. 15 percent of the balance remaining over \$600 million is also for SPRANS. The CISS program is to develop and expand the following: (1) Home visitation; (2) increased participation of obstetricians and pediatricians; (3) integrated service delivery systems; (4) maternal and child health centers for women and infants, under the direction of a not-for-profit hospital; (5) services for rural populations; and (6) community-based services for children with special health care needs in order to enhance or develop an integrated services system. In FY 2008 Congress first funded the Combating Autism Act program, which is for early detection, education and intervention activities on autism and other developmental disorders.

First funded in 2004, the Heritable Disorders Program is established to improve the ability of States to provide newborn and child screening for heritable disorders and affect the lives of all of the nation's infants and children. Newborn and child screening occur at intervals across the life span of every child. Newborn screening universally provides early identification and follow-up for treatment of infants affected by certain genetic, metabolic, hormonal and/or functional conditions. It is expected that newborn and child screening will expand as the capacity to screen for genetic and congenital conditions expands.

First funded in 2009, the Congenital Conditions program is established to provide information and support services to women and their families that have received a diagnosis for Down Syndrome, Spina Bifida, Dwarfism and other prenatally or postnatally diagnosed conditions.

Project Grants and Cooperative Agreements for Tuberculosis Control Programs	93.116	Department of Health and Human Services	099075	1,228.3	1,297.3	1,297.3	6

To assist State and local health agencies in carrying out tuberculosis (TB) control activities designed to prevent transmission of infection and disease. Financial assistance is provided to TB programs to ensure that the program needs for the core TB prevention and control activities are met: finding all cases of active tuberculosis and ensuring completion of therapy; finding and screening persons who have had contact with TB patients, evaluating them for TB infection and disease, and ensuring completion of appropriate treatment, and conducting TB surveillance and TB public health laboratory activities that are essential to addressing these priorities. Each of these core activities (completion of therapy, contact investigation, TB surveillance, and TB laboratory activities) is essential to effective TB prevention and control, and they are mutually reinforcing. Thus, they constitute a 'package' of core activities. These are the highest priority TB prevention and control activities and should be carried out by all State and local TB prevention and control programs.

Centers for Disease Control and Prevention_ Investigations and Technical Assistance	93.283	Department of Health and Human Services	099092	0.0	819.3	819.3	2, 3, 6

To assist State and local health authorities and other health related organizations in controlling communicable diseases, chronic diseases and disorders, and other preventable health conditions. Investigations and evaluation of all methods of controlling or preventing disease and disability are carried out by providing epidemic aid, surveillance, technical assistance, consultation, and program support; and by providing leadership and coordination of joint national, State, and local efforts. STEPS- To enable communities to reduce the burden of chronic disease, including: preventing diabetes among populations with pre-diabetes; increasing the likelihood that persons with undiagnosed diabetes are diagnosed; reducing complications of diabetes; preventing overweight and obesity; reducing complications of asthma. STEPS will achieve these outcomes by improving nutrition; increasing physical activity; preventing tobacco use and exposure, targeting adults who are diabetic or who live with persons with asthma; increasing tobacco cessation, targeting adults who are diabetic or who live with persons with asthma; increasing use of appropriate health care services; improving the quality of care; and increasing effective self-management of chronic diseases and associated risk factors. REACH - REACH U.S. supports community coalitions that design, implement, evaluate, and disseminate community-driven strategies to eliminate health disparities Racial and ethnic groups targeted include: African American/Black, American Indian/Alaska Native, Asian, Native Hawaiian/Other Pacific Islander, and Hispanic/Latino. Health priority areas include: breast and cervical cancer; cardiovascular disease; diabetes mellitus; adult/older adult immunization, hepatitis B, and/or tuberculosis; asthma; and infant mortality.

Vulnerable Populations: The purpose of this program is to reduce morbidity, premature mortality, and eliminate health disparities associated with diabetes. This will be done by funding organizations to mobilize community partners and assist them to effectively plan, develop, implement, and evaluate community-based interventions to reduce the risk factors that influence the disproportionate burden of diabetes in vulnerable populations borne by many communities in regions across the country.

<u>Performance Measures</u>	<u>2014</u>	<u>2015</u>	<u>2016</u>
Percentage of funding utilized in the budget period (Funding Utilization Ratio)		N/A	50%
The funding utilization ratio is used to measure the administrative efficiency of the grant. The ratio compares the percentage of grant expenditure and encumbrance as of the fiscal year end with the percentage of budget period elapsed by the end of fiscal year.

National Public Health Improvement Initiative	93.292	Department of Health and Human Services	992030	193.6	0.0	0.0	2, 6, 8

The purpose of the program is to provide support for accelerating public health accreditation readiness activities; to provide additional support for performance management and improvement practices; and, for the development, identification and dissemination of evidence-based policies and practices (i.e., best and promising practices.).

This program supports the Healthy People 2020 focus area of addressing Public Health Infrastructure (<http://www.healthypeople.gov/hp2020/>). Cross-jurisdictional (state, local, tribal, territorial, regional, community, and border) collaborations are encouraged to increase the impact of limited resources, improve efficiency, and to leverage other related health reform efforts/projects.

Measurable outcomes of the program align with the following performance goals:

- 1) Increased efficiencies (saving time/money) of program services and/or operations,
- 2) Increased effectiveness (use of evidence-based policies and practices) Improved health outcome is a example of increased effectiveness., and,
- 3) Increased readiness for applying to and achieving accreditation by the Public Health Accreditation Board PHAB. (More information on accreditation activities can be found on the PHAB web site at <http://www.phaboard.org/>).

Substance Abuse and Mental Health Services_Projects of Regional and National Significance	93.243	Department of Health and Human Services	998017	382.6	0.0	0.0	2, 6, 8

Substance Abuse and Mental Health Service Administration (SAMHSA) was reauthorized by the Children's Health Action of 2000, Public law 106-310. Under this reauthorization, SAMHSA was given the authority to address priority substance abuse treatment, prevention and mental health needs of regional and national significance through assistance (grants and cooperative agreements) to States, political subdivisions of States, Indian tribes and tribal organizations, and other public or nonprofit private entities. Under these sections, CSAT, CMHS and CSAP seek to expand the availability of effective substance abuse treatment and recovery services available to Americans to improve the lives of those affected by alcohol and drug additions, and to reduce the impact of alcohol and drug abuse on individuals, families, communities and societies and to address priority mental health needs of regional and national significance and assist children in dealing with violence and traumatic events through by funding grant and cooperative agreement projects. Grants and cooperative agreements may be for (1) knowledge and development and application projects for treatment and rehabilitation and the conduct or support of evaluations of such projects; (2) training and technical assistance; (3) targeted capacity response programs (4) systems change grants including statewide family network grants and client-oriented and consumer run self-help activities and (5) programs to foster health and development of children; (6) coordination and integration of primary care services into publicly-funded community mental health centers and other community-based behavioral health settings funded under Affordable Care Act (ACA).

<u>Performance Measures</u>	<u>2014</u>	<u>2015</u>	<u>2016</u>

Special Supplemental Nutrition Program for Women, Infants, and Children	10.557	Department of Agriculture	998041	23.4	23.4	23.4	2

To provide low-income pregnant, breastfeeding and postpartum women, infants, and children to age five who have been determined to be at nutritional risk, supplemental nutritious foods, nutrition education, and referrals to health and social services at no cost. WIC also promotes breastfeeding as the feeding method of choice for infants, provides substance abuse education and promotes immunization and other aspects of healthy living.

The Food and Nutrition Service (FNS) makes funds available to participating State health agencies and Indian Tribal Organizations (ITOs) that, in turn, distribute the funds to participating local agencies. State and local agencies use WIC funds to pay the costs of specified supplemental foods provided to WIC participants, and to pay for specified nutrition services and administration (NSA) costs, including the cost of nutrition assessments, blood tests for anemia, nutrition education, breastfeeding promotion and health care referrals.

<u>Performance Measures</u>	<u>2014</u>	<u>2015</u>	<u>2016</u>
Percentage of funding utilized in the budget period (Funding Utilization Ratio)		0%	50%
<p>The funding utilization ratio is used to measure the administrative efficiency of the grant. The ratio compares the percentage of grant expenditure and encumbrance as of the fiscal year end with the percentage of budget period elapsed by the end of fiscal year.</p> <p>This was a very small grant to cover travel expenses for the State WIC Coordinator to attend meetings in other states. Travel had been completed early in FY 09 which is why the performance measure reflects greater than 100%. Travel in FY 10 occurred late in the budget year which is why the performance measure is lower this time. For FY 11 travel occurred in the middle of the year, which is why the performance measure reflects 100%.</p> <p>There was no activity under the grant in 2012, therefore no performance measure was calculated.</p>

<u>Performance Measures</u>	<u>2014</u>	<u>2015</u>	<u>2016</u>
Percentage of funding utilized in the budget period (Funding Utilization Ratio)	1134%	95%	100%
The funding utilization ratio is used to measure the administrative efficiency of the grant. The ratio compares the percentage of grant expenditure and encumbrance as of the fiscal year end with the percentage of budget period elapsed by the end of fiscal year.			
The calculated performance measure is over 100% because Pass Thru and/or Professional and Outside Services have already been encumbered through the execution of a completed contract, ISA or IGA, and are included in the total expenditures to date.

Centers for Disease Control and Prevention_ Investigations and Technical Assistance	93.283	Department of Health and Human Services	999093	2,834.6	2,834.6	2,834.6	6

To assist State and local health authorities and other health related organizations in controlling communicable diseases, chronic diseases and disorders, and other preventable health conditions. Investigations and evaluation of all methods of controlling or preventing disease and disability are carried out by providing epidemic aid, surveillance, technical assistance, consultation, and program support; and by providing leadership and coordination of joint national, State, and local efforts. STEPS- To enable communities to reduce the burden of chronic disease, including: preventing diabetes among populations with pre-diabetes; increasing the likelihood that persons with undiagnosed diabetes are diagnosed; reducing complications of diabetes; preventing overweight and obesity; reducing overweight and obesity; and reducing the complications of asthma. STEPS will achieve these outcomes by improving nutrition; increasing physical activity; preventing tobacco use and exposure, targeting adults who are diabetic or who live with persons with asthma; increasing tobacco cessation, targeting adults who are diabetic or who live with persons with asthma; increasing use of appropriate health care services; improving the quality of care; and increasing effective self-management of chronic diseases and associated risk factors. REACH - REACH U.S. supports community coalitions that design, implement, evaluate, and disseminate community-driven strategies to eliminate health disparities Racial and ethnic groups targeted include: African American/Black, American Indian/Alaska Native, Asian, Native Hawaiian/Other Pacific Islander, and Hispanic/Latino. Health priority areas include: breast and cervical cancer; cardiovascular disease; diabetes mellitus; adult/older adult immunization, hepatitis B, and/or tuberculosis; asthma; and infant mortality.

Vulnerable Populations: The purpose of this program is to reduce morbidity, premature mortality, and eliminate health disparities associated with diabetes. This will be done by funding organizations to mobilize community partners and assist them to effectively plan, develop, implement, and evaluate community-based interventions to reduce the risk factors that influence the disproportionate burden of diabetes in vulnerable populations borne by many communities in regions across the country.

Substance Abuse and Mental Health Services_Projects of Regional and National Significance	93.243	Department of Health and Human Services	999094	0.1	0.0	0.0	2, 6, 8

Substance Abuse and Mental Health Service Administration (SAMHSA) was reauthorized by the Children's Health Action of 2000, Public law 106-310. Under this reauthorization, SAMHSA was given the authority to address priority substance abuse treatment, prevention and mental health needs of regional and national significance through assistance (grants and cooperative agreements) to States, political subdivisions of States, Indian tribes and tribal organizations, and other public or nonprofit private entities. Under these sections, CSAT, CMHS and CSAP seek to expand the availability of effective substance abuse treatment and recovery services available to Americans to improve the lives of those affected by alcohol and drug additions, and to reduce the impact of alcohol and drug abuse on individuals, families, communities and societies and to address priority mental health needs of regional and national significance and assist children in dealing with violence and traumatic events through by funding grant and cooperative agreement projects. Grants and cooperative agreements may be for (1) knowledge and development and application projects for treatment and rehabilitation and the conduct or support of evaluations of such projects; (2) training and technical assistance; (3) targeted capacity response programs (4) systems change grants including statewide family network grants and client-oriented and consumer run self-help activities and (5) programs to foster health and development of children; (6) coordination and integration of primary care services into publicly-funded community mental health centers and other community-based behavioral health settings funded under Affordable Care Act (ACA).

Agency: Department of Homeland Security

Grant/Project and Description	CFDA	Grantor	AFIS ID	2014 Received	2015 Est. Rev.	2016 Est. Rev.	Footnote(s)
Homeland Security Grant Program	97.067	Department of Homeland Security	120001	11,830.2	2,482.3	404.0	2, 6

FY 2012 HSGP and THSGP provide grant funding to assist state and local governments in obtaining the resources required to support the National Preparedness Goal's (NPG's) associated mission areas and core capabilities. FY 2012 THSGP provides funding directly to eligible tribes to help strengthen the nation against risks associated with potential terrorist attacks. The FY 2012 HSGP is comprised of three interconnected grant programs:

- State Homeland Security Program (SHSP): SHSP supports the implementation of State Homeland Security Strategies to address the identified planning, organization, equipment, training, and exercise needs to prevent, protect against, mitigate, respond to, and recover from acts of terrorism and other catastrophic events.
- Urban Areas Security Initiative (UASI): The UASI program addresses the unique planning, organization, equipment, training, and exercise needs of high-threat, high-density Urban Areas, and assists them in building an enhanced and sustainable capacity to prevent, protect against, mitigate, respond to, and recover from acts of terrorism.
- Operation Stonegarden (OPSG): OPSG supports enhanced cooperation and coordination among local, tribal, territorial, State, and Federal law enforcement agencies in a joint mission to secure the United States' borders along routes of ingress from international borders to include travel corridors in States bordering Mexico and Canada, as well as States and territories with international water borders.

All three programs are founded on risk-driven, capabilities-based strategic plans. These strategic plans outline capability requirements and inform how available funding may be applied to manage risk. For these plans to be effective, government officials and elected leaders, working with the whole community, must consider how to sustain current capability levels and address potential shortfalls to prevent, protect, mitigate, respond to, and recover from disasters.

The FY 2013 HSGP plays an important role in the implementation of the National Preparedness System (NPS) by supporting the building, sustainment, and delivery of core capabilities essential to achieving the National Preparedness Goal (NPG) of a secure and resilient Nation. Delivering core capabilities requires the combined effort of the whole community, rather than the exclusive effort of any single organization or level of government. The FY 2013 HSGP's allowable costs support efforts to build and sustain core capabilities across the Prevention, Protection, Mitigation, Response, and Recovery mission areas by setting the following priorities and objectives:

Priority One: Implementation of the NPS and a Whole Community Approach to Homeland Security and Emergency Management

**State of Arizona

(Dollars in Thousands)**

Agency: Department of Homeland Security

<u>Grant/Project and Description</u>	<u>CFDA</u>	<u>Grantor</u>	<u>AFIS ID</u>	<u>2014 Received</u>	<u>2015 Est. Rev.</u>	<u>2016 Est. Rev.</u>	<u>Footnote(s)</u>
Homeland Security Grant Program	97.067	Department of Homeland Security	120001	11,830.2	2,482.3	404.0	2, 6

- Objective One: Completion of the THIRA process in alignment with National Preparedness System guidance to identify the resources required to deliver core capabilities.
- Objective Two: Conduct risk driven, capabilities-based planning through whole community councils and working groups.
- Objective Three: Organization – Typing of equipment, and credentialing and training of personnel.
- Objective Four: Sustaining Capabilities.

Priority Two: Building and Sustaining Law Enforcement Terrorism Prevention Capabilities

- Objective One: Nationwide Suspicious Activity Reporting Initiative (NSI)

Priority Three: Maturation and Enhancement of State and Major Urban Area Fusion Centers

- Objective One: Baseline Capabilities.
- Objective Two: Analytic Capabilities.

The Department of Homeland Security Appropriations Act, 2013 (Public Law 113-6) authorized additional funding allocated at the discretion of the Secretary of the Department Homeland Security, to support appropriated programs in FY 2013. DHS has augmented the SHSP and UASI grant programs in FY 2013 by allocating an additional \$163.4 million to support the following priority areas:

Priority Four: Innovation and Sustained Support for the National Campaign for Preparedness

- Objective One: Foster individual and community preparedness and resilience by identifying needs; mobilizing partners; and creating innovative and effective solutions that can be grown, sustained, and replicated.

Priority Five: Improve Immediate Emergency Victim Care at Mass Casualty Events

- Objective One: Improve emergency care to victims of mass casualty events, including mass shootings.
- Objective Two: Improve community first aid training.

Minimum funding amounts are not prescribed by the Department for these priorities; however grantees are expected to support state, local, and regional efforts in achieving the desired outcomes of one or more of these priorities.

Non-Profit Security Program	97.008	Department of Homeland Security	130005	0.0	66.5	0.0	2, 3, 6

The FY 2013 NSGP provides \$10,000,000 in funding support for target hardening and other physical security enhancements and activities to nonprofit organizations that are at high risk of terrorist attack and located within one of the specific UASI-eligible Urban Areas. While this funding is provided specifically to high-risk nonprofit organizations under The Department of Homeland Security Appropriations Act, 2013 (Public Law 113-6), the program seeks to integrate nonprofit preparedness activities with broader State and local preparedness efforts. It is also designed to promote coordination and collaboration in emergency preparedness activities among public and private community representatives, as well as State and local government agencies.

The FY 2013 NSGP plays an important role in the implementation of the National Preparedness System (NPS) by supporting the development and sustainment of core capabilities. Core capabilities are essential for the execution of each of the five mission areas outlined in the National Preparedness Goal (NPG). Delivering core capabilities requires the combined effort of the whole community, rather than the exclusive effort of any single organization or level of government. The FY 2013 NSGP's allowable costs support efforts to build and sustain core capabilities across the Prevention, Protection, Mitigation, Response, and Recovery mission areas.

Examples of tangible outcomes from the FY 2013 NSGP include strengthening emergency management capabilities through:

- Building and sustaining core capabilities
- Strengthening governance integration
- Whole community approach to security and emergency management.

Homeland Security Grant Program	97.067	Department of Homeland Security	140001	0.0	8,743.6	9,992.7	2, 3, 6

FY 2012 HSGP and THSGP provide grant funding to assist state and local governments in obtaining the resources required to support the National Preparedness Goal's (NPG's) associated mission areas and core capabilities. FY 2012 THSGP provides funding directly to eligible tribes to help strengthen the nation against risks associated with potential terrorist attacks. The FY 2012 HSGP is comprised of three interconnected grant programs:

- State Homeland Security Program (SHSP): SHSP supports the implementation of State Homeland Security Strategies to address the identified planning, organization, equipment, training, and exercise needs to prevent, protect against, mitigate, respond to, and recover from acts of terrorism and other catastrophic events.
- Urban Areas Security Initiative (UASI): The UASI program addresses the unique planning, organization, equipment, training, and exercise needs of high-threat, high-density Urban Areas, and assists them in building an enhanced and sustainable capacity to prevent, protect against, mitigate, respond to, and recover from acts of terrorism.
- Operation Stonegarden (OPSG): OPSG supports enhanced cooperation and coordination among local, tribal, territorial, State, and Federal law enforcement agencies in a joint mission to secure the United States' borders along routes of ingress from international borders to include travel corridors in States bordering Mexico and Canada, as well as States and territories with international water borders.

All three programs are founded on risk-driven, capabilities-based strategic plans. These strategic plans outline capability requirements and inform how available funding may be applied to manage risk. For these plans to be effective, government officials and elected leaders, working with the whole community, must consider how to sustain current capability levels and address potential shortfalls to prevent, protect, mitigate, respond to, and recover from disasters.

The FY 2013 HSGP plays an important role in the implementation of the National Preparedness System (NPS) by supporting the building, sustainment, and delivery of core capabilities essential to achieving the National Preparedness Goal (NPG) of a secure and resilient Nation. Delivering core capabilities requires the combined effort of the whole community, rather than the exclusive effort of any single organization or level of government. The FY 2013 HSGP's allowable costs support efforts to build and sustain core capabilities across the Prevention, Protection, Mitigation, Response, and Recovery mission areas by setting the following priorities and objectives:

Priority One: Implementation of the NPS and a Whole Community Approach to Homeland Security and Emergency Management

**State of Arizona

Agency: Department of Homeland Security

<u>Grant/Project and Description</u>	<u>CFDA</u>	<u>Grantor</u>	<u>AFIS ID</u>	<u>2014 Received</u>	<u>2015 Est. Rev.</u>	<u>2016 Est. Rev.</u>	<u>Footnote(s)</u>
Homeland Security Grant Program	97.067	Department of Homeland Security	140001	0.0	8,743.6	9,992.7	2, 3, 6

- Objective One: Completion of the THIRA process in alignment with National Preparedness System guidance to identify the resources required to deliver core capabilities.
- Objective Two: Conduct risk driven, capabilities-based planning through whole community councils and working groups.
- Objective Three: Organization – Typing of equipment, and credentialing and training of personnel.
- Objective Four: Sustaining Capabilities.

Priority Two: Building and Sustaining Law Enforcement Terrorism Prevention Capabilities

- Objective One: Nationwide Suspicious Activity Reporting Initiative (NSI)

Priority Three: Maturation and Enhancement of State and Major Urban Area Fusion Centers

- Objective One: Baseline Capabilities.
- Objective Two: Analytic Capabilities.

The Department of Homeland Security Appropriations Act, 2013 (Public Law 113-6) authorized additional funding allocated at the discretion of the Secretary of the Department Homeland Security, to support appropriated programs in FY 2013. DHS has augmented the SHSP and UASI grant programs in FY 2013 by allocating an additional \$163.4 million to support the following priority areas:

Priority Four: Innovation and Sustained Support for the National Campaign for Preparedness

- Objective One: Foster individual and community preparedness and resilience by identifying needs; mobilizing partners; and creating innovative and effective solutions that can be grown, sustained, and replicated.

Priority Five: Improve Immediate Emergency Victim Care at Mass Casualty Events

- Objective One: Improve emergency care to victims of mass casualty events, including mass shootings.
- Objective Two: Improve community first aid training.

Minimum funding amounts are not prescribed by the Department for these priorities; however grantees are expected to support state, local, and regional efforts in achieving the desired outcomes of one or more of these priorities.

Non-Profit Security Program	97.008	Department of Homeland Security	800005	(0.3)	0.0	0.0	2, 6, 8

The FY 2013 NSGP provides \$10,000,000 in funding support for target hardening and other physical security enhancements and activities to nonprofit organizations that are at high risk of terrorist attack and located within one of the specific UASI-eligible Urban Areas. While this funding is provided specifically to high-risk nonprofit organizations under The Department of Homeland Security Appropriations Act, 2013 (Public Law 113-6), the program seeks to integrate nonprofit preparedness activities with broader State and local preparedness efforts. It is also designed to promote coordination and collaboration in emergency preparedness activities among public and private community representatives, as well as State and local government agencies.

The FY 2013 NSGP plays an important role in the implementation of the National Preparedness System (NPS) by supporting the development and sustainment of core capabilities. Core capabilities are essential for the execution of each of the five mission areas outlined in the National Preparedness Goal (NPG). Delivering core capabilities requires the combined effort of the whole community, rather than the exclusive effort of any single organization or level of government. The FY 2013 NSGP's allowable costs support efforts to build and sustain core capabilities across the Prevention, Protection, Mitigation, Response, and Recovery mission areas.

Examples of tangible outcomes from the FY 2013 NSGP include strengthening emergency management capabilities through:

- Building and sustaining core capabilities
- Strengthening governance integration
- Whole community approach to security and emergency management.

Community Development Block Grants/State's program and Non-Entitlement Grants in Hawaii	14.228	Department of Housing and Urban Development	040001	685.1	0.0	0.0	²

The primary objective of this program is the development of viable urban communities by providing decent housing, a suitable living environment, and expanding economic opportunities, principally for persons of low- and moderate-income. Each activity funded must meet one of the program's National Objectives by: Benefiting low- and moderate-income families; aiding in the prevention or elimination of slums or blight; or meeting other community development needs having a particular urgency because existing conditions pose a serious and immediate threat to the health or welfare of the community where other financial resources are not available.

Continuum of Care Program	14.267	Department of Housing and Urban Development	141205	3,025.0	4,182.3	4,307.9	6

The program is designed to promote community-wide commitment to the goal of ending homelessness; provide funding for efforts by nonprofit providers, States, and local governments to quickly re-house homeless individuals and families while minimizing the trauma and dislocation caused to homeless individuals, families, and communities by homelessness; promote access to and effective utilization of mainstream programs by homeless individuals and families; and optimize self-sufficiency among individuals and families experiencing homelessness. Continuum of Care Program funds may be used to pay for the eligible costs used to establish and operate projects under five program components: (i) permanent housing, which includes permanent supportive housing for persons with disabilities, and rapid rehousing; (ii) transitional housing; (iii) supportive services only; (iv) Homeless Management Information Systems (HMIS), and (v) in some cases, homelessness prevention.

<u>Grant/Project and Description</u>	<u>CFDA</u>	<u>Grantor</u>	<u>AFIS ID</u>	<u>2014 Received</u>	<u>2015 Est. Rev.</u>	<u>2016 Est. Rev.</u>	<u>Footnote(s)</u>
Section 8 Housing Choice Vouchers	14.871	Department of Housing and Urban Development	777094	1,504.3	1,421.4	1,523.0	

To aid very low income families in obtaining decent, safe, and sanitary rental housing. For Fair Share Vouchers and Welfare-to-Work Vouchers, Public Housing Agencies (PHA) must meet certain selection criteria. For Welfare-to-Work rental vouchers, families must also meet special welfare-to-work criteria. HUD regulations merged the former Section 8 Rental Voucher program (14.855) with the former Section 8 Certificate program (14.857). Section 502 of the Public Housing Reform Act states that a purpose of the legislation is 'consolidating the voucher and certificate programs for rental assistance under Section 8 of the United States Housing Act of 1937 (the 'USHA') into a single market-driven program that will assist in making tenant-based rental assistance more successful at helping low-income families obtain affordable housing and will increase housing choice for low-income families'.

<u>Performance Measures</u>	<u>2014</u>	<u>2015</u>	<u>2016</u>
Number of low-income households assisted with monthly rental subsidies.	219	234	238
Number of low-income households (typically below 30 percent of the area median income) assisted with monthly rental subsidy assistance payments. Typically households pay 30 percent of their total household income towards rent payments, with the subsidy payment paying the different between the market rent and the assisted household's contribution, allowing very low-income households to have funding available for other critical needs such as food, medicine and other ongoing needs.			
Dollar amounts provided as rental subsidies to low-income renters.	1,349.8	1,302.3	1,337.9
Dollar amounts provided as rental subsidies to low-income renters assisted with monthly rental subsidies, making their housing more affordable.

National Foreclosure Mitigation Counseling Program	21.000	Neighborworks America	860000	777.7	301.4	0.0	^{6, 10}

<u>Performance Measures</u>	<u>2014</u>	<u>2015</u>	<u>2016</u>
Number of households assisted with mortgage foreclosure counseling.	10,539	9,619	8,753
<p>Number of households assisted with mortgage foreclosure counseling. Assistance begins with a call to a toll-free hotline number that connects homeowners with a nonprofit counseling agency in their area. Homeowners are provided extensive one-on-one counseling to assess their individual situation and to arrive at a plan best suited for their situation. Some homebuyers are assisted with work-outs with their mortgage lenders whenever possible. Homeowners who determine that foreclosure is inevitable are assisted with suggestions for other housing alternatives when needed. Numbers are expected to go down as the foreclosure rate drops and funding for this service is reduced.</p>

Agency: Department of Insurance

Grant/Project and Description	CFDA	Grantor	AFIS ID	2014 Received	2015 Est. Rev.	2016 Est. Rev.	Footnote(s)
State Planning and Establishment Grants for the Affordable Care Act (ACA)'s Exchanges	93.525	Department of Health and Human Services	272101	286.5	156.2	0.0	1,2,6

To provide assistance for activities related to establishing a Health Insurance Exchange that facilitates the purchase of qualified health plans, provides for the establishment of a Small Business Health Options Program (SHOP Exchange), and meets the requirements set forth by the Secretary and the Affordable Care Act.

Refer to specific Exchange program funding opportunity announcement (FOA) for additional information on objectives.

<u>Performance Measures</u>	<u>2014</u>	<u>2015</u>	<u>2016</u>
Percentage of health insurance exchange major medical health insurance form and form/rate filings reviewed within 45 days of receipt.	0.0	73.7	75.0
Percentage of administratively complete qualified health plan ("QHP") applications that ADOI receives on or before 3/1/2013 that ADOI approves or disapproves by 6/30/2013.	Not applicable	Not applicable	Not applicable
Insurance companies that want to offer health insurance products through the health insurance exchange must file information concerning each product (the QHP) for review. An exchange does not exist unless QHPs are available to qualified individuals and qualified employers. DELETE MEASURE - NOT APPLICABLE. The measure was based on an assumption that Arizona would host a state-based health insurance exchange and that the Department of Insurance would be approving QHP applications.			
Number of stakeholder meetings conducted.	5	2	0

<u>Grant/Project and Description</u>	<u>CFDA</u>	<u>Grantor</u>	<u>AFIS ID</u>	<u>2014 Received</u>	<u>2015 Est. Rev.</u>	<u>2016 Est. Rev.</u>	<u>Footnote(s)</u>
State Court Improvement Program	93.586	Department of Health and Human Services	003437	679.7	212.0	212.0	6

The program provides three grant opportunities to State courts to improve court efficiency and the quality of legal representation; a basic grant for assessment work; a grant for data collection and analysis; and a grant to increase training of court personnel, including cross training with agency staff. The program provides State courts flexibility to design assessments which identify barriers to timely and effective decision-making, highlight practices which are not fully successful, examine areas they find to be in need of correction or added attention, and then implement reforms which address the State courts specific needs. State courts are required to collaborate with the State child welfare agency and Tribes in this work. The Child and Family Services Improvement and Innovation Act (P.L. 112-34) of 2011, reauthorized all three Court Improvement Program (CIP) grants through fiscal year (FY) 2016. The Act added provisions encouraging State courts to promote the use of concurrent planning and increases and improve engagement of the entire family in court processes relating to child welfare, family preservation, family reunification and adoption. The Act also allocated one million dollars to establish a Tribal Court Improvement Program.

<u>Performance Measures</u>	<u>2014</u>	<u>2015</u>	<u>2016</u>
Percent of Petitions in which a Permanent Plan was Initiated within 12 months of the initial date	92%	92%	92%
Goal is to reduce the time frame from removal to permanency.			
Pursuant to ARS 8-862(A)(3), the court is to hold this hearing within 12 months of the child's removal from the home. The court determines the most appropriate permanent plan at this hearing. Since some courts hold more than one type of hearing at the same calendared time (e.g.. Review and Permanency), tracking initiation date of the permanent plan is more reliable in determining whether the Permanency Hearing is being held within the 12 month window.

<u>Grant/Project and Description</u>	<u>CFDA</u>	<u>Grantor</u>	<u>AFIS ID</u>	<u>2014 Received</u>	<u>2015 Est. Rev.</u>	<u>2016 Est. Rev.</u>	<u>Footnote(s)</u>
NICS Act Record Improvement Program	16.813	Department of Justice	034242	0.0	362.7	0.0	2, 4, 6, 11

To improve the FBI's National Instant Criminal Background Check System (NICS) by providing assistance to states to improve the completeness, automation and transmittal to state and federal systems the records utilized by the NICS. Such records include criminal history records, records of felony convictions, warrants, records of protective orders, convictions for misdemeanor involving domestic violence and stalking, records of mental health adjudications, and others, which may disqualify an individual from possessing or receiving a firearm under federal law. Helping states to automate these records will also reduce delays for law-abiding gun purchasers.

The NICS Improvement Act amends the Brady Handgun Violence Prevention Act of 1993 ("the Brady Act") (Public Law 103-159), under which the Attorney General established NICS. The Brady Act requires Federal Firearms Licensees (FFLs) to contact the NICS before transferring a firearm to an unlicensed person for information on whether the proposed transferee is prohibited from receiving or possessing a firearm under state or federal law. The NICS Improvement Act was enacted in the wake of the April 2007 shooting tragedy at Virginia Tech. The Virginia Tech shooter was able to purchase firearms from an FFL because information about his prohibiting mental health history was not available to the NICS and the system was therefore unable to deny the transfer of the firearms used in the shootings.

The Act seeks to address the gap in information available to NICS about such prohibiting mental health adjudications and commitments and other prohibiting backgrounds. Filling these information gaps will better enable the system to operate as intended to keep guns out of the hands of persons prohibited by federal or state law from receiving or possessing firearms.

The Act authorized two grant programs to assist states in providing certain information to the NICS, and prescribes grant penalties for non-compliance with the Act's record completeness goals. Pursuant to the Act, there are certain conditions, described below, that a state must satisfy in advance of receiving grants under the Act. The NICS Improvement Act has provisions that require states to meet specified goals for completeness of the records submitted to the Attorney General on individuals prohibited by federal law from possessing firearms. The records covered include automated information needed by the NICS to identify felony convictions, felony indictments, fugitives from justice, drug arrests and convictions, prohibiting mental health adjudications and commitments, domestic violence protection orders, and misdemeanor crimes of domestic violence.

The Act provides for a number of incentives for states to meet the goals it sets for greater record completeness. First, the Act allows states to obtain a waiver, beginning in 2011, of the state matching requirement under the National Criminal

NICS Act Record Improvement Program	16.813	Department of Justice	034242	0.0	362.7	0.0	2, 4, 6, 11

History Improvement Program (NCHIP) grant program, if a state provides at least 90 percent of its records identifying persons in specified prohibited categories. Second, the Act authorizes grant programs described herein, which, pursuant to the Act, are being administered consistent with NCHIP, for state executive and judicial agencies to establish and upgrade information automation and identification technologies for timely submission of final criminal record dispositions and other information relevant to NICS checks. Finally, the Act provides for discretionary and mandatory Byrne Justice Assistance Grant (JAG) program grant penalties, beginning 3 years after enactment, for non-compliance with specified record completeness requirements within certain timeframes: after 3 years, 3 percent may be withheld in the case of less than 50 percent completeness; after 5 years, 4 percent may be withheld in the case of less than 70 percent completeness; and after 10 years, 5 percent shall be withheld in the case of less than 90 percent completeness (although the mandatory reduction can be waived if there is substantial evidence of the state making a reasonable effort to comply).

<u>Performance Measures</u>	<u>2014</u>	<u>2015</u>	<u>2016</u>
Feed to NICS of felony convictions		0	
Develop a feed to NICS of felony convictions that were rejected by ADRS.

Career and Technical Education -- Basic Grants to States	84.048	Department of Education	500002	22.6	25.5	23.3	1, 2, 6

To develop more fully the academic, career, and technical skills of secondary and postsecondary students who elect to enroll in career and technical education programs.

<u>Performance Measures</u>	<u>2014</u>	<u>2015</u>	<u>2016</u>
Number of Career and Technical Education half credits earned in the fiscal year.	N/A	410	425
Money will be spent on a literacy coach and supplies to assist teachers in the integration of vocational programs with core subjects. Evaluation - mid year and final narrative reports on the number of vocational credits earned.			

Crime Victim Assistance	16.575	Department of Justice	500004	43.7	37.9	40.4	1, 6
--------------------------------	---------------	------------------------------	--------	------	------	------	------

Enacted in 1984, the Victims of Crime Act (VOCA) is the central source of federal financial support for direct services to victim of crime. VOCA is administered at the federal level through the U.S. Department of Justice, Office for Victims of Crime which annually awards a grant to each state, the District of Columbia and U.S. Territories to support victim assistance services for victims and survivors of domestic violence, sexual assault, child abuse, drunk driving, homicide, and other crimes. Each state has a designated VOCA assistance agency to administer VOCA grants. Those state agencies in turn, subgrant to organizations that provide direct services to victims of crime. While minimal federal requirements must be met, each state is given great discretion in awarding specific subgrants.

<u>Performance Measures</u>	<u>2014</u>	<u>2015</u>	<u>2016</u>
Percent of victims who report satisfaction with restorative services received from the Department.	100%	100%	100%
Assist victims to understand and participate in the restorative justice process.

Environmental Quality and Protection Resource Management	15.236	Department of the Interior	299000	154.1	0.0	0.0	2, 6, 8

To provide financial assistance, through grants or cooperative agreements as a partnership to reduce or remove pollutants in the environment for the protection of human health, water and air resources; to restore damaged or degraded watersheds; and to respond to changing climate. Objectives are implemented through core programs such as: the Abandoned Mine Land program which addresses physical safety hazards and water quality through restoration of abandoned hardrock mines; the Hazard Management and Resource Restoration, also known as Hazmat program, which remediates sites impacted by hazardous materials and illegal activities, coordinates emergency response actions, and ensures the Bureau of Land Management facilities and operations comply with applicable environmental regulations; and the Soil, Water and Air (SWA) program which develops guidance for land use plans and plan implementation. The Soil, Water, and Air program also assures that fundamental resources are inventoried and assessed, managed, and monitored to support appropriate management response to public land conditions. For Recovery and Reinvestment Act funded projects additional objectives include: To preserve and create jobs and promote economic recovery; to assist those most impacted by the recession; to provide investments needed to increase economic efficiency by spurring technological advances in science and health; to invest in transportation, environmental protection, and other infrastructure that will provide long-term economic benefits; and to stabilize State and local government budgets, in order to minimize and avoid reductions in essential services and counterproductive state and local tax increases.

<u>Performance Measures</u>	<u>2014</u>	<u>2015</u>	<u>2016</u>
Conduct a review of the BLM administered real estate in the State of Arizona to locate the mitigate abandoned mines features.	309	800	500
1. Document the location of abandoned mines on and adjacent to BLM administered lands;			
2. Document the features and conduct a hazard analysis;			
3. Mitigate unsecured abandoned mine features;			
4. Determine mining claimants and issue notices of violation of unsecured features on abandoned BLM land.

Federal-aid Highway Program: To assist State transportation agencies in the planning and development of an integrated, interconnected transportation system important to interstate commerce and travel by constructing and rehabilitating the National Highway System (NHS), including the Eisenhower Interstate System; for transportation improvements to many other public roads; to provide aid for the repair of Federal-aid highways following disasters; to foster safe highway design; to replace or rehabilitate deficient or obsolete bridges; and to provide for other special purposes. This program also provides for the improvement of roads in Puerto Rico, Guam, the U.S. Virgin Islands, American Samoa, and the Commonwealth of the Northern Mariana Islands. The Federal Lands Transportation Program (FLTP) provides assistance to the Federal Land Management Agencies (FLMAs) for Federally-owned roads and trails. It provides transportation engineering services and funding for planning, design, construction, and rehabilitation of the highways and bridges providing access to and on federally owned lands. The Federal Lands Highway organization also provides training, technology, deployment, engineering services, and products to other customers.

AmeriCorps	94.006	Corporation for National and Community Service	491304	52.7	0.0	0.0	1, 2, 6, 8

For more than fifteen years, the Corporation for National and Community Service—through its Senior Corps, AmeriCorps, and Learn and Serve America programs—has mobilized a new generation of engaged citizens. This year, more than 1.8 million individuals of all ages and backgrounds will serve through these programs. They will help thousands of national and community non-profit organizations, faith-based groups, schools, and local agencies meet local needs in education, the environment, health, veterans, economic opportunity, and other critical areas.

AmeriCorps grants are awarded to eligible organizations that identify an unmet need in their community that will be addressed by AmeriCorps members that the organization recruits, trains, and manages. An AmeriCorps member is an individual who is enrolled in an approved national service position and engages in community service. Members may receive a living allowance and other benefits while serving. Upon successful completion of their service, members receive an education award from the National Service Trust.

AmeriCorps grant funding is distributed to Governor-appointed State Commissions and multi-state grantees. State Commissions award subgrants to organizations in their states, and the multi-state grantees work through operating sites in more than one state. These organizations recruit AmeriCorps members to respond to local needs.

Additional funding opportunities are available to existing AmeriCorps Programs under the American Recovery and Reinvestment Act (Recovery Act) funds to utilize service and volunteerism to stimulate the economy and meet the needs of those negatively impacted by the current economic crisis. Through AmeriCorps Recovery grants, individuals currently unemployed will gain work experience and valuable skills, and nonprofit organizations and communities negatively affected by the economic crisis will gain critical human resources. Eligible activities include providing job counseling and skills training to the unemployed, constructing or rehabilitating housing, assisting nonprofits facing increased need and decreased resources, recruiting volunteers, making housing resource referrals for and providing legal services to those experiencing eviction or foreclosure, connecting children and families to health care, and allowing after-school centers that have lost funding to stay open.

Performance Partnership Grants	66.605	Environmental Protection Agency	300004	174.0	113.5	113.5	2

Improving EPA's partnership with the States and Tribes is critical to accelerating environmental outcomes. Performance Partnership Grants (PPGs) are the cornerstone of the National Environmental Performance Partnership System (NEPPS) -- EPA's strategy to strengthen partnerships and build a results-based management system. PPGs are innovative grant delivery tools that allow States and Tribes to combine up to 18 eligible State and Tribal Assistance Grants (STAG) grants into a single grant with a single budget. PPGs can reduce administrative transaction costs, provide the flexibility to direct resources toward the highest priority environmental problems, and support cross-media approaches and initiatives. EPA's overarching goal is to optimize the leveraging power of PPGs to focus strategically on the joint priorities of EPA, States and Tribes. PPGs do not include any funding in addition to the state and tribal assistance grants provided under other statutory authorities.

Funding Priority - Fiscal Year 2013: Many state environmental agencies are experiencing severe budget cuts and will be challenged to maintain core programs. In this climate, EPA's regional offices will give priority to flexibility and opportunities to work collaboratively with States and Tribes. The Agency will continue to focus on our ongoing goals for the PPG program, which are: (1) strengthen partnerships between EPA, the States, Tribes, and interstate agencies through joint planning and priority setting to deploy resources more effectively; (2) provide States, Tribes, and interstate agencies with the flexibility to direct resources where they are needed most to address environmental and public health priorities; (3) link program activities more effectively with environmental and public health goals and environmental outcomes; (4) foster implementation of innovative approaches such as pollution prevention, ecosystem management, and community-based environmental protection strategies; and (5) provide savings by streamlining administrative requirements.

<u>Grant/Project and Description</u>	<u>CFDA</u>	<u>Grantor</u>	<u>AFIS ID</u>	<u>2014 Received</u>	<u>2015 Est. Rev.</u>	<u>2016 Est. Rev.</u>	<u>Footnote(s)</u>
Homeland Security Grant Program	97.067	Department of Homeland Security	610162	284.8	0.0	0.0	2, 6, 8

FY 2012 HSGP and THSGP provide grant funding to assist state and local governments in obtaining the resources required to support the National Preparedness Goal's (NPG's) associated mission areas and core capabilities. FY 2012 THSGP provides funding directly to eligible tribes to help strengthen the nation against risks associated with potential terrorist attacks. The FY 2012 HSGP is comprised of three interconnected grant programs:

- State Homeland Security Program (SHSP): SHSP supports the implementation of State Homeland Security Strategies to address the identified planning, organization, equipment, training, and exercise needs to prevent, protect against, mitigate, respond to, and recover from acts of terrorism and other catastrophic events.
- Urban Areas Security Initiative (UASI): The UASI program addresses the unique planning, organization, equipment, training, and exercise needs of high-threat, high-density Urban Areas, and assists them in building an enhanced and sustainable capacity to prevent, protect against, mitigate, respond to, and recover from acts of terrorism.
- Operation Stonegarden (OPSG): OPSG supports enhanced cooperation and coordination among local, tribal, territorial, State, and Federal law enforcement agencies in a joint mission to secure the United States' borders along routes of ingress from international borders to include travel corridors in States bordering Mexico and Canada, as well as States and territories with international water borders.

All three programs are founded on risk-driven, capabilities-based strategic plans. These strategic plans outline capability requirements and inform how available funding may be applied to manage risk. For these plans to be effective, government officials and elected leaders, working with the whole community, must consider how to sustain current capability levels and address potential shortfalls to prevent, protect, mitigate, respond to, and recover from disasters.

The FY 2013 HSGP plays an important role in the implementation of the National Preparedness System (NPS) by supporting the building, sustainment, and delivery of core capabilities essential to achieving the National Preparedness Goal (NPG) of a secure and resilient Nation. Delivering core capabilities requires the combined effort of the whole community, rather than the exclusive effort of any single organization or level of government. The FY 2013 HSGP's allowable costs support efforts to build and sustain core capabilities across the Prevention, Protection, Mitigation, Response, and Recovery mission areas by setting the following priorities and objectives:

Priority One: Implementation of the NPS and a Whole Community Approach to Homeland Security and Emergency Management

**State of Arizona

Agency: Department of Public Safety

<u>Grant/Project and Description</u>	<u>CFDA</u>	<u>Grantor</u>	<u>AFIS ID</u>	<u>2014 Received</u>	<u>2015 Est. Rev.</u>	<u>2016 Est. Rev.</u>	<u>Footnote(s)</u>
Homeland Security Grant Program	97.067	Department of Homeland Security	610162	284.8	0.0	0.0	2, 6, 8

- Objective One: Completion of the THIRA process in alignment with National Preparedness System guidance to identify the resources required to deliver core capabilities.
- Objective Two: Conduct risk driven, capabilities-based planning through whole community councils and working groups.
- Objective Three: Organization – Typing of equipment, and credentialing and training of personnel.
- Objective Four: Sustaining Capabilities.

Priority Two: Building and Sustaining Law Enforcement Terrorism Prevention Capabilities

- Objective One: Nationwide Suspicious Activity Reporting Initiative (NSI)

Priority Three: Maturation and Enhancement of State and Major Urban Area Fusion Centers

- Objective One: Baseline Capabilities.
- Objective Two: Analytic Capabilities.

The Department of Homeland Security Appropriations Act, 2013 (Public Law 113-6) authorized additional funding allocated at the discretion of the Secretary of the Department Homeland Security, to support appropriated programs in FY 2013. DHS has augmented the SHSP and UASI grant programs in FY 2013 by allocating an additional \$163.4 million to support the following priority areas:

Priority Four: Innovation and Sustained Support for the National Campaign for Preparedness

- Objective One: Foster individual and community preparedness and resilience by identifying needs; mobilizing partners; and creating innovative and effective solutions that can be grown, sustained, and replicated.

Priority Five: Improve Immediate Emergency Victim Care at Mass Casualty Events

- Objective One: Improve emergency care to victims of mass casualty events, including mass shootings.
- Objective Two: Improve community first aid training.

Minimum funding amounts are not prescribed by the Department for these priorities; however grantees are expected to support state, local, and regional efforts in achieving the desired outcomes of one or more of these priorities.

- State Homeland Security Program (SHSP): SHSP supports the implementation of State Homeland Security Strategies to address the identified planning, organization, equipment, training, and exercise needs to prevent, protect against, mitigate, respond to, and recover from acts of terrorism and other catastrophic events.
- Urban Areas Security Initiative (UASI): The UASI program addresses the unique planning, organization, equipment, training, and exercise needs of high-threat, high-density Urban Areas, and assists them in building an enhanced and sustainable capacity to prevent, protect against, mitigate, respond to, and recover from acts of terrorism.
- Operation Stonegarden (OPSG): OPSG supports enhanced cooperation and coordination among local, tribal, territorial, State, and Federal law enforcement agencies in a joint mission to secure the United States' borders along routes of ingress from international borders to include travel corridors in States bordering Mexico and Canada, as well as States and territories with international water borders.

All three programs are founded on risk-driven, capabilities-based strategic plans. These strategic plans outline capability requirements and inform how available funding may be applied to manage risk. For these plans to be effective, government officials and elected leaders, working with the whole community, must consider how to sustain current capability levels and address potential shortfalls to prevent, protect, mitigate, respond to, and recover from disasters.

The FY 2013 HSGP plays an important role in the implementation of the National Preparedness System (NPS) by supporting the building, sustainment, and delivery of core capabilities essential to achieving the National Preparedness Goal (NPG) of a secure and resilient Nation. Delivering core capabilities requires the combined effort of the whole community, rather than the exclusive effort of any single organization or level of government. The FY 2013 HSGP's allowable costs support efforts to build and sustain core capabilities across the Prevention, Protection, Mitigation, Response, and Recovery mission areas by setting the following priorities and objectives:

Priority One: Implementation of the NPS and a Whole Community Approach to Homeland Security and Emergency Management

Homeland Security Grant Program	97.067	Department of Homeland Security	610208	0.0	25.7	0.0	2, 3, 6

FY 2012 HSGP and THSGP provide grant funding to assist state and local governments in obtaining the resources required to support the National Preparedness Goal's (NPG's) associated mission areas and core capabilities. FY 2012 THSGP provides funding directly to eligible tribes to help strengthen the nation against risks associated with potential terrorist attacks. The FY 2012 HSGP is comprised of three interconnected grant programs:

- State Homeland Security Program (SHSP): SHSP supports the implementation of State Homeland Security Strategies to address the identified planning, organization, equipment, training, and exercise needs to prevent, protect against, mitigate, respond to, and recover from acts of terrorism and other catastrophic events.
- Urban Areas Security Initiative (UASI): The UASI program addresses the unique planning, organization, equipment, training, and exercise needs of high-threat, high-density Urban Areas, and assists them in building an enhanced and sustainable capacity to prevent, protect against, mitigate, respond to, and recover from acts of terrorism.
- Operation Stonegarden (OPSG): OPSG supports enhanced cooperation and coordination among local, tribal, territorial, State, and Federal law enforcement agencies in a joint mission to secure the United States' borders along routes of ingress from international borders to include travel corridors in States bordering Mexico and Canada, as well as States and territories with international water borders.

All three programs are founded on risk-driven, capabilities-based strategic plans. These strategic plans outline capability requirements and inform how available funding may be applied to manage risk. For these plans to be effective, government officials and elected leaders, working with the whole community, must consider how to sustain current capability levels and address potential shortfalls to prevent, protect, mitigate, respond to, and recover from disasters.

The FY 2013 HSGP plays an important role in the implementation of the National Preparedness System (NPS) by supporting the building, sustainment, and delivery of core capabilities essential to achieving the National Preparedness Goal (NPG) of a secure and resilient Nation. Delivering core capabilities requires the combined effort of the whole community, rather than the exclusive effort of any single organization or level of government. The FY 2013 HSGP's allowable costs support efforts to build and sustain core capabilities across the Prevention, Protection, Mitigation, Response, and Recovery mission areas by setting the following priorities and objectives:

Priority One: Implementation of the NPS and a Whole Community Approach to Homeland Security and Emergency Management

**State of Arizona

Agency: Department of Public Safety

<u>Grant/Project and Description</u>	<u>CFDA</u>	<u>Grantor</u>	<u>AFIS ID</u>	<u>2014 Received</u>	<u>2015 Est. Rev.</u>	<u>2016 Est. Rev.</u>	<u>Footnote(s)</u>
Homeland Security Grant Program	97.067	Department of Homeland Security	610208	0.0	25.7	0.0	2, 3, 6

- Objective One: Completion of the THIRA process in alignment with National Preparedness System guidance to identify the resources required to deliver core capabilities.
- Objective Two: Conduct risk driven, capabilities-based planning through whole community councils and working groups.
- Objective Three: Organization – Typing of equipment, and credentialing and training of personnel.
- Objective Four: Sustaining Capabilities.

Priority Two: Building and Sustaining Law Enforcement Terrorism Prevention Capabilities

- Objective One: Nationwide Suspicious Activity Reporting Initiative (NSI)

Priority Three: Maturation and Enhancement of State and Major Urban Area Fusion Centers

- Objective One: Baseline Capabilities.
- Objective Two: Analytic Capabilities.

The Department of Homeland Security Appropriations Act, 2013 (Public Law 113-6) authorized additional funding allocated at the discretion of the Secretary of the Department Homeland Security, to support appropriated programs in FY 2013. DHS has augmented the SHSP and UASI grant programs in FY 2013 by allocating an additional \$163.4 million to support the following priority areas:

Priority Four: Innovation and Sustained Support for the National Campaign for Preparedness

- Objective One: Foster individual and community preparedness and resilience by identifying needs; mobilizing partners; and creating innovative and effective solutions that can be grown, sustained, and replicated.

Priority Five: Improve Immediate Emergency Victim Care at Mass Casualty Events

- Objective One: Improve emergency care to victims of mass casualty events, including mass shootings.
- Objective Two: Improve community first aid training.

Minimum funding amounts are not prescribed by the Department for these priorities; however grantees are expected to support state, local, and regional efforts in achieving the desired outcomes of one or more of these priorities.

FY 2012 HSGP and THSGP provide grant funding to assist state and local governments in obtaining the resources required to support the National Preparedness Goal's (NPG's) associated mission areas and core capabilities. FY 2012 THSGP provides funding directly to eligible tribes to help strengthen the nation against risks associated with potential terrorist attacks. The FY 2012 HSGP is comprised of three interconnected grant programs:

- State Homeland Security Program (SHSP): SHSP supports the implementation of State Homeland Security Strategies to address the identified planning, organization, equipment, training, and exercise needs to prevent, protect against, mitigate, respond to, and recover from acts of terrorism and other catastrophic events.
- Urban Areas Security Initiative (UASI): The UASI program addresses the unique planning, organization, equipment, training, and exercise needs of high-threat, high-density Urban Areas, and assists them in building an enhanced and sustainable capacity to prevent, protect against, mitigate, respond to, and recover from acts of terrorism.
- Operation Stonegarden (OPSG): OPSG supports enhanced cooperation and coordination among local, tribal, territorial, State, and Federal law enforcement agencies in a joint mission to secure the United States' borders along routes of ingress from international borders to include travel corridors in States bordering Mexico and Canada, as well as States and territories with international water borders.

All three programs are founded on risk-driven, capabilities-based strategic plans. These strategic plans outline capability requirements and inform how available funding may be applied to manage risk. For these plans to be effective, government officials and elected leaders, working with the whole community, must consider how to sustain current capability levels and address potential shortfalls to prevent, protect, mitigate, respond to, and recover from disasters.

The FY 2013 HSGP plays an important role in the implementation of the National Preparedness System (NPS) by supporting the building, sustainment, and delivery of core capabilities essential to achieving the National Preparedness Goal (NPG) of a secure and resilient Nation. Delivering core capabilities requires the combined effort of the whole community, rather than the exclusive effort of any single organization or level of government. The FY 2013 HSGP's allowable costs support efforts to build and sustain core capabilities across the Prevention, Protection, Mitigation, Response, and Recovery mission areas by setting the following priorities and objectives:

Priority One: Implementation of the NPS and a Whole Community Approach to Homeland Security and Emergency Management

**State of Arizona

Homeland Security Grant Program	97.067	Department of Homeland Security	611902	20.1	9.9	0.0	2, 6

- Objective One: Completion of the THIRA process in alignment with National Preparedness System guidance to identify the resources required to deliver core capabilities.
- Objective Two: Conduct risk driven, capabilities-based planning through whole community councils and working groups.
- Objective Three: Organization – Typing of equipment, and credentialing and training of personnel.
- Objective Four: Sustaining Capabilities.

Priority Two: Building and Sustaining Law Enforcement Terrorism Prevention Capabilities

- Objective One: Nationwide Suspicious Activity Reporting Initiative (NSI)

Priority Three: Maturation and Enhancement of State and Major Urban Area Fusion Centers

- Objective One: Baseline Capabilities.
- Objective Two: Analytic Capabilities.

The Department of Homeland Security Appropriations Act, 2013 (Public Law 113-6) authorized additional funding allocated at the discretion of the Secretary of the Department Homeland Security, to support appropriated programs in FY 2013. DHS has augmented the SHSP and UASI grant programs in FY 2013 by allocating an additional \$163.4 million to support the following priority areas:

Priority Four: Innovation and Sustained Support for the National Campaign for Preparedness

- Objective One: Foster individual and community preparedness and resilience by identifying needs; mobilizing partners; and creating innovative and effective solutions that can be grown, sustained, and replicated.

Priority Five: Improve Immediate Emergency Victim Care at Mass Casualty Events

- Objective One: Improve emergency care to victims of mass casualty events, including mass shootings.
- Objective Two: Improve community first aid training.

Minimum funding amounts are not prescribed by the Department for these priorities; however grantees are expected to support state, local, and regional efforts in achieving the desired outcomes of one or more of these priorities.

Homeland Security Grant Program	97.067	Department of Homeland Security	611908	0.0	193.8	230.0	2, 3, 6

- Objective One: Completion of the THIRA process in alignment with National Preparedness System guidance to identify the resources required to deliver core capabilities.
- Objective Two: Conduct risk driven, capabilities-based planning through whole community councils and working groups.
- Objective Three: Organization – Typing of equipment, and credentialing and training of personnel.
- Objective Four: Sustaining Capabilities.

Priority Two: Building and Sustaining Law Enforcement Terrorism Prevention Capabilities

- Objective One: Nationwide Suspicious Activity Reporting Initiative (NSI)

Priority Three: Maturation and Enhancement of State and Major Urban Area Fusion Centers

- Objective One: Baseline Capabilities.
- Objective Two: Analytic Capabilities.

The Department of Homeland Security Appropriations Act, 2013 (Public Law 113-6) authorized additional funding allocated at the discretion of the Secretary of the Department Homeland Security, to support appropriated programs in FY 2013. DHS has augmented the SHSP and UASI grant programs in FY 2013 by allocating an additional \$163.4 million to support the following priority areas:

Priority Four: Innovation and Sustained Support for the National Campaign for Preparedness

- Objective One: Foster individual and community preparedness and resilience by identifying needs; mobilizing partners; and creating innovative and effective solutions that can be grown, sustained, and replicated.

Priority Five: Improve Immediate Emergency Victim Care at Mass Casualty Events

- Objective One: Improve emergency care to victims of mass casualty events, including mass shootings.
- Objective Two: Improve community first aid training.

Minimum funding amounts are not prescribed by the Department for these priorities; however grantees are expected to support state, local, and regional efforts in achieving the desired outcomes of one or more of these priorities.

Crime Victim Assistance	16.575	Department of Justice	621125	18.3	0.0	0.0	2, 6, 8

Enacted in 1984, the Victims of Crime Act (VOCA) is the central source of federal financial support for direct services to victim of crime. VOCA is administered at the federal level through the U.S. Department of Justice, Office for Victims of Crime which annually awards a grant to each state, the District of Columbia and U.S. Territories to support victim assistance services for victims and survivors of domestic violence, sexual assault, child abuse, drunk driving, homicide, and other crimes. Each state has a designated VOCA assistance agency to administer VOCA grants. Those state agencies in turn, subgrant to organizations that provide direct services to victims of crime. While minimal federal requirements must be met, each state is given great discretion in awarding specific subgrants.

<u>Performance Measures</u>	<u>2014</u>	<u>2015</u>	<u>2016</u>

Missing Children's Assistance	16.543	Department of Justice	692483	20.0	0.0	0.0	2, 6, 8

To coordinate Federal missing and exploited children activities and to support research, training, technical assistance, and demonstration programs to enhance the overall response to missing children and their families. Establish and maintain a national resource center and clearinghouse dedicated to missing and exploited children issues that: (1) provides a toll-free hotline where citizens can report investigative leads and parents and other interested individuals can receive information concerning missing children; (2) provides technical assistance to parents, law enforcement, and other professionals working on missing and exploited children cases; (3) promotes information sharing and provides technical assistance by networking with regional nonprofit organizations, State missing children clearinghouses, and law enforcement agencies; (4) develops publications that contain practical, timely information; and (5) provides information regarding programs offering free or low-cost transportation services that assist in reuniting children with their families. On a periodic basis, as funding is designated by Congress for this purpose, conduct national incidence studies to determine the type and extent of missing children in America. Support law enforcement demonstration programs (e.g., the Internet Crimes Against Children Task Force Program) to enhance the investigative response to missing and exploited children cases. Support research to broaden understanding of a wide range of missing and exploited children issues (e.g., abduction homicide investigation solvability factors), to inform training and technical assistance efforts and to identify promising practices and programs for replication. Develop training programs for law enforcement, child protective services, medical personnel, and prosecutors to enhance coordination and effectiveness of missing and exploited children investigations and to enhance the overall system response. Identify service gaps and develop programs to meet specialized needs of parents or guardians of children who are reported missing.

Homeland Security Grant Program	97.067	Department of Homeland Security	692737	114.9	0.0	0.0	2, 6

FY 2012 HSGP and THSGP provide grant funding to assist state and local governments in obtaining the resources required to support the National Preparedness Goal's (NPG's) associated mission areas and core capabilities. FY 2012 THSGP provides funding directly to eligible tribes to help strengthen the nation against risks associated with potential terrorist attacks. The FY 2012 HSGP is comprised of three interconnected grant programs:

- State Homeland Security Program (SHSP): SHSP supports the implementation of State Homeland Security Strategies to address the identified planning, organization, equipment, training, and exercise needs to prevent, protect against, mitigate, respond to, and recover from acts of terrorism and other catastrophic events.
- Urban Areas Security Initiative (UASI): The UASI program addresses the unique planning, organization, equipment, training, and exercise needs of high-threat, high-density Urban Areas, and assists them in building an enhanced and sustainable capacity to prevent, protect against, mitigate, respond to, and recover from acts of terrorism.
- Operation Stonegarden (OPSG): OPSG supports enhanced cooperation and coordination among local, tribal, territorial, State, and Federal law enforcement agencies in a joint mission to secure the United States' borders along routes of ingress from international borders to include travel corridors in States bordering Mexico and Canada, as well as States and territories with international water borders.

All three programs are founded on risk-driven, capabilities-based strategic plans. These strategic plans outline capability requirements and inform how available funding may be applied to manage risk. For these plans to be effective, government officials and elected leaders, working with the whole community, must consider how to sustain current capability levels and address potential shortfalls to prevent, protect, mitigate, respond to, and recover from disasters.

The FY 2013 HSGP plays an important role in the implementation of the National Preparedness System (NPS) by supporting the building, sustainment, and delivery of core capabilities essential to achieving the National Preparedness Goal (NPG) of a secure and resilient Nation. Delivering core capabilities requires the combined effort of the whole community, rather than the exclusive effort of any single organization or level of government. The FY 2013 HSGP's allowable costs support efforts to build and sustain core capabilities across the Prevention, Protection, Mitigation, Response, and Recovery mission areas by setting the following priorities and objectives:

Priority One: Implementation of the NPS and a Whole Community Approach to Homeland Security and Emergency Management

<u>Grant/Project and Description</u>	<u>CFDA</u>	<u>Grantor</u>	<u>AFIS ID</u>	<u>2014 Received</u>	<u>2015 Est. Rev.</u>	<u>2016 Est. Rev.</u>	<u>Footnote(s)</u>
Homeland Security Grant Program	97.067	Department of Homeland Security	692737	114.9	0.0	0.0	2, 6

- Objective One: Completion of the THIRA process in alignment with National Preparedness System guidance to identify the resources required to deliver core capabilities.
- Objective Two: Conduct risk driven, capabilities-based planning through whole community councils and working groups.
- Objective Three: Organization – Typing of equipment, and credentialing and training of personnel.
- Objective Four: Sustaining Capabilities.

Priority Two: Building and Sustaining Law Enforcement Terrorism Prevention Capabilities

- Objective One: Nationwide Suspicious Activity Reporting Initiative (NSI)

Priority Three: Maturation and Enhancement of State and Major Urban Area Fusion Centers

- Objective One: Baseline Capabilities.
- Objective Two: Analytic Capabilities.

The Department of Homeland Security Appropriations Act, 2013 (Public Law 113-6) authorized additional funding allocated at the discretion of the Secretary of the Department Homeland Security, to support appropriated programs in FY 2013. DHS has augmented the SHSP and UASI grant programs in FY 2013 by allocating an additional \$163.4 million to support the following priority areas:

Priority Four: Innovation and Sustained Support for the National Campaign for Preparedness

- Objective One: Foster individual and community preparedness and resilience by identifying needs; mobilizing partners; and creating innovative and effective solutions that can be grown, sustained, and replicated.

Priority Five: Improve Immediate Emergency Victim Care at Mass Casualty Events

- Objective One: Improve emergency care to victims of mass casualty events, including mass shootings.
- Objective Two: Improve community first aid training.

Minimum funding amounts are not prescribed by the Department for these priorities; however grantees are expected to support state, local, and regional efforts in achieving the desired outcomes of one or more of these priorities.

The Department of Homeland Security Appropriations Act, 2013 (Public Law 113-6) authorized additional funding allocated at the discretion of the Secretary of the Department Homeland Security, to support appropriated programs in FY 2013. DHS has augmented the SHSP and UASI grant programs in FY 2013 by allocating an additional \$163.4 million to support the following priority areas:

Priority Four: Innovation and Sustained Support for the National Campaign for Preparedness

- Objective One: Foster individual and community preparedness and resilience by identifying needs; mobilizing partners; and creating innovative and effective solutions that can be grown, sustained, and replicated.

Priority Five: Improve Immediate Emergency Victim Care at Mass Casualty Events

- Objective One: Improve emergency care to victims of mass casualty events, including mass shootings.
- Objective Two: Improve community first aid training.

Minimum funding amounts are not prescribed by the Department for these priorities; however grantees are expected to support state, local, and regional efforts in achieving the desired outcomes of one or more of these priorities.

Homeland Security Grant Program	97.067	Department of Homeland Security	692890	290.5	0.0	0.0	2, 6, 8

FY 2012 HSGP and THSGP provide grant funding to assist state and local governments in obtaining the resources required to support the National Preparedness Goal's (NPG's) associated mission areas and core capabilities. FY 2012 THSGP provides funding directly to eligible tribes to help strengthen the nation against risks associated with potential terrorist attacks. The FY 2012 HSGP is comprised of three interconnected grant programs:

- State Homeland Security Program (SHSP): SHSP supports the implementation of State Homeland Security Strategies to address the identified planning, organization, equipment, training, and exercise needs to prevent, protect against, mitigate, respond to, and recover from acts of terrorism and other catastrophic events.
- Urban Areas Security Initiative (UASI): The UASI program addresses the unique planning, organization, equipment, training, and exercise needs of high-threat, high-density Urban Areas, and assists them in building an enhanced and sustainable capacity to prevent, protect against, mitigate, respond to, and recover from acts of terrorism.
- Operation Stonegarden (OPSG): OPSG supports enhanced cooperation and coordination among local, tribal, territorial, State, and Federal law enforcement agencies in a joint mission to secure the United States' borders along routes of ingress from international borders to include travel corridors in States bordering Mexico and Canada, as well as States and territories with international water borders.

All three programs are founded on risk-driven, capabilities-based strategic plans. These strategic plans outline capability requirements and inform how available funding may be applied to manage risk. For these plans to be effective, government officials and elected leaders, working with the whole community, must consider how to sustain current capability levels and address potential shortfalls to prevent, protect, mitigate, respond to, and recover from disasters.

The FY 2013 HSGP plays an important role in the implementation of the National Preparedness System (NPS) by supporting the building, sustainment, and delivery of core capabilities essential to achieving the National Preparedness Goal (NPG) of a secure and resilient Nation. Delivering core capabilities requires the combined effort of the whole community, rather than the exclusive effort of any single organization or level of government. The FY 2013 HSGP's allowable costs support efforts to build and sustain core capabilities across the Prevention, Protection, Mitigation, Response, and Recovery mission areas by setting the following priorities and objectives:

Priority One: Implementation of the NPS and a Whole Community Approach to Homeland Security and Emergency Management

All three programs are founded on risk-driven, capabilities-based strategic plans. These strategic plans outline capability requirements and inform how available funding may be applied to manage risk. For these plans to be effective, government officials and elected leaders, working with the whole community, must consider how to sustain current capability levels and address potential shortfalls to prevent, protect, mitigate, respond to, and recover from disasters.

The FY 2013 HSGP plays an important role in the implementation of the National Preparedness System (NPS) by supporting the building, sustainment, and delivery of core capabilities essential to achieving the National Preparedness Goal (NPG) of a secure and resilient Nation. Delivering core capabilities requires the combined effort of the whole community, rather than the exclusive effort of any single organization or level of government. The FY 2013 HSGP's allowable costs support efforts to build and sustain core capabilities across the Prevention, Protection, Mitigation, Response, and Recovery mission areas by setting the following priorities and objectives:

Priority One: Implementation of the NPS and a Whole Community Approach to Homeland Security and Emergency Management

<u>Grant/Project and Description</u>	<u>CFDA</u>	<u>Grantor</u>	<u>AFIS ID</u>	<u>2014 Received</u>	<u>2015 Est. Rev.</u>	<u>2016 Est. Rev.</u>	<u>Footnote(s)</u>
Homeland Security Grant Program	97.067	Department of Homeland Security	692895	0.0	65.5	0.0	2, 3, 6

- Objective One: Completion of the THIRA process in alignment with National Preparedness System guidance to identify the resources required to deliver core capabilities.
- Objective Two: Conduct risk driven, capabilities-based planning through whole community councils and working groups.
- Objective Three: Organization – Typing of equipment, and credentialing and training of personnel.
- Objective Four: Sustaining Capabilities.

Priority Two: Building and Sustaining Law Enforcement Terrorism Prevention Capabilities

- Objective One: Nationwide Suspicious Activity Reporting Initiative (NSI)

Priority Three: Maturation and Enhancement of State and Major Urban Area Fusion Centers

- Objective One: Baseline Capabilities.
- Objective Two: Analytic Capabilities.

The Department of Homeland Security Appropriations Act, 2013 (Public Law 113-6) authorized additional funding allocated at the discretion of the Secretary of the Department Homeland Security, to support appropriated programs in FY 2013. DHS has augmented the SHSP and UASI grant programs in FY 2013 by allocating an additional \$163.4 million to support the following priority areas:

Priority Four: Innovation and Sustained Support for the National Campaign for Preparedness

- Objective One: Foster individual and community preparedness and resilience by identifying needs; mobilizing partners; and creating innovative and effective solutions that can be grown, sustained, and replicated.

Priority Five: Improve Immediate Emergency Victim Care at Mass Casualty Events

- Objective One: Improve emergency care to victims of mass casualty events, including mass shootings.
- Objective Two: Improve community first aid training.

Minimum funding amounts are not prescribed by the Department for these priorities; however grantees are expected to support state, local, and regional efforts in achieving the desired outcomes of one or more of these priorities.

Homeland Security Grant Program	97.067	Department of Homeland Security	692896	0.0	51.9	0.0	2, 3, 6

FY 2012 HSGP and THSGP provide grant funding to assist state and local governments in obtaining the resources required to support the National Preparedness Goal's (NPG's) associated mission areas and core capabilities. FY 2012 THSGP provides funding directly to eligible tribes to help strengthen the nation against risks associated with potential terrorist attacks. The FY 2012 HSGP is comprised of three interconnected grant programs:

- State Homeland Security Program (SHSP): SHSP supports the implementation of State Homeland Security Strategies to address the identified planning, organization, equipment, training, and exercise needs to prevent, protect against, mitigate, respond to, and recover from acts of terrorism and other catastrophic events.
- Urban Areas Security Initiative (UASI): The UASI program addresses the unique planning, organization, equipment, training, and exercise needs of high-threat, high-density Urban Areas, and assists them in building an enhanced and sustainable capacity to prevent, protect against, mitigate, respond to, and recover from acts of terrorism.
- Operation Stonegarden (OPSG): OPSG supports enhanced cooperation and coordination among local, tribal, territorial, State, and Federal law enforcement agencies in a joint mission to secure the United States' borders along routes of ingress from international borders to include travel corridors in States bordering Mexico and Canada, as well as States and territories with international water borders.

All three programs are founded on risk-driven, capabilities-based strategic plans. These strategic plans outline capability requirements and inform how available funding may be applied to manage risk. For these plans to be effective, government officials and elected leaders, working with the whole community, must consider how to sustain current capability levels and address potential shortfalls to prevent, protect, mitigate, respond to, and recover from disasters.

Highway Planning and Construction	20.205	Department of Transportation	693001	18.8	25.0	25.0	2, 6
--	---------------	---	--------	------	------	------	------

Federal-aid Highway Program: To assist State transportation agencies in the planning and development of an integrated, interconnected transportation system important to interstate commerce and travel by constructing and rehabilitating the National Highway System (NHS), including the Eisenhower Interstate System; for transportation improvements to many other public roads; to provide aid for the repair of Federal-aid highways following disasters; to foster safe highway design; to replace or rehabilitate deficient or obsolete bridges; and to provide for other special purposes. This program also provides for the improvement of roads in Puerto Rico, Guam, the U.S. Virgin Islands, American Samoa, and the Commonwealth of the Northern Mariana Islands. The Federal Lands Transportation Program (FLTP) provides assistance to the Federal Land Management Agencies (FLMAs) for Federally-owned roads and trails. It provides transportation engineering services and funding for planning, design, construction, and rehabilitation of the highways and bridges providing access to and on federally owned lands. The Federal Lands Highway organization also provides training, technology, deployment, engineering services, and products to other customers.

<u>Performance Measures</u>	<u>2014</u>	<u>2015</u>	<u>2016</u>
Overtime hours utilized	88	272	315
The number of overtime hours the officers utilize to identify and apprehend persons attempting to gain entry into the US by the Arizona/Mexico border.

Grant/Project and Description	CFDA	Grantor	AFIS ID	2014 Received	2015 Est. Rev.	2016 Est. Rev.	Footnote(s)
National Motor Carrier Safety	20.218	Department of Transportation	693271	2,060.1	76.7	0.0	⁶

The MCSAP is a Federal grant program that provides financial assistance to States to reduce the number and severity of accidents and hazardous materials incidents involving commercial motor vehicles (CMV). The goal of the MCSAP is to reduce CMV-involved accidents, fatalities, and injuries through consistent, uniform, and effective CMV safety programs. Investing grant monies in appropriate safety programs will increase the likelihood that safety defects, driver deficiencies, and unsafe motor carrier practices will be detected and corrected before they become contributing factors to accidents.

<u>Performance Measures</u>	<u>2014</u>	<u>2015</u>	<u>2016</u>
Number of vehicle inspections conducted for compliance with commercial vehicle regulations	28,836	34,844	N/A
Inspections will include commercial motor vehicles, international carriers, passenger carriers and Haz Mat carriers. Grant ends 12/31/14. Goal is 15,000 inspections quarterly/60,000 inspections annually.			

Border Enforcement Grants	20.233	Department of Transportation	693272	3,982.4	0.0	0.0	⁶
----------------------------------	---------------	---	--------	---------	-----	-----	--------------

The Federal Motor Carrier Safety Administration's objective is to ensure motor carriers operating commercial vehicles entering the United States from a foreign country are in compliance with commercial vehicle safety standards and regulations, financial responsibility regulations and registration requirements of the United States, and to ensure drivers of those vehicles are qualified and properly licenses to operate the commercial vehicle.

<u>Performance Measures</u>	<u>2014</u>	<u>2015</u>	<u>2016</u>
Number of annual vehicle inspections conducted	12,425	12,768	N/A
Funds obtained for inspectors to conduct at least 25,000 annual inspections in the Arizona border corridor in order to decrease fatalities. Inspections will include commercial motor vehicles, international carriers, passenger carriers and Haz Mat Vehicles.

<u>Grant/Project and Description</u>	<u>CFDA</u>	<u>Grantor</u>	<u>AFIS ID</u>	<u>2014 Received</u>	<u>2015 Est. Rev.</u>	<u>2016 Est. Rev.</u>	<u>Footnote(s)</u>
Homeland Security Grant Program	97.067	Department of Homeland Security	693648	0.0	200.0	0.0	2, 3, 6

- Objective One: Completion of the THIRA process in alignment with National Preparedness System guidance to identify the resources required to deliver core capabilities.
- Objective Two: Conduct risk driven, capabilities-based planning through whole community councils and working groups.
- Objective Three: Organization – Typing of equipment, and credentialing and training of personnel.
- Objective Four: Sustaining Capabilities.

Priority Two: Building and Sustaining Law Enforcement Terrorism Prevention Capabilities

- Objective One: Nationwide Suspicious Activity Reporting Initiative (NSI)

Priority Three: Maturation and Enhancement of State and Major Urban Area Fusion Centers

- Objective One: Baseline Capabilities.
- Objective Two: Analytic Capabilities.

The Department of Homeland Security Appropriations Act, 2013 (Public Law 113-6) authorized additional funding allocated at the discretion of the Secretary of the Department Homeland Security, to support appropriated programs in FY 2013. DHS has augmented the SHSP and UASI grant programs in FY 2013 by allocating an additional \$163.4 million to support the following priority areas:

Priority Four: Innovation and Sustained Support for the National Campaign for Preparedness

- Objective One: Foster individual and community preparedness and resilience by identifying needs; mobilizing partners; and creating innovative and effective solutions that can be grown, sustained, and replicated.

Priority Five: Improve Immediate Emergency Victim Care at Mass Casualty Events

- Objective One: Improve emergency care to victims of mass casualty events, including mass shootings.
- Objective Two: Improve community first aid training.

Minimum funding amounts are not prescribed by the Department for these priorities; however grantees are expected to support state, local, and regional efforts in achieving the desired outcomes of one or more of these priorities.

Support for Adam Walsh Act Implementation Grant Program	16.750	Department of Justice	697171	85.2	312.0	0.0	2, 6
--	---------------	------------------------------	--------	------	-------	-----	------

To assist State, local, and tribal jurisdictions with developing and/or enhancing programs designed to implement requirements of the Sex Offender Registration and Notification Act (SORNA), Title I of the Adam Walsh Child Protection and Safety Act of 2006; to support other grant programs authorized by the AWA, and to provide for the maintenance and operation of the Dru Sjodin National Sex Offender Public Website (NSOPW). In summary, SORNA requires: (1) all States, the District of Columbia, the principal U.S. territories, and federally recognized American Indian tribes that are eligible under SORNA section 127 to carry out the functions of SORNA and have elected to do so to maintain a sex offender registry; and (2) sex offenders to register and maintain a current registration in each jurisdiction where the offender resides, is an employee, and is a student. SORNA also sets forth requirements for sex offender registries to include: specified required information, duration of registration, and in-person verification of sex offender identity as well as participation in the NSOPW. NSOPW links to state, territory and tribal public sex offender registries thus allowing nation-wide searches for registered sex offenders.

<u>Performance Measures</u>	<u>2014</u>	<u>2015</u>	<u>2016</u>
Percentage of funds spent on creating a Statewide Sex Offender Electronic Registration Database	N/A	50%	50%
Funds will be used to purchase computer equipment, software and training to create a statewide Sex Offender Registration Database. FY15 funding will be used for statewide travel/training on how to use the database.

<u>Grant/Project and Description</u>	<u>CFDA</u>	<u>Grantor</u>	<u>AFIS ID</u>	<u>2014 Received</u>	<u>2015 Est. Rev.</u>	<u>2016 Est. Rev.</u>	<u>Footnote(s)</u>
NICS Act Record Improvement Program	16.813	Department of Justice	697194	21.2	0.0	0.0	2, 6

To improve the FBI's National Instant Criminal Background Check System (NICS) by providing assistance to states to improve the completeness, automation and transmittal to state and federal systems the records utilized by the NICS. Such records include criminal history records, records of felony convictions, warrants, records of protective orders, convictions for misdemeanor involving domestic violence and stalking, records of mental health adjudications, and others, which may disqualify an individual from possessing or receiving a firearm under federal law. Helping states to automate these records will also reduce delays for law-abiding gun purchasers.

The NICS Improvement Act amends the Brady Handgun Violence Prevention Act of 1993 ("the Brady Act") (Public Law 103-159), under which the Attorney General established NICS. The Brady Act requires Federal Firearms Licensees (FFLs) to contact the NICS before transferring a firearm to an unlicensed person for information on whether the proposed transferee is prohibited from receiving or possessing a firearm under state or federal law. The NICS Improvement Act was enacted in the wake of the April 2007 shooting tragedy at Virginia Tech. The Virginia Tech shooter was able to purchase firearms from an FFL because information about his prohibiting mental health history was not available to the NICS and the system was therefore unable to deny the transfer of the firearms used in the shootings.

The Act seeks to address the gap in information available to NICS about such prohibiting mental health adjudications and commitments and other prohibiting backgrounds. Filling these information gaps will better enable the system to operate as intended to keep guns out of the hands of persons prohibited by federal or state law from receiving or possessing firearms.

The Act authorized two grant programs to assist states in providing certain information to the NICS, and prescribes grant penalties for non-compliance with the Act's record completeness goals. Pursuant to the Act, there are certain conditions, described below, that a state must satisfy in advance of receiving grants under the Act. The NICS Improvement Act has provisions that require states to meet specified goals for completeness of the records submitted to the Attorney General on individuals prohibited by federal law from possessing firearms. The records covered include automated information needed by the NICS to identify felony convictions, felony indictments, fugitives from justice, drug arrests and convictions, prohibiting mental health adjudications and commitments, domestic violence protection orders, and misdemeanor crimes of domestic violence.

The Act provides for a number of incentives for states to meet the goals it sets for greater record completeness. First, the Act allows states to obtain a waiver, beginning in 2011, of the state matching requirement under the National Criminal

Crime Victim Assistance	16.575	Department of Justice	TBD	0.0	3,494.4	4,401.0	^{3,6}

Enacted in 1984, the Victims of Crime Act (VOCA) is the central source of federal financial support for direct services to victim of crime. VOCA is administered at the federal level through the U.S. Department of Justice, Office for Victims of Crime which annually awards a grant to each state, the District of Columbia and U.S. Territories to support victim assistance services for victims and survivors of domestic violence, sexual assault, child abuse, drunk driving, homicide, and other crimes. Each state has a designated VOCA assistance agency to administer VOCA grants. Those state agencies in turn, subgrant to organizations that provide direct services to victims of crime. While minimal federal requirements must be met, each state is given great discretion in awarding specific subgrants.

JAG funds support all components of the criminal justice system from multijurisdictional drug and gang task forces to crime prevention and domestic violence programs, courts, corrections, treatment, and justice information sharing initiatives. JAG funded projects may address crime through the provision of services directly to individuals and/or communities and by improving the effectiveness and efficiency of criminal justice systems, processes, and procedures.

The MCSAP is a Federal grant program that provides financial assistance to States to reduce the number and severity of accidents and hazardous materials incidents involving commercial motor vehicles (CMV). The goal of the MCSAP is to reduce CMV-involved accidents, fatalities, and injuries through consistent, uniform, and effective CMV safety programs. Investing grant monies in appropriate safety programs will increase the likelihood that safety defects, driver deficiencies, and unsafe motor carrier practices will be detected and corrected before they become contributing factors to accidents.

<u>Grant/Project and Description</u>	<u>CFDA</u>	<u>Grantor</u>	<u>AFIS ID</u>	<u>2014 Received</u>	<u>2015 Est. Rev.</u>	<u>2016 Est. Rev.</u>	<u>Footnote(s)</u>
State Indoor Radon Grants	66.032	Environmental Protection Agency	900026	80.5	100.0	100.0	6

Title III of the Toxic Substances Control Act (TSCA), the Indoor Radon Abatement Act (IRAA), Section 306, authorizes EPA to assist States and Federally Recognized Indian Tribes to develop and implement programs to assess and mitigate radon-related lung cancer risk. In FY 2013 EPA will encourage state and tribal grant recipients to work collaboratively with their (non-EPA) Federal Departments and Agencies participating in the Federal Radon Action Plan (FRAP) - http://www.epa.gov/radon/action_plan.html.

Projects should also focus on addressing environmental justice (EJ) concerns in communities. EJ is the fair treatment and meaningful involvement of all people regardless of race, color, national origin, or income with respect to the development, implementation, and enforcement of environmental laws, regulations, and policies.

Funding Priority - Fiscal Year 2013: In FY 2013 the State Indoor Radon Grant (SIRG) program will continue to emphasize radon risk reduction through increased action by home buyers and sellers, homeowners, real estate professionals, radon services professionals, homebuilders, tribes, non-governmental organizations, Federal, state and local governments, and non-governmental organizations. Projects funded by SIRG should focus on achieving the following outcomes:

- Homes built to include radon-reducing features, especially in high-radon potential areas,
- Reducing radon in existing homes to below 4pCi/L through mitigation, and
- Building new schools to include radon-reducing features, and reducing radon in existing schools to below 4pCi/L.

To achieve these outcomes and increase results, the SIRG program aims to: (1) improve the effectiveness of state-local/tribal radon programs; (2) focus on high radon potential areas, especially for new home building, building code adoption, and green and healthy homes programs; (3) encourage testing and mitigation within residential property transfers; and (4) encourage SIRG recipients to be strategic in their risk reduction efforts e.g., utilizing results data and information, by institutionalizing risk reduction practices and policies, and utilizing best practices.

Homeland Security Grant Program	97.067	Department of Homeland Security	950005	38.7	0.0	0.0	2, 6, 8

FY 2012 HSGP and THSGP provide grant funding to assist state and local governments in obtaining the resources required to support the National Preparedness Goal's (NPG's) associated mission areas and core capabilities. FY 2012 THSGP provides funding directly to eligible tribes to help strengthen the nation against risks associated with potential terrorist attacks. The FY 2012 HSGP is comprised of three interconnected grant programs:

- State Homeland Security Program (SHSP): SHSP supports the implementation of State Homeland Security Strategies to address the identified planning, organization, equipment, training, and exercise needs to prevent, protect against, mitigate, respond to, and recover from acts of terrorism and other catastrophic events.
- Urban Areas Security Initiative (UASI): The UASI program addresses the unique planning, organization, equipment, training, and exercise needs of high-threat, high-density Urban Areas, and assists them in building an enhanced and sustainable capacity to prevent, protect against, mitigate, respond to, and recover from acts of terrorism.
- Operation Stonegarden (OPSG): OPSG supports enhanced cooperation and coordination among local, tribal, territorial, State, and Federal law enforcement agencies in a joint mission to secure the United States' borders along routes of ingress from international borders to include travel corridors in States bordering Mexico and Canada, as well as States and territories with international water borders.

All three programs are founded on risk-driven, capabilities-based strategic plans. These strategic plans outline capability requirements and inform how available funding may be applied to manage risk. For these plans to be effective, government officials and elected leaders, working with the whole community, must consider how to sustain current capability levels and address potential shortfalls to prevent, protect, mitigate, respond to, and recover from disasters.

The FY 2013 HSGP plays an important role in the implementation of the National Preparedness System (NPS) by supporting the building, sustainment, and delivery of core capabilities essential to achieving the National Preparedness Goal (NPG) of a secure and resilient Nation. Delivering core capabilities requires the combined effort of the whole community, rather than the exclusive effort of any single organization or level of government. The FY 2013 HSGP's allowable costs support efforts to build and sustain core capabilities across the Prevention, Protection, Mitigation, Response, and Recovery mission areas by setting the following priorities and objectives:

Priority One: Implementation of the NPS and a Whole Community Approach to Homeland Security and Emergency Management

**State of Arizona

Agency: Radiation Regulatory Agency

<u>Grant/Project and Description</u>	<u>CFDA</u>	<u>Grantor</u>	<u>AFIS ID</u>	<u>2014 Received</u>	<u>2015 Est. Rev.</u>	<u>2016 Est. Rev.</u>	<u>Footnote(s)</u>
Homeland Security Grant Program	97.067	Department of Homeland Security	950005	38.7	0.0	0.0	2, 6, 8

- Objective One: Completion of the THIRA process in alignment with National Preparedness System guidance to identify the resources required to deliver core capabilities.
- Objective Two: Conduct risk driven, capabilities-based planning through whole community councils and working groups.
- Objective Three: Organization – Typing of equipment, and credentialing and training of personnel.
- Objective Four: Sustaining Capabilities.

Priority Two: Building and Sustaining Law Enforcement Terrorism Prevention Capabilities

- Objective One: Nationwide Suspicious Activity Reporting Initiative (NSI)

Priority Three: Maturation and Enhancement of State and Major Urban Area Fusion Centers

- Objective One: Baseline Capabilities.
- Objective Two: Analytic Capabilities.

The Department of Homeland Security Appropriations Act, 2013 (Public Law 113-6) authorized additional funding allocated at the discretion of the Secretary of the Department Homeland Security, to support appropriated programs in FY 2013. DHS has augmented the SHSP and UASI grant programs in FY 2013 by allocating an additional \$163.4 million to support the following priority areas:

Priority Four: Innovation and Sustained Support for the National Campaign for Preparedness

- Objective One: Foster individual and community preparedness and resilience by identifying needs; mobilizing partners; and creating innovative and effective solutions that can be grown, sustained, and replicated.

Priority Five: Improve Immediate Emergency Victim Care at Mass Casualty Events

- Objective One: Improve emergency care to victims of mass casualty events, including mass shootings.
- Objective Two: Improve community first aid training.

Minimum funding amounts are not prescribed by the Department for these priorities; however grantees are expected to support state, local, and regional efforts in achieving the desired outcomes of one or more of these priorities.

Regional Information Sharing Systems	16.610	Department of Justice	16610	0.0	0.0	0.0	²

The RISS is a nationwide program supporting local, state, federal, and tribal law enforcement combat efforts in the areas of terrorism, drug trafficking, organized criminal activity, criminal gangs, violent crime, human trafficking, and other regional criminal priorities. RISS provides secure, nationwide information and intelligence-sharing capabilities, secure, but unclassified electronic communications capabilities, investigative analysis support, specialized investigative equipment, and other investigative support services.

RISS operates in all 50 states, the District of Columbia, U.S. territories, Canada, and England. RISS is the collective effort of six regional centers. The goal is to promote officer safety, enhance the ability to identify, target, and remove criminal conspiracies and activities spanning multi-jurisdictional, multi-state, and sometime international boundaries. While the RISS centers operate independently and are tailored to support the unique needs of the region served, they also operate as a collective body to address national criminal justice issues. RISS is governed by a National Policy Group comprised of the six RISS Directors and the Chair of each regional center's board of directors. The Bureau of Justice Assistance (BJA), U.S. Department of Justice (DOJ), administers the RISS Program.

Highway Planning and Construction	20.205	Department of Transportation	20205	656,000.0	660,000.0	660,000.0	2

Federal-aid Highway Program: To assist State transportation agencies in the planning and development of an integrated, interconnected transportation system important to interstate commerce and travel by constructing and rehabilitating the National Highway System (NHS), including the Eisenhower Interstate System; for transportation improvements to many other public roads; to provide aid for the repair of Federal-aid highways following disasters; to foster safe highway design; to replace or rehabilitate deficient or obsolete bridges; and to provide for other special purposes. This program also provides for the improvement of roads in Puerto Rico, Guam, the U.S. Virgin Islands, American Samoa, and the Commonwealth of the Northern Mariana Islands. The Federal Lands Transportation Program (FLTP) provides assistance to the Federal Land Management Agencies (FLMAs) for Federally-owned roads and trails. It provides transportation engineering services and funding for planning, design, construction, and rehabilitation of the highways and bridges providing access to and on federally owned lands. The Federal Lands Highway organization also provides training, technology, deployment, engineering services, and products to other customers.

--------------------------------------	---------------	---	-------	---------	---------	---------	--------------

The MCSAP is a Federal grant program that provides financial assistance to States to reduce the number and severity of accidents and hazardous materials incidents involving commercial motor vehicles (CMV). The goal of the MCSAP is to reduce CMV-involved accidents, fatalities, and injuries through consistent, uniform, and effective CMV safety programs. Investing grant monies in appropriate safety programs will increase the likelihood that safety defects, driver deficiencies, and unsafe motor carrier practices will be detected and corrected before they become contributing factors to accidents.

Substance Abuse and Mental Health Services_Projects of Regional and National Significance	93.243	Department of Health and Human Services	069000	0.0	40.0	0.0	1, 2, 3, 6

Substance Abuse and Mental Health Service Administration (SAMHSA) was reauthorized by the Children's Health Action of 2000, Public law 106-310. Under this reauthorization, SAMHSA was given the authority to address priority substance abuse treatment, prevention and mental health needs of regional and national significance through assistance (grants and cooperative agreements) to States, political subdivisions of States, Indian tribes and tribal organizations, and other public or nonprofit private entities. Under these sections, CSAT, CMHS and CSAP seek to expand the availability of effective substance abuse treatment and recovery services available to Americans to improve the lives of those affected by alcohol and drug additions, and to reduce the impact of alcohol and drug abuse on individuals, families, communities and societies and to address priority mental health needs of regional and national significance and assist children in dealing with violence and traumatic events through by funding grant and cooperative agreement projects. Grants and cooperative agreements may be for (1) knowledge and development and application projects for treatment and rehabilitation and the conduct or support of evaluations of such projects; (2) training and technical assistance; (3) targeted capacity response programs (4) systems change grants including statewide family network grants and client-oriented and consumer run self-help activities and (5) programs to foster health and development of children; (6) coordination and integration of primary care services into publicly-funded community mental health centers and other community-based behavioral health settings funded under Affordable Care Act (ACA).

VA Homeless Providers Grant and Per Diem Program	64.024	Department of Veterans Affairs	107800	105.5	70.0	70.0	2,6

To assist public and nonprofit private entities in establishing new programs and service centers to furnish supportive services and supportive housing for homeless veterans through grants that may be used to acquire, renovate or alter facilities, and to provide per diem payments, or in-kind assistance in lieu of per diem payments, to eligible entities which established programs after November 10, 1992 that provide supportive services and supportive housing for homeless veterans. (Note: The number of vans was limited to 20 for the life of this grant. This Van Restriction has not been lifted.)

<u>Performance Measures</u>	<u>2014</u>	<u>2015</u>	<u>2016</u>
Expenditure of federal dollars in Arizona by the U.S. Department of Veterans Affairs	2,845.6	3220.9	2,851.2
Measure reflects the amount of federal dollars spent by the U.S. Department of Veterans Affairs. All known federal funds entering into Arizona economy as a result of veterans living in Arizona are included. The result is divided by the VA's estimated number of Arizona veterans as of 9/1 of that federal FY. Federal dollars have increased while the VA Office of the Actuary has adjusted its estimate of veterans living in the state upwards (based on a complex projection methodology for every county in US which even includes migration patterns for veterans displaced by Hurricanes Katrina and Rita).

Capitalization Grants for Clean Water State Revolving Funds	66.458	Environmental Protection Agency	040001	6,293.3	546.4	0.0	2, 6

To create State Revolving Funds (SRFs) through a program of capitalization grants to States which will provide a long term source of State financing for construction of waste water treatment facilities and implementation of other water quality management activities. Funding Priority - Fiscal Year 2013: Capitalization grants are available to each State for the purpose of establishing a Clean Water SRF for providing assistance for: (1) construction of publicly owned waste water treatment works; (2) implementing nonpoint source management activities included in State Plans developed pursuant to Section 319; and (3) developing and implementing an estuary comprehensive conservation and management plan under Section 320. The capitalization grant is deposited in the State's SRF, which is used to provide loans and other types of financial assistance, to local communities and intermunicipal and interstate agencies. Up to 4 percent of the grant amounts may be used by the States for the cost of administering the SRF. States determine priorities for funding within their State in accordance with the CWA. Similar to the American Recovery and Reinvestment Act (Recovery Act) of 2009, a portion of the FY 2013 funding must be used to provide additional subsidy in the form of grants, principal forgiveness or negative interest loans and a portion of funding must, also, be targeted toward green infrastructure, water and energy efficiency, and environmentally innovative projects. The program supports the Agency's strategic goal of ensuring Clean and Safe Water.

Capitalization Grants for Drinking Water State Revolving Funds	66.468	Environmental Protection Agency	999902	8,875.6	3,811.1	0.0	⁶

Grants are made to States and Puerto Rico to capitalize their Drinking Water State Revolving Funds (DWSRFs) which will provide a long-term source of financing for the costs of drinking water infrastructure. Grants are also made to the District of Columbia, U.S. Territories (Virgin Islands, Mariana Islands American Samoa, and Guam), and Indian Tribes.

Funding Priority - Fiscal Year 2013: The funding priority established by the SDWA are for capitalization grants to each state for infrastructure improvement projects that are needed to achieve or maintain compliance with SDWA requirements, protect public health, and assist systems with economic need. A state may use a portion of the capitalization grant funds for programs that emphasize preventing contamination problems through source water protection and enhancing water system management. States and EPA Regions determine priorities for funding in accordance with SDWA. The program supports the Agency's strategic goal of ensuring clean and safe water.

Grant/Project and Description	CFDA	Grantor	AFIS ID	2014 Received	2015 Est. Rev.	2016 Est. Rev.	Footnote(s)
Colorado River Basin Projects Act of 1968	15.541	Department of the Interior	222013	0.0	0.0	0.0	2,6

It is the objective of this Act under Title I, to provide a program for the further comprehensive development of water resources of the Colorado River Basin and for the provision of additional and adequate water supplies for the use in the upper as well as in the lower Colorado Basin. This program is declared to be for the purposes, among others, of regulating the flow of the Colorado River; controlling floods; improving navigation; providing for the storage and delivery of waters of the Colorado River for reclamation of lands, including supplemental water supplies, and for municipal, industrial, and other beneficial purposes; improving water quality; providing for basic public outdoor recreation facilities; improving conditions of fish and wildlife, and the generation and sale of electrical power as an incident of the foregoing purpose.

<u>Grant/Project and Description</u>	<u>CFDA</u>	<u>Grantor</u>	<u>AFIS ID</u>	<u>2014 Received</u>	<u>2015 Est. Rev.</u>	<u>2016 Est. Rev.</u>	<u>Footnote(s)</u>
Cooperating Technical Partners	97.045	Department of Homeland Security	892013	82.0	55.5	90.0	6

The Cooperating Technical Partners Program was developed to supplement and expand the on-going efforts of participating National Flood Insurance Program (NFIP) communities, Tribes, and States (and the agencies and organizations who support them) who perform certain functions in the flood risk analysis, flood hazard identification, flood risk communication and mitigation processes to reduce flood losses and protect life and property from the risk of future flood damage. The Cooperating Technical Partners Program seeks to: increase local involvement in, and ownership of, the development and maintenance of Flood Insurance Rate Maps (FIRMS) and risk related products produced for the NFIP; build and maintain partner capabilities; continue to increase local ownership of data and processes; and establish sound performance criteria for current Cooperating Technical Partners.

In FY 2009, FEMA transitioned from its Map Modernization (Map Mod) program to Risk MAP (Mapping, Assessment, and Planning). The vision for Risk MAP is to deliver quality data that increases public awareness of flood hazard risk and leads to action that reduces flood risk to life and property. Risk MAP builds on flood hazard data and maps produced during the Map Mod program. FEMA collaborates with a variety of stakeholders to achieve the following goals under Risk MAP:

1. Flood Hazard Data. Address gaps in flood hazard data to form a solid foundation for risk assessment, floodplain management, and actuarial soundness of the NFIP.
 2. Public Awareness/Outreach. Ensure that a measurable increase of the public's awareness and understanding of risk results in a measurable reduction of current and future vulnerability.
 3. Hazard Mitigation Planning. Lead and support States, local, and Tribal communities to effectively engage in risk-based mitigation planning resulting in sustainable actions that reduce or eliminate risks to life and property from natural hazards.
 4. Enhanced Digital Platform. Provide an enhanced digital platform that improves management of Risk MAP, stewards information produced by Risk MAP, and improves communication and sharing of risk data and related products to all levels of government and the public.
 5. Alignment and Synergies. Align Risk Analysis programs and develop synergies to enhance decision-making capabilities through effective risk communication and management.
- Information about Risk MAP (including goals, strategies, progress and success stories), can be found on FEMA's website at <http://www.fema.gov/risk-mapping-assessment-planning>.

Agency: Department of Water Resources

Grant/Project and Description	CFDA	Grantor	AFIS ID	2014 Received	2015 Est. Rev.	2016 Est. Rev.	Footnote(s)
Cooperating Technical Partners	97.045	Department of Homeland Security	892013	82.0	55.5	90.0	⁶

<u>Performance Measures</u>	<u>2014</u>	<u>2015</u>	<u>2016</u>
Coordinate with floodplain administrators.	100%	100.0%	100%
Coordinate with local floodplain administrators to identify risk, future growth and flood hazard mapping needs of individual Arizona communities.			

Community Assistance Program State Support Services Element (CAP-SSSE)	97.023	Department of Homeland Security	902012	0.0	235.1	157.8	^{3,6}
---	---------------	--	--------	-----	-------	-------	----------------

To provide, through a State grant mechanism, a means to ensure that communities participating in the National Flood Insurance Program (NFIP) are achieving flood loss reduction goals of the NFIP. CAP-SSSE funds are to be used by States to provide technical assistance to NFIP communities, to evaluate community implementation/performance of NFIP floodplain management activities, and to build State and community floodplain management expertise and capacity.

The CAP-SSSE program supports the Mitigation Mission Area Capabilities and Targets described in the National Preparedness Goal (NPG) under “Planning” and “Risk and Disaster Resilience Assessment”.

<u>Performance Measures</u>	<u>2014</u>	<u>2015</u>	<u>2016</u>
Community Assistance Visits Grant expired 9/30/2012.	N/A	N/A	N/A
Conduct FEMA related workshops. Grant expired on 9/30/2012.	N/A	N/A	N/A
Community Assistance Contacts	N/A	N/A	N/A

Appendix

FOOTNOTES

- 1 Amount Available and/or Received includes pass-through monies from other State agencies.
- 2 FTE information not provided at all or not consistently provided.
- 3 Program commences in FY 2015.
- 4 No new revenue reported; expenditures were funded by carry-over balances from the previous fiscal year.
- 5 Program commences in FY 2016.
- 6 Negative amount represents revertment, administrative adjustment or transfer of carry-over monies from the previous fiscal year.
- 7 Amount Available and/or Received is projected to be spent in the ensuing fiscal year(s).
- 8 Program ends in FY 2015.
- 9 A CFDA number was not provided by the agency. The CFDA number shown was inserted by OSPB in order to identify the Federal function of the grant for use in the tables located in the Appendix.
- 10 A valid CFDA number was not provided by the agency. The CFDA number (66.AE1, 15.PR1-8, etc.) shown was inserted in order to identify the Federal function of the grant as "Other" in the tables located in the Appendix.
- 11 Federal Funds for FY 2014 expenditures are projected to be received in FY 2015.
- 12 Amount contains monies returned to the agency.
